Berberis spp. (plants of all species and horticultural varieties designated as resistant to black-stem rust in accordance with 7 CFR 301.38-5 (14 F. R. 999) or amendments thereof.	All foreign countries when destined to the eradication states designated in 7 CFR 301.38-3 (14 F. R. 999) or amendments thereof.	Puccinia graminis Pers. (Black-stem rust).

the item now appearing as "Ribes nigrum (both plants and seeds)" from "All foreign countries when destined to states protected by Domestic Plant Quarantine No. 63 [9]" because of "Cronartium ribicola Fischer (White-pine blister rust)", and substitute therefor the words "designated as noninfected in 7 CFR 301.63–3a."

(b) In § 319.37–1 (g), amend the paragraph to read:

(g) *Restricted plant material.* Any living material the entry of which is not prohibited by any quarantine or order, and which is not restricted entry by any other quarantine or order, which is imported, offered for entry into, or arrives within the territorial limits of, the United States.

(c) In § 319.37–8, amend the second sentence of this paragraph to read: "Inspection of Primula spp., except Primula spp. from Canada, shall be accomplished by detention of the plants for the time necessary to test them for the presence of tobacco-necrosis virus by the process of inoculating known susceptible plants, which is termed 'indexing.'"

(d) In § 319.37–19 (b) (4), amend the paragraph to read:

(4) Make no distribution from the specified premises of the restricted plant material, its increase, or the blooms thereof, until released from the agreement by the Bureau, which release in the case of cut blooms may be written authorization by the inspector.

(e) In the following items, now included in the list of restricted plant material to be grown under postentry quarantine appearing in § 319.37–19 (c), are proposed as indicated:

(1) Delete the present language in the item now appearing as "Berberis spp. (Plants of all varieties known to be immune or resistant to stem rust)" from "All foreign countries. May not be grown under postentry quarantine in states protected by Domestic Plant Quarantine No. 38 [8]", with the accompanying footnote, and substitute in the respective columns the following:

Berberis spp. (plants of all species and horticultural varieties not designated as resistant to black stem rust in accordance with 7 CFR 301.38–5 (14 F. R. 999) or amendments thereof).	All foreign countries. (May not be grown under postentry quarantine in the eradication states designated in 7 CFR 301.38–3 (14 F. R. 999) or amendments thereof).

(2) Delete the present language in the item now appearing as "Fruit and nut buds, clones, cuttings and scions, or stocks imported for the vegetative propagation of the stocks themselves (other than as separately designated)", and substitute therefor the following: "Fruit and nut plants, buds, cuttings, and scions, or stocks imported for the vegetative propagation of stocks (except as 'Mahoberberis spp. (plants of all varieties known to be immune or resistant to stem rust)" from "All foreign countries. May not be grown under postentry quarantine in states protected by Domestic Plant Quarantine No. 38 [8]", with the accompanying footnote, and substitute in the respective columns the following:

Mahoberberis spp. (plants of all species and horticultural varieties not designated as resistant to black stem rust in accordance with 7 CFR 301.38–5 (14 F. R. 999) or amendments thereof).	All foreign countries. (May not be grown under postentry quarantine in the eradication states designated in 7 CFR 301.38–3 (14 F. R. 999) or amendments thereof).

(4) Delete the present language in the item now appearing as "Mahonia spp. (plants of all varieties known to be resistant to rust)" from "All foreign countries. May not be grown under postentry quarantine in states protected by Domestic Plant Quarantine No. 38 [8]", with the accompanying footnote, and substitute in the respective columns the following:

Mahonia spp. (plants of all species and horticultural varieties designated as resistant to black stem rust in accordance with 7 CFR 301.38–5 (14 F. R. 999) or amendments thereof).	All foreign countries. (May not be grown under postentry quarantine in the eradication states designated in 7 CFR 301.38–3 (14 F. R. 999) or amendments thereof).

(5) Delete the present language in the item now appearing as "Malus spp. (except clonal understocks)" from "All foreign countries except Australia, Canada, China, Japan, Korea, Manchuria, and those in Europe and South Africa," and substitute in the respective columns the following:

Malus spp., including stocks, when not prohibited entry..	All foreign countries except Canada

(6) Delete entirely the present language in the item now appearing as "Malus spp." from "All foreign countries except Canada and those in South Africa."

(7) Delete the words "British Isles" from the item now appearing as "Nicotiana spp." from "All foreign countries except Australia, British Isles, and Canada" and substitute therefor the words "Great Britain."

(8) Delete entirely the present language in the item now appearing as "Pinus spp. (5-leaved)" from "All foreign countries when destined to states not protected by Domestic Plant Quarantine No. 63 [9]", with the accompanying footnote.

(9) Delete the present language in the item now appearing as "Prunus spp." from "Canada, when destined to California", and substitute, in the respective columns, the following:

Prunus spp., including stocks, when not prohibited entry.	All foreign countries except Canada, and from Canada when destined to California.

(10) Delete the present language in the item now appearing as "Pyrus spp." from "All foreign countries except Canada, Japan, Korea, Manchuria, and those in Europe and South Africa", and substitute, in the respective columns, the following:

Pyrus spp., including stocks, when not prohibited entry...	All foreign countries except Canada.

(11) Delete the words "or when destined to states protected by Domestic Plant Quarantine No. 63 [9]", with the acompanying footnote, from the item now appearing as "Ribes nigrum" from "All foreign countries except British Isles, Canada, and New Zealand, or when destined to states protected by Domestic Plant Quarantine No. 63 [9]", and substitute therefor the words "(may not be grown under postentry quarantine when destined to states designated as noninfected in 7 CFR 301.63–3a)".

(12) Delete the words "(non-Maritime provinces)" from the item now appearing as "Sorbus spp." from "All foreign countries except Canada (non-Maritime provinces), China, Japan, Philippine Islands, and those in Southeastern Asia and Oceania (including Australia and New Zealand)". Also, in this item, insert the word "Germany" between the words "China" and "Japan".

(f) It is also proposed to reissue and approve in toto §§ 319.37 to 319.37–25, as a complete revision to include the proposed amendments as well as all amendments thereof issued since the quarantine and supplementary regulations were approved July 21, 1948.

The supply of reprints of Nursery Stock, Plant, and Seed Quarantine No. 37 and supplementary regulations, effective September 1, 1948, and January 1, 1949, has been exhausted. It is therefore necessary to print a new edition. It is proposed to take advantage of this opportunity to make certain minor changes in the text of the quarantine and regulations.

Several of the above-proposed changes are occasioned by the use in the present quarantine and regulations of the terms "clone" and "clonal understocks." These are subject to several interpretations by those in the horticultural trade. For example, there is no universally accepted nomenclatorial device for differentiating clones from species or true varieties grown from seeds. "Clone" is not even defined in some foreign horticultural encyclopedias. It is therefore proposed, as above indicated, to delete these terms and substitute references to "stocks", a more readily understood term and one in common usage in the trade. In other instances the amendments clarify the intent of the regulations where there are now slight ambiguities. These amendments are all within the scope of the announced statement of purpose contained in the revision of Notice of Quarantine No. 37 and supplementary regulations, approved July 21, 1948 (7 CFR 319.37 et seq.).

All persons who desire to submit written data, views, or arguments in connection with this matter should file the same with the Chief of the Bureau of Entomology and Plant Quarantine, Agricultural Research Administration, United States Department of Agriculture, Washington 25, D. C., within 20 days after the date of the publication of this notice in the FEDERAL REGISTER.

HANDLING OF WALNUTS GROWN IN CALIFORNIA, OREGON, AND WASHINGTON

NOTICE OF PROPOSED RULE MAKING WITH RESPECT TO INCREASE IN BUDGET OF EXPENSES FOR MARKETING YEAR BEGINNING AUGUST 1, 1949

Consideration is being given to the approval of a proposed increase from $62,560 to $68,080 in the current budget of expenses of the Walnut Control Board, established as the administrative agency under Marketing Agreement No. 105 and Order No. 84 (7 CFR 984.1 et seq.), regulating the handling of walnuts grown in California, Oregon, and Washington. The budget of expenses for the marketing year beginning August 1, 1949, was originally approved on October 26, 1949 (14 F. R. 6624, 7 CFR 984.301).

All persons who desire to submit written data, views, or arguments in connection with this proposal should file the same with the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 10th day after the publication of this notice in the FEDERAL REGISTER.

This proposed increase in the authorized budget of expenses was recommended in a resolution adopted by mail vote of the Walnut Control Board initiated on June 13, 1950, and tabulated June 22, 1950. This action was due to the fact that expenses of the Board in connection with the administration of the marketing agreement and order program have been greater than were anticipated by the Board in August 1949, when it recommended the presently authorized budget of $62,560.

As reasons for the need for an increase in the authorized budget of expenses, the Secretary of the Walnut Control Board has reported: That the Board's failure to anticipate and provide for all contingencies which have developed is primarily due to the large pack of merchantable walnuts produced from the 1949 crop and the resultant need for extended operations; that one more session of the Control Board was called, then was anticipated in August 1949, in order for the Board to take action in regard to the selection of an agency which will be the inspection agency for the 1950–51 marketing year; and that the Board had authorized the employment of an additional person to be trained to assume the duties of the Secretary of the Walnut Control Board.

Administrative assessments at the presently authorized rate of one-tenth of a cent per pound of merchantable walnuts handled or certified for handling have resulted in collections in excess of the amount of the budget of expenses as now proposed to be increased.

The proposal is to amend § 984.301 to read as follows:

§ 984.301 *Budget of expenses of the Walnut Control Board for the marketing year beginning August 1, 1949.* Expenses in the amount of $68,080 are reasonable and are likely to be incurred by the Walnut Control Board for its maintenance and functioning, and for such other purposes as the Secretary may, pursuant to the provisions of the marketing agreement and order, determine to be appropriate, for the marketing year beginning August 1, 1949, and the incurring of expenses not in excess of that amount for the said marketing year is approved.

Done at Washington, D. C., this 10th day of July 1950.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Branch.

CIVIL AERONAUTICS ADMINISTRATION

[14 CFR, Part 41]

CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that adoption of the following rules is contemplated.

All interested persons who desire to submit comments and suggestions for consideration by the Administrator of Civil Aeronautics in connection with the proposed rules shall send them to the Civil Aeronautics Administration, Office of Aviation Safety, Washington 25, D. C., within 30 days after publication of this notice in the FEDERAL REGISTER.

§ 41.49–1 *Crew complement; number of pilots required (CAA rules which apply to §§ 41.49 and 41.65).* The number of pilots required on aircraft certificated in accordance with T-category requirements will not be less than the pilot personnel specified in the minimum crew as set forth in the airplane flight manual of the particular aircraft. In the case of aircraft certificated in accordance with non T-category requirements, not less than two pilots will be required when:

(a) The aircraft incorporates multiengine features combined with retractable landing gear or wing flaps, or

(b) In the conduct of a flight, the duties of a pilot serving as pilot-in-command would be unduly interfered with through the necessity of performing other duties usually performed by a copilot.

§ 41.65–1 *Composition of flight crew (CAA rules which apply to § 41.65)*—(a) *General.* The minimum flight crew as determined by the Administrator, and specified in the air carrier operating certificate, shall be the type and number of flight crew members required on the flight deck for the operation of the aircraft over a particular route or route segment specified in the operating certificate. It is the responsibility of the air carrier to assign such additional flight crew members as necessary for compliance with flight time limitations and the performance of all required functions in accordance with § 41.65 (b).

(b) *Listing of flight crew members in the air carrier operating certificate.* The minimum number of flight crew members serving in the capacity of pilots, and the minimum number of flight crew members serving in the capacity of flight engineers required for duty on the flight deck of an aircraft as prescribed in CAM 41.49–1 and CAM 41.73–1, respectively, are dependent on the type of aircraft authorized for use by the air carrier. As the minimum number of such crew members does not vary with the route or route segment over which the aircraft is flown, this shall be specified in the air carrier operating certificate on Form ACA–514–A by the following provisions: "Pilots and flight engineers shall be those prescribed in CAM 41.49–1 and CAM 41.73–1."

The functional requirements of radiotelegraphy and celestial or other specialized means of navigation, as prescribed in CAM 41.68–1 and CAM 41.80–1, respectively, are dependent on the particular route or route segment over which the aircraft is flown. When a flight crew member is required to perform one of such functions on the flight deck of the aircraft over a route or route segment, he shall be specified in the air carrier operating certificate on Form ACA–514–A by indicating the function required. This will be accomplished by the air carrier's inserting the letter "Y" on a line with the particular route or route segment under the required function; namely, radiotelegraphy — specialized means of navigation.

§ 41.68–1 *Crew complement; flight radio operator (CAA rules which apply to § 41.68)*—(a) *Determination of need.* Radiotelegraphy will be required over any area, route, or route segment where it has been determined that this means of communication is necessary to insure adequate air-ground communication over the area, route, or route segment under normal operating conditions.

§ 41.73–1 *Crew complement; flight engineer (CAA rules which apply to § 41.65 and 41.73)*—(a) *Design of aircraft.* A flight crew member serving in the capacity of a flight engineer shall be required on all four-engine aircraft certificated for more than 80,000 pounds maximum take-off weight as prescribed in CAR 41.73, and on all other four-engine aircraft certificated for more than 30,000 pounds maximum take-off weight when so specified in the airplane flight manual for the particular aircraft.

(b) *Type of operation.* The Administrator has considered the type of operation presently being conducted in aircraft of the 30,000–80,000-pound weight category and has determined that a flight engineer is not required as a result of such operation.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 606, 608, 52 Stat. 1007, 1010, 1011; 49 U. S. C. 551, 554, 556, 558)

[SEAL] DONALD W. NYROP,
Acting Administrator of Civil Aeronautics.

NOTICES

DEPARTMENT OF DEFENSE

Military Renegotiation Policy and Review Board

CONTRACTS CONTAINING THE RENEGOTIATION ARTICLE ENTERED INTO BY OR ON BEHALF OF THE DEPARTMENT OF DEFENSE, INCLUDING THE DEPARTMENTS OF THE ARMY, THE NAVY, AND THE AIR FORCE

Contracts containing the Renegotiation Article entered into by or on behalf of the Department of Defense, including the Departments of the Army, the Navy and the Air Force through March 31, 1950, exclusive of those previously reported in the listings through December 31, 1949, which were published in the FEDERAL REGISTER on April 6, 1950.

Pursuant to the note to § 423.322–1 (c) of the Military Renegotiation Regulations, four lists of numbers of prime contracts which contain the Renegotiation Article, together with the names of the contractors holding such contracts, have been published in the FEDERAL REGISTER. The last of these lists represented a consolidation of such information supplied by the Departments of the Army, the Navy and the Air Force and extended through December 31, 1949. The following list includes contracts entered into through March 31, 1950, but excludes those previously reported in the listings through December 31, 1949. Although a contract is not subject to renegotiation, one or more amendments of such contract may be subject thereto (see MRR 423.332–2). In such cases, only the subject amendments are listed. Subcontractors receiving orders which refer to any such partially listed prime contracts are cautioned to communicate with their customers to ascertain whether it is to the renegotiable or to the nonrenegotiable portion of the prime contract that their orders relate. Contracts over $1,000, but under $5,000, have been omitted from this list; however, the omission does not affect the renegotiability of such contracts.

Publication of these lists, as well as future supplements, is for the sole purpose of disseminating information to help contractors and subcontractors identify sales which are subject to renegotiation. Although every effort has been and will be made to have the lists complete and accurate, the omission of the number of a contract subject to the Renegotiation Act of 1948 does not relieve the contractor and the subcontractors thereunder from renegotiation. Conversely, the inclusion in a published list of the number of a contract which is not subject to the act will not make the contractor or subcontractor thereunder subject to renegotiation. The Renegotiation Article is not physically present in some of the contracts listed herein. However, it is considered that such contracts are required to contain the article and are therefore subject to the Renegotiation Act of 1948. Consequently, the numbers of such contracts are published herein for the same purpose of information as those in which the article is physically present.

Additional lists will be published from time to time in the FEDERAL REGISTER and, also semiannually as supplements of the Military Renegotiation Regulations. The Military Renegotiation Policy and Review Board should be notified of any errors appearing on the lists so that corrections may be made.

FRANK L. ROBERTS,
Chairman.

DEPARTMENT OF THE INTERIOR

Office of the Secretary

[Order 2548, Amdt. 3]

BUREAU OF RECLAMATION

DELEGATION OF AUTHORITY

1. Section 4 of Order No. 2548 is amended to read as follows:

SEC. 4 *Surplus real property.* (a) Pursuant to the authority contained in the letter, dated May 23, 1950, from the Administrator, General Services Administration, the Commissioner of Reclamation and the Director of Supply, the Regional Directors, the Regional Supply Officers, the District Managers, and the Project Heads of the Bureau of Reclamation are severally authorized to dispose of "surplus structures and improvements acquired by the Department of the Interior through its reimbursable Regional Director, the Regional Supply reclamation program which are situated on non-surplus Government-owned land" in accordance with the Federal Property and Administrative Services Act of 1949 and regulations of the Administration issued thereunder. The Commissioner of Reclamation may prescribe limitations upon, and procedures for, the exercise of subordinate officials of the Bureau of Reclamation of the authority granted in this paragraph. The Regional Directors may prescribe similar limitations and procedures in respect to subordinate officials under their jurisdiction.

(b) All expense of care and handling pending disposition and all expense of determining Federal utilization needs and all disposal costs of such property shall be borne by the Bureau of Reclamation.

(c) Prior to the disposition of such property, such steps as are deemed appropriate by the disposal official shall be taken to determine whether any Federal agency has a need for the property. If it is determined that any Federal agency has a need for such property, the property shall be transferred to such agency at the fair value or upon such other basis as may be authorized by law.

2. This amendment supersedes amendment No. 1.

WILLIAM E. WARNE,
Acting Secretary of the Interior.

DEPARTMENT OF COMMERCE

Federal Maritime Board and Maritime Administration

ORGANIZATION AND FUNCTIONS

The statement of organization and functions of the Maritime Administration issued in 15 F. R. 3812-3813 is hereby revoked and the following substituted therefor:

1. *Establishment.* The Federal Maritime Board and the Maritime Administration were established in the Department of Commerce by Reorganization Plan No. 21 of 1950.

2. *Organization.* The Federal Maritime Board is composed of three members appointed by the President by and with the advice and consent of the Senate. The President designates one of the members to serve as Chairman of the Board. The Chairman of the Board is ex officio the Maritime Administrator; and, when serving as Maritime Administrator, he reports and is responsible to the Secretary of Commerce. As Chairman of the Federal Maritime Board, under Reorganization Plan No. 6 of 1949, he is the chief executive and administrative officer of the Board. In the interests of efficiency and economy, the Chairman and Administrator, insofar as he deems desirable, will make joint use of the officers and employees under his supervision as Administrator or Chairman.

Any two members of the Board in office constitute a quorum for the transaction of the business of the Board, and the affirmative votes of any two members are sufficient for the disposition of any matter which may come before the Board.

The Administrator is assisted in his duties as Administrator by a Deputy Maritime Administrator. The Deputy Maritime Administrator is the Acting Maritime Administrator during the absence or disability of the Administrator and, unless the Secretary of Commerce designates another person, during a vacancy in the office of Maritime Administrator. The Deputy Maritime Administrator is appointed by the Secretary of Commerce, after consultation with the Maritime Administrator. The Deputy Administrator at no time sits as a member of the Federal Maritime Board.

The Federal Maritime Board and the Maritime Administration consist of the following organization units: (a) Office of Chairman of the Federal Maritime Board and the Maritime Administrator; (b) Staff offices primarily engaged upon work relating to the functions of the Federal Maritime Board, including the Trial Examiners' Office, the Regulation Office, and the Secretary's Office; (c) Staff offices performing joint services for the Board and the Administration, including the Office of the General Counsel, the Program Planning Office, the Budget Office, and the Personnel Office; (d) Division of Claims; (e) Office of Subsidy and Government Aid; (f) Office of Maritime Operations; (g) Office of the Comptroller.

3. *General functions, policy, and relationships*—(a) *General policy.* In performance of their functions, the Federal Maritime Board and the Maritime Administration are guided by the broad declaration of policy stated in Title I of the Merchant Marine Act, 1936 (49 Stat. 1985), as follows:

It is necessary for the national defense and development of its foreign and domestic commerce that the United States shall have a merchant marine (a) sufficient to carry its domestic water-borne commerce and a substantial portion of the water-borne export and import foreign commerce of the United States and to provide shipping service on all routes essential for maintaining the flow of such domestic and foreign water-borne commerce at all times, (b) capable of serving as a naval and military auxiliary in times of war or national emergency, (c) owned and operated under the United States flag by citizens of the United States insofar as may be practicable, and (d) composed of the best-equipped, safest, and most suitable types of vessels, constructed in the United States and manned with a trained and efficient citizen personnel. It is hereby declared to be the policy of the United States to foster the development and encourage the maintenance of such a merchant marine.

(b) *Regulatory functions.* Under Reorganization Plan No. 21 of 1950, the Federal Maritime Board is independent of the Secretary of Commerce in the performance of the following functions: (1) All functions under the provisions of sections 14 to 20, inclusive, and sections 22 to 33, inclusive, of the Shipping Act, 1916, as amended, including such functions with respect to the regulation and control of rates, services, practices, and agreements of common carriers by water and of other persons;

(2) All functions with respect to the regulation and control of rates, fares, charges, classifications, tariffs, regulations, and practices of common carriers by water under the provisions of the Intercoastal Shipping Act, 1933, as amended;

(3) The functions with respect to the making of rules and regulations affecting shipping in the foreign trade to adjust or meet conditions unfavorable to such shipping, and with respect to the approval, suspension, modification, or annulment of rules or regulations of other Federal agencies affecting shipping in the foreign trade, under the provisions of section 19 of the Merchant Marine Act, 1920, as amended, exclusive of subsection (1) (a) thereof;

(4) The functions with respect to investigating discriminatory rates, charges, classifications, and practices in the foreign trade, and with respect to recommending legislation to correct such discrimination, under the provisions of section 212 (e) of the Merchant Marine Act, 1936; and

(5) So much of the functions with respect to requiring the filing of reports, accounts, records, rates, charges, and memoranda, under the provisions of section 21 of the Shipping Act, 1916, as amended, as relates to its functions under items (1) through (4) above.

(c) *Subsidy contracts.* Under Reorganization Plan No. 21 of 1950 the Federal Maritime Board is guided by the general policies of the Secretary of Commerce in performing the following functions: (1) The functions with respect to making, amending, and terminating construction (reconstruction or reconditioning) differential subsidy contracts, including contracts for the construction, reconstruction, or reconditioning of vessels and contracts for the sale of vessels to subsidy applicants or contracts to pay a differential subsidy and the cost of national defense features. In the exercise of this function the Board investigates and determines the relative cost of construction of comparable vessels in the United States and foreign countries and the extent and character of aids and subsidies granted by foreign governments to their merchant marines;

(2) The functions with respect to making, amending, and terminating operating differential subsidy contracts and, subsequent to entering into an operating differential subsidy contract, making determinations with respect to employment and wage conditions, and taking action on readjustment of operating cost differentials and the sale, assignment or transfer of the contract. In the exercise of this function the Board investigates and determines the relative cost of operating vessels under the registry of the United States and under foreign registry, and the extent and character of aids and subsidies granted by foreign governments to their merchant marines;

(3) The functions with respect to investigating and reporting on relative construction and operating costs in the United States and foreign maritime countries, and the relative advantages of operating under United States or foreign registry, and on marine insurance, navigation laws, and vessel mortgages as authorized under section 12 of the Shipping Act of 1916; and

(4) The functions with respect to requiring the filing of reports, accounts, records, rates, charges and memoranda as relates to its functions as set forth in items (1), (2), and (3) above.

(d) In carrying out its functions under paragraphs (b) and (c) above, the Board adopts rules and regulations; makes reports and recommendations to Congress; subpoenas witnesses; administers oaths; takes evidence; requires the production of books, papers and documents as necessary; issues opinions; promulgates orders; engages in enforcement and other legal proceedings; and performs all functions formerly performable by the Maritime Commission which have been transferred to the Board pursuant to Reorganization Plan No. 21 of 1950.

(e) *Other functions.* Within assignments of functions and delegations of authority by the Secretary of Commerce under Reorganization Plan No. 21 of 1950, the Maritime Administration is generally responsible for the performance of all functions transferred to the Secretary under that Reorganization Plan, including activities pertaining to awarding and amending of non-subsidy contracts, the administration of all contracts, the training of seagoing personnel, and the custody of the reserve fleet and standby shipyards.

4. *Functions of organizational components.* (a) The Office of the Chairman of the Federal Maritime Board and the Maritime Administrator includes the following officials: (1) The Deputy Administrator; (2) Labor Adviser; (3) Information Specialist; and (4) Organization and Methods Officer.

(b) The Staff Offices engaged primarily upon work relating to functions of the Board perform services as follows: (1) The Trial Examiners of the Trial Examiners' Office conduct hearings as required by the Administrative Procedure Act and substantive law, and other hearings as requested by the Board or the Administrator. The head of this office is the Chief Examiner;

(2) The Regulation Office, headed by the chief receives, investigates, makes recommendations to the Board, and maintains public files on matters relating to the regulatory functions of the Board as described in paragraph 3 (b) above; and

(3) The Secretary's Office prepares dockets for, takes minutes of meetings of, and officially notifies interested parties of actions taken by the Federal Maritime Board. It also maintains official records of actions of the Maritime Administrator.

(c) The Staff Offices serving jointly the Board and the Administration perform functions as follows: (1) The Office of the General Counsel serves as the law office of the Board and Administration, renders legal advice and opinions to the Board and the Administrator, and represents the Board and Administration in any litigation in which either is interested;

(2) The Program Planning Office, headed by the chief, develops and recommends long-range merchant marine policy and programs, reviews existing policies and programs in the light of adopted long-range policy, and conducts economic studies connected with policy formulation for the Administrator and the Board;

(3) The Budget Office, headed by the Budget Officer, assists the Administrator-Chairman in the development and presentation of budgetary requests and justifications and in the allotment and budgetary control of appropriated funds; and

(4) The Personnel Office, headed by the Personnel Officer, administers the personnel functions related to employment and position classification, including recruitment, placement, separations, disciplinary actions, counseling and grievance appeal services, training and safety programs, and wage rate studies.

(d) The Division of Claims, headed by the chief, is responsible for analyzing and recommending the basis of settlement of claims in favor of and against the Administration arising from the war-time operations of the former Maritime Commission and War Shipping Administration and from the administration of the Merchant Ship Sales Act, 1946. This office also ascertains that purchasers of vessels comply with the provisions of the vessel sales contracts.

(e) The Office of Subsidy and Government Aid, headed by the chief, is responsible to the Board or to the Administrator in accordance with their respective functions as set forth in paragraph 3 above, for the receipt and processing of applications for subsidy or other government aid and the administration of government aid contracts after their execution, and for the coordination of the work of other organizational components in connection therewith. In so doing the office (1) Presents in a complete and orderly manner recommendations for action on applications for subsidy and on modifications to existing subsidy agreements;

(2) Similarly makes recommendations for action on applications or modifications of existing contracts relating to government aid not involving a subsidy;

(3) Collects and considers foreign and domestic cost data and recommends rates of subsidy based upon the cost differential between domestic and foreign shipbuilding and ship operation;

(4) Investigates and recommends findings with respect to essentiality of trade routes, existence of foreign competition, commercial requirements of routes in terms of characteristics and number of vessels needed; qualifications of applicants for aid; valuation of vessels proposed for trade-in; and national defense features;

(5) Reviews actions of contractors, after government aid contracts are executed, to ascertain that all provisions of contracts are complied with to the interest of the government, and to determine when modifications in contracts are necessary or desirable;

(6) Acts or recommends action on applications from government aid contractors for waivers in contract provisions or the exercise of alternatives under contracts, where such waivers or alternatives are provided for in the contracts; and

(7) Collects, analyzes, and reports on statistical data relating to the maritime industry for use by all components of the Administration. Such statistics include data on the world merchant fleet, commodities exported and imported by the United States or carried in intercoastal and coastwise trade, and labor matters.

The Office of Subsidy and Government Aid has the following divisions: Division of Contract Evaluation and Administration; Division of Operating Cost Comparison; Division of Construction Cost Comparison; and Division of Shipping Data.

(f) The Office of Maritime Operations, headed by the chief, is responsible to the Board or to the Administrator in accordance with their respective functions as set forth in paragraph 3 above, for the conduct of activities relating to ship construction, ship repair, custody and disposal of government-owned merchant vessels, training of seagoing personnel, and management of property. It has five divisions in the departmental service, the functions of which are as follows:

(1) The Division of Ship Construction and Repair, headed by the chief, operates the Administration's programs of vessel design, construction, conversion, betterment, and repair, reviews repairs performed on vessels operating under an operating-differential subsidy contract; conducts surveys and appraisals of vessels in connection with subsidy contracts, sales, charters, tradeins, and mortgages, consults with the Department of Navy on merchant ship construction; and computes allowances for inclusion of national defense features in new ships. The division directly supervises new ship construction through offices of construction representatives located at shipyards where vessels are being built;

(2) The Division of Maritime Training, headed by the chief, conducts programs for the training of licensed and unlicensed seagoing personnel through federally operated training schools and correspondence courses and administers a grant-in-aid program for the state maritime and nautical academies. The chief of this division is the Commandant of the U. S. Maritime Service and directly supervises the activities of the division of field installations. The preventive medical program of the Administration is a responsibility of this division to be supervised in connection with the medical program at the federal training schools;

(3) The Division of Vessel Custody, headed by the chief, directs the movement of, maintains, and preserves all vessels owned by the Maritime Administration. In so doing, the division administers directly the reserve fleets, conducts the vessel charter and sales program, and directs the operations of agents having agreements with the Administration for the movement and husbanding of out-of-service vessels;

(4) The Division of General Services, headed by the chief, is responsible for the custody, protection, and management of all real and personal property under the jurisdiction of the Administration, except vessels. Such property includes that at warehouses, marine terminals, reserve shipyards, in the offices of the Administration, and other real estate. The division conducts the procurement, disposal, and vessel inventory activities and renders to all components general office services such as mail, files, communications, librarial, administrative supplies and equipment, and maintenance of motor vehicles. The division also performs specific services for seagoing personnel of the American merchant marine, as required by law, including issuance of certificates and awards, maintenance of service records, and dissemination of information regarding voting privileges; and

(5) The Vessel Trial and Guarantee Survey Boards, headed by a chairman common to all, conduct acceptance trials of vessels constructed, converted, or improved under Administration or Federal Maritime Board contracts; make determinations as to items of work to be accomplished before acceptance of vessels; conduct the final guarantee surveys, and make decisions as to responsibility for defects and deficiencies in accordance with the guarantee provisions of contracts.

The Coast Directors at New York, N. Y.; New Orleans, Louisiana; and San Francisco, California, report to the Chief, Office of Maritime Operations.

(g) The Office of Comptroller is responsible to the Board or to the Administrator in accordance with their respective functions as set forth in paragraph 3 above, for accounting, auditing, and insurance activities. In fulfilling this responsibility the Office of Comptroller:

(1) Analyzes and reports on the financial status and responsibility of applicants for Government aid, other contractors and prospective contractors, and recommends and administers the financial and insurance provisions of all contracts;

(2) Maintains all general accounting books and related records, prepares financial statements and reports, maintains appropriation allotment records, maintains control records of statutory and contractual reserve funds, audits and certifies vouchers for payment, collects accounts and notes receivable, supervises the accounting activities of agents, and maintains property and cost accounting records;

(3) Administers the insurance program, including the underwriting of insurance risks; arrangements for the purchase of protection, indemnity, and other forms of insurance from commercial underwriters; the settlement of insurance claims; preparation of reports on subsidy allowances on items of insurance premiums; and analysis of current trends in the American marine insurance market; and

(4) Administers the provisions of the Renegotiation Acts of 1942 and 1943 as they pertain to the work of the former U. S. Maritime Commission Price Adjustment Board.

The Office of Comptroller has the following divisions: Division of Audits; Division of Credits and Collections; Division of Insurance; and Division of Accounts.

AMERICAN MAIL LINE, LTD., ET AL.

NOTICE OF HEARING ON APPLICATIONS FOR BAREBOAT-CHARTER OF DRY-CARGO VESSELS FOR USE IN TRANS-PACIFIC SERVICE

American Mail Line, Ltd., Pacific Transport Lines, Inc., Pacific Atlantic S. S. Co., Pacific Far East Line, Inc., American President Lines, Ltd., and States Marine Corporation.

Pursuant to section 3, Public Law 591, 81st Congress, notice is hereby given that an informal public hearing will be held in Room 4823, Commerce Building, Washington, D. C., on July 14, 1950, at 10:00 o'clock a. m., e. d. s. t., before the Federal Maritime Board, upon applications of the above companies to bareboat-charter war-built dry-cargo vessels for use in the trans-Pacific service.

The purpose of the hearing is to receive evidence with respect to whether such service is required in the public interest and is not adequately served, and with respect to the availability of privately owned American-flag vessels on reasonable conditions and at reasonable rates for this service.

All persons having an interest in such applications should arrange to be present.

By order of the Federal Maritime Board.

Dated: July 12, 1950.

FEDERAL POWER COMMISSION

[Docket No. G-1399]

VIRGINIA GAS TRANSMISSION CORP.

NOTICE OF AMENDMENT TO APPLICATION

JULY 7, 1950.

Take notice that on May 29, 1950, Virginia Gas Transmission Corporation (Applicant), a Virginia corporation with its principal place of business in Charleston, West Virginia, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of natural gas facilities and sale of gas to the Lynchburg Pipe Line Company.[1]

On June 27, 1950, Applicant filed an amendment to its application requesting an order authorizing the abandonment of certain facilities by the sale to Lynchburg Pipe Line Company consisting of a lateral pipeline referred to as the Lynchburg lateral. The Lynchburg lateral consists of a 6-inch natural-gas pipeline approximately 30 miles in length extending in a southeasterly direction from a point on Applicant's transmission pipeline near Lexington, Virginia; to a point of interconnection with the distribution facilities of the Lynchburg Gas Company.

Applicant asserts the original cost of the Lynchburg lateral at December 31, 1949, was $458,493.82, and that accrued depreciation approximates $23,727.73. Applicant's proposed sale price of its Lynchburg lateral to the Lynchburg Pipe Line Company will be the original cost less depreciation.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.10) on or before the 27th day of July 1950. The application is on file with the Commission for public inspection.

[Docket No. G-1430]

UNITED GAS PIPE LINE CO.

NOTICE OF APPLICATION

JULY 7, 1950.

Take notice that on June 29, 1950, United Gas Pipe Line Company (Applicant), a Delaware corporation with its principal office in Shreveport, Louisiana, filed an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of the following described natural-gas facilities:

A dehydration plant having a capacity of 100,000 Mcf per day and a compressor station with four 1,000 hp compressor units installed to be located on the site of Applicant's Koran Gasoline Plant in section 36, Township 17 North, Range 11 West, Bossier Parish, Louisiana. Also 16.2 miles of 16-inch natural-gas transmission pipeline extending southeasterly from the above stated dehydration plant across Lake Bistineau to connect with Applicant's Carthage-Sterlington Line at mile post 62.8 in Section 34, Township 15 North, Range 9 West, Bienville Parish, Louisiana.

[1] Notice of said application was published in the FEDERAL REGISTER on June 17, 1950 (15 F. R. 3956).

Applicant states that the purpose of the proposed natural gas facilities is to connect another source of supply to meet the requirements of its present customers.

The estimated overall capital cost is $1,813,000 which Applicant proposes to finance out of cash on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.10) on or before the 27th day of July 1950. The application is on file with the Commission for public inspection.

[Docket No. G-1427]

NORTH CENTRAL GAS CO.

NOTICE OF APPLICATION

JULY 7, 1950.

Take notice that on June 27, 1950, North Central Gas Company (Applicant), a Wyoming corporation having its principal office in Casper, Wyoming, filed an application with the Federal Power Commission for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant to construct and operate the following described natural-gas facilities:

(1) Approximately 24 miles of 8-inch I. D. transmission pipeline starting in the Huntsman Field near the W¼ corner of sec. 7, T. 14 N., R. 49 W., sixth principal meridian, extending in a northerly direction through T. 15 and 16 to a point in the NE¼ of sec. 29, T. 17 N., R. 49 W., thence northwest through secs. 20, 19, 18, and 7, thence through NE¼ of sec. 12, T. 17 N., R. 50 W., thence continuing in a northerly direction through sec. 1, T. 17 N., R. 50 W., and continuing in a northerly direction through secs. 36, 25, 24, 14, and 11, T. 18 N., R. 50 W.

(2) Approximately 11 miles of 6-inch I. D. transmission pipeline commencing from the terminus of the line described in paragraph (1) above in the NE¼ of sec. 11 extending in a northerly direction through sec. 2, T. 18 N., R. 50 W., thence continuing through secs. 35, 26, 27, 22, 15, 10, and 3 in T. 19 N., R. 50 W., thence continuing through secs. 34, 33, and 28 to a point in SE¼ of sec 21, T. 20 N., R. 50 W., to connect with Applicant's present pipeline at Northport, Nebraska.

(3) Approximately 13 miles of 6-inch I. D. transmission pipeline extending from Northport, Nebraska, to Bayard, Nebraska, looping Applicant's present 3-inch pipeline between said points.

(4) Approximately 3 miles of 4-inch I. D. transmission pipeline to commence at the Huntsman Field connecting with Applicant's Huntsman-Northport line near the W¼ corner of sec. 7, T. 14 N., R. 49 W., extending in a southerly direction through secs. 18, 19 and 30 to the City of Sidney, Nebraska, to connect to Applicant's proposed distribution system at Sidney, Nebraska.

(5) 1 mile of 2-inch I. D. pipeline commencing in the NW¼ of sec. 31, T. 16 N., R. 49 W., extending to the town of Gurley, Nebraska, to connect to Applicant's proposed distribution system at Gurley, Nebraska.

(6) 1 mile of 2-inch I. D. pipeline commencing in the NE¼ of sec. 32, thence in an

easterly direction through the NW¼ of sec. 33, T. 17 N., R. 49 W., to be connected to a proposed distribution system in the town of Dalton, Nebraska.

Applicant states the proposed project will improve the service of gas to consumers in the area presently served by Applicant in the State of Nebraska by increasing the supply of gas during peak winter periods, and by supplying the requirements incident to the normal growth along Applicant's system in Nebraska. The project has the further purposes of enabling Applicant to supply natural gas to Sidney, Nebraska, and the towns of Gurley and Dalton, Nebraska, and of maintaining adequate and safe gas supplies and pipe line pressures in Applicant's present system between Scottsbluff and Lewellen, Nebraska.

The application recites the gas reserves in the Third Dakota Sand in the Huntsman Field to be 101.5 billion cubic feet, of which Applicant has a contract with the Ohio Oil Company for 50 billion cubic feet; that the estimated life of the reserves covered by said contract is 25 years, based on the minimum annual withdrawal under the contract of 2 billion cubic feet per year. The estimated maximum daily delivery from the Huntsman Field will be 12,500,000 cubic feet, of which a maximum of 2,500,000 cubic feet will be used to serve the city of Sidney, and the balance to augment the supply in Applicant's present system, and to serve Gurley and Dalton, Nebraska.

The estimated over-all capital costs of the proposed natural gas transmission facilities is $527,888; and the cost of the distribution system in Sidney is estimated at $141,786. Applicant proposes to finance the project by means of a loan from the Society for Savings in the City of Cleveland, Cleveland, Ohio, in the sum of $660,000, evidenced by its promissory note in said sum bearing interest at 3 percent per annum.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 27th day of July 1950. The application is on file with the Commission for public inspection.

OHIO FUEL GAS CO.

NOTICE OF APPLICATION

JULY 6, 1950.

Take notice that The Ohio Fuel Gas Company (Applicant), an Ohio corporation with its principal place of business at Columbus, Ohio, filed June 27, 1950, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of the following described natural gas facilities:

Approximately five miles of 8⅝-inch natural gas transmission pipeline extending from a point of connection with the pipeline facilities of Texas Eastern Transmission Corporation in Fayette County, Ohio, to Applicant's existing line Z-34 near Sabina, Richland Township, Clinton County, together with the incidental equipment necessary for operations, all in the State of Ohio.

Applicant proposes to increase its transmission capacity by use of the proposed facilities above described to its existing market area in order to maintain service to them.

The estimated over-all capital cost is $80,000.00. The costs will be financed from funds on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.10) on or before the 26th day of July 1950. The application is on file with the Commission for public inspection.

LA JUNTA FEDERAL DE MEJORAS MATERIALES AND CENTRAL POWER AND LIGHT CO.

NOTICE OF APPLICATION

JULY 6, 1950.

Notice is hereby given that La Junta Federal de Mejoras Materiales, a governmental agency of the Republic of Mexico (as successor to Comision Federal de Electricidad, also a governmental agency of the Republic of Mexico), and Central Power and Light Company, Corpus Christi, Texas, have filed a joint application pursuant to section 202 (e) of the Federal Power Act (16 U. S. C. 824a (e)) for amendment of the authority to export electric energy across the international boundary between the United States and Mexico over a transmission line from a point at Laredo, Webb County, Texas, to a point on the bank of the Rio Grande at Nuevo Laredo, Tamaulipas, Mexico, in the amount of 10,000,000 kilowatt hours, annually, at a rate of supply not to exceed 1,800 kilowatts. The present authorization is limited to 7,500,000 kilowatt-hours per year at a rate not in excess of 1,500 kilowatts.

Any person desiring to be heard or to make any protest with reference to the said application should, on or before July 27, 1950, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

GENERAL SERVICES ADMINISTRATION

PUBLIC BUILDINGS SERVICE

DELEGATION OF AUTHORITY TO COMMISSIONER

1. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949 (Public Law 152, 81st Congress, approved June 30, 1949), the authority to (1) assign surplus real property to the Federal Security Administrator, and (2) to disapprove, within thirty days after notice, any transfer proposed to be made by the Federal Security Administrator for school, classroom, or other educational use, or for public health purposes, under section 203 (k) (1) vested in the Administrator of General Services, is hereby delegated to the Commissioner of Public Buildings Service. The Commissioner of Public Buildings Service is authorized in his discretion, (1) to assign to the Federal Security Administrator for disposal such surplus real property, including buildings, fixtures, and equipment situated thereon, as is recommended by the Federal Security Administrator as being needed for school, classroom, or other educational use, for use in the protection of public health, including research, and (2) within thirty days after notice of a proposed transfer to advise the Federal Security Administrator whether objection is interposed to such transfer.

2. The authority contained herein may be exercised by the officer, official or employee empowered to act for the principal during his absence or incapacity, and may be redelegated, but any such redelegation must be filed with the Director of the Office of Management ten days prior to the effective date thereof, unless such filing be waived by said Director.

3. This delegation of authority shall be effective as of July 1, 1950.

4. This delegation of authority rescinds Delegation of Authority No. 20, dated March 21, 1950, and published in the FEDERAL REGISTER, March 29, 1950.

JESS LARSON,
Administrator.

PUBLIC BUILDINGS SERVICE

DELEGATION OF AUTHORITY TO COMMISSIONER

1. Pursuant to the authority vested in me by the provisions of the Federal Property and Administrative Services Act of 1949 (Public Law 152, 81st Congress), it is hereby provided that:

a. Any authority delegated and transferred to the Commissioner of Liquidation Service by Delegation of Authority No. 17, dated February 9, 1950, and published in the FEDERAL REGISTER, February 16, 1950, relating to surplus real property, is hereby delegated to the Commissioner of Public Buildings Service. Such authorities as have been redelegated by the Commissioner of Liquidation Service shall remain in full force and effect until superseded by the Administrator of General Services or the Commissioner of Public Buildings Service.

b. The authority delegated herein to the Commissioner of Public Buildings Service may be redelegated by the Commissioner to any officer, official, or employee of the Public Buildings Service.

c. The authority conferred herein shall be exercised in accordance with such regulations, policies, administrative procedures and controls as are in effect on and after the effective date hereof.

d. This delegation of authority shall be effective as of July 1, 1950.

2. Delegation of Authority No. 17, dated February 9, 1950, and published in the FEDERAL REGISTER, February 16, 1950, is hereby superseded as of the effective date of this delegation.

[Temporary Reg. 2, Amdt. 3]

DISPOSAL OF EXCESS AND SURPLUS PROPERTY

Section II (a) of Administrator's Temporary Regulation No. 2, dated July 1, 1949, is hereby amended to read as follows:

(a) (1) Unless otherwise authorized by law, transfers of excess personal property under this regulation to other Federal agencies shall be at the fair value thereof.

(2) Unless directed otherwise by the Federal Supply Service, fair value of excess personal property under this regulation shall be determined by the holding agency by using the following formula which the Administrator has determined will promote utilization and takes into consideration the other costs which transferee agencies will incur:

Code	Condition	Percentage of current delivered market price—new (or original acquisition cost)
A	New—excellent	50
B	Usable—without repair	35
C	Usable—minor repairs required	20
D	All other	(1)

[1] No charge.

(3) *Condition code definitions.*

A. "New—excellent" means unused personal property, ready for use in a condition identical with new items delivered by a supplier.

B. "Usable—without repair" means personal property which has been used and requires no reconditioning or repair; and personal property which, although unused and requiring no reconditioning or repair, does not qualify for Code A.

C. "Usable—minor repairs required" means personal property requiring minor repairs, to put into usable condition, whether used or unused.

D. "All other" means personal property requiring major repairs, conversion, or rehabilitation, and all other items which through deterioration, obsolescence, or other factors do not fit in Codes A, B, or C, and includes scrap and salvage.

(4) The preferred base for determining fair value is the current market delivered price of a new similar item in the commercial area serving the holding agency. There are various sources for determining such prices, such as:

(i) The Federal Supply Service, General Services Administration, Zone Price Lists;
(ii) Federal Supply Schedule Prices;
(iii) Manufacturers' catalogs, price lists, and discount sheets; and
(iv) Local suppliers.

If obtaining such pricing information is impracticable the holding agency may use actual or estimated original acquisition cost.

(5) In determining fair value pursuant to the formula in section II (a) (2) hereof, where doubt arises as to which condition code applies to an item, preference should be given to that condition code which will facilitate and encourage maximum utilization by other Federal agencies. Where application of the above formula will not achieve the intended purpose because of special circumstances or the peculiar nature of the property, the holding agency may use other criteria for arriving at fair value if approved or directed by the Federal Supply Service. Where circumstances warrant, and the agencies concerned agree thereto, fair value prices higher than those arrived at by use of the formula specified in section II (a) (2) hereof, may be used.

(6) Disagreement between agencies as to the fair value shall be referred for final determination to the Federal Supply Service.

JESS LARSON,
Administrator.

INTERSTATE COMMERCE COMMISSION

[Rev. S. O. 562, King's I. C. C. Order 27]

SOUTHERN PACIFIC LINES

DIVERSION OR REROUTING OF TRAFFIC

In the opinion of Homer C. King, Agent, the Southern Pacific Lines because of congestion is unable to transport all traffic routed over points on its lines. It is ordered, that:

(a) *Rerouting traffic.* The Southern Pacific Lines is hereby authorized to reroute or divert at Stockton, Cal., 250 cars of perishable freight routed over its line, to the Western Pacific Railroad Company to expedite the movement; the billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) *Concurrence of receiving roads to be obtained.* The railroad named desiring to divert or reroute traffic over the line or lines of another carrier under this order shall confer with the proper transportation officer of the railroad or railroads to which such traffic is to be diverted or rerouted, and shall receive the concurrence of such other railroads before the rerouting or diversion is ordered.

(c) *Notification to shippers.* The carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) *Effective date.* This order shall become effective at 12:01 p. m., July 7, 1950.

(g) *Expiration date.* This order shall expire at 11:59 p. m., July 12, 1950, un-

less otherwise modified, changed, suspended, or annulled.

It is further ordered, that this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., July 7, 1950.

CHICAGO, ROCK ISLAND AND PACIFIC RAILROAD CO.

REROUTING OR DIVERSION OF TRAFFIC

Upon further consideration of Revised King's I. C. C. Order No. 26 and good cause appearing therefor: *It is ordered*, That:

Amendment No. 1 to Revised King's I. C. C. Order No. 26 be, and it is hereby amended by substituting the following paragraph (a) for paragraph (a) thereof:

(a) *Rerouting traffic.* The Chicago, Rock Island and Pacific Railroad Company and its connections are authorized and directed to reroute or divert traffic routed over and to points on their lines, over any available route to expedite the movement; the billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

It is further ordered, That this amendment shall become effective at 10:00 a. m., July 7, 1950, and that this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all the railroads subscribing to the car service and per diem agreement under the terms of that agreement, and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., July 7, 1950.

EXECUTIVE ORDER 10142

CREATING AN EMERGENCY BOARD TO INVESTIGATE A DISPUTE BETWEEN THE BRANIFF AIRWAYS, INC., AND CERTAIN OF ITS EMPLOYEES

WHEREAS a dispute exists between the Braniff Airways, Inc., a carrier, and certain of its employees represented by the Brotherhood of Railway & Steamship Clerks, Freight Handlers, Express and Station Employees, a labor organization; and

WHEREAS this dispute has not heretofore been adjusted under the provisions of the Railway Labor Act, as amended; and

WHEREAS this dispute, in the judgment of the National Mediation Board, threatens substantially to interrupt interstate commerce to a degree such as to deprive a section of the country of essential transportation service:

NOW, THEREFORE, by virtue of the authority vested in me by section 10 of the Railway Labor Act, as amended (45 U. S. C. 160), I hereby create a board of three members, to be appointed by me, to investigate the said dispute. No member of the said board shall be pecuniarily or otherwise interested in any organization of employees or any carrier.

The board shall report its findings to the President with respect to the said dispute within thirty days from the date of this order.

As provided by section 10 of the Railway Labor Act, as amended, from this date and for thirty days after the board has made its report to the President, no change, except by agreement, shall be made by the Braniff Airways, Inc., or its employees in the conditions out of which the said dispute arose.

KENTUCKY BLUEGRASS SEED; EXEMPTION FROM LABELING REQUIREMENTS

It has been found that the time interval between seed harvesting and sowing is not sufficient to assure the completion of a germination test of freshly harvested seed of Kentucky bluegrass, Poa pratensis, and that the information as to germination required by the Federal Seed Act (7 U. S. C. 1551 et. seq.) therefore cannot be given on the label of such seed prior to its delivery for transportation or transportation in interstate commerce for the imminent planting season. Therefore pursuant to the provisions of paragraph 203 (c) of the Fed-

eral Seed Act (53 Stat. 1275; 7 U. S. C. 1573 (c)), the following regulation is hereby promulgated:

Exemption from labeling as to germination of Kentucky bluegrass seed. The requirements of paragraph 201 (a) (8) of the Federal Seed Act as to labeling seed for germination when it is transported or delivered for transportation in interstate commerce for seeding purposes, shall not apply to the 1950 crop of seed of Kentucky bluegrass, Poa pratensis, during the period beginning August 15, 1950, and ending October 15, 1950.

Paragraph 203 (c) of the Federal Seed Act provides that the Secretary of Agriculture may, with or without hearing, amend the regulations issued thereunder to provide exemptions from labeling requirements with respect to germination. Pursuant to this provision, the Secretary in various prior years amended the regulations to provide for a seasonal exemption from such labeling requirements, similar to the one provided for herein, for freshly harvested seed of Kentucky bluegrass, and there were never any objections to such action. The current carry-over of this seed from the former crop year is not sufficient to meet the planting requirements therefor this year and by reason of the imminence of the planting season it is in the public interest that the order exempting such seed from the labeling requirements as to germination be made effective as soon as possible. The Federal Seed Act requires a 30-day delay between publication of such order and its effective date. Publication of notice and public procedure as provided in section 4 of the Administrative Procedure Act (5 U. S. C. 1003), would result in a further delay. Therefore in accordance with said section, it is hereby found upon good cause that such notice and public procedure in connection with this amendment would be impracticable and contrary to the public interest.

This regulation shall be effective during the period from August 15, 1950, to October 15, 1950, both inclusive.

(Sec. 402, 53 Stat. 1285; 7 U. S. C. 1592)

Issued this 11th day of July 1950.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

VOGUE PRODUCTS

Subpart—*Advertising falsely or misleadingly:* § 3.170 *Qualities or properties of product or service.* In connection with the offering for sale, sale, and distribution of the preparation designated "Tuffenail", or any other preparation of substantially similar composition or possessing substantially similar properties, whether sold under the same name or any other name, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means to induce, etc., directly or indirectly, the purchase in commerce, etc., of said product, which advertisements represent directly or by implication, (a) that said preparation is an effective aid for brittle, splitting, breaking, or chipping nails, or that Tuffenail has any significant effect on the nails in excess of acting to temporarily soften the cuticle around the nails; (b) that said preparation will prevent brittleness, dryness, breaking, splitting or chipping of the nails or peeling of the nail layers; (c) that said preparation is a competent or effective treatment for onychosis or that its use will stimulate nail growth, toughen or strengthen the nails or keep them strong; or, (d) that said preparation will penetrate the skin into the flesh of the nail bed or will prevent sluggishness of the lymphatic glands; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Walter M. Jakway doing business as Vogue Products, Docket 5537, May 23, 1950]

In the Matter of Walter M. Jakway, an Individual Doing Business as Vogue Products

This proceeding having been heard by the Federal Trade Commission upon the complaint, the answer of respondent, testimony, and stipulation as to the facts (filing of recommended decision by the trial examiner having been waived), and the Commission having made its findings as to the facts and, based solely on the statements appearing in said stipulation, its conclusion that the respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That respondent Walter M. Jakway, individually and trading under the name of Vogue Products, or any other name, and his agents, representatives, and employees, directly or through any corporate or other device in connection with the offering for sale, sale, and distribution of the preparation designated "Tuffenail", or any other preparation of substantially similar composition or possessing substantially similar properties, whether sold under the same name or any other name, do forthwith cease and desists from:

(1) Disseminating or causing to be disseminated by means of the United States mails, or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which represents directly or by implication:

(a) That said preparation is an effective aid for brittle, splitting, breaking, or chipping nails, or that Tuffenail has any significant effect on the nails in excess of acting to temporarily soften the cuticle around the nails;

(b) That said preparation will prevent brittleness, dryness, breaking, splitting or chipping of the nails or peeling of the nail layers;

(c) That said preparation is a competent or effective treatment for onychosis or that its use will stimulate nail growth, toughen or strengthen the nails or keep them strong;

(d) That said preparation will penetrate the skin into the flesh of the nail bed or will prevent sluggishness of the lymphatic glands.

(2) Disseminating or causing to be disseminated by any means for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase of said product in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which contains any of the representations prohibited in paragraph (1) hereof.

It is further ordered, That the respondent, Walter M. Jakway, shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

Issued: May 23, 1950.

By the Commission.

SECTION 9 (A) OF THE ACT OF AUGUST 27, 1949 (PUBLIC LAW 271, 81ST CONG.)

(a) Section 3770 (a) of the Internal Revenue Code is hereby amended by renumbering paragraph (5) as paragraph (6), and by amending paragraph (4) to read as follows:

(4) *Credit of overpayment of one class of tax against another class of tax due.* Notwithstanding any provision of law to the contrary, the Commissioner may, in his discretion, in lieu of refunding an overpayment of tax imposed by any provision of this title, credit such overpayment against any tax due from the taxpayer under any other provision of this title.

(5) *Delegation of authority to collectors to make refunds.* The Commissioner, with the approval of the Secretary, is authorized to delegate to collectors any authority, duty, or function which the Commissioner is authorized or required to exercise or perform under paragraph (1), (2), (3), or (4) of this subsection, or under section 322 or 1027, where the amount involved (exclusive of interest, penalties, additions to the tax, and additional amounts) does not exceed $10,000.

* * * * *

PAR. 4. Section 402.802 is amended to read as follows:

§ 402.802 *Interest.* If the tax is not paid to the collector when due and is not adjusted under § 402.702 or § 402.703, interest accrues at the rate of 6 percent per annum subject to the minimum addition to the tax provided by section 1631.

PAR. 5. The second sentence of § 402.804 (a) is amended to read as follows: "The amount to be added to the tax is 5 percent if the failure is for not more than 30 days, with an additional 5 percent for each additional 30 days or fraction thereof during which failure continues, but not exceeding in the aggregate 25 percent of the tax, subject, however, to the minimum addition to the tax provided by section 1631."

PAR. 6. Immediately after § 402.804 the following is inserted:

SECTION 6 OF THE ACT OF AUGUST 27, 1949 (PUBLIC LAW 271, 81ST CONG.)

Section • • • 1631 of such code [Internal Revenue Code] is hereby amended to read as follows:

SEC. 1631. FAILURE OF EMPLOYER TO FILE RETURN OR PAY TAX.

In case of a failure to make and file any return, or a failure to pay any tax, required by this chapter, or both, within the time prescribed by law or prescribed by the Commissioner in pursuance of law, unless it is shown that such failure is due to reasonable cause and not due to willful neglect, the addition to the tax shall not be less than $5.

PAR. 7. Immediately preceding the caption "Section 125 of the Criminal Code", as inserted by Treasury Decision 5302, approved October 11, 1943, as set forth preceding § 402.804a, as added by Treasury Decision 5324, approved January 8, 1944, the following is inserted:

SECTION 4 OF THE ACT OF AUGUST 27, 1949 (PUBLIC LAW 271, 81ST CONG.)

(a) Chapter 38 of the Internal Revenue Code is hereby amended by inserting at the end thereof the following new section:

SEC. 3809. VERIFICATION OF RETURNS; PENALTIES OF PERJURY.

(a) *Penalties.* Any person who willfully and subscribes any return, statement, or other document, which contains or is verified by a written declaration that it is made under the penalties of perjury, and which he does not believe to be true and correct as to every material matter, shall be guilty of a felony, and, upon conviction thereof, shall be fined not more than $2,000 or imprisoned not more than five years, or both.

(b) *Signature presumed correct.* The fact that an individual's name is signed to a return, statement, or other document filed shall be prima facie evidence for all purposes that the return, statement, or other document was actually signed by him.

• • • • •

(b) Sections • • • and 1630 of such code are hereby repealed.

(c) The amendments made by this section shall be applicable with respect to any return, statement, or document filed after the date of the enactment of this Act.

(53 Stat. 178, 188, 467; 26 U. S. C. 1429, 1609, 3791)

PAR. 8. Immediately preceding the caption "Section 3612 (a), (b), and (c) of the Internal Revenue Code" as set forth preceding § 403.501, the following is inserted:

SECTION 4 OF THE ACT OF AUGUST 27, 1949 (PUBLIC LAW 271, 81ST CONG.)

(a) Chapter 38 of the Internal Revenue Code is hereby amended by inserting at the end thereof the following new section:

SEC. 3809. VERIFICATION OF RETURNS; PENALTIES OF PERJURY.

• • • • •

(c) *Verification in lieu of oath.* The Commissioner, under regulations prescribed by him with the approval of the Secretary, may require that any return, statement, or other document required to be filed under any provision of the internal revenue laws shall contain or be verified by a written declaration that it is made under the penalties of perjury, and such declaration shall be in lieu of any oath otherwise required.

(b) Sections • • • and 1630 of such code are hereby repealed.

(c) The amendments made by this section shall be applicable with respect to any return, statement, or document filed after the date of the enactment of this Act.

PAR. 9. Immediately preceding the caption "Section 3312 of the Internal Revenue Code" as set forth preceding § 403.501, the following is inserted:

SECTION 7 (A) OF THE ACT OF AUGUST 27, 1949 (PUBLIC LAW 271, 81ST CONG.)

(a) Section 3310 of the Internal Revenue Code • • • is hereby amended by adding at the end thereof the following new subsection:

(f) *Discretion allowed Commissioner—* (1) *Returns and payment of tax.* Notwithstanding any other provision of law relating to the filing of returns or payment of any tax imposed by chapter 9, 9A, 10, 12, 19, 21, 30, 32, subchapter A of chapter 25, or subchapter A of chapter 29, the Commissioner may by regulations approved by the Secretary prescribe the period for which the return for such tax shall be filed, the time for the filing of such return, the time for the payment of such tax, and the number of copies of the return required to be filed.

• • • • • •

PAR. 10. Immediately preceding the caption "Section 2703 (a) of the Internal Revenue Code, made applicable by section 1610 of the Act" as set forth preceding § 403.602, the following is inserted:

SECTION 9 (A) OF THE ACT OF AUGUST 27, 1949 (PUBLIC LAW 271, 81ST CONG.)

(a) Section 3770 (a) of the Internal Revenue Code is hereby amended by renumbering paragraph (5) as paragraph (6), and by amending paragraph (4) to read as follows:

(4) *Credit of overpayment of one class of tax against another class of tax due.* Notwithstanding any provision of law to the contrary, the Commissioner may, in his discretion, in lieu of refunding an overpayment of tax imposed by any provision of this title, credit such overpayment against any tax due from the taxpayer under any other provision of this title.

(5) *Delegation of authority to collectors to make refunds.* The Commissioner, with the approval of the Secretary, is authorized to delegate to collectors any authority, duty, or function which the Commissioner is authorized or required to exercise or perform under paragraph (1), (2), (3), or (4) of this subsection, or under section 322 or 1027, where the amount involved (exclusive of interest, penalties, additions to the tax, and additional amounts) does not exceed $10,000.

• • • • •

PAR. 11. Section 403.603 is amended to read as follows:

§ 403.603 *Interest.* If the tax is not paid to the collector when due, interest accrues at the rate of 6 percent per annum subject to the minimum addition to the tax provided by section 1631.

PAR. 12. The second sentence of § 403.605 (a) is amended to read as follows: "The amount to be added to the tax is 5 percent if the failure is for not more than 30 days, with an additional 5 percent for each additional 30 days or fraction thereof during which failure continues, but not exceeding in the aggregate 25 percent of the tax, subject, however, to the minimum addition to the tax provided by section 1631."

PAR. 13. Immediately after § 403.605, the following is inserted:

SECTION 6 OF THE ACT OF AUGUST 27, 1949 (PUBLIC LAW 271, 81ST CONG.)

Section • • • 1631 of such code [Internal Revenue Code] is hereby amended to read as follows:

(a) *Penalties.* Any person who willfully makes and subscribes any return, statement or other document, which contains or is verified by a written declaration that it is made under the penalties of perjury, and which he does not believe to be true and correct as to every material matter, shall be guilty of a felony, and, upon conviction thereof, shall be fined not more than $2,000 or imprisoned not more than five years, or both.

(b) *Signature presumed correct.* The fact that an individual's name is signed to a return, statement, or other document filed shall be prima facie evidence for all purposes that the return, statement, or other document was actually signed by him.

• • • • •

(b) Sections • • • and 1630 of such code are hereby repealed.

(c) The amendments made by this section shall be applicable with respect to any return, statement, or document filed after the date of the enactment of this Act.

(53 Stat. 178, 188, 467; 26 U. S. C. 1429, 1609, 3791)

PAR. 15. Immediately preceding the caption "Section 3612 (a), (b), and (c) of the Internal Revenue Code" as set forth preceding § 411.601, the following is inserted:

SECTION 4 OF THE ACT OF AUGUST 27, 1949 (PUBLIC LAW 271, 81ST CONG.)

(a) Chapter 38 of the Internal Revenue Code is hereby amended by inserting at the end thereof the following new section:

SEC. 3809. VERIFICATION OF RETURNS; PENALTIES OF PERJURY.

• • • • •

(c) *Verification in lieu of oath.* The Commissioner, under regulations prescribed by him with the approval of the Secretary, may require that any return, statement, or other document required to be filed under any provision of the internal revenue laws shall contain or be verified by a written declaration that it is made under the penalties of perjury, and such declaration shall be in lieu of any oath otherwise required.

(b) Sections • • • and 1630 of such code are hereby repealed.

(c) The amendments made by this section shall be applicable with respect to any return, statement, or document filed after the date of the enactment of this Act.

PAR. 16. Immediately preceding § 411.601, the following is inserted:

SECTION 7 (A) OF THE ACT OF AUGUST 27, 1949 (PUBLIC LAW 271, 81ST CONG.)

(a) Section 3310 of the Internal Revenue Code • • • is hereby amended by adding at the end thereof the following new subsection:

(f) *Discretion allowed Commissioner—* (1) *Returns and payment of tax.* Notwithstanding any other provision of law relating to the filing of returns or payment of any tax imposed by chapter 9, 9A, 10, 12, 19, 21, 30, 32, subchapter A of chapter 25, or subchapter A of chapter 29, the Commissioner may by regulations approved by the Secretary prescribe the period for which the return for such tax shall be filed, the time for the filing of such return, the time for the payment of such tax, and the number of copies of the return required to be filed.

• • • • •

PAR. 17. Immediately preceding the caption "Section 3313 of the Internal Revenue Code" as set forth preceding § 411.801, the following is inserted:

SECTION 9 (A) OF THE ACT OF AUGUST 27, 1949 (PUBLIC LAW 271, 81ST CONG.)

(a) Section 3770 (a) of the Internal Revenue Code is hereby amended by renumbering paragraph (5) as paragraph (6), and by amending paragraph (4) to read as follows:

(4) *Credit of overpayment of one class of tax against another class of tax due.* Notwithstanding any provision of law to the contrary, the Commissioner may, in his discretion, in lieu of refunding an overpayment of tax imposed by any provision of this title, credit such overpayment against any tax due from the taxpayer under any other provision of this title.

(5) *Delegation of authority to collectors to make refunds.* The Commissioner, with the approval of the Secretary, is authorized to delegate to collectors any authority, duty, or function which the Commissioner is authorized or required to exercise or perform under paragraph (1), (2), (3), or (4) of this subsection, or under section 322 or 1027, where the amount involved (exclusive of interest, penalties, additions to the tax, and additional amounts) does not exceed $10,000.

• • • • •

PAR. 18. Section 411.903 is amended to read as follows:

§ 411.903 *Interest.* If the tax is not paid to the collector when due and is not adjusted under § 411.702 or § 411.703, interest accrues at the rate of 6 percent per annum subject to the minimum addition to the tax provided by section 1631.

PAR. 19. The second sentence of § 411.905 (a) is amended to read as follows: "The amount to be added to the tax is 5 percent if the failure is for not more than 30 days, with an additional 5 percent for each additional 30 days or fraction thereof during which failure continues, but not exceeding in the aggregate 25 percent of the tax, subject, however, to the minimum addition to the tax provided by section 1631."

(c) *Verification in lieu of oath.* The Commissioner, under regulations prescribed by him with the approval of the Secretary, may require that any return, statement, or other document required to be filed under any provision of the internal revenue laws shall contain or be verified by a written declaration that it is made under the penalties of perjury, and such declaration shall be in lieu of any oath otherwise required.

PAR. 24. Immediately preceding the caption "Section 1430 of the Internal Revenue Code" which precedes § 405.601 the following is inserted:

SEC. 3310 (f). DISCRETION ALLOWED COMMISSIONER (as added, effective August 27, 1949, by sec. 7, Public Law 271, 81st Congress).

(1) *Returns and payment of tax.* Notwithstanding any other provision of law relating to the filing of returns or payment of any tax imposed by chapter 9, 9A, 10, 12, 19, 21, 30, 32, subchapter A of chapter 25, or subchapter A of chapter 29, the Commissioner may by regulations approved by the Secretary prescribe the period for which the return for such tax shall be filed, the time for the filing of such return, the time for the payment of such tax, and the number of copies of the return required to be filed.

• • • • •

PAR. 25. Section 405.604 is amended to read as follows:

§ 405.604 *Penalties for false returns.* Subsection (a) of section 3809 provides for penalties in the case of any person who willfully makes and subscribes any return, statement, or other document, which contains or is verified by a written declaration that it is made under the penalties of perjury, and which he does not believe to be true and correct as to every material matter. Such person shall be guilty of a felony, and, upon conviction thereof, shall be fined not more than $2,000 or imprisoned not more than five years, or both.

PAR. 26. Immediately preceding § 405.605, the following is inserted:

[Effective August 27, 1949, section 6, Public Law 271, 81st Congress, amended section 1631 to provide for a minimum addition to the tax. The provisions of section 1631 quoted above were in effect superseded by section 3310 (f) (2) as added by section 7 (a) of such law.]

SEC. 3310 (f) (2) USE OF GOVERNMENT DEPOSITARIES (as added by sec. 7 (a) of Public Law 2 , 81st Congress).

(2) *Use of Government depositaries.* The Secretary may authorize Federal Reserve banks, and incorporated banks or trust companies which are depositaries or financial agents of the United States, to receive any tax imposed by this title, in such manner, at such times, and under such conditions as he may prescribe; and he shall prescribe the

manner, times, and conditions under which the receipt of such tax by such banks and trust companies is to be treated as payment of such tax to the collector.

PAR. 27. Section 405.605 is amended by revising the first sentence thereof, as amended by Treasury Decision 5644, approved July 14, 1948, to read as follows: "It will be the duty of every employer who withheld more than $100 during the month to pay, within 15 days after the close of each calendar month, to a depositary and financial agent authorized by the Secretary of the Treasury to receive deposits of withheld taxes, pursuant to section 1631 prior to August 27, 1949, or pursuant to section 3310 (f) (2) after August 26, 1949, all funds withheld as taxes during that calendar month."

PAR. 28. Immediately preceding the caption "Section 3313 of the Internal Revenue Code" which precedes § 405.702 the following is inserted:

SECTION 3770 (a) (4) AND (5) OF THE INTERNAL REVENUE CODE (AS AMENDED, EFFECTIVE AUGUST 27, 1949, BY SEC. 9, PUBLIC LAW 271, 81ST CONG.).

(4) *Credit of overpayment of one class of tax against another class of tax due.* Notwithstanding any provision of law to the contrary, the Commissioner may, in his discretion, in lieu of refunding an overpayment of tax imposed by any provision of this title, credit such overpayment against any tax due from the taxpayer under any other provision of this title.

(5) *Delegation of authority to collectors to make refunds.* The Commissioner, with the approval of the Secretary, is authorized to delegate to collectors any authority, duty, or function which the Commissioner is authorized or required to exercise or perform under paragraph (1), (2), (3), or (4) of this subsection, or under section 322 or 1027, where the amount involved (exclusive of interest, penalties, additions to the tax, and additional amounts) does not exceed $10,000.

PAR. 29. Section 405.802 is amended to read as follows:

§ 405.802 *Interest.* If the tax is not paid to the collector on or before the date prescribed in § 405.601 and is not adjusted under § 405.701, interest accrues at the rate of 6 percent per annum subject to the minimum addition to the tax provided by section 1626 (c) prior to August 27, 1949, or by section 1631 after August 26, 1949. See § 405.805.

PAR. 30. The second sentence of § 405.804 (a) is amended to read as follows: "The amount to be added to the tax is 5 percent if the failure is for not more than 30 days, with an additional 5 percent for each additional 30 days or fraction thereof during which failure continues, but not exceeding in the aggregate 25 percent of the tax, subject, however, to the minimum addition to the tax provided by section 1626 (c) prior to August 27, 1949, or by section 1631 after August 26, 1949."

PAR. 31. Immediately preceding § 405.805, the following is inserted:

[Effective August 27, 1949, section 6, Public Law 271, 81st Congress, repealed section 1626 (c) and amended section 1631 to supersede, in effect, the provisions of section 1626 (c) quoted above.]

SEC. 1631. FAILURE OF EMPLOYER TO FILE RETURN OR PAY TAX (as amended, effective August 27, 1949, by sec. 6, Public Law 271, 81st Congress).

In case of a failure to make and file any return, or a failure to pay any tax, required by this chapter, or both, within the time prescribed by law or prescribed by the Commissioner in pursuance of law, unless it is shown that such failure is due to reasonable cause and not due to willful neglect, the addition to the tax shall not be less than $5.

PAR. 32. Section 405.805, as amended by Treasury Decision 5759, approved November 10, 1949, is further amended to read as follows:

§ 405.805 *Minimum addition to the tax.* (a) In the case of returns required to be filed or tax which becomes due on or after August 27, 1949, if an employer fails to file a return or pay the tax required to be withheld within the time prescribed in §§ 405.601 and 405.602, unless it is shown that the failure is due to reasonable cause and not to willful neglect, the addition to the tax shall not be less than $5. This provision is to be applied in accordance with the following rules:

(1) In the case of failure to file a return on the applicable form within the prescribed time, the addition to the tax shall be computed as provided by section 3612 (d) and if less than $5 shall be increased to $5.

(2) In the case of failure to pay the tax when due, the addition to the tax shall be computed as provided by section 1420 (b) and if less than $5 shall be increased to $5.

(3) In the case of concurrent failure to file the return and pay the tax within the prescribed time, the ad valorem penalty provided by section 3612 (d) and the interest provided by section 1420 (b) shall be aggregated and if less than $5 shall be increased to $5.

(b) In the case of returns required to be filed or tax required to be paid prior to August 27, 1949, the rules prescribed in paragraph (a) shall be applicable except that in each case the minimum addition to the tax shall be $10 instead of $5.

(53 Stat. 32, 178, 467; 26 U. S. C. 62, 1429, 3791)

Because the purpose of this Treasury decision is merely to conform the regulations to the provisions of sections 4, 6, 7 (a), and 9 (a) of Public Law 271, 81st Congress, and because such sections of law, amending the Internal Revenue Code, became effective on August 27, 1949, it is found that it is unnecessary to issue this Treasury decision under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of such act.

This Treasury decision shall be effective upon its filing for publication in the FEDERAL REGISTER.

[SEAL] GEO. J. SCHOENEMAN,
Commissioner of Internal Revenue.

Approved: July 6, 1950.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

LEARNERS IN INDEPENDENT TELEPHONE AND CIGAR INDUSTRIES

NOTICE OF PROPOSED RULE MAKING

Regulations have been issued heretofore pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (sec. 14, 52 Stat. 1068; 29 U. S. C. 214) setting forth terms and conditions under which special certificates are issued authorizing the employment of learners in the independent telephone industry (§§ 522.82 to 522.93) and in the cigar industry (§§ 522.201 to 522.211 at wages below the minimum wage established in section 6 of the act. The regulations contained in the aforementioned sections were amended on January 25, 1950, to provide, among other things, higher subminimum wage rates, and were made effective for a period of six months as so amended, in other words until July 25, 1950.

Since January 25, 1950, an investigation has been made into the need for amending, extending or revoking the regulations. Such investigation and all relevant information available indicates that the aforesaid regulations must be continued in effect in order to prevent the curtailment of opportunities for employment.

Accordingly, notice is hereby given pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001) that the Administrator of the Wage and Hour Division, U. S. Department of Labor, proposes to continue in effect the regulations contained in §§ 522.82 to 522.93 and 522.201 to 522.211, as amended on January 25, 1950 (15 F. R. 398, 400) on and after July 25, 1950, until thereafter modified or revoked.

Prior to such extension of the regulations, consideration will be given to any data, views or arguments pertaining thereto which are submitted in writing to the Administrator, Wage and Hour Division, U. S. Department of Labor, Washington 25, D. C., within 7 days of publication of this notice in the FEDERAL REGISTER.

Signed at Washington, D. C., this 11th day of July 1950.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

LEARNERS IN GLOVE INDUSTRY

NOTICE OF PROPOSED RULE MAKING

Pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068; 29 U. S. C. 214), the Administrator published in the FEDERAL REGISTER on January 25, 1950 (15 F. R. 401), revised terms and conditions under which special certificates are issued authorizing the employment of learners in the glove industry (§§ 522.220 to 522.222) at wages below the minimum established in section 6 of the act. The terms and conditions were made effective for a six-months' period and are scheduled to expire on July 25, 1950.

It now appears that the continuation of the aforesaid terms and conditions until October 25, 1950, is necessary in order to prevent curtailment of opportunities for employment.

Accordingly, notice is hereby given pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001) that the Administrator proposes to continue in effect the aforesaid terms and conditions until October 25, 1950, unless amended or revoked prior to that time.

Prior to such extension, consideration will be given to any data, views or arguments pertaining thereto which are submitted in writing to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C., within 7 days of publication of this notice in the FEDERAL REGISTER.

Signed at Washington, D. C., this 11th day of July 1950.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR, Part 1]

[Docket No. 9732]

LICENSEES IN DOMESTIC PUBLIC LAND MOBILE RADIO SERVICES

NOTICE OF PROPOSED RULE MAKING

In the matter of promulgation of an annual report form applicable to licensees in the domestic public land mobile radio services and amendment of Part 1 (Practice and Procedure) of the Commission's rules; Docket No. 9732.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. Part 6 (Public Radiocommunication Services (Other Than Maritime Mobile)) of the Commission's rules set forth, among other things, the conditions under which licenses are issued for radio stations in the Domestic Public Land Mobile Radio Services. Section 6.601 thereof states that "Part 1 of this chapter, beginning with § 1.541 contains a summary of certain material and reports, including but not limited to schedules of charges and accounting and financial reports, which must be filed with or submitted to the Commission." Part 1 (Practice and Procedure) of the Commission's rules includes a requirement (§ 1.544) that annual financial reports shall be filed by carriers on forms prescribed by the Commission. These forms were designed primarily for use by communication common carriers subject to all of the provisions of the Communications Act of 1934, as amended, and include numerous requirements for filing data not presently needed by the Commission in its regulatory functions with respect to licensees whose Communication common carrier activities comprise only the furnishing of domestic public land mobile radio services.

3. Therefore, it is proposed to prescribe a condensed annual report form, to be designated "F. C. C. Form L," containing reporting requirements set forth in an attachment hereto,[1] and to amend Part 1 (Practice and Procedure) of the Commission's rules, by inserting the following text of new subparagraph (8) to paragraph (a) of § 1.544, *Annual financial reports:*

(8) F. C. C. Form L (Licensees in the Domestic Public Land Mobile Radio Services.)

4. Any interested person who is of the opinion that the proposed report form and rule amendment should not be adopted, or should not be adopted in the form set forth, may file with the Commission on or before August 15, 1950; a written statement or brief setting forth his comments. At the same time persons favoring the adoption of the rule amendment and report form as proposed may file statements in support thereof. Before taking action in the matter, the Commission will consider all such comments that are presented and, if any comments are submitted which appear to warrant the holding of an oral argument, notice of the time and place of such oral argument will be given to interested parties.

5. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished to the Commission.

6. These proposals are issued pursuant to the authority of sections 4 (i), 219 (b), 303 (j), 303 (r) and 308 (b) of the Communications Act of 1934, as amended.

Adopted: July 6, 1950.

Released: July 7, 1950.

Secretary.

NOTICES

FEDERAL POWER COMMISSION

[Docket No. G-1426]

TEXAS GAS TRANSMISSION CORP.

NOTICE OF APPLICATION

JULY 10, 1950.

Take notice that Texas Gas Transmission Corporation (Applicant), a Delaware corporation, with office at Owensboro, Kentucky, filed on June 26, 1950, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant to construct and operate 5 sales meter stations with one each at the following locations in order to render service to the following designated companies by sale of natural gas for resale for the specified communities:

	Estimated maximum demand for fifth year	Estimated annual demand for fifth year
	Mcf	*Mcf*
1. Arkansas Power & Light Co., Parkdale, Ark.	170	18,000
2. City of Marion, Ky.	620	68,625
3. Hardinsburg Gas & Electric Co., Hardinsburg, Ky.	200	20,000
4. Louisville Gas & Electric Co., La Grange, Ky.	470	51,129
5. City of Carrollton, Ky.	1,321	112,100
	2,781	269,854

Applicant states that it has completed the construction of the facilities authorized by the Commission in Docket No. G-859, and is presently delivering natural gas through those facilities. Applicant states that the communities proposed to be served are located on its 26-inch transmission line and within its service area. Applicant is advised that the respective companies and municipalities will construct the lateral lines needed to transport the gas to the respective distribution systems. Applicant estimates that with the supply of natural gas provided by the facilities authorized in Docket No. G-859 it can render the proposed natural gas service without appreciable effect upon the gas reserves available to Applicant's system.

The proposed construction would be undertaken by Applicant's employees and service would be commenced September 1, 1950, if authorized.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 28th day of July 1950. The application

[Docket No. G-1434]

CITIES SERVICE GAS CO.

NOTICE OF APPLICATION

JULY 10, 1950.

Take notice that on June 30, 1950, Cities Service Gas Company (Applicant), a Delaware corporation with its principal office in Oklahoma City, Oklahoma, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of the following natural-gas facilities:

A meter setting at a point on its 8-inch gas pipe line near the northeast corner of Section 26, Township 26 South, Range 21 East, Bourbon County, Kansas.

Applicant proposes to use the above described natural-gas facilities to sell natural gas to the Walnut Gas & Electric Company for resale in the Town of Walnut, Kansas.

Applicant represents that the present local supply of gas for the town to be served has become depleted to the extent that the requirements cannot be met without service from it.

The meter to be installed is now in Applicant's warehouse stock.

The total cost of the facilities is estimated at $1,000.00.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.10) on or before the 28th day of July 1950. The application is on file with the Commission for public inspection.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Plum Order 16]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.386 *Plum Order 16*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936; 14 F. R. 2684), regulating the handling of fresh Bartlett pears, plums, and Elberta Peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section

must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than July 16, 1950. A reasonable determination as to the supply of, and the demand for, such plums must wait the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until July 6, 1950, recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on July 6, 1950, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about July 16, 1950, this section should be applicable to all such shipments in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., July 16, 1950, and ending at 12:01 a. m., P. s. t., November 1, 1950, no shipper shall ship any package or container of Diamond plums unless:

(i) Such plums grade at least U. S. No. 1; and

(ii) Such plums are of a size not smaller than a size that will pack a 5 x 5 standard pack in a standard basket. The aforesaid 5 x 5 standard pack is defined more specifically in subparagraph (2) of this paragraph.

(2) As used in this section, the aforesaid 5 x 5 standard pack is defined more specifically as follows: (i) at least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than 1 9/16 inches in diameter; (ii) at least ninety-five (95) percent by count, of the plums contained in such pack measure not less than 1 7/16 inches in diameter; and (iii) no plums contained in such pack measure less than 1 5/16 inches in diameter.

(3) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting, or causing to be submitted, promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection; but such shipper shall comply with all grade and size regulations applicable to such shipment.

(4) Terms used in this section shall have the same meaning as when used in the amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.387 *Plum Order 17*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936; 14 F. R. 2684), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than July 16, 1950. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until July 6, 1950, recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on July 6, 1950, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about July 16, 1950, and this regulation should be applicable to all such shipments of such plums in order to effec-

tuate the declared policy of the act; and compliance with the provisions of this regulation will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., July 16, 1950, and ending at 12:01 a. m., P. s. t., November 1, 1950, no shipper shall ship from any shipping point during any day any package or container of Late Santa Rosa plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of fifteen (15) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and

(ii) The plums are, except to the extent otherwise specified in this paragraph, of a size not smaller than a size that will pack a 4 x 5 standard pack in a standard basket.

(2) During each day of the aforesaid period, however, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, but are not of a size smaller than a size than will pack a 5 x 5 standard pack in a standard basket if said quantity does not exceed thirty-three and one-third (33⅓) percent of the number of the same type of packages or containers of plums which are of a size not smaller than a size that will pack a 4 x 5 standard pack, as aforesaid: *Provided*, That, in computing such quantity, three (3) California peach boxes (including other packages and containers of comparable capacity) shall be deemed to be the equivalent of two (2) standard 4-basket crates. The aforesaid 4 x 5 standard pack and 5 x 5 standard pack are defined more specifically in subparagraphs (4) and (5), respectively, of this paragraph.

(3) If any shipper, during any two (2) consecutive days of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, the aggregate amount of the undershipment of such plums may be shipped by such shipper only from such shipping point during the next succeeding calendar day in addition to the quantity of such plums of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, that such shipper could have shipped from such shipping point on such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(4) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{7}/_{16}$ inches in diameter.

(5) As used in this section, the aforesaid 5 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{7}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{5}/_{16}$ inches in diameter.

(6) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting or causing to be submitted promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection, but such shipper shall comply with all grade and size regulations applicable to such shipment.

(7) Terms used in the amended marketing agreement and order shall, when used in this section, have the same meanings as when used in said amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 12th day of July 1950.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., July 16, 1950, and ending at 12:01 a. m., P. s. t., November 1, 1950, no shipper shall ship from any shipping point during any day any package or container of Kelsey plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of fifteen (15) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and

(ii) The plums are, except to the extent otherwise specified in this paragraph, of a size not smaller than a size that will pack a 4 x 4 standard pack in a standard basket.

(2) During each day of the aforesaid period, however, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, but are not of a size smaller than a size that will pack a 4 x 5 standard pack in a standard basket if said quantity does not exceed thirty-three and one-third (33⅓) percent of the number of the same type of packages or containers of plums which are of a size not smaller than a size that will pack a 4 x 4 standard pack, as aforesaid: *Provided*, That, in computing such quantity, three (3) California peach boxes (including other packages and containers of comparable capacity) shall be deemed to be the equivalent of two (2) standard 4-basket crates. The aforesaid 4 x 4 standard pack and 4 x 5 standard pack are defined more specifically in subparagraphs (4) and (5), respectively, of this paragraph.

(3) If any shipper, during any two (2) consecutive days of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, the aggregate amount of the undershipment of such plums may be shipped by such shipper only from such shipping point during the next succeeding calendar day in addition to the quantity of such plums of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, that such shipper could have shipped from such shipping point on such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(4) As used in this section, the aforesaid 4 x 4 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{13}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{9}/_{16}$ inches in diameter.

(5) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{7}/_{16}$ inches in diameter.

(6) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting or causing to be submitted promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection, but such shipper shall comply with all grade and size regulations applicable to such shipment.

(7) Terms used in the amended marketing agreement and order shall, when used in this section, have the same meanings as when used in said amended marketing agreement and order; the terms "U. S. PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.389 *Plum Order 19*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936; 14 F. R. 2684), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than July 16, 1950. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until July 6, 1950, recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on July 6, 1950, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are expected to begin on or about July 16, 1950, and this section should be applicable to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., July 16, 1950, and ending at 12:01 a. m., P. s. t., November 1, 1950, no shipper shall ship from any shipping point during any day any package or container of Ace plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of fifteen (15) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and

(ii) The plums are, except to the extent otherwise specified in this paragraph, of a size not smaller than a size that will pack a 4 x 4 standard pack in a standard basket.

(2) During each day of the aforesaid period, however, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, but are not of a size smaller than a size that will pack a 4 x 5 standard pack in a standard basket if said quantity does not exceed one hundred (100) percent of the number of the same type of packages or containers of plums which are of a size not smaller than a size that will pack a 4 x 4 standard pack, as aforesaid: *Provided*, That, in computing such quantity, three (3) California peach boxes (including other packages and containers of comparable capacity) shall be deemed to be the equivalent of two (2) standard 4-basket crates. The aforesaid 4 x 4 standard pack and 4 x 5 standard pack are defined more specifically in subparagraphs (4) and (5), respectively, of this paragraph.

(3) If any shipper, during any two (2) consecutive days of the aforesaid period,

ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, the aggregate amount of the undershipment of such plums may be shipped by such shipper only from such shipping point during the next succeeding calendar day in addition to the quantity of such plums of a size smaller than a size that will pack a 4 x 4 standard pack, as aforesaid, that such shipper could have shipped from such shipping point on such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(4) As used in this section, the aforesaid 4 x 4 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{13}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{9}/_{16}$ inches in diameter.

(5) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{7}/_{16}$ inches in diameter.

(6) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection:

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting or causing to be submitted promply such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection, but such shipper shall comply with all grade and size regulations applicable to such shipment.

(7) Terms used in the amended marketing agreement and order shall, when used in this section, have the same meanings as when used in said amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

[Lemon Reg. 339]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.446 *Lemon Regulation 339*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on July 12, 1950; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., July 16, 1950, and ending at 12:01 a. m., P. s. t., July 23, 1950, is hereby fixed as follows:

(i) District 1: Unlimited movement.

(ii) District 2: 600 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base scheduled which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

PART 958—IRISH POTATOES GROWN IN COLORADO

LIMITATION OF SHIPMENTS

§ 958.306 *Limitation of shipments*—(a) *Findings.* (1) Notice of proposed rule making with respect to shipments of potatoes grown in Area No. 1, State of Colorado, to be made effective under Marketing Agreement No. 97 and Order No. 58 (7 CFR Part 958), regulating the handling of Irish potatoes grown in the State of Colorado, was published in the FEDERAL REGISTER (15 F. R. 4231). This regulatory program is effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051). After consideration of all matters presented, including the proposed rule set forth in the aforesaid notice, which proposed rule was recommended by the administrative committee for Area No. 1 (established pursuant to said marketing agreement and order), it is hereby found that the limitation of shipments hereinafter set forth, in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to postpone the effective date of this action until 30 days after publication thereof in the FEDERAL REGISTER in that (i) shipments of potatoes from the production area will have begun by July 17, 1950, (ii) more orderly marketing in the public interest than would otherwise prevail will be promoted by regulating the shipment of potatoes in the manner hereinafter set forth on and after the effective date of this section, (iii) notice has been given of the proposed limitation of shipments by publication thereof, as required by law (15 F. R. 4231), and (iv) the order should become effective on July 17, 1950, in order to effectuate the declared policy of the act.

(b) *Order.* (1) During the period beginning at 12:01 a. m., m. s. t., July 17, 1950, and ending 12:01 a. m., m. s. t., June 1, 1951, no handler shall ship potatoes grown in Area No. 1, as such area is defined in Marketing Agreement No. 97 and Order No. 58, which do not meet the requirements of Regulation No. 1 limiting shipments to U. S. No. 2 or better grade (General Cull Regulation—published in the FEDERAL REGISTER, July 16, 1949—14 F. R. 3979) and which are of sizes smaller than 2 inches minimum diameter, as such sizes are defined in the United States Standards for Potatoes (14 F. R. 1955, 2161), including the tolerances provided therein: *Provided*, That the aforesaid limitations shall not be applicable to (i) potatoes shipped for seed purposes which have been officially certified as seed potatoes by the official Colorado seed certifying agency and which are in containers bearing official Colorado seed certification tags, and (ii) potatoes shipped for consumption by a charitable institution, for relief purposes, or for manufacturing purposes for conversion into by-products.

(2) The terms used in this section shall have the same meaning as when used in Order No. 58 (7 CFR 958.1 et seq.).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C., and Sup., 608c)

Done at Washington, D. C., this 12th day of July 1950, to be effective on July 17, 1950.

[Orange Reg. 336]

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.482 *Orange Regulation 336*—(a) *Findings.* (1) Pursuant to the provisions of Order No. 66, as amended, (7 CFR Part 966; 14 F. R. 3614), regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said amended order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Orange Administrative Committee on July 13, 1950, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., July 16, 1950, and ending at 12:01 a. m., P. s. t., July 23, 1950, is hereby fixed as follows:

(i) *Valencia oranges.* (a) Prorate District No. 1: Unlimited movement;

(b) Prorate District No. 2: 1,300 carloads;

(c) Prorate District No. 3: Unlimited movement.

(ii) *Oranges other than Valencia oranges.* (*a*) Prorate District No. 1: No movement;

(*b*) Prorate District No. 2: Unlimited movement;

(*c*) Prorate District No. 3: No movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section "handled," "handler," "varieties," "carloads," and "prorate base" shall have the same meaning as when used in the said amended order; and the terms "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as given to the respective term in § 966.107 of the current rules and regulations (14 F. R. 6588) contained in this part.

Orange Regulation 332 (7 CFR 966.478, 15 F. R. 3863) fixes the sizes of designated oranges which may be handled during the aforesaid period.

(48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 7 CFR Part 966; 14 F. R. 3614)

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Stanley Weinstein doing business as General Tack Company, Docket 5688, May 23, 1950]

In the Matter of Stanley Weinstein, Doing Business as General Tack Company

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the substitute answer of the respondent, in which answer said respondent admits all of the material allegations of fact set forth in the complaint and waives all intervening procedure and further hearings as to said facts; and the Commission, having made its findings as to the facts and its conclusion that the respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent, Stanley Weinstein, individually and trading as General Tack Company, or trading under any other name or trade designation, and said respondent's agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of thumb tacks or other similar products, do forthwith cease and desist from:

Offering for sale or selling any such products of foreign origin without clearly and conspicuously disclosing on the boards on which such products are mounted, or other packages or containers in which they are sold to the consuming public, the country of origin of such products.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

Issued: May 23, 1950.

By the Commission.

DERIVATION: AR 145–5, AR 145–350, and SR 145–240–1, April 26, 1950.

GENERAL PROVISIONS

§ 562.1 *Purpose.* The Reserve Officers' Training Corps trains students for positions of leadership in the armed forces in time of national emergency.

(a) *Senior division.* The mission of the senior division, Army ROTC, is to train college students as junior officers who have the qualities and attributes essential to their progressive and continued development as officers in a component of the United States Army, particularly in the Reserve components, i. e., the Organized Reserve Corps and the National Guard. In addition, the senior division will provide a major source of procurement of junior officers for the Regular Army through the recurring selection of a number of distinguished military graduates from senior units for direct Regular Army appointment.

(b) *Junior division.* The mission of the junior division, is to lay the foundation of intelligent citizenship within the student and give him such basic military training as will be of benefit and value to him and to the military service, if he becomes a member thereof.

(c) *Units.* The various arms and services of the Army will be represented in the Reserve Officers' Training Corps by units of such arms and services established at participating educational institutions. However, it is not practicable to maintain units of every arm and service at each institution

§ 562.2 *Definitions.* For use in this part, unless otherwise specified, the following definitions will apply:

(a) *Advanced course.* The Army ROTC course of study normally pursued by the student during his junior and senior academic years, or during the last 3 years of a normal 5-year course.

(b) *Army commander.*

(1) All continental armies.

(2) Military District of Washington.

(3) United States Army, Pacific.

(4) United States Army, Alaska.

(5) United States Army, Caribbean.

(c) *Advanced camp, summer camp, camp.* The Army ROTC course of instruction that supplements the advanced course by stressing practical training in appropriate general and specialized military subjects.

(d) *Assistant professor of military science and tactics (asst. PMS&T).* The academic title customarily conferred upon commissioned officers (other than the PMS&T for associate PMS&T) and warrant officers of the Army who conduct instruction.

(e) *Basic course.* The Army ROTC course of study normally pursued by the student during his freshman and sophomore academic years.

(f) *Commutation in lieu of uniform.* Monetary payment by the Government to compensate for nonissuance of the actual uniform.

(g) *Commutation of subsistence.* Monetary payment by the Government to students of the advanced course, senior division, in lieu of rations.

(h) *Department of military science and tactics.* The academic subdivision of an educational institution which includes all Army ROTC activities conducted at the institution. At institutions where ROTC activities of the Air Force or Navy or both are also conducted, similar departments of air science and tactics and/or of naval science may be established. At the discretion of the institutional authorities, these departments may be grouped into a larger subdivision of the institution, headed by an officer or civilian member designated by the head of the institution.

(i) *Distinguished military student.* A distinguished military student is an individual designated as such by the professor of military science and tactics, after careful consideration of his qualifications.

(j) *Distinguished military graduate.* A distinguished military graduate is an individual designated as such by the professor of military science and tactics, after careful consideration of his qualifications.

(k) *Enrolled student, formally enrolled student, enrolled member, formally enrolled member, member.* A student pursuing the Army ROTC course who has been formally enrolled in the Army ROTC and is eligible to receive all benefits, financial and other, provided for the program.

(l) *Honor graduate.* A graduate of an institution whose ROTC unit has been awarded the rating of "Military-school honor ROTC unit" by the Department of the Army who has been selected as a candidate to compete for admission to the United States Military Academy.

(m) *Hour of instruction, class hour.* A period of instruction of 50 minutes' duration.

(n) *Instructor.* The academic title customarily conferred upon Army enlisted personnel assigned to an Army ROTC unit who assist in instruction.

(o) *Military-school honor ROTC unit.* A rating awarded to ROTC units which have maintained an exceptionally high standard of military training during the school year.

(p) *Military training certificates.* Certificates issued at the discretion of the PMS&T and the head of the institution to students who complete certain phases of the senior division course.

(q) *Other student.* A student who for any reason is ineligible for formal enrollment in the Army ROTC, but who is permitted to pursue the course without the financial benefits provided for the program.

(r) *Professor of military science and tactics (PMS&T).* The senior commissioned officer of the Army assigned to duty with the Army ROTC.

(s) *Senior division, ROTC.* Branch type (Infantry, Signal Corps, etc.) units at educational institutions of college level.

(t) *Unit.* The military organization which includes all Army ROTC activities at an institution.

(u) *Veteran.* Any person who has completed a period of active Federal service in the Army, Navy, Air Force, Marine Corps, or Coast Guard.

§ 562.3 *Supervision.* (a) The Department of the Army is the agency of the Federal Government charged by law with:

(1) The formulation and preparation of plans, policies, regulations, and instructions implementing the statutory provisions relating to the Army ROTC.

(2) The supervision of the execution of pertinent laws pertaining to ROTC.

(b) The Chief of Staff, United States Army, exercises supervision and control over the ROTC. The Adjutant General is the administrative agency of the Department of the Army for ROTC matters.

§ 562.4 *Control by educational institutions.* (a) Civilian heads of institutions exercise the same control over the department of military science and tactics that they generally exercise over the other departments of the institution.

(b) The PMS&T is responsible to the institutional authorities and to higher military authority for the effective conduct and administration of all ROTC activities at the institution. He reports to and receives instructions from the chief of the appropriate military district concerning ROTC matters. He is responsible for the maintenance of good relations with the authorities, faculty, and student body of the institution, and represents the Department of the Army locally in all matters relating to the ROTC. The PMS&T will advise the authorities of the institution of the provisions of law and all regulations affecting the conduct of the ROTC program.

(c) In their strictly military capacities, military personnel on ROTC duty are subordinate to the chief of the appropriate military district and subject to his orders, except that such orders will not contravene institutional regulations. In their academic capacity, these personnel are subject to those institutional regulations pertaining to other members of the faculty and instructional staff.

§ 562.5 *Training.* The obligations to provide military instruction imposed on land-grant institutions by the act of July 2, 1862, are not altered by the National Defense Act, as amended, nor by these regulations. At institutions where military training is a required course under institutional regulations or statutory provisions, the following matters are regarded by the Department of the Army as being entirely within the jurisdiction of the institutional or State authorities:

(a) The excusing or exemption from the required course of military training which may be required by law, and from enrollment in the ROTC of individual members of the student body who have received or are undergoing equivalent military training as further described in this part.

(b) The determination of what constitutes equivalent military training as a basis for excusing students from the required course of military training and from enrollment in the ROTC.

(c) Within quota limitations, students who are pursuing academic majors which have special application to the techniques of an arm or service other than that of the unit in which enrolled may, at their request and with the approval of the army commander, be trained at the summer camp of the other arm of service, and may elect to accept a commission therein.

(d) The ROTC affords to educational institutions a means for practical training in organization leadership and discipline which will be of value to their graduated students in an industrial or professional career. The theoretical courses have a content of general educational value.

§ 562.6 *Equipment.* The Department of the Army will provide the necessary equipment to carry out the ROTC program. Authorized allowances for ROTC equipment are contained in tables of allowances and equipment.

§ 562.7 *Texts.* Field manuals, technical manuals, and other publications of the Department of the Army, as well as other publications authorized by the Department of the Army, including special textbooks for issue to students, are the only officially approved documents for use in the junior and senior ROTC programs. These approved documents may be supplemented by other publications for use as reference material if their use is considered appropriate and necessary, but in no case will any student be required to purchase such publications. The Department of the Army will develop and supervise the publication of necessary textbooks and will provide each enrolled student with the prescribed ROTC textbooks.

§ 562.8 *Certificate of eligibility.* (a) The PMS&T at a class MJC institution may grant to selected students who have successfully completed the advanced course, senior division, and who have successfully completed 2 years of academic work on a college level, a certificate of eligibility which will enable the student to:

(1) Upon enlistment in the Army, enter an officer candidate school course, within quota limitations set by the Department of the Army, and receive a commission in the Organized Reserve Corps upon completion of that course and upon attaining the required age, if he does not complete the last 2 years of undergraduate college study (certificates of eligibility to an officer candidate school course will be valid only for a period of two years); or

(2) Receive a Reserve commission upon successful completion of two additional years of undergraduate college study.

(b) The PMS&T at class MI, MJC, MC, or CC institutions may grant certificates of eligibility for entrance to an officer candidate school course, within quota limitations set by the Department of the Army and valid only for a period of 2 years, to those selected students who:

(1) Have completed the basic course, senior division, ROTC;

(2) Have completed 2 years of college studies; and

(3) Do not pursue their college studies to completion.

§ 562.9 *Certificate of recognition.* ROTC students who do not complete all the ROTC courses required for appointment as an officer may be granted certificates of recognition. Such certificate will be of value in applying for admission to an Army officer candidate course or for appointment as a noncommissioned officer in the Organized Reserve Corps.

ORGANIZATION AND TRAINING OF UNITS

§ 562.10 *Divisions and units.* The Reserve Officers' Training Corps consists of senior and junior division training units established at participating civilian educational institutions in conformity with the provisions of the National Defense Act and the regulations in this part.

(a) *Senior division.* Senior division units, ROTC, are established as branch type units (Infantry, Signal Corps, etc.) at educational institutions of college level. All military instruction required to qualify students for a commission in a specific branch of the Organized Reserve Corps, except summer camp training, will be given at institutions of college level. The basic course only of the senior division, ROTC, is conducted in units authorized at certain essentially military schools of secondary level specifically designated by the Secretary of the Army.

(b) *Junior division.* Junior division units, ROTC, are established at educational institutions of not lower than secondary level. General instruction in military fundamentals will be provided.

§ 562.11 *Department of Military Science and Tactics.* Military instruction given at an educational institution in accordance with programs of instruction prescribed by the Department of the Army will be conducted and supervised by the Department of Military Science and Tactics, which will include all Army ROTC units at that institution.

§ 562.12 *Classification of ROTC units.* Senior and junior division units are classified according to the type of institution at which such units are established.

(a) *Senior division.* The senior division units are classified as follows:

(1) *Class MC.* Units established at essentially military colleges or universities which confer baccalaureate or graduate degrees; at which the average age of the students at the time of graduation is not less than 21 years; which require all students to pursue military training throughout the undergraduate course and require all members of the ROTC to be habitually in uniform; which constantly maintain military discipline; which have as objectives the development of the student by means of military training and the regulation of his conduct in accordance with disciplinary principles.

(2) *Class CC.* Units established at civilian colleges and universities which are not operated on an essentially military basis; which confer baccalaureate or graduate degrees; and at which the average age of the student at graduation is not less than 21 years.

(3) *Class MJC.* Essentially military schools specially designated by the Secretary of the Army as in class MJC, which operate junior college departments but do not confer baccalaureate degrees; and at which the average age of students at graduation is less than 21 years, but which otherwise meet the requirements of class MC and accept and maintain the entire program of instruction prescribed by the Department of the Army for the units of the senior division, ROTC. The junior division, ROTC, program may be conducted in whole or in part at class MJC institutions with Department of the Army approval.

(4) *Class MI.* Essentially military schools specially designated by the Secretary of the Army as in class MI, which do not confer baccalaureate degrees and at which the average age of students at graduation is less than 21 years, but which otherwise meet the requirements of class MC or MJC and accept and maintain the specially designated program of instruction for this classification of ROTC institution, or maintain the entire program of instruction for the junior division (class MS), ROTC, and the basic course of the senior division, ROTC. Those institutions conducting the former program will be required to have a minimum enrollment of 100 students, and those institutions conducting the latter program must have a minimum enrollment in the junior division of 100 students and in the basic course senior division, 50 students.

(b) *Junior division.* Junior division units are classified as follows:

(1) *Class MS.* Essentially military schools which are not specially designated by the Secretary of the Army as in class MI or MJC, at which the average age students at graduation is less than 21 years, but which accept and maintain the course of instruction prescribed by the Department of the Army for the junior division, ROTC, in essentially military schools.

(2) *Class HS.* Units established at high schools and other educational institutions of comparable academic level which are not essentially military or which do not meet the requirements prescribed by any of the other preceding classes.

§ 562.13 *Conditions for establishment and retention of units.* Before an ROTC unit may be established at an educational institution, such institution must be accredited by a recognized civilian national, regional, or State accrediting agency, and there must be insured to each such ROTC unit an enrollment of at least 100 physically fit male students, except in Alaska (sec. 40, National Defense Act; 39 Stat. 191; 10 U. S. C. 381), who are citizens of the United States, who are not less than 14 years of age, except that the minimum enrollment required for units of the administrative and technical services (Chemical Corps, Corps of Engineers, Ordnance Department, Quartermaster Corps, Signal Corps, Corps of Military Police, Transportation Corps, Army Security Agency, and all medical units) is 50 students who meet the above qualifications. The minimum enrollment of 100 students will be maintained by each school within a junior division multiple ROTC unit.

(b) The Department of the Army will periodically inspect and review the productiveness of each senior division unit to insure that the mission of the ROTC as expressed in §§ 562.1 through 562.9 of this part is being accomplished. Any institution dropped from the accredited list of the recognized civilian accrediting agency will be placed on a probationary status for a period of 12 months, during which time it must gain reinstatement as an accredited institution or suffer the loss of its ROTC contract. ROTC units at an institution which is placed on such probationary status will not be considered for the designation "military-school honor ROTC unit(s)," and such institutions will not be authorized to designate "honor graduates" or "distinguished military students" during such probationary period. The accredited status of each institution will be ascertained by the Army inspection groups during each annual formal ROTC inspection.

§ 562.14 *Senior and junior units at same institutions.* When an institution of college level maintains a secondary or preparatory department, ROTC units of both divisions may be authorized. When units of both divisions have been authorized, the required minimum enrollment must be maintained in the unit or units of each division as required in § 562.12 (a) (4).

§ 562.15 *Establishment and withdrawal of units.* (a) Applications for the establishment of any type ROTC unit will be submitted on the form prescribed in § 562.43, by educational institutions to army commanders, who will in turn forward such applications to the Chief, Army Field Forces, with appropri-

ate recommendations. Army commanders are authorized to visit and inspect educational institutions to determine their suitability to conduct the ROTC program. The Chief, Army Field Forces, will forward the applications to the Adjutant General, Washington 25, D. C., Attention: AGAO–R, with appropriate recommendations. The Chief, Army Field Forces, is authorized and directed to coordinate all ROTC activation activities with chiefs of services when ROTC units of such services are involved.

(b) An institution desiring the withdrawal of one or more of the units established thereat will apply in writing to the appropriate army commander, at least 3 months prior to the date withdrawal of the unit is to take effect. The Department of the Army may withdraw any unit should it be considered that its work is not compatible with the objects for which the corps is established. At any time that the enrollment in a unit falls below the minimum enrollment required by law, or whenever the authorities of an institution request the withdrawal of a unit, or when in the opinion of the army commander or the professor of military science and tactics a unit should be withdrawn for any other reason, the professor of military science and tactics will make a report in writing to the army commander, through the head of the institution, including therein, the following information when pertinent:

(1) Attitude of the authorities of the institution regarding the failure to meet the requirements of law and regulations respecting enrollment.

(2) Attitude of the faculty of the institution toward the ROTC.

(3) Attitude of the student body toward the ROTC.

(4) A statement of the efforts made by the professor of military science and tactics to overcome difficulties and to maintain a successful unit, and his recommendation as to the continuance or withdrawal of the unit in question.

(5) Additional facts necessary to arrive at a proper understanding of the situation at the institution.

(c) The army commander concerned will make such investigations concerning requests or recommendations for withdrawal of units as he may deem necessary, and will forward such requests or recommendations together with his own recommendations thereon to the Adjutant General, Washington 25, D. C., Attention: AGAO–R, through the Chief, Army Field Forces.

§ 562.16 *Nonestablishment of new junior units.* (a) Until such time as instructor personnel and funds for the necessary supplies and equipment are available to implement the senior division, ROTC, at the capacity required to produce annually the graduates needed by the Department of the Army, it is not planned to increase the number of junior division units currently established.

(b) Authorities of educational institutions who indicate a desire to participate in the junior division, ROTC, program will be advised by army commanders of the policy stated above. Applications submitted for junior ROTC units will be held by the Department of the Army for consideration at such time as an activation program is authorized.

§ 562.17 *Requirements for conversion from class MS to class MI ROTC rating.* (a) A class MS ROTC school desiring to convert to a class MI ROTC school will secure the approval of the Secretary of the Army for such conversion. Such approval will be contingent on the following:

(1) The institution will agree to: (i) Adopt into its curriculum and maintain the theoretical and practical institution for the basic course, senior ROTC, prescribed for class MI, ROTC, by the Secretary of the Army.

(ii) Provide those facilities required to accomplish successfully the prescribed standard course of theoretical and practical military instruction, as determined by a special inspection by representatives of the Department of the Army.

(iii) Maintain the student body habitually in uniform and under a standard of military discipline comparable to that of the Army and acceptable to the Department of the Army.

(iv) Conform to the regulations of the Secretary of the Army relating to issue, care, use, safeguarding, and accounting for such Government property as may be issued to the institution.

(v) Require that the 2 years of the basic course, senior ROTC, when entered upon by any student will, as regards such student, be a prerequisite for graduation from the institution, unless sooner released by the Department of the Army.

(vi) Require as a minimum for formal instruction in the basic course, senior ROTC, 3 hours per week for two academic years.

(vii) Maintain separate units where both junior and senior division programs are authorized.

(2) The institution will be required to: (i) Enroll in the basic course, senior ROTC, only regularly accented students of the institution who have successfully completed such general survey or screening tests as are given to determine eligibility for admittance to basic course, senior ROTC.

(ii) Enroll in the basic course, senior ROTC, only those students who have satisfactorily completed all but the last 2 years of high school instruction at the time of enrollment, and further require that a student when so enrolled maintain the scholastic standard required by the institution as a requisite for continuance.

(iii) Maintain under Military instruction in the basic course, senior ROTC, at least 50 male students, citizens of the United States, physically qualified by the Department of the Army standards, with due allowances for correctible physical defects as prescribed in Special Regulations, and between the age limits 14 to 22 years, inclusive, at the time of enrollment.

(iv) Maintain an academic level of instruction acceptable by a State university or a recognized regional or national accreditation association.

(v) Maintain the prescribed enrollments in both junior and senior division units where authorized.

(vi) Maintain a standard which may result in the award of the designation "military-school honor ROTC unit."

(b) In the event that any of these agreements and requirements listed above are not met for two consecutive years, the Department of the Army may consider such failure just cause for withdrawal of class MI rating.

§ 562.18 *Requirements for conversion from class MI to class MJC ROTC rating.* An MI school applying for MJC classification will be so designated by the Secretary of the Army if it meets the following requirements:

(a) Qualifies under § 562.12 (a) (3).

(b) Submits formal application for a senior unit as prescribed in § 562.15, accompanied by the statement prescribed therein.

(c) Possesses adequate facilities for the maintenance of the training program prescribed in Department of the Army regulations for the type of senior unit requested. The adequacy of facilities is to be determined by an inspector designated by the army commander in whose area the school is located, with the findings of the inspector subject to approval by the army commander and the Department of the Army.

(d) Has received recognition by having been awarded a "military-school honor ROTC unit" designation for 4 out of the 5 years preceding the date of application.

(e) Produces proof of a good standing at the academic level of junior college as a member of a recognized accreditation association.

§ 562.19 *Assignment of students to units.* (a) Quotas for the enrollment of students in the advanced course of the senior division will be established and allotted annually by the Chief, Army Field Forces.

(b) Within quota limitations, qualified students eligible for enrollment in the advanced course of the senior division, ROTC, will be assigned to the arm or service of their choice.

(c) Students enrolled in the basic course, senior division, will be assigned to the arm or service of their choice so far as practicable at the time of admission, and so shown on reports of enrollment.

§ 562.20 *Enrollment requirements.* Students who are required to participate in military training by institutional regulation, and who meet the conditions outlined in §§ 562.21 and 562.22 will be formally enrolled as members of the ROTC. The Department of the Army will continue to encourage and assist in this training.

§ 562.21 *General conditions for enrollment in ROTC.* All students formally enrolled in the junior division, ROTC, and in the basic and advanced courses of the senior division, ROTC, must be:

(a) Citizens of the United States and not less than 14 years of age.

(b) Physically qualified under standards prescribed by the Department of the Army. Due allowance will be made for an otherwise qualified individual having a defect that will not preclude the performance of general duty and his ultimate appointment in the Organized Reserve Corps upon successful completion of his ROTC training. Professors of military science and tactics at educational institutions will accept for enrollment in the ROTC only those students who meet the physical standards for general military service. Veterans currently receiving compensation from the Veterans Administration for temporary or limited physical disability, if physically qualified under the Army Regulations mentioned above, are eligible to enroll in the ROTC and receive, concurrently, allowances authorized for ROTC students and compensation from Veterans Administration for such temporary or limited physical disability. Waivers of physical defects will be granted only in exceptional cases and then only upon the prior approval of the Department of the Army. Applications for waivers of physical defects will be forwarded through channels to The Adjutant General, Washington 25, D. C., Attention: AGPR–A, together with a report of physical examination recorded on Standard Form 88 (Report of Medical Examination), setting forth the exceptional circumstances which warrant the granting of a waiver.

(c) Acceptable to the institution as a regularly enrolled student of the institution.

(d) Qualified morally. (1) Applicants for enrollment who have a record of conviction by any civil court or by any type of court martial, for other than a minor traffic violation, are not eligible for enrollment in the ROTC without specific approval of the Department of the Army. Request for waiver of any conviction by a civil or military court may be submitted by an applicant, through military channels, to The Adjutant General, Washington 25, D. C., Attention: AGPR–A, for review and final determination when the offense is nonrecurring and does not involve moral turpitude, provided such request is accompanied by recommendation of the professor of military science and tactics concerned that a waiver be granted. Each request for a waiver must be accompanied by an affidavit setting forth the circumstances surrounding the conviction(s) reported and containing a statement of the effect that the applicant has not been convicted of any violations other than those reported.

(2) Advanced course students presently enrolled in the ROTC who have been convicted by any civil court or by any type of court martial for other than a minor traffic violation, will be required to submit a request, through military channels, to The Adjutant General, Washington 25, D. C., Attention: AGPR–A, for a waiver of conviction. If waiver is not approved by The Adjutant General, the student concerned will be separated from the ROTC for the convenience of the Government under the provisions of § 562.23.

§ 562.22 *Conditions for enrollment in a specific course.* In addition to the general conditions for enrollment enumerated in § 562.21, all students formally enrolling in the various courses of the ROTC must comply with the following specific requirements:

(a) *For basic course, senior division—*(1) *Age requirements.* Students enrolling in this course must not have reached 23 years of age at the time of initial enrollment in the basic course, except that:

(i) An age limit of 25 will apply to veterans of World War II initially enrolling in colleges prior to January 1, 1951.

(ii) Students accepted for the basic medical, dental, or veterinary course must not have reached 29 years of age at the time of initial enrollment in those courses.

(iii) Students accepted for the basic pharmacy course must not have reached 26 years of age at the time of initial enrollment in that course.

(2) *Academic requirements.* Students enrolling in this course must:

(i) Successfully complete such survey and general screening tests as may be prescribed.

(ii) If entering the first year of the basic course, have at least two academic years remaining in their course at the institution, and if at a class MJC or class MI institution must be enrolled not below the junior year of the preparatory or high school course.

(b) *For advanced course, senior division—*(1) *Academic requirements.* (i) Applicants for admission to the advanced course of the following technical services must be enrolled in the academic fields listed thereafter:

(*a*) *Chemical Corps.* Any academic course of instruction leading to an engineering or other scientific, accounting, law, business administration, engineering administration, or fiscal administration degree.

(*b*) *Corps of Engineers.* Any academic course of instruction leading to an engineering, technical, or other scientific degree.

(*c*) *Ordnance Dept.* Any academic course of instruction leading to an engineering, technical, or other scientific degree. However, students enrolled in courses other than these may be admitted if marked ability, aptitude, or interest in technical fields of endeavor is demonstrated.

(*d*) *Signal Corps.* Any academic course leading to a degree in engineering, electronics, or physics. However, students enrolled in courses other than these may be admitted if marked ability, aptitude, or interest in technical fields of endeavor is demonstrated.

(ii) Students desiring admission to ROTC units of other arms and services may be pursuing courses in any recognized academic field.

(iii) Students must:

(*a*) Successfully complete such survey and general screening tests as may be prescribed.

(*b*) If entering a class MJC institution, to be regularly enrolled student in the junior college department of that institution. If in an institution of college level, have at least two academic years to complete, for graduation.

(*c*) Be selected by the professor of military science tactics and the head of the institution.

(*d*) Have completed the basic course, senior division, ROTC, or have received credit in lieu thereof as prescribed.

(*e*) In a unit of technical service, be enrolled in an appropriate academic field.

(*f*) Execute a written agreement with the Government as prescribed in § 562.32 (a) (1).

(2) *Age requirements.* Students must not have reached 27 years of age at the time of initial enrollment in the advanced course, except that:

(i) Students accepted for formal enrollment in the advanced medical, dental, or veterinary course must not have reached 31 years of age at the time of initial enrollment in those courses.

(ii) Students accepted for formal enrollment in the advanced pharmacy course must not have reached 28 years of age at the time of initial enrollment in that course.

(c) *For junior course.* All students formally enrolling in the junior course must be not less than 14 years of age at the time of entrance into the junior ROTC.

§ 562.23 *Requirements for continuance in ROTC program.* (a) Students formally enrolled in the ROTC who fail to maintain satisfactory scholastic standing in the ROTC courses as required by the institution attended will, with the approval of the army commander, be discharged for the convenience of the Government.

(b) Students under contract with the Government will, with the approval of the army commander, be discharged for the convenience of the Government if their attendance at the ROTC institution is interrupted by a period of more than two calendar years before completing the final term or semester of ROTC instruction under the agreement.

(c) Students under contract who have become physically disqualified will, with the approval of the army commander, be discharged for the convenience of the Government.

(d) Students under contract who have failed to demonstrate that further instruction will qualify them for appointment in the Organized Reserve Corps will, with the approval of the army commander, be discharged for the convenience of the Government.

(e) Students under contract will not be discharged from the ROTC prior to graduation therefrom to accept a commission in the National Guard or Organized Reserve Corps nor be excused from his contracted attendance at an ROTC camp to attend a National Guard or Organized Reserve Corps camp in lieu thereof.

(f) Army commanders are authorized to adjust cases involving the withdrawal of members of the ROTC from, or return to, advanced course contracts upon the merits of the individual case. Except when withdrawal from the contract is for the convenience of the Government, the student should be required to refund to the Government any sums previously paid to him as commutation of subsistence.

(g) The withdrawal of a student under contract from the institution terminates his obligation to continue the ROTC training unless he later returns to the institution or enrolls in another institution which maintains a senior division, ROTC unit, in which case he will be required to fulfill the provisions of his contract.

§ 562.24 *Utilization of graduates of scientific and technical courses.* Since it is not practicable to maintain units of all the many branches at most colleges and universities, provision is made for graduate students in scientific and technical courses whose services will be needed and who will wish to be commissioned in branches not represented by units on their campuses. The Department of the Army will make provision for such advanced students to attend an ROTC camp of the appropriate branch and will tender such students, if otherwise qualified, a commission in the appropriate branch within quota limitations.

§ 562.25 *Eligibility of certain graduates for appointment to service academies* — (a) *United States Military Academy*—(1) *General.* In accordance with the provisions of the act of Congress approved July 9, 1918 (40 Stat. 894; 10 U. S. C. 1091b), as amended, honor graduates of educational institutions of the essentially military type which, for the academic year of their graduation, have been awarded the rating of "military-school honor ROTC unit" (formerly referred to as "honor military schools") by the Department of the Army as prescribed in subdivision (i) of this subparagraph, may be appointed as candidates for admission to the United States Military Academy.

(i) *Military-school honor ROTC unit.* Following the annual inspection by the Department of the Army of educational institutions of the essentially military type having officers of the Regular Army detailed thereat as professors of military science and tactics, the rating military-school honor ROTC unit is awarded by the Department of the Army to those institutions which have maintained an exceptionally high standard of military training and discipline during the school year. This rating is effective only for the academic year following that in which made.

(ii) *Honor graduate.* A member of each graduating class of an institution which has been awarded the military-school honor ROTC unit rating may be designated as "honor graduate" by the concerted action of the school's superintendent and the professor of military science and tactics. To be eligible for the designation of "honor graduate," the student must meet all of the following requirements:

(*a*) Be a graduate of an academic year in which the institution was awarded the military-school honor ROTC unit rating or of the academic year following such award. The institution may nominate a graduate of a former calendar year provided the institution received the award within the academic year in which the nominee graduated. An undergraduate may also be nominated provided he is in his senior year and the record of his academic, extracurricular, and ROTC activities justifies the assumption that he will fully meet all requirements of (*a*) through (*f*) of this subdivision upon his graduation.

(*b*) Have been a member of the ROTC for at least 3 years while at the school from which nominated.

(*c*) Have shown proficiency in not less than 15 units in subjects prescribed for admission to the United States Military Academy.

(*d*) Have graduated within the upper third of his class in academic standing.

(*e*) Have demonstrated in his academic, extra-curricular, and ROTC activities that he possesses outstanding qualities of leadership, character, and aptitude for the military service.

(*f*) Be a citizen of the United States and meet all other requirements of law and regulation prescribed for admission to the United States Military Academy (which appear in the Catalog of information, United States Military Academy, West Point, New York, available upon request to The Adjutant General, Washington 25, D. C., Attention: AGSO–M).

(2) *Nomination of honor graduates.* Each institution awarded the rating of military-school honor ROTC unit by the Department of the Army may nominate annually not to exceed three honor graduates of that academic year for appointment as candidates to compete for admission to the United States Military Academy. Shortly after July 1, each year The Adjutant General will invite such institutions to submit the nominations of candidates and will provide copies of AGO Form 0866 (nomination from Honor School) for this purpose. Each nomination must include the certification of the school's superintendent and professor of military science and tactics that the nominee meets the requirements of subparagraph (1) (ii) of this paragraph.

(3) *Appointment of honor graduates.* Each candidate nominated as indicated above will be issued a letter of appointment by The Adjutant General authorizing him to undergo the regular entrance examination which is held, beginning the first Tuesday in March each year. All such candidates will compete among themselves at that examination, and the available vacancies in the Corps of Cadets at the United States Military Academy allotted by law to institutions awarded the military-school honor ROTC unit rating will be given to those candidates making the highest proficient averages in the competitive examination without regard to the institution from which appointed.

(b) *United States Naval Academy.* In accordance with the provisions of the act of Congress approved June 6, 1941 (55 Stat. 246; 34 U. S. C. 1033a), honor graduates of educational institutions of the essentially military type which have been awarded the military-school honor ROTC unit rating (formerly referred to as "honor military schools") by the Department of the Army may be appointed as candidates for admission to the United States Naval Academy. Information concerning the manner of selection, appointment, qualification, and admission of such candidates may be obtained from the Chief of Naval Personnel, Department of the Navy, Washington 25, D. C.

§ 562.26 *Eligibility for membership of active or Reserve personnel of the Armed Forces.* (a) A student holding a certification for appointment as a reserve officer or a student formerly commissioned in the Organized Reserve Corps will not be enrolled in the ROTC without the express authority of the area commander in each case, and then only in a unit of an arm other than that in which he is certified for appointment or was formerly commissioned, as the case may be.

(b) No active member of the Army, Navy, Air Force, Marine Corps, or Coast Guard of the United States may be formally enrolled in the ROTC.

(c) No commissioned officer or former commissioned officer of the Army or Air National Guard, Naval Militia, United States Coast Guard Reserve, or Reserve or former AUS officer of any of the military or naval forces of the United States is eligible for membership in the ROTC, except that a Reserve or National Guard officer of the Army or Air Force who is a regularly enrolled student of a medical school at which there is established a Medical Department ROTC unit may be enrolled in that Medical Department ROTC unit.

(d) Members of the Army Enlisted Reserve Corps or enlisted members of the Army National Guard are eligible for membership in the ROTC provided they are otherwise qualified.

(e) When acceptable to institutional authorities, enlisted members and warrant officers of the Air National Guard, Air Force Reserve, Naval or Marine Corps Reserve, Naval Militia, or Coast Guard Reserve who are otherwise qualified may be enrolled in the basic course of the ROTC on the same basis as any other eligible member of the student body. Enlisted members and warrant officers of the Air National Guard, Air Force Reserve, Naval or Marine Corps Reserve, Naval Militia, or Coast Guard Reserve will not be formally enrolled in the advanced course of the senior division, ROTC, unless or until formally separated from their current status, but may be permitted at the discretion of the professor of military science and tactics to pursue the course under § 562.27 at no expense to the Government.

(f) These policies will not be used to effect the discharge of any student from the advanced course of the ROTC who was properly enrolled under the provisions of regulations in effect at the time of the student's enrollment.

§ 562.27 *Training of students ineligible for enrollment.* (a) When desired by institutional authorities, students who for any reason cannot be enrolled in the ROTC may be permitted to pursue the ROTC course without expense to the Government. Such students, if subsequently enrolled in the ROTC, may be granted credit, applicable toward advanced standing for that portion of the course successfully completed while in attendance under the provisions of this section.

(b) Such students will be reported separately under "Remarks" in enrollment reports, and will not be charged against the enrollment allotment. They will not receive monetary allowances or be issued Government uniforms or commutation therefor, but may use the arms and equipment issued to the institution.

(c) A student may be commissioned in the Organized Reserve Corps if the obstruction which prevented the student from formally enrolling in the ROTC course is removed and if he is:

(1) Physically and otherwise qualified.

(2) Recommended by the professor of military science and tactics.

(3) Approved by the institutional authorities.

§ 562.28 *Programs, content, and objectives of courses.* The content and objectives of the ROTC courses of instruction of the various arms and services are governed by the provisions of the respective programs of instruction published by the Department of the Army.

(a) *Senior division.* The senior division, ROTC, program will consist of the following two courses: The basic course conducted at class MC, CC, MJC, and MI institutions, and the advanced course, with camp, conducted at class MC, CC, and MJC institutions.

(1) The first year basic course will consist of a minimum of 3 hours per week of formal instruction of a general type applicable to the Army as a whole and will not be specialized by arm, service, or major force. The course will be of the same general scope and content regardless of the class of institution at which it is conducted. The second year basic course and the subjects in each branch are provided for in the appropriate program of instruction. There is no authority under the law to compress or curtail the basic course.

(2) The advanced course will consist of a minimum of 5 hours per week of formal military instruction, principally of a specialized type applicable to the arm or service concerned, and will extend over a period of not less than two academic years except where compressed or curtailed in exceptional individual cases under the provisions of § 562.29 (b).

(3) The advanced camp will consist of practical and theoretical military instruction principally of a specialized type and will be of 6 weeks' duration. Students normally will attend the ROTC camp between the two academic years of the advanced course. See §§ 562.58 to 562.69 for information pertaining to the summer camp.

(b) *Junior division.* The junior division, ROTC, will consist of the junior course only and will be conducted in whole at class MS and HS institutions, and may be conducted in whole or in part at class MJC and class MI institutions with Department of the Army approval. While it is not contemplated that officers of the Reserve component will be procured without additional training from institutions operating on the preparatory school level, the Department of the Army will encourage and continue to furnish assistance to students in the junior division, ROTC, in high schools and other secondary schools prior to their undertaking further military training.

(1) The junior course at MS institutions will consist of 3 hours per week of formal military instruction of a general type nature, for not more than four academic years.

(2) Military training at a class HS institution will comprise a 3-year course of theoretical and practical instruction, consisting of 3 hours per week.

(3) The junior course will be approximately equivalent in scope to the first year of the basic course, senior division, ROTC, and will entitle the student, upon transfer, to such credit as may be determined by the professor of military science and tactics and the head of the institution concerned.

(4) The Department of the Army will continue to encourage the holding of summer camps by units of the junior division, ROTC, provided the camps are held without expense to the Government.

§ 562.29 *Curtailment of courses.* (a) There is no authority under the law to compress or curtail the basic course into less than two academic years.

(b) The army commander is authorized to approve applications for curtailment of the advanced course when all the following conditions exist:

(1) When the student will be eligible for graduation from the institution before sufficient time shall have elapsed to enable him to complete the regular advanced course.

(2) When the student has completed or agrees to complete all theoretical (classroom) subjects in the advanced course without reduction of the scope prescribed in the program of instruction, and subject to written examination in all subjects, under the supervision of the professor of military science and tactics.

(3) When the student agrees to attend the advanced course camp.

(4) When the student, in the opinion of the professor of military science and tactics, possesses exceptional aptitude for leadership and capacity for completing the course in the time available.

(c) Notwithstanding the granting of authority for a curtailment of the course, the student will not be recommended for appointment in the Organized Reserve Corps unless, on graduation from the institution, he has fulfilled all the conditions prescribed and has in fact demonstrated his qualifications for commission.

(d) A curtailment of the course will not be authorized in the case of any student who was eligible for enrollment in the advanced course two or more years prior to the date of his graduation from the institution.

§ 562.30 *Election of courses.* Students electing the ROTC courses do so for only 2 years at a time. The first election is for 2 years' basic course, after which, if the student is recommended for further training, he may elect the advanced course. Completion of the advanced course is a requirement of the student's contract and a requirement for academic graduation by virtue of the fact that the institution has, pursuant to section 40a, National Defense Act (39 Stat. 191; 10 U. S. C. 385), as amended, agreed to adopt into its curriculum the course of instruction (advanced course) prescribed by the Secretary of the Army, which, once entered upon by the student, is, under the terms of his contract, a required part of his institutional course.

§ 562.31 *Admission to advanced course.* When any member of the senior division of the ROTC has completed two academic years of the course in that division and has been selected by the head of the institution and the professor of military science and tactics for advanced training, he may be admitted to the advanced course of the senior division within the limits of the enrollment quota allotted to the institution.

§ 562.32 *Contracts and emoluments*—(a) *Advanced course, senior division.* (1) An individual contract will be executed between the Government and each student enrolled in the advanced course of the senior division, ROTC, by which the student, in consideration of commutation of subsistence to be furnished him in accordance with law, agrees to complete the advanced course at the institution in which he is enrolled or any other institution where he may hereafter be enrolled where such course is given, to devote 5 hours per week during such period to the military training prescribed, and to pursue the courses of camp training during such period as prescribed by the Secretary of the Army. Formally enrolled students of the advanced course will be paid a monetary allowance monthly in lieu of subsistence at a daily rate specified by the Department of the Army for a total period not in excess of 595 days in the case of any student. This allowance will not be paid during the period of the advanced ROTC camp, whether or not attended by the student, except to those advanced students who, in consequence of an accelerated summer program, are pursuing regularly scheduled institutional ROTC instruction during that period.

(2) Enrollment in the advanced course will normally take place at or before the beginning of the school year, semester, term, or quarter following the completion of the basic course, and the students enrolled will, under the terms of their contracts, normally pursue the course continuously to completion so long as they continue as students at the institution. Upon the recommendation of the professor of military science and tactics and the concurrence of the heads of institutions, professors of military science and tactics are authorized to defer enrollment in the advanced course in the case of students who, at the time of becoming eligible for enrollment in the advanced course, will normally require more than 2 years to complete their academic courses. Similarly they may authorize deferments of unexecuted portions of advanced course contracts in the case of students who would otherwise complete the advanced course at a period antedating their academic graduation. Such deferments will extend only until

the beginning of such period as will permit the student to complete the advanced course without curtailment. In no case will a deferment be granted which would result in a curtailment of the advanced course or a contraction of the course into a period of less than 2 years. No student in whose case a deferment has been granted and who fails to apply for enrollment in the advanced course in sufficient time to complete the course without curtailment will be accepted.

(3) No deferment of any portion of the advanced course at institutions beyond the date of graduation from the academic course which the student is pursuing will be authorized. Students in postgraduate or professional courses who completed the basic course of any arm or service as undergraduates may be authorized to enroll in the advanced course of any appropriate arm or service at any time prior to the commencement of the last 2 years of their courses.

(b) *ROTC camp.* Students attending ROTC camp will receive subsistence and quarters in kind, and will be paid at the rate prescribed for soldiers of the E–1 grade.

(c) *Basic course, senior division.* No contract will be executed between the Government and students admitted to the basic course, senior division, ROTC.

(d) *Junior division.* No contract will be executed between the Government and students admitted to the junior division, ROTC. A student who satisfactorily completes the junior division, ROTC, will be given a military training certificate signed by the head of the institution and the professor of military science and tactics. Such a certificate, based on qualification tests, not only serves as an incentive but also provides the student a basis for credit should he continue his military training in the senior division, ROTC.

§ 562.33 *Credit for previous military service or ROTC training.* Students who have had previous military service or training will receive such credit toward completion of the two academic years of training in the senior division required for admission to the advanced course as the professor of military science and tactics and the head of the institution may jointly determine within the following limits:

(a) For previous honorable active service in the Army, Navy, Air Force, Marine Corps, or Coast Guard of—

(1) Twelve months or more, credit not to exceed the entire basic course of the senior division, ROTC.

(2) Six months or more, credit not to exceed the first year of the basic course of the senior division, ROTC.

(3) Less than 6 months, no credit.

(b) Credit cited in paragraph (a) of this section is to be granted where the previous service or training is substantially equivalent to that part of the basic course for which credit is given, but in no case will it exceed those limits shown.

(c) The privilege of granting credit will not be exercised indiscriminately, but will be restricted for the most part to the cases of those students who have an academic standing in advance of their ROTC standing.

(d) For previous training at the United States Military Academy, the United States Naval Academy, the United States Coast Guard Academy, and in the Naval Reserve Officers' Training Corps, equivalent credit not to exceed the entire basic course of the senior division, ROTC, will be given, except for the following: Army commanders are authorized to grant additional credit and to curtail the period of the advanced course, senior division, ROTC, in those cases where a student has completed more than two academic years of training in the Army, Navy, or Coast Guard academies, and in the Naval Reserve Officers' Training Corps, and who at the time of admission into the advanced course, senior division, ROTC normally would require less than two academic years to complete all other requirements for graduation as shown in paragraph (e) of this section.

(e) No credit will be granted for training completed more than 5 years prior to formal enrollment or for training received when the student was less than 14 years of age.

§ 562.34 *Credit for training.* (a) A member of the ROTC who withdraws from an institution and enters another in which a unit of the ROTC of the same division is maintained and who is eligible to enroll therein under the regulations of the institution (and, in the case of an advanced course student, is duly selected therefor) will be given credit, if he does enroll therein, for that part of the course successfully completed in the first institution.

(b) When a unit is withdrawn from an institution at which other units are maintained, members of the unit withdrawn may transfer to one of the remaining units of the institution and may be commissioned on graduation in the section of the Organized Reserve Corps for which their entire training best qualifies them.

(c) A certificate substantially as follows will be prepared by the professor of military science and tactics of the school an ROTC student enters, upon transfer from another institution conducting an ROTC course, before he has completed the advanced course and after he has received commutation in lieu of uniform. This certificate is to be forwarded to the institution from which the student has transferred.

I certify that the uniform procured by ---------- on a commutation
(Name of institution)
basis for ---------- is now in
(Name of student)
use at this institution where the student is enrolled in the ---------- semester advanced course, senior division, ROTC. I further certify that a certificate of completion, or noncompletion, of the advanced course by said student will be furnished at the appropriate time for proper settlement of this account.

(d) No reimbursement to the Government of the unearned portion of the commutation of uniforms is required, if the student's enrollment in the ROTC is terminated under any of the following conditions:

(1) Discharged solely because of physical disqualification not the result of his own misconduct, which is incurred or discovered subsequent to initial enrollment in the junior, basic, or advanced course, as applicable.

(2) Discharge or withdrawal to enter the active service of any of the armed forces.

(3) Withdrawal from the institution for reasons not under his control, as determined by the professor of military science and tactics.

(4) Transfer to another institution at which no ROTC unit of the same branch is maintained.

(5) For the convenience of the Government.

§ 562.35 *Transfer between Army and Air Force ROTC and between medical ROTC and all other types of ROTC units.* (a) The joint policy of the Department of the Army and the Department of the Air Force permits Army and Air Force commanders to approve requests for transfers as follows:

(1) *Army ROTC to Air Force ROTC and vice versa.* Where the professors of military and air science and tactics concerned are in mutual agreement on the requested transfers and the academic requirements are met where applicable.

(2) *Medical ROTC to other Army ROTC units or Air Force ROTC.* Transfers may be authorized if the student is otherwise qualified. However, no credit will be given for previous medical ROTC training.

(3) *Army ROTC and Air Force ROTC to medical ROTC.* If the student transfers his academic subjects to the field of medicine, the student may receive hour for hour credit on a subject for subject basis for previous ROTC training, as the professor of military science and tactics of the medical unit shall determine.

(b) The student requesting a transfer will submit his application to the professor of military science and tactics or the professor of air science and tactics of the branch in which he is enrolled. The application will be forwarded with an appropriate indorsement by the professor of military or air science and tactics to the commanding general of the army or the numbered air force concerned dependent upon the service in which the student is enrolled. If the transfer is approved by such commander, he will forward it direct to the appropriate numbered air force or army commander having jurisdiction over the unit to which transfer is requested. In all cases the request for transfer will be returned to the student through the professor of military or air science and tactics of origin, with the appropriate action indicated thereon.

§ 562.36 *Hours of instruction*—(a) *General.* An "hour" in the program of instruction represents the customary academic hour of 50 minutes.

(b) *Number required.* The minimum number of hours of ROTC instruction required to be given in the basic course is an average of 3 hours per week, and in the advanced course, 5 hours per week, with the exception that the minimum

required number of hours for medical, dental, veterinary, and pharmacy units is 90 hours per annum in both the basic and the advanced courses. Time spent in preparation for instruction will not be counted in satisfaction of this requirement.

(c) *Distribution.* With the approval of the army commander the required hours of instruction may be distributed throughout the year in accordance with the conditions existing at the particular institution.

§ 562.37 *Courses of instruction (junior division)*—(a) *Essentially military school units (class MS).* Junior division training in essentially military school units will consist of a 4 years' course of theoretical and practical instruction corresponding to the four highest academic years in the institution. Its scope will include training equivalent to the basic course, Infantry units, senior division, supplemented by appropriate subjects from the advanced course. The program of instruction covering the above 4 years' course is published by the Department of the Army.

(b) *High school units and junior units established in other institutions (class HS).* Military training at institutions maintaining junior units, other than essentially military schools, comprises a 3 years' course of theoretical and practical instruction substantially equivalent in scope to the basic course of infantry units, senior division. The program of instruction covering this 3 years' course is published by the Department of the Army.

(c) The junior ROTC program of instruction (class HS) normally will be conducted at high schools during the last three academic years. Army commanders are authorized, however, to permit institutional authorities to conduct the course during the first three academic years when local conditions justify this procedure and when so requested by the institutional authorities.

§ 562.38 *Academic credit*—(a) Academic credit toward the granting of a degree should be granted for the completion of military courses on the same basis as for nonmilitary courses conducted at the same level.

(b) Credit in ROTC courses for instruction received in the nonmilitary departments of the institution will be limited to that authorized by the Department of the Army.

§ 562.39 *Absence from instruction.* Absence from training or instruction will be excused only for sickness, injury, or other exceptional reasons. Any student who is absent from any part of the practical or theoretical instruction will be required, according to the practice at the particular instituton, to make up the instruction missed thereby before being credited with completion of either the basic or advanced course.

§ 562.40 *Military training certificates*—(a) *Senior division.* Military training certificates may be issued by professors of military science and tactics and heads of institutions, at their discretion, to students who complete certain phases of the senior division course, as indicated in subparagraphs (1), (2), (3) of this paragraph.

(1) *DA AGO Form 133 (Military Training Certificate—ROTC (Elementary Course Senior Division)).* For successful completion of the basic course, ROTC, together with 2 years of academic work on a college level.

(2) *WD AGO Form 136 (Military Training Certificate-Advanced Course Senior Division).* For successful completion of the senior division course, ROTC, at a class MJC institution, together with 2 years of academic work on a college level.

(3) *DA AGO Form 134 (Military Training Certificate, Reserve Officers Training Corps).* Upon termination of the basic course, senior division, at the completion of one academic year.

(b) *Junior units.* A DA AGO Form 134 will also be issued by the professor of military science and tactics to each student enrolled in a junior unit of the ROTC upon the termination of his instruction therein.

§ 562.41 *Grading.* A system of grading similar to that in force in other departments of the institution will be maintained by the Department of Military Science and Tactics.

§ 562.42 *Band.* (a) Participation in authorized ROTC bands is limited to regularly enrolled ROTC students, except that army commanders may at their discretion waive this provision to allow students other than those regularly enrolled in ROTC units to participate in ROTC bands. Students other than those regularly enrolled in the ROTC cannot be issued uniforms or commutation therefor, although they are allowed to participate in ROTC band activities.

(b) All ROTC students who are members of ROTC bands will be excused from such participation for training periods scheduled for close-order drill and military ceremonies only on occasions when the band attends as a military unit.

APPLICATION FOR ESTABLISHMENT OF ROTC UNIT

§ 562.43 *Application for establishment of ROTC unit.* The following form of application for establishment of an ROTC unit (senior and junior divisions) will be used as prescribed in § 562.15.

APPLICATION FOR ESTABLISHMENT OF RESERVE OFFICERS' TRAINING CORPS UNIT (SENIOR AND JUNIOR DIVISIONS)

---------- , 19 ----

Subject: Application for the Establishment of a Reserve Officers' Training Corps Unit.

To: The Adjutant General, Washington 25, D. C.

Thru: Commanding General, ----------
Army, ----------
Chief, Army Field Forces, Fort Monroe, Virginia.

1. By direction of the governing authorities of ----------

(Name of institution) (City) (State)
an application for the establishment of ----------[1] unit in the senior (or junior)[2]

[1] Indicate branch when application for a senior unit is submitted.

[2] Strike out word or words not applicable.

division of the Reserve Officers' Training Corps at this institution is hereby submitted.

2. Provided this application is accepted by the President, the authorities of this institution hereby agree to—

a. Establish a Department of Military Science and Tactics as an integral academic and administrative department of the institution.

b. Establish and maintain (1) a basic course of military training of not less than two academic years' duration, enrollment in which shall be (required) (elective)[2] on the part of all physically fit male undergraduate students who are not less than 14 years of age, and (2) an advanced course of military training extending throughout the remainder of the period of the normal undergraduate course, enrollment in which shall be elective on the part of those students who may be selected therefor by the head of the institution and the professor of military science and tactics; and to require that each student who shall have been enrolled in either course shall complete that course as a prerequisite for his graduation from the institution, unless he is excused from this requirement by authority of the Secretary of the Army.

c. Allot a minimum of an average of 3 hours per week to military training and instruction as prescribed by the Secretary of the Army for each year of the basic course.

d. Arrange for 5 hours per week for military training and instruction as prescribed by the Secretary of the Army for each year of the advanced course, except for medical, dental, pharmacy, or veterinary units, for which 3 hours per week will be arranged.

e. Endeavor to promote and further the objectives of the Reserve Officers' Training Corps.

f. Make available to the Department of Military Science and Tactics the necessary classrooms, administrative offices, office equipment, storage space, and other required facilities in a fair and equitable manner in comparison with other departments of the institution, and to furnish annually to The Adjutant General, without cost, three copies of the current school catalog.

g. Grant academic credit applicable toward graduation for successful completion of each semester, quarter, or term of the military course at the rate of ------ credits per ---------- of the basic course, and ------ credits per ---------- of the advanced course.

h. Arrange for the scheduling of military classes in such manner as to make it equally convenient for students to participate in the Reserve Officers' Training Corps as to pursue courses conducted by other departments of the same educational level and to include on all faculty committees whose recommendations would directly affect the Department of Military Science and Tactics representation designated by the professor of that Department.

i. Conform to the regulations of the Secretary of the Army relating to issue, care, use, safekeeping, and accounting for such Government property as may be issued to the institution.

j. Comply with the provisions of law and regulations of the Secretary of the Army pertaining to the furnishing of a bond to cover the value of all Government property issued to the institution, except clothing, expendable articles, and articles specifically exempted.

k. Appoint or designate by resolution or in bylaws, whichever may be countenanced by statutes or approved methods of procedure governing the institution, an officer of the institution to be known as a military property custodian who will be empowered to requisition, receive, stock, and account for Government property issued to the institution and otherwise to transact matters pertaining thereto, for and in behalf of the institution.

3. It is understood, provided the unit hereby applied for is authorized, that the Secretary of the Army will—

a. Assign such military personnel as he may deem necessary for the proper administration and conduct of the Reserve Officers' Training Corps; but prior to assignment will afford the authorities of this institution an opportunity to review the qualifications of the Army officers being considered for assignment to the institution.

b. Reserve the right to relieve at any time any Army personnel assigned to this institution.

c. Issue to the institution, at the expense of the Government, upon receipt of properly executed requisitions from the military custodian, such available Government property as may be authorized by applicable tables of allowances and pay at the expense of the Government the cost of transportation, packing, crating, and normal maintenance of such property exclusive of cost involved in the storage of such property at the institution.

d. Pay at the expense of the Government and subject to appropriate regulations, commutation in lieu of subsistence at the current prescribed rate, to formally enrolled members of the advanced course, Reserve Officers' Training Corps.

e. Pay at the expense of the Government and subject to appropriate regulations, commutation in lieu of the issue of Government uniform clothing at the currently prescribed rate or rates on behalf of formally enrolled members to whom suitable uniform clothing is not issued at the expense of the Government.

4. The authorities of this institution understand that the law requires, as conditions precedent to the establishment and maintenance of the desired Reserve Officers' Training Corps unit, that—

a. Membership in the Reserve Officers' Training Corps is limited to students of the institution who are citizens of the United States of not less than 14 years of age and whose bodily condition indicates that they are physically fit to perform military duty or will be so upon arrival at military age.

b. The institution must maintain under military training in each unit of the Reserve Officers' Training Corps a minimum of 100 physically fit male students, except that in the case of units other than infantry, cavalry, or artillery the minimum number shall be 50.

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

MISCELLANEOUS AMENDMENTS

a. In § 127.20 *Air mail service* (39 CFR 127.20; 14 F. R. 2644, 3353, 6133; 15 F. R. 1461, 2037) amend paragraph (i) by inserting "Pakistan" between "Norway" and "Philippines".

b. In § 127.210 *Austria* (39 CFR 127.210) amend paragraph (b) (4) by the addition of subdivisions (iii), (iv), and (v) to read as follows:

(iii) Addressees must produce Austrian import licenses in order to take delivery of gift parcels exceeding 300 schillings in value, and of all commercial parcels.

(iv) The wrappers and customs declarations of gift parcels must be marked "Gift Parcel".

(v) Tobacco products which one addressee is permitted to receive are limited to 200 cigarettes, 50 cigars, or 15 grams (5¼ oz.) of tobacco per month.

c. In § 127.216 *Belgium* (39 CFR 127.216) amend paragraph (b) (6) by the addition of inferior subdivision (c) to subdivision (iv) to read as follows:

(c) New or used postage stamps (admitted only in letters).

d. In § 127.225 *Bulgaria* (39 CFR 127.225; 15 F. R. 1842) amend paragraph (a) (8) to read as follows:

(8) *Prohibitions.* (i) Coins, manufactured or unmanufactured platinum, gold or silver, precious stones, jewelry, and other precious articles.

Column 1	Column 2

2. Amend paragraph (b) (6) to read as follows:

(6) *Prohibitions.* (i) The importation of many types of merchandise into Canada is either entirely prohibited or admitted only under quotas administered by the Canadian Department of Finance or by special permission of the Department of Trade and Commerce at Ottawa.

(ii) An exception is made in the case of occasional parcels containing gifts not exceeding $25 in value for individuals, and parcels containing wedding gifts regardless of value. Such parcels are exempt from the import restrictions, if the Canadian customs authorities are satisfied that they actually contain gifts as claimed, but the regular Canadian customs duty and taxes will be charged on any of the contents of occasional gifts which exceed $5 in value, and on any tobacco products or advertising matter.

(iii) Before mailing any package or parcel to Canada, senders should ascertain that the contents will be admitted, and must endorse the wrapper "Importation into Canada authorized", "Bona fide gift", or "Wedding gift" as the case may be.

(iv) Interested patrons may obtain further information concerning articles whose importation is prohibited or restricted from the Canadian government departments named above, from the Office of International Trade, Department of Commerce, Washington 25, D. C., or from any field office of that Department.

(ii) The importation of postage stamps is restricted in accordance with Bulgarian regulations. Persons desiring to send stamps should consult the addressees to assure compliance with those regulations.

e. In § 127.227 *Canada* (39 CFR 127.227) make the following changes:

1. Amend subdivision (xiii) of paragraph (b) (3) to read as follows:

(xiii) When a Form 2855 is to be sent to Canada, first determine in what Canadian Province the post office of address is located. The name of the Province involved should then be located in column 1 of the following list and opposite it, in column 2, will be found the address of the Canadian District Post Office Inspector having jurisdiction over that Province:

f. In § 127.228 *Cape Verde Islands* (39 CFR 127.228) amend paragraph (b) to read as follows:

(b) *Parcel post* (i) Surface parcels.

TITLE 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

[CGFR 50-16]

INSPECTION AND NAVIGATION

MISCELLANEOUS AMENDMENTS TO CHAPTER

The purpose of these miscellaneous amendments is to effect editorial changes in the regulations. In accordance with the Administrative Procedure Act (5 U. S. C. 1003) notice of proposed rule making, public procedure thereon, and publication thirty days prior to its effective date are found impracticable and contrary to the public interest because the amendments are to correct errors, change titles of enforcing officers, transfer regulations from one part to another to provide a better presentation of requirements, and to clarify certain requirements applicable to the public.

The regulations in Part 138, regarding shipment and discharge of seamen, are transferred to Part 14 and the sections reprinted so that the requirements will be easy to identify. The following tables indicate the relationship between the old and new section numbers.

By virtue of the authority vested in me as Commandant, United States Coast Guard by R. S. 4405, as amended, 46 U. S. C. 375, and section 101 of Reorganization Plan No. 3 of 1946 (11 F. R. 7875, 60 Stat. 1097, 46 U. S. C. 1), as well as the additional authorities cited with the regulations below, the following amendments to the regulations are prescribed and shall become effective on the date of publication of this document in the FEDERAL REGISTER:

Subchapter B—Merchant Marine Officers and Seamen

PART 10—LICENSING OF OFFICERS AND MOTORBOAT OPERATORS AND REGISTRATION OF STAFF OFFICERS

SUBPART 10.15—LICENSING OF OFFICERS FOR UNINSPECTED VESSELS

Section 10.15-1 is amended by deleting reference to R. S. 4463 (46 U. S. C. 222) so that the section will read as follows:

§ 10.15-1 *Applicability of laws.* All the provisions of R. S. 4131, 4250, 4403, 4405, 4438, 4439, 4440, 4441, 4445, 4446, 4447, 4448, 4449, 4450, as amended, sec. 2, 23 Stat. 118, sec. 2, 29 Stat. 188, sec. 1, 34 Stat. 1411, sec. 3, 40 Stat. 549, and sec. 5, 49 Stat. 1935; 46 U. S. C. 221, 224, 225, 226, 227, 228, 229, 231, 232, 233, 234, 235, 237, 239, 250, 372, 375, 672a; referring to the issuance, duration, renewal, suspension or revocation of licenses of masters, mates, chief engineers and assistant engineers, and the provisions of the following regulations in this subpart shall be applicable to all uninspected vessels to which the Officers' Competency Certificates Convention, 1936, and the act approved July 17, 1939 (R. S. 4438a; 53 Stat. 1049; 46 U. S. C. 224a) making effective the provisions of the Convention apply.

(R. S. 4405, 4462, as amended, sec. 2, 29 Stat. 188, as amended, secs. 1, 2, 49 Stat. 1544, sec. 7, 53 Stat. 1147, sec. 17, 54 Stat. 166, sec. 5, 55 Stat. 244, as amended; 46 U. S. C. 375, 416, 225, 367, 247, 526p, 166, 50 U. S. C., App., 1275)

PART 12—CERTIFICATION OF SEAMEN

SUBPART 12.05—ABLE SEAMEN

Section 12.05-7 is amended by inserting additional descriptive words regarding service required so that the section will read as follows:

§ 12.05-7 *Service or training requirements.* (a) The minimum service or training required to qualify an applicant for certification and the various indorsements as able seaman is listed in this paragraph:

(1) *High seas and inland waters*—(i) *"Any waters—unlimited."* 3 years' service on deck in vessels of 100 gross tons or over operating on ocean or coastwise routes or on the Great Lakes.

(ii) *"Any waters—unlimited."* The period of time spent by an applicant successfully completing a course of able seaman's training in a training school approved by the Commandant may be accepted as the equivalent of sea service up to a maximum of 1 year of the 3 years required in subdivision (i) of this subparagraph.

(iii) *"Any waters—unlimited."* Satisfactory completion of 18 months' training in a seagoing training ship approved by the Commandant.

(iv) *"Any waters—12 months."* 12 months' service on deck in vessels of 100 gross tons or over operating on ocean or coastwise routes or on the Great Lakes. (Holders of certification under this provision are limited to one-fourth of the number of able seamen required by law to be employed on a vessel.)

(v) *"Any waters—12 months."* Satisfactory completion of a course of training at a U. S. Maritime Service Training Station of at least 9 months, 6 months of which shall have been served aboard a seagoing training vessel. (Holders of certification under this provision are limited to one-fourth of the number of able seamen required by law to be employed on a vessel.)

(2) *Great Lakes and inland waters*—(i) *"Great Lakes—18 months' service."* 18 months' service on deck in vessels of 100 gross tons or over operating on ocean or coastwise routes, or on the Great Lakes, smaller lakes, bays, or sounds. (Holders of certification under this provision may comprise the required number of able seamen on vessels on the Great Lakes and on the smaller lakes, bays, and sounds.) If the seaman possesses the requisite service for certification under subparagraphs (1) (iv) of this paragraph, there shall be added "any waters—12 months."

(3) *Tugs and towboats*—(i) *"Tugs and towboats—any waters."* 18 months' service on deck in vessels operating on ocean or coastwise routes, or on the Great Lakes, or on the bays and sounds connected directly with the seas.

(4) *Bays and sounds*—(i) *"Bays and sounds—12 months, vessels 500 gross tons or under not carrying passengers."* 12 months' service on deck in vessels operating on ocean or coastwise routes, or on the Great Lakes, or on the bays and sounds connected directly with the seas.

(5) *Barges*—(i) *"Seagoing barges—12 months."* 12 months' service on deck in vessels operating on ocean or coastwise routes, or on the Great Lakes, or on the bays and sounds connected directly with the seas.

(R. S. 4405, 4417a, 4488, 4551, as amended, sec. 13, 38 Stat. 1169, as amended, secs. 1, 2, 49 Stat. 1544, sec. 7, 49 Stat. 1936, sec. 1, 52 Stat. 753, 55 Stat. 579; 46 U. S. C. 375, 391a, 481, 643, 672, 367, 689, 672b, 672-1, 672-2)

PART 14—SHIPMENT AND DISCHARGE OF SEAMEN

Chapter I, Subchapter B, is amended by adding a new Part 14, reading as follows:

SUBPART 14.01—GENERAL

Sec.
14.01-1 Employment of seamen whose citizenship has not been established.
14.01-10 Reporting loss or recovery of continuous discharge book, certificate of identification, or certificate of discharge.

SUBPART 14.05—SHIPPING ARTICLES

14.05-1 Preparation and number of copies of shipping articles.
14.05-5 Paying off seamen during voyage.
14.05-10 Completing entries in shipping articles at completion of voyage.
14.05-15 Production of documents by seamen signing shipping articles.
14.05-20 Master reporting shipping and discharging of seamen on Form CG 735-T.

SUBPART 14.10—DISCHARGING SEAMEN

14.10-1 Entries in continuous discharge book.
14.10-5 Entries in certificate of discharge.
14.10-10 Discharging a seaman in a foreign port.
14.10-15 Certificate of discharge issued pending issuance of duplicate continuous discharge book.
14.10-20 Discharge of seamen in special cases.

AUTHORITY: §§ 14.01-1 to 14.10-20 issued under R. S. 4551, sec. 7, 49 Stat. 1936, as amended; 46 U. S. C. 643, 683, 689.

SUBPART 14.01—GENERAL

§ 14.01-1 *Employment of seamen whose citizenship has not been established.* Seamen whose continuous discharge books, certificates of identification or merchant mariner's documents show question marks with reference to place of birth and/or citizenship shall not be considered as citizens of the United States in computing the number of citizens required by statute to be employed in the crew of a vessel.

§ 14.01-10 *Reporting loss or recovery of continuous discharge book, certificate of identification, or certificate of discharge.* Wherever a continuous discharge book, certificate of identification, or certificate of discharge is reported to a shipping commissioner, collector of customs, or an Officer in Charge, Marine Inspection, as having been stolen, lost, or destroyed, the shipping commissioner, collector of customs, or Officer in Charge, Marine Inspection, shall immediately report the fact by letter to the Commandant, giving all the facts incident to its loss or destruction. By the same procedure, he shall report the recovery of a continuous discharge book, certificate of identification, or certificate of discharge with all the facts incident to its recovery, and shall forward the recovered book, certificate of identification, or certificate of discharge to the Commandant.

SUBPART 14.05—SHIPPING ARTICLES

§ 14.05-1 *Preparation and number of copies of shipping articles.* Shipping articles shall be made out in quadruplicate by carbon process. When the signing on of the crew has been completed the triplicate and quadruplicate copies shall be removed from the pad by the shipping commissioner, who will retain the triplicate copy and forward the quadruplicate copy to Commandant (MVP), Coast Guard Headquarters, Washington 25, D. C., "Attention Merchant Vessel Personnel Records and Welfare Section." The original and duplicate copies of the articles remaining in the pad shall be given to the master who shall enter therein any changes made in the crew during the voyage.

§ 14.05-5 *Paying off seamen during voyage.* In case of the paying off of any members of the crew during the voyage, they shall be required to sign the mutual release on both the original and the duplicate of the articles whether discharged before a shipping commissioner in an American port or before an American consul in a foreign port.

§ 14.05-10 *Completing entries in shipping articles at completion of voyage.* (a) At the completion of the voyage, when the crew is paid off, the mutual release on both the original and the duplicate of the articles must be signed by all members of the crew; and the original copy, together with the white copy of every certificate of discharge, Form 718A rev., given during the voyage or a record of entry, Form 718E, of every entry made in a continuous discharge book during the voyage, shall be forwarded to the Commandant at Washington, D. C. The duplicate copy shall be retained by the shipping commissioner.

(b) All columns on the shipping articles shall be properly filled in and the certifications on the back properly signed.

(c) All entries made in the continuous discharge books during the voyage, and the entries made in all certificates of discharge issued during the voyage to sea-

men holding certificates of identification shall be shown on the ship's articles.

§ 14.05–15 *Production of documents by seamen signing shipping articles.* Every seamen shall be required, when signing articles, to produce his continuous discharge book or certificate of identification, as well as his license, certificate of registry, or certificate of service, in order that the serial numbers may be entered on the articles.

§ 14.05–20 *Master reporting shipping and discharging of seamen on Form CG 735–T.* (a) The master of every merchant vessel of the United States of the burden of one hundred gross tons or upward, except vessels employed exclusively in trade on the navigable rivers of the United States, fishing and whaling vessels, yachts, ferries and tugs used in ferry operations if such ferries and tugs are employed exclusively in trade on the Great Lakes, lakes (other than the Great Lakes), bays, sounds, bayous, canals, and harbors, and are not engaged on international voyages, and unrigged vessels other than seagoing barges, shall report the employment, discharge, or termination of the services of every seaman not shipped or discharged before a shipping commissioner, or a collector or deputy collector of customs acting as shipping commissioner on Coast Guard Form 735–T in the manner provided in this paragraph.

(b) When a vessel is sailing on a voyage which will extend to the ocean or to the Gulf of Mexico and when coastwise Shipping Articles are opened or when the vessel is departing on a coastwise voyage for which Shipping Articles are not required the master shall, immediately prior to sailing, submit to the Officer in Charge, Marine Inspection, a Form 735–T listing the names, as well as the other data required by the form with the exception of the date and place of discharge, of the master and of each member of the crew. Thereafter, at each domestic port visited on the voyage, the master shall, prior to departure, submit to the Officer in Charge, Marine Inspection, a supplementary report on Form 735–T listing the name, as well as the other data required by the form, of each seaman engaged or discharged or whose services were otherwise terminated since the previous submission of the form. When coastwise Shipping Articles are completed or when a voyage on which Shipping Articles are not required is completed, the master shall submit to the Officer in Charge, Marine Inspection, a Form 735–T listing the names, as well as the other data required by the form, of the master and of each member of the crew on board at the time of the completion of the voyage.

(c) When a vessel is employed exclusively in trade on bays or sounds, the master shall submit a Form 735–T, on the last day of each calendar month, listing the name, as well as the other data required by the form—including the dates and places of engagement and discharge, of each seaman employed, discharged, or whose services were otherwise terminated during the calendar month. This form shall be forwarded by the master directly to Commandant (MVP), U. S. Coast Guard Headquarters, Washington, D. C.

(d) When a vessel is employed exclusively in trade on the Great Lakes, the master shall submit Form 735–T at the commencement of the season, or when the vessel is put into service, listing the names, as well as other information required by the form, with the exception of date and place of discharge, of each member of the crew. Thereafter, at the end of each calendar month, the master shall submit a supplementary report on Form 735–T listing the names, as well as other information required by the form, of (1) each seaman whose employment was terminated during the month and who was not reengaged on the vessel's next trip, and (2) each seaman engaged during the month who was not also employed on the vessel in the same capacity on her last trip preceding the engagement. At the close of the season, or when the vessel is withdrawn from service, the master shall submit a final report on Form 735–T listing the names, as well as other information required by the form, of each seaman who has not been previously reported as discharged.

(e) Every discharge entry made on a Form 735–T shall agree exactly with the corresponding entry made in a continuous discharge book or on the certificate of discharge issued to a seaman and a record of entry (Form 718–E) or a white copy of a certificate of discharge (Form 718–A, Revised) supporting each discharge shall be attached to any Form 735–T on which discharges are reported.

(f) Any master who fails to comply with the requirements of this section is subject to a penalty of $500.

SUBPART 14.10—DISCHARGING SEAMEN

§ 14.10–1 *Entries in continuous discharge book.* (a) Upon the discharge of any seaman and payment of his wages, the shipping commissioner, or collector, or deputy collector of customs at ports where no shipping commissioner has been appointed, shall enter in the continuous discharge book of such seaman, if the seaman carries such a book, the name and official number of the vessel, the nature of the voyage (foreign, intercoastal, or coastwise), the class to which the vessel belongs (steam, motor, sail, or barge), the date and place of the shipment and of the discharge of such seaman, the rating (capacity in which employed) then held by such seaman, and the signature of the person making such entries, and nothing more.

(b) In cases where the law does not require the seaman to be shipped and discharged before a shipping commissioner, the master of the vessel shall make the required entries in the continuous discharge book.

(c) All entries shall be made in black ink.

(d) The person making the entry in the book shall also prepare a "Record of Entry in Continuous Discharge Book" on Form 718E and make the required entries therein showing the full name and citizenship of the seaman in whose book the entry was made, serial number of his book, the name and official number of the vessel, the nature of the voyage (foreign, intercoastal, or coastwise), the class to which the vessel belongs (steam, motor, sail, or barge), the date and place of shipment and of the discharge of such seaman, and the rating (capacity in which employed) then held by such seaman. The record of entry shall be signed by the seaman in whose book the entry was made and by the person making the entry in the book. In cases where the record of entry is signed by a shipping commissioner, or collector, or deputy collector of customs, the master is not required to sign the record of entry, but his name must be shown thereon.

§ 14.10–5 *Entries in certificate of discharge.* (a) Upon the discharge of any seaman who holds a certificate of identification issued by the Coast Guard or predecessor authority, and payment of his wages, the shipping commissioner or collector or deputy collector of customs at ports where no shipping commissioner has been appointed shall issue to the seaman a "Certificate of Discharge" on Form 718A rev., and make the required entries therein showing the full name and citizenship of the seaman to whom it is issued, the serial number of his certificate of identification, the name and official number of the vessel, the nature of the voyage, (foreign, intercoastal, or coastwise), the class to which the vessel belongs (steam, motor, sail, or barge), the date and place of the shipment and of the discharge of such seaman, and the rating (capacity in which employed) then held by such seaman. The certificate of discharge shall be signed by the seaman to whom it is issued and the master of the vessel and shall be witnessed by the shipping commissioner or, at ports where no shipping commissioner has been appointed by the collector or deputy collector of customs.

(b) In cases where the law does not require the seamen to be shipped and discharged before a shipping commissioner, the master of the vessel shall issue such certificate of discharge and make the required entries therein.

(c) All entries on certificates of discharge, Form 718A rev., shall be made with indelible pencil or typewriter to insure legible copies.

(d) The white copy of the certificate of discharge shall be forwarded to the Commandant as prescribed by §§ 14.05–1 and 14.05–20.

§ 14.10–10 *Discharging a seaman in a foreign port.* (a) Upon the discharge of any seaman in a foreign port the master shall make the proper entries in the continuous discharge book and on the ship's articles, and such entries shall be attested to by the consular officer, and Form 718E shall be completed in accordance with § 14.10–1. If the seaman possesses a certificate of identification, the master of the vessel shall issue to the seaman a certificate of discharge on Form 718A rev., and make the required entries therein which shall be attested by the consular officer. If the seaman has lost his continuous discharge book or certificate of identification, the master shall furnish him with a certificate of discharge (Form 718A rev.), attested to by the consular officer and note this fact on the articles.

(b) The white copy of any discharge Form 718A rev., given out in this manner or the original of the record of entry, Form 718E, shall be retained by the master until the articles covering that voyage are closed, at which time, if the crew is discharged before a shipping commissioner, or before a collector or deputy collector of customs at ports where no shipping commissioner has been appointed, it shall be delivered to that officer and forwarded by him to the Commandant, as prescribed in §§ 14.05–10 and 14.05–20; if the crew is not discharged before such officer, it shall be forwarded to the Commandant by the master as prescribed in §§ 14.05–10 and 14.05–20.

§ 14.10–15 *Certificate of discharge issued pending issuance of duplicate continuous discharge book.* Pending the issuance of a duplicate of the continuous discharge book, the shipping commissioner, or collector or deputy collector of customs at ports where no shipping commissioner has been appointed, may furnish the seaman with a certificate of discharge (Form CG 718A rev.), at the completion of the voyage, and this fact shall be noted on the articles. The white copy of such discharge shall be forwarded to the Commandant, as prescribed in §§ 14.05–10 and 14.05–20.

§ 14.10–20 *Discharge of seamen in special cases.* (a) Section 16 of the act of December 21, 1898 (30 Stat. 759), amended in part R. S. 4581 (46 U. S. C. 683), relating to the discharge of seamen by consuls, to read:

If a seaman is discharged on account of injury or illness, incapacitating him for service, the expenses of his maintenance and return to the United States shall be paid from the fund for the maintenance and transportation of destitute American seamen.

(b) Section 19 of the Seamen's Act of March 4, 1915 (38 Stat. 1185; 46 U. S. C. 683), adds to these words the following:

Provided, That at the discretion of the Commandant of the Coast Guard and under such regulations as he may prescribe, if any seaman incapacitated from service by injury or illness is on board a vessel so situated that a prompt discharge requiring the personal appearance of the master of the vessel before an American consul or consular agent is impracticable, such seaman may be sent to a consul or consular agent, who shall care for him and defray the cost of his maintenance and transportation, as provided in this paragraph.

(c) The personal appearance of the master of the vessel before an American consul or consular agent to consent to the discharge of a seaman who has been incapacitated by injury or illness may be waived by the consul under the following conditions:

(1) When the condition of the injured or ill seaman is such that prompt medical attendance is necessary and cannot be furnished on shipboard, and

(2) When the master cannot proceed with the seaman to the consul without risk to the crew, the vessel, or the cargo.

(d) When the master cannot appear before the consul in person he will address to the consul in writing a full statement of the facts which render necessary the discharge of the seaman, together with a statement of the reasons why he himself is unable to appear before the consul. The statement should cover the usual particulars set forth in a discharge and should be accompanied with an account of the wages due and with the necessary funds to meet such wages, or (if the cash be not available) with an order on the owner for the amount due.

(e) If the consul shall deem the statement satisfactory, he may discharge the seaman as directed in R. S. 4581, as amended by section 16 of the act of December 21, 1898, and section 19 of the act of March 4, 1915, as if the master were present, attaching to the discharge and to his relief account a copy of the statement submitted by the master.

(f) If the consul shall deem the statement unsatisfactory, he will decline to grant the discharge and direct that the seaman be returned to the vessel at its expense.

Subchapter K—Seamen

PART 132—ALLOTMENTS OF SEAMEN

Section 132.7 *Execution of voyage clause on Form 722* is deleted.

PART 138—SHIPMENT AND DISCHARGE OF SEAMEN

Part 138 is deleted. (The text of the regulations in this part has been redesignated and transferred to Part 14.)

Subchapter N—Explosives or Other Dangerous Articles or Substances and Combustible Liquids on Board Vessels

PART 146—TRANSPORTATION OR STORAGE OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES OR SUBSTANCES, AND COMBUSTIBLE LIQUIDS ON BOARD VESSELS

SUBPART—DEFINITIONS OF WORDS AND TERMS CONTAINED WITHIN REGULATIONS IN THIS SUBCHAPTER

Section 146.03–36 (c) (2) is amended by changing the phrase "a board of local inspectors" to "an Officer in Charge, Marine Inspection" so that the subparagraph will read as follows:

§ 146.03–36 *Vessels defined.* • • •

(c) *Cargo vessels.* • • •

(2) Any passenger ferry or railroad car ferry during any period it is being operated under authority of a change of character certificate issued by an Officer in Charge, Marine Inspection.

SUBPART—LIST OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES CONTAINING THE SHIPPING NAME OR DESCRIPTION OF ARTICLES SUBJECT TO THE REGULATIONS IN THIS SUBCHAPTER

Section 146.04–5 *List of explosives and other dangerous articles and combustible liquids* is amended by changing the article "burlap bags, used and unwashed" to "burlap bags, used and unwashed or uncleaned"; and by deleting the word "yellow" in column 3, "Label Required", opposite the substance "Guanidine Nitrate."

SUBPART—DETAILED REGULATIONS GOVERNING INFLAMMABLE LIQUIDS

Section 146.21–100 *Table D—Classification: Inflammable liquids* is amended by changing the phrase "(ICC–17C, 17E) STC, not over 55 gal. cap." to "(ICC–17C, 17E) STC, not over 5 gal. cap." under "Outside Containers" in column 4 opposite the substance "Inflammable Liquid, N. O. S."

SUBPART—DETAILED REGULATIONS GOVERNING COMPRESSED GASES

Section 146.24–100 *Table G—Classification: Compressed gases* is amended by changing the phrase "Predominate components are generally propane, butane and isobutane" to "Predominant components are generally propane, butane and isobutane" in the second column opposite the substance "Liquefied Petroleum Gas (pressure not exceeding 375 lbs. per sq. in. at 130° F.);" "Liquefied Petroleum Gas (pressure not exceeding 225 lbs. per sq. in. at 105° F.", "Liquefied Petroleum Gas (pressure not exceeding 75 lbs. per sq. in. at 105° F.)" and "Liquefied Petroleum Gas (pressure not exceeding 65 lbs. per sq. in. at 105° F.)"; and by changing the phrase "Predominate components are generally propane, propylene, butanes (normal butane or isobutane), butylenes, and butadiene" to "Predominant components are generally propane, propylene, butanes (normal butane or isobutane), butylenes, and butadiene" in the second column opposite the substance "Liquefied Petroleum Gas (pressure not exceeding 200 lbs. per sq. in. at 100° F.)."

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular 1759]

PART 115—REVESTED OREGON AND CALIFORNIA RAILROAD AND RECONVEYED COOS BAY WAGON ROAD GRANT LANDS IN OREGON

GRAZING LEASES OF THE REVESTED AND RECONVEYED LANDS AND INTERMINGLED PUBLIC DOMAIN LANDS

Sections 115.128 to 115.135, inclusive, as set forth below, supersede §§ 115.128 to 115.149, inclusive (Circular No. 1607 of May 29, 1945):

GRAZING LEASES OF THE REVESTED AND RECONVEYED LANDS AND INTERMINGLED PUBLIC DOMAIN LANDS

115.132 Application and lease.
115.133 Rental.
115.134 Timber and other uses of land.
115.135 Governing regulations; applications and leases subject to regulations.

AUTHORITY: §§ 115.128 to 115.135 issued under sec. 5, 50 Stat. 875.

GRAZING LEASES OF THE REVESTED AND RECONVEYED LANDS AND INTERMINGLED PUBLIC DOMAIN LANDS

§ 115.128 *Statutory authority.* Section 4 of the act of August 28, 1937 (50 Stat. 875) authorizes the Secretary of the Interior in his discretion to lease for grazing purposes any revested Oregon and California Railroad and reconveyed Coos Bay Wagon Road grant lands in the State of Oregon, hereinafter referred to as O. and C. lands, which may be so used without interfering with the production of timber or other purposes specified in section 1 of the act, and to formulate rules and regulations for the use, protection, improvement, and rehabilitation of such grazing lands. In addition to issuing grazing leases for O. and C. lands under the provisions of §§ 115.128 to 115.135, grazing leases also will be issued under such sections for such lands and intermingled public lands, or for public lands in and West of Range 5 East, or West of Klamath Lakes and Link River in Ts. 36 to 41 S., Rs. 6 to 9 E., inclusive, Willamette Meridian, Oregon.[1]

§ 115.129 *Policy.* Since the statutory authority for grazing on the O. and C. lands subordinates such use to the primary purposes of the act, namely, to provide a permanent source of timber supply by managing the lands in conformity with the sustained-yield principle, protect water sheds, regulate streamflow, and contribute to the economic stability of local communities and industries, no lease will be issued unless the Regional Administrator of the Bureau of Land Management at Portland, Oregon, who is charged with the administration of grazing on such lands, determines that grazing on the lands to be included in the lease will not interfere with the production of timber, or any of the other purposes of the act.

§ 115.130 *Grazing of livestock kept for domestic use.* Bona fide settlers or prospectors may apply to the regional administrator for permission to graze without charge not more than a total of 10 head of milk and work stock on the O. and C. lands, or such lands and intermingled public domain lands. Such permission may be granted by the regional administrator, in his discretion, upon such conditions as he may prescribe.

§ 115.131 *Crossing permits.* The regional administrator may permit the transit of stock on established stock driveways or thoroughfares on O. and C. lands, or such lands and intermingled public domain lands, free of charge. Under such conditions and restrictions as are necessary, the regional administrator may also grant permission to cross allotments of other lessees, areas closed to grazing, or unleased lands, and such permission must be obtained before such crossing occurs. The permittee shall be liable for any damage caused to the range.

§ 115.132 *Application and lease.* An application for a grazing lease shall be made on Form 4–721 in the manner set forth in § 160.5 of this chapter. An application may include O. and C. lands or public lands or both. Leases shall be issued in the manner set forth in § 160.10 of this chapter, and the lease rental shall be computed in accordance with § 115.133.

§ 115.133 *Rental.* (a) The lessee shall pay in accordance with the terms of the lease, an annual rental computed in conformity with the following rate tabulations. However, when warranted by circumstances, including changed marketing conditions, the regional administrator may establish any other appropriate schedule of rental rates for leases issued under §§ 115.128 to 115.135, a copy of which shall be transmitted to the Director.

(b) One cow or one horse or five sheep or five goats constitute one animal unit. The minimum rental charge shall be fixed at not less than $1.00 per annum. The rental may be adjusted to reflect differences in numbers of livestock authorized to be grazed, changes in carrying capacity, and changes in authorized rates of rental at the end of the third year of the lease, and at the end of each subsequent three-year period.

§ 115.134 *Timber and other uses of land.* A lease issued for grazing purposes will not entitle the lessee to cut and remove timber from the land, or to take any other asset therefrom, or to use such land for purposes other than grazing. In order to obtain such rights or privileges, the lessee must make application therefor in accordance with the governing laws and regulations.

§ 115.135 *Governing regulations; applications and leases subject to regulations.* Applications filed and leases issued under §§ 115.128 to 115.135, inclusive, shall be subject to the regulations therein, as well as to the regulations contained in Part 160 of this chapter relating to grazing leases issued pursuant to section 15 of the act of June 28, 1934 (48 Stat. 1275), as amended (43 U. S. C. sec. 315m), to the extent that the latter are not inconsistent with the former. The leases will also be subject to the standard terms and conditions set forth therein, and to any other terms and conditions which, in his discretion, the regional administrator may require.

Sections 115.128 to 115.135, inclusive, will become effective 60 days from date of approval thereof by the Secretary of the Interior.

MARION CLAWSON,
Director.

Approved: July 11, 1950.

AUTHORITY: §§ 160.1 to 160.23 issued under sec. 2, 48 Stat. 1270; 43 U. S. C. 315a.

§ 160.1 *Statutory authority.* Section 15 of the act of June 28, 1934 (48 Stat. 1275), as amended, authorizes the Secretary of the Interior to lease for grazing purposes vacant, unappropriated, and unreserved public lands outside of established grazing districts in the continental United States only. Grazing leases for other public lands intermingled with the Revested Oregon and California Railroad and Reconveyed Coos Bay Wagon Road Grant lands which are located west of the Cascade Mountain Range Divide, or in and west of Range 5 East, or west of Klamath Lakes and Link River in Ts. 36 to 41 S., Rs. 6 to 9 E., inclusive, Willamette Meridian, Oregon, will be issued pursuant to and will be governed by the provisions of Part 115 of this chapter.

§ 160.2 *Definitions.* (a) "Secretary" means Secretary of the Interior.

(b) "Director" means Director, Bureau of Land Management.

(c) "Regional administrator" means the proper regional administrator, Bureau of Land Management.

(d) "Manager" means manager of the proper land office. Where there is no land office, it means the Director, Bureau of Land Management.

(e) "Signing Officer" means the Government official who has been duly authorized to issue a grazing lease.

(f) "Field Office" means any office of the Bureau of Land Management, including the land office, near the lands applied for and in the State in which such lands are situated. If there is no land office or other field office in the State, it means the office of the Director, Bureau of Land Management, Washington 25, D. C.

(g) "The act" means the act of June 28, 1934 (48 Stat. 1269), as amended.

§ 160.3 *Classes of applicants; preference rights.* The act, as amended, provides for the issuance of grazing leases to classes of applicants in the following order:

(a) Preference-right leases to applicants who are the owners, homesteaders, lessees, or other lawful occupants of lands contiguous to or cornering on an isolated or disconnected tract embracing 760 acres or less[1] for the whole of such tract, upon the terms and conditions prescribed by the Secretary, provided the preference-right is asserted during a period of 90 days after such tract is offered for leases.[2]

[1] Where the lands applied for include the even-numbered sections within the limits of a railroad grant, even though in the aggregate such lands exceed 760 acres, each such section will be considered as an isolated or disconnected tract within the meaning of this provision. The difference between the higher preference right accorded under this paragraph and the preference accorded under paragraph (b) of this section is that the applicant is not required to demonstrate that the public lands are necessary for the proper use of the contiguous or cornering lands, except where there are conflicting applications of the same class of applicants.

[2] By Departmental Notice of July 31, 1937, all vacant, unreserved and unappropriated public lands, exclusive of Alaska, not included in an established grazing district, were then offered for lease under section 15; all lands not then subject to lease under section 15 because of their appropriation or reservation, were offered for lease as of the date any such lands first became subject to lease.

(b) Preference-right leases to applicants who are owners, homesteaders, lessees, or other lawful occupants of contiguous lands to the extent necessary to permit the proper use of such contiguous lands.

(c) Leases where no preference-right applicant is involved.

§ 160.4 *Qualifications of applicants.* An applicant for a grazing lease is qualified if the applicant

(a) Is a citizen of the United States, or

(b) Has filed a declaration of intention to become a citizen: *Provided,* That an applicant who has filed such declaration but has not filed a petition for naturalization before a court of competent jurisdiction within seven years from the date of filing the declaration or, having filed such petition, has failed to attain citizenship within a reasonable time thereafter and is unable to show any satisfactory reason for such failure, shall be disqualified to receive a grazing lease or any renewal of an existing lease until he has actually attained citizenship, or

(c) Is a group, association, or corporation which is authorized to conduct business under the laws of the State in which the lands applied for are located and the controlling interest in which is vested in a citizen or citizens or persons who would be qualified as individual applicants under paragraphs (a) and (b) of this section.

§ 160.5 *Application and lease.* An application for lease shall be executed in triplicate on combined application and lease form (4–721) and filed in triplicate in any field office of the Bureau of Land Management in the state in which the lands applied for are situated.[3] The applicant's signature to the application shall be considered to be his signature to and his acceptance of the lease when executed by the signing officer, without prejudice to the applicant's right to appeal from the disallowance of his application as to any part of the lands applied for or from the issuance of a lease for a shorter term than that applied for.

§ 160.6 *No right conferred by application, prior to lease.* The filing of an application will not segregate the land applied for from application by other persons for a grazing lease or from other disposition under the public land laws. As the issuance of a lease is discretionary, the filing of an application for a lease will not in any way create any right in the applicant to a lease, or to the use of the lands applied for pending the issuance of a lease. Any such unauthorized use constitutes a trespass.

§ 160.7 *Protests.* Protests against the approval of an application for a lease should be filed in the same manner and number of copies as applications for a grazing lease, contain a complete disclosure of all facts upon which the protest is based, and describe the lands involved in such protest, and should be accompanied by evidence of service of a copy of the protest on the applicant. If the protestant desires to lease all or part of the land embraced in the application against which the protest is filed, the protest should also be accompanied by an application for a grazing lease.

§ 160.8 *Leases of withdrawn or reserved lands.* Leases may be issued for public lands withdrawn for resurvey, or withdrawn and reserved in aid of legislation, or for power sites, classification or other public purposes,[4] if the use of the land for grazing is not inconsistent with the purposes of the withdrawal. Lands included in stock driveway and public water reserve withdrawals may be leased in accordance with the regulations, § 295.7 (c) of this chapter. Any lease issued covering withdrawn lands must contain the stipulations which have been prescribed by the Director of the Bureau of Land Management for the protection and use of the land for the purpose for which it was withdrawn or reserved.

§ 160.9 *Action on defective application or where the lands applied for are not subject to grazing leasing.* Upon the filing of any application, the officer receiving it may require any defects in the application to be cured or additional information to be provided. The signing officer may reject any application if the applicant fails to cure defects in the application within the time allowed, which period shall not be less than thirty days from the date of receipt of notice of such defects by the applicant. If the application must be rejected because of the status of the land for which application is made as where land is in an allowed entry, otherwise appropriated or reserved and not subject to lease under the act, or not public land, a manager, if his office has land status, or a signing officer shall reject the aplication.

§ 160.10 *Disposition of protests and conflicting applications.* (a) The lease will be executed by the signing officer and transmitted to the lessee only after final action is taken on any protests or timely appeals which may have been filed. The lease will provide for an allowance of forage for wildlife, and within the discretion of the signing officer the number of livestock to be grazed, proper grazing season or reservations for authorized trailing across the land, and will contain the standard provisions set forth in the combined application and lease form, together with any other terms, conditions, or reservations which the signing officer in his discretion may deem necessary and proper.

(b) In those cases where more than one applicant applies for the same land and where it appears that a division of the lands should be made, such conflict-

[3] 18 U. S. C. sec. 1001 makes it a crime for any person knowingly and wilfully to make to any department or agency of the United States any false, fictitious or fraudulent statements or representations as to any matter within its jurisdiction.

[4] Certain lands withdrawn for reclamation purposes are, pursuant to the cooperative agreement of February 28, 1945, between the Bureau of Reclamation and the Bureau of Land Management, leased in accordance with the principles of section 15 leases, under authority of subsection (1) of section 4, act of December 5, 1924 (43 Stat. 703, 43 U. S. C. sec. 501).

[1] For authority to issue grazing leases on public domain lands outside of established grazing districts, see Part 160 of this chapter.

ing applicants will be given an opportunity to agree to a division of the lands prior to a determination by the signing officer as to the disposition of such conflicting applications or division of the lands.

(c) After a division of the range has been made either by agreement between applicants which is acceptable to the signing officer or by determination of the signing officer where there is no acceptable agreement, any conflicting applications or protests filed subsequent thereto will be rejected.

§ 160.11 *Reduction in leased area; adjustment of grazing use to conform with changes in grazing capacity.* The leased area may be reduced if it is determined that such area is required for the protection of sources of water supply to communities, or for camping places, stock driveways, roads and trails, or town sites, or for feeding grounds near communities for the use of domestic livestock or near the slaughtering or shipping points for use of stock to be marketed or for other public purposes; the authorized grazing use may be adjusted to conform to changes in grazing capacity estimates. In the case of any such reduction or adjustment, a proportionate adjustment will be made in the rental for the lease years commencing subsequent to the notice of such reduction or adjustment.

§ 160.12 *Leased lands subject to classification and disposition; compensation to lessee for loss of lands and for improvements.* (a) Lands embraced in a grazing lease are subject to classification and disposition under the provisions of sections 7 and 14 of the act of June 28, 1934 (48 Stat. 1272, 1274), as amended, or other public land laws: *Provided,* That before any application for such classification and disposition is allowed, evidence is furnished that the applicant has agreed to compensate the lessee for any grazing improvements placed on the lands under the authority of the lease or permit in an amount to be mutually agreed upon. If the parties are unable to agree as to the amount and time for payment for such improvements, the amount and time of payment shall be fixed by the signing officer. The failure of the applicant to pay the lessee, in accordance with the agreement or the amount fixed by the signing officer within the time allowed for payment, shall be just cause for cancellation of any rights or interests in the lands acquired by the applicant by reason of the allowance of his application.

(b) Where part of the leased lands are disposed of as provided by this section, the subsequent annual rental charges will be reduced proportionately to reflect the loss of the lands from the leasehold. Such reduced rentals shall apply to rentals for the lease years commencing subsequent to the notice of such reduction.

(c) The holder of a grazing lease shall be compensated, for the loss resulting from the use of lands embraced in the lease for war or national defense purposes, in an amount determined to be fair and reasonable and to be paid by the head of the department or agency of the Federal Government making such use.

§ 160.13 *Access to leased lands; temporary closing of leased area.* (a) The issuance of a grazing lease does not alter or restrict the right of access across the leased lands by licensed hunters or fishermen or restrict their right to hunt and fish on such lands in accordance with the laws of the United States or of the state in which the lands are located, nor may the lessee interfere with such rights. Nor shall such lease restrict or limit prospecting, locating, developing, mining or patenting the mineral resources in the leased lands; miners, prospectors and mineral lessees of the United States and all other authorized persons shall be entitled to enter the leased lands.

(b) The regional administrator, in his discretion, may close temporarily to grazing portions of the leased lands whenever, because of depletion of the vegetal cover due to drought, epidemic, fire, or any other cause, such action is necessary to restore the forage on the range to its normal condition. Such temporary closing will not operate to exclude such lands from the lease.

§ 160.14 *Rental.* The lessee shall pay the lease rental in the amount and manner specified in the lease. The rental shall be computed in conformity with the following rate tabulations, unless for sufficient reasons a different rate is authorized by the Director:

GRAZING RENTAL RATE TABULATION

One cow or one horse or five sheep or five goats constitute one animal unit. The rental charge will not in any case be fixed at less than $1.00 per annum. The rental may be adjusted to reflect changes in approved rates at the end of each three-year period to apply to the rental charges for the next three-year period.

§ 160.15 *Term of lease.* A lease may be issued for a period of not more than 10 years. Renewals may be for periods of not more than 10 years, upon such terms and conditions as may then be prescribed.

§ 160.16 *Application for renewals.* An application for renewal of lease should be executed and filed in triplicate on the combined application and lease form (4–721) at least 90 days prior to the expiration of the lease. The application may also include a request for the consolidation of other outstanding grazing leases held by the lessee. Such application does not confer on the lessee any preference right to a renewal but will, however, authorize the exclusive grazing use of the lands by the lessee in accordance with the provisions of the lease pending final action on the application for renewal.

§ 160.17 *Construction and maintenance of improvements*—(a) *Permit required.* After the issuance of a lease, the lessee may fence the lands or any part thereof, develop water by wells, tanks, water holes, or otherwise, and make or construct other improvements for grazing or stock raising purposes, so long as such improvements do not impair the value of the lands or interfere with other uses: *Provided,* That a permit or cooperative agreement is obtained under the procedure set forth in this section. The lessee will be required to comply with the provisions of the laws of the state in which the leased lands are located with respect to the cost and and maintenance of fences.

(b) *Applications for permits and cooperative agreements.* Applications for permits, cooperative agreements, or arrangements to construct and maintain range improvements shall set forth the location of such improvements by legal subdivision of the public land survey, the necessity, use, cost, and description of such improvements, item by item, shall designate the time and manner of their construction, the period of use, the method of operation, protection, repair, removal, or other disposition, and shall include any other pertinent information. When necessary to explain properly the improvements and matters connected therewith, the application shall be accompanied by a sketch of the improvements with specifications and a map showing the location of the improvements. Applications for a permit shall be made on Form 4–1115 and shall be filed in triplicate with the signing officer. Application for a cooperative agreement shall be made on Form 4–1119.

(c) *Action on the application.* Action will be taken on the application by the signing officer. If the application is approved, the signing officer will issue a permit or enter into a cooperative agreement for the construction and maintenance of the improvements which have been approved.

§ 160.18 *Removal of improvements.* (a) Upon the expiration of the lease or its earlier termination, the signing officer may in his discretion and upon written application filed by the lessee not more than 30 days after date of such expiration or termination, require a proposed subsequent lessee, prior to the execution of a new lease, to agree to compensate the lessee for any grazing improvements of a permanent nature that have been placed upon the leased lands under authority of a section 15 lease executed prior to November 4, 1948, or thereafter, under a permit issued under § 160.17 (b). The amount of such compensation shall be determined in accordance with the procedure set forth in § 160.12. The failure of the subsequent lessee to pay the lessee in accordance with such agreement shall be just cause for cancellation of the subsequent lessee's lease.

(b) The lessee will be allowed three months from the date of expiration or termination of the lease within which to remove such improvements as are not disposed of in the manner set forth above; if not removed or otherwise disposed of within the said period, such improvements shall become the property of the United States. No improvements may be removed at any time the lessee is in default with respect to the lease.

§ 169.19 *Cancellation of lease.* If the lessee shall fail to comply with any of the provisions of the regulations in this part or of the lease and such default shall continue for 30 days after service of written notice thereof, or if the lease was issued improperly through error with respect to a material fact or facts, the lease may be terminated and canceled by the signing officer.

§ 160.20 *Inspection of leased premises.* The land described in the lease shall be subject to inspection at all reasonable times by duly authorized representatives of the Department of the Interior. Other Federal agents, as well as game wardens, shall be permitted access to the lands in connection with necessary official business.

§ 160.21 *Assignment of lease; subleases.* No part of the leased lands may be subleased. The lessee may assign the lease only with the consent of the signing officer. The proposed assignment must be filed with the signing officer within 90 days from date of its execution, and shall contain all the terms and conditions agreed upon between the parties, and the assignee's agreement to be bound by the terms of the lease, together with triplicate copies of the combined application and lease form (4–721) properly executed by the assignee, setting forth all the data required thereby. No assignment will be recognized nor will it confer on the assignee any rights to the leased area until a lease therefor is issued to him.

§ 160 22 *Pledge of leases as security for loans; applications for extension of lease by borrower-lessee.* (a) A lease may be pledged as security for a loan of $500 or more from a lending agency if the loan is for the purpose of furthering the lessee's livestock operations. Before a loan is made, the lending agency may ascertain from the signing officer the status of the grazing lease and other pertinent information relating thereto.

(b) An application by a borrower-lessee for an extension of the lease term should be executed and filed in triplicate on combined application and lease form (4–721). When it appears that such extension will be in accordance with applicable law and not contrary to the public interest, the signing officer in his discretion may extend the lease for a period not to exceed 10 years from the date of the loan, subject to such terms and conditions as are then provided by the regulations in this part, and by the signing officer.

(c) If the property of the lessee which was the basis for the granting of a preference right is acquired by the lending agency through foreclosure or otherwise, such agency or its occupants of the property or a purchaser of the property from the agency, if qualified, may apply on combined application and lease form (4–721) to be recognized as the new lessee. If, in selling the property, the lending agency takes back a mortgage on the property, the agency will receive the same consideration as in the case of an original loan.

(d) Where a lending agency files in the office of the signing officer notice that it has made a loan and has accepted a grazing lease as security therefor, in conformity with the provisions of this section, such agency will be advised of any action taken affecting the lease.

§ 160.23 *Appeals; filing.* An appeal from any decision rendered pursuant to §§ 160.1 to 160.23, inclusive, may be taken to the Director and the Secretary, in accordance with the rules of practice (Part 221 of this chapter). The appeal should be filed with the officer who rendered the decision.

NOTE: The reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ROSCOE E. BELL,
Associate Director.

Approved: July 11, 1950.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Bureau of Animal Industry

[9 CFR, Part 160]

[BAI Order 382]

ALASKA FUR FARMING INDUSTRY

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given in accordance with section 4 (a) of the Administrative Procedure Act (5 U. S. C. 1003 (a)) that the Secretary of Agriculture, pursuant to the authority contained in section 9 of the Alaska Game Law (57 Stat. 306; 48 U. S. C. 198), and section 2 of the act of April 30, 1946 (60 Stat. 127; 7 U. S. C. 434), is considering the issuance of new regulations for the control of the fur farming industry in Alaska. It is proposed to issue the regulations to read as follows:

Subchapter H—Fur Bearing Animals

PART 160—ALASKA FUR FARMING INDUSTRY

Sec.
160.1 Definition of terms.
160.2 Licenses of fur farmers.
160.3 Duties of fur farmers.

§ 160.1 *Definition of terms.* For the purpose of this part, unless the context otherwise clearly indicates:

(a) "Secretary" means the Secretary of Agriculture.

(b) "Commission" means the Alaska Game Commission, as created by the act of January 13, 1925, 43 Stat. 740, and amended by the act of July 1, 1943, 57 Stat. 303.

(c) "Territory" means the Territory of Alaska.

(d) "Person" in the singular or plural, as the case demands, includes individuals, associations, partnerships and corporations.

(e) "Fur farming" means the business of breeding, raising, or producing fur animals in captivity and the marketing of such animals or their products. The word "captivity" means having the fur animals under positive control, as in a pen or within an area of land or water which is completely enclosed by a generally escape-proof barrier.

§ 160.2 *Licenses of fur farmers.* (a) Every person engaged in fur farming shall procure a license annually, and upon request shall produce said license for inspection by all authorized agents of the United States or the Commission.

(b) The cost of said license shall be $2.00.

(c) Each application for a license shall be addressed to the Alaska Game Commission at Juneau, Alaska, and shall be made on a form prescribed by the Commission and accompanied by a bank draft or an express or postal money order payable to the Treasurer of the United States for the amount of the license fee.

(d) The license shall be issued pursuant to subdivision I, section 10 of the Alaska Game Law by the executive officer of the Commission through wildlife agents and other persons authorized by him in writing to sell such licenses.

§ 160.3 *Duties of fur farmers.* Each person carrying on fur farming shall, at all reasonable hours, allow any member or authorized employee of the Commission or any authorized employee of the United States to enter and inspect the premises where operations are being carried on as a fur farm, and to inspect the books and records relating thereto. Each person engaged in fur farming shall sub-

mit annually a written report on a form furnished by the Commission stating the numbers and kinds of fur animals farmed, the numbers and kinds of live animals or skins or pelts thereof bought or sold, and the methods of fur farming employed.

Any interested person who wishes to submit written data, views, or arguments concerning the foregoing proposed regulations may do so by filing them with the Chief, Bureau of Animal Industry, Agricultural Research Administration, U. S. Department of Agriculture, Washington 25, D. C., within 45 days from the date of publication in the FEDERAL REGISTER.

Done at Washington, D. C., this 11th day of July 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

HANDLING OF MILK IN GREATER BOSTON, MASS., MARKETING AREA

NOTICE OF PUBLIC MEETING FOR CONSIDERATION OF PROPOSED AMENDMENTS

Notice is hereby given that pursuant to authority contained in Order No. 4, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area (7 CFR 904) and the Administrative Procedure Act (60 Stat. 237), and in accordance with Order No. 4 as proposed to be amended (15 F. R. 4133), a public meeting will be held at Room 403, 230 Congress Street, Boston, Massachusetts, on July 17, 1950, at 11:00 a. m., to consider proposed amendments to the rules and regulations (7 CFR 904.101 et seq.) issued by the market administrator to effectuate the terms and provisions of the order. All persons who desire to submit oral data, views, or arguments in connection with the proposed amendments will be given an opportunity to do so at the hearing. All persons who desire to submit written data, views, or arguments in connection with the proposed amendments shall submit them to the market administrator at Room 403, 230 Congress Street, Boston, Massachusetts, by mail or otherwise, in time to be received not later than 5:15 p. m., July 17, 1950.

The market administrator proposes the following amendments to the aforesaid rules and regulations, as amended:

1. Delete § 904.105 (b) (4), and substitute the following:

(4) The butter and cheese adjustment shall not apply to butterfat which is disposed of by the first handler or the second person in a form other than salted butter after being processed into that product. However, if the salted butter is held in inventory by the first handler or the second person at the close of any month, the butterfat in such butter may be tentatively considered as eligible for the adjustment, subject to proof of the form in which the butterfat was subsequently disposed of by the first handler or the second person.

2. Delete that portion of § 904.110 (c) which precedes the table of standard weights, and substitute the following:

(c) *Standard weights.* In the absence of specific weights, the weight of fluid milk products received or disposed of in a quart or 40-quart container shall be determined according to the following table. The weight of such products in any other container shall be determined by multiplying the equivalent number of quarts by the respective standard weight per quart container, except that, in the absence of specific weights, the weight of such products in a 20-quart container shall be considered to be one-half of the applicable standard weight per 40-quart can.

Issued at Boston, Massachusetts, this tenth day of July 1950.

[SEAL] RICHARD D. APLIN,
Market Administrator.

[Docket No. AO-226]

HANDLING OF MILK IN PUGET SOUND, WASH., MARKETING AREA

NOTICE OF HEARING ON PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR Part 900) notice is hereby given of a public hearing to be held at the U. S. Courthouse, Seattle, Washington, beginning at 10:00 a. m., P. d. s. t., August 1, 1950.

The public hearing is for the purpose of receiving evidence with respect to economic and marketing conditions which relate to the handling of milk for the Puget Sound, Washington, marketing area and to the issuance of a marketing agreement and order regulating the handling of milk in the said marketing area. The proposed marketing agreement and order proposals set forth below have not received the approval of the Secretary of Agriculture, and at the hearing evidence will be received relative to all aspects of the marketing conditions which are dealt with by the proposals and any modification thereof:

Marketing agreement and order proposed by the United Dairymen's Association:

DEFINITIONS

§ 925.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 925.2 *Secretary.* "Secretary" means the Secretary of Agriculture, or other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 925.3 *Department.* "Department" means the United States Department of Agriculture or such other Federal agency authorized to perform the price reporting functions specified herein.

§ 925.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 925.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members.

§ 925.6 *Puget Sound, Washington, Marketing Area.* "Puget Sound, Washington, Marketing Area" (hereinafter called the "marketing area") means all territory lying within Whatcom County; all territory lying west of range 8 E. in Skagit, Snohomish, and King Counties; all territory lying west of range 8 E. and within townships 18, 19, 20, 21 and 22 N. in Pierce County; all territory lying within Kitsap County; all territory lying east of range 4 W. in Mason County; all territory lying within Thurston County; all territory lying west of range 5 E. in Lewis County; all territory lying north of township 12 N. in Pacific County; and all territory lying south of T. 19 N. in Grays Harbor County; all in the State of Washington. As used in this definition "territory" shall include all municipal corporations, Federal military reservations, facilities and installations, and state institutions lying wholly or partly within the above described area. The "Northern District" of the marketing area shall include that part of the marketing area lying within Skagit and Whatcom Counties and the "Southern District" shall include the remainder of the marketing area.

§ 925.7 *Route.* "Route" means any delivery (including a sale from a fluid milk plant store) of milk, skim milk, buttermilk, flavored milk, flavored milk drink, or cream in fluid form to a wholesale or retail stop(s) other than a milk distributing or milk processing plant.

§ 925.8 *Fluid milk plant.* "Fluid milk plant" means any milk plant from which a route is operated within the marketing area.

§ 925.9 *Country plant.* "Country plant" means any milk plant, other than a fluid milk plant, approved by any health authority having jurisdiction within the marketing area for the receiving of milk qualified for disposition in fluid form as milk, skim milk, buttermilk, flavored milk, flavored milk drink, or cream within the marketing area: *Provided*, That this definition shall not include any portion of the building or facilities of such plant used to receive or process milk or milk products required to be kept physically separate from milk so qualified.

§ 925.10 *Handler.* "Handler" means:

(a) Any person, irrespective of whether such person is a cooperative association, in his capacity as the operator of a fluid milk plant or country plant; or

(b) Any cooperative association with respect to the milk of any producer which it causes to be diverted to an unapproved plant for the account of such cooperative association.

§ 925.11 *Unapproved plant.* "Unapproved plant" means any milk processing or milk distributing plant which is not a fluid milk plant or country plant.

§ 925.12 *Producer.* "Producer" means any person, other than a producer-handler, who produces milk which is received at a fluid milk plant or country plant: *Provided*, That such milk is produced under a dairy farm permit or rating issued by any health authority having jurisdiction in the marketing area for the production of milk to be disposed of for consumption as Grade A milk. This definition shall include any such person who is regularly classified as a producer but whose milk is caused to be diverted by a handler for his account to an unapproved plant, and milk so diverted shall be deemed to have been received at the fluid milk plant or country plant from which it was diverted.

§ 925.13 *Producer milk.* "Producer milk" means all skim milk and butterfat in milk produced by a producer which is purchased or received by a handler either directly from producers or from other handlers.

§ 925.14 *Other source milk.* "Other source milk" means all milk and butterfat other than that contained in producer milk.

§ 925.15 *Producer-handler.* "Producer-handler" means any person who produces milk and operates a fluid milk plant, but who receives no milk from producers.

§ 925.16 *Base.* "Base" means a quantity of milk, expressed in pounds per day, computed pursuant to § 925.60.

§ 925.17 *Base milk.* "Base milk" means milk delivered by a producer each month, which is not in excess of his base multiplied by the number of days of delivery in such month.

§ 925.18 *Excess milk.* "Excess milk" means milk delivered by a producer in excess of base milk.

MARKET ADMINISTRATOR

§ 925.20 *Designation.* The agency for the administration hereof shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of the Secretary.

§ 925.21 *Powers.* The market administrator shall have the following powers with respect to this order:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 925.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this order, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of funds provided by § 925.88 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses (except those incurred under § 925.87) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for herein, and upon request by the Secretary surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days after the day upon which he is required to perform such acts, has not:

(1) Made reports pursuant to §§ 925.30 to 925.32, inclusive;

(2) Maintained adequate records and facilities pursuant to § 925.33; or

(3) Made payments pursuant to §§ 925.80 to 925.88, inclusive;

(i) On or before the 12th day after the end of each month, report to each cooperative association or its duly designated agent which so requests the amount and class utilization of milk caused to be delivered by such cooperative association, either directly or from producers who are members of such cooperative association, to each handler to whom the cooperative association sells milk. For the purpose of this report the milk caused to be so delivered by a cooperative association shall be prorated to each class in the proportion that the total receipts of producer milk by such handler were used in each class;

(j) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate the prices determined for each month as follows:

(1) On or before the 5th day of each month the minimum prices for Class I milk pursuant to § 925.51 (a) and the Class I butterfat differential pursuant to § 925.52 (a), both for the current month; and the minimum price for Class II milk pursuant to § 925.51 (b) and the Class II butterfat differential pursuant to § 925.52 (b), both for the preceding month; and

(2) On or before the 12th day of each month, the uniform price computed pursuant to § 925.71 and the butterfat differential computed pursuant to § 925.62, both applicable to milk delivered during the preceding month; and

(k) Prepare and disseminate to the public such statistics and information as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS AND FACILITIES

§ 925.30 *Reports of receipts and utilization.* On or before the 7th day of each month each handler, except a producer-handler, shall report to the market administrator for each fluid milk plant and country plant, in the detail and on forms prescribed by the market administrator, as to receipts during the preceding month, as follows:

(a) The quantities of skim milk and butterfat contained in milk received from producers;

(b) The quantities of skim milk and butterfat contained in (or used in the production of) receipts from other handlers;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk (except Class II products disposed of in the form in which received without further processing by the handler);

(d) The utilization of all skim milk and butterfat required to be reported pursuant to this section;

(e) The quantities of base and excess milk received; and

(f) Such other information with respect to receipts and utilization as the market administrator may prescribe.

§ 925.31 *Payroll reports.* On or before the 20th day of each month each handler shall submit to the market administrator his producer payroll for deliveries of the preceding month which shall show (a) the total pounds of base and excess milk received from each producer and cooperative association and the total pounds of butterfat contained in such milk, (b) the amount of payment to each producer and cooperative association, and (c) the nature and amount of any deductions or charges involved in such payments.

§ 925.32 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler who causes milk to be diverted to an unapproved plant shall, prior to such diversion, report to the market administrator and to the cooperative association of which such producer is a member, his intention to divert such milk, the proposed date or dates of such diversion and the plant to which such milk is to be diverted.

§ 925.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of all receipts of producer milk and other source milk;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and milk products handled;

(c) Payments to producers and cooperative associations; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and milk products on hand at the beginning and end of each month.

§ 925.34 *Retention of records.* All books and records required under this order to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That, if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8s (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 925.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the month by a handler which is required to be reported pursuant to § 925.30 shall be classified by the market administrator pursuant to the provisions of §§ 925.41 to 925.45, inclusive.

§ 925.41 *Classes of utilization.* Subject to the conditions set forth in §§ 925.42 and 925.43, inclusive, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat disposed of in the form of milk, skim milk, buttermilk, yogurt flavored milk, flavored milk drinks, cream (sweet or sour), any mixture (except bulk ice cream mix) of cream and milk or skim milk in fluid form, and all skim milk and butterfat not specifically accounted for under paragraph (b) of this section;

(b) Class II milk shall be all skim milk and butterfat (1) used to produce any product other than those specified in paragraph (a) of this section, (2) disposed of for livestock feed, and (3) in inventory variations of milk, skim milk and cream.

§ 925.42 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat (except that transferred to a producer-handler) shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 925.43 *Transfers.* Skim milk or butterfat disposed of by a handler either by transfer or diversion shall be classified:

(a) As Class I milk if transferred or diverted in the form of milk, skim milk or cream to the fluid milk plant of another handler (except a producer-handler) unless utilization in Class II is mutually indicated in writing to the market administrator by both handlers on or before the 5th day after the end of the month within which such transaction occurred: *Provided*, That the skim milk or butterfat so assigned to Class II shall be limited to the amount thereof remaining in Class II in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 925.45 (a) (1) and any additional amounts of such skim milk or butterfat shall be assigned to Class I: *And provided further*, That if either or both handlers have received other source milk, the skim milk or butterfat so transferred or diverted shall be classified at both plants so as to allocate the greatest possible Class I utilization to producer milk.

(b) As Class I milk if transferred or diverted to a producer-handler in the form of milk, skim milk or cream.

(c) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to an unapproved plant located more than 120 miles from the County-City Building in Seattle by the shortest highway distance as determined by the market administrator: *Provided*, That if a handler transfers or diverts producer milk to any unapproved plant operated by him and such plant disposes of milk, skim milk, or cream in fluid form to any other unapproved plant distributing fluid milk which is located more than 120 miles from the County-City Building in Seattle such disposition of milk shall be deemed to be producer milk and shall be classified as Class I milk.

(d) (1) As Class I milk if transferred or diverted in the form of milk, skim milk or cream to an unapproved plant located more than 120 miles from the County-City Building in Seattle, and from which milk is disposed of in fluid form unless all the following conditions are met:

(i) The market administrator is permitted to audit the records of such unapproved plant; and

(ii) Such unapproved plant receives milk from dairy farmers whom the market administrator determines constitute its regular source of supply for Class I milk.

(2) If these conditions are met, the market administrator shall classify such milk as reported by the handler subject to verification as follows:

(i) Determine the use of all skim milk and butterfat at such unapproved plant, and (ii) allocate the skim milk and butterfat so transferred or diverted to the highest use classification remaining after subtracting in series, beginning with the highest use classification, the skim milk and butterfat in milk received at the unapproved plant direct from dairy farmers who constitute the regular source of supply.

(e) As Class II milk if transferred or diverted in the form of milk, skim milk or cream to an unapproved plant located not more than 120 miles from the County-City Building in Seattle and from which milk is not disposed of in fluid form.

§ 925.44 *Computation of the skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and for other obvious errors the monthly report submitted by each handler and shall compute the pounds of skim milk and butterfat in Class I milk and Class II milk for such handler.

§ 925.45 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 925.44, the marked administrator shall determine the classification of milk received from producers as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the pounds of skim milk in Class II the pounds of skim milk in other source milk: *Provided*, That if the receipts of skim milk in other source milk are greater than the remaining pounds of skim milk in Class II, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class II;

(2) Subtract from the pounds of skim milk in each class the skim milk received from other handlers according to its classification as determined pursuant to § 925.43 (a); and

(3) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk received from producers, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be called "overage".

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of the Class I and Class II milk computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 925.50 *Basic formula price to be used in determining Class I prices.* The basic formula price to be used in determining the price per hundredweight of Class I milk shall be the highest of the prices computed pursuant to paragraphs (a), (b), and (c) of this section for the preceding month.

(a) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department, divided by 3.5 and multiplied by 4.0:

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.

White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed from the following formula:

(1) Multiply the simple average as computed by the market administrator, of the daily average wholesale selling price (using the midpoint of any price range as one price) of Grade A (92-score bulk creamery butter per pound at Chicago, as reported by the Department during the month) by 6;

(2) Add 2.4 times the simple average, as published by the Department, of the prices determined per pound of "Cheddars" on the Wisconsin Cheese Exchange at Plymouth, Wisconsin, for the trading days that fall within the month;

(3) Divide by 7;

(4) Add 30 percent thereof; and

(5) Multiply by 4.

(c) The price per hundredweight computed from the following formula:

(1) Multiply by 4.8 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter per pound at Chicago, as reported by the Department during the month: *Provided*, That if no price is reported for Grade AA (93-score) butter, the highest of the prices reported for Grade A (92-score) butter for that day shall be used in lieu of the price for Grade AA (93-score) butter;

(2) Multiply by 8.2 the simple average, as computed by the market administrator, of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department; and

(3) From the sum of the results arrived at under paragraphs (1) and (2) of this paragraph, subtract 67 cents.

§ 925.51 *Class prices.* Subject to the provisions of §§ 925.52 and 925.53, inclusive, the minimum prices per hundredweight to be paid by each handler for milk received at his plant from producers during the month shall be as follows:

(a) *Class I milk.* The basic formula price plus $1.45.

(b) *Class II milk.* The price for Class II milk shall be that computed from the following formula:

(1) Multiply by 4.8 the simple average, as computed by the market administrator, of the daily wholesale selling price (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter per pound at San Francisco, as reported by the United States Department of Agriculture during the month: *Provided*, That if no price is reported for Grade AA (93-score) butter, the highest of the prices reported for Grade A (92-score) butter for that day shall be used in lieu of the price for Grade AA (93-score) butter;

(2) Multiply by 8.2 the simple average, as computed by the market administrator, of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the United States Department of Agriculture; and

(3) From the sum of the results arrived at under subdivisions (1) and (2) of this subparagraph, subtract 80 cents.

§ 925.52 *Butterfat differential to handlers.* If the average butterfat content of the milk of any handler allocated to any class pursuant to § 925.45 is more or less than 4.0 percent, there shall be added to the respective class price computed pursuant to § 925.51 for each one-tenth of 1 percent that the average butterfat content of such milk is above 4.0 percent, or subtracted for each one-tenth of 1 percent that such average butterfat content is below 4.0 percent, a butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at San Francisco as reported by the Department during the preceding month by the applicable factor listed below and dividing the result by 10:

(a) Class I milk: Multiply by 1.40;

(b) Class II milk: Multiply by 1.15.

§ 925.53 *Location adjustment credit to handlers.* (a) With respect to milk, skim milk or cream actually moved from a country plant or from a fluid milk plant owned by a cooperative association to a fluid milk plant, the transferring handler shall be credited at the rate of 10 cents per hundredweight of the product moved if the distance between the plants is 5 to 20 miles and 25 cents if the distance is more than 20 miles: *Provided*, That with respect to milk, skim milk or cream actually moved from plants in the Northern District to fluid milk plants in the Southern District the transferring handler shall be credited at the rate of 25 cents per hundredweight of the product moved: *And provided further*, That the appropriate credit shall be limited to a quantity equal to the difference between the base milk of the transferee handler and the total amount of milk received directly from producers at the fluid milk plant of such handler.

(b) With respect to Class I milk disposed of from fluid milk plants in the Northern District, the Class I price shall be 25 cents less than the price determined pursuant to § 925.51 (a).

DETERMINATION OF BASE

§ 925.60 *Computation of daily base.* Subject to the base rules set forth in § 925.61, the market administrator shall compute a daily base for each producer in the following manner and such base shall be in effect for the months of April through March, inclusive:

(a) Except as provided in (b) of this section, divide such producer's deliveries of milk in the four months of his lowest production between the preceding months of September and February, both inclusive, by the number of days of delivery in such four months: *Provided*, That no month in which the producer delivered less than 15 days shall be used in such computations:

(b) If a producer did not deliver milk during four of the months in such six-month period September through February as required by (a) of this section, his base shall be computed by applying the following percentages, respectively, to his deliveries in the following months of April through March: *Provided*, That for each sequence of twelve months beginning with April 1951 the market administrator shall compute percentages which the market's four low months shall bear to deliveries in each of the preceding twelve months and subtract 10; and the resulting percentage shall become the base for new producers:

Month:	*Percentage*	Month:	*Percentage*
April	70	October	90
May	55	November	90
June	60	December	90
July	65	January	90
August	70	February	85
September	85	March	80

§ 925.61 *Base rules.* The following rules shall be observed in the determination of bases:

(a) A landlord who rents to a tenant is entitled to the entire base if the landlord owns the entire herd.

(b) A tenant who rents a farm is entitled to the entire base if the tenant owns the entire herd.

(c) In the event both landlord and tenant have ownership in a herd and such landlord-tenant relationship terminates, division of base shall be made proportionately based on the number of cows owned by each at the time of division.

(d) A producer with a base, whether landlord or tenant, may retain his base when moving his entire herd from one farm to another.

(e) A tenant or landlord who owns a herd having no base, who joins with a

landlord or tenant having a base, may earn a base under § 925.60 (b), but in this event the current base shall be relinquished and the new base shall be a combined base for both parties.

(f) A producer who does not deliver to a handler for more than 45 days shall lose his base and if he returns to a handler he shall be paid on a base determined pursuant to § 925.60 (b) until he can establish a new base under § 925.60 (a).

(g) A producer who sells his entire herd to another producer may transfer his base to such purchaser.

(h) By notifying the market administrator at least 30 days in advance, a producer may relinquish his base established pursuant to § 925.60 (a) once in any year ending with February, and receive a base for the balance of such year in the manner provided by § 925.60 (b).

(i) In the event of a partnership, the base shall be a combined base and in the event of dissolution of the partnership shall be divided among the partners in proportion to the division of the herd.

(j) In the event of the death or retirement of a person having a base, such base may be transferred to an immediate member of his family who carries on the dairy operations: *Provided*, That such successor continues to supply the market without interruption.

DETERMINATION OF UNIFORM PRICE

§ 925.70 *Computation of value of milk.* The value of milk received during each month by each handler from producers shall be a sum of money computed by the market administrator by multiplying the pounds of such milk in each class by the applicable class prices, adding together the resulting amounts and deducting therefrom the values of all location adjustments computed at the applicable rates set forth in § 925.53: *Provided*, That if the handler had overage of either skim milk or butterfat there shall be added to the above values an amount computed by multiplying the pounds of overage deducted from each class pursuant to § 925.44 by the applicable class prices.

§ 925.71 *Computation of uniform price.* For each month the market administrator shall compute the uniform price per hundredweight for milk of 4.0 percent butterfat content received from producers as follows:

(a) Combine into one total the values computed pursuant to § 925.70 for all handlers who made the reports prescribed in § 925.30 and, after this order has been in effect for two months, who made the payments pursuant to §§ 925.80 and 925.84 for the preceding month.

(b) Add the aggregate of the values of the maximum allowable location adjustments to producers pursuant to § 925.81 (a) and (b).

(c) Add not less than one-half of the cash balance on hand in the producer-settlement fund less the total amount of the contingent obligations to handlers pursuant to § 925.85.

(d) Subtract if the average butterfat content of the milk included in these computations is greater than 4.0 percent or add if such average butterfat content is less than 4.0 percent an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 925.82 and multiplying the resulting figure by the total hundredweight of such milk;

(e) Compute the total value of excess milk by multiplying the hundredweight of such excess milk by the Class II price for 4.0 percent milk.

(f) Compute the total value of base milk delivered by producer by subtracting the value computed pursuant to (e) of this section from the value computed pursuant to (d) of this section: *Provided*, That if such resulting value is greater than an amount computed by multiplying the pounds of base milk by the Class I price (§ 925.51) such value in excess thereof shall be subtracted from the value of the base milk and added to the value computed in (e) of this section;

(g) Divide the result obtained in (f) of this section by the total hundredweight of base milk and subtract not less than 4 cents nor more than 5 cents. This result shall be known as the uniform price per hundredweight of base milk of 4.0 percent butterfat content; and

(h) Divide the result obtained in (e) of this section by the hundredweight of excess milk and subtract not less than 4 cents nor more than 5 cents. This result shall be known as the uniform price per hundredweight of excess milk of 4.0 percent butterfat content.

PAYMENTS

§ 925.80 *Time and method of payment.* Each handler shall make payment as follows:

(a) On or before the 15th day after the end of the month during which the milk was received, each handler other than a cooperative association shall make payment to each producer for milk received from such producer during such month, as follows:

With respect to producers whose milk was caused to be delivered to such handler by a cooperative association which does not operate a fluid milk plant or country plant but which is authorized to collect payment for such milk, the handler shall, if the cooperative association so requests, pay such cooperative association on or before the 13th day after the end of the month, an amount equal to the sum of the individual payments otherwise payable to such producers in accordance with this paragraph:

(1) At not less than the uniform price for base milk for the quantity of base milk received from such producer, subject to the butterfat differential computed pursuant to § 925.82 and to the location differential set forth in § 925.81; and

(2) At not less than the uniform price for excess milk for the quantity of excess milk received from such producer, subject to the butterfat differential computed pursuant to § 925.82.

(b) On or before the 13th day after the end of each month each handler shall pay to each cooperative association which operates a fluid milk plant or country plant, for milk purchased or received from it during such month, an amount of money representing not less than the total value of such milk computed by multiplying the pounds of such milk in each class by the applicable class price.

§ 925.81 *Location adjustments to producers.* In making payments pursuant to § 925.80, the following deductions may be made:

(a) An amount not in excess of 25 cents per hundredweight may be deducted with respect to producer milk received at country plants located at Lynden, Ferndale, Everson, Sumas, Burlington, Mt. Vernon, Conway, Arlington, Snohomish, Enumclaw, Yelm, Issaquah, Satsop, Sequim, Dungeness or Chehalis, or at any other country plant located more than 20 miles from the County-City Building in Seattle: *Provided*, That an additional amount of 10 cents per hundredweight may be deducted with respect to those country plants located on the Olympic Peninsula;

(b) An amount not in excess of 25 cents per hundredweight may be deducted with respect to producer milk received from farms at loading platforms located at Conway or Elma, or at any other loading platform more than 20 miles from the fluid milk plant for which the milk is received, and reloaded to other trucks for delivery to such fluid milk plant.

(c) A further amount not in excess of 25 cents per hundredweight may be deducted with respect to producer milk received at the country plants specified in paragraph (a) of this section as a plant handling charge at such plants.

§ 925.82 *Producer butterfat differential.* In making payments pursuant to § 925.80 for base and for excess milk, there shall be added to or subtracted from the uniform prices thereof for each one-tenth of 1 percent that the average butterfat content of the base and excess milk received from the producer are above or below 4.0 percent, a butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at San Francisco as reported by the Department during the month, by 1.4 in the case of base milk, and by 1.15 in the case of excess milk, and, in each case, dividing the resulting amount by 10, and rounding to the nearest one-tenth of a cent.

§ 925.83 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund", into which he shall deposit all payments made by handlers pursuant to §§ 925.84 and 925.86, and out of which he shall make all payments to handlers pursuant to §§ 925.85 and 925.86, inclusive.

§ 925.84 *Payment to the producer-settlement fund.* On or before the 13th day after the end of the month during which the milk was received, each handler, including a cooperative association which is a handler, shall pay to the market administrator the amount, if any, by

which the value of the milk received by such handler from producers as determined pursuant to § 925.70 is greater than the amount required to be paid producers by such handler pursuant to § 925.80 (a).

§ 925.85 *Payments out of the producer-settlement fund.* On or before the 14th day after the end of the month during which the milk was received, the market administrator shall pay to each handler, including a cooperative association which is a handler, the amount, if any, by which the value of the milk received by such handler from producers during the month as determined pursuant to § 925.70 is less than the amount required to be paid producers by such handler pursuant to § 925.80 (a): *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. No handler who has not received the balance of such payment from the market administrator shall be considered in violation of § 925.80 (a) if he reduces his payments to producers by not more than the amount of the reduction in payment from the producer-settlement fund. The handler shall complete such payments to producers not later than the date for making such payments next following after the receipt of the balance from the market administrator.

§ 925.86 *Adjustments of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting on moneys due (a) the market administrator from such handler, (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 925.87 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than himself) pursuant to § 925.80, shall deduct 5 cents per hundredweight or such amount not exceeding 5 cents per hundredweight as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of each month. Such moneys shall be used by the market administrator to sample, test, and check the weights of milk received from producers and to provide producers with market information.

(b) In the case of producers for whom a cooperative association is actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers, and on or before the 15th day after the end of each month pay such deduction to the cooperative association rendering such services.

§ 925.88 *Expense of administration.* As his prorata share of the expense of administration hereof, each handler shall pay to the market administrator on or before the 15th day after the end of the month 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all receipts within the month of (a) other source milk which is classified as Class I milk, and (b) milk from producers including such handler's own production.

§ 925.89 *Termination of obligation.* The provisions of this section shall apply to any obligation under this order for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this order, to make available to the market administrator or his representatives all books and records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this order shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 925.90 *Effective time.* The provisions hereof or any amendment hereto shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 925.91.

§ 925.91 *Suspension or termination.* The Secretary may suspend or terminate this order or any provision hereof whenever he finds this order or any provision hereof obstructs or does not tend to effectuate the declared policy of the act. This order shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 925.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this order, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 825.93 *Liquidation.* Upon the suspension or termination of the provisions hereof, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall if so directed by the Secretary liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 925.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

§ 925.101 *Separability of provisions.* If any provision hereof, or its application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions hereof, to other persons or circumstances shall not be affected thereby.

§ 925.102 *Producer-handlers.* Sections 925.40 to 925.45, inclusive, 925.50 to 925.53, inclusive, 925.70 to 925.71, inclusive, and 925.80 to 925.89, inclusive, shall not apply to a producer-handler.

Proposed by Kitsap Dairymen's Association:

1. Eliminate the "Kitsap-Mason County peninsula" from the definition of "Puget Sound, Washington, marketing area" as proposed by the United Dairymen's Association.

Proposed by the Puget Sound Handlers Committee:

2. "Puget Sound Washington Marketing Area" means all territory lying within Whatcom County; all territory lying West of Range 8E in Skagit, Snohomish and King Counties; all territory lying within Clallam, Jefferson, Grays Harbor, Mason and Kitsap Counties; all territory lying West of Range 8E and within townships 18, 19, 20, 21, and 22N in Pierce County; all territory lying within Thurston County; all territory lying West of Range 5E in Lewis County; and all territory lying North of Township 12N in Pacific County. As used in this definition "territory" shall include all municipal corporations; Federal military reservations, facilities and installations; and state institutions lying wholly or partly within the above described area. The "Northern District" of the Marketing Area shall include that part of the Marketing Area lying within Skagit and Whatcom Counties and the "Southern District" shall include the remainder of the Marketing Area.

Copies of this notice of hearing may be procured from the Hearing Clerk, United States Department of Agriculture in Room 1353, South Building, Washington 25, D. C., or may be there inspected.

Dated: July 12, 1950.

PEACHES GROWN IN UTAH

NOTICE OF PROPOSED RULES AND REGULATIONS

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that consideration is being given to the following proposed administrative rules and regulations submitted by the Administrative Committee functioning under the marketing agreement and Order No. 50 (7 CFR Part 950), regulating the handling of peaches grown in the State of Utah, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended:

§ 950.100 *Definitions.* (a) "Marketing agreement and order" means Marketing Agreement No. 91 and Order No. 50 (7 CFR Part 950) regulating the handling of peaches grown in the State of Utah.

(b) All terms used herein shall have the same meaning as when used in the marketing agreement and order.

§ 950.101 *General.* Unless otherwise provided in the marketing agreement and the order or by specific direction of the Administrative Committee, all reports, applications, submittals, requests, and communications in connection with the marketing agreement and order shall be addressed to Administrative Committee, Room 412, State Capitol Building, Salt Lake City, Utah.

§ 950.104 *Exemption certificates.* (a) Each application for an exemption certificate shall be submitted on Form A "Application for Exemption from Grade and Size Regulation," which may be obtained from the Administrative Committee, and shall contain the following information:

(1) Name and address of applicant;

(2) Location of each orchard from which peaches will be shipped pursuant to the exemption certificate requested;

(3) Estimated total production of peaches from such orchard and all other orchards owned or controlled by such applicant;

(4) Estimated percentage of peaches of such production which cannot be shipped because of the then effective (i) grade regulation, and (ii) size regulation, together with the reasons why such percentage fails to meet the requirements of the grade and size regulations; and

(5) The total quantity of such peaches which the applicant shipped or otherwise disposed of since the beginning of the then current peach shipping season.

Each such application shall be accompanied by a statement of an authorized representative of the Federal-State Inspection Service showing that he has checked the orchards identified in such application and that he has determined, from a representative sample of the peaches, the percentage of such peaches which will meet the requirements of the aforesaid grade and size regulations; and such percentage shall be set forth in such statement.

(b) In the event the Administrative Committee finds that the applicant is entitled to an exemption certificate, it shall issue, or cause to be issued, an appropriate form of exemption certificate. If the Administrative Committee finds that the applicant is not entitled to an exemption certificate, it shall so advise the applicant promptly in writing and state the reasons therefor.

(c) Each producer who ships peaches, or causes peaches to be shipped, pursuant to an exemption certificate, shall submit promptly to the Administrative Committee an accurate report with respect to the disposition of each such shipment, and the date and quantity thereof.

§ 950.105 *Reports.* Each handler shall with respect to all peaches shipped by him each day, promptly report, or cause to be reported, to the Administrative Committee the point of origin of each shipment, the number and type of packages, the grades and sizes of the peaches, and the number of the railroad car or the license number of the truck in which such peaches were shipped.

All persons who desire to submit written data, views, or arguments for consideration in connection with such proposed rules and regulations may do so by mailing the same to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, Room 2077, South Building, Washington, 25, D. C., not later than the tenth day after the publication of this notice in the FEDERAL REGISTER.

Issued this 12th day of July 1950.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[Docket No. AO-178-A2]

HANDLING OF MILK IN MINNEAPOLIS-ST. PAUL, MINN., MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Minneapolis-St. Paul, Minnesota marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C. not later than the close of business the 7th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed amendment to the tentative marketing agreement and to the order, as amended, was formulated, was conducted at Minneapolis, Minnesota, on April 13, 1950, pursuant to notice thereof which was issued on March 23, 1950 (15 F. R. 1695).

The material issues of record related to (1) the addition of the city of Anoka to the marketing area, (2) revision of the classification of milk, specifically with respect to natural buttermilk, unaccounted for milk, and flavored milk in hermetically sealed containers, (3) allocation of milk received from nonpool plants, (4) revision of the Class II pricing formula, (5) revision of the Class I differentials, (6) classification of receipts from producer-handlers, and (7) a reissuance of the entire order.

Findings and conclusions. Upon the basis of the evidence adduced at such hearing it is hereby found and concluded that:

(1) The marketing area should not be extended to include the city of Anoka. The only reason advanced by the proponent for including Anoka in the marketing area was the fact that he distributed milk there in competition with other persons who are not handlers subject to the regulation. At the present time milk is widely distributed by other handlers in communities outside the marketing area under competitive circumstances similar to those existing in Anoka. If Anoka were added to the marketing area it would appear equally logical to add these communities. However, it is neither practical nor feasible to extend the marketing area to include the entire territory within which handlers distribute milk. No evidence was presented tending to indicate the community as a market for milk is homogeneous with that of the present marketing area. The fact standing alone that milk is being distributed in Anoka in competition with milk not subject to regulation does not justify the extension of the marketing area to include such community.

(2) The classification of milk should be revised to provide that all unaccounted for milk be classified as Class I, and that flavored milk and flavored milk drinks in hermetically sealed containers be classified as Class II. No change should be made in the classification of natural buttermilk disposed of for fluid consumption, either plain or with culture added.

At the present time unaccounted for milk up to 1 percent of a handler's receipts is prorated over his entire utilization, and any additional amount is classified as Class I. It was proposed by one of the larger handlers in the market, that all unaccounted for milk be classified as Class I. It was the contention of this handler that, since virtually all the milk handled by the distributing plants is Class I, the slight reduction in total cost of milk to handlers resulting from the present proration is insignificant and is more than offset by the increased bookkeeping and accounting costs involved. The only other testimony concerning the proposal was made by the cooperative association which is the supplier of most of the handlers in the market, and which handles in its own plants virtually all of the Class II milk on the market. In large part its testimony was similar to that of the proponent. Since administrative experience tends to confirm this view, it has been concluded that all unaccounted for milk be classified as Class I.

Flavored milk and flavored milk drinks in hermetically sealed containers should be classified as Class II. These products are not subject to the local health regulations applicable to fresh fluid milk and milk drinks. They are made by nonhandlers, some of whom are located great distances from the marketing area. From an administrative standpoint, it would be unwise to classify such products as Class I. Placing these products in Class I would make the processors of them handlers subject to the order. Because of the location of the plants and the manner of distribution (normally through wholesale grocers rather than milk plants) it woud be highly impracticable to attempt to regulate such plants.

Natural buttermilk should continue to be classified as Class I when disposed of for fluid consumption either in its natural form or in the form of flavored milk or cultured buttermilk.

It was proposed by one of the handlers that the natural buttermilk resulting from the churning operations in the handler's own plant, be classified as Class II, even when disposed of as cultured buttermilk or flavored milk drinks. The proponent operates the only distributing plant in the market where any appreciable amount of butter is churned. The testimony shows that cultured buttermilk and flavored milk drinks made from natural buttermilk are indistinguishable from similar products made from skim milk. The health regulations applicable in the marketing area make no distinction between the two products. Reclassifying these products in Class II if made from buttermilk, would result in a decided competitive advantage to the proponent, since it would result in his being required to pay approximately 1.25 cents per quart less than other handlers for his raw product. It is concluded that the order should not be amended in this respect.

(3) No change should be made in the method of allocating milk received from nonpool plants. The proposed amendment would have prorated such milk rather than allocated it to the lowest class use as provided in the present order. The present provision has not operated to the disadvantage of the proponents but they advance their amendment solely on the basis of "principle." The principle upon which proponents rely, however, seems inappropriate in the circumstances of this market.

A major purpose of the Agricultural Marketing Agreement Act of 1937 is to assure that regulated markets are supplied with adequate quantities of pure and wholesome milk. Under present practice local communities determine, by virtue of the sanitary standards which they promulgate in the interest of protecting the health of such local communities, what is to be accepted as "pure and wholesome milk." The Federal Government does not enforce health and sanitation standards for milk. Consequently the reference in the act to "pure and wholesome milk" means milk meeting the sanitation standards of local health authorities and it is, therefore, a policy of the act to provide for adequate supplies of locally approved milk for regulated marketing areas.

Under the circumstances of this market proponent's suggested amendment would have two consequences:

(a) It would tend to reduce at certain times the returns which farmers receive for milk which is produced in conformity with the local sanitary standards applicable in this marketing area and this, in turn, would tend to hinder the production of an adequate supply of locally produced milk, and

(b) It would increase the incentive for milk handlers to substitute milk which does not meet sanitation standards of this market for milk which does meet such standards. Both of these consequences are objectionable under the act.

(4) The Class II pricing formula should be revised to more accurately reflect actual yields of butter and nonfat dry milk solids and to provide a more realistic allowance for manufacturing costs. At the present prices of butter and nonfat dry milk solids, the net effect of the change would be a reduction of approximately 6 cents per hundredweight. Specifically, the proposed change would (a) increase the presumed yields of butter and nonfat dry milk solids from 4.2 and 7.7 pounds respectively, to 4.24 and 8.2 pounds, (b) use the price of spray process nonfat dry milk solids, rather than the average of the prices of spray and roller process, and (c) increase the "make allowance" from 42 cents to 65 cents per hundredweight of milk.

The proposed yields, on the basis of recent studies introduced in evidence, will much more nearly reflect the actual operations of manufacturing plants under the order than do the present yield factors. Since virtually all of the powder manufactured under the order is spray process, it has been deemed proper to use the price of it alone rather than the average of the prices of both spray and roller process.

The proposed "make allowance" of 65 cents is intended not only to reflect the increased costs of plant operation which have occurred since the original formula was adopted in 1945, but also to establish a price for manufacturing milk comparable to that being paid by plants located adjacent to the marketing area. During February (the last month for which figures are available in the record) the average price paid for milk by seven manufacturing plants operated by nonhandlers located within 25 or 30 miles of the marketing area was $3.03 per hundredweight. The proposed formula would have resulted in a price of $3.02.

The only plant for which actual figures are shown in the record had an actual cost of 61 cents per hundredweight. This plant, however, handles a much larger volume of milk than the average plant and is locally considered to operate much more efficiently than the average plant in the area.

It is concluded that the proposed allowance of 65 cents will establish a price for manufacturing milk competitive with that being paid locally, in addition to reflecting the increased costs of processing milk.

A group of Wisconsin manufacturing plants which are not subject to the order and which are located beyond the outer limits of the milkshed, urged that the proposed formula should be reduced substantially and fixed at about the level of the Class IV price in the Chicago market,

The Class IV price in the Chicago market, however, applies only to milk used to produce butter, cheese, and nonfat dry milk solids and is not comparable to the Class II price in the Minneapolis market which is applicable to a wide variety of products, including ice cream, cottage cheese, evaporated and condensed milk and others, many of which are priced substantially higher under the Chicago order.

In order to bring the Class II butterfat differential in line with the change in the butter yield proposed above, the "overrun" factor in the butterfat differential should be changed from 20 percent to 21.14 percent.

(5) The Class I differential for the months of August through November should be reduced from $1.00 to 85 cents. The present differentials were established when the market was in a period of transition from a Nongrade A to a Grade A status. The shift of producers to Grade A production has been very rapid and virtually the entire supply for the market is now of Grade A quality. It appears that the present differentials, if maintained during the months of August through November, would result in a higher Class I price than necessary to maintain an adequate supply of milk for the market. Under the present order the Class I price during those months would be somewhat higher than the Class I price under the Chicago order at the points where the two milksheds are contiguous and might result in drawing milk from the Chicago to the Minneapolis market. During the other months the differentials are such as to maintain a reasonable balance between the two milksheds. The proposed reduction in the differential during these months, would bring the Class I prices in the two orders more nearly in line and would remove the incentive for producers to shift from the Chicago to the Minneapolis-St. Paul market.

The proposal to increase the Class I differential from 70 cents to 85 cents during the month of July should be denied. It appears that there will be an ample supply of milk during the month and that no additional incentive is needed.

Likewise, the proposal that the Class I differential be increased 5 cents during the months of August through November should the basic price be $3.00 or more should be denied. While there is undoubtedly some merit to changing the amount of the differential when there are wide changes in the basic price, the record evidence on this proposal is sketchy. A much more comprehensive analysis of the problem should be made before any action is taken on the proposal.

The alternative basic price which incorporates the "butter-cheese" formula should be revised to delete the reference to "Twins." In recent years there have been very few prices for "Twins" quoted on the Wisconsin Cheese Exchange. As a consequence the price of "Cheddars" has been used continuously in the formula. The terms of the order should be revised to conform to the existing conditions.

(6) A producer-handler who disposes of skim milk or butterfat to another handler should be considered a producer with respect to such sales only if they are of whole milk. Sales of skim milk or cream by a producer-handler should be considered inter-handler sales and should be outside the pricing provisions of the order. The present construction of the order in this respect has created several problems, and from an administrative point of view it is imperative that the proposed change be made.

(7) The entire order should be renumbered and reissued to conform to the numbering system now required by the FEDERAL REGISTER. The reissuance and renumbering of the entire order will have no substantive effect except as to those provisions of the order which specifically should be amended as aforesaid. The issuance of a complete amended order at this time with section numbering conforming to FEDERAL REGISTER requirements is desirable so that all of the provisions of the order, as amended, will be readily accessible in a single document.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk, in the marketing area and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of Twin City Milk Producers Association, Dairy Cooperative Institute, Maple Island, Inc., and L. J. Haack doing business as Anoka Dairy.

The briefs contained statements of fact, proposed findings and conclusions, and arguments with respect to the provisions of the proposed amendments. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the fact found and stated in connection with the conclusions in this recommended decision.

Recommended marketing agreement and amendment to the order. The following amendment to the order is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the order, as amended, and as hereby proposed to be further amended.

DEFINITIONS

§ 973.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

§ 973.2 *Secretary.* "Secretary" means the Secretary of Agriculture or any officer or employee of the United States who is authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 973.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or such other Federal agency as may be authorized to perform the price reporting functions of the United States Department of Agriculture.

§ 973.4 *Minneapolis-St. Paul, Minnesota, marketing area.* "Minneapolis-St. Paul, Minnesota, marketing area" hereinafter called the "marketing area" means the territory within the corporate limits of the cities of Minneapolis, Robbinsdale, and Wayzata in Hennepin County; Columbia Heights in Anoka County; St. Paul and White Bear in Ramsey County; West St. Paul and South St. Paul in Dakota County; together with the following townships and all villages therein: Brooklyn, Crystal, St. Anthony, Golden Valley, St. Louis Park, Orono, Excelsior, Minnetonka, Edina, Bloomington, and Richfield in Hennepin County; Fridley in Anoka County; Mounds View, Rose, White Bear, and New Canada in Ramsey County; Grant, Oakdale, Woodbury, Cottage Grove, and Newport in Washington County; and Mendota, West St. Paul, and Inver Grove in Dakota County; all in the State of Minnesota.

§ 973.5 *Pool plant.* "Pool plant" means any milk processing plant during any delivery period within which skim milk or butterfat (a) is disposed of as Class I milk from such plant on wholesale or retail routes (including plant stores) within the marketing area, (b) is transferred as Class I milk from such plant to a plant described in paragraph (a) of this section unless such transfer is made only during the months of August to November, inclusive, or (c) is transferred as Class I milk from such plant to a plant described in paragraph (b) of this section unless such transfer is made only during the months of August to November, inclusive. Any such plant shall continue to be a "pool plant" during any delivery period in which skim milk or butterfat is transferred as Class I milk from such plant to another

pool plant until August 1 of the year following that in which such transfer was last made.

§ 973.6 *Nonpool plant.* "Nonpool plant" means any milk processing plant during any delivery period when such plant does not meet the requirements set forth in § 973.5. Any such plant shall become a "pool plant" during any delivery period within which it meets the requirements set forth in § 973.5.

§ 973.7 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 973.8 *Producer.* "Producer" means any person, irrespective of whether such person is also a handler, who produces milk which is received directly from such person's farm at a pool plant.

§ 973.9 *Handler.* "Handler" means any person, irrespective of whether such person is also a producer, in his capacity as the operator of a pool plant.

§ 973.10 *Producer-handler.* "Producer-handler" means any person who is both a producer and a handler and who receives no milk directly from the farms of other producers: *Provided*, That the maintenance, care, and management of the dairy animals and other resources necessary to produce the milk, and the processing, packaging, and distribution of the milk are the personal enterprise and the personal risk of such person.

§ 973.11 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act", and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

§ 973.12 *Market administrator.* "Market administrator" means the person designated pursuant to § 973.20 as the agency for the administration hereof.

§ 973.13 *Delivery period.* "Delivery period" means a calendar month or the portion thereof during which this order is in effect.

MARKET ADMINISTRATOR

§ 973.20 *Designation.* The agency for the administration hereof shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 973.21 *Powers.* The market administrator shall:

(a) Administer the terms and provisions hereof;

(b) Receive, investigate, and report to the Secretary complaints of violations of the terms and provisions hereof;

(c) Recommend to the Secretary amendments hereto; and

(d) Make rules and regulations to effectuate the terms and provisions hereof.

§ 973.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions hereof, including but not limited to, the following:

(a) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Pay, out of the funds provided by § 973.90, the cost of his bond, his own compensation, and all other expenses necessarily incurred in the maintenance and functioning of his office, except as provided by § 973.91;

(c) Keep such books and records as will clearly reflect the transactions provided for herein and surrender the same to his successor or to such other person as the Secretary may designate;

(d) Unless otherwise directed by the Secretary publicly disclose within 30 days after such nonperformance becomes known to the market administrator, the name of any person who, within 20 days after the date on which he is required to perform such acts, has not (1) made reports pursuant to § 973.30 or (2) made payments pursuant to §§ 973.80 and 973.83; and may at any time thereafter so disclose any such name if authorized by the Secretary;

(e) Verify each handler's records and payments by inspection of such handler's records and the records of any other person upon whose utilization the classification of skim milk or butterfat for such handler depends; and

(f) Prepare and disseminate to the public such statistics and information concerning the operations hereunder as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS, AND FACILITIES

§ 973.30 *Delivery period of reports of receipts and utilization.* On or before the 8th day of each delivery period, each handler, except a producer-handler, shall report to the market administrator with respect to all skim milk and butterfat, except that in nonfluid milk products disposed of in the form in which received without further processing or packaging, received by him at each pool plant during the preceding delivery period in the detail and on forms prescribed by the market administrator:

(a) The quantities of skim milk and the quantities of butterfat contained in (or used in the production of) receipts from producers (including his own production), producer-handlers, pool plants and nonpool plants, and the sources thereof;

(b) The utilization of all skim milk or butterfat disposed of;

(c) The quantities of skim milk and butterfat on hand at the beginning and end of each delivery period; and

(d) Such other information with respect to all such receipts and utilization as the market administrator may prescribe.

§ 973.31 *Reports of producer-handlers.* Each producer-handler shall report to the market administrator at such time and in such manner as the market administrator may prescribe.

§ 973.32 *Reports as to producers.* Each handler, upon the request of the market administrator, shall, on or before the 25th day of each delivery period, submit to the market administrator such handler's producer payroll for the preceding delivery period which shall show for each producer (a) the total pounds of milk delivered with the average butterfat test thereof, and (b) the net amount of such handler's payments to such producer or to a cooperative association together with the prices, deductions, and charges involved.

§ 973.33 *Records and facilities.* Each handler shall permit the market administrator to make such examinations of his operations, equipment, and facilities as the market administrator deems necessary and he shall maintain and make available to the market administrator during the usual hours of business, such accounts and records of his operations and such facilities as the market administrator deems necessary to verify or to establish the correct data with respect to (a) the receipts and utilization in whatever form of all skim milk and butterfat received, including nonfluid milk products disposed of in the form in which received without further processing or packaging; (b) the weights and tests for butterfat and for other content of all skim milk or butterfat handled, (c) payments to producers and cooperative associations, and (d) the pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and each milk product on hand at the beginning and at the end of each delivery period.

§ 973.34 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain, except that all such books and records pertaining to transactions before August 1, 1946, shall be retained until October 1, 1949: *Provided*, That if, within such three-year period or before October 1, 1949, whichever is applicable, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 973.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat, except that in nonfluid milk products disposed of in the form in which received without further processing or packaging, received by a handler during each delivery period, shall be classified

by the market administrator pursuant to the provisions of §§ 973.41 to 973.45.

§ 973.41 *Classes of utilization.* Subject to the conditions set forth in §§ 973.42 and 973.43, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk and butterfat disposed of for consumption in the form of milk, skim milk, buttermilk, flavored milk, flavored milk drinks (except flavored milk and flavored milk drinks in hermetically sealed containers), cream (sweet or sour including a mixture of cream and milk or skim milk containing less butterfat than the legal standard for cream), eggnog, aerated cream, ready whipped cream, and mixes for toppings and uses similar to those of whipped cream, and all skim milk and butterfat not specifically accounted for pursuant to paragraph (b) of this section.

(b) Class II milk shall be all skim milk disposed of as animal feed and all skim milk and butterfat used to produce a milk product other than those specified in paragraph (a) of this section.

§ 973.42 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat purchased or received by a handler shall be Class I milk unless the handler who first received such skim milk and butterfat proves to the market administrator that it should be classified otherwise.

(b) Any skim milk and butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 973.43 *Transfers.* Skim milk or butterfat disposed of by a handler by transfer shall be classified:

(a) As Class I milk if transferred in the form of milk, skim milk, or cream to another handler (other than a producer-handler), unless utilization in Class II is mutually indicated in writing to the market administrator by both handlers on or before the 8th day after the end of the delivery period within which such transfer occurred, but in no event shall the amount classified in either class exceed the total use in such class by the transferee handler: *Provided*, That, if either or both handlers have received skim milk or butterfat from a nonpool plant, the skim milk or butterfat transferred from a pool plant shall be classified at both plants so as to return the highest class utilization to milk of producers.

(b) As Class I milk if transferred in the form of milk, skim milk, or cream to a producer-handler.

(c) As Class I milk if transferred in the form of milk, skim milk, or cream to a nonpool plant located less than 100 miles from the marketing area unless (1) the handler claims other classification on the basis of utilization mutually indicated in writing to the market administrator by both the handler and the person who received such milk, on or before the 8th day after the end of the delivery period within which such transfer occurred, (2) the nonpool plant maintains records showing the receipt and utilization of all skim milk and butterfat at such plant which are made available to the market administrator for the purpose of verification, and (3) such nonpool plant had actually used not less than an equivalent amount of skim milk and butterfat in the use indicated in such statement: *Provided*, That if verification of such records discloses that an equivalent amount of skim milk and butterfat had not been used in such indicated utilization, the remaining pounds shall be classified in the remaining class.

(d) As Class I milk if transferred in the form of milk or skim milk and as Class II milk if transferred in the form of cream to a nonpool plant located more than 100 miles from the marketing area.

§ 973.44 *Computation of milk in each class.* For each delivery period the market administrator shall correct mathematical and other obvious errors in the delivery period report submitted by each handler and shall compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk for each handler.

§ 973.45 *Allocation of skim milk and butterfat classified.* After computing the classification of all skim milk and butterfat received by a handler, the market administrator shall determine the classification of milk received from producers as follows:

(a) Skim milk shall be allocated in the following manner: (1) Subtract from the pounds of skim milk in Class II the pounds of skim milk received from nonpool plants: *Provided*, That if the receipts from nonpool plants are greater than the pounds of skim milk remaining in Class II an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I; (2) subtract from the remaining pounds of skim milk in each class, respectively, the pounds of skim milk received from other pool plants in accordance with its classification as determined pursuant to § 973.43 (a); (3) if the total pounds of skim milk remaining in both classes exceed the pounds of skim milk received from producers, an amount equal to the difference shall be subtracted from Class II: *Provided*, That if the remaining pounds of skim milk in Class II are less than the amount to be subtracted, an amount equal to the difference shall be subtracted from Class I.

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine, respectively, the weighted average butterfat content of the milk received from producers and allocated to Class I milk and Class II milk pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 973.50 *Class prices.* Each handler shall, subject to the provisions of §§ 973.52 and 973.53, pay at the time and in the manner set forth in § 973.80 not less than the prices set forth in this paragraph per hundredweight of milk received during each delivery period at such handler's plant.

(a) *For Class I milk.* The price shall be the basic price determined pursuant to § 973.51 plus 50 cents during the delivery periods of January to June, inclusive; plus 70 cents during the delivery periods of July and December; plus 85 cents during the delivery periods of August to November, inclusive.

(b) *For Class II milk.* The price shall be that determined by the market administrator as follows: (1) Multiply by 4.24 the average wholesale price per pound of 93-score butter at New York as reported by the Department of Agriculture for the delivery period in which such milk was received; (2) multiply by 8.2 the average price of spray process nonfat dry milk solids for human consumption, in carlots f. o. b. manufacturing plants as reported for the Chicago area by the Department of Agriculture for the delivery period during which the milk was received; (3) add into one sum the amounts obtained in subparagraphs (1) and (2) of this paragraph and (4) subtract 65 cents therefrom.

§ 973.51 *Basic prices.* The basic price to be used in determining the price per hundredweight of Class I milk shall be the price for Class II milk computed pursuant to § 973.50 (b) or that derived from either of the formulas set forth in paragraphs (a) and (b) of this section, whichever is the highest.

(a) The average of the basic or field prices ascertained to have been paid for milk of 3.5 percent butterfat content received during the delivery period at the following plants or places for which prices are reported to the market administrator by the listed companies or by the Department of Agriculture;

Companies:	*Locations*
Borden Co.,	Mountain Pleasant, Mich.
Carnation Co.,	Sparta, Mich.
Pet Milk Co.,	Hudson, Mich.
Pet Milk Co.,	Wayland, Mich.
Pet Milk Co.,	Coopersville, Mich.

Carnation Co.,	Jefferson, Wis.
Pet Milk Co.,	New Glarus, Wis.
Pet Milk Co.,	Belleville, Wis.
White House Milk Co.,	Manitowoc, Wis.
White House Milk Co.,	West Bend, Wis.

(b) (1) Multiply the average wholesale price per pound of 93-score butter at New York for said delivery period as reported by the Department of Agriculture by six (6); (2) add 2.4 times the weekly prevailing price of "Cheddars" during said delivery period on the Wisconsin Cheese Exchange at Plymouth, Wisconsin, as reported by the Department of Agriculture; (3) divide the resulting sum by seven (7); (4) add 30 percent thereof; and (5) multiply the resulting sum by 3.5.

§ 973.52 *Location differential to handlers.* With respect to milk purchased or received at a pool plant located more than 15 miles from the Minnesota Transfer Viaduct over University Avenue in St. Paul and which is classified as Class I milk, the price per hundredweight computed pursuant to § 973.50 (a) shall be reduced one cent for each full mile that such plant is more than 15 miles distant from such viaduct. Such deduction shall be based on the shortest highway distance from such pool plant as determined by the market administrator.

For purposes of this section the milk which is classified as Class I milk during each delivery period shall be considered to have been first that which was received from producers at such handler's pool plants located within the marketing area, and then that milk which was received from producers at such handler's other pool plants located nearest to the marketing area.

§ 973.53 *Butterfat differentials to handlers.* (a) If the average butterfat content of the milk disposed of by any handler as Class I milk is more or less than 3.5 percent, there shall be added to the Class I price per hundredweight computed pursuant to § 973.50 (a) for each one-tenth of 1 percent that the average butterfat content of such Class I milk is above 3.5 percent or shall be subtracted for each one-tenth of 1 percent that the average butterfat content of such Class I milk is below 3.5 percent an amount computed by the market administrator as follows: To the average wholesale price per pound of 93-score butter at New York as reported by the Department of Agriculture for the delivery period add 25 percent and divide the sum obtained by 10.

(b) If the average butterfat content of the milk disposed of by any handler as Class II milk is more or less than 3.5 percent, there shall be added to the Class II price per hundredweight computed pursuant to § 973.50 (b) for each one-tenth of 1 percent that the average butterfat content of such Class II milk is above 3.5 percent or shall be subtracted for each one-tenth of 1 percent that the average butterfat content of such Class II milk is below 3.5 percent an amount computed by the market administrator as follows: To the average wholesale price per pound of 93-score butter at New York as reported by the Department of Agriculture for the delivery period add 21.14 percent and divide the sum obtained by 10.

§ 973.54 *Emergency price provision.* Whenever the provisions hereof require the market administrator to use a specific price (or prices) for milk or for any milk product for the purpose of determining class prices or for any other purpose, the market administrator shall add to the specified price the amount of any subsidy or other similar payment being made by any Federal agency in connection with the milk or product associated with the price specified: *Provided*, That if for any reason the price specified is not reported or published as indicated the market administrator shall use the applicable maximum uniform price established by regulations of any Federal agency plus the amount of any such subsidy or other similar payment: *And provided further*, That if the specified price is not reported or published and there is no applicable maximum uniform price, or if the specified price is not reported or published and the Secretary determines that the market price is below the applicable maximum uniform price, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price specified.

APPLICATION OF PROVISIONS

§ 973.60 *Application to producer-handlers.* Sections 973.40 to 973.46, 973.50 to 973.54, 973.70 to 973.73, 973.80 to 973.84, and 973.90 to 973.92 shall not apply to the handling of milk by producer-handlers.

§ 973.61 *Producer-handlers.* Handlers shall furnish to the market administrator for his verification, subject to review by the Secretary, evidence of their qualifications as producer-handlers pursuant to § 973.10, as of the effective date hereof, and they shall furnish evidence of subsequent changes made in the manner of producing or distributing milk that affect their qualifications as producer-handlers; such verification by the market administrator shall be made within 15 days of the receipt of the evidence and shall be retroactive to the effective date hereof in cases verified within 45 days of such effective date and shall be effective retroactively to the first day of the delivery period during which verification is made in subsequent cases.

§ 973.62 *Sales of milk by a producer-handler.* A producer-handler who sells or disposes of skim milk or butterfat in bulk in the form of whole milk to another handler or producer-handler shall be considered a producer with respect to such skim milk or butterfat.

§ 973.63 *Handlers who receive milk from two groups of producers.* In the case of a handler who is required by any health authority in the marketing area to separate his producers into two groups and to receive and handle separately the milk received from each group, the market administrator shall compute a uniform price for each group of producers in the manner provided in § 973.71, if the handler files separate reports for each group, and the milk is handled in such a manner and the records of the handler are so kept that the market administrator can verify the utilization of the milk received from each group.

DETERMINATION OF UNIFORM PRICES TO PRODUCERS

§ 973.70 *Computation of the value of milk received from producers.* The value of the milk received directly from producers' farms during each delivery period by each handler shall be a sum of money computed by the market administrator by multiplying the pounds of milk in each class by the applicable class price and adding together the resulting amounts: *Provided*, That if any skim milk has been subtracted pursuant to § 973.45 (a) (3), or if any butterfat has been similarly subtracted, there shall be added to the above value an amount computed by multiplying the pounds of skim milk and butterfat so subtracted by the applicable class prices.

§ 973.71 *Computation of the uniform price for each handler.* The market administrator shall compute the uniform price per hundredweight for milk purchased or received directly from producers' farms during the delivery period by each handler as follows:

(a) To the value computed pursuant to § 973.70 add an amount equal to the total value of the location differentials computed pursuant to § 973.82.

(b) From the sum obtained in paragraph (a) of this section subtract, if the average butterfat content of all milk received by such handler directly from producers' farms is more than 3.5 percent, or add, if such average butterfat content is less than 3.5 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 3.5 percent by the butterfat differential computed pursuant to § 973.81 and multiply the result by the total hundredweight of milk received directly from producers' farms.

(c) Adjust the resulting sum by an amount representing the fraction used in adjusting the uniform price for the previous delivery period to the nearest cent.

(d) Divide the result by the total hundredweight of milk received directly from producers' farms.

(e) Adjust the resulting figure to the nearest cent. This shall be known as the uniform price per hundredweight for each handler for milk of 3.5 percent butterfat content delivered to the marketing area.

§ 973.72 *Announcement of class prices.* On or before the 6th day after the end of the delivery period the market administrator shall mail to all handlers and make public announcement of the class prices computed pursuant to § 973.50 and the butterfat differentials computed pursuant to § 973.53 and § 973.81.

§ 973.73 *Announcement of uniform prices.* On or before the 15th day after the end of each delivery period the market admiinstrator shall notify each handler and make public announcement of the uniform prices computed pursuant to § 973.71.

PAYMENTS FOR MILK

§ 973.80 *Time and method of payment.* Each handler shall make payment as follows:

(a) On or before the 20th day after the end of the delivery period in which the milk was received, to each producer for milk not caused to be delivered directly from such producers' farms to such handler by a cooperative association, at not less than the uniform price computed pursuant to § 973.71, subject to the differentials set forth in §§ 973.81 and 973.82.

(b) On or before the 15th day after the end of the delivery period in which the milk was received, to a cooperative association for milk which it caused to be delivered directly from producers' farms to such handler and for which such cooperative association collects payment, a total amount equal to not less than the sum of the individual payments otherwise payable to such producers pursuant to paragraph (a) of this section, and less the amount of the payment made pursuant to paragraph (d) of this section.

(c) On or before the 10th day after the end of the delivery period in which the skim milk or butterfat was received, to a cooperative association for skim milk or butterfat purchased or received from such cooperative association at not less than the class prices computed pursuant to § 973.50, subject to the differentials set forth in §§ 973.52 and 973.53, and less the amount of the payment made pursuant to paragraph (d) of this section.

(d) On or before the 20th day of the delivery period in which such skim milk and butterfat was received, to a cooperative association, if it so requests, for skim milk and butterfat which was purchased or received from such cooperative association and for skim milk and butterfat which such cooperative association caused to be delivered directly from producers' farms to the plant of such handler during the first 15 days of such delivery period at the approximate value of such skim milk or butterfat.

§ 973.81 *Butterfat differential to producers.* If, during the delivery period, any handler has purchased or received from any producer, milk having an average butterfat content other than 3.5 percent, such handler in making the payment prescribed in § 973.80 (a) and (b) shall add to the uniform price per hundredweight payable to such producer for each one-tenth of 1 percent that the butterfat content in milk is above 3.5 percent not less than, or shall deduct from the uniform price per hundredweight for each one-tenth of 1 percent that the butterfat content in milk is below 3.5 percent not more than an amount computed by the market administrator as follows: To the average wholesale price per pound of 93-score butter at New York as reported by the Department of Agriculture for the delivery period, add 20 percent and divide the resulting sum by ten (10).

§ 973.82 *Location differential to producers.* In making payment pursuant to § 973.80 (a) and (b) for milk received from producers at a pool plant located more than 15 miles from the Minnesota Transfer Viaduct over University Avenue in St. Paul, each handler shall deduct from the uniform price payable to such producers an amount equal to one cent per hundredweight for each full mile that the plant where such milk was received is more than 15 miles distant from such viaduct.

§ 973.83 *Correction of errors in payments to producers.* Errors in making any of the payments prescribed in § 973.80 shall be corrected not later than the date for making payments next following the determination of such errors. Any correction affecting all producers delivering to any handler during the period in which such error occurred shall be corrected in such manner as the market administrator shall determine to be equitable, either by (a) adjustment of the account of each individual producer who delivered during such period on the basis of a recomputation of the price of such handler, or (b) by addition or subtraction of the amount of such correction to or from the value of all milk received by such handler in the delivery period during which such error was determined, computed as set forth in § 973.70.

§ 973.84 *Statement to producers.* In making the payments required by this section, each handler shall furnish each producer with a supporting statement in such form that it may be retained by the producer, which shall show:

(a) The delivery period and the identity of the handler and of the producer;

(b) The total pounds and the average butterfat content of the milk delivered by the producer;

(c) The minimum rate or rates at which payment to the producer is required under the provisions of §§ 973.80 and 973.83;

(d) The rate which is used in making the payment if such rate is other than the applicable minimum;

(e) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deduction claimed under § 973.91, together with a description of the respective deductions; and

(f) The net amount of payment to the producer.

MISCELLANEOUS

§ 973.90 *Expense of administration.* As his prorata share of the expense of administration hereof each handler, with respect to all milk purchased or received directly from producers' farms (including such handler's own production) and which is disposed of as Class I milk during the delivery period, shall pay to the market administrator, on or before the 18th day after the end of such delivery period, 2 cents per hundredweight or such lesser amount as the Secretary from time to time may prescribe.

§ 973.91 *Marketing services*—(a) *Deductions for marketing services.* Except as set forth in paragraph (b) of this section each handler in making payments to producers (other than himself) pursuant to § 973.80 shall make a deduction of 2 cents per hundredweight or such lesser deduction as the Secretary from time to time may prescribe, with respect to all milk purchased or received directly from producers' farms during the delivery period and shall pay such deductions to the market administrator on or before the 18th day after the end of such delivery period. Such money shall be expended by the market administrator for market information to, and for the verification of weights, sampling, and testing of milk purchased or received from said producers.

(b) *Producers' cooperative associations.* In the case of producers for whom a cooperative association which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act" is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, no such deduction shall be made.

§ 973.92 *Termination of obligation.* The provisions of this section shall apply to any obligation under this order for the payment of money irrespective of when such obligation arose, except an obligation involved in an action instituted before August 1, 1949, under section 8c (15) (A) of the act or before a court.

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to the following information: (1) The amount of the obligation; (2) the month(s) during which the milk, with respect to which the obligation exists, was received or handled; and (3) if the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this order, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market adminstrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

§ 973.93 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

EFFECTIVE TIME, SUSPENSION, AND TERMINATION

§ 973.100 *Effective time.* The provisions hereof or any amendment hereto shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 973.101.

§ 973.101 *Suspension or termination.* The Secretary shall suspend or terminate any or all of the provisions hereof, whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This order shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 973.102 *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all of the provisions hereof, there are any obligations arising hereunder, the final accrual or ascertainment of which requires acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

The market administrator, or such other person as the Secretary may designate shall:

(a) Continue in such capacity until discharged by the Secretary;

(b) From time to time account for all receipts and disbursements and deliver all funds or property on hand, together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct; and

(c) If so directed by the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 973.103 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof, the market administrator, or such person as the Secretary may designate shall, if so directed by the Secretary, liquidate the business of the market administrator's office, and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

IRISH POTATOES GROWN IN NEW JERSEY

EXEMPTION CERTIFICATES AND SAFEGUARDS

Notice is hereby given that the Secretary of Agriculture is considering the approval of the rules, regulations, and determinations hereinafter set forth which were recommended by the New Jersey Potato Marketing Committee established under Marketing Agreement No. 116 and Order No. 98 (15 F. R. 1925, 2036) regulating the handling of Irish potatoes grown in New Jersey, issued under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051).

Consideration will be given to any data, views, or arguments pertaining thereto and mailed in triplicate to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, Washington 25, D. C., so as to be received by him not later than 15 days following publication of this notice in the FEDERAL REGISTER.

The proposed rules, regulations, and determinations are as follows:

Sec.
998.101 Definitions.
998.102 Area determinations.
998.103 Exemption certificates.
998.104 Safeguards for special purpose shipments.

AUTHORITY: §§ 998.101 to 998.104 issued under 48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707, 62 Stat. 1247; 63 Stat. 1051.

§ 998.101 *Definitions.* For the purpose of §§ 998.101 to 998.104, "agreement" means Marketing Agreement No. 116 and "order" means Order No. 98 (15 F. R. 1925, 2036), regulating the handling of Irish potatoes, grown in New Jersey, and the terms used in such sections shall have the same meanings as set forth in said agreement and order.

§ 998.102 *Area determinations.* The committee determines, pursuant to § 998.68, that:

(a) "Immediate production area" means each one of the districts established pursuant to § 998.11; and

(b) "Immediate shipping area" means each one of the districts established pursuant to § 998.11.

§ 998.103 *Exemption certificates*—(a) *Application.* Any producer or handler applying for exemption from regulations issued pursuant to § 998.51, shall file such application with the committee, or its duly designated agent, for such purpose on forms to be furnished by the committee.

Each application shall state (i) the name and address of the applicant for exemption, (ii) the grade, size, and quality regulations from which exemption is requested, and (iii) facts demonstrating that the potatoes, for which exemption is requested, were adversely affected by acts beyond the applicant's reasonable expectation and control. In addition, applications shall set forth such additional information as the committee may find necessary in making determinations with respect thereto, including, without limitation thereto, the information required on producer applications by subparagraphs (1), (2), and (3) of this paragraph, and the information required on handler applications by subparagraphs (4) and (5) of this paragraph:

(1) The location of the farm or farms on which potatoes, for which exemption is requested, were produced, the location where such potatoes are to be processed, and the loading point from which such potatoes are to be shipped if the exemption is granted;

(2) The applicant's acreage of potatoes, by varieties, for the production season in which the application is filed, the total hundredweight of such potatoes harvested on the date of the application, and the total hundredweight of such harvested potatoes which have been disposed of;

(3) The acreage of potatoes which the applicant will harvest subsequent to the date of such application, the estimate total yield therefrom, the estimated percentage thereof which can be handled under regulations in effect at the time of such harvest, and the reasons why the remainder of such unharvested potatoes can not be handled under such regulations;

(4) The quantity (by grade, size, and variety) of potatoes acquired by the applicant and stored during and immediately following the digging season, together with a statement as to the reasons why the specified quantity of such potatoes remaining in storage can not be handled under regulations in effect on and subsequent to the date of the application;

(5) The quantity (by grade, size, and variety) of potatoes acquired by the applicant and stored during and immediately following the digging season, which were handled prior to the date of the application.

(b) *Issuance.* (1) The committee shall give prompt consideration to all statements and facts relating to each application for exemption and, pursuant to the applicable terms of the marketing agreement and order, a determination shall be made as to whether or not the application is approved. The determination, if approving the application, shall be evidenced by the issuance of a certificate of exemption pursuant to § 998.68: *Provided*, That subcertificates of exemption may be issued, at the request of an applicant, where the total quantity of potatoes authorized to be handled under exemption will be handled in more than one shipment. If the applicant's request for exemption is denied, he shall be so notified in writing.

(2) Each exemption certificate issued pursuant hereto shall be on a form duly approved by the committee and signed by

an authorized representative of the committee. Each exemption certificate shall be issued in triplicate, with the original and one copy delivered to the person receiving the exemption, and one copy retained for the committee's records. Each such certificate shall contain the name and address of the recipient; the location and quantity of all potatoes authorized to be shipped under the exemption certificate; and the exceptions from the grade and size regulations which will be permitted in the exempted shipments.

(c) *Transfer of certificates.* Certificates or subcertificates of exemption shall be transferred with each lot of potatoes handled. The transferor of such certificates shall notify the committee within seven days following such transfer, stating the name and address of the person to whom the potatoes were sold or delivered, the quantity sold or delivered, date of the transaction, and such other information as may be requested by the committee.

(d) *Appeals.* If any applicant is dissatisfied with the determination of the committee regarding an application for an exemption certificate, or any duly issued exemption certificate, an appeal by such applicant may be taken to the committee pursuant to § 998.69.

§ 998.104 *Safeguards for special purpose shipments*—(a) *Application for Certificates of Privilege.* (1) Pursuant to the provisions of § 998.55 and when shipments of potatoes for the following purposes are subject to regulation pursuant to § 998.52, all handlers desiring to make shipments of potatoes for seed, for export, for manufacture or conversion into specified products, or for livestock feed, shall first apply to the committee for and obtain a Certificate or Certificates of Privilege permitting the proposed shipments.

(2) Applications for Certificates of Privilege shall be made on forms furnished by the committee. Each application shall contain the name and address of the handler, the quantity of potatoes to be shipped, the grades and sizes of potatoes to be shipped, name of consignee, destination, proof of contract, and such other information as the committee may require in safeguarding against the entry of such potatoes into trade channels other than those for which the Certificate or Certificates of Privilege were granted.

(b) *Shipments of seed potatoes.* Each handler of seed potatoes, when the handling of seed potatoes is subject to regulation pursuant to § 998.52, shall handle such potatoes only after procuring a Certificate of Privilege and supplying an official seed potato certification applicable to such seed potatoes, to the committee; such certification shall contain the name and address of the handler, car or truck number, quantity handled, variety, and destination.

(c) *Commercial shipments other than seed potatoes.* Each handler shipping potatoes for any purpose set forth in paragraph (a) of this section (other than seed) shall supply the committee with a report thereon showing the name and address of the shipper, car or truck number, Federal-State Inspection Certificate number (if such inspection is required by regulation at time of such shipment), loading point, destination, and consignee.

(d) The committee may rescind a Certificate or Certificates of Privilege issued to a handler pursuant hereto, or deny a Certificate or Certificates of Privilege to a handler, upon proof satisfactory to the committee that such handler has handled potatoes contrary to the provisions of this section. Such committee action denying a Certificate or Certificates of Privilege shall apply to and not exceed a reasonable period of time as determined by the committee. Any handler who has been denied a Certificate of Privilege or who has had a Certificate of Privilege rescinded, may appeal to the committee for reconsideration. Such appeal shall be in writing.

Done at Washington, D. C., this 12th day of July 1950.

NEVADA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

JULY 7, 1950.

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. 315g), the following described lands have been reconveyed to the United States:

MOUNT DIABLO MERIDIAN

T. 1 N., R. 67 E.,
Sec. 12, SE¼,
T. 1 N., R. 68 E.,
Sec. 7, lot 4,
T. 17 N., R. 66 E.,
Sec. 12, W½E½,
T. 20 N., R. 19 E.,
Sec. 33, NW¼NE¼,
T. 23 N., R. 64 E.,
Sec. 6,
T. 36 N., R. 42 E.,
Sec. 16, NE¼NW¼,

The areas described aggregate 1,069.61 acres.

The lands are primarily suitable for grazing.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m., on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279-284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m., on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m., on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m., on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m., on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office at Reno, Nevada, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Reno, Nevada.

DUPUE FALCK,
Acting Director.

R. I. BROADCASTING CO. (WRIB)

ORDER REOPENING RECORD

In re application of R. I. Broadcasting Company (WRIB), Providence, Rhode Island, Docket No. 8298, File No. BMP-2479; for modification of its construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 6th day of July 1950;

The Commission having under consideration (1) the Examiner's Initial Decision herein, released on March 30, 1950; (2) a Petition to Reopen the Record, filed on May 8, 1950, and a Supplemental Petition, filed on May 16, 1950, by the applicant herein; and (3) a Statement Relating to Petition to Reopen Record, filed on May 10, 1950, by the General Counsel of the Commission; and

It appearing, that in the said Initial Decision the Examiner made certain findings and conclusions as to the policies of applicant in the sale of broadcast time to time-brokers; that the General Counsel in his above-mentioned statement has expressed an intention to file exceptions to the Initial Decision in connection with the time-brokerage policies therein considered; that in the foregoing petition and supplemental petition the applicant has requested that the record be reopened for the purpose of incorporating the affidavits of its president to the effect that it will not in the future sell time to time-brokers and that all its time brokerage contracts have either expired or been cancelled, and that thereupon the record be closed; and

It appearing, that while under the circumstances in this proceeding the applicant should be permitted to incorporate in the record the facts relating to its policy and practices as to time brokerage contracts, such incorporation should be made at a hearing rather than by ex parte affidavits; and that the Examiner's Initial Decision should reflect the facts so established, which occurred after the close of the record herein;

It is ordered, That insofar as the above-mentioned petition and supplemental petition of R. I. Broadcasting Company request that the record be reopened for the purpose of receiving the affidavits attached thereto, the said petitions are denied; but insofar as they request reopening of the record, the said petitions are granted; the Initial Decision herein, released on March 30, 1950, is vacated and set aside; the record is reopened and the proceeding is remanded to the Examiner previously appointed, for the purpose of affording the applicant an opportunity to establish of record the facts recited in the said affidavits.

Released: July 7, 1950.

RADIO STATION WISE, INC.

ORDER CONTINUING HEARING

In re application of Radio Station WISE, Inc. (WISE), Asheville, North Carolina; Docket No. 9319, File No. BP-7132; for construction permit.

The Commission having under consideration a motion filed by Radio Station WISE, Inc., requesting the Commission to continue the hearing in the above-entitled application now scheduled to begin on July 14, 1950; and

It appearing that on June 13, 1950, the applicant filed a petition requesting the Commission to reconsider its action designating the application for hearing, and to grant the application without hearing, which petition is now pending before the Commission, and it cannot be determined at this time when said petition will be acted upon, and no objection having been filed to the granting of said motion;

It is ordered, This the 7th day of July 1950, that the motion for continuance is granted and the hearing in the above-entitled application is continued from July 14, 1950, to a date to be announced by the Commission after acting on the presently pending petition for reconsideration and grant of said application without a hearing.

NARRAGANSETT BROADCASTING CO. (WALE) ET AL.

ORDER POSTPONING HEARING

In re applications of Narragansett Broadcasting Company (WALE), Fall River, Massachusetts, Docket No. 9556, File No. BP-2076; for renewal license. Bay State Broadcasting Company, Fall River, Massachusetts, Docket No. 9557, File No. BP-7315; Eastern Connecticut Broadcasting Company (WICH), Norwich, Connecticut, Docket No. 9686, File No. BP-7599; for construction permits.

The Commission having under consideration a petition, filed July 3, 1950, by Eastern Connecticut Broadcasting Company, licensee of Station WICH, requesting a postponement of the hearing in the above-entitled consolidated proceeding presently scheduled for hearing on July 10, 1950, in Fall River, Massachusetts, insofar as the presentation of evidence on behalf of petitioner only is concerned, for approximately 30 days, or to some later convenient date, in Washington, D. C.; and

It appearing, that Station WICH has completed engineering studies which indicate that, so far as the two Fall River proposals are concerned, no interference is caused by the present operation of Station WICH and little, if any, interference will be caused by its pending proposal, with a complete study of the data being necessary to resolve the latter question; that a preliminary study also indicates there will be no interference between Station WICH and Station WHMP, Northampton, Massachusetts, the latter a party to the above-entitled hearing with reference to the proposed operation of Station WICH; and that such continuance is desirable in order that amendments reflecting the results of such engineering studies and request for severance may be filed by petitioner with the Commission; and

It further appearing, that all parties to the above proceeding have consented to a waiver of § 1.745 of the Commission's rules and regulations to permit the early consideration of such petition;

It is ordered, This 6th day of July 1950, that the hearing in this consolidated proceeding, only insofar as it pertains to the presentation of evidence in Docket 9686, be, and the same is hereby, postponed to a date to be hereafter determined.

HENRY LEE TAYLOR ET AL.

ORDER CONTINUING HEARING

In re applications of Henry Lee Taylor, San Antonio, Texas, Docket No. 9565, File No. BP-7038; John H. Mayberry tr/as Winter Garden Broadcasting Company, Crystal City, Texas, Docket No. 9566, File No. BP-7255; Leslie C. Smith, B. G. Moffett and J. H. Mayberry, a partnership d/b as Community Broadcasting Company (KUNO), Corpus Christi, Texas, Docket No. 9626, File No. BMP-5034; for construction permits and modification of construction permit.

The Commission having under consideration a petition filed June 30, 1950, by the Community Broadcasting Company, applicant in Docket No. 9626, and a petition filed July 6, 1950, by Winter Garden Broadcasting Company, applicant in Docket No. 9566, each requesting a continuance of the above-entitled proceeding; and

It appearing that on June 29, 1950, Henry Lee Taylor, applicant in Docket No. 9565, filed a petition requesting the Commission to dismiss his application; and

It appearing that the dismissal of the application of Henry Lee Taylor will eliminate the interference which would have resulted from the simultaneous operation of the station proposed by him and the station proposed by Winter Garden Broadcasting Company; and

It appearing that John H. Mayberry, one of the stockholders in Community Broadcasting Company, is negotiating for the sale of his interest in a second broadcasting station, which, if consummated, will render unnecessary a hearing on one of the issues to be developed; and

The General Counsel having consented to the requested continuance and good cause having been shown that the petitions should be granted;

It is ordered, This the 7th day of July 1950, that the petitions for continuance are granted, and the hearing in the above-entitled proceeding is continued from July 10, 1950, to September 5, 1950, at 10:00 a. m. in the offices of the Commission at Washington, D. C.

TWIN CITY RADIO DISPATCH, INC.

ORDER DESIGNATING APPLICATIONS FOR HEARING ON STATED ISSUES

In the matter of Twin City Radio Dispatch, Inc., Docket No. 9620; applications for modification of licenses for 1 base station and 1 mobile station of 100 mobile units to operate in the Domestic Public Land Mobile Radio Service at St. Paul, Minnesota (Files Nos. 4577 and 4668–C2–ML–E).

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 6th day of July 1950;

The Commission, having under consideration its order of March 28, 1950, instituting the consolidated proceedings in Dockets Nos. 9619 and 9620, and having also under consideration the order of June 9, 1950, relating thereto, adopted by the Motions Commissioner, accepting an amendment to the applications filed by Newton Z. Wolpert and removing said applications from hearing status; and

It appearing, that the Commission is unable to determine that the public interest, convenience or necessity would be served by a grant of the instant applications; and

It further appearing desirable to amend the order of March 28, 1950, herein so as to remove therefrom the issues which are now moot and to restate the issues to be determined with respect to the applications of Twin City Radio Dispatch, Inc.;

It is ordered, That the last ordering clause of the Commission's order of March 28, 1950, herein is hereby amended to read as follows:

It is further ordered, That, pursuant to the provisions of section 309 (a) of of the Communications Act of 1934, as amended, the applications of Twin City Radio Dispatch, Inc., are designated for hearing at St. Paul, Minnesota on July 21, 1950, upon the following issues:

1. To determine the justification of Twin City Radio Dispatch, Inc., for the assignment to it of more than one communications channel (one frequency pair).

2. To determine whether Twin City Radio Dispatch, Inc., has directly or indirectly made any unjust or unreasonable discrimination in its charges, practices, classifications, regulations, facilities or services for, or in connection with, communication service afforded through its radio stations KAA282 and KA2605, contrary to the provisions of section 202 (a) of the Communications Act of 1934, as amended, or has charged, demanded, collected or received a greater, less or different compensation for such communication service than that specified in legally applicable tariff schedules, or has unlawfully refunded or remitted a portion of the charges so specified.

3. To determine whether, since October 24, 1947, the date on which Twin City Radio Dispatch, Inc., filed with the Commission its first applications for radio authorizations, there has been any transfer of control with respect to Twin City Radio Dispatch, Inc., which has not been reported to, or approved by, the Commission, as required by the provisions of section 310 (b) of the Communications Act of 1934, as amended, and § 1.322 of the Commission's rules and regulations.

4. To determine whether Twin City Radio Dispatch, Inc., has misrepresented to the Commission the facts and circumstances relating to the control of such corporation.

5. To determine, in the light of the evidence on issues 2, 3 and 4 above, whether Twin City Radio Dispatch, Inc., is qualified to be a radio station licensee in the Domestic Public Land Mobile Radio Service.

6. To determine the facts with respect to the existing and proposed facilities, personnel, rates, regulations, practices and services of said applicant for the furnishing of Domestic Public Land Mobile Radio Service.

7. To determine, in the light of the evidence on the foregoing issues, whether the grant of the instant applications would serve the public interest, convenience or necessity.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

Warner & Vernon C. Starr, d/b as Orange County Radiotelephone Service, Santa Ana, California, Docket No. 9728, Files Nos. 3744/3745–C2–P–E; H. W. Ziegler & H. Paul Roman, d/b as Automotive Communications Company, Pomona, California, Docket No. 9729, Files Nos. 18646/18647–C2–P–D; Clyde Downen, Downey, California, Docket No. 9730, Files Nos. 23/24–C2–P–E; G. Earle Colee & Christine N. Colee, d/b as Telephone Answering Bureau, Santa Monica, California, Docket No. 9731, File No. 8099–C2–P–E.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of July 1950;

The Commission, having under consideration the above-entitled applications of miscellaneous common carriers for authorizations in the domestic public land mobile radio service in the city of Los Angeles and nearby communities;

It appearing, that the number of applicants for such facilities in this area exceeds the number of frequencies available for this area; and

It further appearing, that, in accordance with the Commission's report and order in Dockets Nos. 8658, et al., dated April 27, 1949, and § 6.409 of the Commission's rules governing public radio communication services (other than maritime mobile), each frequency available for assignment in the domestic public land mobile radio service is normally assigned exclusively to a single applicant in any service area, in order to permit the rendition of service on an interference-free basis; and

It further appearing, that the above-entitled applications request authorizations in over-lapping service areas and that a grant of such applications might result in harmful mutual interference;

It is ordered, that, pursuant to the provisions of section 309 (a) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding at Los Angeles, California, on a date to be hereafter specified, upon the following issues:

1. To determine the legal, technical, and financial qualifications of each of the above-entitled applicants to construct and operate the proposed stations.

2. To determine the areas and populations which may be expected to receive service from any proposed station and the need for such service in the area proposed to be served.

3. To determine whether co-channel operations are feasible between any of the communities involved in this proceeding.

4. To determine whether and to what extent adjacent channel operations may be feasible.

5. To determine the extent and degree of mutual interference which would be caused by operation of the proposed stations.

6. To determine the facts with respect to the existing and proposed facilities, personnel, rates, regulations, practices and services of each applicant for the furnishing of domestic public land mobile radio service.

7. To determine, in the light of the evidence on the foregoing issues, which applicants are best qualified to serve the public interest, convenience or necessity.

8. To determine, on a comparative basis, which, if any, of the applications in this consolidated proceeding should be granted.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

THIRD PARTY MESSAGES BETWEEN AMATEUR STATIONS OF U. S. AND ECUADOR

In accordance with an official notice received from the Department of State, the Commission is today announcing that a bilateral agreement between the United States and Ecuador directly affecting licensed amateurs of the two countries has been concluded by an exchange of notes. The terms of this agreement provide that amateur radio stations of Ecuador and of the United States may exchange internationally messages or other communications from or to third parties: *Provided*:

1. No compensation may be directly or indirectly paid on such messages or communications.

2. Such messages or communications shall be of a character that would not normally be sent by any other existing means of telecommunication. To the extent that in the event of disaster, other means of telecommunication are not readily available for expeditious handling of communications relating directly to safety of life or property, such means shall not be considered to be an existing means, and such communications may be handled by amateur stations of the respective countries.

3. This arrangement shall apply to all the continental and insular territory of Ecuador and to the United States and its territories and possessions, including Alaska, the Hawaiian Islands, Puerto Rico and the Virgin Islands, and to the Panama Canal Zone. It shall also be applicable to the case of amateur stations licensed by the United States authorities to United States citizens in other areas of the world.

4. This arrangement shall be subject to termination by either Government on sixty days notice to the other Government, by further arrangement between the two Governments dealing with the same subject, or by the enactment of legislation in either country inconsistent therewith.

As a matter of related interest, amateur stations licensed by the Federal Communications Commission heretofore have been able, under and in accordance with the terms of previously effected arrangements, to exchange internationally messages or other communications from or to third parties with amateur stations of Canada, Chile, and Peru.

Released: July 10, 1950.

DON LEE BROADCASTING SYSTEM (KGB)

ORDER CONTINUING HEARING

In re application of Thomas S. Lee Enterprises, Inc., d/b as Don Lee Broadcasting System (KGB), San Diego, California, Docket No. 7497, File No. BP–4330; for construction permit.

The Commission having under consideration a pleading filed July 7, 1950, by the applicant herein requesting that the hearing on the above-entitled application now scheduled to begin on July 18, 1950, be continued indefinitely; and

It appearing that on May 31, 1950, the applicant herein filed a petition requesting the Commission to reconsider its action of May 11, 1950, designating the above-entitled application for hearing and to grant said application without hearing, and that on June 29, 1950, Radio Modesto, Inc. (KMOD), respondent herein, filed a petition in opposition thereto, and it cannot be determined at this time when the Commission will be in a position to act on said petitions; and

Counsel for all parties having consented to the requested continuance and to waive the requirements of § 1.745 of the Commission's rules insofar as said section requires that pleadings must be on file for 4 days before being acted upon, and good cause having been shown that the request should be granted;

It is ordered, This the 11th day of July 1950, that the request for continuance is granted, and the above-entitled hearing now scheduled to begin on July 18, 1950, is continued to a date to be announced by the Commission after determining the action to be taken on the hereinbefore mentioned petition to reconsider and grant the application without hearing.

JENNINGS BROADCASTING CO., INC.

ORDER CONTINUING HEARING

In re application of Jennings Broadcasting Company, Inc., Jennings, Louisiana, Docket No. 9485, File No. BP–7141; for construction permit.

The Commission having under consideration two petitions filed simultaneously on June 20, 1950, by the Jennings Broadcasting Company, Jennings, Louisiana; one a petition for leave to amend its above-entitled application to change the proposed transmitter site and make changes in technical data with respect to interference to the proposed station and overlap of the service areas of the proposed station and Station KSIG, Crowley, Louisiana, to eliminate excessive interference to the proposed station from KRGV, Westlaco, Texas, and to ameliorate the overlap condition; and the second, a petition requesting a 60-day continuance of the hearing herein on the above application, presently scheduled to be heard on July 12, 1950, in Washington, D. C., in order to afford an opportunity for the Commission to act on the petition for reconsideration and grant, which the Jennings Broadcasting Company also filed on June 20, 1950; and

It appearing that no opposition to either the petition for leave to amend or the petition requesting a 60-day continuance has been filed on behalf of the General Counsel and there are no other parties to this proceeding;

It is therefore ordered, This 30th day of June 1950, that the petition requesting leave to amend its application be and it is hereby granted, and the amendment is accepted; and

It is further ordered, That the petition requesting a 60-day continuance of the hearing herein, be and it is hereby granted, and the hearing herein is continued to September 14, 1950, at 10:00 a. m., in Washington, D. C.

W. WRIGHT ESCH (WMFJ)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of W. Wright Esch (WMFJ), Daytona Beach, Florida, Docket No. 9733, File No. BP-7421; for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 6th day of July 1950;

The Commission having under consideration the above-entitled application requesting a construction permit to change the facilities of Station WMFJ, Daytona Beach, Florida from 1450 kilocycles, 250 watts power, unlimited time to 1260 kilocycles, 1 kilowatt power, with a directional antenna for night use and to change type of transmitter and transmitter location;

It appearing, that the applicant is legally, technically, financially and otherwise qualified to operate Station WMFJ, as proposed, but that the application may involve interference with one or more existing stations and otherwise not comply with the Standards of Good Engineering Practice;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application is designated for hearing at Washington, D. C. at 10:00 a. m. on the 12th day of December 1950 upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station WMFJ, as proposed, and the character of other broadcast service available to those areas and populations.

2. To determine whether the operation of Station WMFJ, as proposed, would involve objectionable interference with Station CMCI, Havana, Cuba, or with any other existing foreign broadcast station and, if so, the nature and extent of such interference.

3. To determine whether the installation and operation of Station WMFJ, as proposed, would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations with particular reference to the nighttime coverage of the city of Daytona Beach, the areas and populations which will receive satisfactory service, the percentage of population residing within the 250 mv/m blanket contour and the possibility of cross-modulation and re-radiation problems with Station WNDB, Daytona Beach, Florida.

INLAND RADIO, INC. (KSRV) AND EVERETT BROADCASTING CO., INC. (KRKO)

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Inland Radio, Inc. (KSRV), Ontario, Oregon, Docket No. 9734, File No. BP-6859; The Everett Broadcasting Company, Inc. (KRKO), Everett, Washington, Docket No. 9735, File No. BMP-4888; for construction permit and for modification of construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of July 1950;

The Commission having under consideration the above-entitled applications of Inland Radio, Inc., requesting a construction permit to change frequency from 1450 kc. to 1380 kc., increase power from 250 watts to 1 kilowatt and install a directional antenna for night use; and of The Everett Broadcasting Company, Inc. for modification of construction permit to make changes in the directional antenna pattern;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding commencing at 10:00 a. m. on December 14, 1950, at Washington, D. C., upon the following issues:

1. To determine the technical, financial and other qualifications of the corporate applicants, their officers, directors and stockholders to operate the proposed stations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed stations, and the character of other broadcast service available to such areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the population and areas to be served.

4. To determine whether the operation of Station KSRV as proposed, would involve objectionable interference with Station KOTA, Rapid City, South Dakota, and whether both proposals would involve objectionable interference with any other existing broadcast stations, and if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed stations would involve objectionable interference, each with the other, or with the services proposed in any other pending applications for broadcast facilities, and if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed stations would be in compliance with the Commission's rules and standards of Good Engineering Practice Concerning Standard Broadcast Stations, with particular reference to the high percentage of population within the 250 mv/m blanket contour of the KSRV, Ontario, Oregon proposal.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

It is further ordered, That Black Hills Broadcast Company of Rapid City, licensee of Station KOTA, Rapid City, South Dakota is made a party to this proceeding, with respect to the application of Station KSRV only.

FEDERAL POWER COMMISSION

[Docket No. G-1250]

BLUEFIELD GAS CO.

NOTICE OF AMENDED APPLICATION

JULY 11, 1950.

Take notice that Bluefield Gas Company (Applicant), a West Virginia corporation having its principal place of business at 718 Princeton Avenue, Bluefield, West Virginia, filed on June 23, 1950, an amendment to its application of August 4, 1949 (14 F. R. 5247), for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain pipeline facilities hereinafter described.

Applicant proposes to purchase natural gas from Amere Gas Utilities Company at a point near Princeton, West Virginia, and to transport such gas through approximately 14.3 miles of 6⅝-inch O. D. pipeline which it proposes to construct from that point to its distribution system at Bluefield, West Virginia, and the distribution system of its subsidiary Commonwealth Public Service Corporation (Commonwealth) at Bluefield, Virginia. It also proposes to construct a pressure regulating station and appurtenant facilities. The estimated annual requirements of Applicant and Commonwealth are 110,600 Mcf. in 1951 and 235,000 Mcf. in 1954. The estimated peak day demand is 500 Mcf. in 1951 and 1,725 Mcf. in 1954.

The estimated over-all capital cost of the proposed facilities is $230,000 and will be financed through the sale of mortgage bonds and common stock.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 31st day of July, 1950. The application is on file with the Commission for public inspection.

NEW YORK STATE NATURAL GAS CORP.

NOTICE OF APPLICATION

JULY 11, 1950.

Take notice that New York State Natural Gas Corporation (Applicant), a New York corporation, address 30 Rockefeller Plaza, New York, N. Y., filed on June 30, 1950, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of certain transmission pipe-line facilities hereinafter described. Applicant proposes to transport natural gas for resale to the East Ohio Gas Company and for such purpose

to construct and operate a natural gas pipe line approximately 62 miles in length extending from a connection on its existing general pipe-line system at the John B. Tonkin compressor station in Westmoreland County, Pennsylvania, to a point on the Pennsylvania-Ohio State boundary line where the pipe line will connect with a proposed pipe line to be constructed by the East Ohio Gas Company in Docket No. G–1431, together with metering stations. Applicant proposes to transport a maximum volume of 3,600,000 Mcf. per year during the winter period to the East Ohio Gas Company.

The estimated cost of the proposed facilities is $3,792,806 which will be obtained by the sale of securities to Applicant's parent, the Consolidated Natural Gas Company.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 1st day of August, 1950. The application is on file with the Commission for public inspection.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2393]

RHODE ISLAND POWER TRANSMISSION CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 11th day of July A. D. 1950.

Notice is hereby given that a declaration has been filed with the Commission pursuant to the Public Utility Holding Company Act of 1935 by Rhode Island Power Transmission Company ("Rhode Island"), a wholly owned public-utility subsidiary company of The Narragansett Electric Company ("Narragansett") which, in turn, is a public-utility subsidiary company of New England Electric System ("NEES"), a registered holding company. Rhode Island designates section 12 (c) and (f) of the act and Rules U-23, U-24, U-43 (a) and U-46 (a) promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than July 19, 1950, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matters, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed to the Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after July 19, 1950, said declaration may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and U-100 thereof.

All interested persons are referred to said declaration which is on file at the office of the Commission, for a statement of the transactions therein proposed, which are summarized as follows:

Rhode Island, which owns, among other things, certain transmission lines connecting Narragansett's electric properties with the transmission lines of other companies in the NEES holding company system, proposes to sell to Narragansett all of its properties and assets for $949,327, subject to certain adjustments. Narragansett will pay for such properties and assets by: (a) the cancellation of Rhode Island's indebtedness to it in the amount of $500,000 evidenced by a demand note bearing interest at the rate of 4 percent per annum and in the amount of $396,323 on open account, aggregating $896,323 as at March 31, 1950, (b) the assumption of Rhode Island's liabilities, (c) the payment of all expenses in connection with the transaction and (d) the conveyance to Rhode Island of its demand note or other acceptable obligation representing the balance of the purchase price, or certificates representing all of Rhode Island's 5,000 shares of $100 par value capital stock with a notation stamped thereon that there has been paid on account thereof the net amount distributable in connection with the subsequent liquidation and dissolution of Rhode Island.

Both Rhode Island and Narragansett have filed applications with the Public Utilities Administrator of Rhode Island and with the Federal Power Commission regarding the proposed transactions.

Incidental services in connection with the proposed transactions will be performed by New England Power Service Company, an affiliated service company, at the actual cost thereof. Total expenses, including those of New England Power Service Company in the estimated amount of $1,000, are estimated at $2,500.

Rhode Island requests that its declaration become effective, pursuant to the Commission's Rule U-23, forthwith upon the issuance of the Commission's order.

By the Commission.

EQUITY CORP: ET AL.

NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 11th day of July A. D. 1950.

In the matter of The Equity Corporation, Industrial Insurance Company, Hawkeye Casualty Company, Security Fire Insurance Company, Erie Insurance Company, Northeastern Insurance Company of Hartford, Thomas J. Fisher & Company, Inc., File No. 812-674.

Notice is hereby given that The Equity Corporation (Equity), 103 Park Avenue, New York, New York, has filed an amended application pursuant to section 6 (c) of the Investment Company Act of 1940 requesting an order exempting from section 17 (e) (1) of the act, the acceptance by Thomas J. Fisher & Company, Inc. (Fisher), its agents and employees, of commissions arising from the sale of insurance policies by Fisher, as agent, for any insurance company at present or in the future affiliated with Equity, including Industrial Insurance Company (Industrial), Hawkeye Casualty Company (Hawkeye), Security Fire Insurance Company (Security), Erie Insurance Company (Erie), and Northeastern Insurance Company of Hartford (Northeastern).

Equity is a registered investment company which through indirect stock ownership controls Fisher and all of the above named insurance companies. Sec-

[1] Indicates a service office serving adjacent areas but reporting to an insuring office as indicated.

tion 17 (e) (1) of the act makes it unlawful for Fisher or any person affiliated with it, acting as agent, to accept from any source any compensation for the purchase or sale of any property to or for any controlled company of Equity. The application therefore requests an exemptive order permitting Fisher, its agents and employees, to enter into agency arrangements with Industrial, Hawkeye, Security, Erie, Northeastern and any other insurance company which is or may be controlled by Equity, for the sale of various types of insurance policies. Pursuant to the proposed agency arrangements, Fisher will receive commissions ranging from 15% to 30% of net premiums in conection with insurance sold by it, plus a contingent fee representing 15% of the net profits, if any, accruing to the insurance company from such insurance.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application which is on file in the offices of the Commission in Washington, D. C.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission at any time after July 28, 1950, unless prior thereto a hearing upon the application is ordered by the Commission, as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than July 26, 1950, at 5:30 p. m., e. d. s. t., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

MICHIGAN-WISCONSIN PIPE LINE CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 11th day of July A. D. 1950.

Notice is hereby given that an application has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("Act"), by Michigan-Wisconsin Pipe Line Company ("Michigan-Wisconsin"), a non-utility subsidiary of American Natural Gas Company, a registered holding company. Applicant designates section 6 (b) of the act and Rule U-50 (a) (2) promulgated thereunder as applicable to the proposed transactions.

Notice is hereby further given that any interested person may, not later than July 24, 1950, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held with respect to said application, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after July 24, 1950, said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said application which is on file in the office of the Commission for a statement of the transactions therein proposed, which may be summarized as follows:

Michigan-Wisconsin proposes to enter into a credit agreement with certain banks hereinafter named which will commit such banks to loan Michigan-Wisconsin, from time to time upon demand prior to June 30, 1951, sums aggregating a maximum of $20,000,000 as follows:

The National City Bank of New York	$6,666,667
Central Hanover Bank & Trust Co., New York	6,666,667
Mellon National Bank & Trust Co., Pittsburgh, Pa	6,666,666
Total	20,000,000

The credit agreement is to be executed as soon as practicable after authorization by the Commission, and the first borrowing of at least $4,350,000 is to be made promptly upon execution of the credit agreement. The remainder of the credit is to be taken down in amounts of not less than $4,350,000 each as additional funds are needed. Each borrowing shall be made from each of the banks pro rata in proportion to their respective commitments and shall be evidenced by a separate note maturing July 1, 1952 and bearing interest at 2½ percent per annum payable quarterly on the first day of January, April, July and October of each year. The credit agreement provides that the notes may be prepaid in whole or in part, but if in part, then only in amounts of $600,000 or multiples thereof, and if prepayment is made directly or indirectly from the proceeds of loans to the Company by banks not parties to the credit agreement, a prepayment penalty to be paid at the rate of one-quarter of one per cent (¼ of 1 percent) per annum, computed for the period from the date of prepayment to the maturity date of the notes being prepaid. A commitment fee is to be paid computed at the rate of one-half of one per cent (½ of 1 percent) per annum on the average daily unused balance of the commitment from the date of the credit agreement to June 30, 1951, or until the entire $20,000,000 shall have been taken down, whichever shall occur first.

The Company is to covenant that (a) if it shall not have received $3,000,000 in cash either through the sale of shares of its preferred stock, common stock or debt obligations subordinated to the notes to be issued under the credit agreement, the Company on or before July 1, 1951, will prepay $3,000,000 principal amount of the notes; (b) it will not without the prior written consent of the banks (i) pay dividends on its common stock in excess of the amount permitted by the Mortgage and Deed of Trust, dated September 1, 1948, to City Bank Farmers Trust Company and George W. Dillon, Trustees; (ii) incur obligations on account of other borrowings unless subordinated to the proposed notes, except first mortgage bonds issued under said Mortgage and Deed of Trust or any mortgage indenture supplementing or replacing the same, the proceeds of which shall be applied first to the prepayment of the proposed notes; or (iii) merge or consolidate with or into any other company.

It is stated that the proceeds from the first borrowing under the credit agreement are to be used, to the extent necessary, to prepay all then outstanding nine-month notes of the Company to the banks who are parties to the credit agreement. The remaining proceeds obtained under the commitment are to be used to finance the construction of additional pipe line facilities. It is also stated that at the appropriate time, after the new facilities are installed and operating, with a consequent expansion of earning power, the Company proposes to consummate a permanent financing program which will provide for additional equity and the elimination of the notes issued under the Credit Agreement.

It is stated that no regulatory agency or authority other than this Commission has jurisdiction over the proposed transactions, and that the proposed issuance and sale of notes is exempt from the competitive bidding requirements of Rule U-50 because of the provisions of paragraph (a) (2) thereof.

It is requested that the Commission enter an order, to become effective upon its issuance, by July 20, 1950, or as soon thereafter as the convenience of the Commission will permit, authorizing the proposed transactions.

By the Commission.

NEW ENGLAND GAS AND ELECTRIC ASSN. AND CAMBRIDGE STEAM CORP.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 10th day of July 1950.

Notice is hereby given that a joint application-declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by New England Gas and Electric Association ("New England"), a registered holding company and its subsidiary, Cambridge Steam Corporation ("Cambridge"). Applicants-declarants have designated sections 6 (b), 10 and 12 (f) of the act and Rule U-43 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than July 24, 1950, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application-declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after July 24, 1950, said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said application-declaration which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Cambridge proposes to issue and sell to New England, its sole stockholder, 1,500 additional shares of common stock having a par value of $100 per share, at the price of $100 per share as fixed by the Board of Directors. Cambridge proposes to apply the proceeds from the sale of said securities to reimburse current assets for amounts invested in plant improvement and extensions and the balance to financing the proposed 1950 construction.

PENNSYLVANIA GAS & ELECTRIC CORP. ET AL.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 11th day of July A. D. 1950.

In the matter of Pennsylvania Gas & Electric Corporation, Newport Gas Light Company, Penn-Western Service Corporation, File No. 70-2426.

The Commission having on September 3, 1948 issued an order pursuant to section 11 (b) (1) of the Public Utility Holding Company Act of 1935 (the "Act") directing, among other things, that Pennsylvania Gas & Electric Corporation ("Penn Corp"), a registered holding company, dispose of its interest in The Newport Gas Light Company ("Newport"), a subsidiary of Penn Corp;

Notice is hereby given that an application-declaration has been filed with this Commission pursuant to the act by Penn Corp, Newport, and Penn-Western Service Corporation ("Penn-Western"), an approved service company and a subsidiary of Penn Corp, relating to the proposed sale by Penn Corp of its investment in the capital stock of Newport and certain transactions incident to such sale. The applicants-declarants have designated section 12 of the act and Rule U-23 thereunder as applicable to the proposed transactions.

All interested persons are referred to said application-declaration which is on file in the office of this Commission for a statement of the transactions therein proposed which are summarized as follows:

Penn Corp proposes to sell to Mrs. Dorothy B. Daley, Mrs. Dorothy P. Rich, John F. Rich, John J. O'Brien and certain other persons all of the outstanding capital stock of Newport, consisting of 5,000 shares of capital stock with a par value of $100 a share, for a cash consideration of $550,000. According to the filing, the proceeds from the sale of Newport's capital stock will be used to reduce the debenture indebtedness of Penn Corp, pursuant to a plan previously filed under section 11 (e) of the act and as to which hearings have been held.

The filing states that Penn Corp has carried on negotiations for the sale of Newport with various prospective buyers since February 1949, and that the highest offer received was that referred to above.

Newport is a gas utility company engaged in the production of manufactured gas and the distribution thereof in Newport, Rhode Island, and adjacent territory. According to a balance sheet of the company dated May 31, 1950, its outstanding securities consist of $276,000 principal amount of first mortgage bonds and the aforementioned 5,000 shares of capital stock of $100 par value per share, which had a book value on such date of $917,316. For the 12 months ended May 31, 1950, operating revenues of the company were $544,836 and net income applicable to the common stock was $34,158. Such earnings were stated after estimated provisions for Federal income taxes based on the filing of a consolidated tax return with the parent company, Penn Corp.

In connection with the proposed sale of Newport's capital stock by Penn Corp, Newport proposes to donate to Penn-Western its holding of 50 shares of the capital stock of Penn-Western, and Penn-Western proposes to pay to Penn Corp the amount originally paid by Penn Corp to Penn-Western for such shares, namely $500. It is proposed that the service contract between Newport and Penn-Western be terminated on the date of closing of the sale of Newport's capital stock.

The applicants and declarants have requested that the Commission's order be issued at such time as to permit consummation of the proposed sale not later than July 18, 1950.

Notice is further given that any interested person may, not later than July 17, 1950 at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after July 17, 1950, said application-declaration as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

MILWAUKEE GAS LIGHT CO.

MEMORANDUM FINDINGS AND ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 11th day of July A. D. 1950.

Milwaukee Gas Light Company ("Milwaukee"), a public utility subsidiary of American Natural Gas Company, a registered holding company, has filed a declaration, and an amendment thereto, pursuant to section 7 of the Public Utility Holding Company Act of 1935 ("Act"), with respect to the following transactions:

Milwaukee proposes to enter into a credit agreement, not later than July 27, 1950, with certain banks hereinafter named which will commit such banks to advance to Milwaukee, from time to time upon its demand and prior to December 31, 1950, sums aggregating a maximum of $3,500,000 as follows:

The National City Bank of New York	$1,000,000
Central Hanover Bank & Trust Co. of New York	1,000,000
Mellon National Bank & Trust Co of Pittsburgh, Pa	1,000,000
First Wisconsin National Bank of Milwaukee	500,000

It is contemplated that the first advance will be made shortly after the execution of the credit agreement and the remainder of the credit will be taken down in amounts of $700,000 or multiples thereof as funds are needed. Each advance by each bank is to be evidenced by a note bearing interest at the rate of 2½ percent per annum and maturing on April 27, 1951. The credit agreement

provides that the notes may be prepaid at any time without penalty in amounts of $700,000, or multiples thereof, except that a prepayment penalty of ¼ of 1 percent per annum shall be paid for the unexpired term of the notes being prepaid if prepayment is made from the proceeds of borrowings from banks other than the banks participating in the credit agreement. A commitment fee will be paid computed at the rate of ½ of 1 percent per annum on the average daily unused balance of the commitment from the date of the credit agreement to December 31, 1950, or until the entire $3,500,000 shall have been taken down, whichever shall occur first.

The declaration states that the proceeds from the proposed bank loans will be utilized by Milwaukee to finance its immediate construction requirements. Prior to October 1950, the company contemplates a permanent financing program which would include the retirement of all of its presently outstanding senior securities, consisting of $21,834,000 principal amount of debt securities and $2,000,000 par value of preferred stock, through the issuance of $27,000,000 principal amount of bonds, $6,000,000 of preferred stock and $3,000,000 of common stock. While this program is set forth in the instant application, all that we are doing now is approving the temporary financing to provide for immediate construction requirements and our action is in no may to be construed as an indication that we are giving any approval to the projected refinancing program.

Milwaukee estimates that the fees and expenses to be incurred in connection with the proposed transactions will aggregate $3,000, including legal fees of $1,500.

It is represented that no approval or consent of any regulatory body, other than this Commission, is necessary for the consummation of the proposed transactions.

Said declaration having been filed on June 5, 1950, and the amendment thereto having been filed on July 3, 1950, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said declaration, as amended, that the requirements of the applicable provisions of the act and the rules promulgated thereunder are satisfied, and observing no basis for adverse findings, and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration, as amended, be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions prescribed in Rule U-24, that said declaration, as amended, be, and the same hereby is, permitted to become effective forthwith.

By the Commission.

said bonds presently in the custody of Walter Leich and Alexander L. Leich, Trustees, 420 N. W. Fifth Street, Evansville 1, Indiana, and any and all rights thereunder and thereto, and

e. That certain debt or other obligation of Walter Leich and Alexander L. Leich, Trustees, 420 N. W. Fifth Street, Evansville 1, Indiana, in the amount of $277.19, as of June 14, 1949, together with any and all accruals thereto and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by the personal representatives, heirs, next of kin, legatees and distributees of Anna Schierning, deceased, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the personal representatives, heirs, next of kin, legatees and distributees of Anna Schierning, deceased, referred to in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 5, 1950.

For the Attorney General.

PART 728—WHEAT

NATIONAL ACREAGE ALLOTMENT FOR 1951 CROP

Sec.
728.103 Basis and purpose.
728.104 1951 national acreage allotment for wheat.

AUTHORITY: §§ 728.103 and 728.104 issued under sec. 375, 52 Stat. 66; 7 U. S. C. 1375; apply or interpret secs. 301, 332, 333, 52 Stat. 38, 53, as amended; 7 U. S. C. and Sup. 1301, 1332, 1333.

§ 728.103 *Basis and purpose.* Sections 728.103 and 728.104 are based on sections 301, 332, and 333 of the Agricultural Adjustment Act of 1938, as amended, and its purpose is to announce the national acreage allotment for the 1951 crop of wheat. The act provides that the national acreage allotment shall be that acreage which the Secretary determines will, on the basis of the national average yield for wheat, produce an amount thereof adequate, together with the estimated carry-over at the beginning of the marketing year for such crop and imports, to make available a supply for such marketing year equal to a normal year's domestic consumption and exports plus 30 per centum thereof. The findings and determinations made by the Secretary in § 728.104 have been made on the basis of the latest available statistics of the Federal Government and after due consideration within the limits permitted by the Agricultural Adjustment Act of 1938, as amended, of data, views, and recommendations received pursuant to public notice (15 F. R. 2686) given in accordance with the Administrative Procedure Act.

§ 728.104 *1951 national acreage allotment for wheat.* (a) The estimated carry-over of wheat for the marketing year beginning July 1, 1951, is 374 million bushels;

(b) A "normal year's domestic consumption and exports" of wheat are 1,172 million bushels;

(c) Imports of wheat during the marketing year beginning July 1, 1951, are estimated to be negligible;

(d) The "national average yield" of wheat is 15.8 bushels per acre;

(e) The national acreage allotment for the 1951 crop of wheat is 72,784,810 acres.

Issued at Washington, D. C., this 14th day of July 1950.

[SEAL] DILLARD B. LASSETER,
Acting Secretary of Agriculture.

Subpart—*Misbranding or mislabeling:* § 3.1190 *Composition; Wool Products Labeling Act.* § 3.1325 *Source or origin; Wool Products Labeling Act.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 3.1845 *Composition; Wool Products Labeling Act;* § 3.1900 *Source or origin; Wool Products Labeling Act.* In connection with the introduction or manufacture for introduction into commerce, or the sale, transportation, or distribution in commerce, of woolen batts or other wool products, as defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain, or in any way are represented as containing "wool", "reprocessed wool", or "reused wool", as those terms are defined in said act, misbranding such woolen batts or other products, by failing to affix securely to or place on such products a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner, (a) the percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding 5 per centum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is 5 per centum or more, and (5) the aggregate of all other fibers; (b) the maximum percentage of the total weight of such wool product of any nonfibrous loading, filling, or adulterating matter; and (c) the name or the registered identification number of the manufacturer of such wool product, or of one or more persons engaged in introducing such wool product into commerce, or in the sale, transportation, or distribution thereof in commerce, as "commerce" is defined in the Federal Trade Commission Act and in the Wool Products Labeling Act of 1939; prohibited, subject to the qualification, however, that the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939; and subject to the further provision that nothing contained in the order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Western Batt and Bedding Company, Inc., et al., docket 5682, May 24, 1950]

In the Matter of Western Batt and Bedding Company, Inc., a Corporation, and Lee Brown, Individually and as an Officer of the Western Batt and Bedding Company, Inc.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, and the answer of respondents, in which joint answer respondents admit all the material allegations of fact set forth in said complaint and waive all intervening procedure, including the filing of recommended decision by the trial examiner and further hearing as to said facts, and the Commission having made its findings as to the facts and its conclusion that respondents have violated the provisions of the Federal Trade Commission Act and the Wool Products Labeling Act of 1939:

It is ordered, That respondents Western Batt and Bedding Company, Inc., a corporation, its officers, agents, representatives, and employees, and Lee Brown, individually, and his agents, representatives, and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the sale, transportation, or distribution in commerce, as "commerce" is defined in the aforesaid acts, of woolen batts or other wool products, as such products are defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain, or in any way are represented as containing "wool", "reprocessed wool", or "reused wool", as those terms are defined in said act, do forthwith cease and desist from misbranding such woolen batts, or other products, by failing to affix securely to or place on such products a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner:

(a) The percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding 5 percentum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is 5 percentum or more, and (5) the aggregate of all other fibers.

(b) The maximum percentage of the total weight of such wool product of any nonfibrous loading, filling, or adulterating matter.

(c) The name or the registered identification number of the manufacturer of such wool product, or of one or more persons engaged in introducing such wool product into commerce, or in the sale, transportation, or distribution thereof in commerce, as "commerce" is defined in the Federal Trade Commission Act and in the Wool Products Labeling Act of 1939.

Provided, That the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939; *And provided, further,* That nothing contained in this order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the man-

ner and form in which they have complied with this order.

Issued: May 24, 1950.

By the Commission.

PART 193—SLIDE FASTENER INDUSTRY

PROMULGATION OF TRADE PRACTICE RULES

Due proceedings having been held under the trade practice conference procedure in pursuance of the act of Congress approved September 26, 1914, as amended (Federal Trade Commission Act), and other provisions of law administered by the Commission;

It is now ordered, That the trade practice rules of Group I and Group II, as hereinafter set forth, which have been approved and received, respectively, by the Commission in this proceeding, be promulgated as of July 18, 1950.

Statement by the Commission. Trade practice rules for the Slide Fastener Industry, as hereinafter set forth, are promulgated by the Federal Trade Commission under the trade practice conference procedure.

Members of the industry are the persons, firms, corporations and organizations engaged in the manufacture, assembly, or distribution and marketing, of slide fasteners (commonly called "zippers"), or component parts thereof, including stringers, fastener chains, sliders, pulls, bottom and top stops, and separating end components, whether of metal, plastic, or other material. Total gross sales of the industry in 1948 at wholesale are estimated at between 60 and 70 million dollars.

The rules are directed to the elimination and prevention of various unfair trade practices and are issued in the interest of protecting the purchasing public and maintaining fair competitive conditions in the industry. To this end the rules provide a helpful guide to all members of the industry.

Proceedings leading to the establishment of rules were instituted upon application made on behalf of industry members. A general industry conference was held under Commission auspices in New York City, at which proposals for rules were submitted for consideration of the Commission. Thereafter, a draft of proposed rules was released by the Commission and public hearing thereon held in Washington, D. C., at which all interested or affected parties were afforded opportunity to present their views, suggestions, or objections regarding the rules. Following such hearing, and upon consideration of the entire matter, final action was taken by the Commission whereby it approved and received, respectively, the trade practice rules hereinafter appearing in Group I and Group II.

Such rules become operative thirty (30) days from date of promulgation.

The rules. These rules promulgated by the Commission are designed to foster and promote the maintenance of fair competitive conditions in the interest of protecting industry, trade, and the public. It is to this end, and to the exclusion of any act or practice which suppresses competition, restrains trade, fixes or controls price through combination or agreement, or which otherwise injures, destroys, or prevents competition, that the rules are to be applied.

AUTHORITY: §§ 193.0 to 193.107 issued under sec. 6, 38 Stat. 721; 15 U. S. C. 46.

§ 193.0 *Definitions.* For purposes of this part the following definitions of industry products shall apply:

(a) "Slide fastener," "fastener," or "zipper" shall mean a pair of fastener stringers, each having a series of cooperating fastener elements, portions, or scoops arranged along their adjacent longitudinal edges, or a continuous portion arranged along the longitudinal edge of one stringer which interlocks with a continuous portion along the longitudinal edge of the opposite stringer, with a slider mounted thereon for opening and closing the fastener, and with or without end stops to limit the movement thereof.

(b) "Stringer" shall mean a tape having a series of fastener elements, or scoops, or interlocking portions, arranged along the edge thereof.

(c) "Fastener chain" shall mean two slide fastener stringers, each having a series of interlocking fastener elements, scoops, or interlocking portions arranged along the opposite edges thereof and in interlocking relation, but incomplete with respect to a slider.

(d) "Slider" shall mean a movable part for opening and closing a fastener and consisting of a pair of spaced-apart wing portions connected at one end by a neck or yoke portion to provide a channel through which pass the fastener elements, scoops, or portions to be engaged or disengaged.

(e) "Separating end components" shall mean any parts, such as pin and socket members, placed at the ends of the stringers of a slide fastener to permit complete separation of such stringers.

GROUP I

General statement. The unfair trade practices embraced in the Group I rules herein are considered to be unfair methods of competition, unfair or deceptive acts or practices, or other illegal practices, prohibited under laws administered by the Federal Trade Commission; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use, by any person, partnership, corporation, or other organization subject to its jurisdiction, of such unlawful practices in commerce.

§ 193.1 *Misrepresentation in general.* It is an unfair trade practice for any member of the industry to use, or cause or promote the use of, any advertising matter, guarantee, warranty, trade promotional literature, mark, brand, label, or other representation, however disseminated or published, which has the capacity and tendency or effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public with respect to the grade, quality, length, weight, size, use, colorfastness, material, composition, construction, fabrication, manufacture, distribution, origin, or price or terms of sale, of any slide fastener or any component part thereof, or with respect to the character, extent, or type of the business of any industry member. [Rule 1]

§ 193.2 *Deception as to used materials.* (a) It is an unfair trade practice for any member of the industry to sell, offer for sale, advertise, or otherwise represent any slide fastener, or any component thereof, as being new when such is not true in fact.

(b) In the marketing of used, reclaimed, or second-hand slide fasteners, or fasteners containing used, reclaimed, or second-hand parts, it is an unfair trade practice to fail or refuse to make full and nondeceptive disclosure, by tag or label attached to the product, of the fact that such fasteners or components thereof are not new but are used, reclaimed, or second-hand, as the case may be, such failure or refusal to make disclosure having the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public. [Rule 2]

§ 193.3 *Disclosure as to foreign origin of imported slide fasteners.* It is an unfair trade practice for any industry member:

(a) To sell or offer for sale any slide fasteners or slide-fastener parts which have been manufactured or assembled in a foreign country without making clear and nondeceptive disclosure to the purchasers and prospective purchasers of the name of the country in which such fasteners or parts were made or assembled; or

(b) To sell or offer for sale slide fasteners which, though assembled in this country, contain fastener chains of foreign manufacture without making clear and nondeceptive disclosure to purchasers and prospective purchasers of the name of the country in which the fastener chains have been manufactured. Such disclosure should be made in all advertisements and sales promotional literature relating to the product, and by label or tag attached to the product itself, which tags or labels should be of sufficient permanency and so affixed as to carry through to consumer-purchasers. When the product has been assembled in this country of fastener chains made in one country, and of other parts made in another or other countries, such disclosure should be so worded as to make it clear that it has application only to the fastener chain.

NOTE: Nothing in this section shall be construed as relieving any member of the industry or other party of the necessity of complying with the requirements of the customs laws or regulations or other applicable provisions of law or regulation relating to the marking of slide fasteners or any component parts thereof.

[Rule 3]

§ 193.4 *Deception as to length.* (a) It is an unfair trade practice to misrepresent the length of any slide fastener, or to sell, offer for sale, or distribute slide fasteners under any circumstance or condition having the capacity and tendency or effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public concerning the length or measure of any such product.

(b) In order to avoid and prevent deception in the sale of slide fasteners, the linear measure of each slide fastener should be indicated clearly and nondeceptively on the package or other container of the product, or on label, stamp, or tag securely affixed thereto: *Provided, however*, That with respect to slide fasteners of the same length put up for the industrial or manufacturing trade and not for individual retail sale to consumer-purchasers, disclosure of the linear measure of such slide fasteners may be made on the box or other container in which such fasteners are packaged for shipment to the industrial user, or on label, stamp, or tag securely affixed thereto: *And provided further*, That the linear measure so indicated shall be the true length of the metal or plastic fastener elements and the stops and separating units, if any, when the fastener is closed, subject, however, to unavoidable variations in manufacture not to exceed applicable length of tolerances provided for in Federal Specification V-F-106, dated February 1, 1949. [Rule 4]

§ 193.5 *Exclusive deals and lifting of stocks.* It is an unfair trade practice for any member of the industry to purchase or otherwise acquire from a distributor or dealer the stock of a competitor or competitors of such industry member, to make loans to a distributor or dealer, or to guarantee a distributor or dealer increased profits as compared with profits previously obtained in the handling of competitive products, when such acts or practices are done:

(a) Upon any express or implied condition, agreement, or understanding that the distributor or dealer will discontinue handling competitive products and will handle such member's products exclusively; or

(b) As an inducement to the distributor or dealer to discontinue handling competitive products and to handle such member's products exclusively;

and where the effect of such acts or practices may be to substantially lessen competition, or tend to create a monopoly, or to unreasonably restrain trade. [Rule 5]

§ 193.6 *Use of "loss leaders."* The practice of selling any type of slide fasteners or other industry products below the seller's cost as a "loss leader" to induce the purchase of other merchandise, the sale of the latter being used to recoup the loss sustained on the "loss leader" product so sold, with the capacity and tendency or effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public, is an unfair trade practice. [Rule 6]

§ 193.7 *Selling below cost.* The practice of selling slide fasteners or other industry products at a price less than the cost thereof to the seller, with the purpose or intent, and where the effect may be, to injure, suppress, or stifle competition, or tend to create a monopoly in the production or sale of such products, is an unfair trade practice. As used in this section the term "cost" means the total cost to the seller, including his cost of acquisition, processing, preparation for marketing, sale, and delivery. [Rule 7]

§ 193.8 *Discriminatory returns.* It is an unfair trade practice for any member of the industry engaged in commerce[1] to discriminate in favor of one customer-purchaser against another customer-purchaser of industry products, bought from such member of the industry for resale, by contracting to furnish, or furnishing in connection therewith, upon terms not accorded to all competing customer-purchasers on proportionally equal terms, the service or facility whereby such favored purchaser is accorded the privilege of returning industry products so purchased and receiving therefor credit or refund of purchase price: *Provided, however*, That nothing in this part shall prohibit or be used to prevent the return of merchandise by purchasers, for credit or refund of purchase price, when and because such merchandise has not been properly labeled by the seller in accordance with this part, or has been otherwise falsely or deceptively labeled or represented, or when and because such merchandise is defective in material, workmanship, or in any other respect is contrary to warranty or purchase contract. [Rule 8]

§ 193.9 *False or deceptive selling methods.* To use or promote the use of any selling method or credit term which has the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public is an unfair trade practice. [Rule 9]

§ 193.10 *Coercing purchase of one product as a prerequisite to the purchase of other products.* The practice of coercing the purchase of one or more products or services as a prerequisite to the purchase of one or more other products or services, where the effect may be to substantially lessen competition or tend to create a monopoly or to unreasonably restrain trade, is an unfair trade practice. [Rule 10]

§ 193.11 *Substitution of products.* The practice of shipping or delivering products which do not conform to samples submitted, to specifications upon which the sale is consummated, or to representations made prior to securing the order, without the consent of the purchasers to such substitutions and with the tendency, capacity, or effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public, is an unfair trade practice. [Rule 11]

§ 193.12 *Consignment distribution.* It is an unfair trade practice for any member of the industry to use the practice of shipping slide fasteners or other industry products on consignment or pretended consignment for the purpose and with the effect of artificially clogging or closing trade outlets and unduly restricting competitors' use of said trade outlets in getting their products to consumers through regular channels of distribution, thereby injuring, destroying, or preventing competition or tending to create a monopoly or to unreasonably restrain trade: *Provided, however*, That nothing in this section shall be construed as restricting or preventing consignment shipping or marketing of slide fasteners or other industry products in good faith where suppression of competition, restraint of trade, or undue interference with competitors' use of the usual channels of distribution, is not effected. [Rule 12]

§ 193.13 *False invoicing.* Withholding from or inserting in invoices or sales slips any statements or information by reason of which omission or insertion a false record is made, wholly or in part, of the transactions represented on the face of such invoices or sales slips, with the effect of thereby misleading or deceiving purchasers, prospective purchasers, or the consuming public, is an unfair trade practice. [Rule 13]

§ 193.14 *Unlawful coercion or combinations in restraint of trade.* It is an unfair trade practice for a member of the industry:

(a) To use, directly or indirectly, any form of threat, intimidation, or coercion against any member of the industry or other person to unlawfully fix, maintain, or enhance prices, suppress competition, or restrain trade; or

(b) To enter into or take part in, directly or indirectly, any agreement, understanding, combination, conspiracy, or concerted action with one or more mem-

bers of the industry, or with one or more other persons, to unlawfully fix, maintain, or enhance prices, suppress competition, or restrain trade. [Rule 14]

§ 193.15 *Commercial bribery.* It is an unfair trade practice for a member of the industry, directly or indirectly, to give, or offer to give, or permit or cause to be given, money, services, or anything of value to agents, employees, or representatives of customers or prospective customers, or to agents, employees, or representatives of competitors' customers or prospective customers, without the knowledge of their employers or principals, as an inducement to influence their employers or principals to purchase or contract to purchase products manufactured or sold by such industry member or the maker of such gift or offer, or to influence such employers or principals to refrain from dealing in the products of competitors or from dealing or contracting to deal with competitors. [Rule 15]

§ 193.16 *Enticing away employees of competitors.* It is an unfair trade practice for any member of the industry willfully to entice away employees of competitors with the purpose and effect of thereby unduly hampering or injuring competitors in their business and destroying or substantially lessening competition.

NOTE: Nothing in this section shall be construed as prohibiting employees or agents from seeking or obtaining more favorable employment, or as preventing manufacturers or sellers from soliciting business from any dealers or other prospective purchasers or marketers in good faith and by means of fair competitive methods.

[Rule 16]

§ 193.17 *Defamation of competitors or disparagement of their products.* The defamation of competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false representations, or the false disparagement of the grade, quality, or manufacture of the products of competitors, or of their business methods, selling prices, values, credit terms, policies, or services, or conditions of employment, is an unfair trade practice. [Rule 17]

§ 193.18 *Procurement of competitors' confidential information.* It is an unfair trade practice for any member of the industry to obtain information concerning the business of a competitor by bribery of an employee or agent of such competitor, by false or misleading statements or representations, by the impersonation of one in authority, or by any other unfair means, and to use the information so obtained in such manner as to injure said competitor in his business or to suppress competition or unreasonably restrain trade. [Rule 18]

§ 193.19 *Imitation or simulation of trade-marks, trade names, etc.* The imitation or simulation of the trade-marks, trade names, brands, or labels of competitors, with the capacity and tendency or effect of misleading or deceiving purchasers, prospective purchasers, or the consuming public, is an unfair trade practice. [Rule 19]

§ 193.20 *Inducing breach of contract.* Inducing or attempting to induce the breach of existing lawful contracts between competitors and their customers or their suppliers by any false or deceptive means whatsoever, or interfering with or obstructing the performance of any such contractual duties or services by any such means, with the purpose and effect of unduly hampering, injuring, or prejudicing competitors in their business, is an unfair trade practice. [Rule 20]

§ 193.21 *Unfair threats of infringement suits.* The circulation of threats of suit for infringement of patents or trade-marks among customers or prospective customers of competitors, not made in good faith but for the purpose or with the effect of thereby harassing or intimidating such customers or prospective customers, or of unduly hampering, injuring, or prejudicing competitors in their business, is an unfair trade practice. [Rule 21]

§ 193.22 *Prohibited discrimination—(a) Prohibited discriminatory prices, or rebates, refunds, discounts, credits, etc., which effect unlawful price discrimination.* In the marketing in commerce [1] of products of the industry of like grade and quality for use, consumption, or resale within the jurisdiction of the United States, and subject to subparagraph (1) (i), (ii), and (iii) of this paragraph, it is an unfair trade practice for any member of the industry engaged therein to discriminate in price between different purchasers where the effect thereof may be substantially to lessen competition or tend to create a monopoly in any line of commerce, or to injure, destroy, or prevent competition with such industry member or with any person who knowingly receives the benefit of such discrimination or with their customers.

(1) The inhibitions against such discrimination in price shall be applicable irrespective of whether the discrimination in the price itself is effected in the form, or through the means, of rebates, refunds, discounts, credits, allowances, or other form of price differential.

(i) Nothing, however, herein contained shall prevent differentials which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which the products are sold or delivered to said purchasers.

(ii) Nor shall anything herein contained prevent persons engaged in selling products in commerce [1] from selecting their own customers in bona fide transactions and not in restraint of trade.

(iii) Nor shall anything herein contained prevent price changes from time to time where made in response to changing conditions affecting the market for or the marketability of the products concerned, such as but not limited to actual or imminent deterioration of perishable goods, obsolescence of seasonal goods, distress sales under court process, or sales in good faith in discontinuance of business in the products concerned.

(b) *Prohibited brokerage or commissions.* In the selling of industry products in commerce,[1] it is an unfair trade practice for any member of the industry engaged therein to pay or grant, or to receive or accept, any commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of such products, either to the other party to such transaction or to an agent, representative, or other intermediary therein, where such intermediary is acting in fact for or in behalf, or is subject to the direct or indirect control, of any party to such transaction other than the person by whom such compensation is so granted or paid.

(c) *Prohibited advertising or promotional allowances, etc.* In the selling of industry products in commerce [1] by any member of the industry, and in the course thereof, it is an unfair trade practice for such member to pay or contract for the payment of anything of value to or for the benefit of his customer as compensation or in consideration for certain services or facilities furnished by or through such customer, unless such payment or consideration is available on proportionally equal terms to all other customers of such member competing in the distribution of such products.

As used in this paragraph, the certain services or facilities referred to are such as are furnished by or through the customer in connection with the processing, handling, sale, or offering for sale, of such industry member's products.

(d) *Prohibited discrimination in services or facilities.* In the sale of industry products bought for resale, with or without processing, it is an unfair trade practice for any member of the industry engaged in commerce,[1] in the course thereof, to discriminate in favor of one purchaser against another purchaser by furnishing certain services or facilities upon terms not accorded to all competing purchasers on proportionally equal terms.

Said services or facilities referred to in this paragraph are such as are connected with the processing, handling, sale, or offering for sale, of the products purchased, and the term "furnishing" as used in this paragraph shall be construed as including contracting to furnish, and contributing to the furnishing of, the services or facilities.

(e) *Inducing or receiving an illegal discrimination in price.* It is an unfair trade practice for any member of the industry, in the course of commerce [1] in which he is engaged, knowingly to induce or receive a discrimination in price which is prohibited by the foregoing provisions of this section.

(f) *Exemptions.* The inhibitions of this section shall not apply to purchases of their supplies for their own use by schools, colleges, universities, public libraries, churches, hospitals, and charitable institutions not operated for profit. [Rule 22]

§ 193.23 *Aiding or abetting use of unfair trade practices.* It is an unfair trade practice for any person to aid, abet, coerce, or induce another, directly or indirectly, to use or promote the use of any unfair trade practice specified in this part. [Rule 23]

GROUP II

General statement. Compliance with trade practice provisions embraced in Group II rules is considered to be conducive to sound business methods and is to be encouraged and promoted individually or through voluntary cooperation exercised in accordance with existing law. Non-observance of such rules does not per se constitute violation of law. Where, however, the practice of not complying with any Group II rules is followed in such manner as to result in unfair methods of competition or unfair or deceptive acts or practices in commerce, corrective proceedings in respect thereto may be instituted by the Commission as in the case of violation of Group I rules.

§ 293.101 *Arbitration.* The industry approves the practice of handling business disputes between members of the industry and their customers in a fair and reasonable manner, coupled with a spirit of moderation and good will, and every effort should be made by the disputants themselves to compose their differences. If unable to do so they should, if possible, submit these disputes to arbitration. [Rule A]

§ 193.102 *Repudiation of contracts.* Lawful contracts, either written or oral, are business obligations which should be performed in letter and in spirit. The repudiation of contracts by sellers on a rising market or by buyers on a declining market is equally reprehensible and is condemned by the industry. [Rule B]

§ 193.103 *Price lists.* (a) The industry approves the practice of each individual member of the industry independently publishing and circulating to the purchasing trade his own price lists.

(b) The industry approves the practice of making the terms of sale a part of all published price schedules. [Rule C]

§ 193.104 *Return of merchandise.* The practice, by members of the industry, of selling merchandise and later permitting the purchaser to return it for credit or refund of purchase price, without just cause, creates waste and loss, increases the cost of doing business to the detriment of both the industry and the public, and is condemned by the industry, subject, however, to requirements and limitations set forth in the provisions of § 193.8. [Rule D]

§ 193.105 *Dissemination of credit information.* The industry records its approval of distributing to its members information covering delinquent and slow accounts insofar as it may be lawfully done. [Rule E]

§ 193.106 *Filing of trade-marks, etc.* To avoid confusion within the industry, it is recommended that each member thereof voluntarily file with a qualified agency designated by the industry all trade-marks, trade names, labels, or brands used by such member, and that such information be made equally available to all members of the industry and to the public. [Rule F]

§ 193.107 *Giving of samples.* The industry disapproves the giving of samples without charge except only as may be necessary to acquaint purchasers or prospective purchasers with the grade or quality of the product offered for sale, and where the giving of such samples by any member of the industry is not practiced or accomplished in such way or to such extent as to effectuate an illegal discrimination in price contrary to the provisions of § 193.22. [Rule G]

A Committee on Trade Practices is hereby authorized to cooperate with the Federal Trade Commission and to perform such acts as may be legal and proper in the furtherance of fair competitive practices and in promoting the effectiveness of the rules.

Chapter I—Food and Drug Administration, Federal Security Agency

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administration by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 357) the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR 141.1 et seq.) and certification of batches of antibiotic and antibiotic-containing drugs (21 CFR 146.1 et seq. and 1949 Supp.; 15 F. R. 584, 1073, 2082) are amended as indicated below:

1. Part 141 is amended by adding the following new section:

§ 141.208 *Aureomycin otic—(a) Potency.* Proceed as directed in § 141.201 (a).

(b) *Moisture.* Proceed as directed in § 141.5 (a).

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 507, 59 Stat. 463, as amended; 21 U. S. C. and Sup., 357)

2a. In § 146.106 *Dihydrostreptomycin sulfate solution* * * * paragraph (a) *Standards of identity, etc.* is amended by adding the following new subparagraph:

(4) It may contain one or more suitable and harmless buffer substances and stabilizing agents.

b. In § 146.106, subparagraph (2) of paragraph (c) *Labeling* is amended by changing the period at the end thereof to a comma and by adding the following new clause after the quotation mark: "unless the person who requests certification has submitted to the Commissioner results of tests and assays showing that after having been stored for 12 months at room temperature such drug as prepared by him complies with the standards prescribed by paragraph (a) of this section."

c. In § 146.106 subparagraph (3) of paragraph (d) *Requests for certification; samples* is amended by adding the following new subdivision:

(iv) In case of an initial request for certification, each other ingredient used in making the batch; one package of each containing approximately 5 gm.

d. In § 146.106, subparagraph (1) of paragraph (e) *Fees* is amended by inserting "and (iv)" between "(d) (3) (iii)" and "of this section".

3. In § 146.201 *Aureomycin hydrochloride* * * * paragraph (b) *Packaging,* second sentence, is amended by inserting "unless it is intended solely for veterinary use and is conspicuously so labeled" between the words "not more than 1.0 gm." and "and each shall contain".

4. In § 146.205 *Aureomycin powder* * * * paragraph (a), first sentence, is amended to read: "Aureomycin powder is crystalline aureomycin with or without suitable and harmless buffer substances, diluents, colorings, and flavorings."

5. Part 146 is amended by adding the following new section:

§ 146.208 *Aureomycin otic (aureomycin hydrochloride otic)—(a) Standards of identity, strength, quality, and purity.* Aureomycin otic is a packaged combination of one immediate container of crystalline aureomycin and one immediate container of a suitable and harmless aqueous solution. The aureomycin is of such quantity that when dissolved as directed the potency of such solution is not less than 5 mg. per milliliter after it has been kept for 7 days at a temperature of 15° C. (59° F.). The aureomycin used conforms to the requirements of § 146.201 (a), except subparagraphs (2), (4), and (5) of § 146.201 (a). Each substance used in the preparation of the aqueous solution contained in the packaged combination, if its name is recognized in the U. S. P. or N. F., conforms to the standards prescribed therefor by such official compendium.

(b) *Packaging.* Each immediate container shall be a tight container as defined by the U. S. P. and shall be of such

composition as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so caused which are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded.

(c) *Labeling.* Each package of aureomycin otic shall bear on its label or labeling as hereinafter indicated the following:

(1) On the outside wrapper or container and on the immediate container of the aureomycin:

(i) The batch mark;

(ii) The number of milligrams in the immediate container;

(iii) The statement "Expiration date ---------" the blank being filled in with the date which is 24 months after the month during which the batch was certified; and

(iv) The statement "Warning—Not for injection."

(2) On the outside wrapper or container and on the immediate container of the solution in the packaged combination:

(i) A statement giving the method of dissolving the aureomycin in the solution;

(ii) The potency per milliliter after the aureomycin has been dissolved therein; and

(iii) The conditions under which the solution should be stored, including a reference to its instability when stored under other conditions, and the statement "The solution may be kept in a refrigerator for 1 week without significant loss of potency."

(3) On the outside wrapper or container:

(i) The statement "Caution: To be dispensed only by or on the prescription of a physician"; and

(ii) A reference specifically identifying a readily available medical publication containing directions and precautions (including contraindications and possible sensitization) adequate for the use of aureomycin otic; or a reference to a brochure or other printed matter containing such directions and precautions, and a statement that such brochure or printed matter will be sent to physicians on request.

(d) *Request for certification; samples.* (1) In addition to complying with the requirements of § 146.2, a person who requests certification of a batch of aureomycin otic shall submit with his request a statement showing the batch mark, the number of packages of each size in such batch, the number of milligrams in each immediate container thereof, the date on which the latest assay of the batch was completed, the batch mark, and (unless it was previously submitted) the date on which the latest assay of the aureomycin used in making such batch was completed, the quantity of each ingredient used in making the aqueous solution included in the packaged combination, and a statement that such solution conforms to the requirements prescribed therefor by this section.

(2) Except as otherwise provided in subparagraph (4) of this paragraph, such person shall submit in connection with his request results of the tests and assays listed after each of the following, made by him on an accurately representative sample of:

(i) The batch; potency and moisture.

(ii) The solution after the aureomycin has been dissolved therein; potency.

(iii) The aureomycin used in making the batch; potency, toxicity, moisture, pH, and crystallinity.

(3) Except as otherwise provided in subparagraph (4) of this paragraph, such person shall submit in connection with his request, in the quantities hereinafter indicated, accurately representative samples of the following:

(i) The batch; one package for each 5,000 packages in the batch, but in no case less than 20 packages or more than 100 packages, collected by taking a single package at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) The aureomycin used in making the batch; 10 packages, each containing approximately equal portions of not less than 60 mg., packaged in accordance with the requirements of § 146.201 (b).

(iii) In case of an initial request for certification, or when any change is made in composition of such solution; 5 packages of the solution included in the combination.

(4) No result referred to in subparagraph (2) (iii) of this paragraph, and no sample referred to in subparagraph (3) (ii) of this paragraph, is required if such result or sample has been previously submitted.

(e) *Fees.* The fee for the services rendered with respect to each batch under the regulations in this part shall be:

(1) $1.00 for each immediate container in the sample submitted in accordance with paragraph (d) (3) (i) of this section, $4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (ii) and (iii) of this section; and

(2) If the Commissioner considers that investigations, other than examination of such packages, are necessary to determine whether or not such batch complies with the requirements of § 146.3 for the issuance of a certificate, the cost of such investigation.

The fee prescribed by subparagraph (1) of this paragraph shall accompany the request for certification unless such fee is covered by an advance deposit maintained in accordance with § 146.8 (d).

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. and Sup., 357)

This order, which provides for a container of aureomycin intended for intravenous use larger than one gram, if it is labeled for veterinary use; for certification of aureomycin powder that is packaged with or without other suitable and harmless ingredients; for tests and methods of assay and certification of a new aureomycin preparation, aureomycin otic; and for certification of solutions of dihydrostreptomycin sulfate that contain suitable and harmless buffer substances and stabilizers, shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industries will be benefited by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order and would be contrary to public interest, and I so find, since it was drawn in collaboration with interested members of the affected industries and since it would be against public interest to delay providing for a container of aureomycin intended for intravenous use larger than 1 gram, if it is labeled for veterinary use; for the marketing of aureomycin powder that is packaged with or without other suitable and harmless ingredients; for the marketing of aureomycin otic; and for the certification of solutions of dihydrostreptomycin sulfate that contain suitable and harmless buffer substances and stabilizers.

Dated: July 11, 1950.

[Controlled Rooms in Rooming Houses and Other Establishments Rent Reg., Amdt. 259]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

OKLAHOMA

The Controlled Housing Rent Regulation (§§ 825.1 to 825.12) and the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92) are amended in the following respects:

1. Schedule A, Item 249b, is amended to read as follows:

(249b) [Revoked and decontrolled.]

This decontrols the entire Okmulgee, Oklahoma, Defense-Rental Area on the Housing Expediter's own initiative, in accordance with section 204 (c) of the Housing and Rent Act of 1947, as amended.

2. Schedule A, Item 251, is amended to read as follows:

(251) [Revoked and decontrolled.]

This decontrols (1) the City of Tulsa in Tulsa County, Oklahoma, a portion of the Tulsa, Oklahoma, Defense-Rental Area, and all unincorporated localities in said defense-rental area, based on a resolution submitted with respect to said City of Tulsa in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended, said City of Tulsa being the major portion of said defense-rental area, and (2) the remainder of said defense-rental area, on the Housing Expediter's own initiative in accordance with section 204 (c) of said act.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

JOINT PROCUREMENT REGULATIONS

AIRCRAFT MANUFACTURING INDUSTRY

The Joint Procurement Regulations, formerly published in Chapter VIII, Title 10, are amended by changing § 809.1202–19 to read as follows:

§ 809.1202–19 *Aircraft manufacturing industry*—(a) *Definition.* (1) The aircraft manufacturing industry is defined as that industry which manufactures or furnishes airplanes and gliders, aircraft-type engines, aircraft-propellers, parts and accessories especially designed for use with or on the abovementioned products such as fuselage parts, wing assemblies, empennage assemblies, alighting gear parts, aircraft engine parts, propeller parts, helicopter rotor parts, fuel systems, armament equipment, and specialized aircraft servicing equipment including special testing equipment for aircraft, engine, and propeller parts and accessories, and special tools and stand assemblies for the assembly, disassembly, and repair of aircraft and the engines, propellers, parts, and accessories therefor.

(2) Expressly excluded from the scope of the definition are lighter-than-air craft; fabricated textile products, e. g., fabric ground covers, parachutes, safety belts, tow targets, and wind socks; pyrotechnics, e. g., cartridges for engine starters, and flares and signals; electrical and communication equipment, e. g., electrical systems and parts, including but not limited to ignition and lighting systems, batteries, spark plugs, generators, magnetos, and wire and cable and communication equipment including but not limited to radios and electronic devices; rubber products, e. g., rubber deicing equipment, rubber flotation gear, life preservers and life rafts, bonded rubber mountings and vibration dampers, tires and tubes, and rubber sundries, such as hose and belting; ground refueling systems; bearings; bolts, nuts, screws, rivets, washers, springs and other hardware and fittings; jacks, piston rings; wire rope; cameras; cabin heaters; fire extinguishers; first-aid equipment; gaskets, lavatory equipment; engine, flight, and navigation instruments and apparatus; and aircraft air and fuel pumps and valves and flow dividers for use with such pumps.

(b) *Minimum wage.* The minimum wage for persons employed in the manufacture or furnishing of products of the aircraft manufacturing industry under contracts subject to the Walsh-Healey Public Contracts Act shall be $1.05 per hour arrived at either upon a time or piecework basis.

(c) *Subminimum wages authorized.* (1) Apprentices may be employed at wages below $1.05 an hour if their employment conforms to the standards of the Federal Committee on Apprenticeship; except that no apprentice may be employed at a rate lower than 75 cents an hour.

(2) Handicapped workers (i. e., workers whose earning capacity is impaired by age or physical or mental deficiency or injury) may be employed at wages below $1.05 an hour upon the same terms and conditions as are prescribed for the employment of handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR, Parts 524 and 525, respectively) under section 14, of the Fair Labor Standards Act, as amended. The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two acts, as appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this determination shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this determination.

(e) *Effective date.* This determination shall be effective and the minimum wages hereby established shall apply to all contracts subject to the Public Contracts Act, bids for which are solicited or negotiations commenced on or after July 8, 1950.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 3—VETERANS CLAIMS

MISCELLANEOUS AMENDMENTS

1. In § 3.102, paragraph (f) is amended to read as follows:

§ 3.102 *Wartime service connection.*

* * *

(f) Field offices will submit for central office consideration cases involving tropical diseases initially manifest at any time after discharge when in their judgment a finding of service connection would be proper but is not warranted under this section. In cases of malaria initially manifested more than 1 year after discharge, a slide with properly prepared and identified blood smear obtained by or under supervision of a physician during an initial attack or relapse will be mailed in a suitable container addressed to the director, veterans claims service, central office, with proper identification of the veteran including C-number and time and place of smear, for consideration in conjunction with the submitted claims folder, before acceptance of the diagnosis—malaria—for rating purposes.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707, ch. 12 note)

2. Section 3.276 is amended to read as follows:

§ 3.276 *Institutional awards.* When an incompetent or insane disabled person entitled to disability compensation, pension or retirement pay is a patient in a hospital or institution, payments on his account may be made by means of an institutional award in accordance with the following:

(a) When no fiduciary has been appointed or when payments to an unsatisfactory fiduciary have been stopped or suspended.

(b) When a fiduciary neglects or refuses to furnish the chief officer of the hospital or institution with funds required for the disabled person's comforts and desires not included in the regular support, care, treatment, and maintenance of the disabled person provided by the institution.

(c) When a fiduciary requests that an institutional award be made or continued.

(d) In any of these circumstances, in accordance with the provisions of section 1 (b) of Public Law 662, 79th Congress, there may be paid to the chief officer in behalf of the disabled person up to but not in excess of $30 per month, depending upon the disability rating: *Provided*, That in awards made on and after September 1, 1950, there will be paid to the manager of a Veterans' Administration hospital or center all sums, otherwise payable in excess of apportionments or awards to fiduciaries. In the event the veteran has dependents or more is payable under his disability rating or there are funds to his credit in "Funds Due Incompetent Beneficiaries," such additional amount as may be needed will be allowed, on the basis of a certification by the chief officer of the hospital or institution with respect to the need and the amount required. A certification by the chief attorney concerned as to the neglect or refusal of a fiduciary to supply necessary funds is required. Acordingly, in such cases there may be awarded to the chief officer of the hospital or institution (for definition of chief officer see § 3.277) as provided above any amount necessary for the disabled person's comforts and desires not included in the regular support, care, treatment, and maintenance of the disabled person provided by the hospital or institution. In cases where an institutional award has been authorized and no fiduciary has been appointed, none of the increases on account of dependents provided by Public Law 877, 80th Con-

gress, as amended by section 4, Public Law 339, 81st Congress, will be reflected in the institutional award but such increases will be paid to the apportionee or apportionees in the full amount which is payable on his or their account. If a fiduciary has been appointed and is providing for the veteran's dependents, the increase will be paid to him. Any benefits payable on account of the disabled person not paid to the chief officer of the hospital or institution or to a fiduciary or not apportioned to a dependent or dependents will be paid into the "Funds Due Incompetent Beneficiaries." Any excess funds in the hands of the chief officer of a hospital or institution other than a Veterans' Administration hospital or center at the end of each accounting period, which he may deem unnecessary for expenditure for the benefit of a disabled person, will be returned to the Veterans' Administration or to a fiduciary, if one is serving.

(e) Where no fiduciary has been or is to be appointed, or when payments to an unsatisfactory fiduciary have been stopped or suspended, as indicated in paragraph (a) of this section, apportionment to dependents will be under § 3.315.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 43 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707. Interpret or apply sec. 1, 60 Stat. 908, secs. 1, 2, 62 Stat. 805, as amended; 38 U. S. C. 739, 740, 741, ch. 12 note)

3. Subparagraph (7) of § 3.1504 (a) of the Provisional Regulations is hereby canceled.

This regulation becomes effective July 18, 1950.

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART C—TRAINING FACILITIES

AMOUNT PAYABLE FOR A COURSE

In § 21.495, paragraph (b) is amended to read as follows:

§ 21.495 *Amount payable by the Veterans' Administration for a course of less than 30 weeks.* * * *

(b) The amount payable by the Veterans' Administration for a course of less than 30 weeks will be based on one of the following applicable conditions:

(1) Customary charge if it has been found to be fair and reasonable in accordance with the provisions of § 21.570.

(2) A fair and reasonable charge calculated in accordance with § 21.530 and under the requirements of a contract as provided in § 21.570, where the customary charge is determined not to be fair and reasonable, except that in any case in which one or more negotiated contracts providing a fair and reasonable rate or rates of tuition under Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12) (not under Part VII), have been executed in accordance with Veterans' Administration Regulations for two successive years in calendar time, the manager may, in his judgment, with the approval of the special assistant to the director, training facilities service, for succeeding contracts, continue the rates established by the most recent contract without requiring the submittal of additional cost data. The above continuation of rates on a fair and reasonable basis without submittal of additional cost data will be applicable only where the rates in the most recent contract are approximately the same or within reasonable range of other reasonable tuition rates for the same or similar type of courses in the area: *And provided*, That there have been no material changes in the operation of the course or courses in question. Payment on a fair and reasonable basis, whether on the original basis or on a continuation basis as above, will be in lieu of all claimed charges for tuition and fees where an educational institution (not including educational institutions of higher learning) has no "customary cost of tuition" as defined in § 21.467. Furthermore, such payment on a fair and reasonable basis will be limited to an amount which, together with an allowable charge for books, supplies, and equipment, will not exceed the rate of $500 for a full-time course for an ordinary school year, unless the veteran elects (where authorized) to have such excess paid by the Veterans' Administration and his period of entitlement accelerated accordingly.

PART 36—SERVICEMEN'S READJUSTMENT ACT OF 1944

SUBPART A—TITLE III; LOAN GUARANTY

Correction

In Federal Register Document 50-5996, appearing at page 4396 of the issue for Wednesday, July 12, 1950, the following corrections should be made:

1. The first word of § 36.4302 (h) (3) should read "Disposed".

2. The second sentence of subparagraph (3) of § 36.4350 (a) should appear as the final sentence of paragraph (a). As correctly expressed § 36.4350 (a) reads as follows:

(a) The estate in the realty acquired by the veteran, wholly or partly with the proceeds of a guaranteed or insured loan, or owned by him and on which construction, or repairs, or alterations or improvements are to be made, shall be not less than:

(1) A fee simple estate therein, legal or equitable; or

(2) A leasehold estate running or renewable at the option of the lessee for a period of not less than 14 years from the maturity of the loan, or to any earlier date at which the fee simple title will vest in the lessee, which is assignable or transferable, if the same be subjected to the lien, or

(3) A life estate, provided that the remainder and reversionary interests are subjected to the lien.

The title to such estate shall be such as is acceptable to informed buyers, title companies, and attorneys, generally, in the community in which the property is situated, except as modified by paragraph (b) of this section.

TRI-COUNTY COMMISSION CO. ET AL.

POSTING OF STOCKYARDS

The Secretary of Agriculture has information that the stockyards listed below are stockyards as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 202), and should be made subject to the provisions of that act:

Tri-County Commission Company, Faith, South Dakota.

Huron Livestock Sales Pavilion, Huron, South Dakota.

Mid-South Livestock Commission Company, Columbia, Tennessee.

Therefore, notice is hereby given that the Secretary of Agriculture proposes to issue a rule designating the stockyards named above as posted stockyards subject to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), as is provided in section 302 of that act. Any interested person who desires to do so may submit within 15 days of the publication of this notice any data, views or argument, in writing, on the proposed rule to the Director, Livestock Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

Done at Washington, D. C., this 12th day of July 1950.

CIVIL AERONAUTICS BOARD

[14 CFR, Part 21]

AIRLINE TRANSPORT PILOT CERTIFICATES

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board a revision of Part 21 of the Civil Air Regulations in substance as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. All communications received by September 15, 1950, will be considered by the Board before taking further action on the proposed rules. Copies of such communications will be available after September 20, 1950, for perusal by interested persons at the Docket Section of the Board, Room 5412, Commerce Building, Washington, D. C.

Currently effective Part 21 establishes certification requirements for the issuance of an airline transport pilot certificate, delineates some of the privileges of such certificates, and establishes some basic operating rules for the holders thereof. The parts of the Civil Air Regulations setting forth the air carrier operation rules and general operating rules for pilots describe other privileges and operating rules for airline transport pilots.

This proposed revision establishes two classes of airline transport pilot certificates, sets forth the privileges which may be exercised by the holders of such certificates, and establishes the basic operating rules for the holders thereof.

This proposal is designed to meet the situation which has developed since the end of the war with respect to the types of aircraft used in commercial air transportation. Since the end of the war with the introduction of large and more complex equipment, the great increase in air traffic, and the continuous development of irregular air carrier activity, two things have become apparent: (1) There is more than one recognizable level of experience, skill, knowledge, and ability among air carrier pilots, and (2), generally speaking, it requires a pilot of the highest competence and experience to handle the larger and more complex aircraft and equipment. For these reasons, the proposed rules for obtaining a senior airline transport pilot certificate with an airplane rating, in addition to requiring the applicant to have a high minimum total number of hours of flight time as pilot (2,000 hours), require considerable experience as pilot in command (300 hours) and experience in piloting the larger airplanes (500 hours in multiengine aircraft of not less than 1,800 maximum continuous horsepower). The lower grade of airline transport pilot certificate with an airplane rating requires less flight time appropriate to the responsibility to be exercised by the holders thereof.

Another purpose of this proposal is to narrow the existing gap between the commercial pilot certification requirements and the requirements for an airline transport pilot certificate. Currently, a pilot may receive a commercial rating after having acquired 200 hours of flight time in airplanes but must wait until he has acquired 1,200 hours before he is eligible to apply for an airline transport pilot certificate. This proposal would permit such a pilot to apply for an airline transport pilot certificate after he has flown 750 hours in airplanes, including 250 hours as pilot in command, and has met other requirements. Such a pilot would be authorized to act as pilot in command only (a) in passenger operations of any type of airplane having a maximum certificated take-off weight of less than 12,500 pounds and (b) in cargo operations using airplanes having a weight of less than 30,000 pounds for which he is rated. He would also be authorized to pilot, other than as pilot in command, all types of airplanes of less than 80,000 pounds.

In establishing these two grades of certificates for pilots of airplanes, consideration has been given to establishing a third grade to be called "master airline transport pilot." It has been suggested that an applicant for such a grade have a total of 3,000 hours as pilot, of which 500 hours should be as pilot in command, and of that total he should be required to have at least 1,000 hours as pilot in multiengine airplanes of not less than 3,500 maximum continuous horsepower. It was also suggested that he be permitted to act as pilot in command of any type of airplane and that the senior airline transport pilot be permitted, in passenger operations, to act as pilot in command only of airplanes having a maximum certificated take-off weight of less than 80,000 pounds. However, the necessity of establishing three grades of airline transport pilots is not apparent to us. Nevertheless, we do not necessarily consider the issue settled, and we shall consider any further suggestions along this line which may be directed to us.

The proposal is also designed to meet the requirement of section 602 of the Civil Aeronautics Act of 1938, as amended, that all pilots engaged in scheduled air transportation be designated "'airline transport pilot' of the proper class." Therefore, the act requires that all pilots and copilots engaged in scheduled air transportation shall have appropriate airline transport pilot certificates.

The Civil Air Regulations currently require pilots in command and two pilots of three-pilot crews engaged in irregular air carrier and commercial operator operations in aircraft of over 12,500 pounds maximum certificated take-off weight to have airline transport pilot ratings. However, we are considering a proposal to require all pilots engaged in such operations to hold such ratings regardless of the weight of the aircraft. This proposal, therefore, is drafted accordingly.

It will be noted that all pilot certificates with airline transport ratings issued prior to the effective date of this part would expire on January 1, 1951, and that on or before that date each holder thereof would be required to exchange his certificate for an airline transport pilot certificate appropriate to his experience qualifications, issued in accordance with this proposal. Such individuals would not be required to take any examination and would be issued the same airplane or helicopter ratings as those held by them on the date of exchange. Holders of commercial pilot certificates issued prior to the effective date of this part who meet the experience requirements of this proposal would, upon passing appropriate examinations, be issued airline or senior airline transport pilot certificates and appropriate ratings. Commercial pilots or airline transport pilots having aircraft ratings other than airplane or helicopter may retain or be issued, as the case may be, pilot certificates with commercial ratings for the purpose of piloting such other aircraft in other than scheduled air transportation.

It is therefore proposed to revise Part 21 to read as follows:

PART 21—AIRLINE TRANSPORT PILOT CERTIFICATES

§ 21.0 *Applicability of this part.* This part establishes certification and operating rules for airline transport pilots.

§ 21.1 *Definitions.* (a) As used in this part the words below shall be defined as follows:

(1) *Approved.* Approved, when used either alone or as modifying such words as aircraft, airplane, parachute, course, etc., means approved by the Administrator of Civil Aeronautics in accordance with the applicable requirements of the Civil Air Regulations.

(2) *Authorized representative of the Administrator.* An authorized representative of the Administrator shall mean any employee of the Civil Aeronautics Administration or any private person, authorized by the Administrator to perform any of the duties imposed upon him by the provisions of this part.

(3) *Category.* Category is a classification of aircraft such as airplane, helicopter, glider, etc.

(4) *Certificated aircraft.* A certificated aircraft is an aircraft of United States registry for which an airworthiness certificate has been issued by the Administrator, or an aircraft of foreign registry for which an airworthiness certificate has been issued by the competent authority of that country.

(5) *Certificated airline transport pilot.* A certificated airline transport pilot is

a holder of an airline transport pilot certificate or senior airline transport pilot certificate with appropriate ratings issued by the Administrator.

(6) *Class.* Class indicates a difference in basic design of aircraft within a category, such as single-engine land, multiengine sea, etc.

(7) *Crew member.* Crew member means an individual assigned for the performance of duty on an aircraft.

(8) *Dual instruction flight time.* Dual instruction flight time is that portion of the flight time during which a person is receiving flight instruction on board the aircraft from a pilot who is qualified to instruct other pilots.

(9) *Flight time.* Flight time is the total time from the moment the aircraft first moves under its own power for the purpose of flight until the moment it comes to rest at the end of the flight. (Block to block.)

(10) *Instrument time.* Instrument time is that portion of the flight time during which a pilot actually manipulates the flight controls of an aircraft flown under actual or simulated instrument flight conditions solely by reference to instruments and without external reference points, and time acquired in approved synthetic instrument training devices.

(11) *Maximum continuous horsepower.* Maximum continuous horsepower means the maximum continuous horsepower rating of the engine established in accordance with Part 13 of this chapter.

(12) *Night.* Night is the time between the ending of evening twilight and the beginning of morning twilight as published in the Nautical Almanac converted to local time for the locality concerned.[1]

(13) *Passenger.* A passenger is an individual other than a crew member, company employee, or authorized government representative who is transported in an aircraft.

(14) *Pilot in command.* Pilot in command means the pilot responsible for the operation and safety of the aircraft during the time defined as flight time.

(15) *Rating.* A rating is an authorization entered on an airman certificate, and forming a part thereof, stating special conditions, privileges, or limitations pertaining to such certificate.

(16) *Serious injury or serious illness.* Serious injury or serious illness means any injury or illness which requires hospitalization or medical treatment for a period of 5 or more days, a fracture of any bone, lacerations which cause severe hemorrhages or involve muscles, injury to any internal organ, or second or third degree burns or burns involving more than 5 percent of the body surface.

(17) *Type.* Type means all aircraft of the same basic design, including all modifications thereto except those modifications which result in a change in handling or flight characteristics.

[1] The Nautical Almanac containing the ending of evening twilight and the beginning of morning twilight tables may be obtained from the Superintendent of Documents, Government Printing Office, Washington 25, D. C. Information is also available concerning such tables in the offices of the Civil Aeronautics Administration or the United States Weather Bureau.

CERTIFICATION RULES

§ 21.5 *Application for certificate.* An application for a certificate and ratings shall be made on a form and in a manner prescribed by the Administrator.

§ 21.6 *Issuance.* (a) An airline transport pilot certificate and ratings shall be issued by the Administrator to an applicant who meets the appropriate requirements of this part.

(b) Pending a review of the applicant's application and supplementary documents and the issuance of an appropriate airline transport pilot certificate by the Administrator, an authorized representative of the Administrator may, subject to such conditions and limitations as the Administrator may prescribe, issue an appropriate temporary certificate to an applicant who meets the appropriate requirements of this part.

§ 21.7 *Duration.* (a) An airline transport pilot certificate or a senior airline transport pilot certificate issued to a United States citizen shall remain in effect until surrendered, suspended, revoked, or otherwise terminated by order of the Board. After revocation, and upon request after suspension, the certificate shall be returned to the Administrator.

(b) An airline transport pilot certificate or a senior airline transport pilot certificate issued to an applicant other than a United States citizen shall remain in effect for a period no longer than one year, but it may be reissued without further demonstration of technical competence.

(c) A temporary airline transport pilot certificate or senior airline transport pilot certificate shall remain in effect for no longer than a 90-day period.

§ 21.8 *Exchange of certificates and ratings*—(a) *Airline transport pilot ratings.* All pilot certificates with airline transport pilot ratings issued prior to the effective date of this part shall expire on January 1, 1951. On or before that date each such certificate holder shall surrender his certificate to the Administrator together with documentary evidence of his pilot experience. Thereupon, the Administrator shall, based upon the amount and type of pilot experience, issue to such holder in accordance with the provisions of this part an airline transport pilot certificate, or a senior airline transport pilot certificate.

(b) *Class and type ratings.* Holders of pilot certificates with airline transport pilot ratings shall, at the time they exchange their certificates in accordance with the provisions of this section, be issued the same class and type ratings held by them on the date of exchange. Holders of such certificates issued prior to May 1, 1949, who do not hold type ratings may be issued such ratings for each type of airplane in which such holder has flown as pilot in command a total of 50 hours within 12 months preceding the date of application therefor.[2]

[2] Effective May 1, 1949, each pilot newly issued an airline transport rating is required to have a type rating for each type of aircraft having a mixmum certificated take-off weight of 12,500 pounds.

(c) *Other category ratings.* Holders of pilot certificates with commercial or airline transport ratings whose category ratings authorized them to pilot aircraft other than airplanes or helicopters may retain or be issued pilot certificates with commercial ratings to permit their piloting such other categories of aircraft in other than scheduled air transportation.

§ 21.9 *Display.* An airline transport pilot shall, upon request, present his airman and medical certificates for examination by any authorized representative of the Civil Aeronautics Board, or Administrator or by any State or local law enforcement officer.

§ 21.10 *Change in address.* Within 30 days after any change in the permanent mailing address of a holder of an airline transport pilot certificate, he shall notify the Administrator in writing of his new address. The notice shall be mailed to the Administrator of Civil Aeronautics, attention Airman Records Branch, Washington 25, D. C.

GENERAL CERTIFICATE REQUIREMENTS

§ 21.15 *Citizenship.* An applicant shall be a citizen of the United States or of a foreign government which grants or has undertaken to grant reciprocal airline transport pilot privileges to citizens of the United States on equal terms and conditions with citizens of such foreign government.

§ 21.16 *Education.* (a) An applicant shall be able to read, write, and understand the English language and speak the same without any accent or impediment of speech which would interfere with two-way radio conversation: *Provided,* That a certificate may be issued to an applicant who is unable to speak or understand the English language, if appropriate operation limitations are imposed.

(b) An applicant shall be a high school graduate or its equivalent as determined by the Administrator from the applicant's showing of general experience, special aeronautical experience, knowledge, and skill.

§ 21.17 *Examinations and tests.* Examinations and tests shall be conducted by an authorized representative of the Administrator at such times and places as the Administrator may designate. The passing grade for all oral and written examinations shall be at least 70 percent. The practical examination shall be accomplished to the satisfaction of the authorized representative of the Administrator.

§ 21.18 *Reexamination after failure.* An applicant who has failed any prescribed written or practical examination or test may not apply for reexamination within a 30-day period from the date of such failure unless he presents a signed statement that he has received not less than 5 hours of instruction in the subject or subjects failed and is considered competent to pass such examination or test as follows:

(a) For practical examinations the instruction shall be given and attested to by a certificated airline transport pilot.

(b) For theoretical examinations the instruction shall be given and attested to by a certificated ground instructor holding a rating for the subject.

§ 21.19 *Substantiation of experience.* An applicant shall present to the Administrator satisfactory documentary evidence to substantiate the experience qualifications set forth in his application.

§ 21.20 *Physical standards.* An applicant shall present evidence that he has met the physical standards of the first class prescribed in Part 29 of the Civil Air Regulations within six months immediately preceding the date of application.

§ 21.21 *Aircraft used in flight tests.* An applicant shall furnish a certificated aircraft suitable for any flight test to be taken. Such aircraft shall have dual controls, shall accommodate the applicant and the examiner, and shall be of a design and shall possess performance and flight characteristics permitting the applicant to perform with safety the required flight maneuvers. Aircraft having only one elevator and aileron control for two seats, or any arrangement whereby all flight and engine controls cannot be handled in a normal or conventional manner from either seat, are not considered as having dual controls for the purpose of flight tests for pilot ratings. Each such aircraft shall have adequate vision for the pilot and check pilot. Parachutes shall be furnished if required by the examiner.

§ 21.22 *Aircraft category ratings.* Only the following aircraft category ratings shall be issued:

(a) Airplane, in accordance with the provisions of §§ 21.31 through 21.41, or §§ 21.51 through 21.54, whichever is appropriate.

(b) Helicopter, in accordance with the provisions of §§ 21.71 through 21.74.

§ 21.23 *Airplane class ratings.* The following airplane class ratings shall be issued:

(a) Single-engine land,
(b) Multiengine land,
(c) Single-engine sea,
(d) Multiengine sea.

§ 21.24 *Type ratings.* (a) A type rating for airplanes shall be issued for each type of airplane having a maximum certificated take-off weight of over 12,500 lbs.

(b) A type rating for helicopters shall be issued for each type of helicopter.

§ 21.25 *Application for type ratings.* An applicant for a type rating shall demonstrate to an authorized representative of the Administrator his ability to comply with the following provisions:

(a) *Airplane.* Applicant shall perform, at the skill required for the grade of certificate held or being applied for, such maneuvers of §§ 21.35 through 21.40, and § 21.41 (b) (1) and (4) as the Administrator may prescribe.

(b) *Helicopter.* Applicant shall meet the requirements of § 21.74.

QUALIFICATIONS FOR AIRLINE TRANSPORT PILOT CERTIFICATES; AIRPLANE RATINGS

§ 21.31 *Age.* An applicant shall be at least 21 years of age.

§ 21.32 *Experience.* (a) An applicant shall have had at least 750 hours of flight time as pilot of any type of airplane including not less than 250 hours as pilot in command; of which he shall have had at least:

(1) 250 hours of cross-country flight time, of which not less than 50 hours shall have been night flight time, and at least 50 hours shall have been flown as pilot in command, and

(2) 40 hours of instrument time, of which not less than 20 hours shall have been flown as pilot in command under actual instrument flight conditions; or

(b) An applicant, within 90 days immediately preceding the date of application, shall have completed satisfactorily a course of instruction which the Administrator approves as adequate for the training of an airline transport pilot.

§ 21.33 *Knowledge.* (a) An applicant shall accomplish satisfactorily a written examination on the following subjects: *Provided,* That an applicant who is the holder of a commercial pilot certificate with an instrument rating shall be deemed to have met the requirements of this paragraph: *And provided further,* That the holder of a commercial pilot certificate without an instrument rating shall be deemed to have met only the requirements of subparagraphs (1) through (7) of this paragraph:

(1) The provisions of Parts 4b, 21, 27, 40, 41, 42, 43, 45, 60, 61, and 62 of this chapter, as amended, which are pertinent to air carrier operations,

(2) The general system of weather information collection and dissemination,

(3) U. S. Weather Bureau Circular N, as amended,

(4) Weather map, weather forecast, upper air winds, and weather sequence abbreviations, codes, symbols, and nomenclature,

(5) Meteorology with particular reference to the following:

(i) Cloud forms and their significance,
(ii) Icing,
(iii) Turbulence,
(iv) Thunderstorms,
(v) Fog and low ceilings,
(vi) Frontal systems, including associated cloud forms and weather,
(vii) Pressure pattern flying,
(viii) Influence of terrain on meteorological conditions and developments, and relations thereof to air carrier flight operations,
(ix) Principles of forecasting,

(6) Navigational problems including pilotage and dead reckoning and the use of navigational aids,

(7) Theory of flight and the maintenance, inspection, and use of airplanes and powerplants,

(8) Letdown facilities and procedures currently in use,

(9) Air traffic control procedures,

(10) Principles of aircraft weight and balance.

§ 21.34 *Skill.* An applicant shall demonstrate his competence to pilot airplanes by accomplishing satisfactorily the practical tests specified in §§ 21.35 through 21.41 with respect to the airplane in which the flight test or instrument flight test is to be taken.

§ 21.35 *Preflight planning examination.* An applicant shall demonstrate proper flight planning by executing a hypothetical flight plan, including the interpretation of weather maps, upper air charts, and sequence reports.

§ 21.36 *Equipment examination.* An applicant shall accomplish satisfactorily an oral examination covering his knowledge of the safe and practical operation of the airplane, engines, and equipment.

§ 21.37 *Preflight airplane check.* An applicant shall perform a thorough visual inspection of the exterior and interior of the airplane, shall demonstrate the proper use of the check system, and shall demonstrate the issuance of adequate instructions for the proper coordination and functioning of the flight crew.

§ 21.38 *Taxying.* An applicant shall demonstrate safe taxying methods, including compliance with control tower instructions.

§ 21.39 *Engine run-up.* An applicant shall determine the proper functioning of the aircraft, engines, and equipment, using the check system.

§ 21.40 *Airplane flight test.* An applicant shall demonstrate satisfactorily his competency to pilot airplanes by performing the following maneuvers:

(a) Take-offs and landings into the wind and cross wind, with normal aircraft configurations and using approved approach procedures.

(b) Straight climbs, climbing turns, straight glides, gliding turns, medium and steep turns in level flight, and controlled descents with normal aircraft configurations,

(c) Maneuvers with minimum safe speeds,

(d) Simulated engine failure, maneuvers with one engine throttled on twin-engine aircraft, or two or more engines throttled on one side on aircraft of four or more engines, and

(e) Stalls, stall perception, and recovery from stalls entered into from normally anticipated flight attitudes.

§ 21.41 *Instrument flight test.* An applicant shall demonstrate satisfactorily his competence to pilot airplanes under instrument flight conditions by performing the following maneuvers:

(a) *Using primary instrument group.* (1) Straight climbs, climbing turns, straight glides, gliding turns, medium and steep turns in level flight, and controlled descents with all normal aircraft configurations, and

(2) Maneuvers at minimum safe speeds, stalls, stall perception, and recovery from stalls entered into from normally anticipated flight attitudes.

(b) *Using full instrument panel.* (1) Simulated engine failures (if multiengine),

(2) Radio operations, procedures, orientation, use of radio navigational facilities and identification of stations,

(3) Adherence to traffic control procedures, and

(4) Holding, letdown, and missed-approach procedures using approved instrument procedures.

QUALIFICATIONS FOR SENIOR AIRLINE TRANSPORT PILOT CERTIFICATE; AIRPLANE RATINGS

§ 21.51 *Age.* An applicant shall be at least 23 years of age.

§ 21.52 *Experience.* (a) An applicant shall have had at least 2,000 hours of flight time as pilot of any type of aircraft, including 300 hours as pilot in command; of which he shall have had at least

(1) 500 hours of flight time in multiengine airplanes of not less than 1,800 maximum continuous horsepower,

(2) 500 hours of cross-country flight time, of which at least 150 hours shall have been night flight time and at least 100 hours shall have been flown as pilot in command, and

(3) 100 hours of instrument time, of which not less than 50 hours shall have been flown as pilot in command under actual instrument flight conditions; or

(b) An applicant, within 90 days immediately preceding the date of application, shall have completed satisfactorily a course of instruction which the Administrator approves as adequate for the training of a senior airline transport pilot.

§ 21.53 *Knowledge.* An applicant shall accomplish satisfactorily a written examination covering the subjects prescribed in § 21.33 which shall be more comprehensive and shall require the applicant to demonstrate that he possesses a greater knowledge of such subjects than that required by the examination prescribed in § 21.33.

§ 21.54 *Skill.* An applicant shall demonstrate his competence to pilot airplanes by acomplishing satisfactorily the practical skill tests prescribed for an applicant for an airline transport pilot certificate, except that the Administrator shall require the applicant to demonstrate a higher degree of proficiency in the performance of such maneuvers.

QUALIFICATIONS FOR HELICOPTER RATINGS

§ 21.71 *Age.* An applicant shall be at least 21 years of age.

§ 21.72 *Experience.* An applicant shall have had at least

(a) 300 hours of flight time as pilot of any type of helicopter, of which not less than 25 hours shall have been cross-country flight time and 10 hours night flight time; or

(b) 750 hours of flight time as pilot of any type of aircraft, of which not less than 150 hours shall have been as pilot of any type of helicopter, including at least the following time in helicopters: 100 hours as pilot in command, 25 hours of cross-country flight time, and 10 hours of night flight time.

§ 21.73 *Knowledge.* (a) An applicant shall accomplish satisfactorily a written examination on the following subjects, except that the holder of a commercial pilot certificate shall be considered to have met the requirements of subparagraphs (1) and (4) of this paragraph:

(1) The provisions of Parts 6, 21, 40, 41, 42, 43, 45, 46, 60, 61, and 62 of this chapter, as amended, which are pertinent to helicopter operations,

(2) Rotorcraft theory of flight, maintenance, and inspection,

(3) Meteorology as applied to the recognition of weather conditions while flying, the analyzing of weather maps and sequence reports furnished by the United States Weather Bureau,

(4) Practical air navigation including the use of maps, navigation by terrain and dead reckoning, and the use of navigational aids, and

(5) Maintenance and operation of helicopter powerplants in common use.

§ 21.74 *Skill.* An applicant shall demonstrate his competence to pilot helicopters by accomplishing satisfactorily the following:

(a) Preflight inspection,

(b) Cockpit procedure,

(c) Taxying,

(d) Accepted types of take-offs and precision landings,

(e) Precision hovering, including turns,

(f) Forward, backward, and sideward precision flight,

(g) Cruising flight, including shallow and medium bank precision turns,

(h) Accepted types of climbs, descents, and landing approaches,

(i) All types of simulated autorotative approaches and landings in common use, and

(j) Rapid deceleration from cruising to hovering flight.

OPERATING RULES

§ 21.80 *Certificate required.* No individual shall serve as a pilot in scheduled air transportation, in irregular air carrier, or in commercial operator operations subject to Part 45 of the Civil Air Regulations in aircraft of United States registry without, or in violation of, the terms of a certificate and ratings issued in accordance with the provisions of this part.[3] He shall have his certificate in his personal possession when performing his duties.

§ 21.81 *Medical certificate.* No individual shall exercise the privileges accorded by an airline transport pilot certificate unless he has in his personal possession while so serving a medical certificate or other evidence satisfactory to the Administrator showing that he has met the physical requirements of the first class within the preceding six months.

§ 21.82 *Operation during physical deficiency.* No individual shall exercise the privileges accorded by an airline transport pilot certificate during any period of known physical deficiency or increase in physical deficiency which would render him unable to meet the physical requirements prescribed for the issuance of his currently effective medical certificate. Prior to exercising the privileges of his airman certificate after serious injury or serious illness, he shall at his own expense submit to and pass a physical examination to insure that he meets the physical standards of the first class prescribed in Part 29 of this chapter.

§ 21.83 *Crediting of pilot flight time—*(a) *Pilot in command and pilot flight time.* The holder of an airline transport pilot certificate, in order to obtain a senior airline transport pilot certificate, may be credited with pilot in command or pilot flight time in accordance with the following rules:

(1) A pilot serving as pilot in command on any type of aircraft for which he is rated and on which he is entitled to act as pilot in command may be credited with 100 percent of the total flight time as pilot in command flight time.

(2) A pilot other than a pilot in command, serving as pilot on any type of aircraft for which he is rated and on which he is entitled to act as pilot in command, may be credited with 100 percent of the total flight time as pilot flight time.

(3) A pilot serving as pilot on any type of aircraft on which he is not entitled to act as pilot in command may be credited with 50 percent of the total flight time as pilot flight time.

(b) *Dual instruction flight time.* A pilot undergoing instruction in any type of aircraft regardless of whether or not he is rated for such aircraft may be credited with the total flight time as dual instruction flight time. The pilot giving such instruction may be credited with the total flight time as pilot in command flight time.

(c) *Instrument time.* A pilot may be credited with instrument time as pilot or as pilot in command in accordance with paragraph (a) of this section: *Provided,* That a pilot acquiring instrument time under simulated instrument flight conditions may be credited only with pilot flight time.

§ 21.84 *Recording of flight time.* (a) Each certificated airline transport pilot shall maintain a record of his flight time.

(b) Flight time records shall contain the following information:

(1) The date of the flight,

(2) The points between which the flight was made,

(3) The type and certification number of the aircraft flown,

(4) The duration of the flight,

(5) The total flight time, specifying day or night flight time, within each of the following classifications: pilot in command, pilot, dual instruction, and instrument,

(6) For each dual instruction flight time entry, the maneuvers in which instruction was given and the time spent thereon, and the initials and pilot certificate number of the instructor attesting the correctness of such entry,

(7) Notation of damage, if any, to the aircraft occurring as a result of any accident or incident of which notice is required to be given under the provisions of Part 62 of this chapter.

(c) When an air carrier furnishes an airline transport pilot with a record of his flight time, such pilot may use such record in compliance with this section: *Provided,* That such record furnishes the information required by paragraph (b) of this section.

§ 21.85 *Grace period for periodic tests and other qualification procedures.* Whenever this part requires an examination, test, or other qualifying procedure at stated intervals, a grace period of 15 days shall be allowed: *Provided,* That the effective date of the examination, test, or other qualifying procedure, if met within the grace period, shall be the same as it would have been if met on the day immediately preceding the beginning of such grace period.

RECENT EXPERIENCE REQUIREMENTS

§ 21.91 *Carriage of passengers.* (a) A certificated airline transport pilot shall not pilot any airplane carrying passengers unless appropriately rated therefor and unless within the preceding 3 months he shall have made at least 3 take-offs and 3 landings to a full stop in an airplane of the same type as that in which passengers are to be carried, of which at least one such take-off and landing shall have been made at night if such carriage is to be performed at night.

(b) A certificated airline transport pilot holding a helicopter rating shall not pilot a helicopter carrying passengers unless within the preceding 3 months he has made at least 3 take-offs to a minimum altitude of 300 feet, and 3 landings including at least one autorotative approach to a normal power landing, of which at least one such take-off and the autorotative approach to a normal power landing shall have been made at night if such carriage is to be performed at night.

§ 21.92 *Instrument flight.* A certificated airline transport pilot shall not pilot any aircraft under actual instrument flight conditions carrying passengers unless within the preceding 6 months he has flown and recorded at least 6 hours of flight time under either actual or properly simulated instrument flight conditions. Such pilot when piloting an aircraft under simulated instrument flight conditions shall be accompanied by a certificated pilot holding at least a private rating with an appropriate category and class, or type rating, and an instrument rating.

PRIVILEGES AND LIMITATIONS

§ 21.95 *General.* (a) In additon to the privileges and limitations with respect to operations for compensation or hire, specified in §§ 21.96 through 21.98, a certificated airline transport pilot shall have the privileges of a private and commercial pilot and may give instruction to any other certificated airline transport pilot in any type of aircraft on which he is entitled to act as pilot in command.

(b) No individual other than the holder of a senior airline transport pilot certificate with appropriate airplane type ratings shall act as pilot or pilot in command on airplanes of 80,000 pounds or more maximum certificated take-off weight.

§ 21.96 *Airline transport pilot.* An airline transport pilot may act as pilot in command or pilot on any type of helicopter for which he holds an appropriate rating and may, in airplanes having the following maximum certificated take-off weights, act as:

(a) *Pilot in command.* (1) In passenger operations on airplanes of less than 12,500 lbs. for which he holds appropriate class ratings,

(2) In cargo operations on airplanes of less than 30,000 lbs. for which he holds appropriate class and type ratings, and

(b) *Pilot.* Pilot in any operations on airplanes of less than 80,000 lbs. for which he holds appropriate class ratings.

§ 21.97 *Senior airline transport pilot.* A senior airline transport pilot may act as pilot in command or pilot in any operation on any type of airplane or helicopter for which he holds a rating.

TRANSFERS OF OPERATING RIGHTS

DORMANT OPERATING RIGHTS

JULY 11, 1950.

Pursuant to section 4 (a) of the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1003) notice is hereby given of the proposed revision of the transfer rules and regulations (49 CFR 179.1–179.6) for the purpose of including a provision providing for the transfer of dormant operating rights. It is proposed to amend the rules by the addition of the following new paragraph:

§ 179.1 *General.* * * *

(c) Dormant operating rights: The transfer of any operating rights under which operations are not being conducted at the time of the proposed transfer and have not been performed for a substantial period will be approved only upon a showing that the cessation of operations was caused by circumstances over which the holder of such operating rights had no control.

No oral hearing is contemplated but anyone wishing to make representations in favor of or against the proposed rule may do so through the submission of written data, views or arguments. The original and five copies of such submission shall be filed with the Commission on or before September 1, 1950.

Notice to the general public shall be given by depositing a copy in the Office of the Secretary of the Commission for public inspection and by filing a copy with the Director, Division of the Federal Register.

By the Commission, Division 5.

APPLICATION OF THIS PART

§ 210.1–01 *Application of this part.* Part 210 shall govern the form and content of all financial statements required to be filed as part of:

(a) Registration statements under the Securities Act of 1933, filed on Form S–1, S–2, S–3, S–4, S–5, S–6, or S–11, except as otherwise specifically provided in such forms;

(b) Applications for registration of securities under the Securities Exchange Act of 1934, filed on Form 8–A, 8–B, 10, or 14;

(c) Supplemental or periodic reports under section 13 of the Securities Exchange Act of 1934 filed on form 8–K, 9–K, 10–K, 14–K, or U5–K;

(d) Supplemental or periodic reports under section 15 (d) of the Securities Exchange Act of 1934, filed on Form 2–MD, 4–MD, or U5–MD; and

(e) Registration statements and annual reports under the Investment Company Act of 1940.

§ 210.1–02 *Definitions of terms used in this part.* Unless the context otherwise requires, terms defined in the general rules and regulations or in the instructions to the applicable form, when used in this part, shall have the respec-

tive meanings given in such instructions or rules. In addition the following terms shall have the meanings indicated in this section unless the context otherwise requires:

(a) *Equity security.* The term "equity security" means any stock or similar security; or any security convertible, with or without consideration, into such a security, or carrying any warrant or right to subscribe to or purchase such a security; or any such warrant or right.

(b) *Principal holders of equity securities.* The term "principal holders of equity securities," used in respect of a particular registration statement or report, means the persons named in the item of such statement or report calling for holders of record or beneficial owners of more than 10 percent of any class of equity securities. If the particular statement or report contains no such item, the term means the persons named in the most recent related registration statement, application or report of the registrant which contains such an item.

(c) *Quasi-reorganization.* The term "quasi-reorganization" means the corporate procedure in the course of which a company without the creation of a new corporate entity, and without the intervention of formal court proceedings, is enabled to eliminate a deficit whether resulting from operations or the recognition of other losses or both and to establish a new earned surplus account for the accumulation of earnings subsequent to the date selected as the effective date of the quasi-reorganization.

CERTIFICATION

§ 210.2–01 *Qualifications of accountants.* (a) The Commission will not recognize any person as a certified public accountant who is not duly registered and in good standing as such under the laws of the place of his residence or principal office. The Commission will not recognize any person as a public accountant who is not in good standing and entitled to practice as such under the laws of the place of his residence or principal office.

(b) The Commission will not recognize any certified public accountant or public accountant as independent who is not in fact independent. For example, an accountant will not be considered independent with respect to any person, or any affiliate thereof, in whom he has any financial interest, direct or indirect, or with whom he is, or was during the period of report, connected as a promoter, underwriter, voting trustee, director, officer, or employee.

(c) In determining whether an accountant is in fact independent with respect to a particular registrant, the Commission will give appropriate consideration to all relevant circumstances including evidence bearing on all relationships between the accountant and that registrant or any affiliate thereof, and will not confine itself to the relationships existing in connection with the filing of reports with the Commission.

§ 210.2–02 *Accountants' certificates—*(a) *Technical requirements.* The accountant's certificate shall be dated, shall be signed manually, and shall identify without detailed enumeration the financial statements and schedules covered by the certificate.

(b) *Representations as to the audit.* The accountant's certificate (1) shall state whether the audit was made in accordance with generally accepted auditing standards; and (2) shall designate any auditing procedures generally recognized as normal, or deemed necessary by the accountant under the circumstances of a particular case, which have been omitted, and the reasons for their omission.

In determining the scope of the audit necessary, consideration shall be given as to whether the system of internal control is adequate. Due weight may be given to an internal system of audit regularly maintained by means of auditors employed on the registrant's own staff. The accountant shall review the accounting procedures purported to be followed by the person or persons whose statements are certified and by appropriate measures shall satisfy himself that such accounting procedures are in fact being followed.

Nothing in this section shall be construed to imply authority for the omission of any procedure which independent accountants would ordinarily employ in the course of an audit made for the purpose of expressing the opinions required by paragraph (c) of this section.

(c) *Opinions to be expressed.* The accountant's certificate shall state clearly: (1) The opinion of the accountant in respect of the financial statements covered by the certificate and the accounting principles and practices reflected therein; (2) the opinion of the accountant as to any material changes in accounting principles or practices, or method of applying the accounting principles or practices, or adjustments of the accounts, required to be set forth by § 210.3–07; and (3) the nature of, and the opinion of the accountant as to, any material differences between the accounting principles and practices reflected in the financial statements and those reflected in the accounts after the entry of adjustments for the period under review.

(d) *Exceptions.* Any matters to which the accountant takes exception shall be clearly identified, the exception thereto specifically and clearly stated, and, to the extent practicable, the effect of each such exception on the related financial statements given.

§ 210.2–03 *Certification by foreign government auditors.* Notwithstanding any requirements as to certification by independent accountants, the financial statements of any foreign governmental agency may be certified by the regular and customary auditing staff of the respective government, if public financial statements of such governmental agency are customarily certified by such auditing staff.

§ 210.2–04 *Certification of financial statements of persons other than the registrant.* If a registrant is required to file financial statements of any other person, such statements need not be certified if certification of such statements would not be required if such person were itself a registrant.

§ 210.2–05 *Certification of financial statements by more than one accountant.* If any required examination of financial statements of any branches or consolidated subsidiaries of the registrant has been made by independent public accountants other than the principal accountants for the registrant, certificates of such other accountants prepared in accordance with § 210.2–02 should be furnished. However, in respect of such examinations relating to foreign branches or foreign consolidated subsidiaries, or relating to domestic consolidated subsidiaries which in the aggregate are not significant, the certificates of the other accountants need not be furnished if the principal certifying accountants upon review, analysis, and investigation of reports of such other accountants have satisfied themselves that the other accountants have in all respects met the requirements of §§ 210.2–01 to 210.2–05 and accept the report of such other accountants in the same manner as though the principal accountants had performed the audit, provided a definite statement to this effect is included in the certificate of the principal accountants.

RULES OF GENERAL APPLICATION

§ 210.3–01 *Form, order and terminology.* (a) Financial statements may be filed in such form and order, and may use such generally accepted terminology, as will best indicate their significance and character in the light of the provisions applicable thereto.

(b) All money amounts required to be shown in financial statements and schedules may be expressed in even dollars or thousands of dollars, provided that, in the latter case, an indication to that effect is inserted immediately beneath the caption of the statement or schedule, or at the top of each money column. Zeros need not be inserted for the omitted figures. The individual amounts shown need not be adjusted to the nearest dollar or thousand if in a footnote it is stated that the failure of the items to add to the totals shown is due to the dropping of amounts less than $1.00 or $1,000, as appropriate.

§ 210.3–02 *Inapplicable captions.* No caption need be shown in any financial statement or schedule as to which the items and conditions are not present. If the amount which would otherwise be required to be shown under any caption is not material, the caption need not be separately set forth.

§ 210.3–03 *Omission of unrequired or inapplicable financial statements and schedules.* (a) Financial statements and schedules not required or inapplicable because the required matter is not present need not be filed.

(b) Financial statements and schedules omitted and the reasons for their omission shall be indicated in the list of financial statements required by the applicable form.

§ 210.3–04 *Omission of substantially identical notes.* If a note covering substantially the same subject matter is required with respect to two or more financial statements, the required information may be shown in a note to only one of such statements, provided that a clear and specific reference thereto is made in each of the other statements with respect to which the note is required.

§ 210.3–05 *Omission of names of certain subsidiaries.* Notwithstanding the requirements as to particular statements, subsidiaries, the names of which are permitted to be omitted from the list of affiliates required by the applicable form, need not be named in any financial statement. Reasonable grouping of such subsidiaries may be made, with an explanatory group caption which shall state the number of subsidiaries included in the group.

§ 210.3–06 *Additional information.* The information required with respect to any statement shall be furnished as a minimum requirement to which shall be added such further material information as is necessary to make the required statements, in the light of the circumstances under which they are made, not misleading. This section shall be applicable to all statements required to be filed, including copies of statements required to be filed in the first instance with other governmental agencies.

§ 210.3–07 *Changes in accounting principles and practices and retroactive adjustments of accounts.* (a) Any change in accounting principle or practice, or in the method of applying any accounting principle or practice, made during any period for which financial statements are filed which materially affects comparability of such financial statements with those of prior or future periods, and the effect thereof upon the net income for each period for which financial statements are filed, shall be disclosed in a note to the appropriate financial statement.

(b) Any material retroactive adjustment made during any period for which financial statements are filed, and the effect thereof upon net income of prior periods shall be disclosed in a note to the appropriate financial statement.

§ 210.3–08 *Summary of accounting principles and practices.* Information required in notes as to accounting principles and practices reflected in the financial statements may be presented in the form of a single statement. In such case specific references shall be made in the appropriate financial statements to the applicable portion of such single statement.

§ 210.3–09 *Foreign operations and foreign exchange.* (a) The basis of conversion of all items in foreign currencies shall be stated, and the amount and disposition of the resulting unrealized profit or loss shown, if material.

(b) Realized losses or gains on foreign exchange shall be charged or credited to income.

(c) Provision for declines in conversion value of foreign net current assets shall be made from income.

§ 210.3–10 *Opening balances.* Instructions which permit the balance of an account at the beginning of the period for which financial statements are being filed to be "as per the accounts" shall not be applicable with respect to companies which have previously filed financial statements under the Securities Act of 1933 or the Securities Exchange Act of 1934. As to such companies, however, balances as per accounts may be taken as of the close of the most recent period for which certified financial statements are on file.

§ 210.3–11 *Basis of accounting for assets.* (a) Except as otherwise specifically provided, accounting for all assets shall be based on cost.

(b) Due consideration shall be given to evidence of loss or impairment of utility value and, where such evidence indicates an apparently permanent decline, recognition thereof shall be made by means of an appropriate write-down or by the establishment of an appropriate reserve.

§ 210.3–12 *Valuation and qualifying reserves.* Valuation and qualifying reserves shall be shown separately in the financial statements as deductions from the specific assets to which they apply.

§ 210.3–13 *Basis of determining amounts—book value.* If an instruction requires a statement as to "the basis of determining the amount," the basis shall be stated specifically. The term "book value" will not be sufficiently explanatory unless, in a particular instruction, it is stated to be acceptable with respect to a particular item.

§ 210.3–14 *Current assets.* Items classed as current assets shall be generally realizable within one year. However, generally recognized trade practices may be followed with respect to the inclusion of items such as instalment receivables or inventories long in process, provided an appropriate explanation of the circumstances is made and, if practicable, an estimate is given of the amount not realizable within one year.

§ 210.3–15 *Current liabilities.* Items due and payable within one year shall in general be classed as current liabilities. However, generally recognized trade practices may be followed with respect to the exclusion of items such as customers' deposits and deferred income, provided an appropriate explanation of the circumstances is made.

§ 210.3–16 *Reacquired evidences of indebtedness.* Reacquired evidences of indebtedness, if material in amount, shall be shown separately as a deduction, under the appropriate liability caption. However, reacquired evidences of indebtedness held for pension and other special funds not related to the particular issues may be carried as assets of such funds: *Provided,* That there be stated parenthetically the amount of such evidences of indebtedness, the cost thereof, and the amount at which carried.

§ 210.3–17 *Reacquired shares.* (a) Reacquired shares shall be shown separately as a deduction from capital shares, or from the total of capital shares and surplus, or from surplus, at either par or stated value, or cost, as circumstances require.

(b) Gain resulting from transactions in reacquired shares shall be credited to paid-in surplus.

§ 210.3–18 *Discount on capital shares.* Discount on capital shares, if material in amount, shall be shown separately as a deduction from capital shares or from surplus, as circumstances require, with an indication of what provisions have been made for writing off this item.

§ 210.3–19 *Quasi-reorganizations.* (a) A quasi-reorganization may not be considered to have been effected unless at least all of the following conditions exist:

(1) Earned surplus as of the effective date is exhausted;

(2) Upon consummation no deficit exists in any surplus account;

(3) The entire procedure is made known to all persons entitled to vote on matters of general corporate policy and the appropriate consents to the particular transactions are obtained in advance in accordance with the applicable law and charter provisions; and

(4) The procedure accomplishes with respect to the accounts substantially what would be accomplished in a reorganization by legal proceedings; namely, the appropriate modifications of capital and capital surplus, resulting from the restatement of assets in terms of present conditions.

(b) In such a procedure the reductions in the carrying value of assets at the effective date may not be made beyond a point which gives appropriate recognition to conditions which appear to have resulted in relatively permanent reductions in asset values; as for example, complete or partial obsolescence, lessened utility value, reduction in investment value due to changed economic conditions, or, in the case of current assets, declines in indicated realization value.

(c) Such a procedure is not to be employed recurrently but only under circumstances which would justify an actual reorganization or formation of a new corporation, particularly if the sole or principal purpose is the elimination of a deficit in earned surplus resulting from operating losses.

(d) In the case of the quasi-reorganization of a parent company the effective date should be recognized as having the significance of a date of acquisition of control of subsidiaries.

(e) Subsequent to the effective date of a quasi-reorganization any description of earned surplus shall indicate the point of time from which the new earned surplus dates and for a period of at least three years shall indicate the total amount of the deficit eliminated.

§ 210.3–20 *Commitments.* (a) If material in amount the pertinent facts relative to firm commitments for the acquisition of permanent investments and fixed assets and for the purchase, repurchase, construction, or rental of assets under long-term leases shall be stated briefly in the balance sheet or in footnotes referred to therein.

(b) Where the rental or obligations under long-term leases are material there shall be shown the amounts of annual rentals under such leases with

UNIVERSITY OF MICHIGAN LIBRARIES

some indication of the periods for which they are payable, together with any important obligation assumed or guarantee made in connection therewith. If the rentals are conditional, state the minimum annual amounts.

(c) If material in amount accrued net losses on commitments covering the purchase of goods for inventory, measured in the same manner as are inventory losses, and indicated permanent declines in utility value of other assets subject to commitments, shall be recognized in the accounts.

§ 210.3–21 *Accounting principles; authoritative support therefor.* Financial statements prepared in accordance with accounting principles for which there is no substantial authoritative support will be presumed to be misleading or inaccurate despite disclosures contained in the certificate of the accountant or in footnotes to the statements provided the matters involved are material. In cases where there is a difference of opinion between the Commission and the registrant as to the proper principles of accounting to be followed, disclosure will not be accepted in lieu of correction of the financial statements themselves unless the points involved are such that there is substantial authoritative support for the practices followed by the registrant and the position of the Commission has not previously been expressed in rules, regulations, or other official releases of the Commission, including the accounting series releases.

§ 210.3–22 *General notes to balance sheets.* If present in regard to the person for which the statement is filed the following shall be set forth in the balance sheet or in notes thereto:

(a) *Assets subject to lien.* The amounts of assets mortgaged, pledged, or otherwise subject to lien shall be designated and the obligations secured shall be briefly identified. However, in the case of commercial, industrial, and public utility companies this rule need not be followed with respect to assets (other than current assets and securities) given as security for bonds, mortgages and similar debt.

(b) *Intercompany profits and losses.* The effect, if material, upon any balance sheet item of profits or losses resulting from transactions between affiliated companies shall be stated. If impracticable of accurate determination, without unreasonable effort or expense, give an estimate or explain.

(c) *Defaults.* The facts and amounts concerning any default in principal, interest, sinking fund, or redemption provisions with respect to any issue of securities or credit agreements, or any breach of covenant of a related indenture or agreement, shall be stated. Notation of such default or breach of covenant shall be made in the balance sheet.

(d) *Preferred shares.* (1) If callable, the date or dates and the amount per share at which such shares are callable shall be stated.

(2) Arrears in cumulative dividends per share and in total for each class of shares shall be stated.

(3) Preferences on involuntary liquidation, if other than the par or stated value, shall be shown. When the excess involved is material there shall be shown (i) the difference between the aggregate preference on involuntary liquidation and the aggregate par or stated value; (ii) a statement that this difference, plus any arrears in dividends, exceeds the sum of the par or stated value of the junior capital shares and the surplus, if such is the case; and (iii) a statement as to the existence, or absence, of any restrictions upon surplus growing out of the fact that upon involuntary liquidation the preference of the preferred shares exceeds its par or stated value.

(e) *Pension and retirement plans.* (1) The terms and conditions of any employee pension or retirement plan shall be stated briefly.

(2) If a plan legally may be discontinued at will and for this reason it has not been funded or otherwise provided for in the accounts the estimated amount required to fund or otherwise provide for the past service cost of the plan, together with the estimated annual cost of the plan, shall be disclosed.

(f) *Restrictions which limit the availability of surplus for dividend purposes.* Describe any such restriction, other than as reported in paragraph (d) of this section, indicating briefly its source, its pertinent provisions, and, where appropriate and determinable, the amount of the surplus so restricted.

(g) *Contingent liabilities.* A brief statement as to material contingent liabilities not reflected in the balance sheet shall be made. In the case of guarantees of securities of other issuers a reference to the appropriate schedule shall be included.

§ 210.3–23 *General notes to profit and loss statements.* If present in regard to the person for which the statement is filed, the following shall be set forth in the profit and loss statement or in notes thereto:

(a) *Installment or deferred sales.* If a material amount of sales is made on a deferred basis, such as installment sales or sales of equipment long in process of manufacture, the basis of taking profits into income shall be stated.

(b) *Intercompany profits and losses.* The amount, if material, of any profits or losses resulting from transactions between affiliated companies shall be stated. If impracticable of determination without unreasonable effort and expense, give an estimate or explain.

(c) *Depreciation, depletion, obsolescence, and amortization.* State for the period for which profit and loss statements are filed, the policy followed with respect to:

(1) The provision for depreciation, depletion, and obsolescence of physical properties or reserves created in lieu thereof, including the methods and, if practicable, the rates used in computing the annual amounts;

(2) The provision for depreciation and amortization of intangibles, or reserves created in lieu thereof, including the methods and, if practicable, the rates used in computing the annual amounts;

(3) The accounting treatment for maintenance, repairs, renewals, and betterments; and

(4) The adjustment of the accumulated reserves for depreciation, depletion, obsolescence, amortization or reserves in lieu thereof, at the time the properties are retired or otherwise disposed of, including the disposition made of any profit or loss on sale of such properties.

(d) *Capital shares sold, offered for sale or optioned to officers, directors and employees.* A brief summary of each such transaction, including with respect to each category the number of shares and the price. Any excess of the fair value of (1) shares sold, at the date of sale, over the sales price, or (2) shares offered for sale, at the date the offer was accepted, over the offering price, or (3) shares optioned, at the date the option right became the property of the grantee, over the option price, should be reflected in the profit and loss statement as compensation.

CONSOLIDATED AND COMBINED STATEMENTS

§ 210.4–01 *Application of §§ 210.4–01 to 210.4–14.* Sections 210.4–01 to 210.4–14 shall govern the preparation of consolidated and combined statements.

§ 210.4–02 *Consolidated statements of the registrant and its subsidiaries.* The registrant shall follow in the consolidated statements principles of inclusion or exclusion which will clearly exhibit the financial condition and results of operations of the registrant and its subsidiaries: *Provided, however,* That:

(a) The registrant shall not consolidate any subsidiary which is not a majority-owned subsidiary;

(b) If the statements of a subsidiary are as of a date or for periods different from those of the registrant, such subsidiary may be consolidated only if all the following conditions exist: (1) Such difference is not more than 93 days; (2) the closing date of the subsidiary is expressly indicated; (3) the necessity for the use of different closing dates is briefly explained; and (4) any changes in the respective fiscal periods of the registrant and the subsidiary made during the period of report are clearly indicated, together with the manner of treatment;

(c) Consolidation of foreign subsidiaries: Due consideration shall be given to the propriety of consolidating with domestic corporations foreign subsidiaries whose operations are effected in terms of restricted foreign currencies. If consolidated disclosure should be made as to the effect, insofar as this can be reasonably determined, of foreign exchange restrictions upon the consolidated financial position and operating results of the registrant and its subsidiaries.

§ 210.4–03 *Group statements of subsidiaries not consolidated.* For majority-owned subsidiaries not consolidated with the registrant there may be filed statements in which such subsidiaries are consolidated or combined in one or more groups pursuant to principles of inclusion or exclusion which will clearly exhibit the financial condition and results of operations of the group or groups. If it is essential to a properly summarized presentation of the facts, such consolidated or combined statement shall be filed.

§ 210.4–04 *Statement as to principle of consolidation or combination followed.* (a) The principle adopted in determining the inclusion and exclusion of subsidiaries in each consolidated balance sheet and in each group balance sheet of unconsolidated subsidiaries shall be stated in a note to the respective balance sheet.

(b) As to each consolidated statement and as to each group statement of unconsolidated subsidiaries, a statement shall be made as to whether there have been included or excluded any persons not similarly treated in the corresponding statement for the preceding fiscal period filed with the Commission. If the answer to the foregoing is in the affirmative, the names of such persons shall be given.

§ 210.4–05 *Reconciliation of investment of parent in subsidiaries and fifty percent owned persons and equity of parent in net assets of subsidiaries*—(a) *Consolidated subsidiaries.* There shall be set forth in a note to each consolidated balance sheet filed a statement of any difference between the investment in subsidiaries consolidated, as shown by the parent's books, and the parent's equity in the net assets of such subsidiaries, as shown by the books of the latter. If any such difference exists, there shall be set forth the amount of the difference and the disposition made thereof in preparing the consolidated statements, naming the balance sheet captions and stating the amount included in each.

(b) *Subsidiaries not consolidated.* A statement shall be made of the amount of any difference between the investment of the parent and its consolidated subsidiaries, as shown by their books, in the unconsolidated subsidiaries and fifty percent owned persons for which statements are filed and the equity of such persons in the net assets of such unconsolidated subsidiaries, as shown by the books of the latter.

§ 210.4–06 *Reconciliation of dividends received from, and earnings of, unconsolidated subsidiaries.* The proportion of the sum of, or difference between, current earnings or losses and the dividends declared or paid by the unconsolidated subsidiaries required to be included in the schedule prescribed by § 210.12–17 that is applicable to the parent and its consolidated subsidiaries shall be set forth in a note to each consolidated profit and loss statement.

§ 210.4–07 *Minority interests.* (a) Minority interests in the net worth of subsidiaries consolidated, shall be shown in each consolidated balance sheet. Separation shall be made between the minority interest in the capital and in the surplus.

(b) The aggregate amount of profit and loss accruing to minority interests shall be stated separately in each consolidated profit and loss statement.

§ 210.4–08 *Intercompany items and transactions.* In general, intercompany items and transactions, if material in amount, shall be eliminated. If not eliminated, a statement of the reasons and the methods of treatment shall be made.

§ 210.4–09 *Special requirement as to insurance companies.* (a) Except as provided in paragraph (b) of this section, the statements of an insurance company shall not be consolidated or combined with the statements of any person.

(b) The statements of an insurance company other than a life insurance company may be consolidated if all of the following conditions exist:

(1) The insurance company is a totally-held subsidiary of the top parent included in the consolidation;

(2) Such top parent is not an insurance company, investment company, or bank holding company;

(3) The insurance company engages in no business of a material amount other than the insuring of risks arising in the ordinary course of business of such top parent and its other subsidiaries; and

(4) Separate financial statements for the insurance company are filed.

§ 210.4–11 *Special requirements as to registrants which are bank holding companies.* If the registrant is a bank holding company:

(a) Statements of the registrant may be consolidated only with the statements of subsidiaries which are bank holding companies.

(b) A consolidated statement of the registrant and any of its bank holding company subsidiaries shall not be filed unless accompanied by a consolidating statement which sets forth the individual statements of each subsidiary included in the consolidated statement.

(c) Consolidated or combined statements filed for subsidiaries not consolidated with the registrant shall not include any bank holding companies unless accompanied by consolidating or combining statements which set forth the individual statements of each included bank holding company subsidiary.

§ 210.4–12 *Special requirements as to banks.* If two or more majority-owned subsidiaries of a person are banks and are directly owned by a single parent, there shall be filed, in lieu of individual statements for such subsidiaries, combined statements showing the minority interest separately and eliminating any material inter-bank items; except that the statements of any such subsidiary which on the date of filing is a closed or liquidating bank shall not be included in any combined statement. Except as provided in the preceding sentence, statements of banks shall not be included in any consolidated or combined statements.

§ 210.4–13 *Special requirements as to public utility holding companies.* There shall be shown in the consolidated balance sheet of a public utility holding company the difference between the amount at which the parent's investment is carried and the underlying book equity of subsidiaries as at the respective dates of acquisition.

§ 210.4–14 *Special requirements as to commercial, industrial and mining companies in the promotional, exploratory or development stage subject to §§ 210.5a–01 to 210.5a–07.* The financial statements required by §§ 210.5a–01 to 210.5a–07, shall not be prepared on a consolidated basis but shall, insofar as practicable, be prepared so as to show the information for the registrant and each of its subsidiaries in parallel columns.

COMMERCIAL AND INDUSTRIAL COMPANIES

§ 210.5–01 *Application of §§ 210.5–01 to 210.5–03.* (a) Sections 210.5–01 to 210.5–03 shall be applicable to financial statements filed for all persons except:

(1) Commercial, industrial, and mining companies in the promotional, exploratory or development stage (see §§ 210.5a–01 to 210.5a–07).

(2) Management investment companies (§§ 210.6–01 to 210.6–10).

(3) Unit investment trusts (see §§ 210.6–10a to 210.6–13).

(4) Insurance companies other than life and title insurance companies (see §§ 210.7–01 to 210.7–06).

(5) Committees issuing certificates of deposit (see §§ 210.8–01 to 210.8–03).

(6) Banks (see § 210.9–05).

(7) Brokers and dealers (see § 240.17A–5 of this chapter and form X–17A–5).

(b) *Bank holding companies.* Financial statements and schedules filed for bank holding companies shall be prepared in accordance with §§ 210.5–01 to 210.5–03 except that §§ 210.9–01 to 210.9–04, inclusive, shall be applicable thereto.

§ 210.5–02 *Balance sheets.* The balance sheets filed for persons to whom §§ 210.5–01 to 210.5–03 are applicable shall comply with the following provisions:

ASSETS AND OTHER DEBITS

CURRENT ASSETS (SEE § 210.4–14)

1. *Cash and cash items.* State separately (a) cash on hand, demand deposits and time deposits; (b) call loans; and (c) funds subject to withdrawal restrictions.

2. *Marketable securities.* Include only securities having a ready market. Securities of affiliates shall not be included here. State the basis of determining the amount at which carried. The aggregate cost, and aggregate amount on the basis of current market quotations, shall be stated parenthetically or otherwise.

3. *Notes receivable (trade).*

4. *Accounts receivable (trade).*

5. *Reserves for doubtful notes and accounts receivable (trade).* Notes and accounts receivable known to be uncollectible shall be excluded from the assets as well as from the reserve account.

6. *Inventories.* (a) State separately the major classes of inventory such as (1) finished goods; (2) work in process; (3) raw materials; and (4) supplies.

(b) The basis of determining the amounts shall be stated. If a basis such as "cost," "market," or "cost or market whichever is lower" is given, there shall also be given, to the extent practicable, a general indication of the method of determining the "cost" or "market": e. g., "average cost," "first-in, first-out," or "last-in, first out."

7. *Other current assets.* (a) State separately (1) total of current amounts, other

UNIVERSITY OF MICHIGAN LIBRARIES

than trade accounts subject to the usual trade terms, due from directors, officers, and principal holders of equity securities other than affiliates; (2) total of current amounts due from parents and subsidiaries; and (3) any other amounts in excess of ten percent of total current assets, indicating any such amount due from affiliates other than parents and subsidiaries.

(b) Indebtedness of a parent or subsidiary, or any affiliate designated under (a) (3) shall not be considered as current unless the net current asset position of such person justifies such treatment. In the registrant's balance sheet show separately that indebtedness which in the related consolidated balance sheet is (1) eliminated and (2) not eliminated.

8. *Total current assets.*

INVESTMENTS

9. *Securities of affiliates.* State the basis of determining the amount. State separately the amounts which in the related consolidated balance sheet are (a) eliminated and (b) not eliminated.

10. *Indebtedness of affiliates; not current.* State separately the indebtedness which in the related consolidated balance sheet is (a) eliminated and (b) not eliminated.

11. *Other security investments.* State the basis of determining the amount. If available, state parenthetically or otherwise, the aggregate amount on the basis of market quotations.

12. *Other investments.* State separately, by class of investments, any items in excess of ten percent of the amount of all assets other than fixed and intangible.

FIXED ASSETS

13. *Property, plant and equipment.* (a) State separately, if practicable, each major class, such as land, buildings, machinery and equipment, leaseholds, or functional grouping, and the basis of determining the amounts.

(b) Tangible and intangible utility plant of a public utility company shall be segregated so as to show separately the original cost, plant acquisition adjustments, and plant adjustments, as required by the system of accounts prescribed by the applicable regulatory authorities. This rule shall not be applicable in respect of companies which are not otherwise required to make such a classification or have not completed the necessary original cost studies. If such classification is not otherwise required or if such original cost studies have not been completed, an appropriate explanation of the circumstances shall be set forth in a note which shall include a specific statement as to the status of the original cost studies and, to the extent practicable, the results indicated thereby.

14. *Reserves for depreciation, depletion, and amortization of property, plant and equipment (or reserves in lieu thereof).*

INTANGIBLE ASSETS

15. *Patents, trade marks, franchises, goodwill, and other intangible assets.* State the basis of determining the amounts.

16. *Reserves for depreciation and amortization of intangible assets.*

DEFERRED CHARGES

17. *Prepaid expenses and other deferred items.* State separately any items material in amount and the method of amortization of such items. Prepayments of services to be received within one year may, however, be included under caption 7.

18. *Organization expense.* State the method of amortization.

19. *Debt discount and expense.* State the method of amortization.

20. *Commissions and expense on capital shares.* State the method of amortization. These items may be shown as deductions from surplus.

OTHER ASSETS

21. *Other assets.* State separately (a) total of amounts due from directors, officers, and principal holders of equity securities other than affiliates; (b) each pension or other special fund of a material amount; and (c) any other item in excess of ten percent of the amount of all assets other than fixed and intangible.

LIABILITIES, CAPITAL SHARES, AND SURPLUS

CURRENT LIABILITIES (SEE § 120.3–15)

22. *Notes payable.* State separately amounts payable (a) to banks; (b) to trade; and (c) to others.

23. *Accounts payable (trade).*

24. *Accrued liabilities.* State separately (a) accrued pay rolls; (b) tax liability; (c) interest; and (d) any other material items. If the total amount under this caption is not material it may be stated as one amount.

25. *Other current liabilities.* State separately (a) dividends declared; (b) bonds, mortgages and similar debt; (c) total of current amounts due to parents and subsidiaries, showing separately in the registrant's balance sheet the amounts which in the related consolidated balance sheet are (1) eliminated and (2) not eliminated; (d) total of current amounts, other than items arising in the ordinary course of business, due directors, officers, and principal holders of equity securities other than affiliates; and (e) any other item in excess of ten percent of total current liabilities, indicating any such liability due to affiliates other than parents and subsidiaries. Remaining items may be shown in one amount.

26. *Total current liabilities.*

DEFERRED INCOME

27. *Deferred income.*

LONG-TERM DEBT

28. *Bonds, mortgages and similar debt.* State separately each issue or type of obligation. Show here, or in a note referred to herein, such information as will indicate (a) the general character of each type of debt including the rate of interest; (b) the date of maturity, or if maturing serially, a brief indication of the serial maturities, such as "maturing serially from 1950 to 1960"; (c) the aggregate amount of maturities each year for the 5 years following the date of the balance sheet; (d) if the payment of principal or interest is contingent, an appropriate indication of such contingency; (e) a brief indication of priority; and (f) if convertible, a statement to that effect.

29. *Indebtedness to affiliates; not current.* State separately indebtedness which in the related consolidated balance sheet is (a) eliminated and (b) not eliminated.

30. *Other long-term debt.* Include under this caption all amounts of long-term debt not provided for under captions 28 and 29 above. State separately (a) total amounts due banks, (b) total amounts due directors, officers, and principal holders of equity securities other than affiliates and (c) other long-term debt, specifying any material item. Indicate whether secured. Show here, or in a footnote referred to herein, the information required under caption 28.

OTHER LIABILITIES

31. *Other liabilities.* State separately any amount in excess of ten percent of the total of liabilities other than long-term debt.

32. *Commitments and contingent liabilities.* (See §§ 210.3–20 and 210.3–22 (g).)

RESERVES, NOT SHOWN ELSEWHERE

33. *Reserves, not shown elsewhere.* State separately each major class and indicate clearly its purpose.

CAPITAL SHARES AND SURPLUS (SEE § 210.8–01 (a))

34. *Capital shares.* State for each class of shares the title of issue, the number of shares authorized, and the number of shares outstanding and the capital share liability thereof. Show separately also the dollar amount, if any, of capital shares subscribed but unissued, and of subscriptions receivable thereon.

35. *Surplus.* (a) Separate captions shall be shown for (1) paid-in surplus; (2) surplus arising from revaluation of assets; (3) other capital surplus; and (4) earned surplus (i) appropriated and (ii) unappropriated.

(b) If undistributed earnings of subsidiaries are included, state the amount thereof parenthetically, or otherwise. However, in a consolidated statement, the preceding sentence shall have reference only to the undistributed earnings of subsidiaries not consolidated in such statement.

(c) Earned surplus subsequent to the effective date of quasi-reorganization. (See § 210.3–19 (e).)

(d) An analysis of each surplus account setting forth the information prescribed in § 210.11–02 shall be given for each period for which a profit and loss statement is filed, as a continuation of the related profit and loss statement, and shall be referred to here.

§ 210.5–03 *Profit and loss or income statements.* The profit and loss or income statements filed for persons to whom §§ 210.5–01 to 210.5–03 are applicable shall comply with the provisions of this section.

(a) All items of profit and loss given recognition to in the accounts during the period covered by the profit and loss or income statements shall be included.

(b) Only items entering into the determiniation of net income or loss may be included.

(c) If income is derived from both gross sales (caption 1A below) and operating revenues (caption 1B below), the two classes may be combined in one amount if the lesser amount is not more than 10 percent of the sum of the two items. If these items are combined, the cost of goods sold (caption 2A below) and operating expenses (caption 2B below) may be combined in one amount.

(d) Dividends from subsidiaries declared out of earned surplus of such subsidiaries created prior to acquisition by the parent may not be included.

(e) Dividends applicable to an issuer's own capital shares may not be included.

1A. *Gross sales less discounts, returns, and allowances.* State separately, if practicable and if material in amount, (a) sales to parents and subsidiaries and (b) sales to others.

2A. *Cost of goods sold.* (a) State the amount of cost of goods sold as regularly computed under the system of accounting followed. Indicate the amount of opening and closing inventories used in the computation, and state the basis of determining such amounts.

(b) Merchandising organizations, both wholesale and retail, may include occupancy and buying costs under this caption. However, publicity costs shall be included under caption 4 below or shown separately.

1B. *Operating revenues.* State separately, if practicable and if material in amount, revenues from (a) parents and subsidiaries and (b) others. A public utility company using a uniform system of accounts or a form for annual report prescribed by Federal or State authorities, or a similar system or report, shall follow the general segregation of revenues prescribed by such system or report.

2B. *Operating expenses.* State separately, if practicable and material in amount, purchases from and services rendered by (a) parents and subsidiaries and (b) others. A public utility company using a uniform system of accounts or a form for annual report prescribed by Federal or State authorities, or a similar system or report, may follow the general segregation of operating expenses prescribed by such system or report.

3. *Other operating expenses.* State separately any material amounts not included in caption 2A or 2B above.

3A. *Gross profit from sales.*

3B. *Net operating revenues.*

4. *Selling, general, and administrative expenses.*

5. *Provision for doubtful accounts.*

6. *Other general expenses.* Include items not normally included in caption 4 above State separately any material amount.

OTHER INCOME

7. *Dividends.* State separately, if practicable and material, the amount of dividends from (a) securities of affiliates, (b) marketable securities, and (c) other security investments.

8. *Interest on securities.* State separately, if practicable and material, the amount of interest from (a) securities of affiliates, (b) marketable securities, and (c) other security investments.

9. *Profits on securities.* Profits shall be stated net of losses. No profits on the person's own securities, or those of its affiliates, shall be included. State here or in a note herein referred to the method followed in determining the cost of securities sold, e. g., "average cost," "first-in, first-out," or "identified certificate."

10. *Miscellaneous other income.* State separately, any material amounts, indicating clearly the nature of the transactions out of which the items arose.

INCOME DEDUCTIONS

11. *Interest and debt discount and expense.* State separately (a) interest on bonds, mortgages or similar debt; (b) amortization of debt discount and expense or premiums; and (c) other interest.

12. *Losses on securities.* Losses shall be stated net of profits. No losses on the person's own securities, or those of its affiliates, shall be included. State here or in a note herein referred to the method followed in determining cost of securities sold, e. g., "average cost," "first-in, first-out" or "identified certificate."

13. *Miscellaneous income deductions.* State separately any material amounts, indicating clearly the nature of the transactions out of which the items arose.

14. *Net income or loss before provision for taxes on income.*

15. *Provision for taxes on income.* State separately (a) Federal income taxes; and (b) other income taxes.

16. *Net income or loss.*

(a) See caption 35 (d) of § 210.5–02.

CONTENT OF STATEMENTS OF SURPLUS

§ 210.11–01 *Application of §§ 210.11–01 and 210.11–02.* Sections 210.11–01 and 210.11–02 prescribe the content of the statements of surplus specified in § 210.5–02 (caption 35), and § 210.7–03 (caption 20).

§ 210.11–02 *Statement of surplus.* (See § 210.5–03 (a).) The analysis shall be given as to each class of surplus set forth in the related balance sheet.

1. *Balance at beginning of period.* (a) The balance at the beginning of the period of report may be as per the accounts.

(b) If the schedule is filed as part of an annual or other periodic report and the balances at the beginning of the period differ from the closing balances, as filed for the previous fiscal period, state the difference and explain.

2. *Net income or loss from profit and loss statement.*

3. *Other additions to surplus.* State separately any material amounts, indicating clearly the nature of the transactions out of which the items arose.

4. *Deductions from surplus other than dividends.* State separately any material amounts, indicating clearly the nature of the transactions out of which the items arose.

5. *Dividends.* For each class of shares state the amount per share and in the aggregate.

(a) *Cash.*

(b) *Other.* Specify.

6. *Balance at close of period.* The balance at the close of the most recent period shall agree with the related balance sheet caption.

PACIFIC COAST EUROPEAN CONFERENCE

NOTICE OF AGREEMENT FILED FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended.

Agreement No. 5200–J, between the member lines of the Pacific Coast European Conference, provides for the waiving, during the second six months of the calendar year 1950, of penalty assessments for failure to maintain minimum sailing requirements as provided in the first paragraph of Article 4 of the basic agreement of the Pacific Coast European Conference (No. 5200). Agreement No. 5200 covers the establishment, regulation and maintenance of agreed rates and charges for or in connection with the transportation of all cargo from the Pacific Coast of the United States to Great Britain, Northern Ireland, Irish Free State, Continental, Baltic, and Scandinavian ports and to base ports in the Mediterranean Sea and to transhipment ports in the Mediterranean Sea, Adriatic Sea, Black Sea, West, South, and East Africa, British India and Iraq.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice, written statements with reference to this agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: July 13, 1950, at Washington, D. C.

By the Board.

UNIVERSITY OF MICHIGAN LIBRARIES

FEDERAL POWER COMMISSION

[Docket No. E-6264]

NIAGARA FALLS POWER CO.

ORDER SETTING HEARING

JULY 11, 1950.

On January 20, 1950, the Niagara Falls Power Company (Niagara Company), Licensee for Project No. 16, filed a petition for authority to amortize through operating expenses, over the period from March 1, 1949, to May 1, 1967, an amount of $1,500,000 now carried in Account 146, Other Deferred Debits, such disposition to be "for all accounting requirements subject to the jurisdiction of the Commission under the Federal Power Act, including particularly determination of project earnings for the purpose of section 10 (d)."

According to the petition, the amount of $1,500,000 proposed to be amortized as an operating expense represents a payment made by Niagara Company to Aluminum Company of America (ALCOA) in consideration for the cancellation by ALCOA of (1) its contract right to take 52,000 mechanical horsepower, deliverable in Niagara Company's Schoellkopf Station 3-A until May 1, 1967, and (2) lease of certain nonproject real property.

The Commission orders:

(A) A public hearing be held on November 15, 1950, at 10:00 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, Hurley - Wright Building, 1800 Pennsylvania Avenue NW., Washington, D. C., on the petition filed January 20, 1950, by Niagara Company.

Date of issuance: July 12, 1950.

By the Commission.

[Docket Nos. G-1116, G-1152, G-1240, G-1317, G-1344, G-1379, G-1415, G-1417]

PANHANDLE EASTERN PIPE LINE CO. ET AL.

ORDER CONSOLIDATING PROCEEDINGS, FIXING DATE OF HEARING AND PRESCRIBING PROCEDURE

JULY 11, 1950.

In the matters of Panhandle Eastern Pipe Line Company, Docket Nos. G-1116, G-1240, G-1317, G-1344, G-1417; City of Port Huron, City of Marysville, City of St. Clair, Michigan, municipal corporations, Docket No. G-1152; Southeastern Michigan Gas Company, Docket No. G-1415; Michigan Consolidated Gas Company, complainant, v. Panhandle Eastern Pipe Line Company, defendant, Docket No. G-1379.

On May 4, 1950, the Commission issued an order in the proceeding in Docket No. G-1317 granting to Panhandle Eastern Pipe Line Company (Panhandle) a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of certain natural gas pipe-line facilities.[1] In such order it was provided, among other things, that further hearings be held with respect to the following matters:

(n) (i) What would be a fair, reasonable and equitable distribution among present and prospective customers of the volumes of natural gas which will be available upon completion of the Trunkline and Panhandle facilities herein authorized.

(ii) The form of tariff and rate level which should be applicable to volumes of gas deliverable from the Panhandle system, i. e., whether Panhandle should be permitted to charge a "rolled-in-rate" demand and commodity in form, and with a minimum bill provision.

(iii) The status of the outstanding authorizations heretofore issued by the Commission in Docket Nos. G-706 and G-876, and whether such authorizations should be modified, and if so, to what extent.

It appears from the record in Docket No. G-1317 that Panhandle by reason of the construction of additional facilities will have an increment in designed system sales capacity during the latter part of 1950 of not less than 50,000 Mcf. of natural gas per day and a total designed system sales capacity of 550,000 Mcf. Panhandle has submitted no proposal or plan with respect to the allocation or distribution of the additional 50,000 Mcf.[2] of natural gas per day among its customers.

The record in the proceeding in Docket No. G-1240 as reflected by the interim order issued by the Commission on December 9, 1949, in such proceeding reveals that the estimated demand for firm gas from the Panhandle system at 0° F. during the winter 1949-1950 would have approximately 549,904 Mcf.[3] This figure is only slightly less than the estimated sales capacity 550,000 Mcf., which will be available from the Panhandle system during the latter part of 1950. It appears that by reason of normal load growth and the relaxation of restrictions on the attachment of spaceheating customers by State commissions the sales capacity of the Panhandle system may be inadequate to meet all the firm demands of Panhandle's customers.

The proceeding in Docket No. G-1240 was initiated after the filing by Panhandle, purportedly in compliance with Part 154 of the Commission's general rules and regulations, of its FPC Gas Tariff Original Volume No. 1 and statements relating to contracts on file with the Commission as rate schedules. After numerous protests had been received by the Commission from State commissions and Panhandle's customers, the tariff and contract statements were suspended by order of the Commission issued July 13, 1949, and the use of such Tariff and contract statements deferred until such time as they might be made effective in accordance with the provisions of the Natural Gas Act. The issues raised with respect to Panhandle's FPC Gas Tariff Original Volume No. 1 and statements relating to contracts are set forth in the Commission's orders issued July 13 and November 1, 1949.

Subsequent to the commencement of the hearing in Docket No. G-1240 it was disclosed on the record that the designed sales capacity of the Panhandle system, then approximately 500,000 Mcf., might be insufficient to meet the firm send-out requirements of customers during the winter 1949-1950. Based upon the evidence presented by the interested parties to the proceeding the Commission on December 13, 1949, issued an "Interim Order Establishing Service Rules and Regulations," hereinbefore referred to. Prior to the issuance of such order, the Illinois Commerce Commission on December 9, 1949, filed with this Commission a "Motion to Recess [Further] Proceedings" in Docket No. G-1240, and on the same date the Commission postponed further hearings in the proceedings until a date to be fixed by further order of the Commission.[4]

[1] The order issued May 4, 1950, authorized Panhandle to construct and operate facilities which will ultimately increase its designed system sales capacity from 500,000 Mcf. to 800,000 Mcf. per day. A part of the facilities authorized are designed to enable Panhandle to receive and transport approximately 250,000 Mcf. of natural gas per day from Trunkline Gas Supply Company. This volume of gas will not become available until the latter part of 1951. Panhandle, however, has been authorized to construct and operate facilities designed to take additional volumes of gas from the Panhandle and Hugoton fields and to increase its designed system sales capacity from an estimated 500,000 Mcf. to 550,000 Mcf. per day. The additional 50,000 Mcf. per day is expected to be available during the latter part of 1950.

[2] Since the recess in the hearing in Docket No. G-1317, the Commission, on June 28, 1950, issued In the Matter of City of Indianapolis, etc., Docket No. G-1083, an "Order Modifying Initial Decision" of the Presiding Examiner the effect of which is to direct Panhandle to establish physical connection of its facilities with facilities to be constructed by the City, and to deliver to City not in excess of 10,000 Mcf. of natural gas per day commencing not later than October 1, 1950.

[3] The estimate of 549,904 Mcf. is exclusive of gas sold directly and for resale for industrial purposes and subject to interruption when such gas is required to meet firm demands. The estimated volume of such sales as disclosed by the record in Docket No. G-1240 approximates 78,000 Mcf. per day.

[4] The motion of the Illinois Commerce Commission filed December 9, 1949, as amended by letter of the same date, requested a recess in the proceedinga until June 1, 1950. The Commission's order issued on December 9, 1949, postponing the hearing until a date to be fixed by further order of the Commission, provided opportunity to the interested parties to file responses to the motion as amended. No objection to the granting of the motion was interposed by any party.

In the response filed by Panhandle it is stated as follows:

1. It [Panhandle] offers no objection to the granting of such request for the recessing of further hearings in this proceeding provided such recess is for a period ending not earlier than June 1, 1950.

2. If such deferment is granted, Panhandle will not move to make effective, in accordance with section 4 of the Natural Gas Act, its FPC Gas Tariff, Original Volume No. 1, prior to further hearings and final action by the Commission.

The proceeding in Docket No. G-1152 with respect to the joint application of the Cities of Port Huron, Marysville and St. Clair, Michigan, has heretofore been consolidated for purposes of hearing with the proceeding in Docket No. G-1317 by order of the Commission issued February 10, 1950. In that application, filed November 16, 1948, the named Cities request an order, pursuant to section 7 (a) of the Natural Gas Act, requiring Panhandle to extend its transportation facilities, to establish physical connection with and sell natural gas to the Detroit Edison Company (Detroit Edison), which is engaged, among other things, in the distribution of gas in the Cities.

Since the filing of the application by the Cities of Port Huron, Marysville and St. Clair, Michigan, and the consolidation of the proceeding upon that application, Docket No. G-1152, with the proceeding in Docket No. G-1317, an application was filed with the Commission on June 8, 1950, by Southeastern Michigan Gas Company (Southeastern) Docket No. G-1415, in which application it is stated that Southeastern has contracted to purchase from Detroit Edison, on or before October 31, 1950, all properties, facilities and franchises now owned and utilized in the production, distribution and sale of manufactured gas in municipalities and unincorporated areas in the counties of Macomb and St. Clair, Michigan, among which are the municipalities of Port Huron, Marine City, St. Clair, Marysville, Romeo, Richmond and New Baltimore. Southeastern contemplates the conversion of the territory from manufactured gas to straight natural gas. In this connection Southeastern by its application seeks pursuant to section 7 of the Natural Gas Act, as amended, (1) an order directing Panhandle to establish physical connection of its transportation facilities with facilities proposed to be constructed by Southeastern, and requiring Panhandle to sell natural gas to Southeastern, and (2) a certificate of public convenience and necessity authorizing the construction and operation of facilities designed to transport gas from the point of connection with facilities of Panhandle to the territory proposed to be served by Southeastern. Due notice of the filing of this application has been given, including publication of such notice in the FEDERAL REGISTER on June 23, 1950 (15 F. R. 4065). An answer to Southeastern's application was filed by Panhandle on July 3, 1950.

On March 17, 1950, Panhandle filed with the Commission an application pursuant to section 3 of the Natural Gas Act, Docket No. G-1344 for an order authorizing it to export natural gas to the Dominion of Canada in accordance with an arrangement between Panhandle and Union Gas Company of Canada, Limited (Union). Panhandle proposes to export to Union under contract dated March 15, 1950, 27,350,000 Mcf. of natural gas per annum, at a daily delivery rate of not less than 37,500 Mcf. nor more than 100,000 Mcf. Due notice of the application has been given, including publication of notice in the FEDERAL REGISTER on March 29, 1950 (15 F. R. 1759-60).

On April 20, 1950, Michigan Consolidated Gas Company (Michigan Consolidated) filed with the Commission, Docket No. G-1379, a complaint against Panhandle in which Michigan Consolidated alleges in substance that it has filed, and there are pending with Panhandle 9 applications for the purchase of approximately 51,000 Mcf. of natural gas per day for resale to large industrial consumers on an interruptible basis; that such applications have been filed in accordance with the provisions of Panhandle's Rate Schedule Rd-2 (contained in Supplement No. 5 to Panhandle's Rate Schedule F. P. C. No. 12 relating to sales to Michigan Consolidated); that Michigan Consolidated has been and is entitled to purchase gas pursuant to the aforesaid 9 applications under Rate Schedule Rd-2, if Panhandle "in its judgment, has a sufficient supply of gas and adequate facilities with which to make such deliveries"; that by reason of the completion of the construction of additional facilities in October 1949, Panhandle has available at least 50,000 Mcf. per day more pipe-line capacity than it had available during the summer of 1949; that from April 1949 to October 1949 Panhandle sold some 982,267 Mcf. of natural gas to Union, thus demonstrating that it is now able to supply the 51,000 Mcf. of natural gas per day covered by Michigan Consolidated's aforesaid 9 applications; and that the export of gas to Canada by Panhandle is contrary to conditions of the Commission's order of April 23, 1946, in Docket No. G-612, 5 F. P. C. 472, authorizing Panhandle pursuant to section 3 of the Natural Gas Act to export gas to Canada, in that such order provides that "at all times, persons and municipalities in the United States are to receive preferential service over that to Union."

On May 24, 1950, Panhandle filed with the Commission its answer to Michigan Consolidated's complaint, in which it denies generally many of the allegations of the complaint. The answer denies specifically that the 9 alleged applications are pending; that Michigan Consolidated has any rights arising out of such alleged applications; that the facts with respect to export of 982,267 Mcf. of natural gas to Union during 1949 have any relevancy to any alleged rights of Michigan Consolidated under its 9 alleged applications. Panhandle avers that the deliveries made to Union did not result in interruption to or impairment of service to Panhandle's other customers, including Michigan Consolidated; that the sales to Union are made on an off peak basis during April to October rather than on the interruptible basis contemplated by Rate Schedule Rd-2; and that the 9 alleged applications requested Panhandle to supply gas in equal monthly volumes throughout the year which is a different type of service from that rendered to Union.

On June 9, 1950, Panhandle filed with the Commission an application, Docket No. G-1417, seeking in the alternative, (1) a disclaimer of jurisdiction over the matters set forth therein or (2) a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of a meter, necessary measuring and pressure regulating equipment and a physical connection between its facilities and a pipeline which Ford Motor Company (Ford) will construct, or will have constructed, for the purpose of accomplishing the delivery of natural gas for industrial uses in Ford's plant located in Dearborn, Michigan. Due notice of the filing of this application has been given, including publication of such notice in the FEDERAL REGISTER on June 23, 1950 (15 F. R. 4065).

On September 3, 1948, the Commission issued an order in Docket No. G-1116 instituting an investigation for the purpose of enabling the Commission to determine whether any rate, charge, service or classification demanded, observed, charged or collected by Panhandle for or in connection with the transportation or sale of natural gas subject to the jurisdiction of the Commission or any rule, regulation, practice or contract affecting such rate, charge, service or classification is unjust, unreasonable, unduly discriminatory or preferential.

The said order issued September 3, 1948, provided further that if the Commission, after hearing has been had, shall find that any of such rates, charges, services, classifications, rules, regulations, practices or contracts of Panhandle, subject to the jurisdiction of the Commission are unjust, unreasonable, unduly discriminatory or preferential, the Commission will determine and fix by order or orders the just and reasonable rates, charges, classifications, rules, regulations, practices or contracts to be thereafter observed and in force.

As has been indicated, the designed sales capacity of the Panhandle system during the latter part of 1950 will be approximately 550,000 Mcf. per day or an increase of 50,000 Mcf. over the estimated sales capacity of the system during the winter period 1949-1950. For the reasons hereinbefore stated it appears that it is necessary and appropriate in order to carry out the provisions of the Natural Gas Act, particularly sections 4 and 5, thereof that further hearings be held for the purpose of determining:

1. Whether the sales capacity of the Panhandle system during 1950-1951 will be adequate to satisfy all the requirements of customers dependent in whole or in part upon the Panhandle system for their supply of natural gas.

2. The just and reasonable service rules and regulations which should be made applicable to deliveries of natural gas from the Panhandle system in the event the evidence discloses that the capacity of the Panhandle system will be inadequate to satisfy the requirements of all customers served from the system.

It appears that it is appropriate to consider in conjunction with the two matters just enumerated the applications filed by the Cities of Port Huron, et al., and Southeastern Michigan Gas Company, Docket No. G-1152 and Docket No. G-1415, respectively, wherein the applicants are seeking a supply of natural gas for certain communities not now having natural gas service in Michigan; the application of Panhandle, Docket No. G-1417, wherein it seeks authorization

to construct and operate facilities for the delivery of natural gas to Ford at Dearborn, Michigan; and the issues raised and the matters presented by the complaint of Michigan Consolidated against Panhandle in Docket No. G–1379, and the answer to such complaint filed by Panhandle. These proceedings all relate to volumes of natural gas which presently, or in the future, may be available from the Panhandle system, and involve the question of whether the public interest or public convenience and necessity permit or require such service in accordance with the applicable provisions of the Natural Gas Act, and the present rate schedules of Panhandle or under any tariff or service agreement which may be approved or prescribed by the Commission.

During the course of the hearing in Docket No. G–1317 upon its application for a certificate of public convenience and necessity, Panhandle presented testimony with respect to (1) the proposed disposition among present and prospective customers of the additional volumes of natural gas which will be available to it upon completion of facilities authorized in Docket No. G–1317, and of facilities to be constructed by Trunkline Gas Supply Company, and (2) the form of tariff, service agreement, form of rate and rate level to be applicable to the sales of natural gas from the Panhandle system after completion of all the facilities referred to above. For the reasons set forth in the Commission's order issued May 4, 1950, with respect to Docket Nos. G–882 and G–1317, determination of these matters was deferred pending further hearings in Docket No. G–1317.

It appears that the determination of what will be the just and reasonable rates, charges, classifications, rules, regulations, practices or contracts to be thereafter observed and in force in the event that in the proceeding in Docket No. G–1116 it is determined that Panhandle's present effective rates, charges, classifications, rules, regulations, practices or contracts are found to be unjust, unreasonable, unduly discriminatory or preferential may present the same or similar issues to those presented in the tariff suspension proceeding in Docket No. G–1240. Further, the matters and issues presented in Docket Nos. G–1116 and G–1240 may have a bearing upon the determination of what would be the just and reasonable rates, charges, classifications, rules, regulations, practices or contracts to be observed and in force, or the principles to be applicable in the determination of any of the foregoing, when the designed capacity of the Panhandle system has been increased by the construction and operation of facilities authorized in Docket Nos. G–882 and G–1317. Therefore, it appears appropriate that the proceedings in Docket Nos. G–1116 and G–1240 and further proceedings in Docket No. G–1317 be heard upon the same record.

Because of the interrelationship of all of the proceedings hereinbefore referred to it also is desirable and appropriate that all of such proceedings be consolidated for purposes of hearing. Consolidation of such proceedings for purposes of hearing, however, does not mean that final action with respect to all matters and issues will be deferred until all sessions of hearings in the consolidated proceedings have been finally concluded. The Commission will issue such order or orders in the proceedings as may from time to time appear to be appropriate and justified by the facts then appearing of record. Further, it appears desirable and appropriate to prescribe the order of procedure in which the matters and issues presented in the various proceeding shall be taken up at the hearing, and accordingly, this will be done hereinafter.

Any evidence of record with respect to any of the proceedings hereby consolidated for purposes of hearing at the time the Commission takes dispositive action with respect to any matter or issue herein will be considered by the Commission in connection with such action.

To provide for orderly and timely consideration of the various matters and issues in the proceedings and the expeditious disposition of such matters and issues, the Commission is of the opinion that the presentation of evidence at the hearing in the consolidated proceedings should relate to the following issues and that such presentation should be in the order in which the issues are listed as follows:

1. Whether the designed sales capacity of the Panhandle system of 550,000 Mcf. which is the total expected to be available during the latter part of 1950 will be adequate to satisfy all the requirements of customers dependent in whole or in part upon the Panhandle system for their supplies of natural gas.

2. The just and reasonable service rules and regulations which should be made applicable to deliveries of natural gas from the Panhandle system in the event that the evidence discloses that the capacity of the Panhandle system is, or will be, inadequate to satisfy all the requirements of customers served from the system.

3. (a) Whether the Commission should find it necessary or desirable in the public interest to grant the orders sought in Docket No. G–1152 and in Docket No. G–1415 or either of them, while the designed sales capacity of the Panhandle system approximates 550,000 Mcf. per day; and (b) the matters and issues presented in the proceedings in Docket Nos. G–1417 and G–1379.

4. The form of tariff which should be applicable to volumes of gas delivered from the Panhandle system when the capacity of such system has been increased by additional natural gas supplies from the Trunkline Gas Supply Company project, i. e., whether Panhandle should be permitted to charge a "rolled-in-rate," demand and commodity in form, and with a minimum bill provision.

5. The matters and issues presented by the application in Docket No. G–1344.

6. What would be a fair, reasonable and equitable distribution among present and prospective customers of the volumes of natural gas which will be available upon completion of the Trunkline and Panhandle facilities authorized in Docket Nos. G–882 and G–1317.

7. Whether Panhandle's present rates, charges, classifications, rules, regulations, practices and contracts are unjust, unreasonable, unduly discriminatory or preferential, and if found to be unjust, unreasonable, unduly discriminatory or preferential, what would be the just and reasonable rates, charges, classifications, rules, regulations, practices and contracts to be determined and fixed by order.

8. The just and reasonable rates, charges, classifications, rules, regulations, practices and contracts (or the principles to be followed in the determination of the foregoing), which should be made applicable to volumes of gas deliverable from the Panhandle system when the sales capacity has been increased by the supply of natural gas to be received from Trunkline Gas Supply Company.

9. The status of outstanding authorizations issued by the Commission in Docket Nos. G–706 and G–876, and whether such authorizations should be modified, and if so, to what extent.

The Commission orders:

(A) The proceedings in Docket Nos. G–1116, G–1240, G–1317, G–1344, G–1417, G–1152, G–1415 and G–1379 be and they hereby are consolidated for the purposes of hearing in accordance with the terms of this order.

(B) Pursuant to the provisions of sections 3, 4, 5, 7 and 15 of the Natural Gas Act, as amended, and in accordance with the terms of this order a public hearing be held commencing on August 14, 1950, at 10:00 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., with respect to the matters involved and the issues presented in the proceedings which by this order have been consolidated for hearing.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: July 13, 1950.

[Docket No. G–1335]

CAROLINA NATURAL GAS CORP.

NOTICE OF AMENDED APPLICATION

JULY 12, 1950.

Take notice that the Carolina Natural Gas Corporation (Applicant), a Delaware corporation with its principal place of business at 701 Wilder Building, Charlotte, North Carolina, filed on July 7, 1950, a second amendment to its application filed March 3, 1950, for (1) a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, as amended, authorizing the construction and operation of certain natural gas transmission pipeline facilities, and (2) an order under section 7 (a) of the act, directing Transcontinental Gas Pipe Line Corporation (Transcontinental), a natural-gas company subject to the jurisdiction of the Commission, to establish physical connections of its transportation facilities with Applicant's proposed facilities and to sell natural gas to the Applicant.

Applicant proposes to construct and operate approximately 467[1] miles of 4½-inch to 12¾-inch pipeline consisting of eleven separate laterals extending from nine connections with the facilities of Transcontinental to the various markets proposed to be served in North and South Carolina. Applicant, in addition to its previously proposed service to various communities in North and South Carolina, by its amendment now seeks to obtain authorization to construct and operate facilities for the purpose of supplying natural gas to the South Carolina Electric & Gas Company for distribution in Columbia, South Carolina, and the delivery and sale of natural gas to several new industrial customers.

Applicant estimates, in view of its proposed additional natural gas service, that its annual demands will be increased from 9,797,000 Mcf. as previously estimated in the first year, to 11,431,000 Mcf. and its previous estimate of 15,273,000 Mcf. in the fifth year, to 18,979,000 Mcf.; its peak day demand previously estimated at 30,000 Mcf. in the first year will be increased to 38,000 Mcf.; and its estimate of 65,000 Mcf. in the fifth year, to 82,000 Mcf.

The estimated over-all capital cost of Applicant's previously proposed facilities was estimated at approximately $7,374,100, whereas in its present proposal it estimates the cost of its facilities to be $9,484,800, which Applicant proposes to finance by the sale of First Mortgage Bonds in the amount of $7,100,000, and by the issuance of junior securities to cover the balance.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) before July 21, 1950. The application and amendments thereto are on file with the Commission for public inspection.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2410]

CHARLES C. HARRISON, 3D, ET AL.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 11th day of July A. D. 1950.

In the matter of Charles C. Harrison, 3d, David B. Sharp, Jr., Robert E. Daffron, Jr., File No. 70-2410.

Notice is hereby given that Charles C. Harrison, 3d, David B. Sharp, Jr. and Robert E. Daffron, Jr. have filed a joint application with this Commission pursuant to the Public Utility Holding Company Act of 1935. Applicants have designated sections 9 (a) (2) and 10 of the act as being applicable to the proposed transactions.

Notice is further given that any interested person may, not later than July 31, 1950, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matters, stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law raised by such joint application, as filed or as amended, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after July 31, 1950, said joint application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said joint application which is on file in the offices of this Commission, for a statement of the transactions therein proposed which may be summarized as follows:

Chesapeake Utilities Corporation ("Chesapeake") is a holding company claiming exemption as such pursuant to the provisions of Rule U-9. Harrison, Sharp and Daffron, jointly, hold 13,000 shares of common stock of Chesapeake of the par value of $5 per share out of the 26,000 shares of such stock outstanding, and hold indirectly, through Harrison & Co., in which they are partners, 50 shares of 5 percent Cumulative Preferred Stock of Chesapeake of the par value of $100 per share of which 1,000 shares are outstanding. Mary Callery owns 950 shares of the preferred and 11,000 shares of the common stocks of Chesapeake. Harrison, Sharp and Daffron propose to acquire from Mary Callery an indirect interest, through Harrison & Co., in an additional 50 shares of the preferred stock of Chesapeake, the initial 50 shares having been acquired from Mary Callery pursuant to an order of this Commission dated February 13, 1950. Harrison & Co. will pay Mary Callery a cash consideration of $5,000, being the aggregate par value of such stock and the cost of such shares to her.

Applicants state that no State commission and no Federal agency, other than this Commission, has any jurisdiction in the matter and have requested that our order herein be issued as soon as possible.

By the Commission.

NORTHERN NATURAL GAS CO.

ORDER RELEASING JURISDICTION OVER FEES AND EXPENSES

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 11th day of July 1950.

The Commission by order dated May 29, 1950, having permitted an amended declaration to become effective with respect to the issuance and sale by Northern Natural Gas Company, a registered holding company, of $40,000,000 principal amount of its 2⅝ percent Serial Debentures, dated May 1, 1950, due 1953-70, and said order having reserved jurisdiction over the fees and expenses of counsel for the prospective purchasers and over the engineering fees and expenses; and

Statements having been filed with respect to requested fees in the amount of $12,500 and expenses in the amount of $500, payable to the firm of Pam, Hurd & Reichmann, of Chicago, Illinois, as counsel for the prospective purchasers, and engineering fees payable to Ralph E. Davis, of Pittsburgh, Pennsylvania, in the amount of $8,103.20, including expenses in the amount of $780.70, for services rendered Northern Natural Gas Company in connection with the issuance of said debentures; and

The Commission having considered such statements and finding that the requested fees and expenses are not unreasonable and deeming it appropriate that jurisdiction with respect thereto be released:

It is ordered, That the jurisdiction heretofore reserved over such fees and expenses be, and hereby is, released.

STANDARD GAS AND ELECTRIC CO. ET AL.

ORDER REGARDING PLANS AND APPLICATIONS

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 7th day of July 1950.

In the matter of Standard Gas and Electric Company, File Nos. 54-72 and 59-66, Standard Power and Light Corporation and Standard Gas and Electric Company, File No. 54-105.

Standard Gas and Electric Company ("Standard Gas"), a registered holding company and a subsidiary of Standard Power and Light Corporation ("Standard Power"), also a registered holding company, having filed, on March 24, 1943, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("Act"), its "Plan for Recapitalization of Standard Gas and Electric Company", and the Commission having entered its findings and opinion, on May 29, 1944, disapproving said plan; and

Standard Gas having filed, on August 28, 1944, pursuant to section 11 (e) of the act, its "Amended Plan for Recapitalization of Standard Gas and Electric Company", as subsequently modified by amendments Nos. 1 and 2 thereto, and the Commission having entered its Findings and Opinion and Order, on November 15, 1944, approving said plan, as amended; and

The Commission having applied to the United States District Court for the District of Delaware to enforce and carry out the provisions of said "Amended Plan for Recapitalization of Standard Gas and Electric Company", as amended, and said Court having remanded said plan to the Commission for further proceedings in accordance with an opinion of said Court, entered December 29, 1945; and

Standard Gas having filed, on October 3, 1947, pursuant to section 11 (e) of the act, its "Plan of Standard Gas and Electric Company", and the Commission having entered its Memorandum opinion and order, on October 30, 1947, directing, among other things, that Standard Gas show cause why said plan should not be dismissed because of vagueness and lack of specificity; and

Standard Power and Standard Gas having filed, on September 27, 1944, pursuant to section 11 (e) of the act, their "Joint Plan of Standard Power and Light Corporation and Standard Gas and Electric Company," and the Commission having entered its findings and opinion and order, on February 22, 1945, approving said plan; and

Standard Gas having filed, on May 8, 1950, an application requesting (a) that it be permitted to withdraw its plans filed on August 28, 1944 and October 3, 1947, (b) that it be permitted to withdraw as a party to the joint plan filed on September 27, 1944, (c) that the Commission vacate its order, dated November 15, 1944, under section 11 (e) of the act, approving the plan, as amended, filed August 28, 1944, and (d) that the Commission terminate and dismiss all pending proceedings involving the plans filed by Standard Gas on March 27, 1943,

August 28, 1944, and October 3, 1947; and Standard Gas having agreed that its withdrawal, as requested, of said plans and as a party to said joint plan shall not terminate or in any way limit any jurisdiction conferred upon the Commission by law over fees and expenses in connection with the reorganization of Standard Gas under the act, including any and all transactions related to said plans, and that Standard Gas will pay only such of the fees and expenses which are subject to the jurisdiction of the Commission, as aforesaid, as shall be approved, awarded, allowed or allocated by the Commission; and

The Commission having entered an order, dated December 31, 1948, pursuant to section 11 (b) (2) of the act, directing Standard Gas to liquidate and dissolve, or, in the alternative, to recapitalize on the basis of a single class of stock, namely, common stock; and Standard Gas having filed, on December 28, 1949, pursuant to section 11 (c) of the act, an application requesting that the time for compliance with said order be extended for a period of one year; and

Notice of said application filed by Standard Gas on May 8, 1950, having been duly given, all interested persons having been afforded an opportunity for hearing and the Commission not having received a request for hearing with respect to said application within the period specified in said notice, or as subsequently extended by order of the Commission, dated June 8, 1950, or otherwise, and not having ordered a hearing thereon; and the Commission having considered the record and filed its Memorandum Opinion herein:

It is ordered, That the "Amended Plan for Recapitalization of Standard Gas and Electric Company", as amended, and the "Plan of Standard Gas and Electric Company" filed on August 28, 1944, and October 3, 1947, respectively, pursuant to section 11 (e) of the act, be, and the same hereby are, permitted to be withdrawn.

It is further ordered, That the proceedings at File No. 54–72 involving the "Plan for Recapitalization of Standard Gas and Electric Company", the "Amended Plan for Recapitalization of Standard Gas and Electric Company", and the "Plan of Standard Gas and Electric Company", filed on March 24, 1943, August 28, 1944, and October 3, 1947, respectively, be, and the same hereby are, terminated and dismissed.

It is further ordered, That jurisdiction is reserved with respect to all fees and expenses paid or to be paid by Standard Gas (except as heretofore specifically approved by the Commission) for services in connection with the reorganization of Standard Gas under the act, including the said plans filed by Standard Gas on March 24, 1943, August 28, 1944, and October 3, 1947, and the joint plan filed by Standard Power and Standard Gas on September 27, 1944, and any and all transactions related thereto.

It is further ordered, That the findings and opinion of the Commission, entered May 29, 1944, and the findings and opinion of the Commission, entered November 15, 1944, at File No. 54–72, be, and the same hereby are, vacated and set aside and that the order of the Commission, dated November 15, 1944, entered at File No. 54–72, be, and the same hereby is, rescinded.

It is further ordered, That the application of Standard Gas to withdraw as a party to the "Joint Plan of Standard Power and Light Corporation and Standard Gas and Electric Company," filed on September 27, 1944, at File No. 54–105, be, and the same hereby is, granted, effective forthwith.

It is further ordered, That the time in which Standard Gas may comply with the order, dated December 31, 1948, entered by the Commission pursuant to section 11 (b) (2) of the act, at File No. 59–66, be, and the same hereby is, extended for a period of one year from December 31, 1949.

By the Commission.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Erna Schoenbrodt and Curt Schoenbrodt, who there is reasonable cause to believe are residents of Germany are nationals of a designated enemy country (Germany);

2. That the property described as follows:

a. All rights and interests created in Erna Schoenbrodt and Curt Schoenbrodt, under and by virtue of a safe deposit box lease agreement by and between Erna Schoenbrodt, Curt Schoenbrodt and the Corn Exchange Safe Deposit Company, William and Beaver Streets, New York, New York, relating to Safe Deposit Box No. 1074, located in the vaults of said company at the 86th Street Branch, 86th Street at Lexington Avenue, including particularly but not limited to, the right of access to said safe deposit box, and

b. All property of any nature whatsoever owned by Erna Schoenbrodt and Curt Schoenbrodt, in the safe deposit box referred to in subparagraph 2 (a) hereof, and any and all rights of said persons evidenced or represented thereby,

subject, however, to any liens of the aforesaid Corn Exchange Safe Deposit Company, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been

made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 5, 1950.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Production and Marketing Administration and Commodity Credit Corporation, Department of Agriculture

Subchapter C—Loans, Purchases, and Other Operations

[1950 C. C. C. Price Support Program Bulletin 1, Supplement 1, Dry Edible Beans]

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1950 CROP DRY EDIBLE BEAN LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program has been announced for the 1950 crop of dry edible beans. The 1950 C. C. C. Grain Price Support Bulletin 1, 15 F. R. 3147, issued by the Commodity Credit Corporation and containing the general requirements with respect to price support operations for grains and related commodities produced in 1950, is supplemented as follows:

Sec.
601.171 Purpose.
601.172 Availability of price support.
601.173 Eligible beans.
601.174 Warehouse receipts.
601.175 Determination of quantity.
601.176 Determination of quality.
601.177 Loss or damage to the beans.
601.178 Maturity of loans.
601.179 Delivery of beans to CCC.
601.180 Support rates.

AUTHORITY: §§ 601.171 to 601.180 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, Titles III, IV, Pub. Law 439, 81st Cong.; 15 U. S. C. Sup., 714c.

§ 601.171 *Purpose.* This supplement states additional specific requirements which, together with the general requirements contained in the 1950 C. C. C. Grain Price Support Bulletin 1, 15 F. R. 3147, and 1950 Dry Edible Bean Bulletin A, 15 F. R. 3053, apply to loans and purchase agreements made available under the 1950 Dry Edible Bean Price Support Program.

§ 601.172 *Availability of price support.*—(a) *Method of support.* Price support will be made available by means of nonrecourse farm-storage and warehouse-storage loans and through purchase agreements. Farm-storage loans will not be available to cooperative associations of producers.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available wherever beans of the eligible classes are grown in the continental United States.

(c) *Where to apply.* Application for price support must be made at the office of the PMA county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available from the time of harvest through January 31, 1951, and the applicable documents must be signed by the producer and delivered to the county committee not later than such date.

(e) *Eligible producer.* An eligible producer shall be any individual, partnership, association, corporation, or other legal entity producing eligible beans in 1950 as landowner, landlord, tenant or sharecropper who is in compliance with the 1950 dry edible bean acreage allotment regulations, as determined in accordance with 1950 Dry Edible Bean Bulletin A, 15 F. R. 3055.

Cooperative marketing associations of producers will be eligible for warehouse-storage loans and purchase agreements on any class of eligible beans produced by eligible producer members: *Provided,* That (1) all beans of such class marketed by the association are produced by producer members; (2) the producer members are bound by contract to market their beans of such class through the association and the association does not release any such beans for the purpose of permitting producer members to obtain individual price support loans or purchase agreements; (3) separate pools are maintained for eligible and ineligible beans and the proceeds of the eligible beans marketed by the association are shared proportionately among the eligible producer members according to the class, grade and quantity of such beans each delivers to the association, and the proceeds of all other beans marketed by the association are shared proportionately among the producer members according to the class, grade and quantity of such beans each delivers to the association; (4) the association has author-

ity to obtain a loan on the security of the beans and to give a lien thereon as well as authority to sell such beans.

As a condition of price support hereunder, the cooperative marketing association of producers shall comply with the following requirements:

(1) If the association, between September 15, 1950, and May 1, 1951, sells beans of any class named in § 601.173 (c) at prices equal to or in excess of the county support rate, the quantities of ineligible beans allocated to any such sales shall not represent a larger proportion of the quantity involved in such sale than the proportion which the quantity of ineligible beans delivered to the association by producer members is of the total quantity of beans (eligible and ineligible) delivered to the association by producer members, such proportion to be established by or under the direction of the State PMA Committee not later than January 31, 1951.

(2) The association shall maintain a quantity of beans in the eligible pool at all times which is not less than the unredeemed quantity of beans under loan.

(3) The association shall maintain and make available to CCC and to PMA, at such times and in such places as CCC or PMA may direct, records adequate to make all determinations this paragraph may require.

All determinations with respect to cooperative marketing associations of producers pursuant to this section shall be made by or under the direction of the PMA State Committee.

§ 601.173 *Eligible beans.* At the time the beans are placed under loan or delivered under a purchase agreement, they must meet the following requirements:

(a) The beans must have been produced in the continental United States in 1950 by an eligible producer on a farm on which the bean acreage is within the bean acreage allotment.

(b) Except in the case of cooperative marketing asociations, the beneficial interest must be in the person tendering the beans for loan or for delivery under a purchase agreement, and must always have been in him, or must have been in him and a former producer whom he succeeded before the beans were harvested.

(c) The beans must be dry edible beans of the classes Pea, Medium White, Great Northern, Small White, Flat Small White, Pink, Small Red, Pinto, Cranberry, Red Kidney, Large Lima and Baby Lima.

(d) Beans placed under loan must (1) grade No. 2 or better, or (2) be beans not commercially cleaned which have a moisture content of not more than 18 percent and which, after deduction of foreign material, contain not more than 10 percent of other defects, as these terms are defined in the United States Standards for Beans.

(e) Beans delivered under a purchase agreement must grade U. S. No. 2 or better.

(f) Beans tendered for loan must not be musty, sour, heating, hot, weevily, or materially weathered; must not have any commercially objectionable odor; and must not otherwise be of distinctly low quality.

(g) In order to be eligible for a farm-storage loan, beans must have been stored for at least 30 days prior to inspection for measurement, sampling, and sealing, unless otherwise approved by the State PMA committee.

§ 601.174 *Warehouse receipts.* Warehouse receipts, representing beans in approved warehouse-storage to be placed under loan or delivered under a purchase agreement, must meet the requirements below:

(a) Warehouse receipts must be issued in the name of the producer or cooperative marketing association, must be properly endorsed in blank so as to vest title in the holder, and must be issued by an approved warehouse. The receipts must be negotiable and must cover eligible beans actually in store in the warehouse.

(b) Each warehouse receipt must set forth in its written terms that the beans are insured for not less than market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone and tornado, or, in lieu of this statement, it must have stamped or printed thereon the word "Insured."

(c) Each warehouse receipt or the warehouseman's supplemental certificate (in duplicate) properly identified with the warehouse receipt, must show the net weight of beans, the class, and the grade or all grading factors used in the determination of the quality of the beans.

(d) In the case of warehouse-stored beans where the warehouseman does not guarantee the quantity and quality shown on the warehouse receipt, the producer must execute the supplemental certificate and assume responsibility for the quantity and quality indicated thereon.

(e) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 601.179 (b).

§ 601.175 *Determination of quantity—*(a) *When loans are made.* At the time the loan is made, the quantity of beans may be determined either by weight or, if stored in bulk, by measurement. Where quantity is determined by measurement, 2.1 cubic feet shall constitute 100 pounds.

If the beans grade U. S. No. 2 or better, loans shall be made on the basis of the net weight of the lot; otherwise, loans shall be made on the basis of the net weight of sound beans in the lot. Sound beans shall be beans free of dockage and other defects as defined in the United States Standards for Beans.

If the beans are stored in sacks, a deduction of ¾ pound per sack shall be made from the gross weight of sacked beans, except where the net weight is shown on the warehouse receipt.

(b) *At time of delivery.* The quantity of beans delivered to CCC from other than an approved warehouse, or delivered in an approved warehouse where the warehouseman does not guarantee quantity, will be determined on the basis of official net weight at the point of delivery, evidenced by scale tickets.

The quantity of beans delivered to CCC in an approved warehouse where the warehouseman guarantees the quantity shall be the net weight of beans specified on the warehouse receipt or supplemental certificate.

§ 601.176 *Determination of quality.* The class, grade and all quality factors shall be determined in accordance with the United States Standard for Beans. An inspection certificate issued by a licensed inspector is required on all farm-storage loans.

Where quality is guaranteed by the warehouseman, the class and grade delivered under a warehouse-storage loan or purchase agreement shall be that shown on the warehouse receipt. In all other cases, the class and grade shall be determined from a Federal or Federal-State inspection certificate, issued by or under the supervision of the Grain Branch, PMA.

§ 601.177 *Loss or damage to the beans—*(a) *Farm-storage.* The producer is responsible for any loss in quantity or quality of the beans placed under farm-storage loan, except that uninsured physical loss or damage, other than shrinkage, occurring without fault, negligence, or conversion on the part of the producer, or on the part of the person operating or in charge of the storage structure, resulting solely from an external cause other than insect infestation or vermin, will be assumed by CCC, to the extent of the settlement value, provided the producer has given the county committee immediate notice in writing of such loss or damage, and provided there has been no fraudulent representation made by the producer in the loan documents or in obtaining the loan.

(b) *Warehouse-storage.* In the case of loss or damage to beans in warehouse storage where the warehouseman guarantees the quantity and quality shown on the warehouse receipt, the producer's account will be credited in the amount of such loss or damage in accordance with paragraph (c) of this section.

If the warehouseman does not guarantee the quantity and quality shown on the warehouse receipt, the producer has the same responsibility for loss or damage to the beans as in the case of farm-storage loans.

(c) *Credit for loss or damage.* The amount to be credited to the producer shall be determined by multiplying the number of cwt. of sound beans lost or destroyed by the support rate for U. S. No. 2 beans of the class lost or destroyed, except that if the warehouse receipt or an official inspection certificate covering the beans shows a grade of U. S. No. 2 or better, the amount credited shall be determined by multiplying the net weight of the beans lost or destroyed by the support rate for the class and grade of such beans.

§ 601.178 *Maturity of loans.* Loans mature on demand but not later than April 30, 1951.

§ 601.179 *Delivery of beans to CCC.* If beans are delivered by the producer to CCC under a loan or a purchase agreement, the following terms and conditions shall apply with respect to packaging and charges. If the warehouse receipt represents beans not commercially cleaned and graded, the producer must arrange to resubmit warehouse receipts on cleaned, graded, and bagged beans at the time of delivery in accordance with instructions issued by the county committee.

(a) *Packaging.* Beans must be packed 100 pounds net in bags equal to or better than (1) new bags made of 36-inch, 10.4 ounce A or B quality common jute or heavier weight jute, or (2) new cotton bags, 36-inch, 2.34 yards osnaburg or 40-inch 2.50 yard osnaburg. If new bags are not available, beans may be packed in No. 1 used bags made of 36-inch, 10.4 ounce A or B quality jute or heavier, free of holes, patches, or other defects, satisfactory for the proper conservation of the product, and thoroughly cleaned before being filled. Bag seams must be sufficiently strong to develop the full strength of the cloth. Bags will be marked to show the commodity name and class, and the net weight when packed; and the name and address of the packer.

(b) *Charges.* Storage, bagging, cleaning, inspection fees and all other charges, including cost of movement to normal railroad shipping points where the warehouse is not located on a railroad (but not including receiving and loading-out charges), incurred on beans up to the time of delivery to CCC, shall be paid by the producer prior to such delivery or

shall be paid from the settlement value: *Provided however*, That on the quantity of eligible beans stored in an approved warehouse and delivered to CCC under a loan or purchase agreement, CCC will asume warehouse storage charges (not in excess of those allowed under the storage agreement in effect for the 1950 crop with CCC) accruing from May 1, 1951.

If delivery is made to CCC in an approved warehouse, and the warehouseman does not guarantee the quantity and quality shown on the warehouse receipt, the producer shall pay any unpiling, turning, repiling, or other warehouse charges, except loading-out charges, incident to official weight and grade determinations.

§ 601.180 *Support rates*—(a) *Loan rates.* (1) The loan rate for eligible beans grading U. S. No. 2 or better, and meeting the packaging requirements of § 601.179 (a), shall be the applicable support rate for the class, grade, and county where produced. Any charges specified in § 601.179 (b) which are unpaid shall be paid from the proceeds of the loan.

(2) The loan rate for all other eligible beans shall be $4.25 per 100 pounds of sound beans. All such beans, when and if delivered to CCC, must meet all requirements of §§ 601.176 and 601.179.

(b) *Support rates.* The support rates per 100 pounds net weight established for dry edible beans are as follows:

Class and area	Support rates: U. S. Choice Hand-Picked and U. S. Extra No. 1	U. S. No. 1	U. S. No. 2
Pinto—Continued

[1] Applicable to beans produced in Converse and Natrona Counties if they have been transported to Goshen County by truck.

[2] Beans produced in Converse and Natrona Counties unless they have been transported to Goshen County by truck.

(c) *Storage in transit.* Reimbursement will be made by CCC to producers and warehousemen for paid-in rail freight (including freight tax) on beans stored in approved warehouses, subject to the following conditions:

(1) The movement from point of origin to storage point must be an "in-line" movement as determined by CCC.

(2) The freight must have been paid in by the person claiming reimbursement and he must not have been otherwise reimbursed.

(3) The warehouseman must furnish the descriptive data on all freight bills or transit tonnage slips on all eligible beans received into the storage facility at the time and in the manner stipulated in the storage agreement in effect with CCC for the 1950 crop.

(4) The freight bills or transit tonnage slips must be made available to CCC in accordance with the provisions of the storage agreement in effect with CCC.

(5) Not more than one transit stop must have been used on the billing.

(6) The freight bills must be otherwise acceptable to CCC under the terms of the storage agreement.

Reimbursement for paid-in freight under this paragraph will be made by the appropriate PMA commodity office subsequent to actual delivery of the beans to CCC pursuant to a loan or purchase agreement.

(d) *Settlement.* Settlement must be made at the support rate for the county in which the beans are produced irrespective of where they are stored or delivered.

(1) *Loans.* In the case of farm-storage loans, and warehouse-storage loans where the warehouseman does not guarantee quality and quantity, settlement shall be made at the applicable support rate for the class and grade of the total quantity delivered.

If the beans are of a grade for which no support rate has been established, the settlement value shall be the settlement rate established for the grade placed under loan, less the difference, if any, at the time of delivery, between the market price for the grade placed under loan and the market price of the beans delivered as determined by CCC: *Provided, however*, That if such beans when placed under loan were not of a grade for which a support rate has been established, the settlement value shall be the settlement value for the lowest grade for which a support rate has been established, less the difference, if any, at the time of delivery, between the market price for such grade and the market price of the beans delivered, as determined by CCC.

(2) *Purchase agreements.* Under purchase agreements, beans will be purchased at the applicable support rate for the class and grade of the eligible beans delivered.

Issued this 12th day of July 1950.

TITLE 7—AGRICULTURE

Chapter III—Bureau of Entomology and Plant Quarantine, Department of Agriculture

[B. E. P. Q. 558, Rev.]

PART 301—DOMESTIC QUARANTINE NOTICES

PINK BOLLWORM; ADMINISTRATIVE INSTRUCTIONS AUTHORIZING METHODS OF TREATING COTTONSEED AND MOVEMENT OF COTTONSEED FROM HEAVILY INFESTED AREA TO ANY DESTINATION UPON CERTAIN TREATMENT

Pursuant to the authority conferred upon the Chief of the Bureau of Entomology and Plant Quarantine by the second proviso of Pink Bollworm Quarantine No. 52 (7 CFR 301.52), under section 8 of the Plant Quarantine Act, as amended (7 U. S. C. 161), and having determined that facts exist as to the pest risk involved which make it safe to modify, by making less stringent, the requirements contained in § 301.52–3 and § 301.52–4 (c) (1) and (2) of the regulations under such quarantine, the following revision of administrative instructions authorizing additional methods of treating cottonseed (7 CFR 301.52–4a; 14 F. R. 5733, 15 F. R. 840) is hereby adopted:

§ 301.52–4a *Administrative instructions authorizing methods of treating cottonseed and movement of cottonseed from heavily infested area to any destination upon certain treatment*—(a) *Cottonseed from lightly infested area.* For cottonseed originating in the counties of Andrews, Bailey, Baylor, Borden, Brown, Callahan, Childress, Cochran, Coke, Coleman, Collingsworth, Concho, Cottle, Crane, Crosby, Dawson, Dickens, Donley, Ector, Fisher, Floyd, Foard, Gaines, Garza, Glasscock, Gray, Hale, Hall, Hardeman, Haskell, Hockley, Howard, Irion, Jones, Kent, King, Knox, Lamb, Lubbock, Lynn, Martin, Mason, McCullock, Menard, Midland, Mitchell, Motley, Nolan, Reagan, Runnels, San Saba, Schleicher, Scurry, Shackleford, Sterling, Stonewall, Taylor, Terry, Throckmorton, Tom Green, Upton, Wheeler, Wichita, Wilbarger, and Yoakum, in Texas, the counties of Beckham, Caddo, Greer, Harmon, Jackson, Kiowa, Tillman, and Washita, in Oklahoma, and the counties of Curray, Lea, Quay, and Roosevelt, in New Mexico, the required heat treatment incidental to certification may be accomplished at plants designated by the Chief of the Bureau as provided in § 301.52–5: *Provided*, That in lieu of the required heat treatment, methyl bromide fumigation under the supervision of an inspector may be substituted under the following exacting conditions:

(1) *Methyl bromide fumigation of sacked cottonseed.* The seed shall be treated in an approved fumigation chamber with methyl bromide at a dosage of 3 pounds per 1,000 cubic feet for an exposure period of 24 hours. The seed shall be sacked and stacked on a floor rack which will allow circulation beneath the seed. The bulk temperature of the seed at the beginning of the fumigation shall be 60° F. or above. A circulating fan shall be operated for a period of 30 minutes after the introduction of the fumigant.

An approved fumigation chamber shall be one lined with sheet metal, with all openings fitted tightly against a double row of molded sponge rubber gasketing. Chambers more than 100 cubic feet capacity shall have a combination circulating and venting system. Chambers of less than 100 cubic feet shall have a circulating fan. All chambers must pass a pressure test whereby the time lapse is more than 22 seconds for an internal pressure of 50 mm. on a kerosene-filled open arm manometer to recede to 5 mm. pressure.

(2) *Methyl bromide fumigation of bulk cottonseed in stationary chambers*—(i) *Equipment.* The fumigation chamber shall be cylindrical in shape, with walls and top made of sheet steel. All joints or seams must be gastight. It shall have a foundation and base of concrete. The chamber shall have a false floor raised at least 12" above the concrete bottom perforated by ¼" holes 4 inches apart in each direction. The floor joists shall be staggered so that free circulation of air beneath the floor can be obtained. It will be permissible to install a screw conveyor beneath the floor, protected by an inverted V-shaped tunnel, to remove cottonseed from the chamber. All entrances to the chamber, except the exit conveyor channel, must be provided with covers that can be clamped in place against sponge rubber gaskets, or be sealed in some manner, to provide a gastight closure.

Each chamber must be provided with a circulatory system which can draw air from beneath the false floor and return it to the top of the chamber above the load line. This system can be contained entirely within the tank by boxing in the motor and blower on the floor near one wall, and running the return duct up the inside of the wall. If the blower and return duct are outside of the chamber, the blower housing and all ducts must be gastight. The blower intake shall be connected to two lateral ducts, one across the center of each half of the bottom of the chamber. These ducts shall have four or five openings spaced equidistant along their length, and adjusted so as to take in approximately equal portions of air at each opening. The duct may be buried in the concrete floor with only the risers opening above the level of the concrete, or it can be laid directly on the concrete surface.

The blower shall have sufficient capacity to establish air circulation through a full load of cottonseed within 10 minutes. (This fact will be determined by pressure readings above and below the load of cottonseed.) In experimental tests, a blower with a blade wheel 40" in diameter, run at 1800 r. p. m., established air circulation in 8 minutes in a 54,580 cu. ft. chamber through seed 40' deep. As near as can be determined, this blower had a rating of 6000 to 8000 c. f. m. at a static pressure of 10".

The return duct shall be arranged so that the discharge can be diverted to the open air in order that the fumigant can be evacuated at the end of the exposure period.

(ii) *Dosage.* The dosage of methyl bromide to be used in the case of all-metal cylindrical fumigation chambers shall be as follows:

Average seed temperature	Dosage rate (lb. per 1,000 cu. ft.)	Exposure period (hours)
60° F. or above	4	24
	6	12
Below 60° F	5	24
	7.5	12

The dosage shall be introduced as a spray into the return duct at some point beyond the blower.

The circulatory system shall be operated at the beginning for a period to be designated by the inspector in charge.

(3) *Methyl bromide fumigation of bulk cottonseed in railway cars or vans*—(i) *Equipment.* All-metal freight cars or all-metal trucking vans will be acceptable as fumigation chambers. The floor of the car or van may be of wood of tight construction. The doors must be single doors and not over 7 feet in width. Sisal-kraft paper shall be used to cover wooden floors of cars or vans. Doors and other apertures must be sealed in a manner and with materials as required by the inspector.

Each railway car or trucking van shall be prepared so that air can be withdrawn from beneath the seed and returned to the space above the load. This shall be provided by a dispensable duct system made of 4" downspout perforated at 2" intervals on three sides, laid on the car floor. A portable blower with connecting tubular duct shall be attached to the duct system in the car long enough to provide the required circulation. This blower shall have a capacity of not less than 625 CFM against 5" static pressure, and shall be of a design that can be made gastight. The intake side of the blower shall be connected with the duct outlet extended through a paper grain door (installed in the aperature of the regular door) by means of a 10' length of 6" spiral tubing. A 15' length of 8" spiral tube shall be connected to the exhaust side of blower to return the air to the space above the load.

(ii) *Dosage.* The dosage of methyl bromide to be used in the case of all-metal railway cars or all-metal trucking vans shall be as follows:

Average seed temperature	Dosage rate (lb. per 1,000 cu. ft.)	Exposure period (hours)
60° F. or above	7	24
Below 60° F	8	24

The dosage shall be introduced as a gas into the return duct at some point beyond the blower. The gas must be volatilized as it is introduced into the chamber in manner and method required by the inspector.

The railway car or trucking van shall be loaded in such manner as to leave a two-foot air space above the seed.

(b) *Cottonseed from heavily infested area.* Cottonseed located within heavily infested areas, as defined in § 301.52–2, which has been treated as provided in § 301.52–4 (c) (1) as a part of the continuous process of ginning and subsequently protected from contamination and in addition has been given, within the heavily infested area, any one of the following additional treatments in approved equipment under the supervision of an inspector and in a manner approved by him, may be certified for movement to any destination.

(1) *Additional heat treatment.* A second heat treatment shall be given with steam as the heating medium in an apparatus separate and apart from the gin or gins which applied the initial heat treatment. The mass temperature of the seed must be raised to at least 155° F. during an exposure period of 2 minutes. The exposure period is the length of time required for the seed to travel from point of entrance into the heater to the point where the temperature reading of the seed is taken beyond the exit of the heater. The heating apparatus must be so constructed as to apply an adequate amount of live steam to the seed promptly upon entrance into the apparatus, and radiated heat for the full length of the heating unit. The apparatus shall be constructed so as to assure a constant

and uniform flow of cottonseed through the machine when in operation and equipped with devices which will stir the seed so as to expose each seed to both the introduced steam and radiated heat during the entire exposure period.

(2) *Methyl bromide fumigation of bulk or sacked cottonseed.* As an alternative treatment, any type of methyl bromide fumigation authorized in subparagraphs (1), (2) or (3) of paragraph (a) of this section for certain counties in the lightly infested area may be employed as the additional treatment.

The Bureau of Entomology and Plant Quarantine has made tests which show that methyl bromide fumigation of cottonseed does not affect its germination or processing qualities. It has not, however, had an opportunity to test seed under all conditions or from all areas. Those who elect to use this method of treatment are, therefore, hereby notified that no liability shall be attached to the Department of Agriculture or any of its employees for damage to seed that might result from application of the treatment of cottonseed with methyl bromide.

(c) *Approval.* All containers, equipment and apparatus for treatments under these instructions shall be approved by the Bureau of Entomology and Plant Quarantine. Inspectors will approve only such containers, equipment and apparatus as are suitable and effective for the purpose. Any person contemplating the erection of equipment or the use of railway freight cars or trucking vans as fumigation chambers under these instructions should make application and submit plans of proposed structures for approval to the Bureau of Entomology and Plant Quarantine. After construction of fumigation chambers, the Bureau of Entomology and Plant Quarantine will require performance tests of the loaded chambers as shall be deemed necessary before final approval is granted. The use of all-metal railway cars or trucking vans as fumigation chambers is available to all shippers from the counties listed in paragraph (a) of this section, but utilization of this procedure will be governed by the trained and competent personnel available that can be assigned to the supervision of this type of fumigation. This provision definitely limits the number of shipping points that it will be possible to designate. Each individual railway car or trucking van must be approved by an inspector of the Bureau of Entomology and Plant Quarantine before loading with cottonseed to be fumigated. Certificates for movement of seed treated with methyl bromide will be refused if satisfactory fumigation has not been obtained in accordance with performance tests made of the loaded railway car, trucking van, or other approved fumigation chamber.

(Secs. 1, 3, 33 Stat. 1269, 1270, sec. 9, 37 Stat. 318; 7 U. S. C. 141, 143, 162. Interprets or applies sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 161)

These instructions shall become effective July 19, 1950, when they shall supersede B. E. P. Q. 558, effective June 11, 1948, as amended September 20, 1949, and February 16, 1950 (7 CFR 301.52–4a, as amended; 14 F. R. 5733, 15 F. R. 840).

These revised administrative instructions add the counties of Curry and Quay, New Mexico to the lightly infested area in which certain treatments may be applied as a means of securing certification for movement to any destination. Such treatments are not now authorized for use in these counties. The revision also authorizes a new method of fumigating bulk cottonseed in railway cars or trucking vans as a second treatment preliminary to certification for movement from the heavily infested area to any destination. The revision therefore relieves restrictions heretofore imposed. It is important that shippers be afforded this relief at the earliest possible date. Accordingly, pursuant to the provisions of section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found, upon good cause, that notice and public procedure on this amendment are impracticable and contrary to the public interest, and good cause is found for the issuance of the revision effective less than 30 days after its publication in the FEDERAL REGISTER.

Done at Washington, D. C., this 10th day of July 1950.

[SEAL] AVERY S. HOYT,
Chief, Bureau of Entomology and Plant Quarantine.

Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

Subchapter B—Sugar Requirements and Quotas

[Sugar Reg. 811, Rev. 1]

PART 811—SUGAR REQUIREMENTS: CONTINENTAL UNITED STATES

REQUIREMENTS FOR 1950

Basis and purpose. The revised determination set forth below is made pursuant to section 201 of the Sugar Act of 1948. The act requires that the Secretary shall revise the determination of sugar consumption requirements at such times during the calendar year as may be necessary. It now appears that an increase in the estimate of consumption requirements for the calendar year 1950 is necessary. The purpose of this revision is to make such estimate conform to the requirements indicated on the basis of the factors specified in section 201 of the act.

Since the determination of sugar consumption requirements is an important price factor, compliance with the notice and procedure requirements of the Administrative Procedure Act (60 Stat. 237, 5 U. S. C., 1001) is likely to result in excessive speculation and disorderly marketing of sugar. Moreover, in order effectively to carry out the purposes of the Sugar Act, it is necessary that the revision of the determination be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice, procedure, and effective date requirements of the Administrative Procedure Act is impracticable and contrary to the public interest, and the revision of the determination made herein shall be effective on the date of its publication in the FEDERAL REGISTER.

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948 (61 Stat. 922, 7 U. S. C., Supp. I, 1100) and the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1001) Sugar Regulation 811, the determination of the amount of sugar needed to meet the requirements of consumers in the continental United States for 1950 (14 F. R. 7751), is hereby revised to read as follows:

§ 811.2 *Consumption requirements, 1950.* The amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1950 is hereby determined to be 7,850,000 short tons, raw value.

Statement of bases and considerations. On December 22, 1949, it was announced that the quantity of sugar needed to meet requirements of consumers in the continental United States during the calendar year 1950 was 7,500,000 short tons, raw value.

Distribution of sugar during the first six months of 1950 exceeded distribution during the same period of 1949 by about 170,000 tons. Distribution for all of 1949 totalled 7,580,000 tons.

Authough this increase in distribution undoubtedly reflects some rebuilding of inventories of industrial users, wholesalers and others, it is apparent that demand for sugar is in excess of that contemplated when the initial consumption estimate was announced last December. The additional tons is provided to meet this increased demand. The revised total of 7,850,000 tons should be adequate to provide all buyers with needed supplies at fair prices.

Except to the extent modified herein, the Statement of Bases and Considerations contained in the determination dated December 22, 1949, is unchanged.

(Sec. 403, 61 Stat. 932; 7 U. S. C., Sup., 1153. Interprets or applies sec. 201, 61 Stat. 923; 7 U. S. C., Sup., 1111)

Done at Washington, D. C., this 13th day of July 1950. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CHARLES F. BRANNAN,
Secretary.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Cauliflower Order 1—1950]

PART 910—FRESH PEAS AND CAULIFLOWER GROWN IN ALAMOSA, RIO GRANDE, CONEJOS, COSTILLA AND SAGUACHE COUNTIES IN COLORADO

REGULATION BY GRADES AND SIZES

§ 910.312 *Cauliflower Order 1—1950*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 10, as amended (7 CFR Part 910), regulating the handling of fresh peas and cauliflower grown in the Counties of Alamosa, Rio Grande, Conejos, Costilla, and Saguache in the State of Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Administrative Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the grade and size limitations, as hereinafter provided, with respect to shipments of cauliflower, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when it must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. A reasonable determination as to the supply of, and the demand for, such cauliflower must await the development of the crop; official estimates of the Department of Agriculture with respect to acreage and probable production were not available prior to July 11, 1950; the supply and quality of cauliflower are subject to change by weather conditions; shipments of the current crop of cauliflower are expected to begin on or very soon after July 20, 1950, and this section should be applicable to all shipments of such cauliflower in order to effectuate the declared policy of the act and thereby tend to maximize the benefits derivable therefrom; and compliance with the provisions of the section will not require any preparation therefor by handlers which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., m. s. t., July 20, 1950, and ending at 12:01 a. m., m. s. t., October 16, 1950, no handler shall handle any cauliflower:

(i) That does not grade U. S. No. 1;

(ii) That is of a size smaller than four inches in diameter or larger than seven inches in diameter: *Provided*, That not more than five percent, by count of the heads comprising the lot, may be of a size smaller than four inches in diameter, and not more than 15 percent, by count of the heads comprising such lot, may be of a size larger than seven inches in diameter; or

(iii) That is not of fairly uniform size.

(2) During the period beginning at 12:01 a. m., m. s. t., July 20, 1950, and ending 12:01 a. m., m. s. t., August 6, 1950, no handler shall handle any cauliflower that does not meet the requirements of subparagraph (1) of this paragraph and the following additional requirements:

(i) Any cauliflower which, when well trimmed, packs fairly tight in a crate at least 11 but not more than 14 heads: *Provided*, That, if such cauliflower is without jacket leaves, not less than 24 nor more than 32 heads will pack such crate fairly tight.

(3) During the period beginning at 12:01 a. m., m. s. t., August 6, 1950, and ending at 12:01 a. m., m. s. t., October 16, 1950, no handler shall handle any cauliflower that does not meet the requirements of subparagraph (1) of this paragraph and the following additional requirements:

(i) Any cauliflower which, when well trimmed, packs fairly tight in a crate at least 11 but not more than 12 heads: *Provided*, That, if such cauliflower is without jacket leaves, not less than 24 nor more than 32 heads will pack fairly tight in a crate.

(4) As used in this section:

(i) The term "fairly uniform" means that the diameter of the largest head is not more than two and one-half inches greater than that of the smallest head;

(ii) The term "fairly tight" means that the cauliflower heads packed in the crate have no more than a slight movement in such crate, but not so much movement that there will be any injury to the heads under ordinary handling conditions, and will not be so loose as to permit the addition of another head;

(iii) The term "crate" means a crate having inside dimensions of 8½ inches by 17½ inches by 21⅝ inches;

(iv) The terms "U. S. No. 1," "full jacket leaves," "diameter," "well trimmed," "lot," and "size" shall each have the same meaning as when used in the United States Standards for cauliflower (7 CFR 51.171); and

(v) The terms "cauliflower," "handler," and "handle" shall each have the same meaning as when used in the amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

PART 927—MILK IN NEW YORK METROPOLITAN MARKETING AREA

APPROVAL OF AMENDMENT

Pursuant to the provisions of § 927.4 (b) of Order No. 27, as amended (7 CFR, 927.0 et seq.), regulating the handling of milk in the New York metropolitan milk marketing area, the tentative amendment issued on July 5, 1950, by the market administrator of said Order No. 27, as amended, to the rules and regulations heretofore issued (7 CFR, 927.101 et seq.), pursuant to the provisions of said Order No. 27, as amended, is hereby approved and shall be effective on and after the first day of August 1950.

Order No. 27, as amended, requires that such rules and regulations, and amendments thereto, become effective on the first day of the month following their approval by the Secretary of Agriculture. The changes effected by this amendment to the rules and regulations to some extent tend to relieve restriction and otherwise do not require substantial or extensive preparation by handlers prior to the effective date of the amendment. Furthermore, the said tentative amendment, as issued by the market administrator on July 5, 1950, was sent, on or about that date, to all handlers operating pool plants. In these circumstances, the time intervening between the date of approval of the tentative amendment and its effective date affords handlers a reasonable time to prepare for its effective date. It is, therefore, found and determined that August 1, 1950, herein fixed as the effective date for the said amendment, is reasonable and proper in the circumstances and that to defer the effective date of the said amendment to a date 30 days or more after publication in the FEDERAL REGISTER would be impracticable, unnecessary, and contrary to the public interest.

(48 Stat. 31, as amended; 670, 675; 7 U. S. C. 601 et seq.; 7 CFR, 927.1 et seq., 14 F. R. 1466, 3443)

Done at Washington, D. C., on this 14th day of July 1950.

Acting Secretary of Agriculture.

[Reg. 6, Amdt. 1]

PART 957—IRISH POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND IN MALHEUR COUNTY, OREGON

LIMITATION OF SHIPMENTS

Findings. (1) Pursuant to Marketing Agreement No. 98 and Order No. 57, as amended (15 F. R. 311), regulating the handling of Irish potatoes grown in certain designated counties in Idaho and Malheur County, Oregon, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051), and upon the basis of the recommendation and information submitted by the Idaho-Eastern Oregon Potato Committee, established under said marketing agreement and order, as amended, and upon other available information, it is hereby found that the termination of the skinning requirement with respect to all varieties of potatoes, except the Russet Burbank variety, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule making procedure (5 U. S. C. 1001 et seq.) because the time intervening between the date

when information upon which this amendment is based and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of Irish potatoes grown in certain designated counties in Idaho and Malheur County, Oregon.

Order, as amended. The provisions in paragraph (b) (2) of § 957.306 (Regulation No. 6, 15 F. R. 4216) are hereby amended to read as follows:

(2) During the period ending 12:01 a. m., m. s. t., November 1, 1950, no handler shall ship Russet Burbank potatoes which do not comply with the aforesaid grade and size requirements and which are more than "moderately skinned", as such term is defined in the United States Standards for Potatoes (14 F. R. 1955, 2161), which means that not more than 10 percent of the potatoes in any lot have more than one-half of the skin missing or feathered, and no handler shall ship round red varieties if more than 20 percent of the potatoes in the lot have more than one-half of the skin missing or feathered: *Provided*, That one lot of each variety of not to exceed 200 hundredweight of such potatoes may be handled without regard to the aforesaid skinning requirement if the handler thereof reports, prior to such handling, the name and address of the producer of such lot, and such lot is handled as an identifiable entity.

PART 986—HANDLING OF HOPS GROWN IN OREGON, CALIFORNIA, WASHINGTON, AND IDAHO, AND OF HOP PRODUCTS PRODUCED THEREFROM IN THESE STATES

DETERMINATION RELATIVE TO INCREASE IN BUDGET OF EXPENSES OF HOP CONTROL BOARD FOR PERIOD JULY 2, 1949, TO JULY 31, 1950, INCLUSIVE

Notice was published in the June 27, 1950, issue of the FEDERAL REGISTER (15 F. R. 4117) that consideration was being given to the approval of an increase in the budget of expenses for the Hop Control Board established pursuant to Marketing Agreement No. 107 and Order No. 86 (7 CFR, Part 986; 14 F. R. 3660) regulating the handling of hops grown in Oregon, California, Washington, and Idaho, and of hop products produced therefrom in these States, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

After consideration of all relevant matters set forth in the aforesaid notice, including the proposal which was submitted by the Hop Control Board, it is hereby found and determined that § 986.300 (b) should be amended to read as follows:

(b) *Budget of expenses for the period July 2, 1949, to July 31, 1950, inclusive.* Expenses in the amount of $118,675.95 are reasonable and likely to be incurred by the Hop Control Board (including, but not limited to, the Growers Allocation Committee and the several Growers Advisory Committees) established pursuant to the provisions of the marketing agreement and order, for its maintenance and functioning, during the period July 2, 1949, through July 31, 1950.

It is hereby further found that it is necessary to make this increase effective not later than the date of the publication of this document in the FEDERAL REGISTER. The end of said budget period is less than 30 days distant and all expenses will need to be incurred before that time. Such expenses will also need to be paid promptly. It has not been practicable to determine heretofore the exact amount of increase which would be needed. No advance preparation for this regulation is required. Therefore, good cause exists for not delaying the effective date of this regulation beyond the date of its publication in the FEDERAL REGISTER (see section 4 (c) of the Administrative Procedure Act; 5 U. S. C. 1001 et seq.).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. Sup., 608c)

Done at Washington, D. C., this 14th day of July 1950, to be effective on and after 12:01 a. m., P. d. s. t., on the date of the publication of this document in the FEDERAL REGISTER.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

PART 989—HANDLING OF RAISINS PRODUCED FROM RAISIN VARIETY GRAPES GROWN IN CALIFORNIA

STORAGE; RESERVE AND SURPLUS TONNAGE

Notice of proposed rule making was published in the June 21, 1950, issue of the FEDERAL REGISTER (15 F. R. 3986) regarding the amendment of the administrative rules and regulations (15 F. R. 108) for operations under Marketing Agreement No. 109 and Order No. 89 (14 F. R. 5136) regulating the handling of raisins produced from raisin variety grapes grown in California (hereinafter referred to as the "order") so as to prescribe the percentage of shrinkage which handlers would be allowed on reserve and surplus tonnage raisins stored by them for the Raisin Administrative Committee (hereinafter referred to as the "committee"). This percentage was prescribed pursuant to the provisions of § 989.4 (e) (2) and (8) of said order. Such proposed rule had been submitted to the Secretary of Agriculture for approval, as required by the provisions of the said order. This regulatory program is effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.).

In said notice, opportunity was afforded interested persons to submit to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, South Building, Washington, D. C., written data, views, or arguments for consideration prior to the final approval by the Secretary of the proposed amendments of the administrative rules and regulations. No such written data, views, or arguments were submitted, and the time for filing them has now expired.

After further consideration of all relevant data it is concluded that the proposed rule with respect to the percentage of shrinkage as set forth in the aforesaid notice should be approved. *Therefore, it is hereby ordered*, That a new paragraph, (e), be added at the end of § 989.104 of the aforementioned administrative rules and regulations (15 F. R. 108) to read as follows:

(e) *Storage.* Each handler shall be entitled to an allowance of one percent for normal and natural shrinkage in weight, while in storage, of reserve or surplus tonnage raisins acquired by him during any crop year prior to May 1 and delivered to the committee, or to any person designated by it, on or after May 1 of that crop year, and to no allowance for such shrinkage as to reserve or surplus tonnage raisins acquired during any crop year after May 1, or acquired and delivered during any crop year prior to May 1.

It is hereby further found that it is necessary to make effective not later than the date of publication of this document in the FEDERAL REGISTER this percentage of shrinkage which handlers will be allowed on reserve and surplus tonnage raisins stored by them for the committee in that: this percentage is applicable, by the provisions of the said order, to all reserve and surplus tonnage raisins acquired and stored by handlers prior to May 1 and delivered to the committee after May 1 of any crop year; substantial quantities of reserve and surplus tonnage raisins falling within this category have already been delivered to the committee, or to persons designated by it; and it is essential that the determination regarding the percentage of normal shrinkage which handlers will be allowed in this connection be made as soon as is practicable so that handlers' accounts may be adjusted for such shrinkage promptly, particularly since this crop year will expire on August 14, 1950. No advance preparation for this regulation is required. Therefore, good cause exists for not delaying the effective date of this regulation beyond the date of its publication in the FEDERAL REGISTER (see section 4 (c) of the Administrative Procedure Act; 5 U. S. C. 1001 et seq.).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Approved at Washington, D. C., this 14th day of July 1950, to become effective at 12:01 a. m., P. d. s. t., on the date of the publication of this document in the FEDERAL REGISTER.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

LAWS OF MORE COMMON APPLICATION PERTAINING TO THE BOTTLING OF TAX-PAID DISTILLED SPIRITS [1]

SEC. 161, R. S. 5 U. S. C. 22 DEPARTMENT REGULATIONS. The head of each department is authorized to prescribe regulations, not inconsistent with law, for the government of his department, the conduct of its officers and clerks, the distribution and performance of its business, and the custody, use, and preservation of the records, papers and property appertaining to it.

26 U. S. C. 2801 RECTIFIED SPIRITS.

* * * * * *

(b) *Proof and volume.* When the process of rectification is completed and the taxes prescribed by section 2800 (a) (5) have been paid, it shall be unlawful for the rectifier or other dealer to reduce in proof or increase in volume such spirits or wine by the addition of water or other substance; nothing herein contained shall, however, prevent a rectifier from using again in the process of rectification spirits already rectified and upon which the taxes have theretofore been paid.

* * * * * *

26 U. S. C. 2803 STAMPS FOR CONTAINERS OF DISTILLED SPIRITS.

(a) *Requirement.* No person shall transport, possess, buy, sell, or transfer any distilled spirits, unless the immediate container thereof has affixed thereto a stamp denoting the quantity of distilled spirits contained therein and evidencing payment of all internal-revenue taxes imposed on such spirits. The provisions of this section shall not apply to:

(1) Distilled spirits placed in a container for immediate consumption on the premises or for preparation for such consumption;

(2) Distilled spirits in bond or in customs custody;

(3) Distilled spirits in immediate containers required to be stamped under existing law;

(4) Distilled spirits in actual process of rectification, blending, or bottling, or in actual use in processes of manufacture;

(5) Distilled spirits on which no internal-revenue tax is required to be paid;

(6) Distilled spirits not intended for sale or for use in the manufacture or production of any article intended for sale; or

(7) Any regularly established common carrier receiving, transporting, delivering, or holding for transportation or delivery distilled spirits in the ordinary course of its business as a common carrier.

(b) *Purchase and supply.* Any person placing or intending to place any distilled spirits upon which all internal-revenue taxes have been paid into any container upon which a stamp is required by this section, or withdrawing or intending to withdraw any imported spirits in such containers from customs custody, shall be entitled to purchase sufficient stamps for stamping such containers. Such stamps shall be issued by the Commissioner to each Collector, upon his requisition, in such numbers as may be necessary in his district, and shall be sold by the Collectors to persons entitled thereto upon application therefor and compliance with regulations under this section, at a price of 1 cent for each stamp, except that in the case of stamps for containers of less than one-half pint the price shall be one quarter of 1 cent for each stamp. When in his judgment there is no danger to the revenue, and upon the giving of such bonds or other security as he may deem necessary, the Commissioner may authorize the sale of such stamps to importers for stamping containers in the country from which imported.

(c) *Unused stamps; exchange, refund, etc.* The Commissioner of Internal Revenue, under regulations prescribed by him and approved by the Secretary of the Treasury, may redeem or make allowance for any unused stamps issued under section 203 of the Liquor Taxing Act of 1934 or subsection (b) of this section by exchanging them for other stamps of the same kind or by refunding moneys received therefor: *Provided,* That stamps may be exchanged or the value thereof refunded only in quantities of the value of $5 or more: *And provided further,* That no claim for the exchange of strip stamps or refund therefor shall be allowed unless presented within two years after the date on which such stamps were lawfully issued. There are hereby authorized to be appropriated annually, out of any money in the Treasury not otherwise appropriated, such sums as may be necessary to carry out this provision.

(d) *Regulations for issuing, affixing, and canceling stamps.* The Commissioner, with the approval of the Secretary, shall prescribe (a) regulations with respect to the time and manner of applying for, issuing, affixing, and destroying stamps required by this section, the form and denominations of such stamps, proof that applicants are entitled to such stamps, and the method of accounting for receipts from the sale of such stamps, and (b) such other regulations as he shall deem necessary for the enforcement of this section.

(e) *Destruction of stamps.* Every person emptying any container stamped under the provisions of this section shall at the time of emptying such container destroy the stamp thereon.

(f) *Forfeiture of spirits.* All distilled spirits found in any container required to bear a stamp by this section, which container is not stamped in compliance with this section and regulations issued thereunder, shall be forfeited to the United States.

(g) *Penalties.* Any person who violates any provision of this section, or who, with intent to defraud, falsely makes, forges, alters, or counterfeits any stamps made or used under this section, or who uses, sells, or has in his possession any such forged, altered, or counterfeited stamp, or any plate or die used or which may be used in the manufacture thereof, or any stamp required to be destroyed by this section, or who makes, uses, sells, or has in his possession any paper in imitation of the paper used in the manufacture of any such stamp, or who reuses any stamp required to be destroyed by this section, or who places any distilled spirits in any bottle which has been filled and stamped under this section without destroying the stamp previously affixed to such bottle, or who affixes any stamp issued under this section to any container of distilled spirits on which any tax due is unpaid, or who makes any false statement in any application for stamps under this section, or who has in his possession any such stamps obtained by him otherwise than as provided in subsection (b), shall on conviction be punished by a fine not exceeding $1,000, or by imprisonment at hard labor not exceeding five years, or by both. Any officer authorized to enforce any provisions of law relating to internal revenue stamps is authorized to enforce the provisions of this section and the provisions of section 2909 relating to the bottling of distilled spirits in bond.

(h) *Transfer of duties.* For transfer of duties and powers of the Commissioner and his agents, see section 3170.

16 U. S. C. 2804 DETENTION OF CASKS OR PACKAGES ON SUSPICION.

(a) *Power of revenue officer.* It shall be lawful for any internal revenue officer to detain any cask or package containing, or supposed to contain, distilled spirits, when he has reason to believe that the tax imposed by law upon the same has not been paid, or that the same is being removed in violation of law; and every such cask or package may be held by him at a safe place until it shall be determined whether the property so detained is liable by law to be proceeded against for forfeiture; but such summary detention shall not continue in any case longer than forty-eight hours without process of law or intervention of the officer to whom such detention is to be reported.

(b) *Transfer of duties.* For transfer of powers and duties of Commissioner and his agents, see section 3170.

26 U. S. C. 2806 PENALTIES AND FORFEITURES.

* * * * * *

(d) *Forfeiture of distilled spirits in unstamped casks or packages.* All distilled spirits found in any cask or package containing five gallons or more, without having thereon each mark and stamp required therefor by law, shall be forfeited to the United States.

(e) *Evasion of tax, penalty.* Whenever any person evades, or attempts to evade, the payment of the tax on any distilled spirits, in any manner whatever, he shall forfeit and pay double the amount of the tax so evaded or attempted to be evaded.

* * * * * *

26 U. S. C. 2808 INSTRUMENTS TO PREVENT AND DETECT FRAUD.

(a) *Power of the Commissioner.* For the prevention and detection of frauds by distillers of spirits, the Commissioner may prescribe for use such hydrometers, saccharometers, weighing and gauging instruments, or other means for ascertaining the quantity, gravity, and producing capacity of any mash, wort, or beer used, or to be used, in the production of distilled spirits, and the strength and quantity of spirits subject to tax, as he may deem necessary; and he may prescribe rules and regulations to secure a uniform and correct system of inspection, weighing, marking, and gauging of spirits.

26 U. S. C. 2809 DEFINITIONS.

* * * * * *

(c) *Proof spirits.* Proof spirits shall be held to be that alcoholic liquor which contains one-half its volume of alcohol of a specific gravity of seven thousand nine hundred and thirty-nine ten-thousandths (.7939) at sixty degrees Fahrenheit.

* * * * * *

26 U. S. C. 2810 REGISTRY OF STILLS.

(a) *Requirement.* Every person having in his possession or custody, or under his control, any still or distilling apparatus set up, shall register the same with the collector of the district in which it is, by subscribing and filing with him duplicate statements, in writing, setting forth the particular place where such still or distilling apparatus is set up, the kind of still and its cubic contents, the owner thereof, his place of residence, and the purpose for which said still or distilling apparatus has been or is intended to be used; one of which statements shall be retained and preserved by the collector, and the other transmitted by him to the Commissioner. Stills and distilling apparatus shall be registered immediately upon their being set up.

Every still or distilling apparatus not so registered, together with all personal property in the possession or custody, or under the control of such person, and found in the building or in any yard or inclosure connected with the building in which the same may be set up, shall be forfeited.

And every person having in his possession or custody, or under his control, any still or distilling apparatus set up which is not so registered, shall pay a penalty of $500 and shall be fined not less than $100, nor more than $1,000, and imprisoned for not less than one month, nor more than two years.

Stills and distilling apparatus set up at refineries for the refining of crude petroleum or the production of petroleum products and not used in the manufacture of distilled spirits are not required to be registered under this section.

(b) *Transfer of duties.* For transfer of powers and duties of Commissioner and his agents, see section 3170.

26 U. S. C. 2829 INSTALLATION OF METERS, TANKS, AND OTHER APPARATUS.

(a) *Power of the Commissioner.* The Commissioner, with the approval of the Secretary, is authorized to require at distilleries, breweries, rectifying houses, and wherever else in his judgment such action may be deemed advisable, the installation of meters, tanks, pipes, or any other apparatus for the purpose of protecting the revenue, and such meters, tanks, and pipes and all necessary labor incident thereto shall be at the expense of the person on whose premises the installation is required. Any such person refusing or neglecting to install such apparatus when so required by the Commissioner shall not be permitted to conduct business on such premises.

26 U. S. C. 2857 BOOKS OF RECTIFIERS AND WHOLESALE DEALERS.

(a) *Requirements.* Every rectifier and every wholesale liquor dealer who sells, or offers for sale, distilled spirits in quantities of five wine-gallons or more to the same person at the same time shall keep daily, at his place of business covered by his special tax stamp, a record of distilled spirits received and disposed of by him, and shall render under oath correct transcripts and summaries of such records: *Provided,* That the Commissioner may in his discretion require such record to be kept at the place where the spirits are actually received and sent out. The records shall be kept and the transcripts shall be rendered in such form, and under such rules and regulations as the Commissioner, with the approval of the Secretary, may prescribe.

The records required to be kept under the provisions of this section and regulations issued pursuant thereto, shall be preserved for a period of four years, and during such period shall be available during business hours for inspection and the taking of abstracts therefrom by the Commissioner or any internal revenue officer.

Every rectifier and wholesale liquor dealer who refuses or neglects to keep such records in the form prescribed by the Commissioner, with the approval of the Secretary, or to make entries therein, or cancels, alters, or obliterates any entry therein (except for the purpose of correcting errors) or destroys any part of such records, or any entry therein, or makes any false entry therein, or hinders or obstructs any internal revenue officer from inspecting such records or taking any abstracts therefrom, or neglects or refuses to preserve or produce such records as required by this chapter or by regulations issued pursuant thereto, shall pay a penalty of $100 and, on conviction, shall be fined not less than $100 nor more than $5,000, and be imprisoned not less than three months nor more than three years.

Every rectifier and wholesale liquor dealer who refuses or neglects to render transcripts or summaries in the form required by the Commissioner, with the approval of the Secretary, shall, upon conviction, be fined not more than $100 for each such neglect or refusal.

(b) *Transfer of duties.* For transfer of powers and duties of Commissioner and his agents, see section 3170.

26 U. S. C. 2853 EXEMPTION OF STATES FROM PROVISIONS OF SECTION 2857.

The provisions of section 2857 shall not apply to States and Commonwealths and liquor stores operated by such States and Commonwealths that maintain and make available to inspection by internal-revenue officers such records as will enable such officers to readily trace all distilled spirits received and disposed of by them: *Provided,* That such States and Commonwealths, and the liquor stores operated by them, shall, upon the request of the Commissioner, furnish to the Commissioner such transcripts, summaries, and copies of their records as he shall require.

26 U. S. C. 2866 EFFACEMENT OF STAMPS AND BRANDS ON EMPTIED PACKAGES.

Every person who empties or draws off, or causes to be emptied or drawn off, any distilled spirits from a cask or package bearing any mark, brand, or stamp, required by law, shall at the time of emptying such cask or package, efface and obliterate said mark, stamp, or brand. Every such cask or package from which said mark, brand, or stamp is not effaced and obliterated as herein required, shall be forfeited to the United States, and may be seized by any officer of internal revenue, wherever found. And every railroad company or other transportation company, or person who receives or transports, or has in possession with intent to transport, or with intent to cause or procure to be transported, any such empty cask or package, or any part thereof, having thereon any brand, mark, or stamp, required by law to be placed on any cask or package containing distilled spirits, shall forfeit $300 for each such cask or package, or any part thereof, so received or transported, or had in possession with the intent aforesaid; and every boat, railroad car, cart, dray, wagon, or other vehicle, and all horses and other animals used in carrying or transporting the same shall be forfeited to the United States. Every person who fails to efface and obliterate said mark, stamp, or brand, at the time of emptying such cask or package, or who receives any such cask or package, or any part thereof, with the intent aforesaid, or who transports the same, or knowingly aids or assists therein, or who removes any stamp provided by law from any cask or package containing, or which had contained, distilled spirits, without defacing and destroying the same at the time of such removal, or who aids or assists therein, or who has in his possession any such stamp so removed as aforesaid, or has in his possession any canceled stamp, or any

[1] The sections of the United States Code are numbered identically with corresponding sections of the Internal Revenue Code.

stamp which has been used, or which purports to have been used, upon any cask or package of distilled spirits, shall be deemed guilty of a felony, and shall be fined not less than $500 nor more than $10,000, and imprisoned not less than one year nor more than five years.

26 U. S. C. 2870 PROHIBITED HOURS FOR REMOVAL OF SPIRITS.

No person shall remove any distilled spirits at any other time than after sun-rising and before sun-setting in any cask or package containing more than ten gallons from any premises or building in which the same may have been distilled, redistilled, rectified, compounded, manufactured, or stored; and every person who violates this provision shall be liable to a penalty of $100 for each cask, barrel, or package of spirits so removed; and said spirits, together with any vessel containing the same, and any horse, cart, boat, or other conveyance used in the removal thereof, shall be forfeited to the United States.

26 U. S. C. 2871 REGULATION OF TRAFFIC IN CONTAINERS OF DISTILLED SPIRITS.

Whenever in his judgment such action is necessary to protect the revenue, the Secretary is authorized, by the regulations prescribed by him, and permits issued thereunder if required by him (1) to regulate the size, branding, marking, sale, resale, possession, use, and re-use of containers (of a capacity of less than five wine-gallons) designed or intended for use for the sale at retail of distilled spirits (within the meaning of such term as it is used in section 2803) for other than industrial use, and (2) to require, of persons manufacturing, dealing in, or using any such containers, the submission to such inspection, the keeping of such records, and the filing of such reports as may be deemed by him reasonably necessary in connection therewith. Whoever willfully violates the provisions of any regulation prescribed, or the terms or conditions of any permit issued, pursuant to the authorization contained in this section, and any officer, director, or agent of any corporation who knowingly participates in such violation, shall, upon conviction, be fined not more than $1,000 or be imprisoned for not more than two years, or both; and, notwithstanding any criminal conviction, the containers involved in such violation shall be forfeited to the United States, and may be seized and condemned by like proceedings as those provided by law for forfeitures, seizures, and condemnations for violations of the internal-revenue laws, and any such containers so seized and condemned shall be destroyed and not sold. Any requirements imposed under this section shall be in addition to any other requirements imposed by, or pursuant to, law, and shall apply as well to persons not liable for tax under the internal-revenue laws as to persons so liable.

26 U. S. C. 2883 TRANSFER OF SPIRITS AT REGISTERED DISTILLERIES.

(a) *Requirements.* Subject to the provisions of existing law, spirits of one hundred and sixty degrees of proof or more produced at registered distilleries, including registered fruit distilleries (such registered distilleries and registered fruit distilleries being referred to hereafter as "distillery" or "distilleries"), may be transferred by means of pipe lines from receiving cisterns in the distillery direct to storage tanks in the internal revenue bonded warehouse located on the bonded premises where produced or located contiguous thereto, and be warehoused in such storage tanks, or they may be withdrawn from the receiving cisterns, without, or after reduction in proof, into approved containers and transferred to any internal revenue bonded warehouse for storage therein, or they may be tax-paid in such approved containers in the cistern rooms of distilleries without being entered into an internal revenue bonded warehouse. Such spirits may be drawn into approved containers from storage tanks in an internal revenue bonded warehouse. Spirits of one hundred and sixty degrees of proof, or more, may be transferred in bond in tank cars from cistern rooms of distilleries or from storage tanks in an internal revenue bonded warehouse and be deposited in storage tanks in any internal revenue bonded warehouse. Such spirits in tanks in internal revenue bonded warehouses distilled at or above one hundred and ninety degrees of proof may be reduced to not less than one hundred and eleven degrees prior to being drawn into packages. Such spirits, upon tax payment, may be withdrawn in approved containers, including pipe lines to contiguous premises, for use for beverage purposes only. Except as provided in subsection (c) hereof and section 2916, such spirits may not be withdrawn for denaturation.

• • • • •

(d) *Transfer of gin.* Gin of any proof may be transferred in bond by means of pipe lines from receiving cisterns in distilleries direct to storage tanks in the internal revenue bonded warehouse located on the bonded premises where produced, or located contiguous thereto, and be warehoused in such storage tanks. Such gin may, upon tax payment, be transferred by pipe line to a contiguous tax-paid bottling house or rectifying plant.

• • • • •

(f) *Regulations.* The Commissioner, with the approval of the Secretary, is hereby empowered to prescribe all necessary regulations relating to the drawing of, transferring, gagging, storing, redistillation, and transportation of the spirits; the records to be kept and returns to be made; the size and kind of containers to be used; the marking, branding, numbering, and stamping of such containers; and the kind of bond and the penal sum thereof.

(g) *Effect on other laws.* Nothing contained in this section shall be construed as restricting or limiting the provisions of other sections of the internal-revenue laws relating to internal revenue bonded warehouses, distilleries, and bonded wineries.

(h) *Transfer of duties.* For transfer of powers and duties of Commissioner and his agents, see section 3170.

26 U. S. C. 2912 FORFEITURE OF SPIRITS UNLAWFULLY REMOVED FROM DISTILLERY OR WAREHOUSE.

All distilled spirits found elsewhere than in a distillery or internal revenue bonded warehouse, not having been removed therefrom according to law, shall be forfeited to the United States.

26 U. S. C. 3170 TRANSFER AND DELEGATION OF POWERS.

The Secretary is authorized to confer and impose upon the Commissioner and any of his assistants, agents, or employees, and upon any other officer, employee, or agent of the Treasury Department, any of the rights, privileges, powers, duties, and protection conferred or imposed upon the Secretary, or any officer or employee of the Treasury Department, by any law now or hereafter in force relating to the taxation, exportation, transportation, manufacture, possession, or use of, or traffic in, distilled spirits, wine, fermented liquors, or denatured alcohol.

26 U. S. C. 3173 PENALTIES AND FORFEITURES.

(a) *Removal or transportation of liquors or wines under improper brands.* Whenever any person ships, transports, or removes any spirituous or fermented liquors or wines, under any other than the proper name or brand known to the trade as designating the kind and quality of the contents of the casks or packages containing the same, or causes such act to be done, he shall forfeit said liquors or wines, and casks or packages, and be subject to pay a fine of $500.

• • • • •

26 U. S. C. 3176 RULES AND REGULATIONS.

(a) *Power of Commissioner.* The Commissioner, with the approval of the Secretary, shall prescribe and publish all needful rules and regulations for the enforcement of this chapter.

(b) *Transfer of duties.* For transfer of powers and duties of Commissioner and his agent, see section 3170.

26 U. S. C. 3179 EXEMPTION AND DRAWBACK IN CASE OF EXPORTATION

• • • • •

(b) *Drawback.* Upon the exportation of distilled spirits and wines manufactured or produced in the United States on which an internal-revenue tax has been paid, and which are contained in any cask or package or in bottles packed in cases or other containers, there shall be allowed, under regulations to be prescribed by the Commissioner, with the approval of the Secretary, a drawback equal in amount to the tax found to have been paid on such distilled spirits and wines: *Provided*, That such distilled spirits and wines have been packaged or bottled especially for export, under regulations prescribed by the Commissioner, with the approval of the Secretary. The Commissioner, with the approval of the Secretary, is authorized to prescribe regulations governing the determination and payment of drawback of internal-revenue tax on domestic distilled spirits and wines, including the requirement of such notices, bonds, bills of lading, and other evidence of payment of tax and exportation as shall be deemed necessary.

26 U. S. C. 3250 TAX.

(a) *Wholesale dealers in liquors*—(1) *In general.* Wholesale dealers in liquors shall pay a special tax of $110.

• • • • •

(3) *Retailers selling at wholesale.* Except as provided in section 3254 (c) (2), a qualified retail dealer in liquors may not sell distilled spirits, wines, or malt liquors in quantities of five wine-gallons or more to the same person at the same time without incurring liability to special tax as a wholesale dealer in liquors.

• • • • •

(b) *Retail dealers in liquors*—(1) *In general.* Except as provided in paragraph (3) of subsection (e), retail dealers in liquors shall pay a special tax of $27.50.

• • • • •

(4) *Wholesalers selling at retail.* A qualified wholesale dealer in liquors may not sell distilled spirits, wines, or malt liquors in quantities of less than five wine gallons without incurring liability to special tax as a retail dealer in liquors.

• • • • •

26 U. S. C. 3254 DEFINITIONS.

• • • • •

(b) *Wholesale dealer in liquors.* Except as otherwise provided, every person who sells, or offers for sale, foreign or domestic distilled spirits, wines, or malt liquors in quantities of five wine-gallons or more to the same person at the same time, shall be regarded as a wholesale dealer in liquors: *Provided*, That the Commissioner may, by regulations, with the approval of the Secretary, provide for the issuance of a stamp denoting payment of such special tax as a "wholesale dealer in wines" or a "wholesale dealer in wines and malt liquors" if, as the case may be, wines only, or wines and malt liquors only, are sold by a wholesale dealer in liquors.

(c) *Retail dealer in liquors.* Except as otherwise provided, (1) every person who sells, or offers for sale, foreign or domestic distilled spirits, wines, or malt liquors in less quantities than five wine-gallons to the same person at the same time, shall be regarded as a retail dealer in liquors: *Provided*, That the Commissioner may, by regulations, with the approval of the Secretary, provide for the issuance of a stamp denoting payment of such special tax as a "retail dealer in wines" or a "retail dealer in wines and malt liquors" if, as the case may be, wines only, or wines and malt liquors only, are sold by a retail dealer in liquors.

• • • • •

26 U. S. C. 3270 REGISTRATION.

(a) *Requirements.* Every person engaged in any trade or business on which a special tax is imposed by law shall register with the collector of the district his name or style, place of residence, trade or business, and the place where such trade or business is to be carried on. In case of a firm or company, the names of the several persons constituting the same, and the places of residence, shall be so registered.

(b) *Cross references.* For registration in case of narcotics, marihuana, and firearms, see sections 3221, 3231, and 3261, respectively. For transfer of powers and duties of Commissioner and his agents in case of liquor see section 3170.

26 U. S. C. 3271 PAYMENT OF TAX.

(a) *Condition precedent to doing business.* No person shall be engaged in or carry on any trade or business mentioned in this chapter until he has paid a special tax therefor in the manner provided in this chapter.

(b) *Due date.* All special taxes shall become due on the 1st day of July in each year, or on commencing any trade or business on which such tax is imposed. In the former case the tax shall be reckoned for one year, and in the latter case it shall be reckoned proportionately, from the 1st day of the month in which the liability to a special tax commenced, to and including the 30th day of June following.

(c) *How paid*—(1) *Stamp.* All special taxes imposed by law, including the tax on stills or worms, shall be paid by stamps denoting the tax.

(2) *Assessment.* For authority of Commissioner to make assessments where the special taxes have not been duly paid by stamp, at the time and in the manner provided by law, see section 3640.

26 U. S. C. 3272 RETURNS.

(a) *Time for filing.* It shall be the duty of the special taxpayers to render their returns with remittances to the collector at such times within the calendar month in which the special tax liability commenced as shall enable him to receive such returns, duly signed and verified, together with the remittances, not later than the last day of the month, except in cases of sickness or absence, as provided for in section 3634.

(b) *Transfer of duties.* For transfer of powers and duties of Commissioner and his agents in case of narcotics and liquor, see subchapter D of chapter 23 and section 3170.

(c) *Penalties.* For penalties imposed for failure to file returns or for making false or fraudulent returns, see section 3612.

26 U. S. C. 3273 STAMPS.

• • • • •

(b) *Posting.* Every person engaged in any business, avocation, or employment, who is thereby made liable to a special tax, shall place and keep conspicuously in his establishment or place of business all stamps denoting the payment of said special tax.

(c) *Transfer of duties.* For transfer of powers and duties of Commissioner and his agents, see subchapter D of chapter 23 and section 3170.

26 U. S. C. 3274 PENALTIES RELATING TO POSTING OF SPECIAL TAX STAMP.

Any person who shall, through negligence, fail to place and keep stamps denoting the payment of the special tax as provided in section 3273 (b) shall be liable to a penalty equal to the special tax for which his business rendered him liable, and the costs of prosecution; but in no case shall said penalty be less than $10. And where the failure to comply with the provisions of section 3273 (b) shall be through wilful neglect or refusal, then the penalty shall be double the amount above prescribed: *Provided*, That nothing in this section shall in any way affect the liability of any person for exercising or carrying on any trade, business, or profession, or doing any act for the exercising, carrying on, or doing of which a special tax is imposed by law, without the payment thereof.

26 U. S. C. 3277 LIABILITY OF PARTNERS.

Any number of persons doing business in copartnership at any one place shall be required to pay but one special tax.

26 U. S. C. 3278 LIABILITY IN CASE OF BUSINESS IN MORE THAN ONE LOCATION.

The payment of the special tax imposed shall not exempt from an additional special tax the person carrying on a trade or business in any other place than that stated in the collector's register; but nothing herein contained shall require a special tax for the storage of goods, wares, or merchandise in other places than the place of business, nor, except as provided in this chapter for the sale by manufacturers or producers of their own goods, wares, and merchandise, at the place of production or manufacture, and at their principal office or place of business, provided no goods, wares, or merchandise shall be kept except as samples at said office or place of business.

26 U. S. C. 3279 LIABILITY IN CASE OF DIFFERENT BUSINESSES OF SAME OWNERSHIP AND LOCATION.

Whenever more than one of the pursuits or occupations described in this chapter are carried on in the same place by the same person at the same time, except as otherwise provided in this chapter the tax shall be paid for each according to the rates severally prescribed.

26 U. S. C. 3280 LIABILITY IN CASE OF DEATH OR CHANGE OF LOCATION.

(a) *Requirements.* When any person who has paid the special tax for any trade or business dies, his wife or child, or executors or administrators or other legal representatives, may occupy the house or premises, and in like manner carry on, for the residue of the term for which the tax is paid, the same trade or business as the deceased before carried on, in the same house and upon the same premises, without the payment of any additional tax. And when any person removes from the house or premises for which any trade or business was taxed to any other place, he may carry on the trade or business specified in the collector's register at the place to which he removes, without the payment of any additional tax: *Provided*, That all cases of death, change, or removal, as aforesaid, with the name of the successor to any person deceased, or of the person making such change or removal, shall be registered with the collector, under regulations to be prescribed by the Commissioner.

• • • • •

(c *Transfer of duties.* For transfer of powers and duties of Commissioner and his agents, in case of liquor, see section 3170.

26 U. S. C. 3301 ATTACHMENT AND CANCELLATION.

(a) *General authority to prescribe methods and instruments.* The stamps referred to in the preceding section shall be attached, protected, removed, canceled, obliterated, and destroyed, in such manner and by such instruments or other means as the Commissioner, with the approval of the Secretary, may prescribe; and he is authorized and empowered to make, with the approval of the Secretary, all needful regulations relating thereto.

(b) *Cross references.* For authority of the Commissioner to prescribe cancellation of stamps by perforation, see section 3303.

For special provisions relating to the attachment, protection, cancellation, and special issue of stamps in the case of—

26 U. S. C. 3656 PAYMENT BY CHECK AND MONEY ORDERS.

(a) *Certified, cashiers', and treasurers' checks and money orders*—(1) *Authority to receive.* It shall be lawful for collectors to receive for internal revenue taxes or in payment of stamps to be used in payment of internal revenue taxes certified, cashiers', and treasurers' checks drawn on National and State banks and trust companies, and United States postal, bank, express, and telegraph money orders, during such time and under such regulations as the Commissioner, with the approval of the Secretary, may prescribe.

(2) *Discharge of liability*—(A) *Check duly paid.* No person who may be indebted to the United States on account of internal revenue taxes or stamps used or to be used in payment of internal revenue taxes who shall have tendered a certified, cashier's, or treasurer's check or money order as provisional payment therefor, in accordance with the terms of this subsection, shall be released from the obligation to make ultimate payment thereof until such certified, cashier's, or treasurer's check or money order so received has been duly paid.

(B) *Check unpaid.* If any such check or money order so received is not duly paid, the United States shall, in addition to its right to exact payment from the party originally indebted therefor, have a lien for the amount of such check upon all the assets of the bank on which drawn or for the amount of such money order upon all the assets of the issuer thereof; and such amount shall be paid out of its assets in preference to any or all other claims whatsoever against said bank or issuer except the necessary costs and expenses of administration and the reimbursement of the United States for the amount expended in the redemption of the circulating notes of such bank.

(b) *Other checks*—(1) *Authority to receive.* Collectors may receive checks in addition to those specified in subsection (a) in payment of taxes other than those payable by stamp during such time and under such rules and regulations as the Commissioner, with the approval of the Secretary, shall prescribe.

(2) *Ultimate liability.* If a check so received is not paid by the bank on which it is drawn the person by whom such check has been tendered shall remain liable for the payment of the tax and for all legal penalties and additions to the same extent as if such check had not been tendered.

26 U. S. C. 3809 VERIFICATION OF RETURNS; PENALTIES OF PERJURY.

(a) *Penalties.* Any person who willfully makes and subscribes any return, statement, or other document, which contains or is verified by a written declaration that it is made under the penalties of perjury, and which he does not believe to be true and correct as to every material matter, shall be guilty of a felony, and, upon conviction thereof, shall be fined not more than $2,000 or imprisoned not more than five years, or both.

(b) *Signature presumed correct.* The fact that an individual's name is signed to a return, statement, or other document filed shall be prima facie evidence for all purposes that the return, statement, or other document was actually signed by him.

(c) *Verification in lieu of oath.* The Commissioner, under regulations prescribed by him with the approval of the Secretary, may require that any return, statement, or other document required to be filed under any provision of the internal revenue laws shall contain or be verified by a written declaration that it is made under the penalties of perjury, and such declaration shall be in lieu of any oath otherwise required.

26 U. S. C. 4041 ISSUE OF INSTRUCTIONS, REGULATIONS, AND FORMS.

(a) *In general.* The Secretary shall prescribe forms of entries, oaths, bonds, and other papers, and rules and regulations, not inconsistent with law, to be used under and in the execution and enforcement of the various provisions of the internal revenue laws; and he shall give such directions to collectors and prescribe such rules and forms to be observed by them as may be necessary for the proper execution of the law.

(b) *Receipt of United States securities.* For authority of the Secretary to issue instructions and regulations governing the receipt by collectors and others of United States securities, see R. S. 251 (U. S. C., Title 31, sec. 427).

27 U. S. C. 203 UNLAWFUL BUSINESSES WITHOUT PERMIT. In order effectively to regulate interstate and foreign commerce in distilled spirits, wine, and malt beverages, to enforce the twenty-first amendment, and to protect the revenue and enforce the postal laws with respect to distilled spirits, wine, and malt beverages:

(a) It shall be unlawful, except pursuant to a basic permit issued under this Act by the Secretary of the Treasury—

(1) to engage in the business of importing into the United States distilled spirits, wine, or malt beverages; or

(2) for any person so engaged to sell, offer or deliver for sale, contract to sell, or ship, in interstate or foreign commerce, directly or indirectly or through an affiliate, distilled spirits, wine, or malt beverages so imported.

(b) It shall be unlawful, except pursuant to a basic permit issued under this Act by the Secretary of the Treasury—

(1) To engage in the business of distilling distilled spirits, producing wine, rectifying or blending distilled spirits or wine, or bottling, or warehousing and bottling, distilled spirits; or

(2) For any person so engaged to sell, offer or deliver for sale, contract to sell, or ship, in interstate or foreign commerce, directly or indirectly or through an affiliate, distilled spirits or wine so distilled, produced, rectified, blended, or bottled, or warehoused and bottled.

(c) It shall be unlawful, except pursuant to a basic permit issued under this Act by the Secretary of the Treasury—

(1) To engage in the business of purchasing for resale at wholesale distilled spirits, wine, or malt beverages; or

(2) For any person so engaged to receive or to sell, offer or deliver for sale, contract to sell, or ship, in interstate or foreign commerce, directly or indirectly or through an affiliate, distilled spirits, wine, or malt beverages so purchased.

This section shall not apply to any agency of a State or political subdivision thereof or any officer or employee of any such agency, and no such agency or officer or employee shall be required to obtain a basic permit under this Act.

27 U. S. C. 205 UNFAIR COMPETITION AND UNLAWFUL PRACTICES. It shall be unlawful for any person engaged in business as a distiller, brewer, rectifier, blender, or other producer, or as an importer or wholesaler, of distilled spirits, wine, or malt beverages, or as a bottler, or warehouseman and bottler, of distilled spirits, directly or indirectly or through an affiliate:

* * * * *

(e) *Labeling.* To sell or ship or deliver for sale or shipment, or otherwise introduce in interstate or foreign commerce, or to receive therein, or to remove from customs custody for consumption, any distilled spirits, wine, or malt beverages in bottles, unless such products are bottled, packaged, and labeled in conformity with such regulations, to be prescribed by the Secretary of the Treasury, with respect to packaging, marking, branding, and labeling and size and fill of container (1) as will prohibit deception of the consumer with respect to such products or the quantity thereof and as will prohibit, irrespective of falsity, such statements relating to age, manufacturing processes, analyses, guarantees, and scientific or irrelevant matters as the Secretary of the Treasury finds to be likely to mislead the consumer: (2) as will provide the consumer with adequate information as to the identity and quality of the products, the alcoholic content thereof (except that statements of, or statements likely to be considered as statements of, alcoholic content of malt beverages are hereby prohibited unless required by State law and except that, in case of wines, statements of alcoholic content shall be required only for wines containing more than 14 per centum of alcohol by volume), the net contents of the package, and the manufacturer or bottler or importer of the product; (3) as will require an accurate statement, in the case of distilled spirits (other than cordials, liqueurs, and specialties) produced by blending or rectification, if neutral spirits have been used in the production thereof, informing the consumer of the percentage of neutral spirits so used and of the name of the commodity from which such neutral spirits have been distilled, or in case of neutral spirits or of gin produced by a process of continuous distillation, the name of the commodity from which distilled; (4) as will prohibit statements on the label that are disparaging of a competitor's products or are false, misleading, obscene, or indecent; and (5) as will prevent deception of the consumer by use of a trade or brand name that is the name of any living individual of public prominence, or existing private or public organization, or is a name that is in simulation or is an abbreviation thereof, and as will prevent the use of a graphic, pictorial, or emblematic representation of any such individual or organization, if the use of such name or representation is likely falsely to lead the consumer to believe that the product has been indorsed, made, or used by, or produced for, or under the supervision of, or in accordance with the specifications of, such individual or organization: *Provided*, That this clause shall not apply to the use of the name of any person engaged in business as a distiller, brewer, rectifier, blender, or other producer, or as an importer, wholesaler, retailer, bottler, or warehouseman, of distilled spirits, wine, or malt beverages, nor to the use by any person of a trade or brand name used by him or his predecessor in interest prior to the date of the enactment of this Act: including regulations requiring, at time of release from customs custody, certificates issued by foreign governments covering origin, age, and identity of imported products: *Provided further*, That nothing herein nor any decision, ruling, or regulation of any Department of the Government shall deny the right of any person to use any trade name or brand of foreign origin not presently effectively registered in the United States Patent Office which has been used by such person or predecessors in the United States for a period of at least five years last past, if the use of such name or brand is qualified by the name of the locality in the United States in which the product is produced, and, in the case of the use of such name or brand on any label or in any advertisement, if such qualification is as conspicuous as such name or brand.

It shall be unlawful for any person to alter, mutilate, destroy, obliterate, or remove any mark, brand, or label upon distilled spirits, wine, or malt beverages held for sale in interstate or foreign commerce or after shipment therein, except as authorized by Federal law or except pursuant to regulations of the Secretary of the Treasury authorizing relabeling for purposes of compliance with the requirements of this subsection or of State law.

In order to prevent the sale or shipment or other introduction of distilled spirits, wine, or malt beverages in interstate or foreign commerce, if bottled, packaged, or labeled in violation of the requirements of this subsection, (1) no bottler of distilled spirits, no producer, blender, or wholesaler of wine, or proprietor of a bonded wine storeroom, and no brewer or wholesaler of malt beverages shall bottle, and (2) no person shall remove from customs custody, in bottles, for sale or any other commercial purpose, distilled spirits, wine, or malt beverages, respectively, after such date as the Secretary of the Treasury fixes as the earliest practicable date for the application of the provisions of this subsection to any class of such persons (but not later than August 15, 1936, in the case of distilled spirits, and December 15, 1936, in the case of wine and malt beverages, and only after 30 days' public notice), unless, upon application to the Secretary of the Treasury, he has obtained and has in his possession a certificate of label approval covering the distilled spirits, wine, or malt beverages, issued by the Secretary of the Treasury in such manner and form as he shall by regulations prescribe: *Provided*, That any such bottler of distilled spirits, or producer, blender, or wholesaler of wine, or proprietor of a bonded wine storeroom, or brewer or wholesaler of malt beverages shall be exempt from the requirements of this subsection if, upon application to the Secretary of the Treasury, he shows to the satisfaction of the Secretary of the Treasury that the distilled spirits, wine, or malt beverages to be bottled by the applicant are not to be sold, or offered for sale, or shipped or delivered for shipment, or otherwise introduced, in interstate or foreign commerce. Officers of internal revenue are authorized and directed to withhold the release of distilled spirits from the bottling plant unless such certificates have been obtained, or unless the application of the bottler for exemption has been granted by the Secretary of the Treasury; and customs officers are authorized and directed to withhold the release from customs custody of distilled spirits, wine, and malt beverages, unless such certificates have been obtained. The District Courts of the United States, the District Court of the United States for the District of Columbia, and the United States court for any Territory shall have jurisdiction of suits to enjoin, annul, or suspend in whole or in part any final action by the Secretary upon any application under this subsection;

* * * * *

The Secretary of the Treasury shall give reasonable public notice, and afford to interested parties opportunity for hearing, prior to prescribing regulations to carry out the provisions of this section.

27 U. S. C. 206 BULK SALES AND BOTTLING.

(a) It shall be unlawful for any person:

(1) To sell or offer to sell, contract to sell, or otherwise dispose of distilled spirits in bulk except, under regulations of the Secretary of the Treasury, for export or to the following, or to import distilled spirits in bulk except, under such regulations, for sale to or for use by the following: A distiller, rectifier of distilled spirits, person operating a bonded warehouse qualified under the internal-revenue laws or a class 8 bonded warehouse qualified under the customs laws, a winemaker for the fortification of wines, a proprietor of an industrial alcohol plant, or an agency of the United States or any State or political subdivision thereof.

(2) To sell or offer to sell, contract to sell, or otherwise dispose of warehouse receipts for distilled spirits in bulk unless such warehouse receipts require that the warehouseman shall package such distilled spirits, before delivery, in bottles labeled and marked in accordance with law, or deliver such distilled spirits in bulk only to persons to whom it is lawful to sell or otherwise dispose of distilled spirits in bulk.

(3) To bottle distilled spirits unless the bottler is a person to whom it is lawful to sell or otherwise dispose of distilled spirits in bulk.

(b) Any person who violates the requirements of this section shall, upon conviction thereof, be fined not more than $5,000 or imprisoned for not more than one year or both, and shall forfeit to the United States all distilled spirits with respect to which the violation occurs and the containers thereof.

(c) The term "in bulk" means in containers having a capacity in excess of one wine gallon.

SUBPART A—SCOPE OF REGULATIONS

§ 189.1 *Bottling of tax-paid distilled spirits.* These regulations, "Regulations 11, Bottling of Tax-Paid Distilled Spirits" (26 CFR Part 189), contain the procedural and substantive requirements relative to the bottling of tax-paid distilled spirits. The regulations cover the location, construction, equipment, qualifying documents; requirements governing changes in premises and equipment, alternate operations of the tax-paid bottling house as a bottling-in-bond department of an internal revenue bonded warehouse; bottling of distilled spirits under trade names; action by the district supervisor and Commissioner; operation and supervision of the tax-paid bottling house; the transfer of spirits to the tax-paid bottling house; the dumping, bottling, rebottling, relabeling, and restamping of bottled spirits; the removal of spirits from the tax-paid bottling house for exportation and shipment; and records and reports of spirits bottled at a tax-paid bottling house.

SUBPART B—DEFINITIONS

§ 189.5 *Meaning of terms.* As used in this part, unless the context otherwise requires, terms shall have the meanings ascribed in this subpart.

§ 189.6 *Collector.* "Collector" shall mean the collector of internal revenue of the collection district in which the tax-paid bottling house is located.

§ 189.7 *Commissioner.* "Commissioner" shall mean the Commissioner of Internal Revenue.

§ 189.8 *Distilled spirits.* "Distilled spirits" shall mean all the substances produced by the distillation of fermented grain, molasses, or other materials, commonly known as spirits, whisky, rum, gin, brandy, alcohol, vodka, etc.

§ 189.9 *District supervisor.* "District supervisor" or "supervisor" shall mean the person having charge of a supervisory district of the Alcohol Tax Unit of the Bureau of Internal Revenue.

§ 189.10 *Gallon.* "Gallon" or "wine gallon" shall mean a United States gallon of liquid measure equivalent to the volume of 231 cubic inches.

§ 189.11 *Including.* The term "including" shall not be deemed to exclude things other than those enumerated which are in the same general class.

§ 189.12 *Inclusive language.* Words in the plural form shall include the singular, and vice versa, and words in the masculine gender shall include females, associations, copartnerships, and corporations.

§ 189.13 *I. R. C.* "I. R. C." shall mean the Internal Revenue Code.

§ 189.14 *Person.* "Person" shall include natural persons, associations, copartnerships, and corporations.

§ 189.15 *Proof.* "Proof" shall mean the ethyl alcohol content of a liquid at 60 degrees Fahrenheit, stated as twice the percent of ethyl alcohol by volume.

§ 189.16 *Proof gallon.* "Proof gallon" shall mean the alcoholic equivalent of a United States gallon at 60 degrees Fahrenheit, containing 50 per cent of ethyl alcohol by volume.

§ 189.17 *Proof spirits.* "Proof spirits" shall mean that alcoholic liquor which contains 50 per cent of ethyl alcohol by volume at 60 degrees Fahrenheit and which has a specific gravity of 0.93418 in air at 60 degrees Fahrenheit referred to water at 60 degrees Fahrenheit as unity.

(53 Stat. 307; 26 U. S. C. 2809)

§ 189.18 *Proprietor.* "Proprietor" shall mean the operator of a tax-paid bottling house, except where otherwise indicated.

§ 189.19 *Rectified spirits.* "Rectified spirits" shall mean all the products of rectification.

§ 189.20 *Red strip stamps.* "Red strip stamps" shall mean the stamps prescribed under authority of section 2803 (d), I. R. C.

§ 189.21 *Secretary.* "Secretary" shall mean the Secretary of the Treasury.

§ 189.22 *Spirits.* "Spirits" shall mean distilled spirits, wines, cordials, liqueurs, etc., except where otherwise indicated.

§ 189.23 *Tank car.* "Tank car" shall mean a railroad tank car and, for the purpose of receiving tax-paid distilled spirits, shall include a tank truck in accordance with the applicable provisions of Regulations 3 (26 CFR Part 182), Regulations 4 (26 CFR Part 183), Regulations 5 (26 CFR Part 184), and Regulations 10 (26 CFR Part 185).

§ 189.24 *Tax-paid bottling house.* "Tax-paid bottling house" or "bottling house" shall mean a tax-paid bottling house established or operated under this part for the bottling of tax-paid spirits, including wines, cordials, liqueurs, etc.

§ 189.25 *U. S. C.* "U. S. C." shall mean the United States Code.

§ 189.26 *Wines.* "Wines" shall mean all kinds and types of wine produced by the fermentation of fruits, berries, or other suitable agricultural products, and all artificial or imitation wines or compounds sold as wine.

SUBPART C—ESTABLISHMENT

§ 189.30 *Who may establish.* Tax-paid bottling houses may be established for the bottling of tax-paid spirits by the proprietor of a distillery, or an internal revenue bonded warehouse, industrial alcohol plant, or industrial alcohol bonded warehouse, or by an agency of any State or political subdivision thereof.

(Sec. 6, 49 Stat. 985; 27 U. S. C. 206)

§ 189.31 *Number that may be established.* There may be established only one tax-paid bottling house for each distillery, internal revenue bonded warehouse, industrial alcohol plant, industrial alcohol bonded warehouse, or any combination or group of such establishments operated on the same or contiguous premises by the same proprietor: *Provided*, That where a bottling-in-bond department has been established on the premises of an internal revenue bonded warehouse, such bottling department may be temporarily eliminated from the warehouse premises from time to time in accordance with the provisions of Regulations 10 (26 CFR Part 185), governing the bottling of distilled spirits in bond, and operated under the regulations in this part in lieu of, or as a part or extension of, a permanent tax-paid bottling house established for such bonded warehouse.

(Sec. 6, 49 Stat. 985; 27 U. S. C. 206)

SUBPART D—LOCATION AND USE

§ 189.35 *Location.* Tax-paid bottling houses hereafter established must be located on premises contiguous to, or near a distillery, internal revenue bonded warehouse, industrial alcohol plant, or industrial alcohol bonded warehouse.

§ 189.36 *Use.* The premises of a tax-paid bottling house shall be used exclusively for the business of bottling tax-paid spirits, including wines, cordials, liqueurs, etc.

SUBPART E—CONSTRUCTION

§ 189.40 *Buildings or rooms.* The tax-paid bottling house must be securely constructed and so equipped as to be suitable for the bottling of spirits. Except as provided in § 189.42, and as to necessary openings for the passage of approved distilled spirits, utility and similar pipe lines, as provided in this part, Regulations 3 (26 CFR Part 182), Regulations 4 (26 CFR Part 183), and Regulations 5 (26 CFR Part 184), Regulations 10 (26 CFR Part 185), and Regulations 15 (26 CFR Part 190), the room or building must be completely separated from contiguous buildings or rooms by solid, unbroken partitions and floors of substantial construction: *Provided*, That, where the tax-paid bottling house is under the same roof or in the same building in which the proprietor of the tax-paid bottling house or his affiliate or subsidiary operates a rectifying plant, wholesale liquor dealer premises, or another tax-paid bottling house, the district supervisor may in his discretion authorize the tax-paid bottling house to be separated from such premises by partitions of expanded metal or woven wire of not less than 9-gauge nor more than 2-inch mesh extending from the floor to the ceiling or roof; *And provided further*, That such partitions of expanded metal or woven wire may not be authorized if the tax-paid bottling house operates alternately as a bottling-in-bond department of an internal revenue bonded warehouse. If the

tax-paid bottling house is in the same building in which is located an internal revenue bonded warehouse or rectifying plant, the two premises must have no means of interior communication with each other, except by approved pipe lines, and as specifically provided in this part. Where a tax-paid bottling house has heretofore been established under the same roof or in the same building with an internal revenue bonded warehouse or a rectifying plant, with interior communication between the two premises, it may continue to operate in such location if the revenue will not be jeopardized. When a bottling-in-bond department is operated temporarily as a tax-paid bottling house, as provided in this part and Regulations 10 (26 CFR Part 185), communication between the bottling house and warehouse within the building may continue.

§ 189.41 *Means of ingress and egress.* The doors must lead into the yard connected with the tax-paid bottling house or a public street: *Provided*, That where a room is used, the door may open into an elevator shaft, or a common passageway partitioned off from other businesses, leading either directly or through another elevator shaft or similar passageway to the street or yard. The partitions forming a common passageway shall be substantially constructed of solid materials or expanded metal or woven wire of not less than 9-gauge nor more than 2-inch mesh, and shall extend from the floor to the ceiling or roof, but doors may be permitted therein if they do not afford interior communication with an internal revenue bonded warehouse in the same building. Common passageways must be used exclusively as means of communication.

§ 189.42 *Doors, windows, and other openings.* No door, window, or other opening will be permitted in the walls or floors separating the tax-paid bottling house from another room or building which is not a part of the tax-paid bottling house: *Provided*, That where the proprietor maintains a wholesale liquor dealer premises adjacent or contiguous to the tax-paid bottling house, a communicating door will be permitted.

§ 189.43 *Case storage room.* A room must be provided by the proprietor for the storage of spirits bottled by him, unless all spirits are transferred to contiguous wholesale liquor dealer premises upon completion of bottling. Where a case storage room is provided, it shall be used exclusively for the purpose specified and a sign shall be placed over the entrance door of the room bearing the words "Case Storage Room."

§ 189.44 *Export storage room.* If the proprietor intends to bottle or package distilled spirits or wines for export with benefit of drawback, a separate room for the storage of such products exclusively must be provided and a sign must be placed over the entrance door bearing the words "Export Storage Room." The room must be constructed of substantial, solid materials: *Provided*, That the partitions separating such room from other parts of the tax-paid bottling house may be constructed of expanded metal or woven wire of not less than 9-gauge nor more than 2-inch mesh, extending from the floor to the ceiling or roof. All windows, doors, or other openings must be so constructed that they may be securely locked or fastened from the inside, except the entrance door, which must be so constructed that it may be securely locked from the outside of the room with a Government seal lock.

(53 Stat. 377; 26 U. S. C. 3179)

§ 189.45 *Office facilities.* The proprietor shall provide and maintain on the tax-paid bottling house premises suitable office facilities, including desk and file cabinet, for the use of Government officers. There shall also be provided a metal cabinet of adequate strength and size, or a securely constructed room or vault, suitably equipped for locking with a Government seal lock, for use in safeguarding the keys to Government locks, seals or other Government property and stamps in the custody of Government officers. Such facilities shall be subject to approval by the district supervisor.

SUBPART F—SIGN

§ 189.50 *Posting of sign.* The proprietor shall place and keep conspicuously on the outside and at the front of the tax-paid bottling house, or over the front entrance thereto where it can be plainly seen, a sign exhibiting in plain and legible letters, painted in oil colors or gilded, not less than three inches in height and of a proper and proportionate width, the name of the proprietor and the words "Tax-Paid Bottling House No. ---," using the registry number assigned by the district supervisor.

SUBPART G—EQUIPMENT

§ 189.55 *Scales.* All scales used for weighing spirits shall be tested from time to time by the proprietor by means of test weights or otherwise to insure their accuracy. The proprietor must provide suitable and accurate scales for weighing spirits dumped from or drawn into packages. The beams or dials of such scales must indicate weight in half-pounds graduations.

(53 Stat. 318; 26 U. S. C. 2829)

§ 189.56 *Weighing tanks.* Where weighing tanks are used for gauging spirits, such tanks shall be constructed of metal or other suitable material, and shall be stationary. Each weighing tank shall be mounted on accurate scales, and shall have plainly and legibly painted thereon the words "Weighing Tank," followed by its serial number and capacity in gallons. The beams or dials of scales must be graduated to enable readings to be made as follows: To the nearest ½ pound for scales having a capacity not to exceed 2,000 pounds; to the nearest 1 pound for scales having a capacity of over 2,000 pounds, but not exceeding 6,000 pounds; to the nearest 2 pounds for scales having a capacity over 6,000 pounds, but not exceeding 20,000 pounds; to the nearest 5 pounds for scales having a capacity over 20,000 pounds, but not exceeding 50,000 pounds; and to the nearest 10 pounds for scales having a capacity over 50,000 pounds.

(53 Stat. 318; 26 U. S. C. 2829)

§ 189.57 *Test weights.* Where weighing tanks or other scales are used for gauging spirits, the proprietor shall provide a set of ten 50-pound cast-iron test weights, which shall be certified by the National Bureau of Standards or State departments of weights and measures as conforming to class "C" requirements of the National Bureau of Standards, and provide a suitable place where the weights may be stored under Government lock. If the proprietor has provided such test weights at another plant operated by him on contiguous or nearby premises, he need not provide a separate set of weights for the tax-paid bottling house. All test weights shall be placed under the control and in the custody of the storekeeper-gauger in charge, who shall keep them under Government lock when not in use. In case a scale becomes inaccurate for any reason, the storekeeper-gauger will not permit it to be used while it is in such condition.

(53 Stat. 307, 318; 26 U. S. C. 2808, 2829)

§ 189.58 *Storage tanks.* If spirits are received in tank cars or by pipe line, suitable storage tanks must be provided within which to store such spirits, unless the spirits are run directly into bottling tanks as provided in § 189.166. Each storage tank shall be constructed of metal or other suitable material. Each such tank shall be mounted on accurate scales, or equipped with a suitable device whereby the contents can be accurately determined. There shall be painted on each tank the words "Storage Tank," followed by its serial number and capacity in gallons. Stopcocks must be provided and so arranged as to control completely the flow of spirits, both into and out of the tank. Manheads, inlets, and outlets of the storage tank must be provided with facilities for locking with Government locks. A suitable board shall be provided on each storage tank for the attachment of Forms 703–A, 1520 or 1440, as prescribed in this part.

(53 Stat. 318; 26 U. S. C. 2829)

§ 189.59 *Dumping and reducing tanks.* If dumping and reducing tanks are provided, the same shall be equipped with a suitable device whereby the contents can be accurately determined. Each such tank shall have plainly and legibly painted thereon the words "Dumping and Reducing Tank," followed by its serial number and capacity in gallons.

(53 Stat. 318; 26 U. S. C. 2829)

§ 189.60 *Bottling tanks.* The proprietor shall provide one or more bottling tanks, securely constructed of metal, or other suitable material. Each such tank shall be mounted on accurate scales, or equipped with a suitable device whereby the contents can be accurately determined. There shall be painted on each tank the words, "Bottling Tank," followed by its serial number and capacity in gallons. Each bottling tank must be closed, and any necessary openings therein affording access to the interior or to the contents, must be closed and secured by a Government lock or seal. Stopcocks must be provided and so arranged as to control completely the flow of spirits, both into and out of the tank, and so constructed that they may be locked with Government locks. A suitable board shall be provided on each bottling tank for the attachment of Form 230, as prescribed in this part.

(53 Stat. 318; 26 U. S. C. 2829)

§ 189.61 *Package filling tanks.* Where distilled spirits or wines are to be packaged especially for export with benefit of drawback, tanks suitable for the purpose, and constructed and equipped in accordance with the provisions and requirements of § 189.60 governing the construction and equipment of bottling tanks shall be provided by the bottler. The bottling tank may be used as the package filling tank, provided it is equipped with an approved outlet for filling packages and such outlet is equipped for locking with a Government lock when not in use.

(53 Stat. 318, 377; 26 U. S. C. 2829, 3179)

§ 189.62 *Gravity tank.* The proprietor may, if necessary, install a small gravity tank between the bottling tanks and bottling machine, for the purpose of maintaining a constant head pressure or to afford a gravity flow to the bottling machine. Such tank must be so arranged that it can be filled only through the bottling tanks and the same must be permanently connected with the bottling tanks by a continuous, permanent pipe line, unless the outlet of the tank is equipped with a valve so constructed that it can be secured with a Government lock. The capacity of the gravity tank shall be no larger than necessary, and the manheads, if any, shall be equipped for locking with a Government lock. Gravity tanks must be equipped with a suitable device whereby the contents can be accurately determined, and each such tank shall have plainly and legibly marked thereon the words, "Gravity Tank," followed by its serial number and capacity in gallons.

(53 Stat. 318; 26 U. S. C. 2829)

§ 189.63 *Accumulation tanks.* Where the proprietor removes distilled spirits from the bottling line which contain sediment or foreign matter, or which otherwise require refiltering or rebottling, he may install suitable accumulation tanks in the bottling room for the accumulation of such spirits. Each such tank shall have plainly and legibly painted thereon the words "Accumulation Tank," followed by its serial number and capacity in gallons. The spirits so accumulated must be returned to the bottling tank system for refiltering and bottling with the same batch of spirits. The return of the spirits to the bottling tank system must be under the supervision of the storekeeper-gauger.

(53 Stat. 318; 26 U. S. C. 2829)

§ 189.64 *Water stills.* If water stills are provided in the tax-paid bottling house, there must be a clear space of not less than 1 foot around them. Every such still must have plainly and legibly painted thereon the words, "Water Still," followed by its serial number and capacity in gallons.

§ 189.65 *Distilled water storage tanks.* If the proprietor produces distilled water, or receives the same by pipe line from contiguous establishments operated under internal revenue laws and regulations, distilled water storage tanks shall be provided and so located that their contents may be readily inspected by Government officers. Each such tank shall be equipped with a suitable device whereby the contents can be accurately determined, and shall have plainly and legibly marked thereon the words, "Distilled Water Storage Tank," followed by its serial number and capacity in gallons. Where distilled water is to be conveyed by pipe line to contiguous establishments operated under the internal revenue laws and regulations, the storage tank from which the distilled water is to be conveyed must be so constructed that any necessary openings therein may be closed and secured with a Government lock. The pipe line must be securely constructed as provided in § 189.66. Barrels or other wooden containers in which distilled spirits were previously packaged, may not be used for the removal of distilled water.

(53 Stat. 318; 26 U. S. C. 2829)

§ 189.66 *Pipe lines.* Pipe lines used for the conveyance of tax-paid spirits to bottling or storage tanks in a tax-paid bottling house, must be of a fixed and permanent character, securely constructed and connected and so arranged as to be exposed to view throughout their entire lengths. Such pipe lines, except those from a bonded winery, must be so secured by brazing, welding, fastening and sealing, or locking with Government locks as to effectually prevent disconnection and access to the spirits. Pipe lines may be connected to bottling or storage tanks by manifold connections so arranged as to control the flow of spirits into such tanks. Each pipe line from a contiguous establishment shall have painted thereon, at a point near the manifold or valve controlling the flow, identification as to the premises from which the pipe line originated, as "RD–7," "IRBW–2," etc. Such pipe lines may be connected with tanks in a tax-paid bottling house by means of flexible metal hose with the ends brazed or welded to the inlet of the tank and to the pipe line, or by means of short, detachable hose connections if the end of each pipe line is fitted with a valve so constructed that it may be secured with a Government lock. If detachable hose connections are used, provision must be made so that the connections may be secured by Government locks when spirits are being transferred. Filters may be installed in such pipe lines connected with bottling tanks, if inlet and outlet lines to be attached to filters are equipped with valves which may be locked with Government locks. Pipe lines used for the conveyance of distilled water to contiguous establishments operated under the internal revenue laws and regulations, must be independent ones, without any connection with any other pipe, tank, vessel, or utensil on the tax-paid bottling house premises, except the distilled water storage tanks: *Provided*, That where distilled water is to be so conveyed from two or more distilled water storage tanks, the pipe line may be connected with such tanks by permanent manifold connections.

(53 Stat. 318, 335, as amended; 26 U. S. C. 2829, 2883)

§ 189.67 *Colors for pipe lines.* The pipe lines in the tax-paid bottling house used for conveying the following substances shall be kept painted in the colors indicated:

Black	Spirits.
White	Water.
Aluminum	Steam.
Orange	Air.
Purple	Refrigerants.

These colors are intended for such pipe lines only, and are prescribed for the purpose of distinguishing such pipe lines from each other, and from all other pipe lines on the premises which are painted but for which colors are not prescribed. The painting in one of the prescribed colors, or a color similar thereto, of a pipe line for which a color is not prescribed, is prohibited. Pipe lines for which colors are not prescribed may be painted in sections of contrasting colors.

DETAILS OF CONSTRUCTION AND EQUIPMENT

§ 189.68 *General.* Where details of construction and equipment are not covered by this part, such construction and equipment must afford adequate security and control. The Commissioner may approve details of construction and equipment in lieu of those specified in this part where it is shown that it is impracticable to conform to the prescribed specifications, and the proposed construction and equipment will afford adequate security and control. Where it is proposed to substitute construction and equipment for that for which specifications are prescribed, approval of the Commissioner should be first obtained.

§ 189.69 *Bottling houses heretofore established.* Tax-paid bottling houses heretofore established may continue to operate if the present construction and equipment afford adequate supervision and control. The Commissioner or district supervisor may at any time require the proprietor to make changes in construction and equipment conforming to this part, if deemed necessary to permit more economical and efficient supervision by Government officers. All tax-paid bottling houses hereafter established, and changes in existing tax-paid bottling houses, must be in conformity with this part.

SUBPART H—QUALIFYING DOCUMENTS

§ 189.75 *Notice, Form 27–E.* Every person intending to engage in the business of bottling tax-paid distilled spirits must file notice on Form 27–E, in triplicate, with the district supervisor before engaging in the business. Except as provided in § 189.78, in the case of amended and supplemental notices, all of the information indicated by the lines on the form and the instructions printed thereon or issued in respect thereto, and as required by this part, shall be furnished. Notices on Form 27–E must be signed in

accordance with the instructions printed on the form, and be sworn to before an officer authorized to administer oaths: *Provided*, That if the form officially prescribed for such notice contains therein a provision for verification by a written declaration that such notice is made under penalties of perjury, such notice shall be verified by the execution of such declaration, and such declaration so executed shall be in lieu of the oath required herein for verification. Such notices must be numbered serially, commencing with number 1 and continuing in regular sequence for all notices thereafter filed, whether amended or supplemental. All data, written statements, affidavits, and other documents submitted in support of the notice, shall be deemed to be a part thereof.

(63 Stat. 667; 26 U. S. C. 3809)

§ 189.76 *Federal Alcohol Administration Act permit.* Under the Federal Alcohol Administration Act and Regulations 1 (27 CFR Part 1) issued pursuant thereto, any person, except an agency of a State or political subdivision thereof, or any officer or employee of any such agency, intending to engage in the business of bottling distilled spirits is required to procure a warehousing and bottling basic Federal Alcohol Administration Act permit (Form 1642) therefor. The trade names or styles under which it is intended to conduct the business must be specified in the permit. Application for such permit should be filed on Form 1641 with the district supervisor at the time of filing notice, Form 27–E.

(Sec. 3, 49 Stat. 978; 27 U. S. C. 203)

§ 189.77 *Location of distillery, bonded warehouse, or alcohol plant.* There must be stated in the notice, Form 27–E, the name, registry number, and complete address of the proprietor's distillery, internal revenue bonded warehouse, industrial alcohol plant, or industrial alcohol bonded warehouse, in connection with which the tax-paid bottling house is established. The distance between the tax-paid bottling house and the distillery, internal revenue bonded warehouse, industrial alcohol plant, or industrial alcohol bonded warehouse located on contiguous or nearby premises, as provided in § 189.35, shall also be stated in the notice.

§ 189.78 *Amended and supplemental notices.* Amended and supplemental notices on Form 27–E may be executed in skeleton form, except as to the items amended or supplemented. All items which are correctly set forth in prior notices, and in which there has been no change since the last preceding notice, may be incorporated in the amended or suplemental notice by reference to the respective notice previously filed. Such incorporation by reference shall be made by entering for each such item, in the space provided therefor, the statement "No change since filing Form 27–E, Serial No. ——" (the number being inserted), and the date of such form. The Commissioner or the district supervisor may at any time, in his discretion, require the filing of a complete notice on Form 27–E.

§ 189.79 *Corporate documents, etc.* The proprietor of the tax-paid bottling house must submit with, and make a part of, his notice, Form 27–E, certified copies, in triplicate, of the corporate documents or articles of copartnership or association, if any, described in the regulations governing his qualification as the proprietor of a distillery, Regulations 4 (26 CFR Part 183) or Regulations 5 (26 CFR Part 184) internal revenue bonded warehouse, Regulations 10 (26 CFR Part 185), industrial alcohol plant or industrial alcohol bonded warehouse, Regulations 3 (26 CFR Part 182), unless such documents were filed with and made a part of the notice or application submitted in connection with the establishment or operation of one of such plants, in which event a statement, in triplicate, to that effect may be submitted in lieu of a separate set of such documents. Likewise, the proprietor of the tax-paid bottling house must submit powers of attorney in the same circumstances under which he is required by such regulations to submit such documents in connection with the establishment or operation of his distillery, internal revenue bonded warehouse, industrial alcohol plant, or industrial alcohol bonded warehouse, except that where he has filed the required powers of attorney in connection with the establishment or operation of one of such plants, and the terms of such powers of attorney are broad enough to cover the execution of documents required for the tax-paid bottling house, a statement, in triplicate, regarding such filing of the powers of attorney may be submitted in lieu of extra copies of the documents.

§ 189.80 *Registry of stills, Form 26.* If a water still is set up at the tax-paid bottling house, the proprietor must register the same with the district supervisor for the district in which the still is located, on Form 26, immediately it is set up. The Form 26 shall be executed in triplicate in accordance with the headings of the various columns and lines on the form, and the instructions printed thereon or issued in respect thereto and as required by this part. Form 26 must be sworn to before an officer authorized to administer oaths: *Provided*, That if the form officially prescribed for such notice contains therein a provision for verification by a written declaration that such notice is made under penalties of perjury, such notice shall be verified by the execution of such declaration, and such declaration so executed shall be in lieu of the oath required herein for verification.

(53 Stat. 308, as amended, 373, as amended, 63 Stat. 667; 26 U. S. C. 2810, 3170, 26 U. S. C., Sup., 3809)

§ 189.81 *Plat and plans.* Every person intending to engage in the business of bottling tax-paid distilled spirits must submit to the district supervisor with his notice, Form 27–E, an accurate plat of the tax-paid bottling house premises and accurate plans of the buildings or rooms and the bottling apparatus and equipment therein, in triplicate, conforming to the requirements of Subpart I.

§ 189.82 *Additional information.* The Commissioner or the district supervisor may at any time, in his discretion, require the proprietor to furnish such additional information as he may deem necessary.

§ 189.83 *Instruments and papers.* The terms, conditions, and instructions contained in instruments and papers required to be furnished by law or regulations are hereby made a part of this part as fully and to the same extent as if incorporated in this part.

Subpart I—Plats and Plans

§ 189.95 *Plat and plans required.* Every person intending to engage in the business of bottling tax-paid distilled spirits must, as provided in § 189.81, file an accurate plat and accurate plans of the tax-paid bottling house premises, apparatus, and equipment, in triplicate, with the district supervisor.

§ 189.96 *Preparation.* Every plat and plan shall be drawn to scale, and each sheet thereof shall bear a distinctive title, enabling ready identification. The cardinal points of the compass must appear on each sheet, except the elevational flow diagrams (plans). The minimum scale of any plat will not be less than $\frac{1}{50}$ inch per foot. Each sheet of the original plat and plans shall be numbered, the first sheet being designated number 1, and the other sheets numbered in consecutive order. Plats and plans shall be submitted on sheets of tracing cloth, opaque cloth, or sensitized linen. The dimensions of plats and plans shall be 15 by 20 inches, outside measurement, with a clear margin of at least one inch on each side of the drawing, lettering, and writing. Plats and plans may be original drawings, or reproductions made by the "ditto process," or by blue or brown line lithoprint, if such reproductions are clear and distinct.

§ 189.97 *Depiction of premises.* Plats must show the outer boundaries of the tax-paid bottling house premises, in feet and inches, in a color contrasting with those used for other drawings on the plat, and must contain an accurate depiction of the building or buildings comprising the premises, and any driveway, public highway, or railroad right-of-way adjacent thereto or connecting therewith. The depiction of the premises shall agree with the description in the notice, Form 27–E. If the premises are separated by a public highway or railroad right-of-way, and the tracts of land comprising the premises, or parts thereof, abut on such highway or right-of-way opposite each other, the different tracts will be depicted separately, in feet and inches. If two or more buildings are to be used, the designated name of each shall be indicated, and all pipe lines or other connections, if any, between the same depicted. Where two or more buildings are used for the same purpose, the name of each such building shall include an alphabetical designation, beginning with "A", and they shall be so shown on the plat. All first floor exterior doors of each building on the premises will be shown on the plat. If the tax-paid bottling house consists of a room or a floor of a building, an outline of the building, the precise location and dimensions of the room or floor, and the means of ingress from, and egress to, a public street or yard shall be shown. Except as provided in § 189.103, all pipe lines leading to or from the premises, the purpose for which used, and points of origin and termination will be indicated on the plat.

§ 189.98 *Contiguous premises.* The plat must show the relative location of any distillery, internal revenue bonded warehouse, industrial alcohol plant, industrial alcohol bonded warehouse, or rectifying plant, or other premises on which liquors are manufactured, stored or sold, contiguous to the tax-paid bottling house premises, and all pipe lines and other connections, if any, between them, and the distance they are from each other. The outlines of such contiguous premises and the tax-paid bottling house premises must be shown in contrasting colors.

§ 189.99 *Floor plans.* The plans shall include a floor plan of each floor of each building, showing the general dimensions of the rooms and floors, and the location of all doors, windows, and other openings, and how such openings are protected. If a portion of a building is used, such as a room or floor, the floor plans will include only that portion, and shall also show the means of ingress and egress to the street. All fixed apparatus and equipment, except pipe lines, must be shown in their exact location on the floor plans and their designated use indicated. Except as provided in this subpart, pipe lines need not be shown. In the case of water stills, tanks, and similar equipment, the serial number and capacity shall also be shown.

§ 189.100 *Elevational flow diagrams.* Elevational flow diagrams (plans) shall be submitted covering the flow of spirits from the time of receipt on the premises until the cased spirits are removed from the bottling room. Such diagrams or plans shall clearly depict all equipment in its relative operating sequence and elevation by floors, with all connecting pipe lines, valves, flanges, measuring devices, and attachments for Government locks: *Provided*, That where flanges, unions or other connections in pipe lines brazed, welded, or otherwise are permanently secured in such a manner as to constitute a continuous, single pipe line, the location of such flanges, unions or other connections, and the manner of securing the same, need not be shown on the plans. The elevation by floors on the diagrams may be indicated by horizontal lines representing floor levels. All major fixed equipment, such as dump tanks, bottling tanks, filters, etc., must be identified on these plans as to number and use. The elevational flow diagram must be so drawn that all fixed pipe lines, except those indicated by § 189.103, may be readily traced from beginning to end. Other types of drawings that clearly depict the information required by this subpart may be submitted in compliance with this section. The location of all Government locks required to secure the apparatus and equipment, and the doors of the rooms, must be indicated on the plans by the symbol "GL" at the points where the locks are to be attached.

§ 189.101 *Pipe lines.* The plat and plans shall show pipe lines, if any, connecting the tax-paid bottling house with a registered or fruit distillery, internal revenue bonded warehouse, industrial alcohol plant, industrial alcohol bonded warehouse, bonded winery, and rectifying plant, for the transfer of tax-paid spirits for bottling. The plat will show the relative location of the tax-paid bottling house and the premises connected by such pipe lines. The plat or plans will also show the bottling tanks or storage tanks to which such pipe lines are connected.

(53 Stat. 335, as amended; 26 U. S. C. 2883)

§ 189.102 *Pipe lines in colors.* The fixed pipe lines must be shown on the plat and plans in the colors in which they are required to be painted, as follows:

Black	Spirits.
White	Water.
Aluminum	Steam.
Orange	Air.
Purple	Refrigerants.

§ 189.103 *Pipe lines exempted.* Approved public or private utilities service lines, such as sewers, electric or gas conduits or pipes, and approved sprinkler, refrigeration, or heating systems which have no connection with equipment used for spirits, need not be shown on the plat and plans, provided that the point of entry to the premises shall be indicated.

§ 189.104 *Certificate of accuracy.* The plat and plans shall bear a certificate of accuracy in the lower right hand corner of each sheet signed by the proprietor, the draftsman, and the district supervisor, substantially in the following form:

(Name of proprietor)

(Address)

Approved: ---
(Date)

(District supervisor)

Accuracy certified by:

(Name and capacity—for the proprietor)

(Draftsman)

TPBH No. ---

---, 19---. Sheet No. ---
(Date)

§ 189.105 *Revised plats and plans.* The sheets of revised plats and plans shall bear the same number as the sheets superseded, but will be given a new date. Any additional plats and plans shall be given a new number in consecutive order, or will be otherwise numbered and lettered in such manner as will permit the filing of the plats and plans in proper sequence.

Subpart J—Requirements Governing Changes in Name, Proprietorship, Control, Location, Premises, and Equipment

§ 189.110 *General requirement.* Notice in writing must be given immediately by the proprietor to the district supervisor in case of any change in the location, form, capacity, ownership, agency, superintendency, or in persons interested in the business of the tax-paid bottling house.

§ 189.111 *Procedure applicable.* Except as provided in §§ 189.115–189.118, changes in the individual or corporate name, or in the trade name or style, of the proprietor, and changes in the proprietorship, control, location, premises, and equipment of the tax-paid bottling house shall be in accordance with the procedure, in so far as applicable, prescribed by the regulations governing such changes in connection with the operation of the proprietor's distillery, Regulations 4 (26 CFR Part 183) or Regulations 5 (26 CFR Part 184), internal revenue bonded warehouse, Regulations 10 (26 CFR Part 185), industrial alcohol plant or industrial alcohol bonded warehouse, Regulations 3 (26 CFR Part 182). Where the proprietor desires to operate under a trade name or style, or to bottle spirits under a trade name or style, or under a number of trade names or styles, other than those previously approved, he must, if the additional name or style has not previously been specified on the Federal Alcohol Administration Act permit, file with the district supervisor a letterhead application for approval of such trade name or style. The district supervisor will forward such application to the Bureau for action by the Commissioner. If the Commissioner finds that the name or names may be used, he will advise the district supervisor. The proprietor will be advised accordingly. He may then file with the district supervisor an amended Form 27–E in accordance with § 189.78 and, where necessary, he must also procure from the district supervisor an amended basic permit. The proprietor will, in the case of changes in name, proprietorship, or location, also comply with the applicable provisions of the regulations governing special (occupational) taxes, Regulations 20 (26 CFR Part 194).

Subpart K—Requirements Governing Operations Under Alternating Proprietorships

§ 189.115 *Qualification.* A tax-paid bottling house may be operated under alternating proprietorships. Where it is desired to so operate, the successor (lessee) proprietor must qualify as proprietor of the tax-paid bottling house in accordance with the provisions of Subpart H. At the time of the first suspension of the tax-paid bottling house for operation under an alternating proprietorship, the outgoing (lessor) proprietor must discontinue operations and file with the district supervisor an amended notice on Form 27–E, in triplicate, stating thereon the purpose of the notice to be "Temporary discontinuance in order that the tax-paid bottling house may be operated by an alternate proprietor" and give the date of discontinuance. The outgoing (lessor) proprietor shall also comply with Subpart DD of this part.

§ 189.116 *Suspension and subsequent alternate proprietorships.* Where an alternate proprietor desires to suspend operations of the tax-paid bottling house

preparatory to resumption by another alternate proprietor, he must file Form 1696, after proper execution of Parts 1 and 2, through the storekeeper-gauger in charge, with the district supervisor, giving notice of intention to suspend operations. The form shall be executed and filed in accordance with the various lines on the form and the instructions printed thereon or issued in respect thereto, and as required by this part. Form 1696 shall contain or be verified by a written declaration that it is executed under the penalties of perjury. The outgoing (lessor) proprietor shall also comply with Subpart DD of this part. Operations will be suspended at the time specified in the notice, upon approval thereof, by the district supervisor.

(63 Stat. 667; 26 U. S. C., Sup., 3809)

§ 189.117 *Resumption for subsequent alternate proprietorships.* Where an alternate proprietor desires to resume operation of the tax-paid bottling house following suspension by another alternate proprietor, he must file Form 1696, after proper execution of Parts 1 and 2, through the storekeeper-gauger in charge, with the district supervisor for authority to resume operations. The notice shall be executed and otherwise completed as provided in this subpart. The outgoing (lessor) proprietor shall also comply with Subpart DD of this part.

§ 189.118 *Approval and disposition of Form 1696.* Upon receipt of Form 1696, the district supervisor will, if he finds that the notice may be properly approved, execute the certificate of approval on all copies and dispose of the copies in accordance with the instructions printed thereon or issued in respect thereto.

SUBPART L—REQUIREMENTS GOVERNING ALTERNATE OPERATIONS AS BOTTLING-IN-BOND DEPARTMENT OF AN INTERNAL REVENUE BONDED WAREHOUSE

§ 189.120 *Procedure applicable.* A tax-paid bottling house may be operated alternately as a bottling-in-bond department. Where it is desired to so operate the procedure prescribed by Regulations 10 (26 CFR Part 185), will be followed in so far as applicable.

SUBPART M—ACTION BY DISTRICT SUPERVISOR

§ 189.125 *Authority to approve.* District supervisors are authorized to approve all notices and other qualifying documents required by this part.

(53 Stat. 373, as amended; 26 U. S. C. 3170)

§ 189.126 *Examination of qualifying documents.* Upon receipt of the notice, plat, plans and other documents required by this part of persons intending to qualify as proprietors of tax-paid bottling houses, the district supervisor will examine the same to determine whether they have been properly executed, and whether they reflect compliance with the requirements of the law and this part. Where any required document has not been filed, or where errors or discrepancies are found in those filed, or where the documents filed do not reflect compliance with this part, action thereon will be held in abeyance until the omission, error or discrepancy, has been rectified, and there has been full compliance with all requirements.

§ 189.127 *Inspection of premises and equipment.* When the required documents have been filed in proper form, the district supervisor will assign an inspector to examine the premises, buildings, apparatus and equipment and determine whether they conform with the description thereof in the notice, plat and plans, and whether the construction and measures of protection afforded meet the requirements of law and this part. Where the inspection discloses minor irregularities in the qualifying documents or in the construction, the inspector will, at the time of their discovery, direct the attention of the proprietor to the same in order that the proprietor may correct the defects before completion of the inspection.

§ 189.128 *Examination and approval of bottling tank.* The district supervisor will in every case detail an officer to examine carefully each bottling tank to see that it is constructed in strict compliance with this part. The officer will test the accuracy of the scales or measuring device required to be provided for the tank, and if it is found that the same is not strictly accurate, or if any portion of the equipment does not conform to the requirements of this part, he will not recommend approval of the tank until the proper changes are made. If the officer is satisfied that the bottling tank or tanks and the attachments thereto are properly constructed, and that the scales or measuring devices are accurate, he will so report to the district supervisor, in writing, and will securely attach to each such tank a certificate on Form 244. No tank or attachment thereto shall be used until such certificate has been attached and the tank and attachments thereto have been approved.

(53 Stat. 373, as amended; 26 U. S. C. 3170)

§ 189.129 *Report of inspection.* Upon completion of the inspection, a report thereof will be submitted to the district supervisor. The report shall describe separately all irregularities and discrepancies found during the course of the inspection, and shall include a complete statement describing all unusual or special conditions. Where irregularities were corrected during the inspection, the report will indicate the corrections so made. The report need not set out in detail each description as set forth in the notice, plat and plans. The description of buildings, rooms, and equipment in the report should be general and brief. However, construction, equipment, signs, etc., which are not in conformity with law and this part, will be completely described. If there are any pipe lines or other connections or openings between the tax-paid bottling house premises and other premises, the same shall be described in detail. The report will also show whether the bottling tanks are constructed in accordance with this part and whether the measuring devices provided for determining the contents of such tanks have been tested and found to be accurate and certificate on Form 244 is attached to each such tank. There shall be further embodied in the report a statement as to whether or not another business is being conducted, or is intended to be conducted, on the tax-paid bottling house premises or in the buildings or rooms thereon.

§ 189.130 *Inaccurate documents; defective construction.* Where the district supervisor's examination, or the inspector's report, discloses discrepancies in the qualifying documents, the inaccurate or incomplete documents will be returned to the proprietor for correction. Where it is found that the construction of the tax-paid bottling house or its equipment does not conform to the requirements of the law and this part, the district supervisor will inform the proprietor concerning the defects, and further action will be held in abeyance pending correction thereof.

§ 189.131 *Approval of qualifying documents.* If the district supervisor finds, upon examination of the inspection report and the qualifying documents, that the person seeking to qualify as a proprietor of a tax-paid bottling house has complied in all respects with the requirements of the law and this part, and is entitled to a permit, he will assign a registry number to the tax-paid bottling house in accordance with § 189.132, note his approval on all copies of the notice and plat and plans, and dispose of the qualifying documents and inspector's reports in accordance with § 189.134.

(53 Stat. 373, as amended; 26 U. S. C. 3170)

§ 189.132 *Registry numbers.* Tax-paid bottling houses will be numbered serially in the order of their establishment. A separate series will be used for each state. Registry numbers heretofore assigned will be retained, and new tax-paid bottling houses will be assigned numbers in sequence thereto. Registry numbers previously assigned to discontinued tax-paid bottling houses will not be reassigned to other tax-paid bottling houses. The same registry number will be continued whenever there is a change in proprietorship.

§ 189.133 *Disapproval of qualifying documents.* If the district supervisor finds that the applicant has not complied in all respects with the requirements of the law and this part, or that the situation of the tax-paid bottling house is such as would enable the proprietor to defraud the United States, he will note his disapproval on the notice and will dispose of the qualifying documents in accordance with § 189.134.

(53 Stat. 373, as amended; 26 U. S. C. 3170)

§ 189.134 *Disposition of qualifying documents.* Where the district supervisor approves the qualifying documents, he will forward to the applicant one copy of the documents with the original of the basic permit (Form 1642) issued pursuant to Regulations 1 (27 CFR Part 1) issued under the Federal Alcohol Administration Act, forward to the Commissioner the originals of the documents and a copy of the basic permit issued under the Federal Alcohol Administration Act, together with copies of inspection reports, and retain one copy of the qualifying documents for the file of the applicant. If the qualifying documents are disapproved, the district supervisor shall note his disapproval on all copies of the notice with brief statements of his reasons therfor, and return to the applicant by registered mail, one copy of the disapproved notice, together with all copies of the supporting documents. The district supervisor shall forward one copy of the disapproved notice to the Commissioner and will advise him fully respecting the disapproval thereof. He shall retain the remaining papers in his files. If the applicant is not entitled to a basic permit, the district supervisor will, upon disapproval of the application therefor, return all copies of the qualifying documents to the applicant without action thereon.

(53 Stat. 373, as amended; 26 U. S. C. 3170)

§ 189.135 *Changes subsequent to original establishment.* The action by the District Supervisor in connection with changes subsequent to the establishment of a tax-paid bottling house will be in accordance with the procedure prescribed in this part, and, insofar as applicable, the procedure prescribed by the regulations governing changes subsequent to the establishment of the proprietor's distillery, Regulations 4 (26 CFR Part 183) or Regulations 5 (26 CFR Part 184), internal revenue bonded warehouse, Regulations 10 (26 CFR Part 185), industrial alcohol plant or industrial alcohol bonded warehouse, Regulations 3 (26 CFR Part 182).

SUBPART N—ACTION BY COMMISSIONER

§ 189.140 *Procedure applicable.* The action by the Commissioner in connection with the establishment, and changes subsequent to establishment, of tax-paid bottling houses will be in accordance with the procedure, insofar as applicable, prescribed by the regulations governing the establishment, and changes subsequent to establishment, of the proprietor's distillery, Regulations 4 (26 CFR Part 183), or Regulations 5 (26 CFR Part 184), internal revenue bonded warehouse, Regulations 10 (26 CFR Part 185), industrial alcohol plant, or industrial alcohol bonded warehouse, Regulations 3 (26 CFR Part 182).

SUBPART O—INSTRUMENTS

§ 189.145 *General requirements.* Proprietors must provide themselves with proper instruments for gauging or determining the alcoholic content of spirits and wines.

§ 189.146 *Hydrometer set.* For use in determining the proof of distilled spirits and rectified spirits to which saccharine or other solid matter has not been added, proprietors will provide themselves with an accurate hydrometer set, consisting of cup with thermometer and the necessary stems.

§ 189.147 *Ebulliometer.* Except as provided in § 189.260, proprietors will provide themselves with an approved ebulliometer or a small still for use in determining the alcoholic content of blended whiskies containing sherry wine, prune juice, caramel, glycerine, etc., and of wines, cordials, liqueurs, and other rectified products containing saccharine or other solid matter. The following ebulliometers have been approved by the Commissioner for use in determining the alcoholic content of such products: Salleron-Dujardin, Juerst, Lefco, Braun, E. B. Torino (with shield), "TAG" (with shield), Malligand Type (with shield), L'Ebulliometer Levesque (with shield), and Arnaldo-Sala (with shield). The E. B. Torino, "TAG", Malligand Type, L'Ebulliometer Levesque, and Arnaldo-Sala have been approved subject to the condition that they will be used in connection with a shield to protect them from drafts or air currents.

§ 189.148 *Other instruments.* The Commissioner may authorize the use of other instruments or methods for determining the alcoholic content by volume of such blended whiskies, and of wines, cordials, liqueurs, and similar products.

§ 189.149 *Accuracy of instruments to be checked.* Government officers will from time to time check the accuracy of all instruments used at tax-paid bottling houses. Instructions for use of hydrometer sets and of small stills (or wine sets) will be found in the Gauging Manual (26 CFR Part 186) and in Regulations 7 (26 CFR Part 178), respectively. Ebulliometers will be tested in accordance with the instructions furnished with the instruments. Instructions for the use of approved ebulliometers will be found in the Appendix to Part 178 of this Chapter.

SUBPART P—PLANT OPERATION

§ 189.155 *Restrictions.* No operations pertaining to transferring of spirits from tank cars to storage or bottling tanks, gauging and dumping of spirits for bottling, bottling, or shipping, shall be carried on at a tax-paid bottling house during other than regular business hours, unless special permission is first obtained therefor from the district supervisor.

§ 189.156 *Operations after regular hours.* The district supervisor will ordinarily restrict operations at a tax-paid bottling house to regular business hours, unless it should be found necessary, upon a proper showing by the proprietor, to permit operations after such hours to meet seasonable demands or temporary emergency conditions. The proprietor may, however, in the discretion of the district supervisor, be authorized to bottle after regular business hours spirits which are transferred in accordance with the procedure prescribed in this subpart to bottling tanks during such hours, provided that the bottled spirits are kept on the premises until the following business day.

SUBPART Q—COMMENCEMENT OF OPERATIONS

§ 189.160 *Supervision of operations.* The operations of tax-paid bottling houses will be conducted under the general supervision of the storekeeper-gauger in charge of the distillery, internal revenue bonded warehouse, industrial alcohol plant, or alcohol bonded warehouse to which the tax-paid bottling house is appurtenant: *Provided*, That where the tax-paid bottling house is contiguous to a rectifying plant, the storekeeper-gauger assigned to the rectifying plant may be charged with the duty of supervising the operations of the tax-paid bottling house.

§ 189.161 *Examination of bottling house.* The storekeeper-gauger charged with the duty of supervising the operations of a tax-paid bottling house will, prior to the commencement of operations, carefully examine the premises and equipment and determine that they conform to this part.

SUBPART R—RECEIPT OF SPIRITS

§ 189.165 *Tax-paid liquors only.* Only spirits, including wines, cordials, liqueurs, etc., that have been tax-paid at the rates provided by law may be received at a tax-paid bottling house.

FROM PREMISES OTHER THAN RECTIFYING PLANTS

§ 189.166 *Deposit in bottling house.* When spirits are received, they must be deposited in the tax-paid bottling house. When spirits are received in a railroad tank car, or by pipe line they must be transferred or conveyed into storage tanks, or into bottling tanks. When spirits are transferred into or out of storage tanks, the Government officer shall open and close the Government locks, but it shall be the duty of the proprietor to manipulate the stopcocks or valves controlling the flow of the spirits. The Government officer will keep a memorandum record of the quantities of spirits entered into and withdrawn from each storage tank and of each reduction in proof of the contents thereof, by dates, in order that he may determine that only lawful, tax-paid spirits are received and withdrawn from such tanks. Distilled spirits may be received in railroad tank cars at a tax-paid bottling house only where the bottling house is equipped with suitable railroad siding facilities.

§ 189.167 *Certificate of tax-payment, Form 1595.* Where distilled spirits are received in a tank car at a tax-paid bottling house, the proprietor shall at the time the car is emptied scalp the certificate of tax-payment, Form 1595, by cutting out all of that portion of the certificate within the border. The proprietor shall then send the scalped portion of the certificate to the supervisor of the district in which the proprietor is located, and shall obliterate the remainder of the certificate.

§ 189.168 *Absence of Form 1595 to be reported.* If the tank car is received without the certificate attached thereto, the proprietor shall note such fact on the bill of lading (if any) or Form 1520 or 1440, as the case may be, covering such tank car and immediately notify the district supervisor, who will cause such inquiry to be made respecting the shipment and receipt of the car as he may deem appropriate. Where a tank car with the certificate missing is received at a tax-paid bottling house, the storekeeper-gauger will furnish a complete report to the district supervisor.

§ 189.169 *Comparison of scalped certificate with application.* The district supervisor will compare the scalped cer-

tificate of tax-payment, Form 1595, with the copy of the application therefor, Form 1594, forwarded to him by the collector at the time Form 1595 was issued. The certificate and the application will be compared as to names of vendor and vendee, number of gallons, amount of tax, etc., and any discrepancy will be investigated. The district supervisor will then send the copy of the application to the Commissioner, and, where there is a discrepancy, a report of his findings relative thereto.

§ 189.170 *Attachment of Forms 703–A, 1440 and 1520 to tanks.* When spirits received in a tank car or by a pipe line are run into a storage tank, the report of gauge, Form 1520, in the case of distilled spirits other than alcohol, and Form 1440 in the case of alcohol, or Form 703–A in the case of wine, sent to the proprietor of the tax-paid bottling house by the shipper, shall be attached to such storage tank. The proprietor shall enter the date and quantity of each removal from the storage tank in a blank space on such form. The form shall be kept on the tank until such time as a quantity equivalent to that covered by the form has been withdrawn from the tank. The form shall then be filed by the proprietor, available for inspection by Government officers. If the spirits are transferred directly from the tank car or by a pipe line into a bottling tank, the proprietor shall make a note to that effect on the form, and attach it to the tank. Upon completion of the bottling, Forms 703–A, 1440 or 1520, as the case may be, will be filed by the proprietor. Where the entire quantity or spirits received is run into more than one storage tank, or into more than one bottling tank, the proprietor will prepare additional copies of Form 703–A, 1440 or 1520, as the case may be, for attachment to each such tank, and note thereon the quantity run in each tank.

(53 Stat. 335, as amended; 26 U. S. C. 2883)

FROM RECTIFYING PLANTS

§ 189.171 *Deposit in bottling house.* When spirits are received, the same must be deposited in the tax-paid bottling house.

(53 Stat. 335, as amended; 26 U. S. C. 2883)

§ 189.172 *Extra copy of Form 230 or Form 237.* When rectified spirits are transferred by pipe line from a rectifying plant to a tax-paid bottling house on contiguous premises, an extra copy of Form 237 will be prepared by the rectifier and the same will be fully executed in the same manner as the original Form 237, including the storekeeper-gauger's certificate of tax-payment, if the spirits are subject to the rectification tax; or the storekeeper-gauger's certificate of exemption from the rectification tax, if the spirits are not subject to such tax. When spirits other than rectified spirits are to be so transferred, an extra copy of Form 230 will be fully executed in the same manner as the original Form 230 prepared by the rectifier. Upon completion of the transfer of spirits to the tax-paid bottling house, the rectifier shall enter under the certificate of cases filled on all copies of Form 237 or Form 230, a statement that the spirits described on the reverse side of the form have been transferred by pipe line to bottling tank No. _____ in the contiguous tax-paid bottling house operated by _____, together with the date of transfer.

§ 189.173 *Attachment of Forms 230 or 237 to bottling tanks.* When spirits are received by pipe line from a rectifying plant and run into a bottling tank, the copy of Form 230 or Form 237 received from the rectifier will be securely attached by means of a staple, eyelet, or similar device, to a copy of the Form 230 prepared by the proprietor of the tax-paid bottling house as evidence that the proper tax on the spirits described therein has been paid and both forms will be attached to the bottling tank. Where the spirits are run into more than one bottling tank, the proprietor of the tax-paid bottling house will prepare additional copies of Forms 230 or 237 for attachment to each such tank, and note thereon the quantity run into each tank.

MIXING IN STORAGE TANKS

§ 189.174 *Mixing of different spirits prohibited.* Spirits of less than 190 degrees of proof, received in tank cars or by pipe line, which were produced from different materials, or by two or more distillers, or at two or more distilleries, or which differ in kind according to the standards of identity established under the Federal Alcohol Administration Act, or which are otherwise heterogeneous, may not be mingled in a storage tank. Examples of spirits which are otherwise heterogeneous are spirits which have been quick-aged and spirits which have not been quick-aged, and spirits which have been stored in different kinds of cooperage. Such spirits of the same composition, produced at approximately the same proof by the same distiller at the same distillery, and differing in age (a) not more than 6 months in the case of spirits more than 2 years of age, (b) not more than 60 days in the case of spirits more than 1 year and not more than 2 years of age, or (c) not more than 30 days in the case of spirits 1 year of age or less, and packaged in the same kind of cooperage will be presumed to be homogeneous, and may be mingled in a storage tank. Where it is desired to mingle spirits falling within more than one of the age categories specified, the difference in age allowable shall be determined according to the age of the youngest spirits. For example, if spirits not more than 1 year of age are mingled with spirits more than 1 year old, the spirits must not vary in age more than 30 days. Spirits of 190 degrees of proof or more, received in tank cars or by pipe line, distilled from the same class of materials (such as grain) will be presumed to be homogeneous and may be mingled in a storage tank.

(Sec. 205, 49 Stat. 981 as amended; 53 Stat. 335 as amended, 391; 27 U. S. C. 205, 26 U. S. C. 2883, 3254)

SUBPART S—DUMPING AND BOTTLING

§ 189.185 *Application, Form 230.* Proprietors of tax-paid bottling houses desiring to bottle tax-paid spirits will execute application on Form 230, in duplicate, giving all of the data called for by the form as indicated by the headings of the various columns and lines and the instructions printed thereon or issued in respect thereto and as required by this part. The proprietor will enter on Form 230 the details of the withdrawal gauge for taxpayment when packages of spirits are to be dumped for bottling, or when liqueurs or cordials are authorized to be bottled from the original package, as provided in § 189.196; or when spirits received in a tank car or by pipe line are conveyed directly into one bottling tank. When spirits received in a tank car or by pipe line are conveyed directly into one or more bottling tanks, or where spirits are withdrawn from a storage tank and run either directly or through a dumping and reducing tank into one or more bottling tanks, the proprietor will enter on a separate Form 230 the details of gauge of each bottling tank giving all applicable information. An actual gauge of the spirits will, however, be made in any case before the bottling begins, and the details of such gauge will also be entered on Form 230, as provided in §§ 189.195 and 189.196. Except as permitted in § 189.197, the proof of spirits shall be adjusted to a whole degree of proof preparatory to bottling. Adjusting the proof to tenths of a degree, either above or below the whole or complete degree, will not be permitted: *Provided*, That when spirits are being prepared for bottling and are to be bottled and labeled in tenths of a degree of proof, such as 86.4, the proof of the spirits shall be adjusted to such tenths of a degree of proof. The proof in each instance shall be verified as to accuracy by the Government officer. Each Form 230 will be given a serial number beginning with "1" for the first day of January of each year and running consecutively thereafter to December 31, inclusive. A separate application on Form 230 must be prepared for each tank of tax-paid spirits to be bottled.

(53 Stat. 335, as amended; 26 U. S. C. 2883)

§ 189.186 *Distiller's original or wholesale liquor dealer's packages.* Where the spirits to be dumped are contained in distiller's original packages, the proprietor will cut out with a sharp instrument that portion of each tax-paid stamp upon which is shown the serial number of the stamp, the date, the name of the distiller or warehouseman, the proof gallons, and the serial number of the package. In the case of wholesale liquor dealer's packages, that portion of each stamp extending from the top to the bottom and embracing the entire width between the words "proof" and "collector" appearing near the bottom of the stamp, will be cut out. The scalped portions of the stamps will be securely attached by means of a staple, eyelet, or similar device, to a slip of paper in such manner that the data thereon may be readily examined, and such slip of paper bearing the cut-out portions of the stamps will be securely attached to the original Form 230.

§ 189.187 *Rectified spirits.* If packages of rectified spirits are to be dumped, that portion of each rectified spirits stamp showing the serial number, the date, the name of the rectifier, the proof gallons, the class, and the district and State, will be cut out and attached to the original Form 230 in the same manner as tax-paid stamps.

§ 189.188 *Imported spirits.* Where packages of imported spirits are to be dumped, that portion of each customs stamp showing the kind of spirits, the serial number, date of issue, name of the importer, proof gallons, and the name and district of the collector of customs, will be cut out and attached to the original Form 230 in the same manner as tax-paid stamps.

§ 189.189 *Unstamped spirits.* When a stamp has been lost or mutilated by accident so that the required portion thereof cannot be returned, an affidavit setting forth all the facts in the case will be made by the proprietor and attached to each copy of Form 230. Where spirits are received in a tank car bearing a certificate of tax payment, Form 1595, or spirits are received by pipe line, or where spirits in stamped bottles are to be dumped, an explanatory statement will be made in the columns provided for the description of stamps on Form 230, as "Form 1595, Serial No. _____, dated _____, heretofore submitted," or "Form 1520, dated _____, pipe line transfer on Form 1595, Serial No. _____," or "Form 1440, dated _____, pipe line transfer on Form 1595, Serial No. _____," or "See Form 230, Serial No. _____, dated _____," or "See Form 237, Serial No. _____, dated _____," or "In Stamped Bottles," as the case may be.

§ 189.190 *Wines.* Since it is impracticable to scalp wine stamps, the proprietor will, whenever wines are to be dumped from properly stamped containers, certify to such fact by writing the words "Wine stamps attached to the containers" in the columns provided for the description of stamps on Form 230. If the wine to be dumped is in a tank car, storage tank, bottles, or other container to which wine stamps representing the tax are not attached, a statement explaining the absence of the stamps will be attached to each copy of Form 230.

§ 189.191 *Statement of Government officer.* Where scalped portions of the stamps are not attached to Form 230, the storekeeper-gauger charged with the duty of supervising the operations at the tax-paid bottling house will attach to each copy of Form 230 a statement, over his signature, setting forth the reasons why the scalped portions of the stamps are not attached.

§ 189.192 *Approval by storekeeper-gauger.* The proprietor will submit both copies of Form 230 for the approval of the storekeeper-gauger assigned to supervise operations at the tax-paid bottling house. When packages of distilled spirits are to be dumped for bottling, the proprietor will submit with Form 230 a copy of the withdrawal gauge for taxpayment (Form 1520, etc.), and the storekeeper-gauger will examine the packages described in the application, the withdrawal gauge for tax-payment, and the scalped portions of tax-paid stamps, or the affidavit or statement in lieu thereof. When spirits are received by pipe line from contiguous premises (other than rectifying plants) or by tank car and are conveyed directly into bottling tanks, the storekeeper-gauger will compare the kind and quantity described in the application with the kind and quantity reported tax-paid on the withdrawal gauge for taxpayment (Form 703–A, 1440 or 1520, as the case may be). When spirits are received by pipe line from contiguous rectifying plants and are conveyed directly into bottling tanks, the storekeeper-gauger will compare the kind and quantity described in the application with the kind and quantity reported transferred on Form 237 or 230, as the case may be, attached to a copy of Form 230 submitted by the proprietor. The serial number of the copy of Form 230 or Form 237, received from the rectifier, will be noted by the proprietor on both copies of Form 230 prepared by him. Where spirits to be bottled have been transferred from storage tanks to bottling tanks, the storekeeper-gauger will compare the kind and quantity described in the application with the kind and quantity reported withdrawn on Form 703–A, 1440 or 1520, as the case may be, attached to the storage tank. If the storekeeper-gauger finds that the spirits to be bottled are as described and have been lawfully tax-paid, and the forms are properly prepared, he will execute his certificate and the authorization for bottling, and return both copies to the proprietor.

(53 Stat. 335, as amended; 26 U. S. C. 2883)

§ 189.193 *Locking of bottling tank.* When the proprietor desires to transfer spirits to a bottling tank, and the inlet thereof is locked, he will request the Government officer to unlock the inlet of the tank to permit the transfer of the spirits thereto. At the time of opening the inlet to the bottling tank, the Government officer will lock the outlet thereof, which must remain locked until the spirits have been transferred to the tank, the inlet locked and the quantity of spirits in the tank determined. The inlet of the bottling tank will, except as provided in § 189.63, remain locked until all spirits within the tank have been bottled and the outlet has been locked.

§ 189.194 *Transfer of packages of spirits to bottling tank.* Upon approval of Form 230 by the storekeeper-gauger, as provided in § 189.192, the proprietor will, in the case of packages, dump the spirits and run them either directly or through a dumping and reducing tank into a bottling tank.

§ 189.195 *Bottling tank gauge.* The proprietor will make an actual gauge of the spirits in the bottling tank after they have been reduced to bottling proof where such reduction is permissible, and before they are released by the Government officer for bottling, and the details of such gauge (calculated or corrected to volume in accordance with the provisions of the Gauging Manual (26 CFR Part 186)) will be entered in the space provided therefor on all copies of Form 230; and one copy of the form will be attached to the bottling tank.

§ 189.196 *Bottling tank to be used.* All spirits bottled at a tax-paid bottling house must be bottled from approved bottling tanks: *Provided*, That the district supervisor may authorize the bottling from the original package of liqueurs and cordials which it is impracticable to bottle from an approved bottling tank. Where liqueurs or cordials are authorized to be bottled from the original package, the proprietor will gauge such liqueurs or cordials before the bottling begins and enter the details thereof on all copies of Form 230.

(53 Stat. 318; 26 U. S. C. 2829)

§ 189.197 *Reduction of spirits.* Unrectified spirits in storage, dumping and reducing or bottling tanks may be reduced in proof prior to the commencement of bottling. The reduction in proof or the increasing in volume, at a tax-paid bottling house, of rectified spirits on which the rectification tax has been paid is prohibited by law. However, the restoration to the original proof and volume of rectified spirits upon which the rectification tax has been paid, by the addition of water, preparatory to bottling, shall not be deemed a reduction in proof or an increase in volume within the meaning of section 2801 (b) of the Internal Revenue Code. Liqueurs and cordials upon which the tax imposed by section 3030 (a) of the Internal Revenue Code has been paid, may not be reduced in proof or increased in volume, nor may wines be increased in volume or in taxable grade, at a tax-paid bottling house. Section 2801 (b) of the Internal Revenue Code is not applicable to the reduction of imported spirits rectified abroad, or of spirits rectified in Puerto Rico, the Virgin Islands, or of domestically rectified spirits exempt from rectification tax.

(53 Stat 300, as amended; 26 U. S. C. 2801)

§ 189.198 *Mingling of different spirits prohibited.* Spirits of less than 190 degrees of proof, which were produced from different materials, or by two or more distillers, or at two or more distilleries, or which differ in kind according to the standards of identity established under the Federal Alcohol Administration Act, or which are otherwise heterogeneous, may not be mingled in a dumping and reducing or bottling tank for convenience in bottling. Examples of spirits which are otherwise heterogeneous are spirits which have been quick-aged and spirits which have not been quick-aged, and spirits which have been stored in different kinds of cooperage. Such spirits of the same composition, produced at approximately the same proof by the same distiller at the same distillery, and differing in age (a) not more than 6 months in the case of spirits more than 2 years of age, (b) not more than 60 days in the case of spirits more than 1 year and not more than 2 years of age, or (c) not more than 30 days in the case of spirits one year of age or less, and packaged in the same kind of cooperage will be presumed to be homogeneous, and may be mingled in a dumping and reducing or bottling tank for convenience in bottling. Where it is desired to mingle spirits fall-

ing within more than one of the age categories specified, the difference in age allowable shall be determined according to the age of the youngest spirits. For example, if spirits not more than one year of age are mingled with spirits more than 1 year old, the spirits must not vary in age more than 30 days. Packages of blended or rectified spirits filled from the same blend or rectification, or from different blends or rectifications made with precisely the same spirits under the same formula, packaged in the same kind of cooperage, and stored under the same conditions, will likewise be presumed to be homogeneous, and may be dumped together for convenience in bottling. Spirits of 190 degrees of proof or more, distilled from the same class of materials (such as grain) will be presumed to be homogeneous and may be mingled in a dumping and reducing or bottling tank for convenience in bottling.

(Sec. 205, 49 Stat. 981, as amended, 53 Stat. 335 as amended, 391; 27 U. S. C. 205, 26 U. S. C. 2683, 3254)

§ 189.199 *Testing of spirits dumped together for bottling.* Whenever there is doubt as to whether the dumping together of the contents of two or more containers of spirits is permissible, that is, whether the spirits are of the same composition and are homogeneous, a sample of each component of the proposed mixture should be compared with a sample of the final mixture by chemical analysis and by taste, color, and other tests to ascertain whether the mixture is homogeneous with each of its component parts. The regular dumping together of spirits of different ages, or different blends or rectifications, at the time of bottling is indicative of blending (rectification). The district supervisor will make appropriate inquiry where such dumping is done pursuant to Form 230 to determine whether the mass of spirits dumped together is homogeneous with each of its component parts.

§ 189.200 *Permissible filtration.* Filtering which consists of merely removing foreign substances, such as particles of char, wood, dirt, or other extraneous, solid matter, that have got into the spirits since manufacture, and which does not change the original character of the spirits through removal of congeneric substances, or change the composition of the spirits, may be done at tax-paid bottling houses, since such filtering does not constitute rectification.

§ 189.201 *Use of filter-aids.* Filter-aids may be used at tax-paid bottling houses only when they do not change the original character or composition of the spirits, either by the abstraction of any essential constituent or the addition of any substance.

§ 189.202 *Prohibited filtration.* Any filtering of distilled spirits which purifies or refines the same constitutes rectification and may be done only at a rectifying plant. The filtering out of cloudiness in whisky, gin, or other spirits, other than that due to the presence of finely pulverized or agglutinated charcoal or other extraneous, solid matter in suspension, which results in the removal of terpenes or congeneric substances from the spirits and changes their original composition, constitutes rectification.

(53 Stat. 391; 26 U. S. C. 3254)

§ 189.203 *Destruction of stamps, marks, and brands.* When packages of spirits are dumped for bottling, all stamps, except the cut-out portions attached to Form 230, and all marks and brands which such packages are required by law to bear, must be completely effaced and obliterated. This should be done immediately upon completion of the dumping, draining, and rinsing of the packages. Certificates of tax-payment affixed to tank cars of distilled spirits, except the portion thereof scalped for submission to the district supervisor, must likewise be immediately destroyed when such cars are emptied. When packages of wines are emptied by any person, all stamps and marks which such packages are required by law and regulations to bear must be destroyed by scraping or obliteration immediately the packages are emptied. All labels and stamps affixed to tank cars, tanks, tank trucks, or similar containers of wine indicating tax-payment of the contents must also be scraped or obliterated immediately such containers are emptied.

(53 Stat. 330, 398; 26 U. S. C 2866, 3301)

§ 189.204 *Rinsing of barrels.* When packages are dumped for bottling, the barrels and char and wood chips, if any, contained therein must be thoroughly rinsed with water. When packages of distilled spirits which were rinsed in the internal revenue bonded warehouse at the time they were dumped for tax-payment are dumped for bottling, the barrels, char and wood chips contained therein must be thoroughly rinsed with water of a temperature not greater than that of the rinse water used at the time of tax-payment as shown by the marking on the barrels. The rinse water obtained at the time of dumping for bottling may be used to reduce the proof of spirits dumped from such barrels in the tax-paid bottling house. When packages containing rectified spirits exempt from the rectification tax are dumped for bottling, the barrels and char contained therein must be thoroughly rinsed and the rinse water obtained may be used to reduce the proof of spirits dumped from such barrels in the tax-paid bottling house. Any rinse water remaining after reduction must be poured upon the ground or into a sewer and may not be mixed with spirits dumped from other packages. In the case of packages not rinsed in the internal revenue bonded warehouse at the time of tax-payment and in the case of packages containing rectified spirits on which the rectification tax has been paid, the barrels, char and wood chips contained therein must be thoroughly rinsed with water. Except as provided in § 189.197, the rinse water obtained from such barrels may not be used to reduce the proof of spirits dumped from such barrels in the tax-paid bottling house, but must be poured upon the ground or into a sewer. Char and wood chips dumped from packages must be burned on the premises of the tax-paid bottling house, or, if such burning is not practicable, treated with kerosene before removal from the premises. Where kerosene is used, it must be sprayed or sprinkled on the materials, using not less than 1 gallon of kerosene to each 100 pounds of materials, in such manner as to preclude the abstraction of potable spirits from any part of the materials after removal from the premises. This will be effected by stirring or agitating the materials while the kerosene is being applied. Such burning or treating of materials must be done under the supervision of a Government officer. The district supervisor may authorize any other disposition of the materials that will effectively prevent recovery of spirits therefrom. Packages which were tax-paid prior to September 1, 1950, may continue to be rinsed in the tax-paid bottling house and the rinse water used in the same manner as permitted prior to September 1, 1950.

(53 Stat. 335, as amended; 26 U. S. C. 2883)

§ 189.205 *Extracting spirits from wood forbidden.* The rinsing with water of a temperature in excess of that provided for in § 189.204, or the steaming of packages, char or wood chips, for the purpose of extracting spirits from the staves and heads of the packages or from the char or wood chips, is forbidden, unless such rinse water is immediately destroyed. Likewise, such barrels may not be filled or partially filled with water and permitted to stand for the purpose of extracting spirits, nor may any other method or process, except as authorized in § 180.204, be used to extract spirits from the barrels.

(53 Stat. 306, 335, as amended; 26 U. S. C. 2806, 2883)

§ 189.206 *Completion of bottling.* When the contents of a bottling tank are not completely bottled at the close of the day the bottler shall enter in his certificate on the copy of Form 230 attached to the bottling tank the total quantity bottled that day from such tank, giving all the information required by the form. The Form 230 shall be kept on the tank until the entire contents are bottled. Upon completion of the bottling the bottler will remove Form 230 from the bottling tank, complete the execution of his certificate on all copies, and submit them to the storekeeper-gauger for verification.

§ 189.207 *Remnants.* Where, upon the completion of bottling, there remain bottles less than the number necessary to fill a case, such bottles may, after being stamped or labeled in accordance with this part, be removed to the case storage room or to the wholesale liquor dealer premises or placed in a case and kept in the bottling room until spirits of the same kind are again bottled, whereupon the filling of the case will be completed. Appropriate notation will be made on Form 230 to cover the bottling of the remnant, and if such remnant is subsequently used to complete the filling of a case, a notation will be made on the subsequent Form 230 to show such use of the remnant. Appropriate notation in such case will also be made on Form 52–D.

§ 189.208 *Disposition of Form 230.* Immediately after the completion of the bottling and the proper completion of Form 230, the proprietor will forward the original copy of the form, with the cut-out portions of the tax-paid stamps, or the affidavit or statements required in lieu thereof, to the district supervisor, and will file the remaining copy as a permanent record at the plant, available for inspection by Government officers. Where Form 237 or Form 230 is attached to one copy of Form 230 as evidence that the proper tax on the spirits transferred from a rectifying plant has been paid, such copy of Form 230 with Form 237 or Form 230 attached will be filed by the proprietor and the original copy of Form 230 will be forwarded immediately to the district supervisor.

§ 189.209 *Liquor bottles.* The proprietor of a tax-paid bottling house must comply with the provisions of Regulations 13 (26 CFR Part 175), respecting the use of liquor bottles and other containers for rectified and unrectified products. Marked liquor bottles may not be used for packaging wines containing 24 percent or less of alcohol by volume, or products manufactured with such wines, unless such products contain distilled spirits other than those used in fortifying the wine. Bottles must be filled as nearly as possible to conform to the amount stated on the stamp, and on the label or bottle, to be contained therein, but in no event may the amount of spirits contained in any bottle, due to the lack of uniformity of the bottles, vary more than 2 percent from the amount stated to be contained therein and, further, in such case there shall be substantially as many bottles overfilled as there are bottles underfilled for each lot of spirits bottled as reported on Form 230.

§ 189.210 *Red strip stamps.* The proprietor of a tax-paid bottling house must affix over the mouth of each bottle of distilled spirits and compounds containing distilled spirits filled at his plant, except distilled spirits bottled especially for export with benefit of drawback, a red strip stamp, as provided in Subpart T. Red strip stamps shall not be affixed to bottles of wines containing 24 per centum or less of alcohol by volume, or products manufactured with such wines, unless such products contain distilled spirits other than those used in fortifying the wine.

§ 189.211 *Labels for distilled spirits.* The labels used by proprietors of tax-paid bottling houses on bottles of distilled spirits and compounds containing distilled spirits must be covered by a certificate of approval of labels of domestically bottled distilled spirits (Form 1649), or a certificate of exemption from label approval for distilled spirits (Form 1650), issued pursuant to Regulations 5 (27 CFR Part 5) issued under the Federal Alcohol Administration Act, as provided in Subpart U. Labels covered by a certificate of exemption from label approval affixed to bottles of a capacity of one-half pint or more but not exceeding 1 gallon, in which distilled spirits or compounds containing distilled spirits are packaged for sale at retail, must conform to the provisions of Regulations 13 (26 CFR Part 175).

§ 189.212 *Labels for wines.* The labels used by proprietors of tax-paid bottling houses on bottles or packages of wines must be covered by a certificate of approval of labels of wine domestically bottled or packed (Form 1649), or a certificate of exemption from label approval for wine (Form 1650), issued pursuant to Regulations 4 (27 CFR Part 4) issued under the Federal Alcohol Administration Act. Each bottle in which wine is packaged by the proprietor of a tax-paid bottling house must bear a securely affixed label showing the name and address of the proprietor, the kind of wine, the alcoholic content by volume, except that if not over 14 percent it may be so stated, and the net contents of the bottle, unless legibly blown in the bottle: *Provided*, That where the wines are bottled for a dealer under a certificate of exemption from label approval, the name and address of such dealer may be substituted for the name and address of the proprietor, if the name and address of the dealer are preceded by the words "Bottled for" or "Bottled expressly for" and the number of the warehousing and bottling permit of the proprietor is shown on the label. A separate label showing the data specified in the previous sentence need not be affixed to the bottle if such data is shown on the label covered by the certificate issued under the Federal Alcohol Administration Act.

§ 189.213 *Rebottling, relabeling, and restamping of bottled spirits.* Where distilled spirits packaged in bottles are to be rebottled for domestic sale, the bottles, if of a capacity of one-half pint or greater and not exceeding 1 gallon, must conform to the requirements of Regulations 13 (26 CFR Part 175). The spirits may be rebottled in the same bottles from which removed if such bottles containing the spirits originally conform to the requirements of Part 175 of this chapter and have not been sold to the consumer or opened, and the use of such bottles is authorized by the district supervisor in accordance with the said regulations. The new label must be covered by an appropriate certificate of label approval (Form 1649) or a certificate of exemption from label approval (Form 1650) issued pursuant to Regulations 4 and 5 (27 CFR Parts 4 and 5), issued under the Federal Alcohol Administration Act. If the new label is covered by a certificate of exemption from label approval, it must conform to the requirements of Part 175 of this chapter. If the spirits have left the possession of the original bottler and are to be relabeled without rebottling, authorization to relabel the spirits must be obtained in accordance with regulations issued under the Federal Alcohol Administration Act and submitted to the Government officer supervising operations of the plant. Whenever bottled distilled spirits are dumped for rebottling, the red strip stamps on the bottles must be destroyed at the time of dumping, and new red strip stamps must be affixed to the bottles in which the spirits are rebottled. Such rebottling, relabeling, and restamping operations will be performed under the supervision of the Government officer. All products to be rebottled will be dumped pursuant to Form 230.

SUBPART T—RED STRIP STAMPS

§ 189.225 *Requisition, Form 428.* Proprietors of tax-paid bottling houses may purchase red strip stamps indicating tax-payment of bottled distilled spirits in anticipation of their current needs. Requisition for red strip stamps will be made by proprietors on Form 428, in triplicate.

§ 189.226 *Stamp denominations.* Red strip stamps will be provided in the following denominations only: 1 gallon, ½ gallon, 1 quart, ⅘ quart, ¾ quart, 1 pint, ⅘ pint, ¾ pint, ½ pint, and less than ½ pint. Red strip stamps will be issued 50 in a sheet. Requisitions for red strip stamps by proprietors of tax-paid bottling houses must be made for full sheets. Stamps less than a full sheet may not be sold by a collector to proprietors of tax-paid bottling houses.

§ 189.227 *Approval of requisition.* The proprietor will submit all copies of the requisition, Form 428, to the Government officer for approval. Before approving the requisition, the approving officer will see that it is properly executed and will satisfy himself that the number of stamps for which requisition is made is necessary for the current needs of the proprietor. No red strip stamps may be issued for use at tax-paid bottling houses unless Form 428 is approved. Upon approval of the form, the approving officer will return all copies to the proprietor.

§ 189.228 *Purchase and use.* Red strip stamps will be purchased by proprietors of tax-paid bottling houses from the collector of the district in which the bottling house is located. Stamps may not be purchased by one proprietor from another, nor may they, except in cases of emergency, be purchased from collectors of other districts. Proprietors of tax-paid bottling houses shall not sell or transfer strip stamps. Unused strip stamps may be exchanged or redeemed in accordance with the provisions of § 189.241. Red strip stamps, used or unused, may not be purchased, sold, or possessed, except as specifically provided by laws or regulations.

§ 189.229 *Remittance; delivery.* All orders for strip stamps must be accompanied by cash, certified, cashiers' and treasurers' checks drawn on National and State banks and trust companies, United States postal notes, and postal, bank, express, and telegraph money orders, in a sum equal to the value of the stamps. When strip stamps are ordered to be sent by registered mail, the proprietor shall enclose with his order a separate remittance to cover the postage and registry fee and any required registry surcharge as provided by the postal laws and regulations. If the remittance is other than cash, the sum to cover the postage and registry fee and any surcharge must not be included in the remittance covering the cost of the stamps. The local postmaster should be consulted relative to the amount of the registry fee and surcharge required. When stamps

are ordered sent by express, the same will be sent "collect." The proprietor will forward all copies of the approved Form 428 received from the approving officer to the collector of internal revenue with the remittances. The collector will enter the serial numbers of the stamps issued and stamp the date of sale on all copies of Form 428, and will retain one copy and send the original to the district supervisor and one copy (by mail) to the Government officer at the tax-paid bottling house. The collector will, in every case, forward the stamps to the Government officer at the tax-paid bottling house, in care of the proprietor. The proprietor will retain the package intact and deliver it unopened to the Government officer. The Government officer will enter receipt of the stamps on Form 182 and will immediately place them in the Government room, vault or cabinet provided in accordance with § 189.290.

(53 Stat. 447, as amended; 26 U. S. C. 3656)

§ 189.230 *Shipment of stamps.* Where the stamps are to be shipped, the collector will forward the stamps to the Government officer by registered mail or express. The expense of forwarding the stamps by registered mail or express will be borne by the proprietor. The collector may furnish the stamps directly to the proprietor for immediate delivery to the Government officer in accordance with § 189.229.

§ 189.231 *Proprietor's daily requisition.* The proprietor will make requisition of the Government officer for the necessary number of stamps for each day's bottling or for each lot of spirits bottled. The requisition will be prepared in the following form:

(Name of plant)

(Plant requisition number)

(Date)

To United States Storekeeper-Gauger:

Please deliver to our bottling department the following red strip stamps to be used for affixing to bottles of tax-paid spirits to be drawn from bottling tanks shown herein.

§ 189.232 *Stamps issued in serial order.* All red strip stamps will be issued by the Government officer to the proprietor in proper serial order, starting with the lowest serial number of the stamps of the denomination desired on hand at the time of issuance. The proprietor will not, however, be required to affix red strip stamps in serial order.

§ 189.233 *Requisitions to be filed.* Government officers will retain copies of Form 428 returned by the collector, and the proprietor's daily requisitions at the plant as a record available for inspection by other Government officers and will file them in chronological order.

§ 189.234 *Officer's responsibility.* Government officers who have custody of red strip stamps will be held strictly responsible for the proper control and accounting of all stamps received, issued, used, and on hand. They shall determine whether the number of stamps requisitioned is needed; that those issued are properly affixed to bottles of tax-paid spirits; that all stamps issued to the proprietor and not used are returned to them; and that a proper accounting is made of all stamps reported mutilated.

§ 189.235 *Cutting stamps in advance.* The Government officer will enter on Form 182 all red strip stamps received from the collector. He may thereafter, upon request, permit the proprietor to cut all, or any quantity, of such stamps in advance of his needs. Such red strip stamps will be cut under the supervision of the Government officer and returned to him in the same numerical sequence. Each separate package of cut red strip stamps must be marked with the quantity of such stamps in the package and the first and last numbers, as, "5,000, serial Nos. 1,600,001 to 1,600,100." Government officers when issuing red strip stamps will enter in the space provided therefor on the proprietor's requisition the denomination, quantity, and serial numbers of the stamps.

§ 189.236 *Manner of affixing stamps.* The stamps must be securely affixed to the bottles with the use of a good adhesive. The adhesive used must be in proper liquid condition, and care must be taken to cover the entire back of the stamp with the adhesive, and to press the whole surface of the stamp firmly against the surface of the bottle sufficiently long to cause the entire surface of the stamp to adhere securely to the bottle. The stamp must pass over the mouth of the bottle, extending an approximately equal distance on two sides of the bottle and be so affixed that a portion of the stamp will remain attached to the bottle when it is opened.

§ 189.237 *Concealing or obscuring stamps prohibited.* No part of the stamp shall be concealed or obscured by any label or other covering, except that a cup may be placed over the opening of the bottle or the bottle may be placed in a carton, as provided in this part. Seals made of cellulose or other material which are shrunk or otherwise fitted over the necks of the bottles and cover the stamps must be sufficiently transparent to permit the stamps to be plainly seen and the data thereon easily read. No cup or cap may be placed over the opening of a bottle and cover the stamp, unless such cup or cap is transparent or is so placed on the bottle that it may be readily removed at any time without injury to the stamp and the arrangement is such that the ends of the stamp will be plainly visible when the cap or cup is in place. Cartons or other coverings of bottles of distilled spirits are permitted, if so made that they may be opened and closed without being torn or broken. Sealed cartons or other coverings may not be used unless transparent or unless openings therein permit the data on the stamp and the indicia on the bottle to be plainly seen and read.

§ 189.238 *Affixing stamp over cup or cap.* The stamp may be affixed over a cup or cap placed over the opening of the bottle, provided the arrangement is such that the stamp will be torn apart or destroyed when the cup or cap is unscrewed or removed or destroyed. Where it is desired to affix the stamp over a removable cup or cap, the cup or cap must be securely screwed or fastened over the opening of the bottle, and must be of such size and construction that the stamp will pass over the top and extend beyond the cup or cap for such length that each end of the stamp may be securely affixed to the surface of the bottle. Any bottler using such a cup or cap must see to it that the stamp is securely affixed, with a strong adhesive, to both the cup or cap and the bottle in such a manner that the stamp will be torn apart when the cup or cap is unscrewed or removed. Where it is desired to affix the stamp over a cap or seal made of cellulose or other similar adhesive material which is so shrunk or otherwise fitted over the neck of the bottle as to be unremovable without being destroyed, it will not be necessary for the ends of the stamp to be affixed to the surface of the bottle, but the cap or seal and stamp must be so affixed that a portion of each will remain attached to the bottle when it is opened. In any case where there is doubt as to the propriety of the use of any cup or cap, the bottle and cup or cap should be submitted to the district supervisor for a ruling thereon.

§ 189.239 *Bulk containers in excess of 1 and less than 5 gallons.* Where alcohol or other distilled spirits are packaged in containers in excess of 1 gallon and less than 5 gallons, a red strip stamp must be securely affixed over the opening of the container in such a manner that the stamp will be destroyed when the container is opened. Stamps of 1-gallon denomination will be used for such containers and the denomination of the stamp will be changed by obliterating the figure "1" on each end of the stamp over the abbreviation "Gal." and writing or printing immediately above the same other figures representing the exact contents of the container. Alcohol and other distilled spirits in such containers may be sold or disposed of only as provided in § 189.320.

§ 189.240 *Non-usable strip stamps.* Strip stamps issued by foreign countries may not be affixed to either imported or domestic spirits bottled at tax-paid bottling houses and intended for domestic consumption, nor may red strip stamps which have been mutilated be used at such plants. Unless eligible and intended for exchange or refund as provided in § 189.241, red strip stamps that have been multilated should be destroyed by the proprietor under the supervision of the Government officer, who will then enter appropriate credit on Form 182 for the number of each denomination of stamps so destroyed.

§ 189.241 *Exchange and redemption of stamps.* Unused red strip stamps, in quantities of the value of $5 or more, issued under subsection (b) of section 2803, Internal Revenue Code, may be exchanged for other stamps of the same kind and in any prescribed denomination, or the value thereof may be refunded, provided that a claim for such exchange or refund, establishing the lawful issuance and ownership of the stamps, is filed with the collector of internal revenue who issued the stamps within two years after the date on which such stamps were lawfully issued: *Provided, however,* That the value of unused stamps which have been destroyed may be refunded upon the filing of a claim as provided in this section with proof to the satisfaction of the Commissioner of the destruction of the stamps. Claims for exchange of stamps will be filed on Form 1579, which will be prepared in accordance with the instructions printed on the form, signed and sworn to before an officer authorized to administer oaths: *Provided,* That if the form officially prescribed for such application contains therein a provision for verification by a written declaration that such application is made under penalties of perjury, such application shall be verified by the execution of such declaration, and such declaration so executed shall be in lieu of the oath required herein for verification. Claims for refund of the value of the stamps will be filed on Form 843, in accordance with procedure prescribed by the Commissioner.

(63 Stat. 667; 26 U. S. C. 3809)

§ 189.242 *Record, Form 96.* Where the red strip stamps are returned to the proprietor for filing a claim for exchange or redemption, the proprietor shall account for such stamps on Form 96, until the exchange or redemption has been effected. The form will be prepared and disposed of in accordance with the applicable instructions thereon relating to "Other persons assigned custody of stamps."

§ 189.243 *Record and report.* Storekeeper-gaugers assigned to supervise operations at tax-paid bottling houses will make a record and report of red strip stamps received and used on Form 182, as provided in Subpart Z.

Subpart U—Labels on Bottles of Distilled Spirits

§ 189.255 *Certificate of approval or exemption.* All bottlers of distilled spirits are required by Regulations 5 (27 CFR Part 5), issued under the Federal Alcohol Administration Act, to obtain a certificate of approval of labels of domestically bottled distilled spirits (Form 1649) or a certificate of exemption from label approval for distilled spirits (Form 1650) before using labels on bottles of distilled spirits.

(Sec. 5, 49 Stat. 981, as amended; 27 U. S. C. 205)

§ 189.256 *Certificates to be exhibited.* All bottlers of distilled spirits are required to exhibit certificates of label approval (Form 1649) or certificates of exemption from label approval (Form 1650) upon request to a duly authorized representative of the United States. Internal revenue officers will call upon the proprietor to exhibit the required certificates of label approval or certificates of exemption from label approval. The original certificate or duplicate original issued pursuant to Regulations 1 (27 CFR Part 1), issued under the Federal Alcohol Administration Act, must be exhibited to the officer. Photostatic copies are not acceptable for this purpose.

(Sec. 5, 49 Stat. 981, as amended; 27 U. S. C. 205)

§ 189.257 *Comparison of labels with contents of bottling tank.* Before releasing spirits from bottling tanks for bottling, the Government officer will require the proprietor of the tax-paid bottling house to submit to him the label he proposes to use for the spirits in the bottling tank, together with the certificate of label approval (Form 1649) or the certificate of label exemption (Form 1650), as the case may be: *Provided,* That in the case of spirits for export, other than to Puerto Rico, no certificate is required. The storekeeper-gauger will compare such label with the label affixed to such certificate, if any, to see that they agree in every respect except for the difference allowed by the certificate. In the case of spirits for export, the storekeeper-gauger will compare the label with the bottling requirements in Regulations 28 (26 CFR Part 176). In order to determine whether the label to be used corresponds in every respect with the spirits in the bottling tank including age, class and type, and proof, he will then compare such label with Form 230; with the certificate of origin, age, and class and type in the case of imported distilled spirits, where required by Regulations 5 (27 CFR Part 5), issued under the Federal Alcohol Administration Act; and with the statement of composition in the case of distilled spirits received from a rectifier, in accordance with the provisions of Regulations 15 (26 CFR Part 190). In making this determination he will take into consideration the kind of spirits, the proof of distillation, the kind of cooperage in which the spirits were stored, and whether the spirits were treated with oak chips, etc., as disclosed by the marks and brands on the packages, and by the information contained in the certificate of origin, age, and class and type, or in the statement of composition. If the label and spirits agree in every respect, the Government officer will attach the label securely to the copy of Form 230 to be attached to the bottling tank and release the spirits for bottling. If the label and spirits do not agree in every respect, the Government officer will withhold the release of the spirits for bottling until the proprietor submits to him a label and, when required, a certificate of label approval or exemption, as the case may be, correctly describing the spirits to be bottled.

(Sec. 5, 49 Stat. 981, as amended; 27 U. S. C. 205)

§ 189.258 *Additional label requirements.* Officers assigned to tax-paid bottling houses will also see that all labels affixed to containers of distilled spirits subject to the provisions of Regulations 13 (26 CFR Part 175) conform to the requirements of such regulations. The methods prescribed in § 189.257 will be followed in making such determinations.

§ 189.259 *Tests of bottled spirits.* Officers assigned to tax-paid bottling houses will, at frequent, irregular intervals during the process of bottling, test and examine the bottled spirits to determine whether the label attached is identical with the label verified by the Government officer under § 189.257; whether the bottled spirits agree in proof with the data on the label; and whether the quantity agrees with the data on the label, stamp or bottle, subject to the limitation prescribed by §189.209. The test as to proof will be made in accordance with the provisions of the Gauging Manual (26 CFR Part 186). The test as to quantity will be made by the utilization of a glass graduate standardized at sixty degrees Fahrenheit to be provided by the proprietor or by weighing a given number of empty bottles and reweighing the same bottles after filling. The net contents will be computed in accordance with the provisions of the Gauging Manual. If the contents do not agree as to quantity (subject to the limitation of § 189.209) or as to proof (subject to a normal drop in proof occurring during bottling operations not to exceed three-tenths of a degree) with the respective data on the label, stamp or bottle, the Government officer will withhold the release of the bottled spirits and require the proprietor to rebottle, recondition (where permissible), or relabel the spirits in such manner that the label will correctly describe the contents. However, the proof at the beginning of the bottling operations shall always be set exactly as provided in § 189.185.

§ 189.260 *Determining proof of sweetened spirits, wines, etc.* The alcoholic content of blended whiskies containing more than 0.6 gram or 600 milligrams of solids per 100 milliliters derived from blending materials such as sherry wine, prune juice, caramel, glycerine, etc., and of wines, cordials, liqueurs, and other rectified products containing saccharine or other solid matter will be determined by the use of an approved ebulliometer or a small laboratory still provided by the proprietor in accordance with § 189.147. When using such instruments proprietors must follow closely the instructions furnished therewith in order that accurate determinations may be made. Instructions relative to the use of small

laboratory stills (or wine sets) and the following ebulliometers: Arnaldo-Sala (with shield), Braun, Juerst, Lefco, L'Ebulliometer Levesque (with shield), Malligand (with shield), Salleron-Dujardin, "TAG" (with shield), and E. B. Torino (with shield), are also set forth in the Appendix to Regulations 7 (26 CFR Part 178). The alcoholic content of blended spirits containing not more than 0.6 gram or 600 milligrams of solids per 100 milliliters derived from blending materials will be determined by the use of a standard hydrometer or a small still. If determined by a standard hydrometer an obscuration correction factor may be added to the apparent proof in order to obtain the true proof of the blended spirits. Experience has shown that 0.1 gram or 100 milligrams of solids per 100 milliliters will obscure the true proof 0.4 of 1 degree of proof. For example, if a blended whisky contains 0.25 gram or 250 milligrams of solids per 100 milliliters and the apparent proof corrected to 60 degrees Fahrenheit is found to be 89 degrees of proof by a standard hydrometer, a correction factor of 1 degree of proof (2.5 times 0.4) due to the solids may be added to the apparent proof, hence the true proof would be 90 degrees. The solids in blended spirits due to blending materials will be determined by evaporating 25 milliliters of the blended spirits in a weighed dish on a steam bath and then heating for 30 minutes at a temperature of boiling water in a drying oven. The solids thus determined, multiplied by 4, will give the solids in 100 milliliters of blended spirits. The correction factor to be used then will be determined on the basis that every 100 milligrams of solids will obscure the proof 0.4 of 1 degree of proof. The Commissioner may authorize the use of other instruments or methods for determining the alcoholic content by volume of sweetened spirits, wines, etc.

§ 189.261 *Proprietor's responsibility.* Notwithstanding that Government officers assigned to tax-paid bottling houses are required to verify labeling data, full responsibility rests upon the proprietor to see that the labeling of all spirits bottled at his plant is in conformity with requirements of Regulations 4 and 5 (27 CFR Parts 4 and 5) issued pursuant to the Federal Alcohol Administration Act, and Regulations 13 (26 CFR Part 175).

(Sec. 5, 49 Stat. 981, as amended, 53 Stat. 331; 27 U. S. C. 205; 26 U. S. C. 2871)

SUBPART V—MARKING OF CASES

§ 189.265 *Serial numbers.* Each case of distilled spirits filled at a tax-paid bottling house must be numbered serially, beginning with No. 1 for the first case filled: *Provided*, That the series in current use at existing tax-paid bottling houses will be continued. Where upon completion of bottling, there remains less than the number of bottles necessary to fill a case, and the proprietor desires to dispose of such bottles as a remnant case, the case will be given the serial number of the last full case of the same bottling lot followed by the letter "R", thus, "100R", or "161R". Where there is a change in the individual or corporate name, or in the trade name or style, of the proprietor, the series in use at the time of such change will be continued, but a new series will be commenced where there is a change of proprietorship.

§ 189.266 *New or separate series.* The serial numbers of the cases filled at a tax-paid bottling house shall run consecutively and shall not be broken in any manner, except that whenever the number 1,000,000 is reached the proprietor may, if he so desires, begin a new series commencing with No. 1, and that where two or more separate bottling units are used and different kinds of spirits are bottled simultaneously, and it is impracticable to number the cases of each kind of spirits consecutively, a series identified by a letter may be used for each bottling unit, as A1, A2, etc., and B1, B2, etc. Cases may be serially numbered either before or after filling.

§ 189.267 *Other required marks.* In addition to the serial number, each case of distilled spirits shall have marked on the Government side thereof the kind of spirits, the wine gallons, proof, and proof gallons, the date of filling, and the name (or trade name or style), location (city or town and State), and the number of the Federal Alcohol Administration Act warehousing and bottling permit held by the bottler: *Provided*, That if the spirits are unrectified spirits which were produced by such bottler at a distillery, or if the spirits were rectified by such bottler at a rectifying plant, or if the spirits were neither rectified nor produced by such bottler, he may use in connection with his name the designation "Distiller," "Rectifier," or "Bottler," respectively: *And provided further*, That where the spirits are bottled for a certain dealer and it is desired to show the name and address of the dealer on the case in lieu of the name and location of the bottler, such may be done if the name of the dealer is preceded by the words, "Bottled for," or "Bottled expressly for," and the Federal Alcohol Administration Act permit number of the bottler, together with the other required marks, excepting the name and location of the bottler, are shown on the case. Cases of wine will be similarly marked, except that if the wine is unrectified wine which was produced by the bottler at a winery the designation "Winemaker" will be used in lieu of "Distiller," the alcoholic content of the wine will be shown in percentage by volume in lieu of the proof, and the proof gallons will be omitted.

§ 189.268 *Illustration of marks.* The required marks will be placed on the cases substantially as follows:

Ser. No. 1
Whisky
John Doe & Co.
Bottler (or Distiller or Rectifier)
New York, N. Y.
BD–135
3.00 W. G.
90 Proof
2.70 P. G.
Filled May 2, 1949

The location of the bottler, or the address of the dealer for whom the spirits are bottled, may be shown by recognized abbreviations.

§ 189.269 *Manner and size of markings.* The required marks will be durably and plainly printed, stamped, or stenciled on each case in a color contrasting with the background of the case and in letters and figures not less than one-half inch in height.

§ 189.270 *Preservation of marks and brands.* The marks, brands, and serial numbers required by this part, to be placed on cases shall not be removed therefrom, or obscured or obliterated, before the contents thereof have been removed.

§ 189.271 *Deposit in case storage room.* Where the proprietor desires to store bottled spirits in the tax-paid bottling house pending removal thereof from the premises, the same must be placed in the case storage room provided in accordance with § 189.43.

SUBPART W—BOTTLING AND PACKAGING OF DISTILLED SPIRITS AND WINES ESPECIALLY FOR EXPORT WITH BENEFIT OF DRAWBACK

§ 189.280 *General.* Under the law, distilled spirits and wines manufactured or produced in the United States and on which the internal revenue tax has been paid may be bottled or packaged especially for export at a tax-paid bottling house, and upon the exportation of the spirits or wines there may be allowed a drawback equal in amount to the tax found to have been paid thereon.

(53 Stat. 377; 26 U. S. C. 3179)

§ 189.281 *Procedure.* The bottling and packaging of distilled spirits and wines especially for export at a tax-paid bottling house, the storage of the spirits and wines pending exportation, the exportation of the spirits or wines, including the lading thereof on vessels for use as ship's supplies and on aircraft for use as aircraft's supplies, and the allowance of drawback thereon, shall be in accordance with the provisions of Regulations 28 (26 CFR Part 176).

(53 Stat. 377; 26 U. S. C. 3179))

SUBPART X—SAFEGUARDING OF STRIP STAMPS AND GOVERNMENT PROPERTY

§ 189.290 *Storage in Government room, vault or cabinet.* The proprietor's supply of red strip stamps, the seals, and the records and other Government property when not in use, shall be kept in a securely constructed Government room, vault or cabinet, which shall be locked with a Government seal lock, the key to which shall remain at all times in the possession of the storekeeper-gauger. The storekeeper-gauger must not leave the room, vault or cabinet open, except in his immediate presence, nor give the key thereof to anyone, except another Government officer authorized to receive it. Where it is necessary to open the room, vault or cabinet at various times during the day, the lock will not be sealclosed until the close of business.

SUBPART Y—PROPRIETOR'S RECORDS AND REPORTS

§ 189.295 *Form 52–D.* Every proprietor of a tax-paid bottling house shall keep a record and render a monthly report, in duplicate, on Form 52–D, of all

spirits received, dumped for bottling, bottled, and disposed of at his bottling house.

(53 Stat. 327, as amended, 495; 26 U. S. C. 2857, 4041)

§ 189.296 *Contiguous wholesale liquor dealer room.* Where the proprietor of the tax-paid bottling house maintains a contiguous wholesale liquor dealer room and uses it exclusively for products bottled at the tax-paid bottling house, he shall report on Form 52–D all bottled products removed from the tax-paid bottling house and the contiguous wholesale liquor dealer room. If spirits in bulk containers are removed from the tax-paid bottling house, the removal thereof shall also be reported on Form 52–D. Where the wholesale liquor dealer room is not used exclusively for products bottled at the tax-paid bottling house, the proprietor shall report all bottled products removed from his tax-paid bottling house on Form 52–D kept at such bottling house and shall keep at such contiguous wholesale liquor dealer room Record 52, which shall show all bottled distilled spirits products received and disposed of thereat, including those products transferred from his contiguous tax-paid bottling house.

(53 Stat. 327, as amended; 26 U. S. C. 2857)

§ 189.297 *Record of warehouse receipts to be kept by proprietor.* Every proprietor of a tax-paid bottling house who sells, or offers for sale, distilled spirits by warehouse receipts shall, in addition to procuring a wholesaler's basic Federal Alcohol Administration Act permit (Form 1633), keep a separate record, and render a monthly transcript, of all purchases and sales of warehouse receipts on Form 52–F. There need not be entered on Form 52–F transactions in warehouse receipts not involving the purchase or sale of distilled spirits, such as the receipt from a warehouseman of warehouse receipts covering the deposit or bottling of spirits in his warehouse or the surrender of warehouse receipts for the bottling of the spirits in bond or their transfer in bond to another warehouse. Entries on Form 52–F shall be made as indicated by the headings of the various columns and lines of the form, and in accordance with the instructions printed thereon or issued in respect thereto, and as required by this part. Form 52–F must be sworn to before an officer authorized to administer oaths: *Provided*, That if the form officially prescribed for such report contains therein a provision for verification by a written declaration that such report is made under penalties of perjury, such report shall be verified by the execution of such declaration, and such declaration so executed shall be in lieu of the oath required herein for verification. The provisions of § 189.299 with respect to the time of making entries, and of § 189.303 with respect to forms to be provided by users, are hereby made applicable to Form 52–F. The provisions of § 189.300 with respect to a separate record of serial numbers of cases are hereby made applicable to Form 52–F with respect to serial numbers of packages and cases purchased or sold by warehouse receipts. The monthly transcript on Form 52–F shall be forwarded to the district supervisor on or before the tenth day of the succeeding month. The physical removal of distilled spirits from the tax-paid bottling house shall continue to be reported on Form 52–D in accordance with the provisions of § 189.295. The physical receipt and disposition of distilled spirits at the contiguous wholesale liquor dealer room not used exclusively for products bottled at the tax-paid bottling house shall continue to be reported on Record 52 in accordance with the provisions of § 189.296.

(53 Stat. 327, as amended, 328, 391; 26 U. S. C. 2857, 2858, 3254)

§ 189.298 *Place where Form 52–F shall be kept.* Every proprietor of a tax-paid bottling house shall keep Form 52–F at the place of business where warehouse receipts are sold or offered for sale.

(53 Stat. 327, as amended, 328, 391; 26 U. S. C. 2857, 2858, 3254)

§ 189.299 *Time of making entries.* Daily entries shall be made on Form 52–D and Record 52 as indicated by the headings of the various columns and lines on the form, and the instructions printed thereon or issued in respect thereto, and as required by this part, before the close of the business day next succeeding the day on which the transactions occur. Where the proprietor of a tax-paid bottling house defers the making of the entries to the next business day, as authorized in this section, he shall keep a separate record, such as invoices, of the removals of spirits, showing the removal data required to be entered on Form 52–D and Record 52, and appropriate memoranda of other transactions required to be entered in such records, for the purpose of making the entries correctly.

(53 Stat. 495; 26 U. S. C. 4041)

§ 189.300 *Separate record of serial numbers of cases.* Serial numbers of cases of spirits disposed of by the proprietor of a tax-paid bottling house need not be entered on Form 52–D and Record 52, provided the proprietor keeps in his place of business a separate record, approved by the district supervisor, showing such serial numbers with necessary identifying data, including the date of removal and the name and address of the consignee. Such separate record may be kept in book form (including loose-leaf books) or may consist of commercial papers, such as invoices or bills. Such books, invoices, and bills shall be preserved for a period of four years and in such a manner that the required information may be ascertained readily therefrom, and during such period shall be available during business hours for inspection and the taking of abstracts therefrom by revenue officers. Entries shall be made on such separate approved record before the close of the business day next succeeding the day on which the transactions occur. Where the making of the entries is deferred to the next business day, as authorized in this section, appropriate memoranda shall be maintained for the purpose of making the entries correctly. The proprietor whose separate record has been approved by the district supervisor shall make a notation in the column on Form 52–D and Record 52 for reporting serial numbers as follows: "Serial numbers shown on commercial records per authority dated ----------"

(53 Stat. 327, as amended, 495; 26 U. S. C. 2857, 4041)

§ 189.301 *Reports.* Except as otherwise provided in this section, the proprietor shall file, daily, full and complete transcripts, in duplicate, of Form 52–D (Part 3) on Form 52–D (Part 3) and full and complete transcripts of Record 52 on Forms 52–A and 52–B (one copy of each) with the district supervisor, by delivering or mailing them to such officer on the date the transactions entered therein occurred: *Provided*, That in any case in which the district supervisor shall direct, the transcripts shall be so filed with the investigator in charge instead of with the district supervisor. The transcripts shall bear the following certification signed by the person or officer authorized to execute Form 338 or 52–D:

I hereby certify that these transcripts, consisting of — pages disclose all the transactions which occurred during the period covered thereby, and that each entry is correct.

If in any case the district supervisor shall so authorize, the transcripts, in lieu of being filed daily, may be filed with him on or before the 10th day of the month succeeding the month in which the transactions occurred. In such event, transactions will be entered on Form 52–D and Record 52 in accordance with the provisions of § 189.299. A full and complete transcript, in duplicate, of Form 52–D (except Part 3 where such part is filed daily) shall be prepared and forwarded to the district supervisor on or before the 10th day of the month succeeding the month in which the transactions occurred. Form 52–D must be sworn to before an officer authorized to administer oaths: *Provided*, That if the form officially prescribed for such report contains therein a provision for verification by a written declaration that such report is made under penalties of perjury, such report shall be verified by the execution of such declaration, and such declaration so executed shall be in lieu of the oath required herein for verification. When Record 52 is kept, a monthly summary report on Form 338 shall be prepared in duplicate, one copy of which will be retained on file and the original forwarded to the district supervisor on or before the 10th day of the month succeeding the month in which the transactions occurred. Form 338 must be sworn to before an officer authorized to administer oaths: *Provided*, That if the form officially prescribed for such report contains therein a provision for verification by a written declaration that such report is made under penalties of perjury, such report shall be verified by the execution of such declaration, and such declaration so executed shall be in lieu of the oath required herein for verification. Records kept on Form 52–D and Record 52 shall be preserved for a period of four years, and during such period shall be available during business hours for inspection and the taking of

abstracts by the Commissioner or any internal revenue officer.

(53 Stat. 327, as amended, 495, 63 Stat. 667; 26 U. S. C. 2857, 4041, 26 U. S. C., Sup. 3809)

§ 189.302 *Additional requirements.* The proprietor of the tax-paid bottling house shall report, on Form 52–D, Part 3, and when Record 52 is kept, on Part 2 and on transcript, Form 52–B, the name and address of each consignee, in the column now designated "Name". In the column now designated "Address", there will be reported the name and address of the person, firm or corporation paying (by advancement or reimbursement) either tax, bottling charge, brokerage fee, handling charge, or clearance fee, indicating which are included. The headings of both columns will be amended accordingly.

(a) *Reporting of shipment or delivery of distilled spirits to third party.* Where the proprietor of a tax-paid bottling house ships or delivers distilled spirits to a consignee on the order of another wholesale liquor dealer, detailed records of the transactions shall be kept on Form 52–D by the proprietor of the tax-paid bottling house making the shipment or delivery, on Record 52 by the wholesale liquor dealer giving the order, and on Record 52 by the consignee if he is a wholesale liquor dealer. For example, assuming that the proprietor of tax-paid bottling house (A) ships or delivers the distilled spirits to consignee (C) on the order of wholesale dealer (B), entries will be made on the prescribed forms as follows:

(1) The proprietor of the tax-paid bottling house (A) will show in his Form 52–D the name and address of wholesale dealer (B) who ordered the distilled spirits, as well as the name and address of consignee (C), the person to whom the distilled spirits are actually shipped or delivered;

(2) Wholesale dealer (B) will show in his Record 52 that the distilled spirits were purchased from wholesale dealer (A), giving both the name and address of (A), and will at the same time make an entry showing that the distilled spirits were shipped or delivered by (A) to consignee (C) giving the name and address of (C); and

(3) Consignee (C), if a wholesale liquor dealer, will show in his Record 52 that the distilled spirits were purchased from wholesale dealer (B) and received by him from the proprietor of tax-paid bottling house (A), giving name and address of both. A copy of Form 52–D and transcripts of Record 52 on Forms 52–A and 52–B, required to be filed with the district supervisor, will similarly show the details of such transactions.

(b) *Similar third party transactions.* Where the proprietor of a tax-paid bottling house keeps Record 52 and is a party to transactions similar to those described in paragraph (a) of this section, he shall make similar entries of such transactions in Record 52; and the transcripts on Forms 52–A and 52–B required to be filed with the district supervisor, will likewise show the details of the transactions.

(53 Stat. 327, as amended, 495; 26 U. S. C. 2857, 4041)

§ 189.303 *Forms to be provided by users.* Record 52 and Forms 52–A, 52–B, 52–D, 52–F and 338 will be provided by proprietors at their own expense but must be in the form prescribed by the Commissioner: *Provided*, That with the approval of the Commissioner the form may be modified to adapt its use to tabulating or other mechanical equipment: *And provided further*, That where the form is printed in book form, including looseleaf books, the instructions may be printed on the cover or the flyleaf of the book instead of on the individual form.

(53 Stat. 327, as amended, 495; 26 U. S. C. 2857, 4041)

§ 189.304 *Filing of forms.* Proprietors of tax-paid bottling houses shall maintain separate files for Forms 92, 230 (and Form 230 or Form 237 attached thereto in the case of spirits received by pipe line from a rectifying plant), 703–A, 1440, and 1520. He shall file Forms 92 and 230 in serial order and all other forms in chronological order, in their respective files and shall preserve them for a period of four years at the tax-paid bottling house, available for inspection by Government officers.

§ 189.305 *Examination by Government officers.* Government officers inspecting tax-paid bottling houses, or assigned to duty thereat, will from time to time examine Form 52–D (and Record 52 and Form 52–F if required), to determine whether such records are being properly maintained. They will see that copies of Forms 92, 230 (and Form 230 or Form 237 attached thereto in the case of spirits received by pipe line from a rectifying plant), 703–A, 1440, and 1520, are being retained in proper order by the proprietor at the tax-paid bottling house, available for inspection by Government officers.

SUBPART Z—STOREKEEPER-GAUGER'S RECORD AND REPORT OF RED STRIP STAMPS

§ 189.310 *Record, Part I, Form 182.* Storekeeper-gaugers having custody of strip stamps at tax-paid bottling houses will keep a record of strip stamps received and used on Part I of Form 182. Entries will be made on Form 182 daily, as indicated by the headings of the various columns and lines on the form, and the instructions printed thereon or issued in respect thereto and as required by this part. The record will be kept in bound form, available for inspection by other Government officers.

§ 189.311 *Monthly report, Part II, Form 182.* At the close of the month or within five days thereafter, the storekeeper-gauger will prepare a monthly report on Part II of Form 182, in triplicate, of strip stamps received and used during the month. The officer will retain one copy of Part II, available for inspection by other Government officers, furnish one copy to the proprietor, and forward the remaining copy to the district supervisor.

SUBPART AA—SALES OF DISTILLED SPIRITS BY PROPRIETORS OF TAX-PAID BOTTLING HOUSES

§ 189.320 *Bulk containers.* Under the regulations issued pursuant to the Federal Alcohol Administration Act (27 CFR Part 3) distillers and proprietors of internal revenue bonded warehouses, industrial alcohol plants, and industrial alcohol bonded warehouses, including those operating tax-paid bottling houses, may sell or dispose of distilled spirits in bulk, i. e., in containers having a capacity in excess of one gallon, (a) to distillers and proprietors of internal revenue bonded warehouses, industrial alcohol plants and industrial alcohol bonded warehouses (holding a permit under the Federal Alcohol Administration Act), including those operating tax-paid bottling houses; (b) to rectifiers; (c) to proprietors of class 8 customs bonded warehouses (imported spirits only); (d) to winemakers (brandy or alcohol) for the fortification of wine; (e) to any agency of the United States or of any State or political subdivision thereof; (f) for export; (g) on warehouse receipts, conforming to the regulations issued under the Federal Alcohol Administration Act, for distilled spirits in internal revenue bonded warehouses; and (h) for industrial use as follows: For experimental purposes and for use in the manufacture (1) of medicinal, pharmaceutical, or antiseptic products, including prescriptions compounded by retail druggists; (2) of toilet products; (3) of flavoring extracts, sirups, or food products; or (4) of scientific, chemical, mechanical, or industrial products; provided such products are unfit for beverage use. Distilled spirits produced at registered distilleries at a proof of 160 degrees or more, upon tax payment, may be withdrawn for beverage purposes only; and under the regulations issued pursuant to the Federal Alcohol Administration Act, distillers, proprietors of internal revenue bonded warehouses and other permittees engaged in the sale or other disposition of distilled spirits for nonindustrial use may not sell or otherwise dispose of distilled spirits (other than alcohol or neutral spirits—fruit) in bulk for industrial use, unless such spirits are shipped or delivered directly to the industrial user thereof.

(Sec. 6, 49 Stat. 985; 53 Stat. 335, as amended; 27 U. S. C. 206, 26 U. S. C. 2883)

§ 189.321 *Retail containers.* Except as provided in § 189.320, proprietors of tax-paid bottling houses may sell or dispose of distilled spirits only in containers having a capacity of 1 gallon or less. All such containers having a capacity of one-half pint or more must conform to the requirements of Regulations 13 (26 CFR Part 175).

(Sec. 6, 49 Stat. 985; 27 U. S. C. 206)

§ 189.322 *Broken cases.* The proprietor may break serially numbered cases in the case storage room or the contiguous wholesale liquor dealer room when necessary for the purpose of filling orders for less than a case of particular brands or kinds of liquors, provided notation of the serial numbers of such cases is made on Form 52–D, or on a separate record with identifying data in accordance with § 189.300. Broken cases will be kept separate from full cases, and no case shall be broken unless necessary to fill orders. Composite or partial cases will not be serially numbered.

(53 Stat. 327, as amended, 495; 26 U. S. C. 2857, 4041)

SUBPART BB—SPECIAL (OCCUPATIONAL) TAXES

§ 189.330 *Wholesale and retail liquor dealer.* Proprietors of tax-paid bottling houses who sell distilled spirits or wines must file separate return on Form 11, and pay special (occupational) taxes as wholesale liquor dealer or retail liquor dealer, or both, for the premises at which sales are made, in accordance with the law and Regulations 20 (26 CFR Part 194).

(53 Stat. 388, as amended, 391, 394, 395, 396; 26 U. S. C. 3250, 3254, 3270–3274, 3277–3280)

§ 189.331 *Warehouse receipts covering distilled spirits.* Since the sale of warehouse receipts for distilled spirits is equivalent to the sale of distilled spirits, every proprietor of a tax-paid bottling house who sells, or offers for sale, warehouse receipts for distilled spirits stored in internal revenue bonded warehouses, or elsewhere, incurs liability to special tax as a dealer in liquors at the place where such warehouse receipts are sold or offered for sale, and must file return on Form 11, pay occupational tax as provided in § 189.330, and procure a wholesaler's basic permit issued pursuant to Regulations 1 (27 CFR Part 1), issued under the Federal Alcohol Administration Act.

(53 Stat. 388, as amended, 391, 394, 395, 396; 26 U. S. C. 3250, 3254, 3270–3274, 3277–3280)

SUBPART CC—OPERATING UNDER A NEW NAME, OR BOTTLING UNDER DIFFERENT TRADE NAMES OR STYLES

§ 189.335 *Qualification of proprietor.* Whenever the proprietor of a tax-paid bottling house desires to change the individual or corporate name, or the trade name or style in which the tax-paid bottling house is operated, or to bottle spirits under trade names or styles other than those previously approved, he must secure approval of such change in the manner prescribed in § 189.111, prior to the commencement of operations. Where the proprietor desires to bottle spirits under a trade name or style and such trade name or style has been specified on an approved Form 27–E, and has also been specified on the proprietor's Federal Alcohol Administration Act permit (Form 1642) in the manner prescribed in § 189.111, and he has secured certificates of label approval (Form 1649) or certificates of exemption from label approval (Form 1650) for the labeling of spirits under such trade name or style, he may state on his application to dump and bottle, Form 230, his desire to bottle and label the spirits covered by the form under such trade name or style. Upon approval of the form in the usual manner, he may so bottle and label the particular spirits without filing an amended notice on Form 27–E or changing the name under which the tax-paid bottling house is then qualified and operated.

§ 189.336 *Spirits covered by outstanding Forms 230.* Whenever a change in the individual or corporate name, or in the trade name or style, takes place at a tax-paid bottling house, the proprietor shall enter in his certificate on both copies of each outstanding Form 230 the total quantity of spirits bottled from each lot prior to the effective date of the change, giving all of the information required by headings of the various columns and lines on the form, and the instructions printed thereon, or issued in respect thereto and as required by this part. Each of such entries will be followed by a statement dated and signed by the proprietor, showing that the remainder of the spirits described on the form are to be bottled under the new name. Upon completion of the bottling, the proprietor will complete the execution of his certificate on the forms under the new name, submit them to the storekeeper-gauger for verification, and dispose of the same in the manner prescribed in § 189.208.

§ 189.337 *Records.* Separate records on Form 52–D will not be required for operations under a new individual or corporate name, or under each trade name or style, but the proprietor must note on Form 52–D the individual or corporate names, or the trade names or styles, under which operations were conducted during the month and the dates of operation under each. The storekeeper-gauger will make a similar notation on Form 182.

(53 Stat. 327, as amended, 495; 26 U. S. C. 2857, 4041)

SUBPART DD—CHANGE OF PROPRIETORSHIP

§ 189.345 *Completion of operations required.* When a succession, or actual change, in the proprietorship of a tax-paid bottling house takes place other than a change brought about by operation of law, as by the appointment of an administrator, executor, assignee, receiver, trustee, or other fiduciary, the business of bottling spirits must be completely finished by the person or persons who have been carrying on the business, and all spirits on hand removed from the premises before the business shall be undertaken or begun by the succeeding proprietor, unless by agreement between the outgoing proprietor and the successor it shall be arranged to transfer from the former to the latter, at the time the transfer of proprietorship becomes effective, all spirits then on hand: *Provided*, That in each case the notice and other qualifying documents of the successor prescribed by this part have been approved as provided in this part, to take effect on the day next succeeding that at the close of which the transfer is made. Where a change of proprietorship has been brought about by operation of law, the administrator, executor, assignee, receiver, trustee, or other fiduciary, may not commence operations until the required qualifying documents have been filed and approved.

§ 189.346 *Spirits covered by outstanding Forms 230.* Where there is a change in proprietorship, and all spirits on hand at the time such change becomes effective are transferred to the successor, the outgoing proprietor shall enter on both copies of each outstanding Form 230 the total quantity of spirits bottled by him, giving all the information required by the headings of the various columns and lines on the form, and the instructions printed thereon or issued in respect thereto and as required by this part. Each of such entries will be followed by a statement, dated and signed by the outgoing proprietor, showing that the remainder of the spirits described on the form were transferred to his successor. Upon completion of the bottling, the successor shall complete the execution of the forms, submit them to the storekeeper-gauger for verification, and then dispose of the same in the manner prescribed in § 189.208. If an administrator, executor, assignee, receiver, trustee, or other fiduciary succeeds to the business and qualifies to conduct same, he shall make appropriate notation of his succession on both copies of each Form 230, and upon completion of the bottling he shall complete the execution of the forms and otherwise proceed as specified above.

§ 189.347 *Disposition of strip stamps.* The outgoing proprietor may not transfer any strip stamps to his successor. The stamps must be disposed of as provided in § 189.357. Where the change of proprietorship is to be of a temporary nature, any strip stamps on hand belonging to the outgoing proprietor will be retained in the custody of the storekeeper-gauger pending requalification and resumption of operations by such proprietor.

§ 189.348 *Records and reports.* Where there is a change in the proprietorship otherwise than by operation of law, the outgoing proprietor shall enter on his Form 52–D all spirits transferred to his successor, who shall in turn enter such items on his Form 52–D as received from his predecessor. Where an administrator, executor, assignee, receiver, trustee, or other fiduciary succeeds to the business and qualifies to operate the same, he shall make proper notation on Form 52–D of his succession.

(53 Stat. 327, as amended, 495; 26 U. S. C. 2857, 4041)

SUBPART EE—DISCONTINUANCE OF OPERATIONS

§ 189.355 *Disposition of spirits.* Upon permanent discontinuance of business, the proprietor will file notice thereof on Form 27–E as prescribed in § 189.358. All spirits on hand must be accounted for on Form 52–D, and the disposition of any bulk spirits on hand must be in accordance with the provisions of § 189.320.

(53 Stat. 327, as amended, 495; 26 U. S. C. 2857, 4041)

§ 189.356 *Disposition of indicia bottles.* If there are any indicia bottles on hand, the same will be inventoried by the storekeeper-gauger or other officer designated for the purpose by the district supervisor. The disposition of such bottles will be in accordance with the pro-

cedure prescribed in Regulations 13 (26 CFR Part 175).

§ 189.357 *Disposition of strip stamps.* All unused red strip stamps, if any, belonging to the proprietor at the time of permanent discontinuance of business will be inventoried by denomination, serial number, and quantity, by the storekeeper-gauger or other officer designated by the district supervisor to perform such duty. The officer will deliver such stamps to the proprietor and take his receipt therefor, in duplicate. When delivering the stamps the officer will advise the proprietor that the value of the stamps, if in quantities of the value of $5 or more, may be refunded, provided that a claim for such refund on Form 843, establishing the lawful issuance and ownership of the stamps, is filed with the collector of internal revenue who issued the stamps within 2 years after the date on which such stamps were lawfully issued, or that such unused stamps may be destroyed in the presence of the Government officer and the proprietor thereby relieved from further accountability for the stamps. If the stamps are not surrendered to the collector for refund of their value or are not destroyed, the proprietor must account for the stamps each month by rendering Form 96 to the district supervisor. The officer shall make a notation on the receipt as to the disposition made or to be made of the stamps. One copy of the receipt will be delivered to the proprietor and the original will be delivered to the district supervisor.

§ 189.358 *Notice, Form 27–E.* When all spirits, indicia bottles, and red strip stamps have been lawfully disposed of, the proprietor shall file Form 27–E, in triplicate, with the district supervisor, stating the purpose of the filing thereof to be "Permanent discontinuance of business." The district supervisor will forward the original of the Form 27–E to the Commissioner, with a copy of the report of the Government officer, reflecting compliance with the foregoing provisions of this section.

SUBPART FF—LOCKS AND SEALS

§ 189.365 *Furnished by Government.* The Commissioner will furnish, at the expense of the United States, all Government locks and seals required to be used at tax-paid bottling houses. District supervisors will see that tax-paid bottling houses in their respective districts are fully equipped with locks in good condition and that the necessary seals are provided for seal locks.

§ 189.366 *Where locks are required.* Government locks are required upon the door of the Government room, vault or cabinet provided in accordance with § 189.290, and the entrance door of the export storage room, if any; upon the manheads, inlets, outlets, and other openings of storage tanks, and bottling tanks; upon the valves in pipe lines which convey spirits into the tax-paid bottling house from contiguous premises; and upon such other valves, stopcocks, and openings in equipment and apparatus as are required by this part or deemed necessary by the district supervisor to be secured with Government locks.

§ 189.367 *Seal locks.* Seal locks will be used on the door of the Government room, vault or cabinet; on the entrance door of the export storage room, if any; and on such other places where the use of seal locks is required by this part or deemed necessary by the district supervisor.

§ 189.368 *Plain locks:* Plain locks will be used at all other places in the tax-paid bottling house where locks are required by this part.

§ 189.369 *Custody of locks and keys.* Storekeeper-gaugers are strictly prohibited from intrusting locks, keys, or seals in their possession to any person other than an internal revenue officer entitled to receive them, and under no circumstances will they permit locks to remain open, whether hanging by the shackle or otherwise.

§ 189.370 *Breaking of sealed connections forbidden.* Sealed connections must not be broken by the proprietor except as authorized by the storekeeper-gauger in charge or the district supervisor.

SUBPART GG—DUTIES OF STOREKEEPER-GAUGER

§ 189.375 *Additional to other duties.* Where the storekeeper-gauger assigned to a distillery, an internal revenue bonded warehouse, industrial alcohol plant, alcohol bonded warehouse, or a contiguous rectifying plant, is charged with the duty of supervising operations at a tax-paid bottling house, he will exercise such supervision in connection with his other duties.

§ 189.376 *Degree of supervision.* The storekeeper-gauger, who supervises the operations of a tax-paid bottling house in addition to his other duties, will maintain such supervision as will enable him to know that no unauthorized mingling of spirits occurs; that only lawfully tax-paid spirits are bottled; and that the requirements of this part in other respects are being observed by the proprietor. He will, insofar as his other duties permit, examine tank cars of spirits before they are unloaded to determine that the railroad car seals are intact and that each bears a collector's certificate of tax-payment; supervise the receipt of spirits by pipe line; examine packages of spirits to be dumped for bottling to determine whether they bear proper evidence of tax-payment; examine storage tanks from which spirits are to be removed for bottling to determine whether the contents correspond with the record on Form 703–A, 1440 or Form 1520 attached to the tank; verify cases filled; supervise the bottling and storing of distilled spirits and wines especially for export, with benefit of drawback, in accordance with Regulations 28 (26 CFR Part 176); inspect bottles used for packaging spirits to determine whether the provisions of Regulations 13 (26 CFR Part 175) are being complied with; inspect labels to determine whether the provisions of Subpart U are being observed; determine whether proper use is made of strip stamps; and determine whether proper records are kept by the proprietor of the receipt, dumping, bottling, and disposition of spirits. The required supervision may be accomplished by observations made at such times as the storekeeper-gauger must necessarily visit the bottling house for the examination of packages of spirits to be dumped for bottling, the verification of cases filled, the issuance of stamps, etc., and by inspection made at irregular intervals from time to time as his duties at the distillery, bonded warehouse, or rectifying plant permit.

(53 Stat. 335, as amended; 26 U. S. C. 2883)

3. The purposes of the regulations are as follows:

(a) To conform to the act of February 21, 1950 (Public Law 448—81st Congress), effective September 1, 1950.

(b) To delegate to district supervisors the authority to approve the establishment of tax-paid bottling houses.

(c) To incorporate the regulations governing the gauging of distilled spirits at tax-paid bottling houses, now contained in the Gauging Manual (26 CFR Part 186) but which are being deleted from the current revision of such manual.

(d) To liberalize the requirements pertaining to the separation of tax-paid bottling houses from rectifying plants and wholesale liquor dealer premises operated by the same proprietor or his affiliate or subsidiary.

(e) To require that proprietors of tax-paid bottling houses furnish to the Government officer supervising the bottling of spirits received from a rectifying plant, the rectifier's statement of composition of such spirits for comparison with the label to be used.

(f) To discontinue Form 1625 as a district supervisor's monthly account of tax-paid bottling houses.

(g) To prescribe, in lieu of an oath, a declaration subject to the penalties of perjury, for the following forms:

Form 26, "Registry of Stills."
Form 27–E, "Notice by Proprietor of Tax-Paid Bottling House."
Form 52–D, "Monthly Record and Report of Tax-Paid Bottling House Operations."
Form 52–F, "Wholesale Liquor Dealers' Monthly Record and Report of Purchases and Sales of Warehouse Receipts for Distilled Spirits."
Form 338, "Wholesale Liquor Dealer's Monthly Report."
Form 1579, "Application for Exchange of Strip Stamps Under Section 2803 (c), I. R. C."

(h) To rearrange the text to conform to the FEDERAL REGISTER Regulations (13 F. R. 5929).

Effect. These regulations shall be effective as of September 1, 1950.

[SEAL] GEO. J. SCHOENEMAN,
Commissioner of Internal Revenue.

Approved: July 13, 1950.

Subchapter D—Employment Taxes

[T. D. 5795]

PART 402—EMPLOYEES' TAX AND EMPLOYERS' TAX UNDER THE FEDERAL INSURANCE CONTRIBUTIONS ACT

PART 405—COLLECTION OF INCOME TAX AT SOURCE ON OR AFTER JANUARY 1, 1945

FILING DATE OF EMPLOYER'S QUARTERLY TAX RETURN

In order to extend, in certain cases, the date for filing the Employer's Quarterly Federal Tax Return, Form 941, from the last day of the first month following the close of the calendar quarter to the tenth day of the second month following the close of the calendar quarter, Regulations 106 (26 CFR Part 402) and Regulations 116 (26 CFR Part 405) are hereby amended as follows:

PARAGRAPH 1. Regulations 106 are amended by striking out the second sentence of § 402.606 and by inserting in lieu thereof the following:

Except as provided in § 402.603, each return shall be filed on or before the last day of the first month following the period for which it is made. However, if, and only if, the return is accompanied by depositary receipts, Form 450, showing timely deposits, in full payment of the taxes due for the entire calendar quarter, the return may be filed on or before the tenth day of the second month following the period for which it is made. For the purpose of the preceding sentence, the timeliness of the deposit will be determined by the date of the endorsement by a designated commercial bank on the reverse side of Form 450 or, if the deposit is made directly with a Federal Reserve bank, by the date of validation of Form 450 by the Federal Reserve bank. Deposit of the taxes for the last month of the calendar quarter with a designated commercial bank or a Federal Reserve bank, as the case may be, may be made on or before the last day of the first month following the close of such quarter.

PAR. 2. Regulations 116 are amended by striking out the first sentence of § 405.601 as amended by Treasury Decision 5759, approved November 10, 1949, and by inserting in lieu thereof the following:

Except as provided in § 405.602, every person required, under the provisions of section 1622, to deduct and withhold the tax on wages shall make a return and pay such tax on or before the last day of the month following the close of each of the quarters ending March 31, June 30, September 30, and December 31. However, if, and only if, the return is accompanied by depositary receipts, Form 450, showing timely deposits, in full payment of the taxes due for the entire calendar quarter, the return may be filed on or before the tenth day of the second month following the period for which it is made. For the purpose of the preceding sentence, the timeliness of the deposit will be determined by the date of the endorsement by a designated commercial bank on the reverse side of Form 450 or, if the deposit is made directly with a Federal Reserve bank, by the date of validation of Form 450 by the Federal Reserve bank. Deposit of the taxes for the last month of the calendar quarter with a designated commercial bank or a Federal Reserve bank, as the case may be, may be made on or before the last day of the first month following the close of such quarter.

(53 Stat. 178, 467; 26 U. S. C. 1429, 3791)

Because the amendments made by this Treasury decision merely relieve taxpayers by relaxing a requirement under existing regulations, it is found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of said act.

This Treasury decision shall be effective upon its filing for publication in the FEDERAL REGISTER.

TITLE 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

Subchapter G—Personnel

PART 874—ENLISTMENT OF AVIATION CADETS

SELECTION AND ENLISTMENT

Section 874.6 (d) is changed as follows:

§ 874.6 *Selection and enlistment.* • • •

(d) *Pay and allowances*—(1) *General.* Aviation cadets, while on active duty, will be entitled to be paid at the rate of $105 each month, which pay will include extra pay for flying. They will be entitled to receive, in addition, the same allowance for subsistence as is now or may hereafter be authorized for officers of the Air Force, and while on active duty, will be furnished quarters, medical care, and hospitalization, and will be issued uniforms, clothing, and equipment at Government expense. When traveling under orders, aviation cadets will be entitled to receive transportation and other necessary expenses incident to such travel, or cash in their place, on the same basis and at the same rate as are now or may hereafter be prescribed for airmen.

(2) *Incentive pay.* No aviation cadet will be entitled to receive any incentive pay.

(3) *Subsistence allowance*—(i) *Rate.* Aviation cadets will be paid a basic allowance of $42 each month for subsistence, except as provided in subdivision (iv) of this subparagraph.

(ii) *Collection for meals.* Whenever aviation cadets are regularly subsisted at field ration food facilities, collections for meals made at such food facilities will be made in accordance with current directives.

(iii) *Indebtedness upon transfer.* If, upon transfer before the end of the month, an aviation cadet is indebted to the food service facility, proper collections will be made at rates prescribed at time of transfer.

(iv) *Travel status.* While in a travel status in connection with which per diem in lieu of subsistence is payable, the basic allowance of $42 each month for subsistence is not authorized.

(v) *In hospital.* Payment of the basic allowance for subsistence while sick in the hospital, whether or not in line of duty, is authorized.

(vi) *On leave.* Aviation cadets will be paid the basic allowance for subsistence for periods of authorized leave at the rate of $42 each month, provided that on or before the last day of leave, they have reported at their proper station, or have been discharged.

(4) *Quarters allowance.* Aviation cadets are entitled to the basic allowance for quarters as prescribed for airmen in a nontravel status, but are not entitled to quarters allowance for their dependents.

(5) *Travel allowance.* While traveling under competent orders, aviation cadets will receive the same travel allowances as are authorized for airmen.

(6) *Uniform allowance.* Any aviation cadet commissioned as a second lieutenant in the Air Force or the Air Force Reserve will be entitled at the time of first entry on extended active duty to an allowance of $250 for uniforms.

(7) *Change of station allowances.* An aviation cadet who is discharged from such status and ordered to active duty effective the next day as a second lieutenant at a different station is in a permanent change of station status and is entitled to all the allowances due him as a second lieutenant upon permanent change of station. (8 Comp. Gen. 507.)

(8) *Clothing and equipment.* An aviation cadet will be supplied with clothing and equipment in kind. Alterations at time of issue will be performed at Government expense. Aviation cadets who are discharged to accept commissions as second lieutenants may retain permanently in their possession the items of serviceable clothing authorized for wear by newly commissioned officers.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 35—PROVISIONS APPLICABLE TO THE SEVERAL CLASSES OF MAIL MATTER

SPECIAL PACKING

In § 35.18 *Special packing of certain matter,* (39 CFR 35.18) make the following changes in paragraph (k):

1. Designate the material immediately following the paragraph heading as subparagraph (1).

2. Add subparagraph (2) to read as follows:

(2) Parcels containing shotguns and rifles must be adequately prepared for mailing including individual cushioning of each part contained therein and positive separation of the loose wood and metal parts. Wrapping of all wood parts with corrugated fiberboard and tying securely before adding the cushioning material to keep the pieces apart is recommended. The shipping carton must be of sufficient strength to protect the contents from weight of other mails. A strong corrugated fiberboard carton with an inner liner of same material with corrugations running at right angles to the corrugations in the shipping carton to protect the wood stock of the gun would be satisfactory. The wood stock must also be protected against damage by shock or dropping by the use of adequate cushioning material or by air space formed by corrugated molds or pads. Shotguns or rifles which are not taken apart prior to shipment must be adequately cushioned to prevent shifting in an exceptionally strong shipping carton and care must be taken to see that the ends are properly cushioned, especially the stock end. Bullets (the non-explosive missiles actually shot from the gun) are mailable if packed in a strong container.

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

HUNGARY AND EGYPT

a. In § 127.276 *Hungary* (39 CFR 127.276; 14 F. R. 1085; 15 F. R. 3452, 4221) make the following changes:

1. Amend paragraph (a) (7) to read as follows:

(7) *Observations.* See "Observations" under "Parcel Post" (paragraph (b) (4)) concerning Hungarian import permits and customs duties, which apply also to merchandise sent in the regular mails.

2. Redesignate subdivision (iii) of paragraph (b) (4) as subdivision (ii) and amend to read as follows:

(ii) All parcels, including those sent as gifts, are subject to production of import permits by the addressees, as well as to payment of heavy customs duty charges. In certain cases senders may prepay the Hungarian customs duty charges on gift parcels through the facilities of the United States Relief Parcel Service, Inc., Capt. Jas. G. Pedlow-Brack, 1220 Second Avenue, New York 21, N. Y., which firm will furnish mailers with stickers to affix to the wrappers of duty-prepaid packages. Interested patrons should be referred to the above named firm for further details.

b. In § 127.244 *Egypt* (39 CFR 127.244; 15 F. R. 643) make the following changes:

1. Redesignate paragraph (a) (7) as (a) (8).

2. Insert a new paragraph (a) (7) to read as follows:

(7) *Observations.* Regular-mail articles containing merchandise, even if sent as samples, may be subject to fine and confiscation by the Egyptian customs authorities unless endorsed to permit customs inspection. Senders should apply the green label (Form 2976) to all such packages, or place an equivalent marking on the wrappers.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Bureau of Animal Industry

[9 CFR, Parts 14, 17, 24, 25, 27]

MEAT INSPECTION REGULATIONS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given in accordance with section 4 (a) of the Administrative Procedure Act (5 U. S. C. 1003 (a)) that the Secretary of Agriculture is considering amending the regulations (9 CFR, Charter I, Subchapter A, as amended) issued under the Meat Inspection Act, as amended (21 U. S. C. 71-91), the so-called Horse Meat Act (21 U. S. C. 96), and section 306 of the Tariff Act of 1930 (19 U. S. C. 1306) as follows:

1. Section 14.6 (a) would be amended to read as follows:

§ 14.6 *Livers condemned because of parasitic infestation and for other causes; conditions under which may be disposed of as fish feed.* (a) Livers condemned on account of fluke infestation may be forwarded as fish feed if they are first freely slashed, then denatured, and then frozen. The denaturing shall be accomplished by dipping the slashed livers in a hot solution composed of one part of FD&C Green #3 or Methyl Violet to 5,000 parts of water, followed by washing in fresh water until the washings are no longer colored, or by the application of finely powdered charcoal. Freezing shall be preceded by chilling the livers to a temperature not above 40° F. Livers packed in containers not more than 7 inches thick shall then be held for a period of not less than 10 days at a temperature not higher than 15° F. or for a period of not less than five days at a temperature not higher than 10° F. Livers packed in containers over 7 inches but less than 27 inches thick shall be held not less than 20 days at a temperature not higher than 15° F. or for not less than ten days at a temperature not higher than 10° F. In lieu of freezing, the livers may be thoroughly cooked and then slashed and denatured in the manner indicated above. It is essential that the livers be sufficiently denatured through discoloration by the dye or charcoal to preclude their use as human food. Freezing may be accomplished in the regular freezer in a properly separated compartment or receptable held under division lock.

2. Section 17.2 (c) would be amended to read as follows:

(c) Stencils and box dies shall not include the inspection legend or any abbreviation or representation thereof, and inserts, tags, and like devices shall not bear such inspection legend, abbreviation, or representation: *Provided, however,* That, with the approval of the chief of division, box dies including such legend or an abbreviation or representation thereof may be used in marking wooden boxes of light material having a maximum capacity of five pounds, fiberboard containers, and wooden wire-bound boxes and crates with at least 90 percent of the total wood surface being veneer wood not over 1/8 of an inch thick and of such a quality that matter imprinted on it is legible.

3. Section 17.8 (c) (31) would be amended to read as follows:

(31) Product labeled "Tamales" shall be prepared with at least 25 percent meat computed on the weight of the uncooked fresh meat in relation to all ingredients of the tamales. When tamales are packed in sauce or gravy, the name of the product shall include a prominent reference to the sauce or gravy, for example "Tamales With Sauce" or "Tamales With Gravy." Product labeled "Tamales With Sauce" or "Tamales With Gravy" shall contain not less than 20 percent meat, computed on the weight of the uncooked fresh meat in relation to the total ingredients making up the tamales and sauce or the tamales and gravy.

4. Section 17.8 (c) would be amended by adding thereto the following subparagraphs:

(44) Canned product labeled "Tripe With Milk" shall be prepared so that the finished canned article, exclusive of the cooked-out juices and milk, will contain at least 65 percent tripe. The product shall be prepared with not less than 10 percent milk.

(45) Product labeled "Beans With Frankfurters in Sauce," "Sauerkraut With Wieners and Juice," and the like, shall contain not less than 20 percent frankfurters or wieners computed on the weight of the smoked and cooked sausage prior to its inclusion with the beans or sauerkraut.

(46) Product labeled "Lima Beans With Ham in Sauce," "Beans With Ham in Sauce," "Beans With Bacon in Sauce," and the like, shall contain not less than 12 percent ham or bacon computed on the weight of the smoked ham or bacon prior to its inclusion with the beans and sauce.

(47) Product labeled "Chow Mein Vegetables With Meat" and "Chop Suey Vegetables With Meat" shall contain not less than 12 percent meat computed on the weight of the uncooked fresh meat prior to its inclusion with the other ingredients.

5. Section 24.4 (a) (4) (ii) would be amended to read as follows:

(ii) Preservatives other than common salt, sugar, dextrose, glucose, saltpeter, wood smoke, vinegar, spices, alcohol, refined sodium nitrate, and refined sodium nitrite (not to exceed 200 parts per million in the finished product), or coloring matter, shall not be used in or upon meat, meat byproducts, or any preparation of either of them.

6. Section 24.4 (a) (4) (xxv) would be amended to read as follows:

(xxv) Processed lard shall be the food product made by adding to lard a small proportion of a stabilizer consisting of one or more of the following ingredients: Gum guaiacum; vegetable oil containing tocopherols; lecithin; citric acid, tartaric acid, ascorbic acid; and propyl gallate. Such stabilizers, singly or in combination, shall not exceed two-tenths of one (0.2) percent by weight of the finished product, except propyl gallate which shall not exceed one hundredth of one (0.01) percent by weight of the finished product. The label or marking of every package or container in which processed lard is offered for sale shall display a statement in immediate conjunction with the name of the product naming the stabilizer: e. g. "Contains propyl gallate."

7. Section 24.4 (c) (3) would be amended to read as follows:

(3) The lymphatic glands and/or serous membranes are required to be in close anatomical relationship to fresh meat cuts imported into England and Wales.

8. Section 24.4 (c) (4) would be amended by deleting from the end thereof the following note:

NOTE: The foregoing recommendations of the Association of Port Sanitary Authorities of the British Isles as to the inclusion of lymphatic glands in cuts of imported meat appear not to be applicable to mutton and lamb for importation into England or Wales in view of a recent amendment of the Public Health (Imported Food) Regulations, 1937, issued by the Ministry of Food in the United Kingdom, which permits the importation into England and Wales of mutton and lamb from which the lymphatic glands have been removed, and requires the incision of certain lymphatic glands of sheep (not lamb) carcasses for importation into England and Wales. See subparagraph (5) (iii) and (7) of this paragraph.

9. Section 24.4 (c) (5) (iii) would be amended to read as follows:

(iii) Meat from which a lymphatic gland, except a gland necessarily removed in preparing the meat, has been taken out.

10. Section 24.4 (c) (7) would be revoked.

11. Section 25.6 (d) would be amended to read as follows:

(d) When shipments are made under this section, the inspector in charge at the point of origin shall immediately notify the inspector in charge at the point of destination by means of Form MI 408-1. One copy of the form shall be placed in a sealed envelope and tacked, or otherwise securely fastened, to the inside of one of the doors of the railroad car, truck, wagon, etc., and one copy shall be mailed to the inspector in charge at destination immediately after the vehicle has been sealed.

12. Section 25.9 (c) would be amended to read as follows:

(c) When a shipment is made in a sealed car, truck, wagon, etc., under this section, the inspector in charge at the point of origin shall immediately notify the inspector in charge at point of destination in accordance with instructions in § 25.6 (d). When a shipment is made under this section in properly sealed and marked closed containers, the inspector in charge at point of origin shall immediately notify the inspector in charge at destination by means of an appropriately modified Form MI 408-1, furnishing complete information.

13. Section 25.14 (a) would be amended to read as follows:

(a) No uninspected product, and no inspected and passed product which is known to have become unsound, unhealthful, unwholesome, or in any way unfit for human food, including any rendered or unrendered grease, tallow, or other fat derived from the carcasses of cattle, sheep, swine, or goats and possessing the physical characteristics of an edible product, shall be transported from one State or Territory or the District of Columbia to any other State or Territory or the District of Columbia, or to any place under the jurisdiction of the United States, or to a foreign country, unless it is first denatured or otherwise destroyed for food purposes. The shipper shall not offer nor the carrier receive for such transportation any such article until it has been denatured or otherwise destroyed for food purposes as required by this section. The carrier shall require and the shipper shall make and deliver to the carrier a certificate in duplicate in the following form:

Date _____, 19____
Name of carrier _____
Consignor _____
Point of shipment _____
Consignee _____
Destination _____

I hereby certify that the following described meat or product, or grease, tallow, or other fat, which is offered for shipment in interstate or foreign commerce, has been denatured or otherwise destroyed for food purposes.

Kind of product	Amount and weight

_____
(Signature of shipper)
_____
(Business or occupation of shipper)
_____
(Address of shipper)

The signature of the shipper or of his agent shall be written in full. This certificate shall be separate and apart from any waybill, bill of lading, or other form ordinarily used in the transportation of meat. The duplicate certificate shall be forwarded immediately by the initial carrier to the Chief of the Meat Inspection Division, Washington, D. C. If the product is transported by the shipper himself a certificate shall nevertheless be forwarded by him to the Chief of the Meat Inspection Division.

14. Section 25.14 would be amended by adding thereto a new paragraph (c) as follows:

(c) No dog food or other animal food prepared, in whole or in part, from materials derived from the carcasses of cattle, sheep, swine, goats, or horses, either in an official establishment or elsewhere, shall be transported from one State or Territory or the District of Columbia to any other State or Territory or the District of Columbia, or to any place under the jurisdiction of the United States, or to a foreign country, unless (1) it is properly identified as dog food or other animal food, (2) it is not represented as being a human food, and (3) if, possessing the physical characteristics of an edible product, it has been treated (denatured or decharacterized) so as to be readily distinguishable from an article of human food: *Provided,* That such dog food or other animal food packed in hermetically sealed, retort processed, conventional retail-size containers need not be denatured or decharacterized if the name of the canned article, as for example "Dog Food," "Cat Food," "Dog and Cat Food," "Animal Food," and the like, appears on the label in a conspicuous manner. To be considered conspicuous, the letters in the name of the canned article, as for example "Dog Food," must be at least three times as high, wide, and thick as the letters in the words denoting the use, as ingredients in the article, of the materials derived from the carcasses of cattle, sheep, swine, goats, or horses, The letters in the name of such article shall contrast as markedly with their background as the letters in the words denoting the use of such ingredient materials contrast with their background.

UNIVERSITY OF MICHIGAN LIBRARIES

15. Section 25.17 (a) (2) would be amended by changing the period at the end thereof to a semicolon.

16. Section 25.17 (a) (3) would be amended by omitting the word "and" at the end thereof and changing the final comma in the subparagraph to a semicolon.

17. Section 25.17 (a) (4) would be renumbered 25.17 (a) (5), and a new subparagraph (4) would be added as follows:

(4) To material or specimens of product for laboratory examination, research, or other purposes, when authorized by the Chief of the Division and under conditions prescribed by him; and

18. Section 27.6 (f) would be amended to read as follows:

(f) Except as provided in § 27.18 and § 27.6 (g), each consignment of any product of a kind prepared customarily to be eaten without cooking (such as summer sausage, "Italian" and "Westphalia" hams, and the like), which contains any muscle tissue of pork, shall be accompanied, in addition to any other certificate required by this section, by a separate foreign meat-inspection certificate in the following form:

OFFICIAL MEAT-INSPECTION CERTIFICATE FOR PORK AND PORK PRODUCTS

(For shipment to the United States of articles of a kind prepared customarily to be eaten without cooking, and which contain muscle tissue of pork.)

Place_____ Date _____, 19__

I hereby certify that the article or articles herein described are of a kind prepared customarily to be eaten without cooking, and contain muscle tissue of pork, which, when fresh or freshly cured in salt, were subjected to a temperature not higher than five (5) degrees F. for not less than twenty (20) days, or otherwise treated as specified by the Chief of the Meat Inspection Division, and that said articles contain no muscle tissue of pork which has not been treated as herein specified.

NOTE: A certificate in the above form is required to accompany each consignment of any product of a kind prepared customarily to be eaten without cooking (such as summer sausage, "Italian" and "Westphalia" hams, and the like), which contains any muscle tissue of pork. This certificate is to be delivered by the consignee, or his agent, to the inspector of the Meat Inspection Division at the point of inspection in the United States.

Each such foreign meat-inspection certificate shall be subject to the provisions of paragraphs (b) and (d), inclusive, of this section.

19. Section 27.6 would be amended by adding thereto the following paragraphs:

(g) The official meat-inspection certificate for pork and pork products of the national government of a foreign country, the form of which has been approved by the Department and which is issued for any pork and pork products, may be accepted in lieu of the certificate prescribed in paragraph (f) of this section, notwithstanding the fact that the name of the foreign official who signed the certificate has not been published by the Department.

(h) The foreign official meat-inspection certificate for pork and pork products as provided for in paragraph (f) of this section, accompanied with a foreign meat-inspection certificate approved in accordance with paragraph (e) of this section, may be accepted even though the name of the foreign official who signed it has not been published by the Department, provided, that it agrees with the signature of the foreign official who signed the certificate approved in accordance with paragraph (e) of this section.

The purpose of the foregoing proposed amendments is to bring into the regulations orders and instructions that have been given to the field operating force of the Meat Inspection Division and inspected establishments during the past year, and to incorporate new material controlling the composition of certain meat food products along lines which have been thoroughly investigated by that Division.

Any person who wishes to submit written data or arguments concerning the proposed amendments may do so by filing them with the Chief of the Meat Inspection Division, Bureau of Animal Industry, Agricultural Research Administration, U. S. Department of Agriculture, Washington 25, D. C., within fifteen days after the date of publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C., this 13th day of July 1950.

MILK IN NEW YORK METROPOLITAN MARKETING AREA

NOTICE OF PROPOSED RULE MAKING

Pursuant to provisions of § 927.4 (b) of Order No. 27, as amended (7 CFR 927.0 et seq.), regulating the handling of milk in the New York metropolitan milk marketing area, and of the Administrative Procedure Act (5 U. S. C., 1001 et seq.), a public meeting was held at New York, New York, on June 14, 1950 to consider proposals for the amendment of the rules and regulations heretofore issued (7 CFR 927.101 et seq.) pursuant to said order. Notice of said public meeting was issued on May 18, 1950 and published in the FEDERAL REGISTER on June 6, 1950 (15 F. R. 3506).

After due consideration of the data, views, and arguments presented by interested parties at such public meeting, the rules and regulations as heretofore amended are hereby further amended, subject to the approval of the Secretary of Agriculture, as follows:

1. Amend § 927.101 as follows:

Add new paragraph (bb) to read as follows:

(bb) "Whipped topping mixture" means a product which results from the mixture of milk solids, moisture, sugar or other sweetening agents, flavor and stabilizer, and which is used for distribution packaged with harmless gas causing it to fluff upon ejection from the package or container. The ingredients contained therein other than those derived from milk must exceed 4.0 percent.

2. Amend § 927.102 as follows:

A. Amend paragraph (c) (1) to read as follows:

(1) If the plant is in the marketing area, the excess shall be considered to have been received in the form of cream from an undisclosed source: *Provided*, That if such excess is an excess of milk it shall be considered to have been received in the form of milk from an undisclosed source. Such excess, other than an excess of milk, shall be assigned as far as possible to butterfat leaving the plant in the form of frozen desserts, homogenized mixtures or cream cheese. Any excesses not so assigned shall be subject to the payments required in § 927.9 (h) (2) (iii) of the orders.

B. In paragraph (1) add the following:

(6) Whipped topping mixture packed under pressure, 2.5 percent.

C. Renumber paragraph (x) to (x) (1) and add a new paragraph (x) (2) as follows:

(2) Add to the remaining butterfat in each class leaving the plant or in the closing inventories at the plant in the form of sour cream, 2.0 percent: *Provided*, That if such additions are greater than remaining plant loss, they shall be reduced pro rata to the point where they are equal to the remaining plant loss. Such additions shall be deducted from plant loss.

D. Amend paragraph (z) by changing the words "Class II cultured or flavored milk drinks" to "Class II and Class III cultured or flavored milk drinks."

E. In paragraph (ff) add the following:

(17) Whipped topping mixture, 2.5 percent.

3. Amend § 927.105 as follows:

A. Amend paragraph (a) as follows:

(1) Change the words "cream (except New Jersey)" to "cream or fluid cream products (except New Jersey)."

(2) Change the words "cream (New Jersey)" to "cream or fluid cream products (New Jersey)."

(3) Add the following immediately after "cream or fluid cream products (New Jersey)":

Whipped topping mixture_____ 19

B Amend paragraph (b) as follows:

(1) In the table change the words "cream" to "cream or fluid cream products" wherever they appear.

(2) Add the following to the table contained in paragraph (b):

Product	Units (quart cans)	Net weight (pounds)
Whipped topping mixture	40	86.50
Whipped topping mixture (more than 20% bf and 6.0% or more of sugar)	40	87.00
Whipped topping mixture (20% or less of bf and 6.0% or more of sugar)	40	88.00

Issued this 5th day of July 1950.

C. J. BLANFORD,
Market Administrator, New York Metropolitan Milk Marketing Area.

M., accepted November 10, 1949, delineating the retracement and reestablishment of the lines of the original surveys as shown upon the plats approved July 23, 1856, March 26, 1945, and December 28, 1948, including lands hereinafter described will be officially filed in the Land Office at Los Angeles, California, effective at 10:00 a. m., on the 35th day after the date of this notice.

All or parts of the sections involved have been subdivided into small tracts.

The lands affected by this notice are described as follows:

SAN BERNARDINO MERIDIAN

T. 1 N., R. 8 E.,
Sec. 7, W½,
Sec. 18, W½, SE¼,
Sec. 19, all,
Sec. 30, N½,
Sec. 31, S½.

The area described aggregates 2080.54 acres.

Available data indicates that the lands are rolling to level desert in character.

No applications for these lands may be allowed under the homestead, small tract, desert land or any other non-mineral public land laws unless the land has already been classified as valuable or suitable for such type of application or shall be so classified upon consideration of an application.

At the hour and date specified above the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this notice shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279-284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m., on the 25th day after the date of this notice shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m., on the 126th day after the date of this notice, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m., on the 126th day after the date of this notice, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their application by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office, Los Angeles, California, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land Office, Los Angeles, California.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2289]

DUVAL TEXAS SULPHUR CO. AND UNITED GAS CORP.

ORDER RELEASING JURISDICTION

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 13th day of July A. D. 1950.

The Commission having, by order dated February 13, 1950, granted and permitted to become effective the joint application-declaration, as amended, of United Gas Corporation ("United"), a gas utility subsidiary of Electric Bond and Share Company, and of Duval Texas Sulphur Company ("Duval"), a non-utility subsidiary of United, regarding the issuance and sale by Duval, pursuant to a rights offering of 375,000 shares of additional capital stock of which United subscribed to its aliquot part (75 percent); and

Said order of February 13, 1950, having contained a reservation of jurisdiction with respect to the payment of fees and expenses incurred or to be incurred in connection with the proposed transactions; and

The record having been completed with respect to said fees and expenses, including the following counsel fees of Duval and United and the following service company fee:

Vinson, Elkins and Weems (local counsel for Duval)	$12,500
Reid & Priest (New York counsel for Duval)	7,500
Baker, Botts, Andrews & Parish (counsel for United)	4,000
Ebasco Services, Inc. (service company)	5,000

The Commission, on the basis of its examination of the record, finding that the payment of fees in the amounts proposed, including the fees of counsel and of the service company, as set forth above, are not unreasonable, and finding it appropriate to release jurisdiction over the payment of such fees and expenses:

It is ordered, That jurisdiction heretofore reserved with respect to the payment of fees and expenses incurred in connection with the issuance and sale of said stock by Duval, and the acquisition of said stock by United, and the related transactions proposed in said application-declaration, be, and the same hereby is, released.

By the Commission.

COLUMBIA GAS SYSTEM, INC.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 13th day of July 1950.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by The Columbia Gas System, Inc. ("Columbia"), a registered holding company. Declarant has designated section 7 of the act as applicable to the proposed transaction.

Notice is further given that any interested person may, not later than July 24, 1950, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after July 24, 1950, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transaction therein proposed, which is summarized as follows:

Columbia proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $90,000,000 principal amount of debentures due 1975. The new debentures will be issued under an Indenture dated as of June 1, 1950, as supplemented by a First Supplemental Indenture, to be dated August 1, 1950. The proceeds from the sale of the new debentures will be used in part by Columbia to retire $45,000,000 principal amount of 3¼ percent debentures due 1973 and $33,000,000 principal amount of 3 percent debentures due 1974. The balance of such proceeds will provide funds for the continuance of Columbia's 1950 construction program.

Columbia states that while it is presently of the opinion that a debt ratio of approximately 50 percent is desirable, it believes that a substantial amount of additional borrowing capacity is necessary during periods of heavy construction, when the debt ratio may temporarily increase. Columbia further states that it is its present intention to provide such amounts of additional capital, from time to time, and when market conditions are favorable, from the sale of common stock as together with retained earnings will permit it to maintain a consolidated capital structure having approximately equal amounts of debt and equity.

Columbia desires to invite bids for such new debentures on or about July 26, 1950, and to open the bids received in response to such public invitation on August 1, 1950. Accordingly, Columbia has requested that the Commission's order with respect to the issuance of the new debentures be issued so as to permit the consummation of the financing on the schedule set forth above and such order permit shortening the period for inviting sealed bids to meet such schedule.

By the Commission.

EQUITY CORP. AND AMERICAN GENERAL CORP.

NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 13th day of July A. D. 1950.

Notice is hereby given that The Equity Corporation (Equity) and American General Corporation (American General), both of 103 Park Avenue, New York, New York, have filed an application under section 17 (b) of the Investment Company Act of 1940 requesting an order of the Commission exempting from section 17 (a) of the act, a proposed transaction whereby Equity will distribute to American General certain shares of the common stock of American General now held by Equity, for 138,200 shares of the common stock of Equity now owned by American General.

Equity and American General are closed-end, management investment companies registered under the act. Equity owns 76.12 percent of the outstanding voting securities of American General. American General owns 138,200 shares or 2.38 percent of the outstanding common stock of Equity which represents 2.80 percent of Equity's outstanding voting securities. The number of shares of common stock of American General to be distributed by Equity to American General in the proposed exchange will be determined on the basis of the asset values of both companies as of the close of business of the day immediately preceding the date of any order of exemption. The proposed transaction involves purchases of securities of which the seller is not the issuer by an affiliated person of a registered investment company from such registered company. Section 17 (a) of the act prohibits such transactions unless an exemption therefrom is granted pursuant to section 17 (b) of the act.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application which is on file in the offices of the Commission in Washington, D. C.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission at any time after August 3, 1950, unless prior thereto a hearing upon the application is ordered by the Commission, as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than August 1, 1950, at 5:30 p. m., e. d. s. t., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

Subchapter C—Loans, Purchases, and Other Operations

[1950 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Hay and Pasture Seed]

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1950 PRICE SUPPORT PROGRAMS FOR GRAINS AND RELATED COMMODITIES

A price support program has been announced for the 1950 crop of hay and pasture seeds named in § 601.230. The 1950 CCC Grain Price Support Bulletin 1 (15 F. R. 3147) issued by Commodity Credit Corporation and containing the general requirements with respect to price support operations for grains and related commodities produced in 1950, is supplemented as follows:

Sec.
601.221 Purpose.
601.222 Availability of price support.
601.223 Eligible seed.
601.224 Warehouse receipts.
601.225 Determination of quantity.
601.226 Determination of quality.
601.227 Loss or damage to seed under farm-storage loan.
601.228 Warehouse and other charges.
601.229 Maturity of loans.
601.230 Schedule of basic specifications and rates.
601.231 Delivery of seed to CCC.
601.232 Settlement.

AUTHORITY: §§ 601.221 to 601.232 issued under sec. 4, 62 Stat. 1070; 15 U. S. C. Sup., 714b. Interpret or apply sec. 5, 62 Stat. 1072, Titles III, IV, Pub. Law 439, 81st Cong.; 15 U. S. C. Sup., 714c.

§ 601.221 *Purpose.* This supplement states additional specific requirements which, together with those contained in the 1950 C. C. C. Grain Price Support Bulletin 1, apply to loans and purchase agreements for producers under the 1950 Crop Hay and Pasture Seed Price Support Program.

§ 601.222 *Availability of price support*—(a) *Method of support.* Price support will be available to producers through nonrecourse farm-storage and warehouse-storage loans and through purchase agreements for all seeds listed in § 601.230.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available to producers wherever any of the seeds listed in § 601.230 are grown in the United States, except that farm-storage loans will not be available in areas where the State PMA committee determines that seeds cannot be stored safely on the farm.

(c) *Where to apply.* Applications for price support on seeds must be made by the producer at the office of the PMA county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available to producers from the time of harvest through January 31, 1951, and the applicable documents must be signed by the producer and delivered to the county committee not later than such date. Disbursements under the loan program will be made not later than March 15, 1951, unless specially approved by CCC in each instance.

(e) *Eligible producer.* An eligible producer shall be any individual, partnership, association, corporation, or other legal entity producing seed listed in § 601.230 in 1950, as landowner, landlord, tenant, or sharecropper.

Cooperative marketing associations of producers shall be eligible for loans and purchase agreements: *Provided*, That, (1) the producer members are bound by contract to market through the association; (2) the major part of the seed marketed by the association is produced by members who are eligible producers; (3) the members share proportionately in the proceeds from marketings according to the quantity and quality of seed each delivers to the association; (4) the seed purchased from nonmembers is segregated sufficiently to assure that the seed placed under loan or delivered under a purchase agreement accurately reflects the quantity and quality of seed grown by producer members; and, (5) the association has the legal right to pledge or mortgage the seed as security for a loan.

§ 601.223 *Eligible seed.* At the time the seed is placed under loan or delivered under a purchase agreement, the seed shall meet the following requirements:

(a) The seed must have been produced in the continental United States by an eligible producer and be one of the kinds and varieties named in § 601.230.

(b) Except in the case of cooperative marketing associations of producers, the beneficial interest in the seed must be in the person tendering the seed for loan or for delivery under a purchase agreement, and must always have been in him, or must have been in him and a former producer whom he succeeded before the seed was harvested.

(c) It must, on the basis of official purity analysis reports, and germination test certificates dated not more than five calendar months prior to the first day of the month in which the seed is tendered for loan or purchase, be equal to or better in every respect than the minimum specifications for the particular kind of seed as shown in § 601.230; unless the warehouseman certifies that the seed is of a quality eligible for loan, shows such quality on the warehouse receipt, and guarantees to deliver to CCC seed of a quality equal to, or better, than that shown on the warehouse receipt. (Due to the length of time required to process Buffalo grass, it may be limited to guaranteed warehouse stored loans.)

(d) The seed must not contain noxious weed seeds in excess of the number permitted for sale as planting seed by the State seed law and rules and regulations pursuant thereto of the State in which the seed is tendered for loan or delivered under a purchase agreement and must conform with the requirements concerning noxious weed seed in § 601.230.

§ 601.224 *Warehouse receipts.* Warehouse receipts representing seed in approved warehouse storage to be placed under loan or delivered under a purchase agreement must meet the following requirements:

(a) Warehouse receipts must be issued in the name of the producer or cooperative marketing associations of producers, must be properly endorsed in blank so as to vest title in the holder, must be issued by an approved warehouse, and must show the quantity of eligible seed actually in store in the warehouse.

(b) Where the warehouseman guarantees quality, each warehouse receipt, or the warehouseman's supplemental certificate (in duplicate) properly identified with the warehouse receipt, must show the net weight of the seed and the factors used in determining the quality of the seed.

(c) Where the warehouseman does not guarantee the quality, there shall be attached to the warehouse receipt copies of the official purity analysis and germination test certificates.

(d) Warehouse receipts shall carry an endorsement in substantially the following form:

Warehouse charges through April 30, 1951 (September 30, 1951, in the case of buffalo grass seed), on the seed represented by this warehouse receipt have been paid or otherwise provided for, and lien for such charges will not be claimed by the warehouseman from CCC or any subsequent holder of the warehouse receipt.

(e) The warehouse receipt representing each lot of seed must set forth in the written or printed terms the kind or variety of seed, the lot identity or number, the number of bags and the total net weight.

§ 601.225 *Determination of quantity.* All determinations of the quantity of seed delivered under loan or purchase agreement in an approved warehouse under this program shall be made on the basis of the net weight of eligible seed, as specified on the warehouse receipt. The quantity of seed being placed under a farm-storage loan shall be determined by the county committee. The quantity of seed delivered under a farm-storage loan will be the actual net weight of seed.

§ 601.226 *Determination of quality.* At the time the seed is placed under loan, the county committee will determine the quality of the seed on the basis of official purity and germination tests of a representative sample, except where the warehouseman guarantees quality of the seed. An "official test" shall be an analysis made by a Federal or State Seed Testing Laboratory where such facilities are available, or, in the absence of such facilities, by a seed testing laboratory approved by the State committee. The germination test certificate shall not be dated more than 5 calendar months prior to the first day of the month in which the seed is tendered for loan or delivered to CCC. A representative sample for determination of quality shall be a sample taken by a licensed State inspector, or where such services are not provided, the county committee shall arrange for obtaining a representative sample which shall consist of equal portions taken from evenly distributed parts of the lot of seed to be sampled.

§ 601.227 *Loss or damage to seed under farm-storage loan.* Notwithstanding the provisions of § 601.15 of the 1950 CCC Grain Price Support Bulletin 1, and the provisions of the chattel mortgage and the mortgage supplement, the producer will not be responsible for deterioration occurring without fault or negligence on the part of the producer or the person in control of the farm-storage structure.

§ 601.228 *Warehouse and other charges.* CCC will not pay or assume cleaning, drying, bagging, sampling, testing and analysis reports, tagging or other handling or processing charges which are necessary to prepare the seed to meet eligibility requirements for price support, or storage charges which accrue prior to May 1, 1951 (October 1, 1951, in the case of buffalo grass seed), or the date of the warehouse receipt, or the date the seed is determined to be eligible for delivery, whichever is later.

§ 601.229 *Maturity of loans.* Loans mature on demand but not later than April 30, 1951 (September 30, 1951, in the case of buffalo grass seed).

§ 601.230 *Schedule of basic specifications and rates.* The rates at which purchases will be made from producers and the loan and settlement rates shall be computed in accordance with the specifications and rates shown in the following schedule.

SUPPLEMENT TO THE SCHEDULE OF BASIC RATES, SPECIFICATIONS AND DISCOUNTS APPLICABLE TO 1950 HAY, PASTURE, AND RANGE GRASS SEED

NOXIOUS WEED-SEED REQUIREMENTS

In addition to the prescribed eligibility requirements, seed must meet the following requirements with respect to noxious weed seed:

a. The seed shall not contain noxious weed seeds in excess of the number permitted for sale as planting seed by the State seed law and rules and regulations pursuant thereto of the State in which the seed is delivered to C. C. C.

b. In addition to a, above, the seed shall not contain any of the following prohibited noxious weed seeds:

Common name	Botanical name
Austrian fieldcress	Rorippa austriaca.
Bindweed	Convolvulus Arvensis.
Camelthorn	Alhagi (camelorum) pseudalhagi.
Canada thistle	Cirsium arvense.
Globepodded balicress, whitetop	Cardaria pubescens.
Horsenettle [1]	Solanum carolinense.
Johnson grass	Sorghum halpense.
Leafy spurge	Euphorbia esula.
Nutgrass	Cyperus rotundus.
Perennial sowthistle	Sonchus arvensis.
Purple nightshade [1]	Solanum elaeagnifolium.
Quackgrass	Agropyron repens.
Russian knapweed	Centaurea repens (picris).
Whitetop	Cardaria (Lepidium) draba.
Wild onion	Allium spp.

c. In addition to a and b above, the seed shall not contain any of the following noxious weed seeds in greater number or collectively, than the proportions shown below, using either the number or weight proportion as is reported on the analysis report:

(1) 1 noxious weed seed to 10,000 agricultural seeds or 50 per pound:

Common name	Botanical name
Bermuda grass, devilgrass	Cynodon dactylon.
Bindweed, hedge	Convolvulus sepium.
Blue lettuce, chicory lettuce [2]	Lactuca pulchella.
Chufa, nutgrass	Cyperus esculentus.
Dodder	Cuscuta spps.
Iberian star thistle [2]	Centaurea iberica.
Marijuana [2]	Cannabis sativa.
Perennial mustard, whitetop [2]	Lepidium latifolium.
Poison hemlock [2]	Conium maculatum.
Poison milkweed [2]	Asclepias galioides.

[1] Horsenettle and purple nightshade, in lespedeza seed, are classed as prohibited noxious weed seeds only when present in excess of 500 seeds per pound.

[2] Not classified as a noxious weed seed in lespedeza seed.

Plumas, and those counties north of the fortieth degree of latitude, but including all counties south of the thirty-seventh degree of latitude in the State of Kentucky, and Virginia. Approved origin alfalfa seed in Oklahoma must be so certified by the official tags and seals of the Oklahoma Crop Improvement Association will be at the rates specified for the Central region.

[1] The Southern region includes all the producing areas south of the Central region.

[2] For certified varieties listed regardless of where grown. Certified seed from Kansas is authorized to certify to the genetic purity of the seed by the State Crop Improvement Association or other Kansas authorized to certify to the genetic purity of the seed by the State Crop Improvement Association or other tag color designations used in the certification of seed and tagged and sealed by the State Crop Improvement Association or other tag color designations used in the certification of seed and the seed must be below the minimum purity requirements for certification for the next higher grade.

[3] Must be certified seed of quality for highest grade certification, the purity to be used for price support purposes for such certified seed must be below the minimum purity requirements for certification for the next higher grade.

[4] Note exceptions to noxious weed seed requirements for lespedeza seed as given in Supplements.

[5] Alfa and Kentucky 31 only.

[6] Not more than 1 percent sand dropseed.

[7] Not more than 1 percent at the respective rates on quantities of big bluestem, little bluestem, and sand bluestem in mixture; provided the mixture contained at least 30 percent of two or more of these seeds, not more than 1 percent sand dropseed and not more than 5 percent of grass seeds other than switchgrass, side oats grama, and Indiangrass. The pure seed of the mixture and the germination of each component will be used in determining the value. Maximum weed seed, 2 percent.

[8] Not more than 1 percent at the respective rates on quantities of blue grama and side oats grama in mixture provided the mixture contains at least 25 percent of blue grama and side oats grama; not more than 1 percent of sand dropseed and not more than 5 percent of grass seeds other than buffalo grass, bluestem, switchgrass and Indiangrass. The pure seed mixture and the germination of each component will be used in determining the value. Maximum weed seed, 2 percent.

§ 601.231 *Delivery of seed to CCC.* If seed is delivered by a producer to CCC pursuant to the purchase agreement or in satisfaction of the loan, the following conditions shall apply.

(a) The seed must be cleaned, fumigated if necessary, and the quality of each lot of seed must be evidenced by official purity analysis reports and germination test certificates.

(b) Seed delivered by a producer must meet at least the minimum eligibility requirements in every respect as set forth in § 601.230. The producer must notify the county committee in writing of his intention to sell within the 30-day period ending on the maturity date for loans.

(c) Seed delivered to CCC under a loan or producers purchase agreement must be packaged in even weight, net capacity, new bags of approved quality as described below:

Alfalfa, alsike, ladino (certified), red, sweet, Hubam sweet, and white clover, common or Tenn. 76, and sericea lespedeza, orchard grass, timothy, weeping and sand lovegrass and switchgrass:

Type	Net capacity (pounds)
(1) Tri-Sax (double seam):	
36-inch 7.5 oz. or heavier	100 or 60
40-inch 8.25 oz. or heavier	100 or 60
(2) Osnaburg (seamless or double seam): 30-inch 7-oz. or heavier	100 or 60
(3) Seamless cotton 16-oz	150

Tall meadow fescue (certified), smooth brome, Sudan, and crested, slender, and western wheatgrass, common or Tenn. 76, and sericea lespedeza:

Type	Net capacity (pounds)
(1) Tri-Sax (double seam):	
36-inch 7.5-oz. or heavier	100
40-inch 7-oz. or heavier	100
(2) Osnaburg (seamless or double seam): 30-inch, 7-oz. or heavier	100
(3) Burlap or jute: 10-oz. or heavier	100

Big, little, and sand bluestem, blue and side-oats gramma and natural component mixtures thereof where provided for, Indiangrass and buffalo grass:

Type	Net capacity (pounds)
(1) Burlap or jute: 10-oz. or heavier	50 or 30
(2) Tri-Sax or Osnaburg (double seam):	
36-inch 7.5-oz. or heavier	50 or 30
40-inch 8.25-oz. or heavier	50 or 30

(d) The seed must be tagged in accordance with the Federal Seed Act for interstate shipments, if ordered loaded out for interstate shipment by CCC.

§ 601.232 *Settlement.* Where seed is delivered to CCC in accordance with § 601.18 of the 1950 C. C. C. Grain Price Support Bulletin 1, the following additional provisions shall be applicable:

Settlement under a farm-storage loan shall be made with the producer at the applicable support price on the basis of the quantity of the seed delivered, and on the basis of the quality of the seed when placed under loan except that if deterioration has resulted from negligence on the part of the producer or other person having control of the storage structure, settlement shall be made on the basis of the quality and quantity of the seed delivered.

Where seed is delivered under a purchase agreement in a warehouse for which a Seed Storage Agreement is in effect, settlement will be made on the basis of the quality and quantity of seed shown on the warehouse receipt and accompanying documents, provided the purity analysis reports and germination test certificates are dated not more than five calendar months prior to the first day of the month in which the warehouse receipts are tendered to the county committee. In all other cases of delivery under purchase agreements, settlement will be made on the basis of the quantity of seed actually delivered and the quality shown by purity analysis reports and germination test certificates dated not more than five calendar months prior to the first day of the month in which the seed is delivered to CCC, except that if the county committee determines that the physical condition of the seed is such that such reports and certificates are no longer representative, the quality shall be determined by purity analyses and germination tests made at the time of delivery.

[1950 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Grain Sorghums]

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1950-CROP GRAIN SORGHUMS LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program has been announced for the 1950 crop of grain sorghums. The 1950 C. C. C. Grain Price Support Bulletin 1, 15 F. R. 3147, issued by the Commodity Credit Corporation and containing the general requirements with respect to price support operations for grains and related commodities produced in 1950, is supplemented as follows:

Sec.
601.251 Purpose.
601.252 Availability of price support.
601.253 Eligible grain sorghums.
601.254 Warehouse receipts.
601.255 Determination of quantity.
601.256 Determination of quality.
601.257 Maturity of loans.
601.258 Support rates.

AUTHORITY: §§ 601.251 to 601.258 issued under sec. 4, 62 Stat. 1070, as amended, 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, Titles III and IV, Pub. Law 439, 81st Cong.; 15 U. S. C. Sup., 714c.

§ 601.251 *Purpose.* This supplement states additional specific requirements which, together with the general requirements contained in the 1950 C. C. C. Grain Price Support Bulletin 1, 15 F. R. 3147, apply to loans and purchase agree-

ments under the 1950–Crop Grain Price Support Program.

§ 601.252 *Availability of price support*—(a) *Method of support.* Price support will be made available by means of nonrecourse farm-storage and warehouse-storage loans and through purchase agreements.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available wherever grain sorghums are grown in the continental United States, except that farm-storage loans will not be available in areas where the PMA State committee determines that grain sorghums cannot be safely stored on the farm.

(c) *Where to apply.* Application for price support should be made at the office of the PMA county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available from the time of harvest through January 31, 1951, and the applicable documents must be signed by the producer and delivered to the county committee not later than such date.

(e) *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, or other legal entity producing grain sorghums in 1950 as landowner, landlord, tenant, or sharecropper.

§ 601.253 *Eligible grain sorghums.* At the time the grain sorghums are placed under loan or delivered under a purchase agreement, they must meet the following requirements:

(a) The grain sorghums must have been produced in the continental United States in 1950 by an eligible producer.

(b) The beneficial interest in the grain sorghums must be in the person tendering the grain sorghums for loan or for delivery under a purchase agreement, and must always have been in him, or must have been in him and a former producer whom he succeeded before the grain sorghums were harvested.

(c) The grain sorghums must be of a class grading No. 4 or better and containing not in excess of 13 percent moisture.

(d) The grain sorghums must not grade discolored, or weevily.

(e) If offered as security for a farm-storage loan, the grain sorghums must have been stored in the granary at least 30 days prior to inspection for measurement, sampling, and sealing, unless otherwise approved by the PMA State committee.

§ 601.254 *Warehouse receipts.* Warehouse receipts representing grain sorghums in approved warehouse storage to be placed under loan or delivered under a purchase agreement, must meet the requirements below.

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be issued by an approved warehouse.

(b) Each warehouse receipt must set forth in its written terms that the grain sorghums are insured for not less than market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone and tornado, or, in lieu of this statement, it must have stamped or printed thereon the word "Insured."

(c) Each warehouse receipt or the warehouseman's supplemental certificate (in duplicate) properly identified with the warehouse receipt, must show the gross weight, grade, class, subclass, dockage, all grading factors set forth in the Official Grain Standards of the United States for Grain Sorghums, and must show whether the grain sorghums arrived by rail, truck, or barge.

(d) If the warehouse receipt states that the grain sorghums are stored "identity preserved," the producer must execute a supplemental certificate and assume responsibility for the quantity and quality indicated thereon.

(e) A separate warehouse receipt must be submitted for each grade, class, and subclass of grain sorghums.

(f) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 601.258 (d).

§ 601.255 *Determination of quantity.* The quantity of grain sorghums placed under farm-storage loan may be determined either by weight or by measurement. The quantity of grain sorghums placed under a warehouse-storage loan or delivered under a farm-storage loan or under a purchase agreement shall be determined by weight.

When a quantity is determined by weight, a unit of 100 pounds shall be determined to be 100 pounds of grain sorghums free of dockage. In determining the quantity of sacked grain sorghums by weight, a deduction of ¾ of a pound for each sack will be made.

When the quantity of grain sorghums is determined by measurement, 100 pounds shall be 2.25 cubic feet of grain sorghums testing 56 pounds per bushel, and fractional pounds of test weight per bushel and fractional units of less than 100 pounds will be disregarded. The quantity determined by measurement of grain sorghums having a test weight of less than 56 pounds per bushel shall be adjusted by:

For grain sorghums testing	*Percent*
56 pounds or over	100
55 pounds or over, but less than 56 pounds	98
54 pounds or over, but less than 55 pounds	96
53 pounds or over, but less than 54 pounds	95
52 pounds or over, but less than 53 pounds	93
51 pounds or over, but less than 52 pounds	91
50 pounds or over, but less than 51 pounds	89
49 pounds or over, but less than 50 pounds	87

The percentage of dockage shall be determined and the weight of such dockage shall be deducted from the gross weight of the grain sorghums in determining the net quantity available for loan or purchase.

§ 601.256 *Determination of quality.* The class, subclass, grade, grading factors, and all other quality factors shall be determined in accordance with the methods set forth in the Official Grain Standards of the United States for Grain Sorghums, whether or not such determinations are made on the basis of an official inspection.

§ 601.257 *Maturity of loans.* Loans mature on demand but not later than March 31, 1951.

§ 601.258 *Support rates.* Loans will be made, and grain sorghums delivered under purchase agreements will be purchased, at the support rates set forth in this section.

(a) *Support rates at designated terminal markets.* Support rates per 100 pounds for grain sorghums of the Classes I to IV, inclusive, grading No. 2 or better, stored in warehouse storage at the following terminal markets, shall be as follows:

Terminal market	*Support rate per 100 lbs. for No. 2 or better*
Galveston, Tex.	$2.42
Houston, Tex.	2.42
Kansas City, Mo.	2.35
Los Angeles, Calif.	2.67
Memphis, Tenn.	2.53
New Orleans, La.	2.42
Omaha, Nebr.	2.35
St. Louis, Mo.	2.53
San Francisco, Calif.	2.67
Sioux City, Iowa	2.35

For loan or purchase at the support rate shown in the above schedule, the grain sorghums must have been shipped on a domestic interstate freight rate basis. On any grain sorghums shipped at other than the domestic interstate freight rate, the support rate at the designated terminal market will be reduced by the difference between the freight paid (plus tax) and the domestic interstate freight rate (plus tax).

The foregoing schedule of support rates applies to grain sorghums which have been shipped by rail or water from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for transit privileges: *Provided*, That in the event the amount of paid-in freight is insufficient to guarantee the minimum proportional domestic interstate freight rate from the terminal market, there shall be deducted from the applicable terminal support rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee outbound movement at the minimum proportional domestic interstate freight rate. The warehouse receipts must be accompanied by registered freight bills, or by (1) a statement as indicated below signed by the warehouseman, (2) a certificate of the warehouseman containing such information, or, (3) such form of certification as may be approved by CCC.

FREIGHT CERTIFICATE FOR TERMINALS

The grain sorghums represented by attached warehouse receipt No. ——— was received by rail freight from ———— (Town) ———— point of ———— (County) ———— (State) origin, as evidenced by freight bill described as follows:

When shipped by rail or water and stored at any designated terminal market, grain sorghums for which neither registered freight bills nor such freight certificates are presented to guarantee outbound movement at the minimum proportional domestic interstate freight rate, shall have a support rate equal to the terminal rate minus 14 cents per 100 pounds.

When received by truck and stored at any designated terminal market, the support rate for grain sorghums in Area I shall be the terminal rate minus 22 cents; in Area II, the terminal rate minus 23 cents; and in Areas III and IV, the terminal rate minus 25 cents per 100 pounds. (The States included in each of these areas are listed in paragraph (d) of § 601.578.)

(b) *Support rates for grain sorghums in approved warehouse-storage at other than designated terminal markets.* The support rate for grain sorghums stored in approved warehouses (other than those situated in the designated terminal markets) which are shipped by rail or water will be determined by deducting from the appropriate designated terminal market rate an amount equal to the transit balance, if any (plus tax), of the through-freight rate from point of origin for such grain sorghums to such terminal market: *Provided*, That in the case of grain sorghums stored at any railroad transit point, taking a penalty by reason of out-of-line movement, or for any other reason, to the appropriate designated market, there shall be added to such transit balance an amount equal to any out-of-line costs or other costs incurred in storing grain sorghums in such position.

The warehouse receipts, in addition to other required documents, must be accompanied by the original paid freight bills duly registered for transit privileges or, by a statement in the following form signed by the warehouseman, or by a warehouseman's supplemental certificate containing such information:

FREIGHT CERTIFICATE FOR OTHER THAN TERMINAL POINTS

The grain sorghums represented by attached warehouse receipt No. ——— was received by rail freight from ———— (Town) ———— point of origin, was evidenced by freight bill described as follows:

Transit balance, if any, of through freight rate to ———— of ———— per 100 pounds ————
Number unused transit stops ————
Penalty, if any, to guarantee minimum proportional rate on outbound billing of ——— cents per 100 pounds ————

The above-described paid freight bill has been officially registered for transit and will be held in accordance with applicable provisions of the Uniform Grain Storage Agreement.

(c) *County support rates.* Both farm-storage and country warehouse-storage loans will be made at the support rate established for the county in which the grain sorghums are stored. Support rates per 100 pounds of grain sorghums of the Classes I to IV, inclusive, grading No. 2, or better, shall be as follows:

(d) *Warehouse charges.* The warehouse receipt and the grain sorghums represented thereby may be subject to liens for warehouse charges only from May 15, 1950, or the date the warehouse charges begin, whichever is later.

In the case of grain sorghums placed under loan or delivered to CCC under a purchase agreement in an approved warehouse under the Uniform Grain Storage Agreement, evidence must be submitted with the warehouse receipt that all warehouse charges, except receiving charges, have been prepaid, through March 31, 1951, or a deduction as shown below will be made from the applicable support rate and CCC will assume the accrued warehouse charges on the grain sorghums: *Provided*, That CCC will not assume any charges in excess of those provided under the Uniform Grain Storage Agreement applicable to the 1950 crop.

DEDUCTIONS FROM APPLICABLE SUPPORT RATE IF ALL WAREHOUSE CHARGES, EXCEPT RECEIVING CHARGES, HAVE NOT BEEN PREPAID THROUGH MARCH 31, 1951

	Cents per 100 pounds
Area I: Arizona, California, Idaho, Minnesota, Montana, Nevada, North Dakota, Oregon, South Dakota, Washington, Utah	17.8
Area II: Colorado, Illinois, Iowa, Kansas, Missouri, Nebraska, Wyoming, Wisconsin	19.2

DEDUCTIONS FROM APPLICABLE SUPPORT RATE IF ALL WAREHOUSE CHARGES, EXCEPT RECEIVING CHARGES, HAVE NOT BEEN PREPAID THROUGH MARCH 31, 1951—continued

	Cents per 100 pounds
Area III: Connecticut, Delaware, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia	19.6
Area IV: Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, Texas	20.5

In the case of grain sorghums placed under loan or delivered to CCC under a purchase agreement in an approved warehouse operated by an Eastern common carrier or any other approved warehouse not under the Uniform Grain Storage Agreement, evidence must be submitted with the warehouse receipt that all warehouse charges, except receiving and loading out charges, have been prepaid through March 31, 1951, or all such charges will be deducted from the support rate: *Provided*, That CCC will assume the receiving and loading out charges, or reimburse the producer if he has prepaid such charges.

(e) *Discounts.* The discount for grain sorghums which grade No. 3 shall be 8 cents per 100 pounds and No. 4, 16 cents per 100 pounds.

Grain sorghums which grade "Smutty" shall be discounted 5 cents per 100 pounds.

The support rates for mixed grain sorghums (Class V) shall be 3 cents per 100 pounds less than the support rates for grain sorghums of the classes I to IV, inclusive.

(f) *Track-loading.* A track-loading payment of 4 cents per 100 pounds will be made to the producer on grain sorghums delivered to CCC on track at a country point.

(g) *Settlement*—(1) *Loans.* Settlement on grain sorghums delivered to CCC under farm-storage loans will be made at the support rate for the approved point of delivery. In the case of farm-storage loans, and warehouse-storage loans where the grain sorghums are stored "identity preserved," the support rate will be for the grade and quality of the total quantity of grain sorghums delivered.

If the grain sorghums are, upon delivery, of a grade and/or quality for which no support rate has been established, the settlement value shall be the support rate established for the grade and/or quality of the grain sorghums placed under loan, less the difference, if any, at the time of delivery, between the market price for the grade and/or quality placed under loan and the market price of the grain sorghums delivered, as determined by CCC.

(2) *Purchase agreements.* Grain sorghums delivered to CCC under a purchase agreement must meet the requirements of grain sorghums eligible for loan. The purchase rate per 100 pounds of eligible grain sorghums will be the applicable support rate established for the approved point of delivery.

Issued this 14th day of July 1950.

[1950 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Oats]

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1950-CROP OATS LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program for 1950-Crop Oats has been announced. The 1950 C. C. C. Grain Price Support Bulletin 1, 15 F. R. 3147, issued by the Commodity Credit Corporation and containing the general requirements with respect to price support operations for grains and related commodities produced in 1950, is supplemented as follows:

Sec.
601.301 Purpose.
601.302 Availability of price support.
601.303 Eligible oats.
601.304 Warehouse receipts.
601.305 Determination of quantity.
601.306 Determination of quality.
601.307 Maturity of loans.
601.308 Support rates.

AUTHORITY: §§ 601.301 to 601.308 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup., 714b. Interpret or apply sec. 5, 62 Stat 1072, Titles III, IV, Pub. Law 439, 81st Cong.; 15 U. S. C. Sup., 714c.

§ 601.301 *Purpose.* This supplement states additional specific requirements which, together with the general requirements contained in the 1950 C. C. C. Grain Price Support Bulletin 1, 15 F. R. 3147, apply to loans and purchase agreements under the 1950-Crop Oats Price Support Program.

§ 601.302 *Availability of price support*—(a) *Method of support.* Price support will be available by means of nonrecourse farm-storage and warehouse-storage loans and through purchase agreements.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available wherever oats are grown in the continental United States, except that farm-storage loans will not be available in areas where the PMA State committee determines that oats cannot be safely stored on the farm.

(c) *Where to apply.* Application for price support should be made at the office of the PMA county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available from the time of harvest through January 31, 1951; the applicable documents must be signed by the producer and delivered to the county committee not later than such date.

(e) *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, or other legal entity producing oats in 1950 as landowner, landlord, tenant, or sharecropper.

§ 601.303 *Eligible oats.* At the time the oats are placed under loan or delivered under a purchase agreement, the oats must meet the following requirements:

(a) The oats must have been produced in the continental United States in 1950 by an eligible producer.

(b) The beneficial interest in the oats must be in the person tendering the oats for loan or for delivery under a purchase agreement, and must always have been in him, or must have been in him and a former producer whom he succeeded before the oats were harvested.

(c) The oats must grade No. 3 or better. Feed oats and mixed feed oats will not be eligible.

(d) The oats must not grade Weevily, Smutty, Ergoty, Garlicky, Bleached, Thin or Tough, or be otherwise of low quality.

(e) If offered as security for a farm-storage loan, the oats must have been stored in the granary at least 30 days prior to their inspection for measurement, sampling, and sealing, unless otherwise approved by the PMA State committee.

§ 601.304 *Warehouse receipts.* Warehouse receipts representing oats in approved warehouse storage to be placed under loan or delivered under a purchase agreement, must meet the following requirements:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be issued by an approved warehouse.

(b) Each warehouse receipt must set forth in its written terms that the oats are insured for not less than market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone and tornado, or in lieu of this statement, it must have stamped or printed thereon the word "Insured."

(c) Each warehouse receipt, or the warehouseman's supplemental certificate (in duplicate), properly identified with the warehouse receipt, must show the gross weight, grade, class, test weight and all grading factors set forth in the Official Grain Standards of the United States for Oats.

(d) If the warehouse receipt states that the oats are stored "identity preserved," the producer must execute the supplemental certificate and assume responsibility for the quantity and quality indicated thereon.

(e) A separate warehouse receipt must be submitted for each grade of oats.

(f) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 601.308 (b).

§ 601.305 *Determination of quantity.* The quantity of oats placed under farm-storage loan may be determined either by weight or by measurement. The quantity of oats placed under a warehouse-

storage loan or delivered under a farm-storage loan or under a purchase agreement shall be determined by weight.

When the quantity is determined by weight, a bushel shall be 32 pounds of oats. In determining the quantity of sacked oats by weight, a deduction of ¾ of a pound for each sack will be made.

When the quantity of oats is determined by measurement, a bushel will be 1.25 cubic feet of oats testing 32 pounds per bushel, and fractional pounds of test weight per bushel will be disregarded. The quantity determined will be the following percentages of the quantity determined for 32-pound oats:

For oats testing	*Percent*
40 pounds or over	125
39 pounds or over, but less than 40 pounds	121
38 pounds or over, but less than 39 pounds	118
37 pounds or over, but less than 38 pounds	115
36 pounds or over, but less than 37 pounds	112
35 pounds or over, but less than 36 pounds	109
34 pounds or over, but less than 35 pounds	106
33 pounds or over, but less than 34 pounds	103
32 pounds or over, but less than 33 pounds	100
31 pounds or over, but less than 32 pounds	96
30 pounds or over, but less than 31 pounds	93
29 pounds or over, but less than 30 pounds	90
28 pounds or over, but less than 29 pounds	87
27 pounds or over, but less than 28 pounds	84

Since the percentage of dockage is not a grade factor in the case of oats, the quantity of oats will be determined without reference to dockage.

§ 601.306 *Determination of quality.* The grade, grading factors, and all other quality factors shall be determined in accordance with the methods set forth in the Official Grain Standards of the United States for Oats, whether or not such determinations are made on the basis of an official inspection.

§ 601.307 *Maturity of loans.* Loans mature on demand but not later than April 30, 1951.

§ 601.308 *Support rates.* Loans will be made, and oats delivered under purchase agreements will be purchased, at the support rates set forth in this section.

(a) *County support rates for oats grading No. 3, or better.* Both farm-storage and warehouse-storage loans will be made at the support rate established for the county in which the oats are stored. Support rates per bushel for oats grading No. 3, or better, shall be as follows:

(b) *Warehouse charges.* The warehouse receipt and the oats represented thereby may be subject to liens for warehouse charges only from May 15, 1950, or the date the warehouse charges begin, whichever is later.

In the case of oats placed under loan or delivered to CCC under a purchase agreement in an approved warehouse under the Uniform Grain Storage Agreement, evidence must be submitted with the warehouse receipt that all warehouse charges, except receiving charges, have been prepaid through April 30, 1951, or a deduction of 8 cents per bushel will be made from the support rate: *Provided*, That CCC will not assume any charges in excess of those provided under the Uniform Grain Storage Agreement applicable to the 1950 crop.

In the case of oats placed under loan or delivered to CCC under a purchase agreement in an approved warehouse operated by an Eastern common carrier or any other approved warehouse not under the Uniform Grain Storage Agreement, evidence must be submitted with the warehouse receipt that all warehouse charges, except receiving and loading out charges, have been prepaid through April 30, 1951, or all such charges will be deducted from the support rate: *Provided*, That CCC will assume the receiving and loading out charges or reimburse the producer if he has prepaid such charges.

(c) *Track-loading payment.* A track-loading payment of 2 cents per bushel will be made to the producer on oats delivered to CCC on track at a country point.

(d) *Settlement*—(1) *Loans.* Settlement on oats delivered to CCC under farm-storage loans will be made at the support rate for the approved point of delivery. In the case of farm-storage loans, and warehouse-storage loans where the oats are stored "identity preserved," the support rate will be for the grade and quality of the total quantity of oats delivered.

If the oats are, upon delivery, of a grade and/or quality for which no support rate has been established, the settlement value shall be the support rate established for the grade and/or quality

of the oats placed under loan, less the difference, if any, at the time of delivery, between the market price for the grade and/or quality placed under loan and the market price of the oats delivered, as determined by CCC..

(2) *Purchase agreements.* Oats delivered to CCC under a purchase agreement must meet the requirements of oats eligible for loan. The purchase rate per bushel of eligible oats will be the applicable support rate established for the approved point of delivery.

Issued this 14th day of July 1950.

[1950 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Rye]

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1950-CROP RYE LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program for 1950-crop rye has been announced. The 1950 C. C. C. Grain Price Support Bulletin 1, 15 F. R. 3147 issued by the Commodity Credit Corporation and containing the general requirements with respect to price support operations for grains and related commodities produced in 1950, is supplemented as follows:

Sec.
601.601 Purpose.
601.602 Availability of price support.
601.603 Eligible rye.
601.604 Warehouse receipts.
601.605 Determination of quantity.
601.606 Determination of quality.
601.607 Maturity of loans.
601.608 Support rates.

AUTHORITY: §§ 601.601 to 601.608 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup., 714b. Interpret or apply sec. 5, 62 Stat. 1072, Titles III, IV, Pub. Law 439, 81st Cong., 15 U. S. C. Sup., 714c.

§ 601.601 *Purpose.* This supplement states additional specific requirements which, together with the general requirements contained in the 1950 C. C. C. Grain Price Support Bulletin 1, 15 F. R. 3147, apply to loans and purchase agreements under the 1950-Crop Rye Price Support Program.

§ 601.602 *Availability of price support—(a) Method of support.* Price support will be made available by means of nonrecourse farm-storage and warehouse-storage loans and through purchase agreements.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available wherever rye is grown in the continental United States, except that farm-storage loans will not be available in areas where the PMA State committee determines that rye cannot be safely stored on the farm.

(c) *Where to apply.* Application for price support should be made at the office of the PMA county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available from the time of harvest through January 31, 1951, and the applicable documents must be signed by the producer and delivered to the county committee not later than such date.

(e) *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, or other legal entity producing rye in 1950 as landowner, landlord, tenant, or sharecropper.

§ 601.603 *Eligible rye.* At the time the rye is placed under loan or delivered under a purchase agreement, it must meet the following requirements:

(a) The rye must have been produced in the continental United States in 1950 by an eligible producer.

(b) The beneficial interest in the rye must be in the person tendering the rye for loan or for delivery under a purchase agreement, and must always have been in him, or must have been in him and a former producer whom he succeeded before the rye was harvested.

(c) Such rye must be rye grading No. 2 or better, or rye grading No. 3 on the factor of "test weight" only, but otherwise grading No. 2 or better. (If the rye is warehouse stored, the quality of the rye must be evidenced by a statement on the warehouse receipt, the inspection certificate, or the supplemental certificate substantially as follows: "This rye grades No. ____ because of _____.")

(d) The rye must not grade tough, light smutty, smutty, light garlicky, garlicky, weevily or contain in excess of 1 percent ergot.

(e) If offered as security for a farm-storage loan, the rye must have been stored in the granary at least 30 days prior to its inspection for measurement, sampling, and sealing, unless otherwise approved by the PMA State committee.

§ 601.604 *Warehouse receipts.* Warehouse receipts, representing rye in approved warehouse storage to be placed under loan or delivered under a purchase agreement, must meet the requirements of this section.

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be issued by an approved warehouse.

(b) Each warehouse receipt must set forth in its written terms that the rye is insured for not less than market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone and tornado, or, in lieu of this statement, it must have stamped or printed thereon the word "Insured."

(c) Each warehouse receipt, or the warehouseman's supplemental certificate (in duplicate) properly identified with the warehouse receipt, must show the gross weight or bushels, grade, all grading factors set forth in the Official Grain Standards of the United States for Rye, degree of smut and garlic, and percentage of ergot, and dockage, and must show whether the rye arrived by rail, truck, or barge. The moisture content must also be shown, except that where it is not customary for country warehousemen to determine the exact moisture percentage, a warehouse receipt representing rye stored in a country warehouse will be accepted if the moisture content is not shown, provided the grade of rye does not show the word "tough." In such cases, the warehouseman will be responsible for delivering rye which does not grade "tough" or "sample" due to moisture content. In the case of warehouse receipts issued for rye delivered by rail or barge, the grading factors on the warehouse receipt must agree with the inbound weight and inspection certificates for the car or barge as shown on the freight certificate.

(d) If the warehouse receipt states that the rye is stored "identity preserved," the producer must execute a supplemental certificate and assume responsibility for the quantity and quality indicated thereon.

(e) A separate warehouse receipt must be submitted for each grade of rye.

(f) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 601.608 (d).

§ 601.605 *Determination of quantity.* The quantity of rye placed under farm-storage loan may be determined either by weight or by measurement. The quantity of rye placed under a warehouse-storage loan or delivered under a farm-storage loan or under a purchase agreement shall be determined by weight.

When the quantity is determined by weight, a bushel shall be 56 pounds of rye free of dockage. In determining the quantity of sacked rye by weight, a deduction of ¾ of a pound for each sack will be made.

When the quantity of rye is determined by measurement, a bushel will be 1.25 cubic feet of rye testing 56 pounds per bushel, and fractional pounds of test weight per bushel will be disregarded. The quantity determined will be the following percentages of the quantity determined for 56-pound rye:

For rye testing	*Percent*
56 pounds or over	100
55 pounds or over, but less than 56 pounds	98
54 pounds or over, but less than 55 pounds	96
53 pounds or over, but less than 54 pounds	95
52 pounds or over, but less than 53 pounds	92

The percentage of dockage shall be determined and the weight of such dockage shall be deducted from the gross weight of the rye in determining the net quantity available for loan or purchase.

§ 601.606 *Determination of quality.* The grade, grading factors, and all other quality factors shall be determined in accordance with the methods set forth in the Official Grain Standards of the United States for Rye, whether or not such determinations are made on the basis of an official inspection.

The quantity of ergot shall be stated in terms of tenths of one percent and, where applicable, the word "Ergoty" shall be added to, and made a part of, the grade designation.

§ 601.607 *Maturity of loans.* Loans mature on demand but not later than April 30, 1951.

§ 601.608 *Support rates.* Loans will be made, and rye delivered under purchase agreements will be purchased, at the support rates set forth in this section.

(a) *Support rates at designated terminal markets.* Support rates per bushel for rye grading No. 2, or better, or No. 3 or better on the factor of test weight only, but otherwise No. 2 or better, and stored in approved warehouse-storage at the following terminal markets, shall be as follows:

Terminal market	*Rate per bushel*
Astoria, Oreg.	$1.55
Baltimore, Md.	1.63
Chicago, Ill.	1.52
Duluth, Minn.	1.48
Galveston, Tex.	1.55
Kansas City, Mo.	1.48
Longview, Wash.	1.55
Los Angeles, Calif.	1.55
Memphis, Tenn.	1.58
Milwaukee, Wis.	1.52
Minneapolis, Minn.	1.48
Omaha, Nebr.	1.48
Philadelphia, Pa.	1.63
Portland, Oreg.	1.55
San Francisco, Calif.	1.55
Seattle, Wash.	1.55
Sioux City, Iowa	1.48
St. Louis, Mo.	1.52
Superior, Wis.	1.48
Tacoma, Wash.	1.55
Vancouver, Wash.	1.55

For loan or purchase at the support rate shown in the above schedule, the rye must have been shipped on a domestic interstate freight rate basis. On any rye shipped at other than the domestic interstate freight rate, the support rate at the designated terminal market will be reduced by the difference between the freight paid (plus tax) and the domestic interstate freight rate (plus tax).

The foregoing schedule of support rates applies to rye which has been shipped by rail or water from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for transit privileges: *Provided*, That in the event the amount of paid-in-freight is insufficient to guarantee the minimum proportional domestic interstate freight rate from the terminal market, there shall be deducted from the applicable terminal support rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee outbound movement at the minimum proportional domestic interstate freight rate. The warehouse receipts must be accompanied by registered freight bills, or by (1) a statement as indicated below signed by the warehouseman, (2) a certificate of the warehouseman containing such information, or, (3) such form of certification as may be approved by CCC.

FREIGHT CERTIFICATE FOR TERMINALS

The rye represented by attached warehouse receipt No. _____ was received by rail freight from _____ (Town) _____ (County) _____ (State) point of origin, as evidenced by freight bill described as follows:

Way bill, date _____
No. _____
Car No. _____
Initials _____
Freight bill, date _____
No. _____
Carrier _____
Transit weight _____
Freight rate in _____
Amount collected _____
Number unused transit stops _____

The above-described paid freight bill has been officially registered for transit and will be held in accordance with the applicable provisions of the Uniform Grain Storage Agreement.

_____ (Warehouseman's signature)
_____ (Address)
_____ (Date of signature)

When shipped by rail or water and stored at any designated terminal market, rye for which neither registered freight bills nor such freight certificates are presented to guarantee outbound movement at the minimum proportional domestic interstate freight rate, shall have a support rate equal to the terminal rate minus 8 cents per bushel.

When received by truck and stored at any designated terminal market, the support rate for rye in Area I shall be the terminal rate minus 12½ cents; in Area II, the terminal rate minus 13 cents; and in Areas III and IV, the terminal rate minus 14 cents per bushel. (The States included in each of these areas are listed in paragraph (d) of this section.)

(b) *Support rates for rye in approved warehouse storage at other than designated terminal markets.* (1) The support rate for rye stored in approved warehouses (other than those situated in the designated terminal markets) which is shipped by rail or water will be determined by deducting from the appropriate designated terminal market rate an amount equal to the transit balance, if any (plus tax), of the through-feirght rate from point of origin for such rye to such terminal market: *Provided*, That in the case of rye stored at any railroad transit point, taking a penalty by reason of out-of-line movement, or for any other reason, to the appropriate designated market, there shall be added to such transit balance an amount equal to any out-of-line costs or other costs incurred in storing rye in such position.

The warehouse receipts, in addition to other required documents, must be accompanied by the original paid freight bills duly registered for transit privileges or, by a statement in the following form signed by the warehouseman, or by a warehouseman's supplemental certificate containing such information:

FREIGHT CERTIFICATE FOR OTHER THAN TERMINAL POINTS

The rye represented by attached warehouse receipt No. _____ was received by rail freight from _____ (Town) _____ (County) _____ (State) point of origin, was evidenced by freight bill described as follows:

Way bill, date _____
Car No. _____
Initials _____
Freight bill, date _____
No. _____
Carrier _____
Transit weight _____
Freight rate in _____
Amount collected _____
Transit balance, if any, of through freight rate to _____ of _____ per 100 pounds _____
Number unused transit stops _____
Penalty, if any, to guarantee minimum proportional rate on outbound billing of _____ cents per 100 pounds _____

The above-described paid freight bill has been officially registered for transit and will be held in accordance with applicable provisions of the Uniform Grain Storage Agreement.

_____ (Warehouseman's signature)
_____ (Address)
_____ (Date of signature)

(c) *County support rates.* Both farm-storage and country warehouse-storage loans will be made at the support rate established for the county in which the rye is stored. Support rates per bushel on rye grading No. 2, or better, or No. 3 on the factor of test weight only, but otherwise grading No. 2, or better, shall be as follows:

(d) *Warehouse charges.* The warehouse receipt and the rye represented thereby may be subject to liens for warehouse charges only from May 15, 1950, or the date the warehouse charges begin, whichever is later.

In the case of rye placed under loan or delivered to CCC under a purchase agreement in an approved warehouse under the Uniform Grain Storage Agreement, evidence must be submitted with the warehouse receipt that all warehouse charges, except receiving charges, have been prepaid through April 30, 1951, or a deduction as shown below will be made from the applicable support rate and CCC will assume the accrued warehouse charges on the rye: *Provided*, That CCC will not assume any charges in excess of those provided under the Uniform Grain Storage Agreement applicable to the 1950 crop.

DEDUCTIONS FROM APPLICABLE SUPPORT RATE IF ALL WAREHOUSE CHARGES, EXCEPT RECEIVING CHARGES, HAVE NOT BEEN PREPAID THROUGH APRIL 30, 1951

	Cents per bushel
Area I: Arizona, California, Idaho, Minnesota, Montana, Nevada, North Dakota, Oregon, South Dakota, Washington, Utah	10
Area II: Colorado, Illinois, Iowa, Kansas, Missouri, Nebraska, Wyoming, Wisconsin	10¾
Area III: Connecticut, Delaware, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia	11
Area IV: Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, Texas	11½

In the case of rye placed under loan or delivered to CCC under a purchase agreement in an approved warehouse operated by an Eastern common carrier or any other approved warehouse not under the Uniform Grain Storage Agreement, evidence must be submitted with the warehouse receipt that all warehouse charges, except receiving and loading out charges, have been prepaid through April 30, 1951, or all such charges will be deducted from the support rate: *Provided*, That CCC will assume the receiving and loading out charges or reimburse the producer if he has prepaid such charges.

(e) *Discount for ergot.* In the case of rye containing more than 3/10 of 1 percent but not more than 1 percent ergot, the basic support rates specified in paragraphs (a), (b), and (c) of this section shall be discounted 1 cent per bushel for each 1/10 of 1 percent in excess of 3/10 of 1 percent ergot.

(f) *Track-loading.* A track-loading payment of 2 cents per bushel will be made to the producer on rye delivered to CCC on track at a country point.

(g) *Settlement*—(1) *Loans.* Settlement on rye delivered to CCC under farm-storage loans will be made at the support rate for the approved point of delivery. In the case of farm-storage loans, and warehouse-storage loans where the rye is stored "identity preserved," the support rate will be for the grade and quality of the total quantity of rye delivered.

If the rye is, upon delivery, of a grade and/or quality for which no support rate has been established, the settlement value shall be the support rate established for the grade and/or quality of the rye placed under loan, less the difference, if any, at the time of delivery, between the market price for the grade and/or quality placed under loan and the market price of the rye delivered, as determined by CCC.

(2) *Purchase agreements.* Rye delivered to CCC under a purchase agreement must meet the requirements of rye eligible for loan. The purchase rate per bushel of eligible rye will be the applicable support rate established for the approved point of delivery.

PART 603—BEANS, DRY EDIBLE

SUBPART—1949 CROP DRY EDIBLE BEAN LOAN AND PURCHASE AGREEMENT PROGRAM

1949 CROP DRY EDIBLE BEAN PRICE SUPPORT PROGRAM

The regulations issued by Commodity Credit Corporation and the Production and Marketing Administration published in 14 F. R. 5285 and supplemented and amended by 14 F. R. 5685 and 15 F. R. 75 governing the making of loans and containing the requirements of the purchase agreement program on dry edible beans produced in 1949 are hereby amended as follows:

Section 603.123 (c) *Storage in transit* is amended to read as follows:

§ 603.123 *Loan and settlement rates.*

* * *

(c) *Storage in transit.* Reimbursement will be made by CCC for paid-in freight (including transportation tax) on beans stored in approved warehouses. Such reimbursement will be made to approved warehousemen subject to the following conditions:

(1) The movement from point of origin to storage point must be an "in-line" movement as determined by CCC.

(2) The freight must have been paid in by the warehouseman and he shall not have been otherwise reimbursed for it.

(3) The warehouseman must furnish the descriptive data on all freight bills or transit tonnage slips on all eligible beans received into the storage facility at the time and in the manner stipulated in the storage agreement in effect with CCC for the 1949 crop.

(4) The freight bills or transit tonnage slips must be made available to CCC in accordance with the provisions of the storage agreement in effect with CCC.

(5) Only 1 transit stop has been used on the billing.

(6) The freight bills are otherwise acceptable to CCC under the terms of the storage agreement.

If the producer has been required to pay the in-bound freight, or to reimburse the warehouseman for it, CCC will reimburse the producer such costs, provided all applicable provisions of this paragraph have been complied with.

All reimbursements for freight under this paragraph shall be made by the appropriate PMA Commodity Office subsequent to actual delivery of the beans to CCC pursuant to a loan or purchase agreement, and subject to such further regulations as CCC may prescribe.

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 51—FRESH FRUITS, VEGETABLES, AND OTHER PRODUCTS (INSPECTION, CERTIFICATION, AND STANDARDS)

SUBPART B—UNITED STATES STANDARDS FOR FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS

UNITED STATES CONSUMER STANDARDS FOR BRUSSELS SPROUTS

On June 8, 1950, a notice of rule making was published in the FEDERAL REGISTER (F. R. Doc. 50-4904; 15 F. R. 3587) regarding proposed United States Consumer Standards for Brussels Sprouts. After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, the following United States Consumer Standards for Brussels Sprouts are hereby promulgated under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621, et seq.).

§ 51.452 *Consumer standards for Brussels sprouts*—(a) *Grades*—(1) *U. S. Grade A.* U. S. Grade A shall consist of Brussels sprouts which are well colored and not withered or burst and which are firm, clean, well trimmed, and free from soft rot and seedstems, and free from damage caused by discoloration, freezing, disease, insects, or mechanical or other means. Brussels sprouts on the shown face shall be reasonably representative in size and quality of the contents of the container.

(i) The diameter of each Brussels sprout shall be not less than 1 inch.

(ii) Incident to proper grading and handling, not more than 5 percent, by weight, of the Brussels sprouts in any lot may be smaller than the specified minimum diameter. In addition, not more than 5 percent, by weight, of the Brussels sprouts may fail to meet the remaining requirements of the grade, including not more than 1 percent for Brussels sprouts affected by soft rot.

(2) *U. S. Grade B.* U. S. Grade B shall consist of Brussels sprouts which are fairly well colored and not withered, puffy or burst and which are clean, well trimmed and free from soft rot and seedstems and free from serious damage caused by discoloration, freezing, disease, insects, mechanical or other means. Brussels sprouts on the shown face shall be reasonably representative in size and quality of the contents of the container.

(i) The diameter of each Brussels sprout shall be not less than 1 inch.

(ii) Incident to proper grading and handling, not more than 5 percent, by weight, of the Brussels sprouts in any lot may be smaller than the specified minimum diameter. In addition, not more than 5 percent, by weight, of the Brussels sprouts may fail to meet the remaining requirements of the grade, including not more than 1 percent for Brussels sprouts affected by soft rot.

(b) *Off-grade Brussels sprouts.* Brussels sprouts which fail to meet the requirements of either of the foregoing grades shall be Off-grade Brussels sprouts.

(c) *Definitions.* (1) "Well colored" means that the Brussels sprouts have a yellowish green or darker green color characteristic of well-grown Brussels sprouts.

(2) "Firm" means that the Brussels sprout is fairly compact but may yield slightly to moderate pressure.

(3) "Clean" means that the Brussels sprout is practically free from dirt and other foreign matter.

(4) "Well trimmed" means that the butt of the sprout is fairly smoothly and closely trimmed at the point of attachment of the outer leaves and that the sprout does not have more than 2 wrapper leaves which do not enfold the sprout fairly tightly more than two-thirds the distance from the base to the top.

(5) "Seedstems" means Brussels sprouts which have seedstalks showing or in which the formation of seedstalks has plainly begun.

(6) "Damage" means any injury or defect which materially affects the appearance, or the edible, shipping or keeping quality of the Brussels sprout.

(7) "Diameter" means the greatest dimension measured at right angles to a line running from the stem to the apex of the sprout.

(8) "Fairly well colored" means that the Brussels sprouts shall not be lighter than whitish green color.

(9) "Puffy" means that the Brussels sprout is very light in weight in proportion to its size or has excessive air spaces in the central portion.

(10) "Serious damage" means any injury or defect which seriously affects the appearance, or the edible, shipping or keeping quality of the Brussels sprout.

(d) *Effective time.* The United States Consumer Standards for Brussels sprouts contained in this section shall become effective thirty (30) days after the date of publication in the FEDERAL REGISTER.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 30]

PART 600—DESIGNATION OF CIVIL AIRWAYS

MISCELLANEOUS AMENDMENTS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required. Part 600 is amended as follows:

1. Section 600.18 is amended to read:

§ 600.18 *Green civil airway No. 8 (Cold Bay, Alaska to Northway, Alaska).* From the Cold Bay (Randall), Alaska, radio range station via the Port Heiden, Alaska, radio range station; King Salmon, Alaska, radio range station; the intersection of the northeast course of the King Salmon, Alaska, radio range and the southwest course of the Homer, Alaska, radio range; Homer, Alaska, radio range station; the intersection of the northeast course of the Homer,

Alaska, radio range and the southwest course of the Anchorage, Alaska, radio range to the Anchorage, Alaska, radio range station. From the intersection of the northeast course of the Anchorage, Alaska, radio range and the southeast course of the Skwentna, Alaska, radio range via the Gulkana, Alaska, radio range station; the intersection of the northeast course of the Gulkana, Alaska, radio range and the southwest course of the Northway, Alaska, radio range to the Northway, Alaska, radio range station."

2. Section 600.240 is amended to read:

§ 600.240 *Red civil airway No. 40 (Port Heiden, Alaska to Anchorage, Alaska).* From the Port Heiden, Alaska, radio range station via the intersection of the west course of the Kodiak, Alaska, radio range and the southeast course of the King Salmon, Alaska, radio range; Kodiak, Alaska, radio range station; the intersection of the north course of the Kodiak, Alaska, radio range and the south course of the Homer, Alaska, radio range to the Homer, Alaska, radio range station. From the intersection of the west course of the Homer, Alaska, radio range and the southwest course of the Kenai, Alaska, radio range via the Kenai, Alaska, radio range station; the intersection of the northeast course of the Kenai, Alaska, radio range and the west course of the Anchorage (Merrill), Alaska, radio range to the Anchorage (Merrill), Alaska, radio range station.

3. Section 600.293 is added to read:

§ 600.293 *Red civil airway No. 93 (Lincoln, Nebr., to Omaha, Nebr.).* From the Lincoln, Nebr., radio range station to the intersection of the east course of the Lincoln, Nebr., radio range and the southeast course of the Omaha, Nebr., radio range.

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

MISCELLANEOUS AMENDMENTS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of Section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required. Part 601 is amended as follows:

1. Section 601.18 is amended to read:

§ 601.18 *Green civil airway No. 8 control area (Cold Bay, Alaska to Northway, Alaska).* From a line extending at right angles across such airway through a point 25 miles southwest of the Port Heiden, Alaska, radio range station to the Northway, Alaska, radio range station.

2. Section 601.240 is amended to read:

§ 601.240 *Red civil airway No. 40 control areas (Port Heiden, Alaska to Anchorage, Alaska).* All of Red civil airway No. 40.

3. Section 601.293 is added to read:

§ 601.293 *Red civil airway No. 93 control areas (Lincoln, Nebr., to Omaha, Nebr.).* All of Red civil airway No. 93.

4. Section 601.625 is amended to read:

§ 601.625 *Blue civil airway No. 25 control areas (Cordova, Alaska, to Big Delta, Alaska).* All of Blue civil airway No. 25.

5. Section 601.1066 *Control area extension (Mitchel Field, N. Y.)* is revoked.

6. Section 601.1066 is added to read:

§ 601.1066 *Control area extension (New York, N. Y.).* All that area within a 40 mile radius of the Empire State Building, New York, N. Y., located at Latitude 40°45'00", Longitude 73°59'15".

7. Section 601.1131 *Control area extension (New York, N. Y.)* is revoked.

8. Section 601.1133 *Control area extension (Idlewild, N. Y.)* is revoked.

9. Section 601.1984 is amended by adding the following airport:

Gulkana, Alaska: Gulkana Airport.

10. Section 601.2022 is amended to read:

§ 601.2022 *Washington, D. C. control zone.* Within a 5 mile radius of the Washington National Airport (excluding the portion overlapping the Washington Airspace Reservation) and extending to include the segment of a circle 15 miles in radius centered on the Washington National Airport bounded on the west by a line 2 miles west of the southwest course of the Washington radio range and on the east by a line 2 miles east of the ILS localizer course, and further extending 2 miles on the east side and 4 miles on the west side of the northeast course of the Washington radio range to the Riverdale, Md., non-directional radio beacon.

11. Section 601.4018 is amended to read:

§ 601.4018 *Green civil airway No. 8 (Cold Bay, Alaska to Northway, Alaska).* Port Heiden, Alaska, radio range station; King Salmon, Alaska, radio range station; the intersection of the northeast course of the King Salmon, Alaska, radio range and the southwest course of the Iliamna, Alaska, radio range; the intersection of the southeast course of the Iliamna, Alaska, radio range and the west course of the Homer, Alaska, radio range; the intersection of the west course of the Homer, Alaska, radio range and the southwest course of the Kenai, Alaska, radio range; Homer, Alaska, radio range station; the intersection of the east course of the Kenai, Alaska, radio range and the southwest course of the Anchorage, Alaska, radio range; Anchorage, Alaska, radio range station; the intersection of the northeast course of the Anchorage, Alaska, radio range and the southeast course of the Skwentna, Alaska, radio range; Gulkana, Alaska, radio range station; Northway, Alaska, radio range station.

12. Section 601.4108 *Amber civil airway No. 8 (Los Angeles, Calif., to The Dalles, Oreg.)* is amended after "the intersection of the west course of the Los Angeles, Calif., VIF radio range and the southeast course of the Camarillo, Calif., radio range" by adding the following reporting point:

Camarillo, Calif., radio range station;

13. Section 601.4212 *Red civil airway No. 12 (Kansas City, Mo., to Philipsburg, Pa.)* is amended after "South Bend, Ind., radio range station" by adding the following reporting point: "the intersection of the east course of the South Bend, Ind., radio range and the south course of the Battle Creek, Mich., radio range;"

14. Section 601.4240 is amended to read:

§ 601.4240 *Red civil airway No. 40 (Port Heiden, Alaska, to Anchorage, Alaska).* The intersection of the west course of the Kodiak, Alaska, radio range and the southeast course of the King Salmon, Alaska, radio range; Kodiak, Alaska, radio range station; Kenai, Alaska, radio range station; the intersection of the northeast course of the Kenai, Alaska, radio range and the west course of the Anchorage (Merrill), Alaska, radio range.

15. Section 601.4293 is added to read:

§ 601.4293 *Red civil airway No. 93 (Lincoln, Nebr., to Omaha, Nebr.).* No reporting point designation.

16. Section 601.4669 is amended to read:

§ 601.4669 *Blue civil airway No. 69 (St. Louis, Mo., to Des Moines, Iowa).* Quincy, Ill., non-directional radio beacon.

TITLE 18—CONSERVATION OF POWER

Chapter I—Federal Power Commission

[Order No. 154]

PART 2—GENERAL POLICY AND INTERPRETATIONS

JURISDICTIONAL STATUS OF INDEPENDENT PRODUCERS AND GATHERERS

JULY 11, 1950.

On August 7, 1947, the Federal Power Commission adopted Order No. 139, the pertinent part of which was as follows:

For the purpose of administering the Natural Gas Act, the Commission will construe the exemption contained in section 1 (b), to the effect that the provisions of the act shall not apply to the "production or gathering" of natural gas, as including arm's-length sales of natural gas by independent producers and gatherers, made during the course or upon completion of production and gathering. The Commission, consistent with this construction, will not assert jurisdiction over such producers and gatherers who might be subject to jurisdiction solely because of such sales.

The pertinent provisions of such order are inconsistent with the requirements of the Natural Gas Act and should be rescinded.

The Commission finds that: It is necessary and appropriate in the public interest and to carry out the provisions of the Natural Gas Act that Order No. 139 be rescinded.

The Commission orders:

Order No. 139 (18 CFR 2.54) be and the same is hereby rescinded effective as of the date of the issuance of this order.

Date of issuance: July 13, 1950.

By the Commission.[1]

[SEAL] LEON M. FUQUAY,
Secretary.

STATEMENT OF POLICY REGARDING REGULATION OF PRODUCERS AND GATHERERS OF NATURAL GAS IN CONNECTION WITH RESCISSION OF ORDER NO. 139

In the present Congress, a bill (H. R. 1758) designated to exempt producers and gatherers from the provisions of the Natural Gas Act was passed, but was vetoed by the President and did not become law.

The President in his veto message returning H. R. 1758 to the House of Representatives, stated that he had no doubt the Commission would operate reasonably and in the public interest in carrying out the present law. That is and will continue to be the policy of the Commission.

Accordingly, the following statement is issued in order that the public may be advised of the Commission's policy in connection with the rescission of Order No. 139:

It is not the intention of the Commission to inaugurate a general investigation respecting existing rates charged by producers and gatherers. Where, however, the sales of individual producers or gatherers have a material effect on interstate commerce and the rates therefor appear excessive, appropriate investigations will be undertaken. In this connection, the Commission at present has under investigation the interstate wholesale rates of Phillips Petroleum Company, one of the largest producers of natural gas, selling to interstate pipelines.

Upon conclusion of further studies of the operation of producers and gatherers and of the administration involved in their regulation, the Commission plans to promulgate rules and regulations specifically applicable to them.

July 11, 1950.

Date of issuance: July 13, 1950.

NOTE: Mon C. Wallgren, chairman; Thomas C. Buchanan, Commissioner; and Claude L. Draper, Commissioner, in accord with this statement of policy.

We concur in the action of the Commission rescinding Order No. 139 only because that order does not accurately reflect the interpretation placed by the majority on the Natural Gas Act, and therefore the policy of the Commission. Our views will be stated more fully in a concurring opinion to be filed.

July 11, 1950.

Date of issuance: July 13, 1950.

NOTE: Harrington Wimberly, Commissioner, and Nelson Lee Smith, Commissioner, concurring.

Chapter I—Canal Zone Regulations

PART 21—PUBLIC LANDS; MILITARY AND NAVAL RESERVATIONS

FORT GULICK MILITARY RESERVATION

CROSS REFERENCE: For regulations affecting Fort Gulick Reservation in the tabulation of § 21.3, see Canal Zone Order 20, which supersedes Canal Zone Order 6 of March 31, 1947 (12 F. R. 5365) in the Appendix to this chapter, *infra*.

Appendix—Canal Zone Orders

[Canal Zone Order 20]

FORT GULICK MILITARY RESERVATION

JUNE 29, 1950.

By virtue of the authority vested in The President of the United States by section 5 of title 2 of the Canal Zone Code and delegated to me by Executive Order No. 9746 of July 1, 1946, it is ordered as follows:

SEC. 1. *Setting apart of reservation; boundaries.* The following-described area of land in the Canal Zone is hereby reserved and set apart as, and assigned to the uses and purposes of, a military reservation, which shall be known as Fort Gulick Military Reservation, and which shall be under the control and jurisdiction of the Secretary of the Army, subject to the provisions of section 2 of this order:

The area comprising this reservation is situated southeasterly of Mount Hope on the western shore of the Quebrada Ancha Arm of Gatun Lake, in the Canal Zone, and the boundary is more particularly described as follows:

Beginning at monument No. 1, which is a 1½-inch galvanized iron pipe set in concrete, located on the continuous 92-foot contour of the west shore of the Quebrada Ancha Arm of Gatun Lake, the geographic position of which monument, referred to the Canal Zone triangulation system, is in latitude 9°18' N. plus 2,418.6 feet and longitude 79°52' W. plus 3,280.0 feet from Greenwich.

Thence from said initial point, by metes and bounds: N. 23°08'00" W., 359.9 feet, to monument No. 1A, which is a 1½-inch galvanized iron pipe;

N. 23°12'30" W., 297.4 feet, through monument No. 1B, which is a 1½-inch galvanized iron pipe, to monument No. 2 which is a 2½-inch galvanized iron pipe, the distances being 202.7 feet and 94.7 feet, successively, from beginning of course;

N. 73°07'30" W., 369.8 feet, to monument No. 3, which is a 1½-inch galvanized iron pipe;

N. 72°56'30" W., 998.8 feet, through monuments Nos. 4, NF14, and 5 (Monument No. 4 is a 2½-inch galvanized iron pipe; monument No. NF14 is a concrete post, 8 inches square; monument No. 5 is a 1½-inch galvanized iron pipe) to monument No. 6, which is a concrete post 8 inches square, the distances being 284.8 feet, 453.6 feet, 114.1 feet, and 146.3 feet, successively from beginning of course;

N. 45°58'00" W., 118.2 feet, to monument No. 7, which is a 1½-inch galvanized iron pipe;

N. 46°13'30" W., 315.5 feet, to monument No. 8, which is a 2½-inch galvanized iron pipe;

N. 46°01'00" W., 456.1 feet, to monument No. 9, which is a 2½-inch galvanized iron pipe;

N. 46°02'00" W., 400.0 feet, to monument No. 10, which is a 2½-inch galvanized iron pipe;

N. 46°01'00" W., 463.0 feet, to monument No. 11, which is a 2½-inch galvanized iron pipe;

N. 46°01'30" W., 205.1 feet, to monument No 12, which is a 2½-inch galvanized iron pipe;

N. 46°01'00" W., 1,141.6 feet, through monuments Nos. 13 and 14 which are 2½-inch galvanized iron pipes, to monument No. 15, which is a concrete post, 8 inches square, the distances being 389.8 feet, 394.9 feet, and 356.9 feet, successively, from beginning of course;

N. 00°01'00" W., 2,515.4 feet, through monuments Nos. 16 to 21, inclusive, which are 2½-inch galvanized iron pipes, to monument No. 22, which is a 1½-inch galvanized iron pipe, the distances being 249.8 feet, 193.4 feet, 470.0 feet, 525.0 feet, 520.6 feet, 406.0 feet, and 150.6 feet, successively, from beginning of course;

N. 54°57'00" W., 470.7 feet, to monument No. 23, which is a 1½-inch galvanized iron pipe;

N. 53°41'30" E., 52.9 feet, to monument No. 23-A, which is a 2-inch galvanized iron pipe, located 50 feet southwesterly from the centerline of the Fort Gulick Road;

N. 54°56'00" W., 175.6 feet, to monument No. 23-X, which is a 2-inch galvanized iron pipe located 50 feet southwesterly from the centerline of the Fort Gulick Road;

N. 35°04'00" E., 100.0 feet, through monument No. 23-Y, which is a ½-inch brass plug located on the centerline of the Fort Gulick Road, to monument No. 23-D, which is a 1½-inch galvanized iron pipe, the distances being 49.9 feet and 50.1 feet, successively, from beginning of course;

N. 89°06'30" E., 342.2 feet through monument No. 23-E, which is a 2-inch galvanized iron pipe, to monument No. 24, which is a 1½-inch galvanized iron pipe, the distances being 186.1 feet and 156.1 feet, successively, from beginning of course;

N. 10°13'30" W., 75.6 feet, to monument No. 24-A, which is a 1½-inch galvanized iron pipe;

N. 10°16'30" W., 715.2 feet, to monument No. 24-B, which is a 1½-inch galvanized iron pipe;

N. 10°18'00" W., 431.3 feet, to monument No. 24–C, which is a 1½-inch galvanized iron pipe;

N. 10°12'00" W., 236.0 feet, to monument No. 24–D, which is a 1½-inch galvanized iron pipe;

N. 10°15'30" W., 192.8 feet, to monument No. 24–E, which is a concrete post, 8 inches square;

Due East, 239.4 feet, to monument No. 24P, which is a 1½-inch galvanized iron pipe;

N. 89°59'30" E., 140.8 feet, to monument No. 25, which is a 2½-inch galvanized iron pipe;

N. 00°01'00" W., 370.0 feet, to monument No. 26, which is a concrete post, 8 inches square;

S. 50°31'00" E., 1,522.2 feet, through monuments Nos. 27 and 28, which are 2½-inch galvanized iron pipes, to monument No. 29, which is a concrete post, 8 inches square, the distances being 501.6 feet, 563.0 feet, and 457.6 feet, successively, from beginning of course;

N. 85°14'00" E., 432.9 feet, through monuments Nos. 30 and 31, which are 2½-inch galvanized iron pipes, to monument No. 32, which is a 1½-inch galvanized iron pipe, the distances being 180.6 feet, 62.4 feet, and 189.9 feet, successively, from beginning of course;

N. 43°47'30" E., 1,037.4 feet, parallel to and 50 feet southeasterly of the centerline of the Fort Gulick-France Field Road, to monument No. 33, which is a 1½-inch galvanized iron pipe;

On a curve to the left, with a radius of 1,011.3 feet, 422.3 feet to monument No. 34, which is a 1½-inch galvanized iron pipe (the chord distance between monuments Nos. 33 and 34 being 419.4 feet, N. 31°49'30" E.);

N. 19°50'00" E., 1,345.0 feet, parallel to and 50 feet easterly of the centerline of the Fort Gulick-France Field Road, to monument No. 35, which is a 1½-inch galvanized iron pipe;

S. 24°59'30" E., 626.4 feet, to monument No. 36, which is a 1½-inch galvanized iron pipe;

Due East, 9,122.1 feet, through monuments Nos. 37 to 43, inclusive, which are 1½-inch galvanized iron pipes, and 47–74, inclusive, which are 2½-inch galvanized iron pipes, to monument No. 75, which is a concrete post, 8 inches square, located on the continuous 100-foot contour of the west shore of the Quebrada Ancha Arm of Gatun Lake, the distances being, 374.3 feet, 125.1 feet, 254.1 feet, 335.2 feet, 254.4 feet, 224.3 feet, 335.1 feet, 156.6 feet, 325.0 feet, 161.0 feet, 400.0 feet, 400.0 feet, 300.0 feet, 227.0 feet, 173.0 feet, 264.0 feet, 517.4 feet, 307.0 feet, 134.0 feet, 340.4 feet, 137.2 feet, 203.0 feet, 300.0 feet, 332.0 feet, 92.0 feet, 342.0 feet, 180.0 feet, 73.0 feet, 262.0 feet, 440.8 feet, 113.0 feet, 347.0 feet, 334.0 feet, 126.0 feet, 125.0 feet, 107.2 feet, successively, from beginning of course;

Due East, 100 feet, more or less, to an unmarked point on the continuous 87-foot contour of the shore line of Gatun Lake;

In a general southwesterly direction, along the 87-foot contour of the shore line of Gatun Lake, as it meanders, to an unmarked point, from which the bearing and distance to the above mentioned monument No. 1 is N. 23°08'00" W., 15 feet, more or less;

N. 23°08'00" W., 15 feet more or less, to the point of beginning.

The directions of the lines refer to the true meridian. All geographic positions are referred to the Panama-Colon datum of the Canal Zone triangulation system.

The boundary of the reservation, from monument No. 1 to monument No. 23–A, inclusive, and from monument No. 23–D to monument No. 75, inclusive, was surveyed by the Section of Surveys, The Panama Canal, in January and February, 1940, and in December, 1946, and the boundary from monument No. 23–A to monument No. 23–D was surveyed by said Section in April, 1950.

The reservation contains an area of 1,755.8 acres, more or less, and is shown on Panama Canal drawing No. M–6115–100 entitled "Boundary of Fort Gulick Military Reservation", scale 1:10,000, dated April 21, 1950, on file in the Governor's Office, Balboa Heights, Canal Zone, and in the Office of the Engineer, U. S. Army, Caribbean, Fort Amador, Canal Zone.

SEC. 2. *Conditions and limitations.* The reservation established by section 1 of this order shall be subject to the following conditions and limitations:

(a) The areas comprising this reservation shall continue to be subject to the civil jurisdiction of the Canal Zone Government in conformity with the provisions of the Canal Zone Code as amended and supplemented.

(b) Personnel and equipment of The Panama Canal shall be permitted free access to the reservation to carry out necessary Panama Canal operations in the area or vicinity in connection with drainage, sanitation, surveys, etc., to protect, maintain, repair, or modify Panama Canal facilities and installations within or adjacent to the reservation; and to install any additional services or utilities that the Governor of The Panama Canal may consider necessary to install through or upon the area or vicinity.

(c) No sanitary sewage originating within the developed sections of the reservation shall be permitted to discharge into the drainage basin of Gatun Lake.

SEC. 3. *Order superseded.* This order supersedes Order of the Secretary of War, Canal Zone Order No. 6 of March 31, 1947, which superseded all previous Executive orders relating to the Fort Gulick Military Reservation. Any lands included in the military reservation set apart by said order and not included within the area included in this order are hereby released from the said reservation.

FRANK PACE, JR.,
Secretary of the Army.

TITLE 41—PUBLIC CONTRACTS

Chapter II—Division of Public Contracts, Department of Labor

PART 202—MINIMUM WAGE DETERMINATIONS

Pursuant to section 1 (b) of the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U. S. C. 35) the Secretary of Labor has at varying times issued and amended minimum wage determinations for a number of industries. These determinations provide the minimum wages to be paid to persons employed in the performance of contracts subject to the provisions of the Walsh-Healey Public Contracts Act for the products of the specified industries. Many also contain authorization under section 6 of the act for employment of learners, apprentices, or auxiliary workers at subminimum wages. Regulations issued pursuant to the act also provide conditions for the employment at subminimum wages of workers whose earning capacity is impaired by age or physical or mental deficiency or injury.

In order to provide uniformity in the presentation and form of these determinations, each determination currently in effect has been editorially revised to read as set forth below. All of the changes are formal in nature and do not in any way affect the substantive provisions of these wage determinations.

Accordingly, the minimum wage determinations contained in this part are amended to read as follows:

202.2 Cotton garment and allied industries.
202.3 Men's neckwear industry.
202.4 Rainwear industry.
202.5 Knitting, knitwear and woven underwear industry.
202.6 Seamless hosiery industry.
202.8 Shoe manufacturing and allied industries.
202.9 Dimension granite industry.
202.10 Handkerchief industry.
202.11 Men's hat and cap industry.
202.13 Envelope industry.
202.16 Vitreous or vitrified china industry.
202.18 Pressed and blown glass and glassware industry.
202.19 Luggage, leather goods, belts, and women's handbag industry.
202.20 Fireworks industry.
202.21 Wool carpet and rug industry.
202.22 Tag industry.
202.23 Aircraft industry.
202.25 Iron and steel industry.
202.26 Tobacco industry.
202.27 Furniture industry.
202.28 Drugs, medicine, and toilet preparations industry.
202.29 Specialty accounting supply manufacturing industry.

(c) *Subminimum wages authorized.* Learners and handicapped workers may be employed at wages below 75 cents an hour upon the same terms and conditions as are prescribed for the employment of learners and handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR Parts 522, 524 and 525 respectively), under section 14 of the Fair Labor Standards Act as amended.

The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

(e) *Effective date.* This section shall be effective as to contracts awarded on or after January 25, 1950.

§ 202.73 *Uniform and clothing industry*—(a) *Definition.* (1) The suit and coat branch of the uniform and clothing industry is defined as that industry which manufactures or furnishes any of the following products:

Men's civilian suits and overcoats, tailored-to-measure uniforms, tailored-to-measure trousers, uniform overcoats, and uniform coats, including tailored short jackets designed to take the place of regular Army issue coats, e. g., the Eisenhower jacket.

(2) The heavy outerwear branch of the uniform and clothing industry is defined as that industry which manufactures or furnishes any of the following products:

Leather, leather-trimmed and sheeplined garments and wool and wool-lined jackets, whether or not such jackets are properly described as mackinaws, field jackets, windbreakers, lumber jackets, pea jackets, wool jumpers or middies, blanket-lined or similar coats, or by any other similar designation.

(3) The wool trousers branch of the uniform and clothing industry is defined as that industry which manufactures or furnishes wool or part-wool trousers or breeches, including uniform trousers or breeches, except when tailored-to-measure.

(b) *Minimum wages.* (1) The minimum wage for persons employed in the manufacture or furnishing of products of the suit and coat branch of the uniform and clothing industry under contracts subject to the Walsh-Healey Public Contracts Act shall be 85 cents per hour arrived at either on a time or piece-rate basis.

(2) The minimum wage for persons employed in the manufacture or furnishing of products of the heavy outerwear branch of the uniform and clothing industry under contracts subject to the Walsh-Healey Public Contracts Act shall be 85 cents per hour arrived at either on a time or piece-rate basis.

(3) The minimum wage for persons employed in the manufacture or furnishing of products of the wool trousers branch of the uniform and clothing industry under contracts subject to the Walsh-Healey Public Contracts Act shall be 75 cents per hour arrived at either on a time or piece-rate basis.

(c) *Subminimum wages authorized.* (1) Auxiliary workers may be employed in the suit and coat and heavy outerwear branches, and shall be paid not less than 75 cents per hour arrived at either on a time or piece-rate basis. The term "auxiliary workers" as applied to the employees in the suit and coat and heavy outerwear branches of this industry shall include only those employees engaged in the following operations and auxiliary occupations:

(i) Position marking: The operation, by hand, of marking, with a punch, thread, or chalk, the position of buttons, pleats, darts, pockets, buttonholes, etc., by the use of a template, rule or similar device.

(ii) Shade and size numbering: The operation (except when done by sobar or other power-driven machine) of identifying a garment part by marking or stamping the size, shade, or lot number with chalk or stamp, or by sewing, pinning, or stapling a ticket to the garment part.

(iii) Bundle tying: The operation of tying together into bundles piles of garment parts, or partially finished garments.

(iv) Bundle ticketing: The operation, by hand, of preparing and attaching an identifying ticket to a bundle of work.

(v) Matching and pairing: The operation of pairing or matching garment parts.

(vi) Basting pulling: The operation of pulling out basting stitches.

(vii) Hand trimming: The operation of cutting away with scissors, excess piping, loops or tape.

(viii) Cleaning: The operation of clipping the waste ends of threads resulting from "black" or permanent stitchings.

(ix) Turning: The operation of turning inside out or outside in, parts of, or complete garments. Does not, however, include turning of lapels or collars.

(x) Floor boys and girls: Workers who carry bundles or materials from department to department or to workers.

(xi) Porter: Performs the janitorial work of sweeping and cleaning the shop.

(xii) Examiner's helper: Performs minor preliminary checking for rips, tears and other imperfections in the garment, but is not responsible for the final determination as to the acceptability of the work. Also performs the operation of brushing the garment and removing loose lint or threads.

(2) Learners and handicapped workers may be employed at wages below 85 cents an hour in the suit and coat and the heavy outerwear branches and at wages below 75 cents an hour in the wool trousers branch upon the same terms and conditions as are prescribed for the employment of learners and handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR Parts 522, 524, and 525, respectively), under section 14 of the Fair Labor Standards Act as amended.

The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

(e) *Effective date.* Paragraph (b) (1) of this section shall be effective and the minimum wage hereby established shall apply to all contracts subject to the Public Contracts Act, bids for which are solicited or negotiations otherwise commenced on or after May 8, 1948, and paragraph (b) (2) and (3) of this section shall be effective to all such covered contracts bids for which are solicited or negotiations otherwise commenced on or after January 1, 1949. Paragraph (c) (1) of this section shall be effective as to covered contracts awarded on or after January 25, 1950.

§ 202.38 *Die casting manufacturing industry*—(a) *Definition.* The die casting manufacturing industry is defined as that industry which manufactures or furnishes die castings for sale and does not include the manufacture of die castings when incorporated into another product by the manufacture of such other products. The term "die casting" as used herein describes a casting made by forcing molten metal under pressure into a metallic mold or die.

(b) *Minimum wage.* The minimum wage for persons employed in the manufacture or furnishing of products of the die casting manufacturing industry under contracts subject to the Walsh-Healey Public Contracts Act shall be not less than 75 cents per hour arrived at either on a time or piece-rate basis.

(c) *Subminimum wages authorized.* Learners, apprentices, and handicapped workers may be employed at wages below 75 cents an hour upon the same terms and conditions as are prescribed for the employment of learners, apprentices, and handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR Parts 522, 521, 524, and 525, respectively), under section 14 of the Fair Labor Standards Act as amended.

The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

(e) *Effective date.* This section shall be effective as to contracts awarded on or after January 25, 1950.

§ 202.39 *Dental goods and equipment manufacturing industry*—(a) *Definition.* The dental goods and equipment manufacturing industry is defined as that industry which manufactures or furnishes any of the following products:

(1) *Durable goods.* Hand instruments, including forceps and pliers, broaches and cutting instruments, for dental use; dental chairs; dental cabinets; equipment units; dental sterilizers; dental gas apparatus; dental X-ray equipment; dental compressors, engines and lathes; dental lights; dental laboratory equipment, other than laboratory furniture.

(2) *Consumable goods.* Dental gold; dental alloy for amalgams; dental cement and filling materials; teeth, porcelain and gold; orthodontic appliances; waxes, compounds and investments; rubber dental materials, denture materials other than rubber; burrs, drills and similar tools for use with handpieces; abrasive points, wheels and disks.

(b) *Minimum wage.* The minimum wage for persons employed in the manufacture or furnishing of products of the dental goods and equipment manufacturing industry under contracts subject to the Walsh-Healey Public Contracts Act shall be not less than 75 cents per hour arrived at either on a time or piece-rate basis.

(c) *Subminimum wages authorized.* Learners and handicapped workers may be employed in the industry and apprentices may be employed in the durable goods branch thereof at wages below 75 cents an hour upon the same terms and conditions as are prescribed for the employment of learners, apprentices, and handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR Parts 522, 521, 524 and 525, respectively), under section 14 of the Fair Labor Standards Act as amended.

The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

(e) *Effective date.* This section shall be effective as to contracts awarded on or after January 25, 1950.

§ 202.40 *Evaporated milk industry*—(a) *Definition.* The evaporated milk industry is defined as that industry which manufacturers or furnishes evaporated milk.

(b) *Minimum wage.* The minimum wage for persons employed in the manufacture or furnishing of products of the evaporated milk industry under contracts subject to the Walsh-Healey Public Contracts Act shall not be less than 75 cents per hour arrived at either on a time or piece-rate basis.

(c) *Subminimum wages authorized.* Learners and handicapped workers may be employed at wages below 75 cents an hour upon the same terms and conditions as are prescribed for the employment of learners and handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR Parts 522, 524 and 525 respectively), under section 14 of the Fair Labor Standards Act as amended.

The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

(e) *Effective date.* This section shall be effective as to contracts awarded on or after January 25, 1950.

§ 202.41 *Paint and varnish industry*—(a) *Definition.* The paint and varnish industry is defined as that industry which manufactures or furnishes any of the following products:

Pigments or colors, either in dry or paste form; paints mixed ready for use or in dry or paste form; varnishes, lacquers, enamels; fillers, putty, top dressings; paint and varnish removers; furniture and floor wax; and lacquer thinners.

(b) *Minimum wage.* The minimum wage for persons employed in the manufacture or furnishing of products of the paint and varnish industry under contracts subject to the Walsh-Healey Public Contracts Act shall be not less than 75 cents per hour arrived at either on a time or piece-rate basis.

(c) *Subminimum wages authorized.* Learners and handicapped workers may be employed at wages below 75 cents an hour upon the same terms and conditions as are prescribed for the employment of learners and handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR Parts 522, 524, and 525, respectively), under section 14 of the Fair Labor Standards Act as amended.

The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

(e) *Effective date.* This section shall be effective as to contracts awarded on or after January 25, 1950.

§ 202.42 *Leather manufacturing industry*—(a) *Definition.* The leather manufacturing industry is defined as that industry which manufactures or furnishes any of the following products:

(1) Tanned, curried, and finished leather (including rawhide) from any type of hide or skin, and

(2) Welting and power transmission belting when made wholly or principally of leather.

(b) *Minimum wage.* The minimum wage for persons employed in the manufacture or furnishing of products of the leather manufacturing industry under contracts subject to the Walsh-Healey Public Contracts Act shall be not less than 75 cents per hour arrived at either on a time or piece-rate basis.

(c) *Subminimum wages authorized.* Learners and handicapped workers may be employed at wages below 75 cents an hour upon the same terms and conditions as are prescribed for the employment of learners and handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR Parts 522, 524, and 525, respectively), under section 14 of the Fair Labor Standards Act as amended.

The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

(e) *Effective date.* This section shall be effective as to contracts awarded on or after January 25, 1950.

§ 202.43 *Textile industry*—(a) *Definition.* For the purpose of this determination the term "textile industry" means:

(1) The manufacturing or processing of yarn or thread and all processes preparatory thereto, and the manufacturing, bleaching, dyeing, printing and other finishing of woven fabrics (other than carpets and rugs containing any wool) from cotton, flax, jute, other vegetable fiber, silk, grass, or any synthetic fiber, or from mixtures of these fibers; or from such mixtures of these fibers with wool or animal fiber (other than silk) as are specified in subparagraphs (7) and (8) of this paragraph; except the chemical manufacturing of synthetic fiber and such related processing of yarn as is conducted in establishments manufacturing synthetic fiber;

(2) The manufacturing of batting, wadding, or filling and the processing of waste from the fibers enumerated in subparagraph (1) of this paragraph;

(3) The manufacturing, bleaching, dyeing, or other finishing of pile fabrics or cords (except carpets and rugs containing any wool) from any fiber or yarn;

(4) The processing of any textile fabric, included in this definition of this industry, into any of the following products: Bags, bandages and surgical gauze, bath mats and related articles, bedspreads, blankets, diapers, dishcloths, scrubbing cloths and wash-cloths, sheets and pillow cases, table-cloths, luncheloths, napkins, towels, window curtains, shoe laces and similar laces;

(5) The manufacturing or finishing of braid, net or lace from any fiber or yarn;

(6) The manufacturing of cordage, rope or twine from any fiber or yarn including the manufacturing of paper yarn and twine;

(7) The manufacturing or processing of yarn (except carpet yarn containing any carpet wool) or thread by systems other than the woolen system from mixtures of wool or animal fiber (other than silk) with any of the fibers designated in subparagraph (1) of this pragaraph, containing not more than 45 percent by weight of wool or animal fiber (other than silk);

(8) The manufacturing, bleaching, dyeing, printing or other finishing of woven fabrics (other than carpets and rugs) from mixtures of wool or animal fiber (other than silk) containing not more than 25 percent by weight of wool or animal fiber (other than silk), with any of the fibers designated in subparagraph (1) of this paragraph, with a margin of tolerance of 2 percent to meet the exigencies of manufacture;

(9) The manufacturing, dyeing, finishing or processing of rugs or carpets from grass, paper, or from any yarn or fiber except yarn containing any wool but not including the manufacturing by hand of such products.

(b) *Minimum wage.* The minimum wage for persons employed in the manufacture or furnishing of the products of the textile industry under contracts subject to the Walsh-Healey Public Contracts Act shall be 87 cents per hour arrived at either on a time or piece-rate basis.

(c) *Subminimum wages authorized.* (1) Learners may be employed subject to the following terms and conditions:

(i) Learners may be employed in the occupations of machine operating, machine tending, machine fixing, and jobs immediately incidental thereto;

(ii) Learners may be paid a subminimum rate of 80 cents per hour unless experienced workers in the same plant and occupations are paid on a piece-rate basis, in which case learners must be paid the same piece rates paid to experienced workers and earnings, based upon those piece rates, if such earnings are in excess of 80 cents per hour;

(iii) The length of the learning period shall be 240 hours unless the learner has had previous experience in the industry in which case the number of hours of such experience must be deducted from the 240 hour learning period.

(iv) The number of learners may not exceed 3 percent of the total number of machine operators, machine tenders, machine fixers and persons engaged in jobs immediately incidental thereto except where, upon application to the Administrator of the Wage and Hour and Public Contracts Divisions or his authorized representative, a special certificate has been issued authorizing employment of learners in excess of 3 percent to meet a plant's abnormal situation created by establishment of new plants, expansion of production or plant facilities, and the like. Such special certificates will not be issued where it appears that experienced workers are available to the employer within the area from which he customarily draws his supply of labor, or that the issue of a special certificate will create unfair competitive labor cost advantages, or will impair or depress working standards established for experienced workers for work of a like or comparable character in the industry.

(2) Handicapped workers may be employed at wages below 87 cents an hour upon the same terms and conditions as are prescribed for the employment of handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR Parts 524, and 525, respectively), under section 14 of the Fair Labor Standards Act as amended.

The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

(e) *Effective date.* This section shall be effective and the minimum wage hereby established shall apply to all contracts subject to the Public Contracts Act, bids for which are solicited or negotiations otherwise commenced on or after November 16, 1948.

§ 202.44 *Chemical and related products industry*—(a) *Definition.* The chemical and related products industry is defined as that industry which manufactures or furnishes any of the following products:

Heavy, industrial, and fine chemicals, including among others, compressed and liquefied gases, and insecticides and fungicides and the byproducts of the foregoing; bluing, bone black, carbon black, and lampblack; cleaning and polishing preparations (except paint and varnish remover, furniture and floor wax and polish, and soap); mucilage, paste, and other adhesives.

Omitted from the scope of the definition of this industry are:

Ammunition; drugs and medicines; explosives; fertilizer; fireworks; paints, pigments, varnishes, and lacquers; and soap, which have been accorded separate treatment by the Secretary.

(b) *Minimum wage.* The minimum wage for persons employed in the manufacture or furnishing of products of the chemical and related products industry under contracts subject to the Walsh-Healey Public Contracts Act shall be not less than 75 cents per hour arrived at either on a time or piece-rate basis.

(c) *Subminimum wages authorized.* Learners and handicapped workers may be employed at wages below 75 cents an hour upon the same terms and conditions as are prescribed for the employment of learners and handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR Parts 522, 524, and 525, respectively), under section 14 of the Fair Labor Standards Act as amended.

The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

(e) *Effective date.* This section shall be effective as to contracts awarded on or after January 25, 1950.

§ 202.45 *Aviation textile products manufacturing industry*—(a) *Definition.* The aviation textile products manufacturing industry is defined as that industry which manufactures or furnishes any articles (other than apparel) primarily of fabric for use in connection with the aviation industry, including but without limitation, parachutes of all types, parachute packs, parachute harnesses, safety belts, aerial delivery containers made primarily from fabrics, tow targets, and wind direction indicators of the wind-sock type; except that the manufacture of canvas and duck articles for ground use, such as signaling panels, is not included.

(b) *Minimum wage.* The minimum wage for persons employed in the manufacture or furnishing of products of the aviation textile products manufacturing industry under contracts subject to the Walsh-Healey Public Contracts Act shall be not less than 75 cents per hour arrived at either on a time or piece-rate basis.

(c) *Subminimum wages authorized.* Learners and handicapped workers may be employed at wages below 75 cents an hour upon the same terms and conditions as are prescribed for the employment of learners and handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR Parts 522, 524 and 525 respectively), under section 14 of the Fair Labor Standards Act as amended.

The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

(e) *Effective date.* This section shall be effective as to contracts awarded on or after January 25, 1950.

§ 202.46 *Gloves and mittens industry*—(a) *Definition.* The gloves and mittens industry is defined as that industry which manufactures or furnishes gloves or mittens (except athletic gloves and mittens) from any material (other than rubber) or from any combinations of materials (other than rubber).

(b) *Minimum wage.* The minimum wage for persons employed in the manufacture or furnishing of products of the gloves and mittens industry under contracts subject to the Walsh-Healey Public Contracts Act shall be not less than 75 cents per hour arrived at either on a time or piece-rate basis.

(c) *Subminimum wages authorized.* Learners, apprentices and handicapped workers may be employed at wages below 75 cents an hour upon the same terms and conditions as are prescribed for the employment of learners, apprentices and handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR Parts 522, 521, 524, and 525, respectively), under section 14 of the Fair Labor Standards Act as amended.

The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

(e) *Effective date.* This section shall be effective as to contracts awarded on or after January 25, 1950.

§ 202.47 *Woolen and worsted industry*—(a) *Definition.* For the purpose of this section the term "woolen and worsted industry" means:

(1) The manufacturing or processing of all yarns (other than carpet yarns) spun entirely from wool or animal fiber (other than silk); and all processed preparatory thereto;

(2) The manufacturing, dyeing or other finishing of fabrics and blankets (other than carpets, rugs and pile fabrics) woven from yarns spun entirely of wool or animal fiber (other than silk);

(3) The manufacturing, dyeing, or other finishing of fulled suitings, coatings, topcoatings, and overcoatings knit from yarns spun entirely of wool or animal fiber (other than silk);

(4) The picking of rags and clips made entirely from wool or animal fiber (other than silk), and the garnetting of wool or animal fiber (other than silk) from rags, clips, or mill waste; and other processes related thereto;

(5) The manufacturing of batting, wadding, or filling made entirely of wool or animal fiber (other than silk);

(6) The manufacturing or processing of all yarns (other than carpet yarns) spun from wool or animal fiber (other than silk) in combination with cotton, silk, flax, jute, or any synthetic fiber; except the manufacturing or processing on systems other than the woolen system of yarns containing not more than 45 percent by weight of wool or animal fiber (other than silk) in combination with cotton, silk, flax, jute or any synthetic fiber;

(7) The manufacturing, dyeing, or other finishing of the products enumerated in subparagraphs (2), (3), (4), and (5) of this paragraph from wool or animal fiber (other than silk) in combination with cotton, silk, flax, jute or any synthetic fiber; except products containing not more than 25 percent by weight of wool or animal fiber (other than silk), with a margin of tolerance of 2 percent to meet the exigencies of manufacture.

(b) *Minimum wage.* The minimum wage for persons employed in the manufacture or furnishing of products of the woolen and worsted industry under contracts subject to the Walsh-Healey Public Contracts Act shall be $1.05 per hour arrived at either on a time or piece-rate basis.

(c) *Subminimum wages authorized.* (1) Learners and beginners may be employed subject to the following terms and conditions:

(i) Learners and beginners may be paid a subminimum rate of 90 cents an hour, unless experienced workers in the same plant and occupation are paid on a piece-rate basis, in which case learners and beginners must be paid the same piece rates paid to experienced workers, and earnings based upon those piece rates if such earnings are in excess of 90 cents per hour;

(ii) The permitted length of the learning period for learners and beginners shall be 320 hours unless the learner or beginner has had previous experience in the industry, in which case the number of hours of such experience must be deducted from the 320-hour learning period;

(iii) A learner or beginner for the purpose of this determination is a person who has had less than 320 hours experience in the industry.

(2) Handicapped workers may be employed at wages below $1.05 per hour upon the same terms and conditions as are prescribed for the employment of handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR Parts 524 and 525), under section 14 of the Fair Labor Standards Act as amended.

The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

(e) *Effective date.* This section shall be effective and the minimum wage hereby established shall apply to all contracts subject to the Public Contracts Act, bids for which are solicited or negotiations otherwise commenced on or after May 14, 1949.

§ 202.48 *Surgical instruments and apparatus industry*—(a) *Definition.* The surgical instruments and apparatus industry is defined as that industry which manufactures or furnishes any instruments and apparatus used in, or in connection with, or in the aid of the practice of medicine and as particularly applied to surgery, such as surgical and diagnostic instruments and apparatus for medical and surgical treatment, including sutures, ligatures, and sterilizers for surgical purposes;

But not including: Electro-surgical instruments and apparatus in which electricity is the diagnostic, therapeutic or functioning element, such as X-ray, fluoroscope, and high frequency apparatus and equipment, ultra-violet and infra-red ray and other therapeutic and heating lamps, apparatus and equipment; orthopedic appliances, such as trusses, braces, supports, splints, artificial limbs, and elastic belts and stockings; and surgical dressings.

(b) *Minimum wage.* The minimum wage for persons employed in the manufacture or furnishing of products of the surgical instruments and apparatus industry under contracts subject to the Walsh-Healey Public Contracts Act shall be not less than 75 cents per hour arrived at either on a time or piece-rate basis.

(c) *Subminimum wages authorized.* Learners, apprentices, and handicapped workers may be employed at wages below 75 cents an hour upon the same terms and conditions as are prescribed for the employment of learners, apprentices, and handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR Parts 522, 521, 524, and 525, respectively), under section 14 of the Fair Labor Standards Act as amended.

The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

(e) *Effective date.* This section shall be effective as to contracts awarded on or after January 25, 1950.

§ 202.49 *Scientific, industrial and laboratory instruments industry*—(a) *Definition.* The scientific industrial and laboratory instruments industry is defined as that industry which manufactures or furnishes any of the following products:

(1) Instruments and apparatus of the type used in navigation, surveying, engineering, drafting, target detection, fire-control, meteorology, and in laboratories for physical, chemical, clinical, biological, bacteriological, geological, physiological, and psychological teaching, demonstration, research and testing;

(2) Instruments and apparatus for indicating, measuring, recording or controlling the following: Quantity, quality, temperature, combustion, pressure, flow, density, intensity, humidity, conductivity, position, altitude, level, attitude, angle, direction, distance, speed, and acceleration;

(3) Electrically-actuated instruments used to measure physical quantities; and

(4) Optical glass;

But not including: Instruments and apparatus for measuring or controlling flow or consumption of water, gas or gasoline, used in the services rendered by public utilities and service stations indicating consumer consumption; instruments and apparatus used on automobiles; clocks and watches; and machinists' gauges.

(b) *Minimum wage.* The minimum wage for persons employed in the manufacture or furnishing of products of the scientific industrial and laboratory instruments industry under contracts subject to the Walsh-Healey Public Contracts Act shall be not less than 75 cents per hour arrived at either on a time or piece-rate basis.

(c) *Subminimum wages authorized.* Learners, apprentices, and handicapped workers may be employed at wages below 75 cents an hour upon the same terms and conditions as are prescribed for the employment of learners, apprentices, and handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR Parts 522, 521, 524, and 525, respectively), under section 14 of the Fair Labor Standards Act as amended.

The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

(e) *Effective date.* This section shall be effective as to contracts awarded on or after January 25, 1950.

Signed at Washington, D. C., this 7th day of July 1950.

MAURICE J. TOBIN,
Secretary of Labor.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[Ex Parte No. 171]

PART 136—INSTALLATION, INSPECTION, MAINTENANCE, AND REPAIR OF SYSTEMS, DEVICES AND APPLIANCES

Rules, standards and instructions for installation, maintenance, and repair of automatic block signal systems, interlocking, traffic control systems, automatic train stop, train control, and cab signal systems, and other similar appliances, methods and systems.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 29th day of June A. D. 1950.

It appearing that on January 6, 1950, the Division issued in the above-entitled proceeding a notice of proposed rule making (15 F. R. 131) pursuant to the provisions of section 25 of the Interstate Commerce Act (49 U. S. C. 26) accompanied by a copy of special rules of practice applicable thereto, and by a copy of rules, standards and instructions for installation, maintenance and repair of automatic block signal systems, interlocking, traffic control systems, automatic train stop, train control, and cab signal systems, and other similar appliances, methods and systems, which were proposed to supersede the rules, standards and instructions prescribed by the Commission's order of April 13, 1939;

It further appearing that all evidence filed pursuant to said special rules of practice has been fully considered and that cross examination of witnesses as provided by said special rules has also been had; and

It further appearing that the Division has, on the date hereof, made and filed its report in this proceeding containing its findings of fact and conclusions thereon, which said report is hereby referred to and made a part hereof:

It is ordered, That:

Sec.
136.0 Applicability of this part.

SUBPART A—RULES AND INSTRUCTIONS; ALL SYSTEMS

GENERAL

136.1 Plans, where kept.
136.2 Grounds.
136.3 Locking of instrument cases and interlocking machine cabinets.
136.4 Interference with normal functioning of device.
136.5 Design of control circuits on closed circuit principle.
136.6 Hand operated switch equipped with switch circuit controller.
136.7 Circuit controller operated by switch-and-lock movement.
136.8 Operating characteristics of electromagnetic apparatus.
136.9 Selection of circuits through indicating or annunciating instruments.
136.10 Electric locks, force drop type; where required.
136.11 Adjustment, repair or replacement of apparatus.
136.12 Spring switch signal protection; where required.
136.13 Spring switch; selection of signal control circuits through circuit controller.
136.14 Spring switch signal protection; requirements.
136.15 Timetable instructions.

ROADWAY SIGNALS AND CAB SIGNALS

136.21 Location of roadway signals.
136.22 Semaphore signal arm; clearance to other objects.
136.23 Aspects and indications.
136.24 Spacing of roadway signals.
136.25 False restrictive position of semaphore signal arm or failure of lamp in light signal.
136.26 Buffing device; maintenance.
136.27 Phantom signal aspect.

TRACK CIRCUITS

136.51 Track circuit requirements.
136.52 Relayed cut-section.
136.53 Track circuit feed at grade crossing.
136.54 Minimum length of track circuit.
136.55 Dead section; maximum length.
136.56 Shunting sensitivity.
136.57 Shunt wires.
136.58 Turnout, fouling section.
136.59 Insulated rail joints.

WIRES AND CABLES

136.71 Signal wires on pole lines.
136.72 Clearance of overhead signal wires and cables.
136.73 Open wire transmission line; clearance to other circuits.
136.74 Protection of insulated wire; splice in underground wire.
136.75 Insulated wires and acbles; supports.
136.76 Interference of wires with operating parts of mechanisms.
136.77 Tagging of wires.
136.78 Lightning arrester.

INSPECTIONS AND TESTS; ALL SYSTEMS

136.101 Purpose of inspections and tests; removal from service of relay failing to meet test requirements.
136.102 Signal mechanism.
136.103 Switch circuit controller.
136.104 Shunt fouling circuit.
136.105 Electric lock.
136.106 Relays.
136.107 Lightning arresters.
136.108 Insulation resistance tests.
136.109 Records of results of tests; forms for keeping records; where filed.

SUBPART B—AUTOMATIC BLOCK SIGNAL SYSTEMS

STANDARDS

136.201 Track circuit control of signals.
136.202 Signal governing movements over hand-operated switch.
136.203 Hand operated crossover between main tracks; protection.
136.204 Track signaled for movements in both directions; requirements.
136.205 Signal control circuits; requirements.
136.206 Battery or power supply with respect to relay; location.
136.207 Electric lock on hand-operated switch; control.

SUBPART C—INTERLOCKING

STANDARDS

136.301 Where signals shall be provided.
136.302 Track circuits and route locking.
136.303 Control circuits for signals; selection through circuit controller operated by switch points or by switch locking mechanism.
136.304 Mechanical locking or same protection effected by circuits.
136.305 Approach or time locking.
136.306 Facing point lock or switch-and-lock movement.
136.307 Indication locking.
136.308 Mechanical or electric locking or electric circuits; requisites.
136.309 Loss of shunt at automatic interlocking.
136.310 Signal governing approach to home signal.
136.311 Signal control circuits, selection through track relays and through signal mechanism contacts and time releases at automatic interlocking.
136.312 Movable bridge; interlocking of signal appliances with bridge devices.
136.313 Pipe for operating connections; requirements.
136.314 Electric lock for hand-operated switch or derail.

RULES AND INSTRUCTIONS

136.326 Mechanical locking removed or disarranged; requirement for permitting train movements through interlocking.
136.327 Switch, movable-point frog or split-point derail.
136.328 Plunger of facing point lock.
136.329 Bolt lock.
136.330 Locking dog of switch and lock movement.
136.331 Repairs to switch and signal valves and cylinders.
136.332 Air distribution system; draining condensation.
136.333 Pole changer on electric switch operating mechanism.
136.334 Point detector.
136.335 Dogs, stops and trunnions of mechanical locking.
136.336 Locking bed.
136.337 Locking faces of mechanical locking; fit.
136.338 Mechanical locking required in accordance with locking sheet and dog chart.
136.339 Mechanical locking; maintenance requirements.
136.340 Electro mechanical interlocking machine; locking between electrical and mechanical levers.
136.341 Latch shoes, rocker links, and quadrants.
136.342 Switch circuit controller.

INSPECTION AND TESTS

136.376 Mechanical locking.
136.377 Approach locking.
136.378 Time locking.
136.379 Route locking.
136.380 Indication locking.
136.381 Traffic locking.
136.382 Switch obstruction test.
136.383 Valve locks and valve magnets.
136.384 Cross protection.
136.385 Time releases and timing relays.
136.386 Restoring feature on power switches.
136.387 Movable bridge locking.

SUBPART D—TRAFFIC CONTROL SYSTEMS

STANDARDS

136.401 Automatic block signal system and interlocking standards applicable to traffic control systems.

Sec.
136.402 Signal control; track circuit and control operator.
136.403 Signals at controlled point.
136.404 Signals at adjacent controlled points.
136.405 Track signaled for movement in both directions; change of direction of traffic.
136.406 Indication of track circuit occupancy at controlled points.
136.407 Approach or time locking; where required.
136.408 Route locking.
136.409 Control machine; indication of switch operation.
136.410 Hand operated switch electrically locked.

RULES AND INSTRUCTIONS

136.426 Interlocking rules and instructions applicable to traffic control systems.

INSPECTION AND TESTS

136.476 Interlocking inspections and tests applicable to traffic control systems.

SUBPART E—AUTOMATIC TRAIN STOP, TRAIN CONTROL AND CAB SIGNAL SYSTEMS

STANDARDS

136.501 Forestalling device and speed control.
136.502 Automatic brake application; initiation by restrictive block conditions stopping distance in advance.
136.503 Automatic brake application; initiation when predetermined rate of speed exceeded.
136.504 Operation interconnected with automatic block signal system.
136.505 Proper operative relation between parts along roadway and parts on locomotive.
136.506 Release of brakes after automatic application.
136.507 Brake application; full service.
136.508 Interference with application of brakes by means of brake valve.
136.509 Two or more locomotives coupled.
136.510 Conformance with established clearances.
136.511 Cab signals controlled in accordance with block conditions stopping distance in advance.
136.512 Cab signal indication when locomotive enters block where restrictive conditions obtain.
136.513 Audible indicator.
136.514 Interconnection of cab signal system with roadway signal system.
136.515 Visibility of cab signals.
136.516 Cab indicator; requirements.

RULES AND INSTRUCTIONS; ROADWAY

136.526 Roadway element not functioning properly.
136.527 Roadway element insulation resistance.
136.528 Restrictive condition resulting from open hand-operated switch; requirement.
136.529 Roadway element inductor; height and distance from rail.
136.530 Ramp; height and distance from rail.
136.531 Trip arm; height and distance from rail.
136.532 Strap iron inductor; use restricted.
136.533 Track magnet; height.
136.534 Entrance to equipped territory; requirements.

RULES AND INSTRUCTIONS; LOCOMOTIVES

136.551 Power supply voltage; requirement.
136.552 Insulation resistance; requirement.
136.553 Seal or lock; where required.
136.554 Rate of pressure reduction; equalizing reservoir or brake pipe.
136.555 Repaired or rewound receiver coil.
136.556 Adjustment of relay.
136.557 Receiver, intermittent inductive; location with respect to rail.
136.558 Contact shoe; location with respect to rail.
136559 Receiver, intermittent magnetic; location with respect to rail.
136.560 Contact element, mechanical trip type; location with respect to rail.
136.561 Safety chain or safety hanger.
136.562 Minimum rail current required.
136.563 Delay time.
136.564 Acknowledging time.
136.565 Provision made for preventing operation of pneumatic brake; applying apparatus by double-heading cock; requirement.
136.566 Locomotive at each train operating in train stop, train control, or cab signal territory equipped.
136.567 Restrictions imposed when device fails or cut-out en route.
136.568 Difference between speeds authorized by roadway signal and cab signal; action required.

INSPECTION AND TESTS; ROADWAY

136.576 Roadway element.
136.577 Test, acknowledgment and cut-in circuits.

INSPECTION AND TESTS; LOCOMOTIVE

136.586 Daily or after-trip test.
136.587 Departure test.
136.588 Periodic test.
136.589 Relays.
136.590 Pneumatic apparatus.

SUBPART F—DRAGGING EQUIPMENT AND SLIDE DETECTORS AND OTHER SIMILAR DEVICES

STANDARDS

136.601 Signals controlled by devices; location.
136.602 Operation in conjunction with automatic block signal system.

AUTHORITY: §§ 136.0 to 136.838 issued under sec. 12, 24 Stat. 383, as amended; 49 U. S. C., 12. Interpret or apply sec. 441, 41 Stat. 498, as amended; 49 U. S. C. 26.

§ 136.0 *Applicability of this part.* The following rules, standards, and instructions are hereby approved and prescribed for observance by each common carrier subject to the provisions of section 25 of the Interstate Commerce Act, on and after October 1, 1950.

SUBPART A—RULES AND INSTRUCTIONS; ALL SYSTEMS

GENERAL

§ 136.1 *Plans, where kept.* Track lay out plan, circuit plan, and where mechanical locking is used, locking sheet and dog chart, shall be kept at each interlocking and circuit plan shall be kept at each controlled point in traffic control systems; circuit plan for each automatic signal shall be available at the headquarters of the employee directly responsible for the maintenance of such signal; copies of all of the foregoing plans, and profile plan, drawn to scale, showing locations of signals, grades and alinement, for the sections of railroad under the jurisdiction of a divisional signal supervisory officer shall be kept at his headquarters; copies of plans pertaining to signal and interlocking facilities under the jurisdiction of general, regional or system signal officers shall be kept at their offices. All plans shall be correct and legible and available for use by the Commission's representatives.

§ 136.2 *Grounds.* Each circuit, the functioning of which affects safety of train operation, shall be kept free of any ground or combination of grounds which will permit a flow of current equal to or in excess of 75% of the release value of any relay or other electromagnetic device in the circuit, except circuit which includes any track rail.

§ 136.3 *Locking of instrument cases and interlocking machine cabinets.* Outdoor signal and instrument cases shall be locked, except signal mechanism housings at interlockings where maintenance forces are continuously on duty. Power interlocking machine cabinets, time releases, and electric locks exposed on interlocking machines shall be locked or sealed.

§ 136.4 *Interference with normal functioning of device.* The normal functioning of any device shall not be interfered with in testing or otherwise without first taking measures for insuring safety of train operation which depends on normal functioning of such device.

§ 136.5 *Design of control circuits on closed circuit principle.* All control circuits the functioning of which affects safety of train operation shall be designed on the closed circuit principle, except circuits for roadway equipment of intermittent automatic train stop system.

§ 136.6 *Hand operated switch equipped with switch circuit controller.* Hand-operated switch equipped with switch circuit controller connected to the point, or with facing point lock and circuit controller, shall be so maintained that when point is open one-fourth inch or more on facing point switch and three-eighths inch or more on trailing point switch, track or control circuits will be opened or shunted or both, and, if equipped with facing point lock with circuit controller, switch cannot be locked. Switch circuit controllers, facing point locks and switch-and-lock movements and their connections shall be securely fastened in place, and contacts maintained with an opening of not less than one-sixteenth inch when open.

§ 136.7 *Circuit controller operated by switch-and-lock movement.* Circuit controller operated by switch-and-lock movement shall be maintained so that normally open contacts will remain closed and normally closed contacts will remain open until the switch is locked.

§ 136.8 *Operating characteristics of electromagnetic apparatus.* Operating characteristics of electromagnetic apparatus shall be maintained in accordance with the limits within which such apparatus is designed to operate.

§ 136.9 *Selection of circuits through indicating or annunciating instruments.* Signal control and electric locking circuits shall not be selected through the contacts of instruments designed primarily for indicating or annunciating purposes in which an indicating element attached to the armature is arranged so that it can in itself cause improper operation of the armature.

NOTE: Existing installations shall be brought into conformity with the requirements of this section on or before October 1, 1952.

§ 136.10 *Electric locks, force drop type; where required.* Electric locks on new installations and new electric locks applied to existing installations shall be of the forced drop type.

§ 136.11 *Adjustment, repair or replacement of apparatus.* Any piece of apparatus or any part thereof which fails to perform its intended function shall be promptly adjusted, repaired or replaced.

§ 136.12 *Spring switch signal protection; where required.* Signal protection shall be provided for facing and trailing movements through spring switch within interlocking limits, and through spring switch hereafter installed in automatic block signal, train stop, train control or cab signal territory where train movements over the switch are made at a speed exceeding 20 miles per hour, except that signal protection shall be required only with the current of traffic on track signaled for movement in only one direction.

NOTE: Relief from the requirements of this section will be granted upon an adequate showing by an individual carrier.

§ 136.13 *Spring switch; selection of signal control circuits through circuit controller.* The control circuits of signals governing facing movements over a main track spring switch shall be selected through the contacts of a switch circuit controller, or through the contacts of relay repeating the position of such circuit controller, which, when normally closed switch point is open one-fourth inch or more, will cause such signals to display their most restrictive aspects, except that where a separate aspect is displayed for facing movements over the switch in the reverse position the signal shall display its most restrictive aspect when the switch points are open one-fourth inch or more from either the normal or reverse position.

§ 136.14 *Spring switch signal protection; requirements.* (a) The indication of signal governing movements from siding to main track with the current of traffic on track signaled for movements in only one direction through a spring switch in automatic block signal territory shall be not less restrictive than "Proceed at Restricted Speed" when the block, into which movements are governed by the signal, is occupied, and shall be "Stop" when the main track is occupied by a train approaching the switch within at least 1,500 feet in approach of the approach signal located stopping distance from the main track signal governing trailing movements over switch, except that the indication may be caused to be less restrictive if approach or time locking is used.

(b) The indication of signal governing movements against the current of traffic from the reverse main of main tracks to a single track, or signal governing movements from a siding to a main track signaled for movements in either direction, through a spring switch, in automatic block signal territory, shall be not less restrictive than "Proceed at Restricted Speed" when the block, into which movements are governed by the signal, is occupied by a preceding train, and shall be "Stop" when the block on the single track into which the signal governs is occupied by an opposing train.

(c) The indication of signal governing movements against the current of traffic from the reverse main of main tracks to a single track or signal governing movements from a siding to a main track signaled for movements in either direction through a spring switch in automatic block signal territory shall be "Stop" when the normal direction main track of the double track or the single track signaled for movements in both directions is occupied by a train approaching the switch within at least 1,500 feet in approach of the approach signal located stopping distance from the main track signal governing trailing movements over switch, except that indication may be caused to be less restrictive if approach or time locking is used.

NOTE: Existing installations shall be brought into conformity with the requirements of this section on or before October 1, 1952. As to existing installations, relief from the requirements of this section will be granted upon an adequate showing by an individual carrier.

§ 136.15 *Timetable instructions.* Automatic block, traffic control, train stop, train control and cab signal territory shall be designated in timetable instructions.

ROADWAY SIGNALS AND CAB SIGNALS

§ 136.21 *Location of roadway signals.* Each roadway signal hereafter installed shall be located over or to the right of the track it governs.

NOTE: Relief from the requirements of this section will be granted upon an adequate showing by an individual carrier. Relief heretofore granted to any carrier by order of the Commission shall constitute relief to the same extent from the requirements of this part.

§ 136.22 *Semaphore signal arm; clearance to other objects.* At least one-half inch clearance shall be provided between semaphore signal arm, and any object that may interfere with its operation.

§ 136.23 *Aspects and indications.* (a) Aspects shall be shown by the position of semaphore blades, color of lights, position of lights, flashing of lights, or any combination thereof. They may be qualified by marker plate, number plate, letter plate, marker light, shape and color of semaphore blades or any combination thereof, subject to the following conditions:

(1) Night aspects of roadway signals, except qualifying appurtenances, shall be shown by lights; day aspects by lights or semaphore arms. A single white light shall not be used.

(2) Reflector lenses or buttons or other devices which depend for visibility upon reflected light from an external source shall not be used in night aspects, except qualifying appurtenances.

(b) The aspects of cab signals shall be shown by lights or by illuminated letters.

(c) Each aspect displayed by a signal shall be identified by a name and shall indicate action to be taken. Only one name and indication shall apply to those aspects indicating the same action to be taken; the same aspect shall not be used with any other name and indication.

(d) The fundamental indications of signal aspects shall conform to the following:

(1) A red light, a series of horizontal lights or a semaphore blade in a horizontal position shall be used to indicate stop.

(2) A yellow light, a lunar light, or a series of lights or a semaphore blade in the upper or lower quadrant at an angle of approximately 45 degrees to the vertical, shall be used to indicate that speed is to be restricted and stop may be required.

(3) A green light, a series of vertical lights, or a semaphore blade in a vertical position in the upper quadrant or 60° or 90° in the lower quadrant shall be used to indicate proceed at authorized speed.

(e) The names, indications and aspects of roadway signals and cab signals shall be defined in Block Signal and Interlocking Rules in effect on each railroad subject to these rules, standards and instructions. Copy of such Block Signal and Interlocking Rules shall be filed with the Interstate Commerce Commission within six months after the date of this order and copy of subsequent modifications shall be filed with said Commission within thirty days after such modifications become effective. Such rules and any modifications thereof shall remain in effect until otherwise ordered by the Commission.

NOTE: Relief from the requirements of this section will be granted upon an adequate showing by an individual carrier.

§ 136.24 *Spacing of roadway signals.* Each roadway signal shall be located with respect to the next signal or signals in advance which govern train movements in the same direction so that the indication of a signal displaying a restrictive aspect can be complied with by means of a brake application, other than an emergency application, initiated at such signal, either by stopping at the signal where a stop is required, or by a reduction in speed to the rate prescribed by the next signal in advance where reduced speed is required.

§ 136.25 *False restrictive position of semaphore signal arm or failure of lamp in light signal.* If an arm of a semaphore signal assumes a false restrictive position or if a lamp in a light signal fails the signal shall not display a less restrictive aspect than intended.

NOTE: Existing installations on each railroad, which do not conform to the requirements of this section shall be brought into conformity therewith in accordance with the following schedule:

Not less than 20 percent on or before October 1, 1951.
Not less than 40 percent on or before October 1, 1952.
Not less than 60 percent on or before October 1, 1953.
Not less than 80 percent on or before October 1, 1954.
The remainder on or before October 1, 1955.

§ 136.26 *Buffing device, maintenance.* Buffing device shall be maintained so as not to cause the signal to display a less restrictive aspect than intended.

§ 136.27 *Phantom signal aspect.* Measures shall be taken to prevent recurrence of a phantom signal aspect.

TRACK CIRCUITS

§ 136.51 *Track circuit requirements.* Track relay shall be in deenergized position whenever any of the following conditions exist, and the track circuit of an automatic train stop, train control, or cab signal system shall be deenergized in the rear of the point where any of the following conditions exist:

(a) When a rail is broken or a rail or switch-frog is removed except when a rail is broken or removed in the shunt fouling circuit of a turnout or crossover: *Provided, however,* That shunt fouling circuit may not be used in a turnout through which permissible speed is greater than 45 miles per hour. It shall not be a violation of this requirement if a track circuit is energized when a break occurs within the limits of the joint bars or rail-joint bond, or as a result of leakage current or foreign current in the rear of a point where a break occurs or a rail is removed.

(b) When a train, locomotive, or car occupies any part of a track circuit, including fouling section of turnout, except turnouts of a hand-operated main track crossover. It shall not be a violation of this requirement where the presence of sand, rust, dirt, grease or other foreign matter on the rail prevents effective shunting.

(c) Where switch shunting circuit is used:

(1) Switch points are not closed in normal position.

(2) A switch is not locked where facing point lock with circuit controller is used.

(3) An independently operated fouling point derail equipped with switch circuit controller is not in derailing position.

§ 136.52 *Relayed cut-section.* Where relayed cut-section is used in territory where noncoded direct-current track circuits are in use the energy circuit to the adjoining track shall be open and the track circuit shunted when the track relay at such cut-section is in deenergized position.

§ 136.53 *Track circuit feed at grade crossing.* At grade crossing with an electric railroad where foreign current is present, the electric energy for noncoded direct current track circuit shall feed away from the crossing.

§ 136.54 *Minimum length of track circuit.* The length of any track circuit, except trap circuit or special circuit not used for control of signaling facilities, shall be greater than maximum inner wheel base of any locomotive or car.

§ 136.55 *Dead section; maximum length.* Where dead section exceeds 35 feet, special circuit shall be installed. Where shortest outer wheel base of a locomotive operating over such dead section is less than 35 feet, the maximum length of the dead section shall not exceed the length of the outer wheel base of such locomotive unless special circuit is used.

§ 136.56 *Shunting sensitivity.* Track circuit shall be so maintained that track relay will be in deenergized position if, when track circuit is dry, a shunt of 0.06 ohm resistance is connected across the track rails of the circuit, including fouling sections of turnouts.

§ 136.57 *Shunt wires.* Shunt wires and fouling wires, except shunt wires to switch circuit controller through which signal control circuits are controlled and track circuits are shunted, shall consist of at least two conductors and each shall be of sufficient conductivity and maintained in such condition that the track relay will be in deenergized position when the circuit is shunted.

NOTE: Existing installations shall be brought into conformity with the requirements of this section on or before October 1, 1952.

§ 136.58 *Turnout, fouling section.* Fouling section of turnout shall extend to clearance point.

§ 136.59 *Insulated rail joints.* Insulated rail joints shall be maintained in condition to prevent sufficient track cir-

cuit current from flowing between the rails separated by the insulation to cause a failure of any track circuit involved.

WIRES AND CABLES

§ 136.71 *Signal wires on pole lines.* Signal wires carried on pole lines shall be securely tied in on insulators.

§ 136.72 *Clearance of overhead signal wires and cables.* Where men are permitted to be on top of cars, the clear space between the lowest overhead signal line conductor and the top of track rails shall be not less than 27 feet at 60° F., no wind. The distance may be reduced to 25 feet for guys and for cables carried on messengers.

§ 136.73 *Open-wire transmission line; clearance to other circuits.* Open-wire transmission line operating at voltage of 750 volts or more shall be placed not less than 4 feet above the nearest crossarm carrying signal or communication circuits.

§ 136.74 *Protection of insulated wire; splice in underground wire.* Insulated wire shall be protected from mechanical injury. The insulation shall not be punctured for test purposes. Splice in underground wire shall have insulation resistance at least equal to the wire spliced.

§ 136.75 *Insulated wires and cables; supports.* Insulated wires and cables used aerially shall be supported on insulators or by messengers.

§ 136.76 *Interference of wires with operating parts of mechanisms.* Wires shall not interfere with operating parts of mechanisms.

§ 136.77 *Tagging of wires.* Each wire shall be tagged or otherwise marked so it can be identified at each terminal. Nomenclature shall correspond to that of the circuit plan. Tags or other marks of identification in instrument cases and apparatus housings shall be made of insulating material and shall not interfere with moving parts of apparatus.

§ 136.78 *Lightning arrester.* Lightning arrester shall be properly connected and ground maintained with resistance to ground preferably not more than 25 ohms.

INSPECTIONS AND TESTS; ALL SYSTEMS

§ 136.101 *Purpose of inspections and tests; removal from service of relay failing to meet test requirements.* The following inspections and tests shall be made in accordance with specifications of the carrier subject to approval of the Commission to determine if the apparatus and/or equipment is maintained in condition to perform its intended function. Relay or other electromagnetic device which fails to meet the requirements of specified tests shall be removed from service, and shall not be restored to service until its operating characteristics are in accordance with the limits within which such relay or electromagnetic device is designed to operate.

§ 136.102 *Signal mechanism.* Signal mechanism shall be inspected at least once every six months, and tests of the operating characteristics of all parts shall be made at least once every two years.

§ 136.103 *Switch circuit controller.* Switch circuit controller shall be inspected and tested at least once every three months.

§ 136.104 *Shunt fouling circuit.* Shunt fouling circuit shall be inspected and tested at least once every three months.

§ 136.105 *Electric lock.* Electric lock, except forced-drop type, shall be tested at least once every two years.

§ 136.106 *Relays.* Relay in service, except locomotive relay, shall be tested at least once every two years.

§ 136.107 *Lightning arresters.* Gas and vacuum type lightning arresters shall be tested at least once a year.

§ 136.108 *Insulation resistance tests.* Insulation resistance tests shall be made when wires, cables, and insulation are dry. Wires and cables, except wires connected directly to track rails, shall be tested in accordance with the following schedule. Conductors shall be promptly repaired or renewed when insulation resistance is below the following values:

Description	Period	Minimum allowable resistance
Low voltage (660 volts or less) wires and cables with insulation and protective outer covering not specifically designed for underground use, any part of which is underground or in trunking.	5 years	1 megohm.
Low voltage (660 volts or less) wires and cables with insulation and protective outer covering not specifically designed for underground use, no part of which is underground or in trunking.	8 years	Do.
Low voltage (660 volts or less) wires and cables with insulation and protective outer covering designed specifically for underground use, or in underground conduit, or as submarine cables.	do	Do.
Local signal wiring	do	100 megohms between sectionalizing switches.
Lead covered signal power cable	do	40 megohms for voltages up to and including 650 volts for section tested.
Underground signal power lines not lead sheathed	5 years	100 megohms between sectionalizing switches for voltages exceeding 660.

§ 136.109 *Records of results of tests; forms for keeping records; where filed.* Results of tests made in compliance with § 136.102 to 136.108 inclusive, § 136.376 to 136.387, inclusive, and §§ 136.576, 136.577, 136.586, 136.588, and 136.589 shall be recorded on forms provided by the railroad. Such forms shall show name of railroad, place and date, equipment tested, repairs, replacements, adjustments made, and condition in which apparatus was left, and signature of employee making the test. Each form shall be filed in the office of a divisional officer of the division on which the tests were made.

SUBPART B—AUTOMATIC BLOCK SIGNAL SYSTEMS

STANDARDS

§ 136.201 *Track circuit control of signals.* Signals shall be controlled automatically by track circuits extending through the entire block.

§ 136.202 *Signal governing movements over hand-operated switch.* Signal governing movements over hand-operated switch in the facing direction shall display its most restrictive aspect when the points are open one-fourth inch or more and, in the trailing direction, three-eighths inch or more, except that where a separate aspect is displayed for facing movements over the switch in the normal and in the reverse position, the signal shall display its most restrictive aspect when the switch points are open one-fourth inch or more from either the normal or reverse position.

§ 136.203 *Hand operated crossover between main tracks; protection.* At hand-operated crossover between main tracks, protection shall be provided by one of the following: (a) An arrangement of one or more track circuits and switch circuit controllers. (b) facing point locks on both switches of the crossover, with both locks operated by a single lever, or (c) electric locking of the switches of the crossover. Signals governing movements over either switch shall display their most restrictive aspect when any of the following conditions exist:

(1) Where protection is provided by one or more track circuits and switch circuit controllers, and either switch is open or the crossover is occupied by a train, locomotive or car in such a manner as to foul the main track. It shall not be a violation of this requirement where the presence of sand, rust, dirt, grease or other foreign matter on the rail prevents effective shunting;

(2) Where facing point locks with a single lever are provided, and either switch is unlocked;

(3) Where the switches are electrically locked, before the electric locking releases.

§ 136.204 *Track signaled for movements in both direction; requirements.* On track signaled for movements in both directions, a train shall cause one or more opposing signals immediately ahead of it to display an aspect requiring a stop. On such track signals shall be so arranged and controlled that if opposing trains can simultaneously pass signals displaying proceed aspects, and the next signal in advance of each such signal then displays an aspect requiring a stop, the distance between opposing signals requiring a stop shall be not less than the aggregate of the stopping distances for movements in each direction. Where such opposing signals are spaced stopping distance apart for movements in one direction only, signals arranged to display restrictive aspects shall be provided in approach to at least one of the signals. Where such opposing signals are spaced less than stopping distance apart for movements in one direction, signals arranged to display restrictive aspects shall be provided in approach to both such signals.

NOTE: Existing installations on each railroad, which do not conform to the requirements of this section shall be brought into conformity therewith in accordance with the following schedule:

Not less than 20 percent on or before October 1, 1951.

Not less than 40 percent on or before October 1, 1952.

Not less than 60 percent on or before October 1, 1953.

Not less than 80 percent on or before October 1, 1954.

The remainder on or before October 1, 1955.

§ 136.205 *Signal control circuits; requirements.* The circuits shall be so installed that each signal governing train movements into a block will display its most restrictive aspect when any of the following conditions obtain within the block; (a) occupancy by a train, locomotive, or car, (b) when points of a switch are not closed in proper position, (c) when an independently operated fouling point derail equipped with switch circuit controller is not in derailing position, (d) when a track relay is in deenergized position; or when signal control circuit is deenergized.

§ 136.206 *Battery or power supply with respect to relay; location.* The battery or power supply for each signal control relay circuit, where an open-wire circuit or a common return circuit is used, shall be located at the end of the circuit farthest from the relay.

§ 136.207 *Electric lock on hand-operated switch; control.* Electric lock on hand-operated switch shall be controlled so that it cannot be unlocked until control circuits of signals protecting such switch have been opened. Approach or time locking shall be provided.

SUBPART C—INTERLOCKING

STANDARDS

§ 136.301 *Where signals shall be provided.* Signals shall be provided to govern the train movements into and through interlocking limits.

NOTE: Relief from the requirements of this section will be granted upon an adequate showing by an individual carrier. (See also note 1 following § 136.302.)

§ 136.302 *Track circuits and route locking.* Track circuits and route locking shall be provided throughout interlocking limits. (See note 1, and with respect to route locking only, also note 2.)

NOTE 1: Relief from the requirements of this section will be granted upon an adequate showing by an individual carrier. Relief heretofore granted to any carrier by order of the Commission shall constitute relief to the same extent from the requirements of this part.

NOTE 2: Existing installations on each railroad, which do not conform to the requirements of this section shall be brought into conformity therewith in accordance with the following schedule:

Not less than 20 percent on or before October 1, 1951.

Not less than 40 percent on or before October 1, 1952.

Not less than 60 percent on or before October 1, 1953.

Not less than 80 percent on or before October 1, 1954.

The remainder on or before October 1, 1955.

§ 136.303 *Control circuits for signals; selection through circuit controller operated by switch points or by switch locking mechanism.* The control circuit for power-operated or slotted mechanical signal governing movements at higher than restricted speed in the facing direction over switches, movable-point frogs and derails shall be selected through circuit controller operated directly by switch points or by switch locking mechanism, or through relay controlled by such circuit controller, for each facing point switch, movable-point frog and derail in the routes governed by such signal. Circuits shall be arranged so that such signal can display an aspect to proceed only when each such switch, movable-point frog and derail in the route is in proper position. Such power-operated signals hereafter installed shall be controlled in this manner through circuit controllers or switch repeating relays for all switches, movable-point frogs and derails in the routes governed by such signals.

NOTE: Existing installations shall be brought into conformity with the requirements of this section on or before October 1, 1952.

§ 136.304 *Mechanical locking or same protection effected by circuits.* Mechanical locking, or the same protection effected by means of circuits, shall be provided.

§ 136.305 *Approach or time locking.* Approach or time locking shall be provided in connection with signals governing movements at higher than restricted speed.

§ 136.306 *Facing point lock or switch-and-lock movement.* Facing point lock or switch-and-lock movement shall be provided for mechanically operated switch, movable-point frog, or split-point derail.

§ 136.307 *Indication locking.* Indication locking shall be provided for operative approach signals of the semaphore type, power-operated home signals, power-operated switches, movable-point frogs and derails, and for all approach signals hereafter installed, except light signals all aspects of which are controlled by coded track circuits or by double wire line circuits.

§ 136.308 *Mechanical or electric locking or electric circuits; requisites.* Mechanical or electric locking or electric circuits shall be installed to prevent signals from displaying aspects which permit conflicting movements except that opposing signals may display an aspect indicating proceed at restricted speed at the same time on a track used for switching movements only, by one train at a time. Manual interlocking in service as of the date of this part at which opposing signals on the same track are permitted simultaneously to display aspects authorizing conflicting movements when interlocking is unattended, may be continued, provided that simultaneous train movements in opposite directions on the same track between stations on either side of the interlocking are not permitted.

NOTE: Relief from the requirement of this section will be granted upon an adequate showing by an individual carrier to allow opposing signals on the same track simultaneously to display aspects to proceed through an interlocking which is unattended, provided that train movements in opposite directions on the same track between stations on either site of the interlocking are not permitted at the same time.

§ 136.309 *Loss of shunt at automatic interlocking.* At automatic interlocking, a loss of shunt of 5 seconds or less shall not permit an established route to be changed.

NOTE: Existing installations shall be brought into conformity with the requirements of this section on or before October 1, 1952.

§ 136.310 *Signal governing approach to home signal.* A signal shall be provided on main track to govern the approach with the current of traffic to any home signal except where the home signal is the first signal encountered when leaving yards or stations and authorized speed approaching such signal is not higher than slow speed. When authorized speed between home signals on route governed is 20 miles per hour or less, an inoperative signal displaying an aspect indicating "approach next signal prepared to stop" may be used to govern the approach to the home signal.

§ 136.311 *Signal control circuits, selection through track relays and through signal mechanism contacts and time releases at automatic interlocking.* The control circuits for aspects with indications more favorable than "proceed at restricted speed" shall be selected through track relays for all track circuits in the route governed or through repeating relays for such track relays. At automatic interlocking, signal control circuit shall be selected (a) through track relays for all track circuits in the route governed and in all conflicting routes within interlocking limits or through repeating relays for such track relays; (b) through signal mechanism contacts or relay contacts closed when signals for such conflicting routes display stop aspects; and (c) through normal contacts of time releases for such conflicting routes or contacts of relays repeating the normal position of contacts of such time releases.

§ 136.312 *Movable bridge; interlocking of signal appliances with bridge devices.* When movable bridge is protected by interlocking, the signal appliances shall be so interlocked with bridge devices that before a signal governing movements over the bridge can display an aspect to proceed, the bridge and track must be alined and locked, with the bridge locking members within one inch of their proper positions and with the track rail on the movable span within three-eighths inch of correct surface and alinement with the rail on the bridge abutment or fixed span.

§ 136.313 *Pipe for operating connections; requirements.* Steel or wrought-

iron pipe one inch or larger, or members of equal strength shall be used for operating connections for switches, derails, movable-point frogs, facing point locks, rail-locking devices of movable bridge protected by interlocking, and mechanically operated signals, except up-and-down rod which may be three-fourths inch pipe or solid rod. Pipes shall be fully screwed into coupling and both ends of each pipe shall be riveted to pipe plug with 2 rivets. Pipeline shall not be out of alinement sufficiently to interfere with the proper operation of the interlocking, shall be properly compensated for temperature changes, and supported on carriers spaced not more than 8 feet apart on tangent and curve of less than 2° and not more than 7 feet apart on curve of 2° or more. With lever in any position, couplings in pipe line shall not foul carriers. (With respect to requirement for double rivets, see note.)

NOTE: Existing installations on each railroad, which do not conform to the requirements of this section shall be brought into conformity therewith in accordance with the following schedule:

Not less than 20 percent on or before October 1, 1951.
Not less than 40 percent on or before October 1, 1952.
Not less than 60 percent on or before October 1, 1953.
Not less than 80 percent on or before October 1, 1954.
The remainder on or before October 1, 1955.

§ 136.314 *Electric lock for hand-operated switch or derail.* Electric lock shall be provided for each hand-operated switch or derail within interlocking limits, except where train movements are made at not exceeding 20 miles per hour. At manually operated interlocking it shall be controlled by operator of the machine and shall be unlocked only after signals governing movements over such switch or derail display aspects indicating stop. Approach or time locking shall be provided.

NOTE: Relief from the requirements of this section will be granted upon an adequate showing by an individual carrier. Relief heretofore granted to any carrier by order of the Commission shall constitute relief to the same extent from the requirements of this part.

RULES AND INSTRUCTIONS

§ 136.326 *Mechanical locking removed or disarranged; requirement for permitting train movements through interlocking.* When mechanical locking of interlocking machine is being changed or is removed from the machine, or locking becomes disarranged or broken, unless protection equivalent to mechanical locking is provided by electric locking or electric circuits, train movements through the interlocking shall not be permitted until each switch, movable-point frog or derail in the route is spiked, clamped or blocked in proper position so that it cannot be moved by its controlling lever, and then train movements shall not exceed restricted speed until the interlocking is restored to normal operation. It will not be necessary to comply with this requirement at interlockings where protection is in service in accordance with section 303, provided that the signal controls are arranged so that the signals cannot display an aspect the indication of which is less restrictive than "proceed at restricted speed."

§ 136.327 *Switch, movable-point frog or split-point derail.* Switch, movable-point frog or split-point derail shall be maintained so that it cannot be locked if the switch point is prevented by an obstruction from closing to within three-eighths inch.

§ 136.328 *Plunger of facing point lock.* Plunger of facing point lock shall have at least 8-inch stroke. When lever is in reverse position plunger shall pass through lock rod one-half inch or more.

§ 136.329 *Bolt lock.* Bolt lock shall be so maintained that signal governing movements over switch or derail and displaying an aspect indicating stop cannot be operated to display a less restrictive aspect while derail is in derailing position, or when switch point is open one-half inch or more.

§ 136.330 *Locking dog of switch and lock movement.* Locking dog of switch-and-lock movement shall extend through lock rod one-half inch or more in either normal or reverse position.

§ 136.331 *Repairs to switch and signal valves and cylinders.* Repairs to switch and signal valves and cylinders shall not be made while they are in service.

§ 136.332 *Air distribution system; draining condensation.* Provision shall be made for draining condensation out of air distribution system at low points. Condensers, tanks, reservoirs, and air distribution lines shall be drained frequently enough to avoid overflow of condensation into branch lines and apparatus.

§ 136.333 *Pole changer on electric switch operating mechanism.* Pole changer on electric switch operating mechanism shall be maintained so that movement of switch mechanism follows movement of controlling lever.

§ 136.334 *Point detector.* Point detector shall be maintained so that when switch mechanism is locked in normal or reverse position, contacts cannot be opened by manually applying force at the closed switch point. Point detector circuit controller shall be maintained so that the contacts will not assume the position corresponding to switch point closure if the switch point is prevented by an obstruction, from closing to within one-fourth inch where latch-out device is not used, and to within three-eighths inch where latch-out device is used.

§ 136.335 *Dogs, stops and trunnions of mechanical locking.* Driving pieces, dogs, stops and trunnions shall be rigidly secured to locking bars. Swing dogs shall have full and free movement. Top plates shall be maintained securely in place.

§ 136.336 *Locking bed.* The various parts of the locking bed, locking bed supports, and tappet stop rail shall be rigidly secured in place and alined to permit free operation of locking.

§ 136.337 *Locking faces of mechanical locking; fit.* Locking faces shall fit squarely against each other with a minimum engagement when locked of at least one-half the designed locking face.

§ 136.338 *Mechanical locking required in accordance with locking sheet and dog chart.* Mechanical locking shall be in accordance with locking sheet and dog chart currently in effect.

§ 136.339 *Mechanical locking; maintenance requirements.* Locking and connections shall be maintained so that, when a lever or latch is mechanically locked, the following will be prevented:

(a) *Mechanical machine.* (1) Latch-operated locking. Raising lever latch block so that bottom thereof is within three-eighths inch of top of quadrant.

(2) Lever operated locking. Moving lever latch block more than three-eighths inch on top of quadrant.

(b) *Electro-mechanical machine.* (1) Lever moving in horizontal plane. Moving lever more than three-sixteenths inch when in normal position or more than seven-sixteenths inch when in reverse position.

(2) Lever moving in arc. Moving lever more than 5°.

(c) *Power machine.* (1) Latch operated locking. Raising lever latch block so that bottom thereof is within seven thirty-seconds inch of top of quadrant.

(2) Lever moving in horizontal plane. Moving lever more than five-sixteenths inch when in normal position or more than nine-sixteenths inch when in reverse position.

(3) Lever moving in arc. Moving lever more than 5°.

§ 136.340 *Electromechanical interlocking machine; locking between electrical and mechanical levers.* In electro-mechanical interlocking machine, locking between electric and mechanical levers shall be maintained so that mechanical lever cannot be operated except when released by electric lever.

§ 136.341 *Latch shoes, rocker links, and quadrants.* Latch shoes, rocker links, and quadrants of Saxby and Farmer machines shall be maintained so that locking will not release if a downward force not exceeding a man's weight is exerted on the rocker while the lever is in the mid-stroke position.

§ 136.342 *Switch circuit controller.* Switch circuit controller connected at the point to switch, derail, or movable-point frog, shall be maintained so that its contacts will not be in position corresponding to switch point closure when switch point is open one-fourth inch or more.

INSPECTION AND TESTS

§ 136.376 *Mechanical locking.* Mechanical locking in interlocking machine shall be tested when new locking is placed in service or change in locking is made. Complete test shall be made at least once every 4 years.

§ 136.377 *Approach locking.* Approach locking shall be tested at least once a year.

§ 136.378 *Time locking.* Time locking shall be tested at least once a year.

§ 136.379 *Route locking.* Route or other type of switch locking shall be tested at least once every three months.

§ 136.380 *Indication locking.* Indication locking for semaphore signals and for switch or lock levers shall be tested at least once a year and for light signals at least once every two years.

§ 136.381 *Traffic locking.* Traffic locking shall be tested at least once a year.

§ 136.382 *Switch obstruction test.* Switch obstruction test shall be made at least once a month.

§ 136.383 *Valve locks and valve magnets.* Valve locks on valves of the non-cut-off type, valves, and valve magnets shall be tested at least once every three months.

§ 136.384 *Cross protection.* Cross protection shall be tested at least once every three months.

§ 136.385 *Time releases and timing relays.* Time releases and timing relays shall be tested at least once every three months. The timing shall be maintained at not less than 90 percent of the predetermined time interval, which shall be shown on the plans or marked on the time release or relay.

§ 136.386 *Restoring feature on power switches.* Restoring feature on power switches shall be tested at least once every three months.

§ 136.387 *Movable bridge locking.* Movable bridge locking shall be tested at least once a year.

SUBPART D—TRAFFIC CONTROL SYSTEMS

STANDARDS

§ 136.401 *Automatic block signal system and interlocking standards applicable to traffic control systems.* The standards prescribed in §§ 136.201 to 136.203, inclusive, §§ 136.205, 136.206, 136.303, 136.307, 136.310 and 136.311 shall apply to traffic control systems.

§ 136.402 *Signal control; track circuit and control operator.* Signal governing movement at higher than restricted speed shall be controlled by continuous track circuits. Also, in addition, at controlled point they shall be controlled by control operator, and, at manually operated interlocking, manually in cooperation with control operator.

§ 136.403 *Signals at controlled point.* Signals at a controlled point shall be so interconnected that aspects to proceed cannot be displayed simultaneously for conflicting movements.

§ 136.404 *Signals at adjacent controlled points.* Signals at adjacent controlled points shall be so interconnected that aspects to proceed cannot be displayed simultaneously for conflicting movements.

§ 136.405 *Track signaled for movement in both directions; change of direction of traffic.* On track signaled for movements in both directions, occupancy of the track between opposing signals at adjacent controlled points shall prevent changing the direction of traffic from that which obtained at the time the track became occupied.

§ 136.406 *Indication of track circuit occupancy at controlled points.* Occupancy of track circuits at controlled points shall be automatically indicated at the control station.

§ 136.407 *Approach or time locking; where required.* Approach or time locking shall be provided for all controlled signals and for all electric locks on hand-operated switches.

§ 136.408 *Route locking.* Route locking shall be provided where switches are power operated.

§ 136.409 *Control machine, indication of switch operation.* It shall be indicated on the control machine when power-operated switch has completed its movement and is locked.

§ 136.410 *Hand-operated switch electrically locked.* Each hand-operated switch hereafter installed in main track where train movements are made at speeds exceeding 20 miles per hour shall be electrically locked in normal position. Electric lock may be unlocked either automatically or by the control operator, but only after control circuits of signals governing movements over the switch in each direction have been opened.

NOTE: Relief from the requirements of this section will be granted upon an adequate showing by an individual carrier. Relief heretofore granted to any carrier by order of the Commission shall constitute relief to the same extent from the requirements of this part.

RULES AND INSTRUCTIONS

§ 136.426 *Interlocking rules and instructions applicable to traffic control systems.* The rules and instructions prescribed in §§ 136.327 and 136.328, 136.330 to 136.334, inclusive, and 136.342 shall apply to traffic control systems.

INSPECTION AND TESTS

§ 136.476 *Interlocking inspections and tests applicable to traffic control systems.* The inspections and tests prescribed in §§ 136.377 to 136.380, inclusive, and 136.382, 136.383, 136.385, and 136.386 shall apply to traffic control systems.

SUBPART E—AUTOMATIC TRAIN STOP, TRAIN CONTROL AND CAB SIGNAL SYSTEMS

STANDARDS

§ 136.501 *Forestalling device and speed control.* (a) An automatic train stop system may include a device by means of which the automatic application of the brakes can be forestalled.

(b) Automatic train control system shall include one or more of the following features:

(1) Low-speed restriction, requiring the train to proceed under slow speed after it has either been stopped by an automatic application of the brakes, or under control of the engineman, its speed has been reduced to slow speed, until the apparatus is automatically restored to normal because the condition which caused the restriction no longer affects the movement of the train.

(2) Medium-speed restriction, requiring the train to proceed under medium speed after passing a signal displaying an approach aspect or when approaching a signal requiring a stop, or a stop indication point, in order to prevent an automatic application of the brakes.

NOTE: Relief from the requirements of subparagraphs (1) and (2) of this paragraph will be granted, insofar as speed limits fixed by definitions of Slow and Medium speeds are concerned, upon an adequate showing by an individual carrier where automatic train control systems now in service enforce speed restrictions higher than those required by definitions in §§ 136.700 to 136.838 inclusive.

(3) Maximum-speed restriction, effecting an automatic brake application whenever the predetermined maximum speed limit is exceeded.

§ 136.502 *Automatic brake application; initiation by restrictive block conditions stopping distance in advance.* An automatic train stop or train control system shall operate to initiate an automatic brake application at least stopping distance from the entrance to a block, wherein any condition described in § 136.205 obtains, and at each signal requiring a reduction in speed.

§ 136.503 *Automatic brake application; initiation when predetermined rate of speed exceeded.* An automatic train control system shall operate to initiate an automatic brake application when the speed of the train exceeds the predetermined rate as required by the setting of the speed control mechanism.

§ 136.504 *Operation interconnected with automatic block signal system.* An automatic train stop or train control system shall operate in connection with an automatic block signal system and shall be so interconnected with the signal system as to perform its intended function in event of failure of the engineman to obey a signal requiring a reduction in speed.

§ 136.505 *Proper operative relation between parts along roadway and parts on locomotive.* Proper operative relation between the parts along the roadway and the parts on the locomotive shall obtain under all conditions of speed, weather, wear, oscillation, and shock.

§ 136.506 *Release of brakes after automatic application.* The automatic train stop or train control apparatus shall prevent release of the brakes after automatic application until a reset device has been operated, or the speed of the train has been reduced to a predetermined rate, or the condition that caused the brake application no longer affects the movement of the train. If reset device is used it shall be arranged so that the brakes cannot be released until the train has been stopped, or it shall be located so that it cannot be operated by engineman without leaving his accustomed position in the cab.

§ 136.507 *Brake application; full service.* The automatic train stop or train control apparatus shall, when operated, cause a full service application of the brakes.

§ 136.508 *Interference with application of brakes by means of brake valve.* The automatic train stop, train control or cab signal apparatus shall be arranged so as not to interfere with the application of the brakes by means of the brake valves and not to impair the efficiency of the air brake system.

§ 136.509 *Two or more locomotives coupled.* The automatic train stop, train control or cab signal apparatus shall be arranged so that when two or more locomotives are coupled, or a pushing or helping locomotive is used, it can be made operative only on the locomotive from which the brakes are controlled.

§ 136.510 *Conformance with established clearances.* The automatic train stop, train control and cab signal apparatus shall be arranged so as to conform to carriers' established clearances for equipment and structures.

§ 136.511 *Cab signals controlled in accordance with block conditions stopping distance in advance.* The automatic cab signal system shall be arranged so that cab signals will be continuously controlled in accordance with conditions described in § 136.205 that obtain at least stopping distance in advance.

§ 136.512 *Cab signal indication when locomotive enters block where restrictive conditions obtain.* The automatic cab signal system shall be arranged so that when a locomotive enters or is within a block, wherein any condition described in § 136.205 obtains, the cab signals shall indicate "Proceed at Restricted Speed."

§ 136.513 *Audible indicator.* The automatic cab signal system shall be arranged so that when the cab signal changes to display a more restrictive aspect, an audible indicator will sound continuously until silenced by manual operation of an acknowledging device.

§ 136.514 *Interconnection of cab signal system with roadway signal system.* The automatic cab signal system shall be interconnected with the roadway-signal system so that the cab signal indication will not authorize operation of the train at a speed higher than that authorized by the indication of the roadway signal that governed the movement of a train into a block except when conditions affecting movement of trains in the block change after the train passes the signal.

NOTE: Relief from the requirements of this section will be granted upon an adequate showing by an individual carrier. Relief heretofore granted to any carrier by order of the Commission shall constitute relief to the same extent from the requirements of this part.

§ 136.515 *Visibility of cab signals.* The cab signals shall be plainly visible to members of the locomotive crew from their stations in the cab.

§ 136.516 *Cab indicator; requirements.* The cab indicator shall have a distinctive sound which will be clearly audible throughout the cab under all operating conditions.

RULES AND INSTRUCTIONS; ROADWAY

§ 136.526 *Roadway element not functioning properly.* When a roadway element except track circuit of automatic train stop, train control or cab signal system is not functioning as intended, the signal associated with such roadway element shall be caused manually to display its most restrictive aspect until such element has been restored to normal operative condition.

§ 136.527 *Roadway element insulation resistance.* Insulation resistance between roadway inductor or magnet winding and ground shall be maintained at not less than 10,000 ohms.

§ 136.528 *Restrictive condition resulting from open hand-operated switch; requirement.* When a facing point hand-operated switch is open one-fourth inch or more, a trailing point hand-operated switch three-eighths inch or more, or hand-operated switch is not locked where facing point lock with circuit controller is used, the resultant restrictive condition of an automatic train stop or train control device of the continuous type or the resultant restrictive cab signal indication of an automatic cab signal device on an approaching locomotive shall be maintained to within 300 feet of the points of the switch.

§ 136.529 *Roadway element inductor; height and distance from rail.* Inductor of the inert roadway element type shall be maintained with the inductor pole faces at a height above the plane of the tops of the rails, and with its inner edge at a horizontal distance from the gage side of the nearest running rail, in accordance with specifications of the carrier on file with the Commission.

§ 136.530 *Ramp; height and distance from rail.* Ramp of automatic train stop device shall be maintained with its contact surface at its highest point at a height above the plane of the tops of the rails, and with its center line at a horizontal distance from the gage side of the nearest running rail, in accordance with specifications of the carrier on file with the Commission.

§ 136.531 *Trip arm; height and distance from rail.* Trip arm of automatic train stop device when in stop position shall be maintained at a height above the plane of the tops of the rails, and at a horizontal distance from its center line to gage side of the running rail, in accordance with specifications of the carrier on file with the Commission.

§ 136.532 *Strap iron inductor; use restricted.* No railroad shall use strap iron inductor, short ramp, or other roadway element with characteristics differing from its standard type, on track where speed higher than restricted speed is permitted.

§ 136.533 *Track magnet; height.* Track magnet located between the rails of a track shall not exceed above the plane of the tops of the rails.

§ 136.534 *Entrance to equipped territory; requirements.* Where trains are not required to stop at the entrance to equipped territory, except when leaving yards and stations and speed until entering equipped territory does not exceed restricted speed, the automatic train stop, train control, or cab signal device shall be operative at least stopping distance from the entrance to such territory except where the approach thereto is governed by automatic approach signal.

NOTE: Relief from the requirements of this section will be granted upon an adequate showing by an individual carrier.

RULES AND REGULATIONS; LOCOMOTIVES

§ 136.551 *Power supply voltage; requirement.* The voltage of power supply shall be maintained within 10 percent of rated voltage.

§ 136.552 *Insulation resistance; requirement.* Insulation resistance between wiring and ground shall be not less than the following:

Continuous inductive automatic train stop, train control, and cab signal systems—250,000 ohms.

Intermittent inductive automatic train stop systems—20,000 ohms.

§ 136.553 *Seal or lock; where required.* Seal or lock shall be maintained on any device, other than the double heading cock, by means of which operation of the pneumatic portion of the apparatus can be cut out.

§ 136.554 *Rate of pressure reduction; equalizing reservoir or brake pipe.* The equalizing-reservoir pressure or brake-pipe pressure reduction during an automatic brake application shall be at a rate not less than that which results from a manual service application.

§ 136.555 *Repaired or rewound receiver coil.* Receiver which has been repaired or rewound shall have the same operating characteristics which it possessed originally or as currently specified for new equipment.

§ 136.556 *Adjustment of relay.* Change in adjustment of relay shall be made only in a shop equipped for that purpose except when receiver coils, electro-pneumatic valve, or other essential part of the equipment is replaced. Irregularities in power-supply voltage or other variable factors in the circuit shall not be compensated for by adjustment of the relay.

§ 136.557 *Receiver, intermittent inductive; location with respect to rail.* Receiver of intermittent inductive automatic train stop device of the inert roadway element type shall be maintained with bottom of the receiver at a height above the plane of the tops of the rails, and with its outer edge at a horizontal distance from the gage side of the nearest rail, in accordance with specifications of the carrier on file with the Commission.

§ 136.558 *Contact shoe; location with respect to rail.* Contact face of shoe of automatic train stop and train control device shall be maintained at a height above the plane of the tops of the rails, and with center line of shoe at a horizontal distance from the gage side of the nearest rail, in accordance with specifications of the carrier on file with the Commission.

§ 136.559 *Receiver, intermittent magnetic; location with respect to rail.* Receiver of intermittent magnetic inductive automatic train stop device shall be maintained with lower surface of receiver at a height above the plane of the tops of the rails, in accordance with specifications of the carrier on file with the Commission.

§ 136.560 *Contact element, mechanical trip type; location with respect to rail.* Contact element of automatic train stop device of the mechanical trip type shall be maintained at a height above the plane of the tops of the rails, and at a horizontal distance from the gage side of the rail, in accordance with specifications of the carrier on file with the Commission.

§ 136.561 *Safety chain or safety hanger.* Safety chain or safety hanger provided for receiver of continuous inductive automatic train stop, train control or cab signal device shall clear receiver core one inch or more.

§ 136.562 *Minimum rail current required.* The minimum rail current required to restore the locomotive equipment of continuous inductive automatic train stop or train control device to normal condition or to obtain a proceed indication of automatic cab signal device (pick-up) shall be in accordance with specifications of the carrier on file with the Commission.

§ 136.563 *Delay time.* Delay time of automatic train stop or train control system shall not exceed 8 seconds and the spacing of signals to meet the requirements of § 136.24 shall take into consideration the delay time.

§ 136.564 *Acknowledging time.* Acknowledging time of intermittent automatic train stop device shall be not more than 20 seconds.

§ 136.565 *Provision made for preventing operation of pneumatic brake-applying apparatus by double-heading cock; requirement.* Where provision is made for preventing the operation of the pneumatic brake-applying apparatus of an automatic train stop or train control device when the double-heading cock is placed in double-heading position, the automatic train stop or train control device shall not be cut out before communication is closed between the engineman's automatic brake valve and the brake pipe, when operating double-heading cock toward double-heading position.

§ 136.566 *Locomotive of each train operating in train stop, train control or cab signal territory equipped.* The locomotive from which brakes are controlled, of each train operating in automatic train stop, train control, or cab signal territory shall be equipped with apparatus responsive to the roadway equipment installed on all or any part of the route traversed, and such apparatus shall be in operative condition.

NOTE: Relief from the requirements of this section will be granted upon an adequate showing by an individual carrier. Relief heretofore granted to any carrier by order of the Commission shall constitute relief to the same extent from the requirements of this part.

§ 136.567 *Restrictions imposed when device fails or cut out enroute.* Where an automatic train stop, train control, or cab signal device fails and/or is cut-out enroute, train may proceed at restricted speed or if an automatic block signal system is in operation according to signal indication but not to exceed medium speed, to the next available point of communication where report must be made to a designated officer. Where no automatic block signal system is in use train shall be permitted to proceed at restricted speed or where automatic block signal system is in operation according to signal indication but not to exceed medium speed to a point where absolute block can be established. Where an absolute block is established in advance of the train on which the device is inoperative train may proceed at not to exceed 79 miles per hour.

§ 136.568 *Difference between speeds authorized by roadway signal and cab signal action required.* If for any reason a cab signal authorizes a speed different from that authorized by a roadway signal, when a train enters the block governed by such roadway signal, the lower speed shall not be exceeded.

INSPECTION AND TESTS; ROADWAY

§ 136.576 *Roadway element.* Roadway elements, including those for test purposes, shall be gaged monthly for height and alinement, and shall be tested at least once every six months.

§ 136.577 *Test, acknowledgment and cut-in circuits.* Test, acknowledgment and cut-in circuits shall be tested at least once every six months.

INSPECTION AND TESTS; LOCOMOTIVE

§ 136.586 *Daily or after trip test.* The automatic train stop, train control, or cab signal apparatus on each locomotive operating in equipped territory shall be inspected and tested either once every 24 hours or within 24 hours before departure upon each trip, except that such inspection and tests of the automatic train stop, train control or cab signal equipment on Diesel-electric and electric locomotives shall not be required provided that periodic tests be made on such locomotives each 6,000 miles, or at intervals of not more than 2 months, whichever shall occur first.

NOTE: Relief from the requirements of this section will be granted upon an adequate showing by an individual carrier. Relief heretofore granted to any carrier by order of the Commission shall constitute relief to the same extent from the requirements of this part.

§ 136.587 *Departure test.* A test of the automatic train stop, train control, or cab signal apparatus on each locomotive, except locomotives and multiple unit cars equipped with mechanical trip stop, shall be made over track elements or test circuits on departure of locomotive from its initial terminal and, if locomotive apparatus is cut-out between initial terminal and equipped territory, immediately prior to entering equipped territory, to determine if such apparatus is in service and is functioning properly. If such departure test is made by an employeee other than engineman, the engineman shall be informed of the results of such test and a record kept thereof.

§ 136.588 *Periodic test.* Except as provided in § 136.586, periodic tests of the automatic train stop, train control or cab signal apparatus shall be made at least once every three months, and on multiple-unit cars as specified by the carrier, subject to approval by the Commission.

§ 136.589 *Relays.* At least once every 4 years each relay shall be removed from service, subjected to thorough test, necessary repairs and adjustment made, and shall not be replaced in service unless its operating characteristics are in accordance with the limits within which such relay is designated to operate.

§ 136.590 *Pneumatic apparatus.* Automatic train stop, train control, or cab signal pneumatic apparatus shall be inspected and cleaned at least once every six months.

SUBPART F—DRAGGING EQUIPMENT AND SLIDE DETECTORS AND OTHER SIMILAR PROTECTIVE DEVICES

§ 136.601 *Signal controlled by devices; location.* Signals controlled by devices used to provide protection against unusual contingencies, such as landslides, dragging equipment, burned bridges or trestles and washouts shall be located so that stopping distance will be provided between the signal and the point where it is necessary to stop the train.

§ 136.602 *Operation in conjunction with automatic block signal system.* Where these devices are in use in automatic block signal territory they shall be arranged to operate in conjunction with the automatic block signal system.

NOTE: Relief from the requirements of this section will be granted upon an adequate showing by an individual carrier. Relief heretofore granted to any carrier by order of the Commission shall constitute relief to the same extent from the requirements of this part.

DEFINITIONS

§ 136.700 *Definitions.* For the purpose of these rules, standards, and instructions, the following definitions will apply.

§ 136.701 *Application, brake; full service.* An application of the brakes resulting from a continuous or a split reduction in brake pipe pressure at a service rate until maximum brake cylinder pressure is developed. As applied to an automatic or electro-pneumatic brake with speed governor control, an application other than emergency which develops the maximum brake cylinder pressure, as determined by the design of the brake equipment for the speed at which the train is operating.

§ 136.702 *Arm, semaphore.* The part of a semaphore signal displaying an aspect. It consists of a blade fastened to a spectacle.

§ 136.703 *Aspect.* The appearance of a roadway signal conveying an indica-

tion as viewed from the direction of an approaching train; the appearance of a cab signal conveying an indication as viewed by an observer in the cab.

§ 136.704 *Aspect, phantom signal.* An aspect displayed by a light signal, different from the aspect intended, caused by light from an external source being reflected by the optical system of the signal.

§ 136.705 *Bar, locking.* A bar in an interlocking machine to which the locking dogs are attached.

§ 136.706 *Bed, locking.* That part of an interlocking machine that contains or holds the tappets, locking bars, cross-locking, dogs and other apparatus used to interlock the levers.

§ 136.707 *Blade, semaphore.* The extended part of a semaphore arm which shows the position of the arm.

§ 136.708 *Block.* A length of track of defined limits, the use of which by trains is governed by block signals, cab signals, or both.

§ 136.709 *Block, absolute.* A block in which no train is permitted to enter while it is occupied by another train.

§ 136.710 *Block, latch.* The lower extremity of a latch rod which engages with a square shoulder of the segment or quadrant to hold the lever in position.

§ 136.711 *Bond, rail joint.* A metallic connection attached to adjoining rails to insure electrical conductivity.

§ 136.712 *Brake pipe.* A pipe running from the engineman's brake valve through the train, used for the transmission of air under pressure to charge and actuate the automatic brake equipment and charge the reservoirs of the electro-pneumatic brake equipment on each vehicle of the train.

§ 136.713 *Bridge, movable.* That section of a structure bridging a navigable waterway so designed that it may be displaced to permit passage of traffic on the waterway.

§ 136.714 *Cab.* The compartment of a locomotive from which the propelling power and power brakes of the train are manually controlled.

§ 136.715 *Chain, safety.* A chain provided for the purpose of preventing the receiver of a continuous inductive automatic train stop, train control or cab signal device from falling should it become detached from its normal support.

§ 136.716 *Changer, pole.* A device by which the direction of current flow in an electrical circuit may be changed.

§ 136.717 *Characteristics, operating.* As applied to electrical apparatus, the measure of the electrical values at which the apparatus operates. (Drop-away, pick-up, working value, etc.)

§ 136.718 *Chart, dog.* A diagrammatic representation of the mechanical locking of an interlocking machine, used as a working plan in making up, assembling and fitting the locking.

§ 136.719 *Circuit, acknowledgment.* A circuit consisting of wire or other conducting material installed between the track rails at each signal in territory where an automatic train stop system or cab signal system of the continuous inductive type with 2-indication cab signals is in service, to enforce acknowledgment by the engineman at each signal displaying an aspect requiring a stop.

§ 136.720 *Circuit, common return.* A term applied where one wire is used for the return of more than one electric circuit.

§ 136.721 *Circuit, control.* An electrical circuit between a source of electric energy and a device which it operates.

§ 136.722 *Circuit, cut-in.* A roadway circuit at the entrance to automatic train stop, train control or cab signal territory by means of which locomotive equipment of the continuous inductive type is actuated so as to be in operative condition.

§ 136.723 *Circuit, double wire; line.* An electric circuit not employing a common return wire; a circuit formed by individual wires throughout.

§ 136.724 *Circuit, shunt fouling.* The track circuit in the fouling section of a turnout, connected in multiple with the track circuit in the main track.

§ 136.725 *Circuit, switch shunting.* A shunting circuit which is closed through contacts of a switch circuit controller.

§ 136.726 *Circuit, track.* An electrical circuit of which the rails of the track form a part.

§ 136.727 *Circuit, track; coded.* A track circuit in which the energy is varied or interrupted periodically.

§ 136.728 *Circuit, trap.* A term applied to a circuit used where it is desirable to provide a track circuit but where it is impracticable to maintain a track circuit.

§ 136.729 *Cock, double heading.* A manually operated valve by means of which the control of brake operation is transferred to the leading locomotive.

§ 136.730 *Coil, receiver.* Concentric layers of insulated wire wound around the core of a receiver of an automatic train stop, train control or cab signal device on a locomotive.

§ 136.731 *Controller, circuit.* A device for opening and closing electric circuits.

§ 136.732 *Controller, circuit; switch.* A device for opening and closing electric circuits, operated by a rod connected to a switch, derail or movable-point frog.

§ 136.733 *Current, foreign.* A term applied to stray electric currents which may affect a signaling system, but which are not a part of the system.

§ 136.734 *Current of traffic.* The movement of trains on a specified track in a designated direction.

§ 136.735 *Current, leakage.* A stray electric current of relatively small value which flows through or across the surface of insulation when a voltage is impressed across the insulation.

§ 136.736 *Cut-section.* A location other than a signal location where two adjoining track circuits end within a block.

§ 136.737 *Cut-section, relayed.* A cut-section where the energy for one track circuit is supplied through front contacts or through front and polar contacts of the track relay for the adjoining track circuit.

§ 136.738 *Detector, point.* A circuit controller which is part of the switch operating mechanism and operated by a rod connected to a switch, derail or movable point frog to indicate that the point is within a specified distance of the stock rail.

§ 136.739 *Device, acknowledging.* A manually operated electric switch or pneumatic valve by means of which, on a locomotive equipped with an automatic train stop or train control device, an automatic brake application can be forestalled, or by means of which, on a locomotive equipped with an automatic cab signal device, the sounding of the cab indicator can be silenced.

§ 136.740 *Device, reset.* A device whereby the brakes may be released after an automatic train control brake application.

§ 136.741 *Distance, stopping.* The maximum distance on any portion of any railroad which any train operating on such portion of railroad at its maximum authorized speed, will travel during a full service application of the brakes, between the point where such application is initiated and the point where the train comes to a stop.

§ 136.742 *Dog, locking.* A steel block attached to a locking bar or tappet of an interlocking machine, by means of which locking between levers is accomplished.

§ 136.743 *Dog, swing.* A locking dog mounted in such a manner that it is free to rotate on a trunnion which is riveted to a locking bar.

CROSS REFERENCE: Element, contact. See receiver.

§ 136.744 *Element, roadway.* That portion of the roadway apparatus of automatic train stop, train control or cab signal system, such as electric circuit, inductor, magnet, ramp or trip arm to which the locomotive apparatus of such system is directly responsive.

§ 136.745 *Face, locking.* The locking surface of a locking dog, tappet or cross locking of an interlocking machine.

§ 136.746 *Feature, restoring.* An arrangement on a power operated switch movement by means of which power is applied to restore the switch movement to full normal or to full reverse position, before the driving bar creeps sufficiently to unlock the switch, with control lever in normal or reverse position.

§ 136.747 *Forestall.* As applied to an automatic train stop or train control device, to prevent an automatic brake application by operation of an acknowledging device or by manual control of the speed of the train.

§ 136.748 *Hanger, safety.* A rigid member provided for the purpose of preventing the receiver of a continuous inductive automatic train stop, train control or cab signal device from falling should it become detached from its normal support.

§ 136.749 *Indication.* The information conveyed by the aspect of a signal.

CROSS REFERENCE: Inductor, see element, roadway.

§ 136.750 *Interlocking, automatic.* An arrangement of signals, with or without other signal appliances, which functions through the exercise of inherent powers as distinguished from those whose functions are controlled manually, and which are so interconnected by means of electric circuits that their movements must succeed each other in proper sequence, train movements over all routes being governed by signal indication.

§ 136.751 *Interlocking, manual.* An arrangement of signals and signal appliances operated from an interlocking machine and so interconnected by means of mechanical and/or electric locking that their movements must succeed each other in proper sequence, train movements over all routes being governed by signal indication.

§ 136.752 *Joint rail, insulated.* A joint in which electrical insulation is provided between adjoining rails.

§ 136.753 *Limits, interlocking.* The tracks between the opposing home signals of an interlocking.

§ 136.754 *Line, open wire.* An overhead wire line consisting of single conductors as opposed to multiple-conductor cables.

§ 136.755 *Link, rocker.* That portion of an interlocking machine which transmits motion between the latch and the universal link.

§ 136.756 *Lock, bolt.* A mechanical lock so arranged that if a switch, derail or movable-point frog is not in the proper position for a train movement, the signal governing that movement cannot display an aspect to proceed; and that will prevent a movement of the switch, derail or movable-point frog unless the signal displays its most restrictive aspect.

§ 136.757 *Lock, electric.* A device to prevent or restrict the movement of a lever, a switch or a movable bridge, unless the locking member is withdrawn by an electrical device, such as an electromagnet, solenoid or motor.

§ 136.758 *Lock, electric, forced drop.* An electric lock in which the locking member is mechanically forced down to the locked position.

§ 136.759 *Lock, facing point.* A mechanical lock for a switch derail or movable-point frog, comprising a plunger stand and a plunger which engages a lock rod attached to the switch point to lock the operated unit.

§ 136.760 *Locking, approach.* Electric locking effective while a train is approaching, within a specified distance, a signal displaying an aspect to proceed, and which prevents, until after the expiration of a predetermined time interval after such signal has been caused to display its most restrictive aspect, the movement of any interlocked or electrically locked switch, movable-point frog, or derail in the route governed by the signal, and which prevents an aspect to proceed from being displayed for any conflicting route.

§ 136.761 *Locking, electric.* The combination of one or more electric locks and controlling circuits by means of which levers of an interlocking machine, or switches or other units operated in connection with signaling and interlocking, are secured against operation under certain conditions.

§ 136.762 *Locking, indication.* Electric locking which prevents manipulation of levers that would result in an unsafe condition for a train movement if a signal, switch, or other operative unit fails to make a movement corresponding to that of its controlling lever, or which directly prevents the operation of a signal, switch, or other operative unit, in case another unit which should operate first fails to make the required movement.

§ 136.763 *Locking, latch operated.* The mechanical locking of an interlocking machine which is actuated by means of the lever latch.

§ 136.764 *Locking, lever operated.* The mechanical locking of an interlocking machine which is actuated by means of the lever.

§ 136.765 *Locking, mechanical.* An arrangement of locking bars, dogs, tappets, cross locking and other apparatus by means of which interlocking is effected between the levers of an interlocking machine and so interconnected that their movements must succeed each other in a predetermined order.

§ 136.766 *Locking, movable bridge.* The rail locks, bridge locks, bolt locks, circuit controllers, and electric locks used in providing interlocking protection at a movable bridge.

§ 136.767 *Locking, route.* Electric locking, effective when a train passes a signal displaying an aspect for it to proceed, which prevents the movement of any switch, movable-point frog, or derail in advance of the train within the route entered. It may be so arranged that as a train clears a track section of the route, the locking affecting that section is released.

§ 136.768 *Locking, time.* A method of locking, either mechanical or electrical, which, after a signal has been caused to display an aspect to proceed, prevents, until after the expiration of a predetermined time interval after such signal has been caused to display its most restrictive aspect, the operation of any interlocked or electrically locked switch, movable-point frog, or derail in the route governed by that signal, and which prevents an aspect to proceed from being displayed for any conflicting route.

§ 136.769 *Locking, traffic.* Electric locking which prevents the manipulation of levers or other devices for changing the direction of traffic on a section of track while that section is occupied or while a signal displays an aspect for a movement to proceed into that section.

§ 136.770 *Locomotive.* A self-propelled unit of equipment which can be used in train service.

§ 136.771 *Machine, control.* An assemblage of manually operated devices for controlling the functions of a traffic control system; it may include a track diagram with indication lights.

§ 136.772 *Machine, interlocking.* An assemblage of manually operated levers or other devices for the control of signals, switches or other units.

CROSS REFERENCE: See Magnet, track—See element, roadway.

§ 136.773 *Movements, conflicting.* Movements over conflicting routes.

§ 136.774 *Movement, facing.* The movement of a train over the points of a switch which face in a direction opposite to that in which the train is moving.

§ 136.775 *Movement, switch-on-lock.* A device, the complete operation of which performs the three functions of unlocking, operating and locking a switch, movable-point frog or derail.

§ 136.776 *Movement, trailing.* The movement of a train over the points of a switch which face in the direction in which the train is moving.

§ 136.777 *Operator, control.* An employee assigned to operate the control machine of a traffic control system.

§ 136.778 *Piece, driving.* A crank secured to a locking shaft by means of which horizontal movement is imparted to a longitudinal locking bar.

§ 136.779 *Plate, top.* A metal plate secured to a locking bracket to prevent the cross locking from being forced out of the bracket.

§ 136.780 *Plunger, facing point lock.* That part of a facing point lock which secures the lock rod to the plunger stand when the switch is locked.

§ 136.781 *Point, clearance.* The location on a turnout at which the carrier's specified clearance is provided between tracks.

§ 136.782 *Point, controlled.* A location where signals and/or other functions of a traffic control system are controlled from the control machine.

§ 136.783 *Point, stop-indication.* As applied to an automatic train stop or train control system without the use of roadway signals, a point where a signal displaying an aspect requiring a stop would be located.

§ 136.784 *Position, deenergized.* The position assumed by the moving member of an electromagnetic device when the device is deprived of its operating current.

§ 136.785 *Position, false restrictive.* A position of a semaphore arm that is more restrictive than it should be.

§ 136.786 *Principle, closed circuit.* The principle of circuit design where a normally energized electric circuit which, on being interrupted or deenergized, will cause the controlled function to assume its most restrictive condition.

§ 136.787 *Protection, cross.* An arrangement to prevent the improper operation of a signal, switch, movable-point frog, or derail as the result of a cross in electrical circuits.

CROSS REFERENCE: Ramp. See element, roadway.

§ 136.788 *Receiver.* A device on a locomotive, so placed that it is in position to be influenced inductively or actuated by an automatic train stop, train control or cab signal roadway element.

§ 136.789 *Relay, timing.* A relay which will not close its front contacts or open its back contacts, or both, until the expiration of a definite time interval after the relay has been energized.

§ 136.790 *Release, time.* A device used to prevent the operation of an operative unit until after the expiration of a predetermined time interval after the device has been actuated.

§ 136.791 *Release valve.* The electrical value at which the movable member of an electromagnetic device will move to its deenergized position.

§ 136.792 *Reservoir, equalizing.* An air reservoir connected with and adding volume to the top portion of the equalizing piston chamber of the automatic brake valve, to provide uniform service reductions in brake pipe pressure regardless of the length of the train.

CROSS REFERENCE: Rod, lock. See link, rocker.

§ 136.793 *Rod, lock.* A rod, attached to the front rod or lug of a switch, movable-point frog or derail, through which a locking plunger may extend when the switch points or derail are in the normal or reverse position.

§ 136.794 *Rod, up-and-down.* A rod used for connecting the semaphore arm to the operating mechanism of a signal.

§ 136.795 *Route.* The course or way which is, or is to be, traveled.

§ 136.796 *Routes, conflicting.* Two or more routes, opposing, coverging or intersecting, over which movements cannot be made simultaneously without possibility of collision.

§ 136.797 *Route, interlocked.* A route within interlocking limits.

§ 136.798 *Section, dead.* A section of track, either within a track circuit or between two track circuits, the rails of which are not part of a track circuit.

§ 136.799 *Section, fouling.* The section of track between the switch points and the clearance point in a turnout.

§ 136.800 *Sheet, locking.* A description in tabular form of the locking operations in an interlocking machine.

CROSS REFERENCE: Shoe—see receiver.

§ 136.801 *Shoe, latch.* The casting by means of which the latch rod and the latch block are held to a lever of a mechanical interlocking machine.

§ 136.802 *Shunt.* A by-path in an electrical circuit.

§ 136.803 *Signal, approach.* A roadway signal used to govern the approach to another signal and if operative so controlled that its indication furnishes advance information of the indication of the next signal.

§ 136.804 *Signal, block.* A roadway signal operated either automatically or manually at the entrance to a block.

§ 136.805 *Signal, cab.* A signal located in engineman's compartment or cab, indicating a condition affecting the movement of a train and used in conjunction with interlocking signals and in conjunction with or in lieu of block signals.

§ 136.806 *Signal, home.* A roadway signal at the entrance to a route or block to govern trains in entering and using that route or block.

§ 136.807 *Signal, interlocking.* A roadway signal which governs movements into or within interlocking limits.

§ 136.808 *Signals, opposing.* Roadway signals which govern movements in opposite directions on the same track.

§ 136.809 *Signal, slotted mechanical.* A mechanically operated signal with an electromagnetic device inserted in its operating connection to provide a means of controlling the signal electrically, as well as mechanically.

§ 136.810 *Spectacle, semaphore arm.* That part of a semaphore arm which holds the roundels and to which the blade is fastened.

§ 136.811 *Speed, medium.* A speed not exceeding 40 miles per hour.

§ 136.812 *Speed, restricted.* A speed that will permit stopping short of another train or obstruction, but not exceeding 20 miles per hour.

§ 136.813 *Speed, slow.* A speed not exceeding 20 miles per hour.

§ 136.814 *Station, control.* The place where the control machine of a traffic control system is located.

§ 136.815 *Stop.* As applied to mechanical locking, a device secured to a locking bar to limit its movement.

§ 136.816 *Superiority of trains.* The precedence conferred upon one train over other trains by train order or by reason of its class or the direction of its movement.

§ 136.817 *Switch, electro-pneumatic.* A switch operated by an electro-pneumatic switch-and-lock movement.

§ 136.818 *Switch, facing point.* A switch, the points of which face traffic approaching in the direction for which the track is signaled.

§ 136.819 *Switch, hand operated.* A non-interlocked switch which can only be operated manually.

§ 136.820 *Switch, interlocked.* A switch within the interlocking limits, the control of which is interlocked with other functions of the interlocking.

§ 136.821 *Switch, sectionalizing.* A switch for disconnecting a section of a power line from the source of energy.

§ 136.822 *Switch, spring.* A switch equipped with a spring device which forces the points to their original position after being trailed through and holds them under spring compression.

§ 136.823 *Switch, trailing point.* A switch, the points of which face away from traffic approaching in the direction for which the track is signaled.

§ 136.824 *System, automatic block signal.* A block signal system wherein the use of each block is governed by an automatic block signal, cab signal, or both.

§ 136.825 *System, automatic train control.* A system so arranged that its operation will automatically result in the following:

(a) A full service application of the brakes which will continue either until the train is brought to a stop, or, under control of the engineman, its speed is reduced to a predetermined rate.

(b) When operating under a speed restriction, an application of the brakes when the speed of the train exceeds the predetermined rate and which will continue until the speed is reduced to that rate.

§ 136.826 *System, automatic train stop.* A system so arranged that its operation will automatically result in the application of the brakes until the train has been brought to a stop.

§ 136.827 *System, block signal.* A method of governing the movement of trains into or within one or more blocks by block signals or cab signals.

§ 136.828 *System, traffic control.* A block signal system under which train movements are authorized by block signals whose indications supersede the superiority of trains for both opposing and following movements on the same track.

§ 136.829 *Terminal, initial.* The starting point of a locomotive for a trip.

§ 136.830 *Time, acknowledging.* As applied to an intermittent automatic train stop system, a predetermined time within which an automatic brake application may be forestalled by means of the acknowledging device.

§ 136.831 *Time, delay.* As applied to an automatic train stop or train control system the time which elapses after an automatic brake application is initiated until the brakes start to apply.

§ 136.832 *Train.* A locomotive or more than one locomotive coupled, with or without cars.

§ 136.833 *Train, opposing.* A train, the movement of which is in a direction opposite to and toward another train on the same track.

§ 136.834 *Trip.* A movement of a locomotive over all or any portion of automatic train stop, train control or cab signal territory between the terminals for that locomotive; a movement in one direction.

CROSS REFERENCE: Trip-arm—See element, roadway.

§ 136.835 *Trunking.* A casing used to protect electrical conductors.

§ 136.836 *Trunnion.* A cylindrical projection supporting a revolving part.

§ 136.837 *Valve, electro-pneumatic.* A valve electrically operated which, when operated, will permit or prevent passage of air.

§ 136.838 *Wire, shunt.* A wire forming part of a shunt circuit.

It is further ordered, That the Commission's order of April 13, 1939, prescribing rules, standards and instructions be, and it is hereby, vacated and set aside, effective October 1, 1950.

Notice of this order shall be given to the general public by depositing a copy hereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register.

By the Commission, Division 3.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

CALIFORNIA

CLASSIFICATION ORDER

JUNE 30, 1950.

1. Pursuant to the authority delegated to me by the Director, Bureau of Land Management, by Order No. 319 dated July 19, 1948 (43 CFR 50.451 (b) (3), 13 F. R. 4278), I hereby classify under the Small Tract Act of June 1, 1938 (52 Stat. 609), as amended July 14, 1945 (59 Stat. 467, 43 U. S. C. 682a), as hereinafter indicated, the following described land in the Los Angeles, California, land district, embracing approximately 80 acres,

CALIFORNIA SMALL TRACT CLASSIFICATION NO. 230

For lease and sale for homesites only:

T. 7 N., R. 9 W., S. B. M.,
Sec. 3, Tracts numbered 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18 (formerly Lot 2 of NW¼).

The land is situated about 21 miles easterly from the Town of Lancaster, California. It can be reached over improved roads leading from Lancaster, which town is on U. S. Highway 6 leading from Los Angeles, California.

The area is one that is typically desert and the climate is one that is considered beneficial for persons suffering from pulmonary ailments. Temperatures range from 10 degrees in the winter to over 100 degrees in the summer. Rainfall is very light.

Water for domestc use must be obtained from wells and can be found at depths ranging from 300 to 400 feet.

The town of Lancaster has all of the usual communal and trade facilities.

2. As to applications regularly filed prior to 8:30 a. m., March 22, 1946, and are for the type of site for which the land is classified, this order shall become effective upon the date it is signed.

3. As to the land not covered by applications referred to in paragraph 2, this order shall not become effective to permit leasing under the Small Tract Act until 10:00 a. m., September 1, 1950. At that time such land shall, subject to valid existing rights, become subject to application as follows:

(a) Ninety-day preference period for qualified veterans of World War II from 10:00 a. m., September 1, 1950, to close of business on November 30, 1950.

(b) Advance period for veterans' simultaneous filings from 8:30 a. m., March 22, 1946, to 10:00 a. m., September 1, 1950.

4. Any of the land remaining unappropriated shall become subject to application under the Small Tract Act by the public generally, commencing at 10:00 a. m., December 1, 1950.

(a) Advance period for simultaneous nonpreference filings from 8:30 a. m., March 22, 1946, to 10:00 a. m., December 1, 1950.

5. Applications filed within the periods mentioned in paragraphs 3 (b) and 4 (a) will be treated as simultaneously filed.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their application by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

6. All of the land will be leased in tracts of approximately 5 acres, each being approximately 330 by 660 feet, the longer dimension to extend east and west.

7. Preference right leases referred to in paragraph 2 will be issued for the land described in the application irrespective of the direction of the tract, provided the tract conforms to or is made to conform to the area and the dimension specified in paragraph 6.

8. Where only one 5-acre tract in a 10-acre subdivision is embraced in a preference right application, an application for the remaining 5-acre tract extending in the same direction will be accepted in order to fill out the subdivision notwithstanding the direction specified in paragraph 6.

9. Leases will be for a period of five years at an annual rental of $5.00 payable for the entire lease period in advance of the issuance of the lease. Leases will contain an option to purchase clause at the appraised value of $15.00 per tract, application for which may be filed at or after the expiration of one year from date the lease is issued.

10. Tracts will be subject to rights-of-way not exceeding 33 feet in width along or near the edges thereof for road purposes and public utilities. Such rights-of-way may be utilized by the Federal Government, or the State, county or municipality in which the tract is situated, or by any agency thereof. The rights-of-way may, in the discretion of the authorized officer of the Bureau of Land Management, be definitely located prior to the issuance of the patent. If not so located, they may be subject to location after patent is issued.

11. All inquiries relating to these lands should be addressed to the Manager, Land Office, Los Angeles, California.

L. T. HOFFMAN,
Regional Administrator.

CALIFORNIA SMALL TRACT CLASSIFICATION NO. 231

For lease and sale for homesites only:

T. 4 N., R. 15 W., S. B. M.,
Sec. 26, NW¼SW¼

The land is situated in northern Los Angeles County, about 40 miles from Los Angeles and about 6 miles east of the Town of Saugus, California. It can be reached over U. S. Highway 6 and thence by dirt road. It lies in the hill country on the edge of the Mojave Desert. Temperatures vary from 10 degrees in the

winter to over 100 degrees in the summer. The area is one that has been used extensively for homesite and recreational purposes.

In the Town of Saugus most of the usual trade facilities can be found. Public utilities are available in the area, and there is bus service to nearby schools.

The land is rough and traversed by dry ravines. There is no water supply available on the land, but domestic water can probably be secured from wells at depths ranging from 50 to 150 feet. The subdivision is desirable for homesite use, mainly because of its location and accessibility to the City of Los Angeles.

2. As to applications regularly filed prior to 8:30 a. m., March 22, 1946, and are for the type of site for which the land is classified, this order shall become effective upon the date it is signed.

WISCONSIN

NOTICE OF FILING OF PLAT OF SURVEY

JULY 14, 1950.

Notice is given that the plat of extension survey of the following described lands accepted November 16, 1948, which were erroneously omitted from the original survey of the township and not shown upon the plats approved February 8, 1866, will be officially filed in this Bureau effective at 10:00 a. m., on the 35th day after the date of this notice:

IRON COUNTY

FOURTH PRINCIPAL MERIDIAN

T. 43 N., R. 2 E.,
Sec. 36, lots 7, 8, 9.
T. 43 N., R. 3 E.,
Sec. 31, lot 9.

The area described aggregates 94.51 acres.

Available data indicates that the described lands are level to rolling in character with some area of swamp land. It is also indicated by available data that the lands are not shown to be swamp or overflowed within the meaning of the act of March 2, 1849 (9 Stat. 352).

The act of February 27, 1925 (43 Stat. 1013; 43 U. S. C. 994), authorizes the Secretary of the Interior in his judgment and discretion to sell any of those lands situated in the State of Wisconsin which were originally erroneously meandered and shown upon the official plat as water-covered areas and which are not lawfully appropriated by a qualified settler or entryman claiming under the public land laws; and affords a preference right to purchase to certain owners of adjoining lands and to citizens of the United States claiming under color of title or as riparian owners. Such right shall be governed in Wisconsin by the regulations contained in 43 CFR 141.21.

Subject to the preference right recited above, no applications for these lands may be allowed under the homestead, small tract or any other non-mineral public land laws unless the lands have already been classified as valuable or suitable for such type of application or shall be so classified upon the consideration of an application.

At the hour and date specified above the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, and also any preference right asserted under the acts of February 27, 1925 (43 Stat. 1013; 43 U. S. C. 994), become subject to application, petition, location, or selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this notice shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m., on the 35th day after the date of this notice shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m., on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m., on the 126th day after the date of this notice, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m., on the 126th day after the date of this notice, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Bureau of Land Management, Washington 25, D. C., shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Director, Bureau of Land Management, Washington 25, D. C.

WILLIAM ZIMMERMAN, JR.,
Acting Director.

SOUTHERN NATURAL GAS CO.

NOTICE OF APPLICATION

JULY 14, 1950.

Take notice that Southern Natural Gas Company (Applicant), a Delaware corporation, of Birmingham, Alabama, filed on July 3, 1950, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain transmission pipeline facilities hereinafter described.

Applicant proposes to construct approximately 3½ miles of 24-inch loop pipeline on Applicant's main line between the Tallapoosa River and the Bowden tap in Carroll County, Georgia, and to provide an additional 700 h. p. capacity at its Tarrant Compressor Station by installing two supercharged compressor units having a capacity of 1350 h. p. each, in lieu of the two conventional 1000 h. p. compressor units authorized at Docket No. G-1308, for the purpose of providing 7000 Mcf. per day additional delivery capacity in Applicant's present system to supply the increased requirements of Atlanta Gas Light Company.

The estimated cost of the proposed facilities is $287,840, which will be included in the over-all plan of financing outlined by Applicant at Docket No. G-1308.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 2d day of August 1950. The application

is on file with the Commission for public inspection.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2427]

NORTHERN STATES POWER CO. (MINN.) AND NORTHERN STATES POWER CO. (WIS.)

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 14th day of July A. D. 1950.

Northern States Power Company ("Minnesota Company"), a Minnesota corporation and registered holding company, and its wholly owned public-utility subsidiary Northern States Power Company ("Wisconsin Company"), a Wisconsin corporation, having filed a joint application and an amendment thereto pursuant to sections 6 (b), 9 and 10 of the Public Utility Holding Company Act of 1935 ("the act") and Rules U-23, U-24, and U-43 thereunder, with respect to the following transaction:

The Wisconsin Company proposes to issue and sell and the Minnesota Company proposes to purchase from time to time during the balance of the year 1950, at $100 per share, an aggregate of not to exceed 30,000 additional shares of Common Stock of the par value of $100 per share (aggregate par value of $3,000,000) of the Wisconsin Company.

The Wisconsin Company will add the proceeds from the sale of said stock to its general funds. With the addition of such proceeds it is expected that its general funds available during the year 1950 will provide the cash required by it (a) for its expenditures under its construction budget during the balance of the year 1950, and (b) to repay its bank loan in the principal amount of $500,000 which is due on December 2, 1950, and which was made in June 1950 to supply the then current needs of its construction program. The 1950 construction budget of the Wisconsin Company is estimated at $5,189,380.

The expenses of the Wisconsin Company in connection with said transaction are estimated at $7,500, including $1,000 legal fees. It is stated that the expenses of the Minnesota Company, including legal fees, will not exceed $1,000.

Such application, as amended, having been duly filed, and notice of its filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act, and the Commission not having received a request for hearing with respect thereto within the period specified in said notice or otherwise, and not having ordered a hearing thereon; and

It appearing to the Commission that the Public Service Commission of Wisconsin has issued an order authorizing the Wisconsin Company to issue and sell its securities as proposed; that the fees and expenses to be paid by the respective companies are not unreasonable; and that it is appropriate in the public interest and in the interests of investors and consumers to grant applicants' request for permission to consummate the proposed transaction without delay;

It is therefore ordered, Pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions prescribed by Rule U-24, that the application, as amended, be and the same hereby is granted, and that the proposed transaction may be consummated forthwith.

By the Commission.

Secretary.

UNITED GAS CORP. AND UNITED GAS PIPE LINE CO.

ORDER RELEASING JURISDICTION

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 13th day of July A. D. 1950.

The Commission by orders dated January 11, 1950 and January 25, 1950, having granted and permitted to become effective a joint application-declaration, as amended, filed by United Gas Corporation ("United"), a gas utility subsidiary of Electric Bond and Share Company, a registered holding company, and by United's wholly owned subsidiary, United Gas Pipe Line Company ("Pipe

Line"), regarding the issuance and sale by United of $25,000,000 principal amount of First Mortgage and Collateral Trust Bonds, 2¾ Percent Series, due 1970, pursuant to the competitive bidding requirements of Rule U-50, and with respect to certain other related transactions; and

Said order of January 25, 1950, having contained a reservation of jurisdiction over the proposed payment of counsel fees and expenses, and the fee of Ralph E. Davis, an independent engineer retained by United to develop a study of its gas reserves; and

The record having been completed with respect to said fees and expenses, and respective counsel, United, and the successful bidder having agreed upon the payment of fees in the following amounts:

Baker, Botts, Andrews & Parish (local counsel for the Company)	$17,500
Reid & Priest (New York counsel for the Company)	12,500
Milbank, Tweed, Hope & Hadley (counsel for the Underwriters)	13,500
Ralph E. Davis (independent engineer)	15,000

The Commission, on the basis of its examination of the record, finding that the payment of fees as set forth above is not unreasonable, and finding it appropriate to release jurisdiction over the payment of such fees:

It is ordered, That jurisdiction heretofore reserved over the payment of fees and expenses of counsel and of Ralph E. Davis in connection with the issuance and sale of said bonds by United be, and the same hereby is, released.

By the Commission.

FEDERAL REGISTER

VOLUME 15 NUMBER 140

Washington, Friday, July 21, 1950

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Production and Marketing Administration and Commodity Credit Corporation, Department of Agriculture

Subchapter C—Loans, Purchases, and Other Operations

[1950 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Barley]

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1950-CROP BARLEY LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program has been announced for 1950-crop barley. The 1950 C. C. C. Grain Price Support Bulletin 1, 15 F. R. 3147, issued by the Commodity Credit Corporation and containing the general requirements with respect to price support operations for grains and related commodities produced in 1950, is supplemented as follows:

Sec.
601.51 Purpose.
601.52 Availability of price support.
601.53 Eligible barley.
601.54 Warehouse receipts.
601.55 Determination of quantity.
601.56 Determination of quality.
601.57 Maturity of loans.
601.58 Support rates.

AUTHORITY: §§ 601.51 to 601.58 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup., 714b. Interpret or apply sec. 5, 62 Stat. 1072, Titles III, IV, Pub. Law 439, 81st Cong.; 15 U. S. C. Sup., 714c.

§ 601.51 *Purpose.* This supplement states additional specific requirements which, together with the general requirements contain in the 1950 C. C. C. Grain Price Support Bulletin 1, 15 F. R. 3147, apply to loans and purchase agreements under the 1950-Crop Barley Price Support Program.

§ 601.52 *Availability of price support*—(a) *Method of support.* Price support will be available by means of nonrecourse farm-storage and warehouse-storage loans and through purchase agreements.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available wherever barley is grown in the continental United States, except that farm-storage loans will not be available in areas where the PMA State committee determines that barley cannot be safely stored on the farm.

(c) *Where to apply.* Application for price support should be made at the office of the PMA county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available from the time of harvest through January 31, 1951, and the applicable documents must be signed by the producer and delivered to the county committee not later than such date.

(e) *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, or other legal entity producing barley in 1950, as landowner, landlord, tenant, or sharecropper.

§ 601.53 *Eligible barley.* At the time the barley is placed under loan or delivered under a purchase agreement, the barley must meet the following requirements:

(a) The barley must have been produced in the continental United States in 1950 by an eligible producer.

(b) The beneficial interest in the barley must be in the person tendering the barley for loan or for delivery under a purchase agreement and must always have been in him, or must have been in him and a former producer whom he succeeded before the barley was harvested.

(c) The barley must be of any class grading No. 5 or better (or No. 5 Garlicky, or better), except Class III Western Barley, having a test weight of less than 40 pounds per bushel.

(d) The barley must not grade Weevily, Tough, Stained, Blighted, Bleached, Ergoty, or Smutty.

(e) If offered as security for a farm-storage loan, the barley must have been stored in the granary at least 30 days prior to its inspection for measurement, sampling, and sealing, unless otherwise approved by the PMA State committee.

§ 601.54 *Warehouse receipts.* Warehouse receipts representing barley in approved warehouse-storage to be placed under loan or delivered under a purchase agreement, must meet the following requirements:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be issued by an approved warehouse.

(b) Each warehouse receipt must set forth in its written terms that the barley is insured for not less than market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone and tornado, or in lieu of this statement, it must have stamped or printed thereon the word "Insured."

(c) Each warehouse receipt, or the warehouseman's supplemental certificate (in duplicate), properly identified with the warehouse receipt, must show the gross weight, grade, class, dockage, test weight and all grading factors determined in accordance with the Official Grain Standards of the United States for Barley, and must show whether the barley arrived by rail, truck or barge. In the case of warehouse receipts issued for barley delivered by rail or barge, the grading factors on the warehouse receipt must agree with the inbound weight and inspection certificates for the car or barge as shown on the freight certificate.

(d) If the warehouse receipt states that the barley is stored "identity preserved," the producer must execute the supplemental certificate and assume responsibility for the quantity and quality indicated thereon.

(e) A separate warehouse receipt must be submitted for each grade and class of barley.

(f) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 601.58 (d).

§ 601.55 *Determination of quantity.* The quantity of barley placed under farm-storage loan may be determined either by weight or by measurement. The quantity of barley placed under a warehouse-storage loan or delivered under a farm-storage loan or under a purchase agreement shall be determined by weight.

When the quantity is determined by weight, a bushel shall be 48 pounds of clean barley free of dockage. In determining the quantity of sacked barley by weight, a deduction of ¾ of a pound for each sack will be made.

When the quantity of barley is determined by measurement, a bushel shall be 1.25 cubic feet of barley testing 48 pounds per bushel and fractional pounds of test weight per bushel will be disregarded. The quantity determined will be the following percentages of the quantity determined for 48-pound barley:

For barley testing	*Percent*
48 pounds or over	100
47 pounds or over, but less than 48 pounds	98
46 pounds or over, but less than 47 pounds	96
45 pounds or over, but less than 46 pounds	94
44 pounds or over, but less than 45 pounds	92
43 pounds or over, but less than 44 pounds	90
42 pounds or over, but less than 43 pounds	88
41 pounds or over, but less than 42 pounds	85
40 pounds or over, but less than 41 pounds	83
39 pounds or over, but less than 40 pounds	81
38 pounds or over, but less than 39 pounds	79
37 pounds or over, but less than 38 pounds	77
36 pounds or over, but less than 37 pounds	75
35 pounds or over, but less than 36 pounds	73

The percentage of dockage shall be determined and the weight of such dockage shall be deducted from the gross weight of the barley in determining the net quantity available for loan or purchase.

§ 601.56 *Determination of quality.* The grade, class, grading factors, and all other quality factors shall be determined in accordance with the methods set forth in the Official Grain Standards of the United States for Barley, whether or not such determinations are made on the basis of an official inspection.

§ 601.57 *Maturity of loans.* Loans mature on demand but not later than April 30, 1951.

§ 601.58 *Support rates.* Loans will be made, and barley delivered under purchase agreements will be purchased, at the support rates set forth in this section.

(a) *Support rates at designated terminal markets.* Support rates per bushel for No. 1 barley, of the Classes I, II, and III, stored in approved warehouses at the terminal markets listed below shall be as follows:

Terminal market:	*Rate per bushel for No. 1*
Astoria, Oreg	$1.39
Baltimore, Md	1.47
Chicago, Ill	1.36
Duluth, Minn	1.32
Kansas City, Mo	1.32
Longview, Wash	1.39
Los Angeles, Calif	1.39
Memphis, Tenn	1.42
Milwaukee, Wis	1.36
Minneapolis, Minn	1.32
Omaha, Nebr	1.32
Philadelphia, Pa	1.47
Portland, Oreg	1.39
San Francisco, Calif	1.39
Seattle, Wash	1.39
Sioux City, Iowa	1.32
St. Louis, Mo	1.36
Stockton, Calif	1.39
Superior, Wis	1.32
Tacoma, Wash	1.39
Vancouver, Wash	1.39
Galveston, Tex	1.39

For loan or purchase at the support rates shown in the above schedule, the barley must have been shipped on a domestic interstate freight rate basis. On any barley shipped at other than the domestic interstate freight rate, the support rate at the designated terminal market will be reduced by the difference between the freight paid (plus tax) and the domestic interstate freight rate (plus tax).

The foregoing schedule of support rates applies to barley which has been shipped by rail or water from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for transit privileges: *Provided*, That in the event the amount of paid-in freight is insufficient to guarantee the minimum proportional domestic interstate freight rate from the terminal market, there shall be deducted from the applicable terminal support rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee outbound movement at the minimum proportional domestic interstate freight rate. The warehouse receipt must be accompanied by registered freight bills, or by (1) a statement as indicated below signed by the warehouseman, (2) a certificate of the warehouseman containing such information, or, (3) such form of certification as may be approved by CCC.

When shipped by rail or water and stored at any designated terminal market, barley for which neither registered freight bills nor such freight certificates are presented to guarantee outbound movement at the minimum proportional domestic interstate freight rate, shall have a support rate equal to the terminal rate minus 7 cents per bushel.

When received by truck and stored at any designated terminal market, the support rate shall be the terminal rate minus 10½ cents.

(b) *Support rates for barley in approved warehouse-storage at other than designated terminal markets.* The support rate for barley stored in approved warehouses (other than those situated in the designated terminal markets) which is shipped by rail or water, will be determined by deducting from the appropriate designated terminal market rate an amount equal to the transit balance, if any (plus tax) of the through-freight rate from point of origin for such barley to such terminal market: *Provided*, That in the case of barley stored at any railroad transit point, taking a penalty by reason of out-of-line movement, or for any other reason, to the appropriate designated market, there shall be added to such transit balance an amount equal to any out-of-line costs or other costs incurred in storing barley in such position.

The warehouse receipts, in addition to other required documents, must be accompanied by the original paid freight bills duly registered for transit privileges, or by a statement in the following form signed by the warehouseman, or by a warehouseman's supplemental certificate containing such information:

(d) *Warehouse charges.* The warehouse receipt and the barley represented thereby may be subject to liens for warehouse charges only from May 15, 1950, or the date the warehouse charges begin, whichever is later.

In the case of barley placed under loan or delivered to CCC under a purchase agreement in an approved warehouse under the Uniform Grain Storage Agreement, evidence must be submitted with the warehouse receipt that all warehouse charges, except receiving charges, have been prepaid through April 30, 1951, or a deduction of 10 cents per bushel will be made from the support rate: *Provided*, That CCC will not assume any charges in excess of those provided under the Uniform Grain Storage Agreement applicable to the 1950 crop.

In the case of barley placed under loan or delivered to CCC under a purchase agreement in an approved warehouse operated by an Eastern common carrier or any other approved warehouse not under the Uniform Grain Storage Agreement, evidence must be submitted with the warehouse receipt that all warehouse charges, except receiving and loading-out charges, have been prepaid through April 30, 1951, or all such charges will be deducted from the support rate: *Provided*, That CCC will assume the receiving and loading-out charges or reimburse the producer if he has prepaid such charges.

(e) *Discounts.* The discount for barley which grades No. 2 shall be 2 cents per bushel; No. 3, 5 cents per bushel; No. 4, 8 cents per bushel; and No. 5, 15 cents per bushel. An additional discount of 25 cents per bushel shall be applied to barley grading "Garlicky." The support rates for "mixed barley" (Class IV) shall be 2 cents per bushel less than the support rates for barley of the Classes I, II, and III.

(f) *Track-loading payment.* A track-loading payment of 2 cents per bushel will be made to the producer on barley delivered to CCC on track at a country point.

(g) *Settlement*—(1) *Loans.* Settlement on barley delivered to CCC under farm-storage loans will be made at the support rate for the approved point of delivery. In the case of farm-storage loans, and warehouse-storage loans where the barley is stored "identity preserved," the support rate will be for the grade and quality of the total quantity of barley delivered.

If the barley is, upon delivery, of a grade and/or quality for which no support rate has been established, the settlement value shall be the support rate established for the grade and/or quality of the barley placed under loan, less the difference, if any, at the time of delivery, between the market price for the grade and/or quality placed under loan and the market price of the barley delivered, as determined by CCC.

(2) *Purchase agreements.* Barley delivered to CCC under a purchase agreement must meet the requirements of barley eligible for loan. The purchase rate per bushel of eligible barley will be the applicable support rate established for the approved point of delivery.

Issued this 17th day of July 1950.

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 29—TOBACCO INSPECTION

SUBPART D—ORDERS OF DESIGNATION OF TOBACCO MARKETS

ATHENS AND SWEETWATER, TENN., AND PENNINGTON GAP, VA.

Upon referenda conducted, pursuant to prior notice (15 F. R. 3985), during the period June 29, 1950–July 1, 1950, both dates inclusive, among tobacco growers, who during the 1949–50 marketing season, sold tobacco at auction on the market at Athens, Tennessee, on the market at Sweetwater, Tennessee, and on the market at Pennington Gap, Virginia, respectively, it is found that more than two-thirds of the growers voting in each such referendum favor the designation of each such market under section 5 of The Tobacco Inspection Act (7 U. S. C. 511 et seq.) for the free and mandatory inspection and certification of tobacco sold on each such market. Therefore, pursuant to the authority vested in the Secretary of Agriculture, and for the purpose of said act, the orders of designation of tobacco markets (7 CFR 29.601; 14 F. R. 4514; 14 F. R. 5364; 14 F. R. 6193; 15 F. R. 3979; and 15 F. R. 4071) are amended by adding thereto at the end thereof the following paragraph (ll):

§ 29.601 *Designation of tobacco markets.* * * *

(ll) *The tobacco markets at Athens and Sweetwater, Tennessee, and Pennington Gap, Virginia.* Effective 30 days after July 21, 1950, no tobacco of any type shall be offered for sale at auction on the market at Athens, Tennessee, on the market at Sweetwater, Tennessee, and on the market at Pennington Gap, Virginia, until such tobacco shall have been inspected and certified by an authorized representative of the U. S. Department of Agriculture according to standards established under The Tobacco Inspection Act (7 U. S. C. 511 et seq.): *Provided, however,* That such requirement of inspection and certification may be suspended at any time when it is found impracticable to provide inspection or when the quantity of tobacco available for inspection is not sufficient to justify the cost of such service.

Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

Subchapter B—Sugar Requirements and Quotas

[Sugar Reg. 813, Amdt. 2]

PART 813—SUGAR QUOTAS AND PRORATIONS OF QUOTA DEFICITS

DETERMINATION AND PRORATION OF 1950 QUOTAS

Basis and purpose. The amendments herein are issued pursuant to section 202 of the Sugar Act of 1948 and are made for the purpose of giving effect to the revision of the determination of sugar consumption requirements made by the Secretary of Agriculture on July 13, 1950.

After providing for quotas in specific amounts for domestic sugar producing areas and the Republic of the Philippines, section 202 of the act provides that the difference between the sum of such quotas and the consumption estimate shall be prorated to foreign countries other than the Republic of the Philippines on the basis of stated percentages. Thus the statute states specifically how quotas are to be revised when there is a change in the estimate of consumption requirements. Furthermore, in order to afford sellers of sugar in affected areas an adequate opportunity to market the additional sugar authorized by this amendment, and thereby protect the interests of consumers, it is essential that this amendment be made effective immediately. Therefore, it is hereby determined and found that compliance with the notice, procedure and effective date requirements of the Administrative Procedure Act is impracticable, unnecessary, and contrary to the public interest. The amendments made herein shall become effective upon publication in the FEDERAL REGISTER.

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948 (61 Stat. 922, 7 U. S. C. Supp. I, 1100) and the Administration Procedure Act (60 Stat. 237, 5 U. S. C. 1001) Sugar Regulation 813 (14 F. R. 7753), as amended (15 F. R. 3861), establishing sugar quotas for 1950 are hereby amended as hereinafter set forth.

1. Section 813.12 is changed to read:

§ 813.12 *Basic quotas for other areas.* There are hereby established, pursuant to subsections (b) and (c) of section 202 of the act, for foreign countries for the calendar year 1950 the following quotas:

Area:	*Quotas in terms of short tons, raw value*
Republic of the Philippines	982,000
Cuba	2,564,640
Other foreign countries	35,360

2. Paragraph (a) of § 813.14 is changed to read:

§ 813.14 *Proration of quota for foreign countries other than Cuba and the Republic of the Philippines*—(a) *Basic prorations.* The quota for foreign countries other than Cuba and the Republic of the Philippines is hereby prorated, pursuant to subsection (c) of section 202 of the act, among such countries as follows:

Country:	*Proration in pounds, raw value*
Belgium	417,874
Canada	801,088
China and Hongkong	409,079
Czechoslovakia	373,850
Dominican Republic	9,468,254
Dutch East Indies	300,134
Guatemala	475,511
Haiti	1,308,555
Honduras	4,873,738

Peru	15,780,377
Salvador	11,654,915
United Kingdom	497,895
Venezuela	411,760
Other countries	60,949
Subtotal	70,220,000
Unallotted reserve	500,000
Total	70,720,000

STATEMENT OF BASES AND CONSIDERATIONS

Revised quotas due to increase in consumption requirements. The revised quotas for Cuba and "Other Foreign Countries" have been established by prorating the amount by which the revised estimate of consumption exceeds the quotas for domestic areas and the Republic of the Philippines on the basis of 98.64 per centum to Cuba and 1.36 per centum to "Other Foreign Countries" as provided in section 202 (c) of the act. In addition, the revised quota for "Other Foreign Countries", after setting aside 500,000 pounds for an unallotted reserve, has been prorated on the basis of the division of the quota made in General Sugar Quota Regulations, Series 4, No. 1, issued December 12, 1936, as provided in section 202 (c).

After giving effect to the changes set forth in this amendment to Sugar Regulation 813, the quotas for all areas are as follows:

BASIC QUOTAS, PRORATIONS OF DEFICIT AND ADJUSTED QUOTAS FOR 1950

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Plum Order 20]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.390 *Plum Order 20*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936; 14 F. R. 2684), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than July 22, 1950. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until July 17, 1950, recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on July 17, 1950, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are already being made, and this section should be applicable to all such shipments in order

to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., July 22, 1950, and ending at 12:01 a. m., P. s. t., November 1, 1950, no shipper shall ship any package or container of Giant plums unless:

(i) Such plums grade at least U. S. No. 1; and

(ii) Such plums are of a size not smaller than a size that will pack a 5 x 5 standard pack in a standard basket. The aforesaid 5 x 5 standard pack is defined more specifically in subparagraph (2) of this paragraph.

(2) As used in this section, the aforesaid 5 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{7}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{5}/_{16}$ inches in diameter.

(3) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting, or causing to be submitted, promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection; but such shipper shall comply with all grade and size regulations applicable to such shipment.

(4) Terms used in this section shall have the same meaning as when used in the amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

[Plum Order 21]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.391 *Plum Order 21*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936; 14 F. R. 2684), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than July 22, 1950. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until July 17, 1950, recommendation as to the need for, and the extent of, regulation of shipments of such plums was made at the meeting of said committee on July 17, 1950, after consideration of all available information relative to the supply and demand conditions for such plums, at which time the recommendation and supporting information was submitted to the Department; shipments of the current crop of such plums are already being made and this section should be applicable to all such shipments of such plums in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., July 22, 1950, and ending at 12:01 a. m., P. s. t., November 1, 1950, no shipper shall ship from any shipping point during any day any package or container of President plums unless:

(i) Such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and

(ii) The plums are, except to the extent otherwise specified in this paragraph, of a size not smaller than a size that will pack a 4 x 5 standard pack in a standard basket.

(2) During each day of the aforesaid period, however, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, but are not of a size smaller than a size that will pack a 5 x 5 standard pack in a standard basket if said quantity does not exceed twenty-five (25) percent of the number of the same type of packages or containers of plums which are of a size not smaller than a size that will pack a 4 x 5 standard pack, as aforesaid: *Provided*, That, in computing such quantity, three (3) California peach boxes (including other packages and containers of comparable capacity) shall be deemed to be the equivalent of two (2) standard 4-basket crates. The aforesaid 4 x 5 standard pack and 5 x 5 standard pack are defined more specifically in subparagraphs (4) and (5), respectively, of this paragraph.

(3) If any shipper, during any two (2) consecutive days of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, the aggregate amount of the undershipment of such plums may be shipped by such shipper only from such shipping point during the next succeeding calendar day in addition to the quantity of such plums of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, that such shipper could have shipped from such shipping point on such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(4) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{11}/_{16}$ inches in diameter; (ii) at least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; and (iii) no plums contained in such pack measure less than $1^{7}/_{16}$ inches in diameter.

(5) As used in this section, the aforesaid 5 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the plums contained in such pack measure not less than $1^{9}/_{16}$ inches in diameter; (ii) at

least ninety-five (95) percent, by count, of the plums contained in such pack measure not less than 1 7/16 inches in diameter; and (iii) no plums contained in such pack measure less than 1 5/16 inches in diameter.

(6) During the period set forth in subparagraph (1) of this paragraph, each shipper shall, prior to making each such shipment of plums, have the plums inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved: *Provided*, That, in case the following conditions exist in connection with any such shipment:

(i) A written request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The shipper designates in such request the date and hours when the fruit will be available for inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting or causing to be submitted promptly such signed statement to the Plum Commodity Committee, may make the particular shipment without inspection, but such shipper shall comply with all grade and size regulations applicable to such shipment.

(7) Terms used in the amended marketing agreement and order shall, when used in this section, have the same meanings as when used in said amended marketing agreement and order; the terms "U. S. No. 1," "standard pack," "serious damage," and "diameter" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (fresh), 7 CFR 51.360; and the term "standard basket" shall have the same meaning as set forth in paragraph numbered 1 of section 828.1 of the Agricultural Code of California.

PART 992—HANDLING OF IRISH POTATOES GROWN IN WASHINGTON

LIMITATION OF SHIPMENTS

§ 992.304 *Limitation of shipments*—(a) *Findings.* (1) Pursuant to the provisions of Marketing Agreement No. 113 and Order No. 92 (7 CFR Part 992.1 et seq.) regulating the handling of Irish potatoes grown in the State of Washington, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051), and upon the basis of the recommendation and information submitted by the State of Washington Potato Committee, established under said marketing agreement and order, and other available information, it is hereby found that the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) shipments of potatoes grown in the production area will be underway in substantial volume on the effective date of this section, (ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth in this section, on and after the effective date set forth in paragraph (b) (1) of this section, (iii) no special preparation will be required on the part of handlers to comply with this section, and (iv) the time intervening between the date information necessary for the issuance of this section became available and the time this section must become effective to effectuate the declared policy of the act is insufficient.

(b) Order. (1) During the period July 20, 1950, to October 15, 1950, inclusive, no handler shall ship potatoes grown in the State of Washington which do not comply with the grade and size regulation effective July 10, 1950 (§ 992.303, 15 F. R. 4337), and no handler shall ship a lot of potatoes if more than 20 percent of the potatoes in such lot have more than one-half of the skin missing or feathered, as such terms are defined in the United States Standards for Potatoes (14 F. R. 1955, 2161): *Provided*, That one lot of not to exceed 360 hundredweight of each variety of potatoes of each producer may be handled without regard to the aforesaid skinning requirement if the handler thereof reports, prior to such handling, the name and address of the producer of each such lot, and each lot is handled as an identifiable entity.

(2) The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 113 and Order No. 92 (7 CFR 992.1 et seq.)

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 4922]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

P. LORILLARD COMPANY

Subpart—*Advertising falsely or misleadingly:* § 3.20 *Comparative data or merits;* § 3.30 *Composition of goods;* § 3.130 *Manufacture or preparation;* § 3.170 *Qualities or properties of product or service;* § 3.205 *Scientific or other relevant facts.* In or in connection with the offering for sale, sale and distribution in commerce of respondent's Beech-Nut cigarettes, Sensation cigarettes, Old Gold cigarettes, and Friends smoking tobacco, representing by any means, directly or indirectly, (1) that Beech-Nut cigarettes, or any other cigarette composed of substantially the same blend of tobaccos, or the smoke therefrom, will not harm or irritate the throat, or will provide any defense against throat irritation; or that the extra length of Beech-Nut cigarettes, or of any other cigarette of substantially the same length, will filter out or eliminate the harmful properties in the smoke from such cigarettes or will cause the smoke from such cigarettes to be cooler than the smoke from cigarettes of standard length; (2) that Sensation cigarettes, or any other cigarette composed of substantially the same blend of tobaccos, are made of extra-choice imported and domestic tobaccos, or are top quality cigarettes, or are made from the finest tobaccos that can be bought; (3) that Old Gold cigarettes or the smoke therefrom contains less nicotine, or less tars and resins, or is less irritating to the throat than the cigarettes or the smoke therefrom of any of the six other leading brands of cigarettes; or (4) that Friends smoking tobacco, or any other smoking tobacco manufactured in substantially the same manner, is rum-cured, or that the process by which a rum flavoring is added to such tobacco enriches the tobacco or causes the smoke therefrom to be any less irritating to the throat or any cooler than if such rum flavoring were not added; or that the smoke from Friends smoking tobacco, or from any other smoking tobacco composed of substantially the same blend of tobaccos, will not irritate the mouth or throat of a smoker, or is cool, or is free from bite, burn, or harshness; prohibited, subject to the provision, however, that nothing in said first prohibition shall be construed to prohibit the respondent from representing that during the time the extra length of any such cigarette is being smoked the smoke therefrom will contain less irritating properties and will be cooler than the smoke from standard length cigarettes.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Modified cease and desist order, P. Lorillard Company, Docket 4922, May 24, 1950]

In the Matter of P. Lorillard Company, a Corporation

This proceeding was heard by the Federal Trade Commission upon the complaint, answer of the respondents, testimony and other evidence taken before trial examiners of the Commission theretofore duly designated by it, recommended decision of the trial examiner and exceptions filed thereto by counsel supporting the complaint, and brief of counsel supporting the complaint (no brief having been filed by counsel for respondent and oral argument not having been requested), and the Commission, having considered the matter, made and issued its findings as to the facts, conclusion, and order to cease and desist on March 31, 1950.

Thereafter the Commission, acting upon its own motion, reconsidered the matter and on May 12, 1950, issued its rule to show cause why said order to cease and desist should not be modified to read as set forth therein. In response to said rule to show cause, counsel supporting the complaint filed a statement acquiescing in the proposed modification and respondent, by its counsel, filed a statement containing additional proposals for modifying said order to cease and desist; and the Commission having considered such additional proposals and having rejected same for the reason that an order to cease and desist embodying such proposals would not adequately protect the public against a continuation or resumption of the practices found to be unfair and deceptive, and being of the opinion that the order to cease and desist heretofore issued in this proceeding should be modified in the respects set forth in said rule to show cause:

Now, therefore, it is ordered, That said order to cease and desist be, and the same hereby is, modified to read as follows:

It is ordered, That the respondent, P. Lorillard Company, a corporation, and its officers, representatives, agents, and employees, directly or through any corporate or other device, in or in connection with the offering for sale, sale, and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of its products Beech-Nut cigarettes, Sensation cigarettes, Old Gold cigarettes, and Friends smoking tobacco, do forthwith cease and desist from representing by any means, directly or indirectly:

(1) That Beech-Nut cigarettes, or any other cigarette composed of substantially the same blend of tobaccos, or the smoke therefrom, will not harm or irritate the throat, or will provide any defense against throat irritation; or that the extra length of Beech-Nut cigarettes, or of any other cigarette of substantially the same length, will filter out or eliminate the harmful properties in the smoke from such cigarettes or will cause the smoke from such cigarettes to be cooler than the smoke from cigarettes of standard length: *Provided, however*, That nothing herein shall be construed to prohibit the respondent from representing that during the time the extra length of any such cigarette is being smoked the smoke therefrom will contain less irritating properties and will be cooler than the smoke from standard length cigarettes;

(2) That Sensation cigarettes, or any other cigarette composed of substantially the same blend of tobaccos, are made of extra-choice imported and domestic tobaccos, or are top quality cigarettes, or are made from the finest tobacco that can be bought;

(3) That Old Gold cigarettes or the smoke therefrom contains less nicotine, or less tars and resins, or is less irritating to the throat than the cigarettes or the smoke therefrom of any of the six other leading brands of cigarettes; or

(4) That Friends smoking tobacco, or any other smoking tobacco manufactured in substantially the same manner, is rum-cured, or that the process by which a rum flavoring is added to such tobacco enriches the tobacco or causes the smoke therefrom to be any less irritating to the throat or any cooler than if such rum flavoring were not added; or that the smoke from Friends smoking tobacco, or from any other smoking tobacco composed of substantially the same blend of tobaccos, will not irritate the mouth or throat of a smoker, or is cool, or is free from bite, burn, or harshness.

It is further ordered, That respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

Issued: May 24, 1950.

By the Commission.

Secretary.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter I—Home Loan Bank Board, Housing and Home Finance Agency

Subchapter D—Insurance of Accounts

[No. 3375]

PART 163—OPERATIONS

REDUCTION IN INSURANCE PREMIUM

JULY 18, 1950.

Resolved that, effective July 21, 1950, § 163.15 of the rules and regulations for Insurance of Accounts is hereby amended to read as follows:

§ 163.15 *Premiums and their uses; amount; payment.* Each institution whose application for insurance is approved by the Corporation shall pay to the Corporation a premium charge for such insurance at the rate fixed by statute, determined from the latest report of the insured institution filed with the Corporation. One-half of the first annual premium shall be paid at the time the certificate of insurance is issued by the Corporation. The balance of the first annual premium shall be paid six months later. Thereafter, each annual premium charge shall be paid in two equal installments, the first at the beginning of each insurance year and the second six months later, until a reserve fund has been established by the Corporation equal to five percent of all insured accounts and creditor obligations of all insured institutions. Such annual premiums shall be determined from the latest report of the insured institution filed with the Corporation or, if the institution has failed to file such report within sixty days prior to any date upon which its annual premium becomes due, from the latest report of the institution made or published pursuant to the requirements of law or regulations.

Resolved further that, this amendment being required by reason of a reduction in insurance premium already granted by act of Congress approved June 27, 1950 (Pub. Law No. 576, 81st Cong.), the Home Loan Bank Board hereby finds that it may be adopted under the provisions of § 108.11 of the general regulations of the Home Loan Bank Board and that deferment of the effective date would be meaningless.

(Sec. 402, 48 Stat. 1256, as amended, Reorg. Plan No. 3 of 1947, 12 F. R. 4981, 61 Stat. 954; 12 U. S. C. 1725, 5 U. S. C. Sup., 133y-16. Interprets or applies sec. 404, 48 Stat. 1258, 49 Stat. 859, as amended; 12 U. S. C. and Sup., 1727)

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 697—BUTTON, BUCKLE, AND JEWELRY INDUSTRY IN PUERTO RICO

MINIMUM WAGE ORDER

Pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C., Supp., 1001), notice was published in the FEDERAL REGISTER on June 22, 1950 (15 F. R. 4030) of my decision to approve the minimum wage recommendations of Special Industry Committee No. 6 for Puerto Rico for the Button, Buckle, and Jewelry Industry in Puerto Rico, and the wage order which I proposed to issue to carry such recommendations into effect was published therewith. Interested parties were given an opportunity to submit exceptions within 15 days of the date of publication of the notice.

An exception was filed by the National Association of Button Manufacturers, New York, New York. All the arguments presented in the exception were before me at the time I made the decision to approve the recommendations of the industry committee. These arguments were carefully considered and analyzed in my decision which was set forth in my findings and opinion dated June 15, 1950. The exception, therefore, raised no new matters which would require any change or modification of my previous decision.

Accordingly, pursuant to authority under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended; 29 U. S. C. 201), the said decision is

hereby affirmed and made final, and the said wage order is hereby issued, to become effective August 21, 1950.

Sec.
697.1 Approval of recommendations of Industry Committee.
697.2 Wage rates.
697.3 Notices of order.
697.4 Definitions of the button, buckle, and jewelry industry in Puerto Rico and its divisions.

AUTHORITY: §§ 697.1 to 697.4 issued under sec. 8, 52 Stat. 1064; 29 U. S. C. 208. Interprets or applies sec. 3, 54 Stat. 615; 29 U. S. C. 205.

§ 697.1 *Approval of recommendations of Industry Committee.* The Committee's recommendations are hereby approved.

§ 697.2 *Wage rates.* (a) Wages at a rate of not less than 46 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the pearl button and buckle division of the button, buckle and jewelry industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(b) Wages at a rate of not less than 40 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the button and buckle (other than pearl) and bead division of the button, buckle, and jewelry industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(c) Wages at a rate of not less than 30 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the rosary, necklace and native jewelry division of the button, buckle, and jewelry industry in Puerto Rico, who is engaged in commerce or in the production of goods for commerce.

(d) Wages at a rate of not less than 45 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the metal and plastic jewelry and miscellaneous products division of the button, buckle and jewelry industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

§ 697.3 *Notices of order.* Every employer employing any employees so engaged in commerce or in the production of goods for commerce in the button, buckle and jewelry industry in Puerto Rico shall keep posted in a conspicuous place in each department of his establishment where such employees are working such notices of this order as shall be prescribed from time to time by the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Division may prescribe.

§ 697.4 *Definitions of the button, buckle and jewelry industry in Puerto Rico and its divisions.* (a) The button, buckle, and jewelry industry in Puerto Rico, to which this order shall apply, is hereby defined as follows:

The manufacture from any material of buttons, buckles, jewelry (including rosaries), and jewelry findings (including beads): *Provided, however,* That the definition shall not include the cutting, grinding, polishing, and other processing of gem diamonds and other precious and semiprecious stones, and of natural or synthetic jewels for industrial use, including, but not by way of limitation, jewel bearings and industrial diamonds.

This definition supersedes the definitions contained in any and all wage orders heretofore issued for other industries in Puerto Rico to the extent that such definitions include products or operations covered by the definition of this industry.

(b) The separable divisions of the industry, as defined in paragraph (a) of this section, to which this wage order and its several provisions shall apply, are hereby defined as follows:

(1) *Pearl button and buckle division.* The manufacture of buttons and buckles from ocean pearl and other natural shells.

(2) *Button and b*

PART 1—ESTABLISHMENT AND ORGANIZATION OF THE POST OFFICE DEPARTMENT

MISCELLANEOUS AMENDMENTS

In Part 1, make the following changes:

1. Amend § 1.3 to read as follows:

§ 1.3 *Authority to appoint officers*—(a) *Reorganization Plan No. 3 of 1949*—(1) *Deputy Postmaster General.* There shall be in the Post Office Department a Deputy Postmaster General, who shall be appointed by the President by and with the advice and consent of the Senate, shall perform such duties as the Postmaster General may designate, and shall receive compensation * * * as may be provided by law for the under secretaries of executive departments after the date of transmittal of this reorganization plan to the Congress. (Sec. 2, Reorg. Plan No. 3 of 1949)

NOTE: See Pub. Law 359, approved October 15, 1949, as to compensation.

(2) *Assistant Postmasters General.* There shall be in the Post Office Department four Assistant Postmasters General, who shall be appointed by the President by and with the advice and consent of the Senate, shall perform such duties as the Postmaster General may designate, and shall receive compensation * * * as may be provided by law for the assistant secretaries of executive departments after the date of transmittal of this reorganization plan to the Congress. (Sec. 3, Reorg. Plan No. 3 of 1949)

NOTE: See Pub. Law 359, approved October 15, 1949, as to compensation.

(3) *Advisory Board.* There is hereby established an Advisory Board for the Post Office Department of which the Postmaster General shall be chairman and the Deputy Postmaster General the vice chairman. The Board shall have seven additional members, representative of the public, who shall be appointed by the President by and with the advice and consent of the Senate. The members so appointed shall each receive compensation of $50 per diem when engaged in duties as members of the Board (including travel time to and from their homes or regular places of business) and reasonable subsistence and travel expense as determined by the Postmaster General. The Board shall meet quarterly at the seat of the Government in the District of Columbia, or at such other time and place as the Postmaster General shall determine for the purpose of considering methods and policies for the improvement of the postal service, and shall advise and make recommendations to the Postmaster General with respect to such methods and policies. (Sec. 4, Reorg. Plan No. 3 of 1949)

(4) *Agencies abolished.* (i) There are hereby abolished the Bureau of Accounts in the Post Office Department (including the office of Comptroller) and the office of Purchasing Agent for the Post Office Department. (Sec. 5, Reorg. Plan No. 3 of 1949)

PART 1—ESTABLISHMENT AND ORGANIZATION OF THE POST OFFICE DEPARTMENT

BUREAU OF POST OFFICE OPERATIONS; ASSIGNMENT OF DUTIES

Section 1.10 is amended to read as follows:

§ 1.10 *Bureau of Post Office Operations*—(a) *Duties.* The Assistant Postmaster General in charge of the Bureau of Post Office Operations is charged with the general management of post offices and instruction of postmasters, including all matters relating to the establishment, discontinuance, changes of names, hours of service, organization, maintenance, and other service matters of post offices, classified and contract stations and branches, and rural stations; with the selection and preparation for nomination of postmasters at post offices of the first, second, and third classes, and the appointment of postmasters at offices of the fourth class; with the bonding and commissioning of postmasters; with the keeping of a record of the appointment of postmasters; with the obtaining, recording, and filing of bonds and oaths of office and issuance of postmasters' commissions; with the consideration of charges and complaints against postmasters; with the authorization of Army mail clerks and Assistant Army mail clerks, and the supervision of the performance of their official duties; with the handling of all personnel matters relating to employees, paid from the appropriations apportioned to the Bureau of Post Office Operations, including the fixing of the quotas of necessary employees in all such post offices, stations and branches; with the authorization and granting of all allowances for assistant postmasters, supervisors and clerk hire at all post offices, city and village carrier hire, parcel post and collection carriers, special delivery messengers, carfare and bicycle hire, including allowances for vehicle hire in connection with village delivery service, and other expenses connected with post offices; with the supervision of the treatment of all undeliverable and unmailable mail matter sent to dead-letter and dead parcel-post branches for disposition; with the enforcement of the prompt sending and examination of such mail matter according to regulations; with the authorization of official sealing and postmarking machines, and the authorization of postmarking dies in post offices, not including the cancellation marks; with the establishment, location, organization and management, maintenance, hours of service, and conduct of city, village, special and parcel-post delivery service, including collection service; with the mounted and foot delivery and collection; with the bicycle and automotive service; with the conduct and management of the Detroit River Postal Service, including contract for boat; with consideration of all matters pertaining to the delivery and collection service, except as otherwise assigned; with the establishment, extension, consolidation and discontinuance of rural routes; with the maintenance and conduct of the service and the maintenance of all necessary records concerning the rural carriers and the correct mileage of all rural routes; in collaboration with the Administrative Assistant to the Postmaster General, with the development of the Bureau's budget program designed to assure the provision of adequate funds for normal postal operation and necessary expansion of the Postal Service to meet population growth and community development; with the preparation of the Bureau's budget estimates and coordinating the Bureau's budget affairs with those of the Administrative Assistant to the Postmaster General and the Bureau of the Budget; with the determination and maintenance of the accounting procedure necessary to control disbursements to reflect the status of allotments made to the Bureau at all times; with control authorizations and granting of allowances for miscellaneous service items at first- and second-class post offices, such as telephone and telegraph, cleaning and travel expenses, purchase of medical supplies for first aid units, and the like, the separating of mails, and unusual conditions at fourth-class post offices; and with the preparation and keeping of necessary journals and records and making annual adjustments of salaries of postmasters. He shall serve as a member of the Postmaster General's Staff, and perform such other duties as the Postmaster General may direct.

(b) *Executive Director, Bureau of Post Office Operations.* The Executive Director, Bureau of Post Office Operations, is charged with the coordination and general supervision of the activities of the Bureau; aiding and assisting in the formulation of plans and policies; and performing such other duties as the Assistant Postmaster General in charge of the Bureau of Post Office Operations may direct. He shall act as head of the Bureau during the absences of the Assistant Postmaster General in charge of the Bureau of Post Office Operations or during vacancy of the office of Assistant Postmaster General in charge of the Bureau of Post Office Operations.

(c) *Assistant Executive Directors, Bureau of Post Office Operations.* There shall be two Assistant Executive Directors for the Bureau of Post Office Operations, who, as designated by the Assistant Postmaster General in charge of the Bureau of Post Office Operations, shall exercise general supervision over the divisions of the Bureau and perform such other duties as may be delegated to them by the Assistant Postmaster General in charge of the Bureau.

(d) *Divisions of the Bureau of Post Office Operations, and assignment of duties.* There shall be in the Bureau of Post Office Operations a Division of Budget and Administrative Services, a Division of Rural Service, a Division of Postmasters, a Division of Post Office Personnel, a Division of City Delivery, and a Division of Clerical Service. Each said division shall be under the supervision of a Director. The Directors of the said divisions and the other personnel of the Bureau of Post Office Operations shall perform such duties as are assigned by the Assistant Postmaster General in charge of the Bureau.

(e) All post offices in the United States, its territories and possessions are field branches of the Post Office Department, and of the Bureau of Post Office Operations. Each post office is under the general supervision of a postmaster and is charged with providing postal facilities and administering the postal affairs to the communities they serve. Postmasters receive complaints regarding mishandling or mistreating of the mails and loss or nondelivery thereof and all requests for information on purely local postal matters, sending to the Post Office Department such of the complaints and inquiries as they may deem necessary. Complaints involving the conduct of a postmaster should be directed to the Bureau of Post Office Operations. Complaints should be in writing, complete as to detail, and on the prescribed form when available.

(f) Historical and statistical records of public interest pertaining to the Postal Service are on file in the Bureau of Post Office Operations, Washington 25, D. C., and are available at that place to all persons properly or directly concerned.

(g) Detailed instructions on procedure are available in the current issue of the United States Official Postal Guide, Part I for domestic mail, and Part II for foreign mail, and in the current issue of the Manual of Instructions for Postal Personnel. There is also available a list of post offices showing post office receipts and salaries of postmasters published annually. The Postal Laws and Regulations also outline procedures and statutes governing the conduct of the Postal Service. The Postal Bulletin issued twice weekly is an informative publication on procedure and policy. These publications are available at all post offices or may be secured from the Government Printing Office, Washington 25, D. C.

(3) Except such claims as are reserved for adjustment by the Department, the postmaster at Washington, D. C., is authorized to pay limited indemnity claims, not to exceed $200, arising from the loss or rifling of, or damage to insured and unregistered collect-on-delivery articles mailed at Washington, D. C. Claims for indemnity involving parcels mailed at Washington, D. C., are, upon completion, sent to the postmaster at Washington, D. C.

(4) Claims involving both insured and c. o. d. parcels mailed at post offices in Alaska are, upon completion, sent to the postmaster at Seattle, Washington.

(5) Claims for indemnity involving parcels mailed at or addressed to post offices in Hawaii are, upon completion, sent to the postmaster at Honolulu, if the payees are located in Hawaii, but if the payees are located elsewhere in the United States, the claim papers are sent to the postmaster at San Francisco, California.

(6) Claims for indemnity involving parcels mailed at or addressed to post offices in Puerto Rico are, upon completion, sent to the postmaster at San Juan, Puerto Rico, if the payees are located in Puerto Rico; but if the payees are located elsewhere in the United States, the claim papers are sent to the postmaster at New York, N. Y.

(7) Claims for indemnity involving parcels mailed at or addressed to post offices in the Virgin Islands are, upon completion, sent to the postmaster at San Juan, Puerto Rico, if the payees are located in the Virgin Islands or Puerto Rico; but if payment is to be made elsewhere in the United States, the claims for indemnity are sent to the postmaster at New York, N. Y.

(f) *Requests for information.* (1) Information regarding the registration of valuable mail matter, insurance of parcels, and sending of articles collect-on-delivery, to domestic destinations, fees, and limits of indemnity, and the advantages to be derived from the use of each of the services may be obtained at any post office or station or branch thereof.

(2) Information concerning certificates of mailing of domestic ordinary mail of any class, or additional receipts, or certificates of mailing of any domestic ordinary, registered, insured, or collect-on-delivery mail, may be obtained at any post office or station or branch thereof. Requests for such receipts or certificates of mailing must be made at the offices at which the articles are mailed.

(3) Applications for the registration of mail may be made at a post office, branch, or station, or to a city, village, or rural delivery carrier.

Mail intended for registration should never be placed in a street letter box or an ordinary mail drop. It must be presented for registration and a receipt obtained at the time showing, in addition to such other particulars as may be required by the Department, the number of the article, the amount of registry fee paid, the class of postage paid, the amount of surcharge, if any, paid, and any fees paid for special services, such as return receipt, restricted delivery, special delivery, and the postmark showing date and place of registration.

(4) At the time of mailing, or after mailing, of a domestic registered article, the sender may make request for a return receipt showing to whom and when the article was delivered, or at the time of mailing only, the sender may make request for a return receipt showing to whom, when and the address where the mail was delivered, upon payment of the prescribed fee.

(5) The sender may restrict the delivery of registered mail by indorsing each such article on the address side "Deliver to Addressee Only," or "Deliver to the Addressee or Order," or with words of similar import, upon payment of the required fee.

(6) When the sender of registered mail desires to reclaim or recall it at any time before delivery, application may be made to the mailing postmaster.

(7) Requests for firm mailing books by patrons who customarily present for registration, insurance, or collection-on-delivery, an average of three or more articles at one time may be made at any post office.

(8) Requests for information as to the proper method of packing and wrapping of articles intended for registration, insurance, or collection-on-delivery, may be made at any post office, or station or branch thereof.

(9) Requests for information regarding the sending of inquiries for domestic registered, insured, or c. o. d. mail and the charges therefor, if any, may be obtained at any post office.

(10) Requests for insurance of parcels may be made at a post office, or branch or station, or to a rural carrier. Matter intended for insurance may be left in a rural patron's mail box for collection, provided sufficient stamps are affixed for postage and fee, or money therefor is left in the box, and the article is properly packed and marked "Insured." A note should be left in the rural box stating contents and what part of the stamps or money represents the insurance fee.

(11) Requests that articles be sent collect-on-delivery may be made at a post office, or station or branch, or to a rural carrier. Matter intended for collection-on-delivery may be left in a rural patron's box for collection, provided sufficient stamps are affixed for postage and fee, or money therefor is left in the box, and the article is properly packed and marked "c. o. d." A c. o. d. tag must be properly filled in and attached to the article. A note should be left in the rural mail box stating the contents of the article if other than first class matter, and what part of the stamps or money represents the c. o. d. fee.

(12) At the time of mailing and upon payment of the required fee, the sender may request restriction in delivery of an insured or c. o. d. parcel by indorsing each such article on the address side "Deliver to Addressee Only," or "Deliver to the Addressee or Order," or with words of similar import.

(13) Requests for information regarding the use of multiple forms providing in one operation, by carbon process, address labels, firm mailing and post office records, and in the case of c. o. d. mail, labels to be affixed over the corresponding portions of the official c. o. d. tags, and for information concerning the use of recapitulation sheets in conjunction with these multiple forms, may be made at any post office.

(14) The sender may, upon the payment of the required fee, request that the amount originally stated as due him on delivery of a c. o. d. parcel be increased (not to exceed $200), decreased, or canceled, or the parcel delivered to a new addressee at the office where it is held.

(15) When the sender of a c. o. d. parcel is advised by the addressee that it has not been received, and a sufficient length of time has elapsed from the date of mailing for the parcel to have been received at the office of address in the usual course of the mails and delivered to the addressee, inquiry may be made at the mailing post office or branch or station thereof. However, if such advice is dated at least ten days from the date on which the parcel should have reached the office of address and been delivered to the addressee, claim for indemnity may be filed.

(16) When the sender of a c. o. d. parcel is advised that it was received by the addressee with all or a part of the contents missing or damaged, claim for indemnity may be made without preliminary inquiry.

(17) When the sender of a c. o. d. parcel fails to receive a c. o. d. money order at the expiration of at least ten days following the date of mailing, in addition to the time limit for retention specified by the sender, or the parcel itself is not returned as undelivered at the expiration of a similar period, inquiry may be made at the mailing post office or branch or station thereof for the parcel.

(18) Written complaints concerning the disposition or delay (as distinguished from loss or rifling of, or damage to), domestic registered mail, including that exchanged with the Canal Zone, and applications for indemnity on account of the loss or rifling of, or damage to, domestic registered mail, including that exchanged with the Canal Zone, may be made at any post office.

(19) Information concerning refunds of postage paid on domestic registered, insured and collect-on-delivery mail may be obtained at any post office. Request for refunds of any postage paid on domestic registered, insured, or collect-on-delivery mail for which service was not rendered, or was collected in excess of the lawful rate, may be made in writing at the office where mailed.

(20) Request for information concerning the status of claims involving domestic registered mail should be addressed to the Bureau of Finance, Washington 25, D. C. Requests for reports of the status of claims involving domestic insured or collect-on-delivery mail should be addressed to the designated paying postmaster.

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR, Part 699]

MINIMUM WAGE RATES IN THE TEXTILE AND TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO

NOTICE OF PROPOSED RULE MAKING

On October 27, 1949, pursuant to section 5 of the Fair Labor Standards Act of 1938, as amended, hereinafter called the act, I, as Administrator of the Wage and Hour Division, United States Department of Labor, by Administrative Order No. 389, appointed Special Industry Committee No. 6 for Puerto Rico, hereinafter called the Committee, and directed the Committee to investigate conditions in a number of industries in Puerto Rico specified and defined in the order, including the Textile and Textile Products Industry, and to recommend minimum wage rates for employees engaged in commerce or in the production of goods for commerce in such industries.

For purposes of investigating conditions in and recommending minimum wage rates for the Textile and Textile Products Industry, in Puerto Rico, the Committee included three disinterested persons representing the public, a like number representing employers, and a like number representing employees in the Textile and Textile Products Industry, and was composed of residents of Puerto Rico and of the United States outside of Puerto Rico.

After investigating economic and competitive conditions in the Textile and Textile Products Industry in Puerto Rico, the Committee filed with me a report containing (a) its recommendation that the industry be divided into separable divisions for the purpose of fixing minimum wage rates; (b) the titles and definitions recommended by the Committee for such separable divisions of the industry; and (c) its recommendations for minimum wage rates to be paid employees engaged in commerce or in the production of goods for commerce in such divisions of the industry.

Pursuant to notice published in the FEDERAL REGISTER on February 25, 1950, and circulated to all interested persons, a public hearing upon the Committee's recommendations was held before Hearing Examiner Clifford P. Grant, as presiding officer, in Washington, D. C., on March 30, 1950, at which all interested parties were given an opportunity to be heard. After the hearing was closed the record of the hearing was certified to me by the presiding officer.

Upon reviewing all the evidence adduced in this proceeding and after giving consideration to the provisions of the act, particularly sections 5 and 8 thereof, I have concluded that the recommendations of the Committee for minimum wage rates in the Textile and Textile Products Industry in Puerto Rico, as defined, were made in accordance with law, are supported by the evidence adduced at the hearing, and, taking into consideration the same factors as are required to be considered by the Committee, will carry out the purposes of sections 5 and 8 of the act.

I have set forth my decision in a document entitled "Findings and Opinion of the Administrator in the Matter of the Recommendations of Special Industry Committee No. 6 for Puerto Rico for Minimum Wage Rates in the Textile and Textile Products Industry in Puerto Rico," a copy of which may be had upon request addressed to the Wage and Hour Division, United States Department of Labor, Washington 25, D. C.

Accordingly, notice is hereby given, pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001) and the rules of practice governing this proceeding (15 F. R. 1049), that I propose to approve such recommendations of the Committee and to issue a wage order for the Textile and Textile Products Industry in Puerto Rico to read as set forth below to carry such recommendations into effect. Interested parties may submit written exceptions within 15 days from publication of this notice in the FEDERAL REGISTER. Exceptions should be addressed to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C. They should be submitted in quadruplicate, and should include supporting reasons for any exceptions.

AUTHORITY: §§ 699.1 to 699.4 issued under sec. 8, 63 Stat. 915; 29 U. S. C. 208. Interpret or apply sec. 5, 63 Stat. 911; 29 U. S. C. 205.

§ 699.1 *Approval of recommendations of Industry Committee.* The Committee's recommendations are hereby approved.

§ 699.2 *Wage rates.* (a) Wages at a rate of not less than 25 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the Hand-Loomed Textile Division of the Textile and Textile Products Industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(b) Wages at a rate of not less than 30 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the Cotton Ginning and Compressing Division of the Textile and Textile Products Industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(c) Wages at a rate of not less than 50 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the Mattress, Quilt and Pillow Division of the Textile and Textile Products Industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(d) Wages at a rate of not less than 32½ cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the Hard-Fiber Products Division of the Textile and Textile Products Industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(e) Wages at a rate of not less than 30 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the General Division of the Textile and Textile Products Industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

§ 699.3 *Notices of order.* Every employer employing any employees so engaged in commerce or in the production of goods for commerce in the Textile and Textile Products Industry in Puerto Rico shall post and keep posted in a conspicuous place in each department of his establishment where such employees are working such notices of this order as shall be prescribed from time to time by the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Division may prescribe.

§ 699.4 *Definitions of the Textile and Textile Products Industry in Puerto Rico and its divisions.* (a) The Textile and Textile Products Industry in Puerto Rico, to which this order shall apply, is hereby defined as follows:

The preparation of textile fibers, including the ginning and compressing of cotton; the manufacture of batting, wadding, and filling; the manufacture of yarn, cordage, twine, felt, woven and knitted fabrics, and lace-machine products, from cotton, jute, sisal, coir, maguey, silk, rayon, nylon, wool or other vegetable, animal, or synthetic fibers, or from mixtures of these fibers; and the manufacture of blankets, textile bags, oil cloth and artificial leather, woven carpets and rugs, mattresses, quilts and pillows: *Provided however*, That the definition shall not include the chemical manufacturing of synthetic fiber and such related processing of yarn as is conducted in establishments manufacturing synthetic fiber.

This definition supersedes the definitions contained in any and all wage orders heretofore issued for other industries in Puerto Rico to the extent that such definitions include products or operations covered by the definition of this industry.

(b) The separable divisions of the industry, as defined in paragraph (a) of this section, to which this order and its several provisions shall apply, are hereby defined as follows:

(1) *General division.* This division consists of all products and activities included in the Textile and Textile Products Industry, as defined in this section, except those included in the Cotton Ginning and Compressing Division, the Mattress, Quilt, and Pillow Division, the Hand-Loomed Textile Division, and the Hard-Fiber Products Division, as defined in this section.

(2) *Cotton ginning and compressing division.* This division consists of the ginning and compressing of cotton.

(3) *Mattress, quilt and pillow division.* This division consists of the manufacture of mattresses, quilts and pillows.

(4) *Hand-loomed textile division.* This division consists of the manufacture from any fiber of hand-loomed fabrics, blankets, rugs and similar textiles.

(5) *Hard-fiber products division.* This division consists of the manufacture from kenaf, coir, sisal, jute or other hard or coarse textile fiber or mixtures of these fibers of yarn, bagging, bags, rope, matting and similar textiles and textile products.

Signed at Washington, D. C., this 18th day of July 1950.

FEDERAL POWER COMMISSION

[18 CFR, Part 34]

[Docket No. R–114]

PURCHASE OR UNDERWRITING OF SECURITIES

ORDER FIXING DATE FOR ORAL ARGUMENT

JULY 12, 1950.

In the matter of amendment of Part 34 of the general rules and regulations to prescribe revised requirements for public invitation of proposals for the purchase or underwriting of securities subject to the provisions of sections 19, 20, or 204 of the Federal Power Act.

The Commission under date of April 18, 1950, entered its Order No. 152 in the above entitled rule-making proceeding, amending Part 34 of the general rules to require public invitation of proposals for the purchase or underwriting of securities, and excepting, inter alia, from such requirements bonds, notes, or other evidence of debt, of a maturity of five years or less, issued to a commercial bank, insurance company, or similar institution, not for resale to the public.

In adopting the amendment the Commission fixed the aforesaid maturity of five years in lieu of ten years as set out in the notice of proposed rule-making, dated January 24, 1950, after consideration of a written repsonse to that notice suggesting the change.

Prior to May 25, 1950, the effective date of the amendment, numerous communi-

cations were received requesting that the effective date of the amendment be stayed pending the filing of data showing that the exemption should apply to bank loans with maturities of up to ten years. The Commission denied the requests for stay but in response to such communications indicated that it would consider any views and supporting data filed on or before June 26, 1950, relevant to that question.

Subsequently, such views and supporting data were received from Bank of Manhattan Company, Central Hanover Bank and Trust Company, Chemical Bank and Trust Company, Irving Trust Company, the National City Bank of New York, Bankers Trust Company, the Chase National Bank of the City of New York, the First National Bank of the City of New York, Manufacturers Trust Company, the New York Trust Company, the Northern Trust Company, First National Bank of Boston, Mellon National Bank and Trust Company, Gulf States Utilities Company, the First National Bank of Chicago and Edison Electric Institute.
